

## THE POLITICAL CRONY CORRUPTION STOCK MARKET PAYOLA SLUSH-FUND

### WHAT DOES THIS EVIDENCE, & THE FILED LAW ENFORCEMENT DATA, PROVE ABOUT THIS CRIME CARTEL?

That a business Cartel of men operate a racketeering operation, as a criminal "*enterprise*", between Silicon Valley & Washington – DC. This Cartel manipulates elections, public news & taxpayer funding policies via organized collusion in violation of RICO, anti-trust & other laws and regulations. The perpetrators are all connected in the following ways:

- That US. Government officials had top-level, command-control-management-operations and financing authority over all of the crimes, deeds, actions, attacks, reprisals, schemes and enforcement avoidance described herein and thus bear the liability for the harms to Plaintiffs.
- That this cartel is comprised of warped, megalomaniac, sexually addicted & abusive people, many of whom met and conspired at Stanford University, who protect each other with billions of dollars of cover-ups involving the bribery of Senators with insider trading stock & covert, 'Dark Money' campaign financing.
- That this cartel receives hundreds of billions of dollars of profits from their crimes, much of it re-routed from the US. Treasury. Their lust for power & money causes them to stoop to extortion, black-lists, government funding blockades & other crimes, in order to gather their ill-gotten gains at the expense of the public.
- That FINCEN, Interpol, The SEC, ICIJ.org, and our investigators, have tracked all of the stock market payola accounts, bribes and payola between all of the public officials, which any court may ask to see.

- That these suspects, who are mostly White House officials, federal agency bosses & members of Congress, defrauded the victims out of tens of millions of dollars via their crony-corruption, insider-trading, stock market scams. They then ordered attacks on the victims when the victims told the FBI, Congress & FTC about the crimes.

- That the Suspects refuse to allow a jury trial, they have blockaded their victims legal rights, they run reprisal attacks using government agencies & taxpayer resources & refuse to pay earned benefits & compensation in vendetta for getting their corruption exposed. Victims have worked in related government programs & known perpetrators intimately for decades. The victims, and expert witnesses can swear, warrant and certify to the veracity of these assertions in front of a Jury and/or Congress.

- That the investors of Google, Facebook, Twitter, Amazon, Ebay, Netflix & a related set of Silicon Valley monopolies conspire in these efforts to manipulate the stock market, lie to advertisers & bias all digital news & information, globally, to push their selfish ideologies.

- That Senators Pelosi, Feinstein, Boxer, Harris, Reid have an active criminal participation in, & benefit from, these efforts & that they, in fact, along with Steven Chu had illicit dealings with offshore financiers & they are paid with insider trading stock, revolving door jobs, & other covert payola.

- That Google, Facebook & Twitter have rigged & manipulated U.S. elections since Barack Obama was elected.

- That the U.S. Department of Energy & the U.S. Department of Justice were used as an illicit slush-fund by the Obama Administration to pay campaign financiers & to sabotage their competitors.

- That government officials hired &/or financed &/or directed deadly economic & character assassination hit jobs against those who reported these crimes using attack services from IN-Q-Tel, Gawker Media, Jalopnik, Gizmodo Media, K2 Intelligence, WikiStrat, Podesta Group, Fusion GPS, Google, YouTube, Alphabet, Facebook, Twitter, Think Progress, Media Matters, Black Cube, Mossad, Correct The Record, Stratfor, ShareBlue, Wikileaks, Cambridge Analytica; the owners of whom have been proven to have accepted compensation for such hatchet job services.

- That the "*The PayPal Mafia*" is an actual Cosa Nostra-like operation that exploits sex cults, prostitutes, gay rent boys & market rigging as illicitly as the old Chicago "Mob".

- That Tesla Motors is a criminal Dark Money front that "cooks the books", lies about safety issues & runs sabotage campaigns through Musk's massive use of Russian bots, trolls, stock shells & his covert manipulations with Google's Larry Page, Sergey Brin, Kent Walker, David Drummond & Eric Schmidt.

- That the evidence proves that agency officials play a game of "pass-around" to other agencies

when this matter is reported to them in order to stall, delay, stone-wall, obfuscate, cover-up & hide the political embarrassment of these crimes.

- That the evidence proves that Department of Energy & White House officials lied through their teeth, hundreds of times, in order to benefit their crony friends & campaign financiers & sabotage their competitors. It was proven in thousands of news reports, documentaries, FBI reports, Congressional investigations, leaked documents, insider reports & our own eye-witness testimony.

- That the evidence proves the assertions of corruption, stock-market manipulation, monopoly, industry gate-keeping, character assassination, revolving-door job payola at Silicon Valley tech companies, tax evasion & more.

- The evidence proves that the government reviewers and government officials involved with victims applications were insider trading in the stock market against the victims. They were getting paid to destroy the victims financial future with stock market perks and payola from victims competitors.

- That it is proved, via investigators & law enforcement peers, that no investigator can find any past reviewers of this case who were not hand-picked by the "Cartel". Victims, and news media, have asked Congress to provide any evidence that this case has been fairly reviewed in the past, without bias.

- FBI-class associates have not found a single entity in these case reviews or determinations who was not either: financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators & Department of Energy politicians that those business adversaries pay campaign finances to, or supply political digital services to.

- That, from 2008 forward, The White House & The Department Of Energy were controlled by the Silicon Valley tech oligarchs! That is a violation of the law, the Constitution & the American Way & we have proved that.

- That the Big Tech oligarchs get protections and law enforcement waivers due to domestic spying on the public quid pro quo between shareholders of the companies in the White House and Congress. <http://privacytools.io> -- Investigation report clips say: "...Google, Netflix, YouTube, Facebook, etc. exist to mass manipulate populations and run stock market scams for their sociopath owners. From INSIDE Google, our team saw Google manipulate the entire internet to hype up Larry Page's "boyfriend": Elon Musk and Tesla, which Google execs owned a portion of, while sabotaging Tesla's competitors. Google illicitly and illegally timed these manipulations with stock market pump-and-dump efforts to exploit insider trading. That is a felony violation of RICO, Antitrust and other laws. Every single thing that Google does is contrived to harm a competitor, a politician, an employee whistle-blower or some other business adversary. There are no "bugs", "operator errors", "server anomalies" or other media "accidents" at Google. Everything Google does is contrived, at a psychological warfare kind of level, to change a social perception. Google must show its software to FBI, SEC, FTC and our search engine optimisation experts to prove that they did not engage in these crimes. The fact is: We can prove they did the crimes and FBI experts can help us prove it! Google is known as the "Nazi's of the Internet". In a case unfolding in Britain over whether Google wrongly demoted price comparison rival Foundem from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws. The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking. Google is a criminal operation. It's executives have been publicly exposed as participants in horrific sex scandals, money laundering, political bribery and racism. It is time for the bought and paid shill politicians to stop protecting them! - Google spies on competitors and steals their technology - Google runs tens of millions of dollars of defamation attacks against competitors - Google hides all media and news coverage for competitors of Larry Page's boyfriend: Elon Musk - Google lies to the public about what they really do with the public's data - Google promotes illegal immigration in order to get cheap labor and control votes - Google runs VC funding back-lists against start-ups that are competitive - Google bribes thousands of politicians - Google is a criminal RICO-violating monopoly - Google rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks - Google pays bribes to politicians in Google and YouTube stock - Google manipulates who gets to see what web-sites, globally, for competitor black-lists - Google has a "no poaching" Silicon Valley jobs blacklist - Google bosses sexually abuse women and young boys - Google bosses run sex trafficking operations in the Epstein and NXVIUM cults - Google bosses control the NVCA financing cartel over start-ups - Google has placed the majority of the corporate staff in at least one White House - Google controls national elections for anti-competitive purposes - The company "Polyhop", in the HOUSE OF CARDS tv show, does all the crimes that Google actually does in reality - Google's law firms, like Wilson Sonsini, are corrupt conduits for payola and political conduit-relays - Payment receipts prove that Google and Gawker/Gizmodo exchanged cash and staff for Character Assassination attacks - Google VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Google and harm Google competitors - Google bribed it's lawyer into position as head of the U.S. Patent office in order to have her protect Google - To rig insider stock trades, Google hides negative Tesla stories and pumps positive Tesla stories on "push days"..."

Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, & entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean..."

When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner. They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption. They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime'. The retribution tactics were audacious, overt..and quite illegal. - There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you can easily see how they only get a salary of \$190K per year but put hundreds of millions of dollars in their accounts that all traces back to special interest groups that tell them what laws to make & what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day. These Senators have "rules" that delay investigations against themselves, though. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate! The 2008 & 2021 "Stimulus Funds" were just scams cooked up by politicians for them to skim stock market pump-&-dump profits off of & grab personal payola. In all these corruption cases, these corrupt people took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading (notice that most of these crooks marry an investment banker to run their dirty schemes) & 3.) getting government contracts, loans & grants for their friends that they get kick-backs from. They then had their dirty law firms & CPA's shove the money into their standardized covert financial structure to hide it. They use family members to run the operation. Their dirty family members & lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc. The 2008 & 2021 "stimulus funds" are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing (FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians & their billionaires. the cover-ups are off-the-charts! these mobsters (Google, Tesla, Facebook, LinkedIn, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (...via cash, FTX, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice & blockade your, rights! There can be no question about the fact that Google, Facebook, Netflix, Tesla & the Silicon Valley Cartel control the Obama & Biden White House. It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk & his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists & bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) & Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave Musk over \$15B of free taxpayer money, 7.) get campaign financing from Musk, 8.) order government agencies to freeze funding for Musk's competitors, 9.) & engage in a vast number of other corruption & anti-trust crimes. Senators, Agency Heads & Congress are bribed by Google intermediaries with a vast number of stock, sex, real estate, marketing, search engine rigging and other shames..."

