

## Amazing how all those BLM and Antifa riots have vanished into thin air (politics)

It's almost like someone stopped paying for them.

They went real quiet right about the same time the Saudi princes were arrested.

That is an interesting idea. Are you sure about that? What is the timeline

Well - the Vegas attack was Oct 01/17 - exactly one week later - on Sunday Oct 08/17 Napa Valley and more was torched - with six different fires started simultaneously - rumored to have been contracted to MS13 - the same people associated with the dead shooters found the morning after the hit on Seth Rich - Then on OCT 17/17 it is announced Soros just moved \$18 billion to the Open Society Foundation (known financier of Antifa)

Meanwhile Antifa was announcing the start of the new communist revolution for Nov 04/17 - and as far as I am concerned Antifa and BLM have the same puppet master -

Antifa has a known membership in the USA of more than 1 million people - and have been promoting firearms training the last few months -

In 2013/14 the democratically elected government of the Ukraine was overthrown by people with known very close ties to the Obama/Clinton/Soros crowd by filling the streets with unarmed protesters, then using military snipers (possible contractors/mercs) to shoot the police

under the cover of the protests - forcing the police to fall back = Modus Operandi

But it also was Nov 04/17 that the (close associates of Clinton/Obama/Soros) Saudi prince arrests started - taking about \$1 trillion in assets off the table - Now it is safe to assume the arrests began prior to the public announcement of the arrests - so maybe they began X number of days/hours prior to Nov 4th?

That's when the Antifa revolution of 04/17 flopped - a big no show - rumor was the famous fleets of private contract buses that normally pick up the paid Antifa agitators were never deployed - so no buses = no rioters = no riots.

Could be the buses did not deploy because payment did not arrive?

Meanwhile the Army had announce they would be conducting drills in several target US cities for the same weekend as the scheduled protests - and that those drills would involve responding to the loss of all power and telecommunications in those cities, (total blackout,) but that the people should not worry because the army was ready and would "handle it."

Sure it could be a coincidence - but the timing is pretty damned convenient if you ask me.

I think it's a mix of both. They were getting paid, and they hung out when it was warm. Now that's it's gotten cold they prefer to be comfortable in their welfare home.

You forget the Minneapolis cop who shot the guy going for his gun after they loaded his girlfriend onto an ambulance that he assaulted the shit out of. He tried attacking the medics when police intervened.

The protesters shut down Plymouth Ave. Outside the 4th precinct for days, had bon fires to get warm.

That's true but I don't think we're out of the woods yet. Soros' funding is probably going into deeper things in our everyday lives.

His filthy tentacles stretch right across the world. He also funds Gun Free South Africa, which is actively

campaigning for civil disarmament of the (largely) white legally held firearm community.

Resource destruction. Probably the wrong way to put it.. But i am expecting that many major staples will be bought up or made very expensive. Trying to force a riot is hard.. unless you control the resources.

Correct. Mostly people are very passive unless they are paid to be aggressive.

The target audience was seeing right through it. Now they're targetting the normies with making the Nigger Football League kneel and having ESPN being 24/7 racial talk.

All of them are too busy in Macy's and Bloomingdale's embracing capitalism in the run up to the Christmas holidays. Once the festive period is over they will then go back to being socialists that care so much about others. This switch will happen on exactly January 2nd, 2018.