Investigation report clips include : "...There is simply not enough rare earth chemicals in the Earth to ever permanently serve the electric car industry! Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet trolls used to say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is now the largest producer of black slavery on Earth.."

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys & buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page & Larry is Musk's investor & bromance buddy. Musk uses massive numbers of shell companies & trust funds to self-deal, evade the law & hide his bribes & stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians & oncoming drivers have also been killed, & Musk covers it up. The DNC & the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers & co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff & assign them to "dirty tricks teams" to attack his competitors & elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy & political manipulation tools - never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. Musk is a lying con artist & partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of men who rig stocks & valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! That is why no full investigation of the Musk scams has ever been completed. Google's Eric Schmidt & Larry Page have a bromance relationship with Musk & use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks & sabotage those financiers competitors using taxpayer-financed resources! There are not enough minerals on Earth to power all the electric cars with batteries. Only fuel cells, which get their fuel from ocean water or organic waste, can solve the problem. Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up. The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects. Hydrogen can be produced from diverse domestic resources with the potential for near-zero greenhouse gas emissions. Once produced, hydrogen generates electrical power in a fuel cell, emitting only water vapor and warm air. It holds promise for growth in both the stationary and transportation energy sectors. When used to power highly efficient fuel cell electric vehicles, hydrogen holds the promise of helping strengthen national energy security, conserve fuel, and diversify our transportation energy options for a more resilient system. About half of the U.S. population lives in areas where air pollution levels are high enough to negatively impact public health and the environment. Emissions from gasoline and diesel vehicles—such as nitrogen oxides, hydrocarbons, and particulate matter—are a major source of this pollution. Hydrogen-powered fuel cell electric vehicles emit none of these harmful substances—only water (H<sub>2</sub>O) and warm air. The environmental and health benefits are also seen at the source of hydrogen production if derived from low- or zero-emission sources, such as solar, wind, and nuclear energy and fossil fuels with advanced emission controls and carbon sequestration. Because the transportation sector accounts for about one-third of U.S. carbon dioxide emissions, using these sources to produce hydrogen for transportation can cut greenhouse gas emissions. 1. Renewable and Readily Available: Hydrogen is the most abundant element in the Universe and despite the challenges associated with its extraction from water, is a uniquely abundant and renewable source of energy, perfect for our future zero-carbon needs for combined heat and power supplies. 2. Hydrogen is a Clean and Flexible Energy Source to support Zero-Carbon Energy Strategies: Hydrogen fuel cells provide an inherently clean source of energy, with no adverse environmental impact during operation as the byproducts are simply heat and water. Unlike biofuel or hydropower, hydrogen doesn't require large areas of land to produce. In fact, NASA have even been working on using hydrogen as a resource with*

*the water produced as a byproduct being used as drinking water for astronauts. This shows that hydrogen fuel cells are a non-toxic fuel source and therefore superior in this way to coal, natural gas and nuclear power which are all either potentially dangerous or hard to obtain. Production, storage and use of hydrogen will play an important role in driving further development of renewable energy, by balancing their intermittent supply modalities with the challenging end-user demands, avoiding the need for significant early investment to upgrade grid infrastructure. 3. More Powerful and Energy Efficient than Fossil Fuels: Hydrogen fuel cell technology provides a high-density source of energy with good energy efficiency. Hydrogen has the highest energy content of any common fuel by weight. High pressure gaseous and liquid hydrogen have around three times the gravimetric energy density (around 120MJ/kg) of diesel and LNG and a similar volumetric energy density to natural gas. .."*

Obama sought to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok & Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls "SPYGATE". It may well be that the surveillance that was conducted began with UK intelligence services & then was fed back to the White House of Barack Obama. Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency & cause the target victims to expend millions of dollars & years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors & personal enemies. By using this tactic, the attackers can drain the target victims funds & force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam. Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements & all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, & inter-member communications, since those companies were started, hacked or purchased. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email & text of a subject is quite easy with modern software & hacking techniques. A synthetically amplified, PR-agency optimized sex scam can destroy any target. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat & other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album & corporate database within minutes using modern super-computers. *information & run cover-ups. State & federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled & obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim. Some Victims found themselves strangely poisoned, not unlike the Alex&er Litvenko case. Heavy metals & toxic materials were found right after their work with the Department of Energy weapons & energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds & radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required. Victims employers are called, & faxed, & ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media & Gizmodo Media produce attack articles & defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs & internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet & that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers & policy directors of the Obama Administration..."*

It is all biased. Because Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users & populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested & fed upon by Silicon Valley. You don't hear about this, much, in the "main-stream news" because nearly half of Congress, White House staff & government agency bosses own the stock in the news broadcasters & receive billions of dollars of financing from them. Field agents from FBI, FINCEN, etc. have proven all of this but their bosses cover it up. Draper Fisher, Kleiner, Andressen, Sony Ventures, et al.. need to go to prison for running a mob-like, RICO-violating, intellectual property theft mill. The hacks and leaks at Sony Pictures Entertainment have exposed that the dark side of Hollywood is Silicon Valley. The new information reveals an insider vision of a company racked with sexism, office politics, high-school-level personality quibbles and a severe mine-is-bigger-than-yours territoriality culture. Sony and Silicon Valley oligarchs joined forces to rig the media. A number of lawsuits against Sony, from Lady GaGa to Sony's own employees, have revealed even more. An aspect of the revelations involves where Sony gets it's ideas from. A number of revelations

reveal that Sony seems to have established a process of "borrowing" technology and story ideas while "forgetting" to properly attribute or pay the sources. -- Some of the 'dirt' exposed included: - Sony finances Democrat Presidents in exchange for media 'favored nations' status over competitors. - Sony and Google coordinate political manipulation campaigns together. - Sony executives trade female entry-level staff like cattle at a 'ranch'. - Sony executives hire an insane amount of hookers, rent-boys and under-age sex providers.- Sony executives bribe their kids into colleges. - The good-old-white-jewish-boy club is alive and well at Sony. - ZERO DARK THIRTY was a political PR hype movie commissioned by the Obama Campaign using government resources. - Sony steals patents from anybody it wants. - Sony stole it's VR technology. - Sony stole its web video technology. - Sex deviancy is the rule at Sony. - Sony is a bunch of high-school whine babies who think their shit doesn't stink. - Sony spends millions and millions of dollars on political bribes. The kids at Sony seem to have been very naughty children. They let their IT system go to pot, and got hacked, and outed, as "racist", "misogynist", "campaign rigging", "high school tantrum throwing" kinds of people, per their own emails. Hollywood Reporter, The Verge, Wikileaks, and a variety of tabloids and pundits, have delighted in dissecting the fraternity house, inside antics, of Sony Pictures. Their boss got fired. They got ridiculed for turning "Zero Dark Thirty" into a, slightly fabricated, political vote-churn tool. Other execs got kicked to the curb. All of their financial, contracting, political cash layout, and tax dynamics were placed under investigation, and even more sketchy bits are shaking loose. These are the main influencers of a national political party & they are all involved in horrific sex perversions & abuses! That's right! Your public officials use federal agencies as dark-money laundering operations for their friends. If you are a taxpayer: You suffered damages! If you are an American business: You suffered damages! If you are Democracy: You were broken! If you were a tech mobster: You made out like a bandit! This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes! The Solyndra taxpayer, technology, financial & political disasters that began during the reign of Steven Chu at the Department of Energy typified the overt, organized crime, corruption & crony malfeasance of the

public funds. This trend was created via the back-door deals between 1.) the U.S. Department of Energy & audacious kick-back schemes created by 2.) Silicon Valley campaign financiers & the 3.) White House. This is the story of the racketeering schemes & scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam. Billions of dollars of stock & stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix & Sony Pictures search engine rigging & shadow-banning which is never reported to the FEC; Free rent; Male & female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing & mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes & Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors; Private jet rides & use of Government fuel depots (ie: Google h&ed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss & related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs & Deutsche Bank money laundering accounts & covert stock accounts; Free spam & bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, & their families, from owning ANY stock market stocks or securities! We have used private investigator, FBI resources & deep AI research to reveal that all government staff working on our application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, & your life, into one of their projects. Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's & their campaign financier friends. The fix was in & the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, & the public, got defrauded. Now the damages must be paid for, one way, or another. Every one of the insiders who did get government funding got it in the exact same size & order as their covert political campaign funding & stock market bribes to the deciders. Chamath Palihapitiya & other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess. Musk used crooked Senators to get his funds. Elon Musk is notorious for getting Department of Energy money by bribing public officials & placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy & in the White House. Foreign news outlets in our country exhibit the widespread "criminality" and "defamation tactics" of a mostly corrupt news media landscape. The Gawker/Gizmodo/Jalopnik tabloid empire is nothing more than an organized info-crime operation backed up by offshore money-laundering through Russia and the Ukraine. Despite widespread recognition of their deceptive conduct, fools still read these trash publications. There are massive conflicts of interest related to many news media outlets' conglomerate-

ownership as well and industry figures' financial and familial links to companies, interests, and people they ostensibly report on. 'Fake news' isn't the proper term. It's the 'propaganda arm of the Silicon Valley Socialist oligarchs' In most cases. It's no different than the Chinese Communist Party [and] the propaganda they put out. It's no different than what the Soviet Union did with the old Pravda media, and, quite frankly, it's no different than how Putin controls the media today, where 95 percent of his media in Russia is propaganda for the Putin regime. It's the same thing here with The Washington Post, NY Times, CNN, Hearst publications and all of the media owned by Hollywood and Silicon Valley. Partisan news media should be treated as such. News media outlets such as the CNN, the New York Times, and the Washington Post regularly describe themselves as "politically objective and non-partisan." In reality they are a propaganda machine for sick Silicon Valley oligarchs. For example, Elon Musk is one of the most corrupt men in the world yet the socialist propaganda news media won't cover any of his crimes and corruptions in their publications because he pays political bribes to keep his dark side hidden in their media. The public should not hurt legitimate news media outlets by engaging with and speaking to corrupt propaganda operations. One should only speak with genuine news media and not reward unethical companies with their time. Manipulation Techniques: A common tool Google, Facebook and Twitter use to exert control over their users. We all use manipulation at some point in our lives, whether it be telling a little white lie to get out of a situation, or using flattery to get what we want. For Google & Facebook, using manipulation is a way of life, and their first weapon in an arsenal of techniques to overpower their users and lead them down the garden path to rape their minds in the bushes of the internet. If you watch out for these CIA-like manipulation techniques, you can spot their tricks per [https://en.wikipedia.org/wiki/Robert\\_Epstein](https://en.wikipedia.org/wiki/Robert_Epstein) . Between all of the sex cult activity; hookers; rent boys; political bribes to Pelosi, Harris, Newson, & Feinstein; DDoS attacks they run; CIA & NSA stealth deals; privacy harvesting; Scientology-like employee indoctrination; cheap Asian labor; covert Axiom scams & other illicit things they get up to; one just has to wonder how the Big Tech oligarchs have time for anything else. Some of the largest political bribes in American, or European, history were paid via billions of dollars of pre-IPO cleantech stock, insider trading, real estate, "G" search engine rigging & shadow-banning, sex workers, revolving door jobs, nepotism, state-supported black-listing of competitors & under-the-table cash just to control mass media. Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures. - Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers..."

- That the Obama Administration used the U.S. Department of Energy as a campaign financier payola slush fund.

- That U.S. elected political officials hire & manage third party services to run reprisal campaigns against taxpayers & that those character assassination providers include: IN-Q-Tel, Think Progress, Black Cube, Podesta Group, EDS, Stratfor, Fusion GPS, IN-Q-Tel, Media Matters, Gawker Media,

Gizmodo Media, Syd Blumenthal, & other attack services which are illicitly compensated with laundered taxpayer resources.

- That the bribes & profiteering conduits for this scam are ignored by compromised FEC bosses & include: Dark Money fronts; family trust floats; shell corporation layering; insider trading in tech companies; revolving door jobs at Netflix, Google, etc; prostitutes; sports suites; political campaign search engine rigging, bot attacks & other illicit payola fund by the Obama Administration to pay campaign financiers & to sabotage their competitors.

- That the AI forensics of the FBI, Clearview, Yandex, NSA & thousands of other robotic investigation tools have been chugging away for years accruing all of the key connections, bank accounts, financial records, phone calls, payments to hookers & more. The journalists have produced thousands of hours of proof videos & tens of millions of pages of news reports. We have acquired vast amounts of eye-witness proof. Congress has published a huge number of reports proving our charges. The FBI, SEC & FTC have huge numbers of reports proving our charges. Millions of pages of leaked documents prove the charges. Your own staff whistle-blowers prove the charges!

- Victims demand Government-provided legal counsel, a jury trial & compensation for damages, expenses, back-salaries & monies owed. To be paid by the Defendants.

- Victims demand an end to the use of SSA, HUD, DOE, IRS & other government agencies for political reprisal vendettas & demand full retroactive payments of all stalled benefits, rights & resources that were with-held to punish victims for whistle-blowing.

- Victims demand the arrest & prosecution of the attackers. The attackers have been identified, by name, to the FBI, DOJ, (Because the crimes cross state lines) FTC, SEC, & other enforcement entities. We have also provided their names (Including Denton, Covert, George, Darbyshire, Podesta, In-Q-Tel, etc.) to the CIA, NSA, Interpol, DIA & related international agencies because the crimes involve international trafficking, money-laundering, tax evasion, bribery & related criminality. We have demanded that those agencies investigate, place under surveillance, interview & forensically trace each attacker back to the command-&-control top-level financier of their attacks. The evidence in the identification of the attackers compensation providers contains absolute proof of the RICO & Anti-Trust law violating Cartel operations. Nobody else in the world suffered these attacks, by these attackers, who were all financed by, & in partnership with, the same entity. Those forensic connections, from attackers-to-their bosses, expose all of the criminals in the Cartel!

***These facts are sworn, warranted and certified to be true before the United States Congress and the people of The United States.***

**Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and the United States Department of Energy as a stock market manipulation platform.**

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

# What Went Wrong With The Electric Car Industry?

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammery.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

---- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends. EVERY APPLICANT WHO HAS BETTER METRICS THAN WHITE HOUSE INSIDERS FISHER AND TESLA GETS REJECTED. DOE DOES THIS TO PROTECT OBAMA AND BIDEN CAMPAIGN FINANCIERS WHO PAID BRIBES IN ORDER TO GET THIS GREEN PAYOLA. IN A PUBLIC, SIDE-BY-SIDE, COMPARISON THE DOE "WIINERS" WOULD LOSE AND THEY CRONYISM WOULD BE EXPOSED!

---- If you are a taxpayer: You suffered damages!

---- If you are an American business: You suffered damages!

---- If you are Democracy: You were broken!

---- If you were a tech mobster: You made out like a bandit!

---- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes!

---- The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

---- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- The United States Department of Energy runs a political crony payola slush fund. They don't "support green cars"; they support "greenbacks for crony insiders who financed political campaigns". The U.S. Department of Energy violates anti-trust law by funding only the friends of The President and cutting out their competitors. The "Secretary Of Energy" is a paid actor who owns the companies that the government finances.

---- Competitors to White House financiers are specifically and illegally excluded from participation in funding, benefits, jobs and income by major political figures, including U.S. Senators and White House executives, and their Silicon Valley oligarch financiers. These corrupt politicians attack others who refuse to cooperate with their crimes including: 1.) sex trafficking, 2.) tax evasion, 3.) off-shore money laundering, 4.) political bribery quid-pro-quo, 5.) revolving door payola scams, 6.) foreign nation-sponsored domestic manipulations, 7.) stock market rigging, 8.) internet censorship, 9.) search engine manipulation and other crimes.

---- They attacked citizens who report their crimes to federal police. They also attack citizens who make products that obsoleted their products at Facebook, Google, Tesla, Netflix, etc. These

corrupt politicians attack citizens using taxpayer-funded state resources. That is a felony violation of the law. The ongoing cover-up of these crimes and attacks is also a felony violation of the law. The victims are owed damages compensation, witness fees and back-pay.

---- Top Lawyers from Perkins Coie and Covington & Burling admitted that they "CONTROL" who gets DOE funding, agency appointees and federal cash

## ADVANCED TECHNOLOGY VEHICLE MANUFACTURING LOAN AND LOAN GUARANTEE SLUSH-FUND CORRUPTION

**The Advanced Technology Vehicles Manufacturing (ATVM) Loan Program** is a \$25 billion direct loan program funded by [Congress in fall 2008](#) under the guise of "providing debt capital to the [U.S. automotive industry](#) for the purpose of funding projects that help vehicles manufactured in the U.S. meet higher mileage requirements and [lessen U.S. dependence on foreign oil](#)." The PR department for the U.S. Department of Energy spends nearly a million dollars per year seeking to manipulate news and social media to try to pitch their message that the program was a "success". In fact, it has been, and remains today, **one of the most criminally corrupt failures in American history**.. It was only a "success" as one of the biggest political slush-funds ever created!

### THE FACTS:

Victims had global character assassination and propaganda-media defamation reprisal attacks operated against them by White House staff and their political financiers: Elon Musk, Larry Page, Steve Jurvetson, Eric Schmidt, Steve Westly, John Doerr, et al. Jury and FBI-compliant evidence proves this as fact.

Victims were attacked because 1.) they helped law enforcement investigate the attackers, 2.) They competed with the attackers that attacker's products and the Silicon Valley Cartel attackers chose to "cheat rather than compete". Jury and FBI-compliant evidence proves this as fact.

The attackers spent over \$30M, part of that using taxpayer resources, attacking the victims as proven in the financial transaction records from Google, Gawker, Gizmodo, Jalopnik, Media Matters, Fusion GPS, et al. Jury and FBI-compliant evidence proves this as fact.

Victims had been previously funded by the U.S. Government and had a multi-decade relationship with the highest offices of the Government, which provided them with deep knowledge of the crimes that were committed. Jury and FBI-compliant evidence proves this as fact.

The U.S. Department of Energy is used as a political slush fund to pay back campaign finance millionaires while blockading the competitors of those millionaires from reaching the market or receiving funding. Jury and FBI-compliant evidence proves this as fact.

The only entities who participated in the global character assassination and propaganda-media defamation reprisal attacks were those entities owned and controlled by the attackers. Jury and FBI-compliant evidence proves this as fact.

Through corrupt rare-earth mining scams and control of federal contracts and grants, attackers had planned to acquire at least one trillion dollars in unjust gains and illegal profiteering. Jury and FBI-compliant evidence proves this as fact.

This amount of money they sought, and the "Mafia-like" structure they adopted, caused the suspects to engage in the most extreme crimes, including murder and "Deep State" coup

attempts. Jury and FBI-compliant evidence proves this as fact.

A significant number of person's who were in conflict with the attackers have died in suspicious manners. Jury and FBI-compliant evidence proves this as fact.

The suspects have hired the largest numbers of lobbyists and corporate manipulation lawyers in U.S. history in order to manipulate political decisions. Jury and FBI-compliant evidence proves this as fact.

The suspects have spent more money on political bribes than any group of men has spent in the last century. Jury and FBI-compliant evidence proves this as fact.

The suspects placed top federal law enforcement and agency bosses (ie: Michelle Lee, Steven Chu, Kamala Harris, James Comey, et al) from their own Cartel, into top government positions, with orders to run cover and protection schemes for them. Jury and FBI-compliant evidence proves this as fact.

California State officials including the Governor, Controller, The Senators, Secretary of State and regional officials participated in these crimes and pocketed the initial profits from these crimes in covert investment banking. Jury and FBI-compliant evidence proves this as fact.

Tesla Motors, Google, Netflix, Facebook, Linkedin, Amazon and other tech Cartel members operate with a common goal of psychological mass ideology manipulation and monopolistic profiteering based on government sponsored anti-trust violations and server control exclusivity. Jury and FBI-compliant evidence proves this as fact.

The attempted cover-ups of these crimes continues to this day. Jury and FBI-compliant evidence proves this as fact.

## A case study in pay-to-play cronyism

By Dan Epstein

News flash: Government subsidies and special-interest favors go hand in hand.

The latest example comes from a federal green-energy loan program. Last month, the DC District Court [ruled](#) that Cause of Action, where I am executive director, can [proceed with a lawsuit](#) against the Department of Energy. We're suing the federal government for the blatant political favoritism in its \$25 billion "Advanced Technology Vehicle Manufacturing Loan Program."

In principle, this taxpayer-funded program was supposed to support the manufacture of energy-efficient cars. In practice, it rewarded a select few well-connected companies.

Since the program was created in 2008, numerous businesses have applied for its taxpayer-backed financial support. Yet only a small number were approved. Among the lucky few were two electric car manufacturers: [Tesla](#) and [Fisker](#).

Both companies' political connections run deep, especially Tesla's. The company's founder, Elon Musk, was a [max donor](#) for President Obama. One of its board members, [Steven Westly](#), was appointed to a Department of Energy [advisory board](#). And another Obama bundler, Tesla investor and adviser Steven Spinner, [secured employment](#) in the department's Loan Program Office—the very office that gave the company a taxpayer-backed loan.

Fisker also has friends in high places. The company, which has since [gone bankrupt, was backed](#) by a San Francisco [venture capital firm](#) whose senior partners [donated millions](#) to the 2008 Obama campaign and other Democrat causes. [One partner, John Doerr](#), parlayed his support into a seat on the President's Council of Jobs and Competitiveness.

Such connections can allow a company to exert political pressure to enrich itself. Unsurprisingly, Department of Energy emails show that such pressure was rampant in its loan programs.

There's no shortage of examples. The department's leaders—including then-Secretary of Energy Steven Chu—repeatedly promised to deliver results to politicians like Rep. Steny Hoyer (D-Md.) and Sen. Harry Reid (D-Nev.). [One emails reads](#), "DOE has made a political commitment" to approve a company's loan. Another says the "pressure is on rea lheavy" from none other than Vice President Joe Biden. And still [another shows](#) an employee asking, "what's another billion anyhow?"

Unsurprisingly, the Obama administration gave Tesla and Fisker preferential treatment, and then some.

The Department of Energy revised its review process in order finish the companies' applications faster. The government [gave them extraordinary access](#) to its staff and facilities—even to the point of having government employees personally walk them through the loan application and approval process. The department ignored its own lending rules in order to approve the companies' loans. And it [renegotiated the terms of some loans](#) after the companies could not keep their original commitments or were experiencing financial difficulties. Tellingly, Fisker has since gone out of business, despite receiving over a billion dollars in loans through this federal program.

Now contrast this preferential treatment with what happened to XP Vehicles and Limnia, neither of which have the same political connections. (My organization is suing the Department of Energy on their behalf). The two companies partnered to manufacture an energy-efficient sport utility vehicle that would have competed with Tesla and Fisker's cars. They applied for loans in 2008 and 2009 under the same loan program.

The department refused them both—and it used bogus reasons to do so.

For starters, the department made claims that were laughably false. To take one example: It rejected XPV's application because [its vehicle was powered by hydrogen](#). It was an electric SUV. It also raised objections that it didn't raise with other companies whose applications were approved. For instance: The bureaucracy [criticized](#) the proposed all-electric vehicle for not using a specific type of gasoline. Yet Tesla and Fisker received the loans despite producing similar all-electric cars.

In light of these obvious problems and hypocrisy, both companies presented the Department of Energy with detailed rebuttals. Yet the government failed to respond. To this day, both XPV and Limnia are awaiting a satisfactory reply. In the meantime, [XPV has gone out of business](#), unable to compete against its politically connected—and subsidized—rivals.

This casts the Department of Energy's loan program in a new light. It was sold to the American public as a means of promoting energy-efficient vehicles. Instead, it was used to benefit a select few well-connected companies. It was a blatant crony handout, paid for by the U.S. taxpayer.

Sadly, similar examples are widespread in Washington. That's no surprise considering the feds spend [roughly \\$100 billion a year](#) in taxpayer-funded handouts to businesses. This breeds the sort of government-business collusion Americans think is rampant in Washington. In fact, [over two-thirds of likely voters](#) think the federal government helps businesses that hire the most lobbyists, shake the right hands, and pad the right pockets. They're right.

This points to a simple conclusion: Politicians and bureaucrats shouldn't use the public's money to pad private companies' bottom lines. As the Department of Energy's green-vehicle loan program shows, the capacity for corruption is immense—and inevitable.

-----

Note: We have absolute and indisputable intelligence agency, FBI-verifiable and forensic expert proof of all of these assertions.

The program was used by the Obama Administration to provide crony payola kick-backs to financiers and friends of the Obama Administration and to attack the competitors of the Silicon Valley financiers of the Obama Administration.

As of 2019, the U.S. Department of Energy claims that they "overhauled" and "re-did" the ATVM program and it's sister program: the Loan Guarantee Program. In fact, that is false.

When you peel back the onion-skin of corruption around the covert stock market and investment bank holdings of Eric Schmidt, Dianne Feinstein, Nancy Pelosi, Elon Musk, etc.; you find that they are invested in something called "rare-earth mining". Rare earth mines are generally in third world nations and use child slave labor. These toxic corrupt operations are responsible for more murders, beatings, rapes and genocides (over control of these "blood minerals") than anything on Earth. These minerals are used in the electric cars, cell phones and solar panels that Silicon Valley has attempted to control. So, you see, it isn't about "*saving the environment*"; it is about greed, bribes and corruption on an epic scale.

The program continues today as a political slush-fund and it is as corrupt as ever. It has NOT been "cleaned-up"! It is STILL a cesspool of corruption! Obama hold-overs and corrupt insiders, with personal conflict-of-interest stock and revolving door career deals, still control the funds and steer the monies exclusively to their friends.

The program has not funded any company who is not a campaign-finance friend of the Obama Administration. The DOE program attacked, lied to, stalled, delayed, gate-keeper blocked and harmed any Applicants who competed with Tesla, Fisker and the Obama financiers. Through the Silicon Valley control of the **facade group: "The National Venture Capital Association"**, DOE ensured that NO car company or solar company in America could get funded, by any private means, without Silicon Valley oligarch approval. The DOE is a corrupt organization operated by corrupt insiders for corrupt purposes!

DOE's **two main manipulation tricks** are: 1.) **STONE-WALLING** - Where DOE staff throw outsider Applicant's filings in a box and forget about them for many years in a Lois-Lerner'd review process that takes any commercial bank only 2 weeks to complete. DOE spends years doing hyperbolic nothings in order to delay campaign financiers competitors, and 2.) **INTERPRETIVE LYING** - Where DOE staff make up things that Applicant's never said and twist the Applicant's words into anything BUT what the Applicant's intended, in order to manipulate non-favored Applicant's into negative interpretations. DOE staff never even called outsider Applicant's for clarity discussions of any key data. They did not want to hear the truth, they couldn't handle the truth! They only wanted their crony's to win the funding!

Every applicant who applied, who was not a crony insider, hard-wired, Obama bagman was **DEFRAUDED, LIED TO, STONE-WALLED** and used as a smoke-screen to hide the true nature of the crony payola scheme operated by Secretary of Energy bosses Chu, Moniz and Perry. They are owed money to pay for their damages from tort-based interference in their businesses and other fraud-related DOE-operated causes-of-action.

Silicon Valley oligarchs hired "Lobbyists" (who are political operatives who offer bribes to politicians without ever using the word "bribe") to take-over the program. Silicon Valley insider

McKinsey staffed the DOE department while working for the Silicon Valley oligarchs. In a typical corruption example: Steve Spinner worked at DOE handing out money to Solyndra which his wife Alison Spinner worked at as Solyndra's lawyer, while the DNC mailer referred to each of them as the "top West Coast fund-raisers for the DNC".

### STOP THE BRIBES OF CALIFORNIA SENATORS

Originally Obama's "car Czar" Steven Rattner (indicted for stock market securities fraud), working from the West Wing of the White House, had offered a portion of the money to Detroit Auto Unions if the Detroit Unions ordered all of their members to vote for Obama in exchange for bail-outs. Obama insiders David Plouffe (indicted for payoffs to Rahm Emanuel), David Axelrod, and Robert Gibbs extended the deal to the Silicon Valley oligarchs in exchange for global search engine manipulation favoring Obama

A "Silicon Valley Mafia" (AKA - "The PayPal Mafia") exists and is populated by the Bay Area technology oligarchs, their operatives and the West Coast Senators, all of whom profit illicitly off of a combined monopoly and stock market cartel that they control. FBI Director James Comey was fired for protecting his friends in this cartel.

#### **Let us examine the charges against the Department of Energy supported by the factual evidence:**

- DOE officials told Applicant's they had to pay tens of thousands of dollars in order to apply for the LGP monies but with-held responses until after the dead-line had passed in order to cut non-Obama financiers out of the running.
- Google provided the staffing for the agencies involved, the media manipulation for the politicians involved, and was the beneficiary for some of the funds in a 4-way conflict of interest in which Google staffed the largest contingent of Obama White House staff.
- Steven Chu handed massive amounts of DOE cash to Russian billionaires from Ener1, Severstal and other Russian connections even though they were foreign billionaires who had no need of U.S. taxpayer subsidies. If one wants to look at dirty Russian collusion, they need look no further than Steven Chu, the architect of the failed Iran Nuclear deal and corrupt Uranium One deal. Steven Chu and Rahm Emanuel ordered DOE's Sandia Livermore Labs and Argonne Labs (who they were both connected to) to manipulate Applicant data in order to only favor campaign financiers companies.
- DOE abuses of process defrauded non-insider Applicants out of billions of dollars of their savings and investor monies yet DOE never offered those that it harmed and recompense.
- DOE officials owned stock market stock and revolving door job promises in the very companies that they were supposed to be conducting "due diligence" on.
- Tesla Motors and SpaceX were staged as campaign finance dark money conduits to transfer taxpayer cash from government treasuries to private parties and then into campaign funds without transparent public disclosure.
- The Obama Administration promised an exclusive on Afghanistan mining deals to Frank Guistra and the Silicon Valley oligarchs for lithium, indium, cobalt and rare-earth metals mining after

USAID pitched ( [http://2.bp.blogspot.com/\\_VyTCyizqrHs/TBaffwKixYI/AAAAAAAAAH74/Wee8LTQfo3k/s1600/afghan minerals.jpg](http://2.bp.blogspot.com/_VyTCyizqrHs/TBaffwKixYI/AAAAAAAAAH74/Wee8LTQfo3k/s1600/afghan_minerals.jpg) ) manipulated reports from McKinsey Consulting saying that "Afghanistan was the Saudi Arabia of lithium and had trillions of dollars of lithium" to dig up. It turned out to be a lie to get oligarchs to support Obama's Afghan invasion. ( <http://pubs.usgs.gov/fs/2007/3063/pdf-page.jpg> ) DOE helped sell this lie because the Russians had already scoured Afghanistan and found it to be fairly worthless as a mining potential. Elon Musk bought into this for his battery monopoly. This is why Steven Chu gave so much money to Russians at Ener1 and Severstal. DOE staff were fully aware of this. ( <http://www.mining.com/1-trillion-motherlode-of-lithium-and-gold-discovered-in-afghanistan/> )

- Google, a Tesla investor and bromance buddy with Elon Musk, hired more lobbyists for DOE influencing than anybody had ever hired before in U.S. history. Google hides all negative news stories about Musk and Tesla and only shows fake news hype about Musk, Tesla and SpaceX because Larry Page and Elon Musk share an apartment and financial programs.

- The DOE ATVM and LGP programs are based on arbitrary metrics which are not even followed by DOE evaluation staff. There is a secret black-list in operation to keep companies who are competitors to Obama's financiers from ever getting funded. Even though many Applicant's beat every "winner" in Obama's DOE handouts, they were excluded, denied and discriminated against simply for competing with Obama's Silicon Valley oligarchs.

- Steven Chu, after getting thrown out of office, went to work for the very people he was supposed to have been conducting due diligence on. Chu is considered to be one of the most criminally corrupt public officials ever in charge of an agency aside from his peer, who also made corruption history: Eric Holder, who helped Comey cover-up the crimes.

- The DOE ATVM and LGP programs resulted in: **THE LARGEST DISTRIBUTION OF TAXPAYER CASH TO THE MOST COMPANIES THAT THEN WENT IMMEDIATELY WENT BANKRUPT IN THE HISTORY OF AMERICA!** Not only has the DOE ATVM and LG program been NOT A SUCCESS, they have been a disaster!

- Goldman Sachs and Deloitte engineered INTENTIONAL bankruptcies so that their Silicon Valley oligarch clients could claim windfall tax write-offs which the U.S. Treasury said resulted in "unjust gains" for those oligarchs. In other words, the tech oligarch billionaires took U.S. taxpayer subsidies, which they did not need, and then bankrupted their own companies so that they could reap profits in tax write-offs. On top of this Goldman Sachs skimmed "fees" off-the-top for arranging these deals, at taxpayer expense, and then ALSO profited from the "bumps" to the stock market valuations in pump-and-dump crimes. **TO BE CLEAR: MANY OF THESE BANKRUPTCIES WERE TAX SKIMS CREATED TO FAIL! After realizing this, Applicants and Congressional insiders forced ALL of the kick-back funded companies into bankruptcy as payback for the corruption and abuse of their resources. Said one Senator: "If they want bankruptcies, we will give them bankruptcies..."**

- Lachlan Seward, one of the DOE money laundering insiders, threatened Applicant's that if they "made trouble" they "would never be funded by DOE as long as they lived".

- When Tesla Motors got their DOE money approved they had NO DESIGN AND WERE PLANNING TO BUILD A FACTORY. Both of which were against the so-called Section 136 Rules. Tesla used the

DOE money to hire engineers to design the car from scratch as proven by the engineers that were hired. Tesla was running all over the country trying to stage a real estate scam with Dianne Feinstein's Husband's company CBRE. Tesla even got sued for these real estate scams. DOE stated that the "rules" said you already had to have a factory and a design, which the other applicants had. So, against the "rules" Tesla got the money and figured out the car LATER and did not use a pre-existing factory until they were later forced to follow the rules.

- For the same kind of commercial loans, Bank of America and Wells Fargo take 4 weeks to approve loans this large. DOE staff were either too stupid to review loans in less than 3 years or were intentionally stone-walling every applicant who was not an Obama crony.

- As shown by this letter:

<https://news.wttw.com/sites/default/files/Letter%20from%20Bright%20Automotive%20to%20US%20Dept%20of%20Energy.pdf> ...and hundreds of Congressional reports, DOE staff proved themselves to be liars and scumbag political manipulators at every turn.

- The public has not seen the entire FBI and SEC investigation records on the FBI raid and investigation of Solyndra because the records point straight back to the White House Oval Office!

- A Congressional report on the ATVM and LG programs exposed layers and layers of crony payola.

- The only Judges who got to rule on the cases were "Obama Judges" appointed by or beholden to the Obama Administration.

- A CBS News 60 Minutes segment called: "**The Cleantech Crash**" revealed that many of the assets of the ATVM and LGP disasters had been funded by the taxpayers and then sold to China in deals that benefited Diane Feinstein's family and financiers. Later Dianne Feinstein was found to have Chinese spies and insiders on her staff. The Feinstein family owned the stock, staffing services, construction company and services companies at Tesla and Solyndra, which Feinstein got the federal cash for. Her staff then went to work at Tesla and Solyndra.

- Although felony-class crimes occurred, no DOE officials have ever been charged with crimes..although multiple FBI officials have been charged with covering up those crimes.

- Vice President Al Gore, John Doerr and Vinod Khosla have had all of their finances tracked and connected together through covert routes that reveal insider stock trading and government policy manipulation, in this case, for their own personal profiteering.

- Attorney General William Barr has been formally asked, by Applicants, to appoint a federal Special Counsel to investigate this matter.

- The Dark Money FEC campaign finance limits were exceeded by the Silicon Valley oligarchs by many magnitudes in this novel deployment of quid-pro-quo and search engine rigging services for political favors and funding.

- There has not been a single person involved in "green" DOE funding programs who cared anything about "green energy". The use of the term "green" was a psychological ploy to seek to pacify the public with a crunchy granola positive vibe while stealing taxpayer money in plain sight.

- The Obama White House produced a "white list" of friends companies who could get funded and a "black list" of their competitors who could never be funded because Silicon Valley financiers said

so. These lists were created from input from John Doerr, Steve Westly and Doerr's business partner: Al Gore. Even though most Applicant's beat the metrics, features and national security issues of favored Obama Applicant's, no outsiders and no non-campaign financiers would ever be approved.

- The very first Applicant for the ATVM fund was XP Vehicles, which was solicited to apply by DOE and Barbara Boxer's office. The 1.) Section 136 law, 2.) DOE videos of meetings and 3.) DOE documents clearly state that Applicant's would be reviewed on a **"first-come, first served"** basis per the federal law. When XP, which was black-listed by the White House because it competed with Obama financiers Tesla and Fisker, moved far ahead in the Applicant list, DOE illegally changed the rules so that "first come - first served" was ignored and only favored insiders were reviewed. XP, Brammo, EcoMotors, Elio, etc. were all "bottom drawered". Even though XP hand delivered, to DOE and Congress, more customer order proofs than ALL other Applicant's combined, DOE insiders, who held stock in competing companies, placed XP on a permanent black-list.

- As of December 28, 2008 DOE staff already decided who would "win" the money, and who would not, because the entire program had been hard-wired, via lobbyists and insiders, to only go to the "white list" applicants. Nobody who was not on the original "white list" could ever get DOE funding. It only takes one "insider" at DOE, from the Obama Administration (many are still there) to kill any application, no matter how much better that proposal is compared to every other applicant.

- U.S. Department of Energy and White House officials hired Nick Denton's sleaze-ball tabloid empire comprised of Jalopnik, Gawker Media and Gizmodo Media to run character assassination and defamation campaigns, in partnership with the DNC's Google, to attack any person who exposed the corruption scam at DOE.

- The GAO wrote multiple federal reports confirming that DOE was running one of the most poorly administrated non-transparent operations ever and that DOE staff were not even following the Section 136 law.

- White House and DOE staff hired Gawker, Gizmodo, Jalopnik defamation bloggers to attack those who exposed the plot. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets.

(Above, From tens of thousands of internal Google documents leaked)

- DOE staff never even communicated with Applicant's, who were not Obama insiders; yet Tesla, Fisker and other Obama insiders got hundreds of phone calls, meetings and careful help to hand-hold them through the process to make certain that they got their payola while the outsiders only got blockades, Lois Lerner "missing hard drives" and stone-walls.

- The DEFRAUDED staff and employees of Bright, XP, Limnia, ZAP, Brammo, and the other Applicant's, have **NEVER** gotten a fair court hearing, Congressional or IG hearing that was not compromised by an Obama Judge or stock-owning insider. They are owed money for their damages from the deeply corrupt DOE programs!

- The Obama Administration officials who carefully manipulate the DOE and federal process for crony favorites include: Steven Chu, Kathy Zoi, Carol Battershal, Steve Westly, Steven Spinner, John Podesta, Jonathan Silver, Danial Cohen, et al; with cover-up support from James Comey, Eric Holder, Steve Rattner, et al...

- Over a thousand other criminal and ethics violation charges are charged against DOE and its associates yet no actual interdictions have taken place in California or federal government actions because the "Deep State" cover-ups are so extensive. The raw criminality of the U.S. Department of Energy in these matters is verified, proven and audacious...

# 'Treason!' - AG Barr Finds 'Government Power Was Used By Obama Administration To Spy On American Citizens And Run Dirty Tricks Reprisal Operations'

 [Profile picture for user Tyler Durden](#)

by [Tyler Durden](#)

In his first pair of interviews since being sworn in, Attorney General Barr told [Fox News](#) and [WSJ](#) that he was pursuing the investigation into the origins of the Trump-Russia probe - an investigation [he has tasked](#)

[John Durham, the US Attorney from Connecticut](#), with leading - because Americans need to know whether the government "**put a thumb on the scale**" to try and undermine President Trump both during the campaign and during the first two years of his term, just like "**we need to ensure that foreign actors don't influence the outcome of our elections.**"

Separately, he told [WSJ](#) that "**government power was used to spy on American citizens...**I can't imagine any world where we wouldn't take a look and make sure that was done properly."

Barr has doubled-down on using the term 'spying', which has angered Democrats, after first using it during Senate committee testimony from April 10, where he uttered the now-infamous phrase "I think spying did occur."

 [Barr](#)

The AG has declined to elaborate on what prompted these concerns, **though he has said he'd be interested to see the underlying intelligence that sparked the FBI decision**, in the summer of 2016, to open a counterintelligence investigation. At this point, **Durham's review isn't a criminal investigation**, and Barr hasn't offered a timetable for when the investigation might be completed. Ultimately, the probe could lead to changing FBI protocols involving investigations into political campaigns.

Appearing to respond to Barr's interviews, President Trump declared that his campaign was "conclusively" spied on.

My Campaign for President was conclusively spied on. Nothing like this has ever happened in American Politics. A really bad situation. TREASON means long jail sentences, and this was TREASON!

— Donald J. Trump (@realDonaldTrump) [May 17, 2019](#)

As far as we know, the FBI first started investigating the campaign after an Australian ambassador told his superiors that George Papadopoulos had appeared to know about Russian plans to release 'dirt' on Hillary Clinton. The FBI later sent an informant, Stefan Halper, and a woman who identified herself as a research assistant, to meet with Papadopoulos and push him to say whether Russia was helping the Trump campaign.

# The Corrupt Greentech VC Influence Over Washington

Katie Fehrenbacher

## [- How Silicon Valley Oligarchs Took Over The Obama Administration](#)

There've been a couple articles in the past few weeks pointing to President Obama as the "[clean tech investor in chief](#)" and the [presidential VC with bets on clean energy](#). The real trend is that venture capitalists focusing on greentech seem to have had an unprecedented influence on U.S. federal policy and allocations of the stimulus package.

When I attended the Department of Energy's (DOE) first [ARPA-E conference](#) (Advanced Research Projects Agency-Energy) earlier this year in Washington D.C., I was struck by how many venture capitalists were there. I shared a cab back to the airport with some familiar Silicon Valley faces, and was told if your firm didn't have a dedicated person in Washington — in some circles they call them lobbyists — maneuvering grant and loan programs, you weren't able to be competitive.

Just look at the figures from the stimulus package (which I am fully in support of): somewhere between \$50 billion and \$80 billion into clean power and energy efficiency initiatives ([depending on how you slice it](#)). The Obama administration has gone out of its way to seek the advice of green-leaning venture capitalists and entrepreneurs in the Valley on how to spend that colossal amount and what programs would be the most affective.

Kleiner Perkins managing partner John Doerr is on President Obama's [Economic Recovery Advisory Board](#), and was able to convince Vice President Al Gore to join Kleiner, in addition to former Secretary of State Colin Powell. Kleiner's investments have had some successful government bids, most notably the [\\$529 million loan to Kleiner portfolio](#) company Fisker Automotive out of the DOE's highly competitive Advanced Technology Vehicles Manufacturing, or ATVM, program. Fisker plans to use the loan to build its factory and launch its electric vehicle in 2011.

If you remember, another winner of the \$25 billion ATVM program was Tesla Motors (s TLSA), which, as most of us know, was backed by venture capitalists from Draper Fisher Jurvetson, Technology Partners, and Vantage Point among others.

I attended Khosla Venture's LP meeting earlier this year where the firm [announced that former UK Prime Minister Tony Blair](#) would be joining the firm as Senior Advisor. Several of my journalism peers were comparing the political influence Blair could wield to what Kleiner was doing with Gore.

The Obama administration appointed [former venture capitalist Jonathan Silver](#) as its loan chief to lead both the DOE's loan guarantee and ATVM loan programs. About a third of the DOE's loan guarantee commitments went to venture-backed startups, including thin film solar maker Solyndra and solar thermal company BrightSource.

I [wondered earlier this year](#) if the loan guarantee for Solyndra wasn't a mistake, given the company has one of the highest manufacturing costs out of its competitors. The company withdrew its IPO plans, citing poor market conditions. The Government Accountability Office also found that the loan guarantee process treated some companies unfairly in their bids and risked "excluding some potential applicants unnecessarily."

There's nothing inherently wrong with venture-backed companies getting government support, and the energy sector needs even more federal funding to create innovation. I support Doerr and Bill Gates' [calls for boosting federal government](#) investing to \$16 billion per year into energy innovation. All I'm saying is that this level of influence should be watched.

Another Tesla car catches fire in Hong Kong parking lot: media - ALL TESLA BATTERIES EXPECTED TO HAVE CHEMISTRY DEGRADE AND EXPLODE AS DOE WAS WARNED IN WRITING BY BERNIE TSE, BRIGHT AND XP

HONG KONG (Reuters) - A Tesla Inc electric car caught fire in a parking lot in a Hong Kong shopping mall, the Apple Daily newspaper said on Tuesday, but no one was injured in the blaze, whose cause was not immediately known.

The electric car burst into flames 30 minutes after being parked in the city's San Po Kong district on Sunday, the newspaper said, with three explosions seen on CCTV footage.

Firemen took 45 minutes to douse the fire.

The vehicle was a Tesla Model S 85 KWH dual power version, added the paper, which gave no explanation of what might have caused the blaze.

Responding to a request from Reuters, Tesla declined to comment. Reuters was not able to contact the vehicle owner or obtain CCTV footage of the incident.

Hong Kong's fire services department told Reuters a vehicle caught fire on Sunday, but gave no details, such as the make of the car. Authorities are investigating the cause.

The incident comes three weeks after Tesla said it had sent a team to investigate a video on Chinese social media that showed a parked Tesla Model S car exploding in the commercial hub of Shanghai.

The automaker has said its EVs are about 10 times less likely to experience a fire than petrol-powered cars.

There have been at least 14 instances of Tesla cars catching fire since 2013, most of them after a crash.

## **DEADLY EXPLODING LITHIUM ION BATTERIES AND COBALT CORRUPT MINING SCAMS ARE KILLING AND ROBBING THE PUBLIC WITH DIRTY "BLOOD MINERALS" THAT ARE TOXIC, SELF-IGNITING DANGERS**

Lithium ion batteries: Cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet trolls used to say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

NiCad Batteries and hundreds of other battery types do not have this many problems... but the ownership of the lithium mining business by Elon Musk, his Silicon Valley cartel and California Senator's families causes other solutions to be hidden, the dangers of lithium ion to be hidden and a monopoly to exist.

Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's,

spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt.

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James

Comey, Patricia Rich and David Johnson at the FBI.

The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "assassins".

It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history!

*etc.....*

You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of the coin. We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this letter can be proven in a jury trial, Congressional hearings or live TV debates. Musk will do anything to keep this information from getting out but... it is too late for him! While this may sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and

layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues. Musk has been professionally diagnosed as a 'psychotic narcissist'. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.

The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO

EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three

top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

## **HOW THE DEPARTMENT OF ENERGY AND THE OBAMA WHITE HOUSE ATTACKS ANYBODY WHO EXPOSES THE SCHEME:**

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as:

IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters

- (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal- (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC), BuzzFeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated.

The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University."

Trending: Brennan and Clapper Accused of Hacking John Roberts To Blackmail Him

Here is the memo published by the Foundation, which dropped the documents in their entirety:

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation.

Larry Schweikart reported for Big League Politics:

For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI.

This is what President Trump calls "SPYGATE".

It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker:

President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.")

In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC. This is what they are hiding.

However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

1) Obama authorized spying/electronic surveillance on Team Trump, by-passing normal judicial oversight.

2) To create "foreign intelligence," John Brennan and others organized for UK intelligence to conduct surveillance on Trump and his associates, either from the UK or from UK assets within the U.S. This is another reason revealing this will unleash an excrement storm: the UK is about to be caught meddling bigly in an American election.

3) Lynch certified Obama's authorization which is now held under seal by DOJ (and FISC).

From this authorization, all unmaking followed, as well as the FBI fraudulent counter intel investigation and perhaps the FISA warrant too. Obama knew this was all fake when he made the authorization; Lynch knew it was fake when she certified it; the entire inner circle, including the FBI, all knew. This takes the U.S. into uncharted territory, and could imperil any politician in the British government who supported this or had knowledge of it. Proving any of this would be difficult, as if confronted Lynch would almost certainly cover up and Obama would simply deny knowledge. Without a paper trail, a conviction might be a bridge too far. This is only one of

thousands of "kill order" tactics introduced by the Obama Administration.

These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies:

- Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.

- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.

- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially

responded to in order to seek to hide information and run cover-ups.

- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.

- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.

- On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions.

- Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment.

- Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.

- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.

- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to

terminate revenue potentials for the target victims.

- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.

- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". While this may sound pretty out there, web search "Embassy sonic attacks" on the top 5 non-Google search engines and read the very credible reports of these attacks.

- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.

- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

- Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they

authored, to create a round two second wave attack designed to end your life via economic warfare.

- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.

- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

- There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left.

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.

### **!!!! Mueller Hears That Silicon Valley Has Been Manipulating The Entire BREXIT Campaign !!!!!!**

- Second former employee of controversial data firm to be questioned by special counsel's inquiry into Russia collusion

By Carole Cadwalladr

Brittany Kaiser is said to be cooperating fully with the Mueller inquiry.

A director of the controversial data company Cambridge Analytica, who appeared with Arron Banks at the launch of the Leave.EU campaign, has been subpoenaed by the US investigation into possible collusion between the Trump campaign and the Russian government.

A spokesman for Brittany Kaiser, former business development director for Cambridge Analytica – which collapsed after the Observer revealed details of its misuse of Facebook data – confirmed that she had been subpoenaed by special counsel Robert Mueller, and was cooperating fully with his investigation.

He added that she was assisting other US congressional and legal investigations into the company's activities and had voluntarily turned over documents and data.

Kaiser, who gave evidence to the UK parliament last April in which she claimed Cambridge Analytica had carried out in-depth work for Leave.EU, is the second individual connected to the firm subpoenaed by the special counsel. The Electoral Commission has said its investigation into Leave.EU found no evidence that the campaign "received donations or paid for services from Cambridge Analytica ...beyond initial scoping work".

Damian Collins, chairman of parliament's inquiry into fake news, said it was "no surprise" that Kaiser was under scrutiny by Mueller because "her work connected her to WikiLeaks, Cambridge Analytica and [its parent company] SCL, the Trump campaign, Leave.EU and Arron Banks".

He said it was now vital Britain had its own inquiry into foreign interference: "We should not be leaving this to the Americans."

Tom Watson, the deputy leader of the Labour party, echoed Collins's statement, saying: "This is the first evidence that a significant player in the Leave.EU campaign is of interested to the global Mueller inquiry. People will be bewildered that the British government has no interest in establishing the facts of what happened."

In August, Sam Patten, a US political consultant who had worked for Cambridge Analytica on campaigns in the US and abroad, struck a plea deal with Mueller after admitting he had failed to register as a foreign agent for a Ukrainian oligarch.

He became a subject of the special counsel's inquiry because of work done with Paul Manafort, Trump's campaign manager, in Ukraine. He had also set up a business with Konstantin Kilimnik, a key figure who Mueller has alleged has ties to Russian intelligence and who is facing charges of obstruction of justice. In a 2017 statement to the Washington Post, Kilimnik denied any connection to intelligence services. Kaiser, however, is the first person connected directly to both the Brexit and Trump campaigns known to have been questioned by Mueller.

The news came to light in a new Netflix documentary, *The Great Hack*, which premiered at the Sundance film festival last month and is expected to be released later this spring. Film-makers followed Kaiser for months after she approached the Guardian, including moments after she received the subpoena. She claims the summons came after the Guardian revealed she had visited WikiLeaks founder Julian Assange while still a Cambridge Analytica employee in February 2017, three months after the US election.

One part of Mueller's investigation focuses on whether the Trump campaign sought to influence the timing of the release of emails by WikiLeaks before the election. Investigators are looking at communications between them. In the film, Kaiser says that she has gone from being a cooperating witness to a subject of investigation because of her contact with Assange.

In October 2017, it was revealed that Alexander Nix, the chief executive of Cambridge Analytica, had contacted Assange in August 2016 to try to obtain emails from Hillary Clinton's presidential campaign – which indictments from Mueller's team say were obtained by Russian military intelligence – to use in Donald Trump's campaign. When Kaiser gave evidence to parliament last year, she was asked about her relationship with Assange and WikiLeaks but failed to reveal that she had met Assange.

In the documentary, Kaiser is shown after receiving an email from the Guardian last June asking about meeting Assange and alleged donations of cryptocurrency to WikiLeaks. Kaiser did not respond to the email at the time, but on camera says: "She knows I met Assange. And she knows I donated money to WikiLeaks in bitcoin."

Her legal representatives later wrote to the paper to say that the allegations, including that she had "channelled" donations to WikiLeaks, were false. Kaiser said she had received a small gift of bitcoin in 2011 – long before she worked at Cambridge Analytica – and, not knowing what else to do with it, gave it to WikiLeaks, because she had benefited from material it had released over the years.

Her lawyer told the Observer that the meeting with Assange came about after a chance encounter in London with an acquaintance who knew him. It lasted 20 minutes and consisted mainly of Assange telling her "about how he saw the world". He said they did not discuss the US election.

Patten and Kaiser were involved in a controversial election campaign in Nigeria in January 2015, which former Cambridge Analytica employees say had "unsettling" parallels to the US presidential election.

The Guardian revealed that the data firm had worked alongside a team of unidentified Israeli intelligence operatives on the campaign. Ex-Cambridge Analytica employees described how the Israelis hacked the now-president of Nigeria's emails and released damaging information about him to the press weeks before the election.

## **CBS NEWS 60 MINUTES Lara Logan "I'm Being 'Targeted' For Saying the Media is 'Mostly Liberal'"**

by Tamar Auber

On Wednesday, former CBS News foreign correspondent Lara Logan spoke with Fox News Sean Hannity about her recent comments slamming the media as "mostly liberal."

Logan told Breitbart podcaster Mike Ritland the remarks made on his show — which drew widespread attention online — amounted to "professional suicide."

Defending her remarks on Hannity's show, Logan said that as the result of her speaking out about how the media is "mostly liberal" she has been targeted because she is an independent voice.

"Any journalists who are not beating the same drum and giving the same talking points," she insisted "pay the price" for not going along with the liberal crowd.

She also called out her targeters by name.

"I know they're going to come after me," she told Hannity. "Michael Calderone who is at the Huffington Post. I can give you the script now. I can tell you who the players are. Joe Hagan. Brian Stelter."

She added: "They smear you personally. They go after your integrity. They go after your reputation as a person and a professional. They will stop at nothing. I am not the only one. And I am just, I am done, right, I am tired of it. And they do not get to write my story anymore. They don't get to speak for me, I want to say loudly and clearly to anybody who is listening, I am not owned. Nobody owns me, right? I'm not owned by the left or the right."

Logan made headlines recently when, during a scorched earth podcast interview with Ritland, she said that there was a lot of "weight" in most news organizations on "one side of the political spectrum."

"The media everywhere is mostly liberal. But in this country, 85 percent of journalists are registered Democrats. So that's just a fact, right?" she told Ritland.

She also trashed reporting based on single, anonymous government sources.

"That's not journalism, that's horseshit," Logan stressed. "Responsibility for fake news begins with us. We bear some responsibility for that, and we're not taking ownership of that and addressing it. We just want to blame it all on somebody else."

**Internal documents from a private Israeli intelligence firm called Psy-Group show that, at the time of many incidents, the company, and possibly other private investigators, were targeting U.S. citizens because they spoke up about crimes.**

Psy-Group's intelligence and influence operations, which included a failed attempt in the summer of 2017 to sway a local election in central California, were detailed in a New Yorker investigation that I co-wrote earlier this month. Before it went out of business (ie: changed it's name) , last year, Psy-Group was part of a new wave of private-intelligence firms that recruited from the ranks of Israel's secret services and described themselves as "private Mossads." Psy-Group initially stood out among its rivals because it didn't just gather intelligence; its operatives used false identities, or avatars, to covertly spread messages in an attempt to influence what people believed and how they behaved. In 2016, Psy-Group held discussions with the Trump campaign and others about conducting covert "influence" operations to benefit the candidate. Psy-Group's founder and C.E.O., Royi Burstien, a veteran Israeli intelligence officer who established the firm in 2014, told me that his talks with the Trump campaign went nowhere. The company's posturing, however, attracted the attention of Robert Mueller, the special counsel, who has been investigating interference in the 2016 Presidential race.'

**FED BOMBHELL: Fusion GPS Bribed Dozens of MSM Journalists With Cash To Run Character Assassinations, While News Companies Paid Firm to Dig Dirt on Trump**

High-ranking FBI insiders are pulling back the curtain on Fusion GPS, the firm that commissioned and spread the bogus Trump dossier.

It appears the embattled intelligence firm was quite busy paying off Big Media reporters, according to federal sources who have traced dozens of transactions between TD Bank and media members as well as media organizations, sources confirm.

But stunningly, Big Media organizations have employed Fusion GPS to dig dirt on politicians and D.C.'s elite — namely Donald Trump.

"Fusion GPS was on the payroll of the media and in turn had members of the media on its payroll," one FBI insider said.

Bombshell revelations.

FBI insiders confirm Fusion GPS employed law firms as well as shell companies to send and receive funds to and from media and reporters. But the embattled firm also used its accounts at TD Bank to directly commission reporters. Likewise, Fusion GPS received funds from media companies into its own accounts at TD Bank, FBI insiders said,

"There are dozens of payments from the media flowing into their (Fusion GPS') account," one federal law enforcement official said. "One company wired funds to Fusion (GPS) more than a dozen times."

Why would media companies commission Fusion GPS? Likely to dig dirt on enemies or secure records that reporters could not legally obtain, one federal law enforcement insider said. One FBI insider said the payments to Fusion GPS coincide with Donald Trump's run for the White House.

The payments were made between Sept. 2015 and Sept. 2017, records show.

The unthinkable: The mainstream media paying Fusion GPS for dirt on Trump to the same firm the Democratic National Committee paid to fund the bogus Trump dossier. And at the same time Fusion GPS bribing journalists to place stories — likely negative about Trump, as well as spread the bogus Trump dossier around.

Stunning.

Was BuzzFeed — the only company to publish the full bogus dossier — on that list?

And who is on the payroll? We are trying to run that information down.

And why aren't these people behind bars?

## **What Is An 'Extinction-Level Interdiction Program' For Corrupt Companies And People?**

By The Leesberg Foundation

It only works on corrupt companies that bribe, break the law, abuse employees, rape, tax evade, lie, cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and are generally dirty pigs.

That is why it works so well on Google, Gawker, Gizmodo, Jalopnik, Univision, Facebook, Tesla, Goldman Sachs and other creepy corps who bribe, break the law, abuse employees, rape, tax evade, lie, cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and are generally dirty pigs.

**'Extinction-level'** means that the goal is to put them-out-of-business.

**'Interdiction'** means that the effort involves interrupting their corruption, crimes, bribes, payola and sex trafficking.

It is a **'Program'** because it is a constant, unwavering, long-term effort that the entire public population is continually expanding and adding to the effort of.

The efforts are long and take many years but they always work.

If your company does not bribe, break the law, abuse employees, rape, tax evade, lie, cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and they are not generally dirty pigs then they have nothing to worry about.

If the truth can't hurt a Facebook, Google or Tesla then they should have no concern about the truth being exposed.

Alas, though, those companies are targeted for extinction and any smart investor should remove their investment funds from those companies. The way that they are taken down includes exposing every time each investor engages in a bribe, breaks the law, abuses employees, rapes, tax evades, lies, cheats, steals, runs character assassinations, operates anti-trust violating monopolies, spies and is generally a dirty pig.

Bill Cosby thought he could not be taken down. He was!

Enron thought they could not be taken down. They were!

Dick Nixon thought he could not be taken down. He was!

Hillary Clinton thought she could not be taken down! She was!

Theranos thought it could not be taken down! It was!

The list is endless. The fact is clear: ***If you cheat rather than compete you will be destroyed.***

It is now easier than ever to kill a corrupt entity!

We have hard-fact FBI and CIA-class evidence that Google, Gawker, Gizmodo, Jalopnik, Univision, Facebook, Tesla, Goldman Sachs and others are breaking the law and exist based on a criminal operation. That is why they are going down! We witnessed them do the crimes. Their ex-employees and federal investigators saw it too. That is why they are helping with the take-downs. Millions of web users who hate corruption are helping too, using crowd sourced forensics.

The deaths of these crooked behemoths will be long, slow and hard..but the crash they make when they finally fall will resound throughout history!

An Extinction-Level Interdiction Program known as an "ELIP" always guarantees that a corrupt attacking corporation will:

- A.** Lose a minimum of one billion dollars in stock market and brand valuation from exposure of the truth about them.
- B.** Suffer the firings or forced terminations of multiple senior staff.
- C.** Have draft FBI 302 forms authored and submitted to the relevant regional FBI offices where those companies are located.
- D.** Have private investigators prepare case files on the company, or individual, and submit those to every relevant law enforcement and regulatory agency on every continent.
- E.** Have every investor who has placed over \$50,000.00 in the company investigated for tax fraud, expense fraud, drug abuse, spousal abuse, sexual extortion, off-shore accounts, political bribery,

kick-backs, payola, under-the-table payments, real estate fraud, 501 c 3 and 501 c 4 charity fraud, self-dealing, revolving door political payola and other relevant issues.

# Trump Could Save Taxpayers ‘Billions Of Dollars’ By Straightening Out One Corrupt Energy Department Program, Report Finds

Michael Bastasch | Energy Editor

The Trump administration could save “billions of dollars” if the Energy Department improved its management of radioactive waste cleanups, according to the Government Accountability Office (GAO).

The GAO [report](#), released Tuesday, also reported Congress could save up to \$4.3 billion by eliminating the loan program that gave \$192 million to a failed luxury electric car company.

“The Department of Energy could potentially avoid spending billions of dollars by developing a program-wide strategy to improve decision-making on cleaning up radioactive and hazardous waste,” GAO reported.

The Energy Department is responsible for cleaning up waste from nuclear weapons produced during the Cold War. The department has spent \$170 billion on cleanup since 1989, GAO reported, but lots of radioactive waste remains. ([RELATED: The NYT Walks Back Bombshell EPA Report, Doesn't Issue A Correction](#))

The cost of cleanup is growing. The Energy Department estimates future nuclear waste cleanup could cost \$377 billion at 16 sites across the country. GAO says taxpayers could save billions if they took a programmatic approach rather than each nuclear waste site setting its own priorities.

For example, Energy Department officials estimated \$18 billion in savings from prioritizing high-risk over low-risk waste at the Hanford site in Washington state. The department has yet to determine what it will do with as much as two-thirds of the low-risk waste at Hanford.

The Hanford site cleanup [came under increased scrutiny](#) after a “take cover” order was given in 2017 after a tunnel containing radioactive waste collapsed.

“DOE officials said that they are making progress in implementing a national programmatic approach to the cleanup and will continue to work toward this,” GAO reported. “DOE provided technical comments, which were incorporated as appropriate.”

GAO also highlighted an open recommendation to Congress that could save taxpayers up to \$4.3 billion.

“Unless the Department of Energy can demonstrate demand for new Advanced Technology Vehicles Manufacturing loans and viable applications, Congress may wish to consider rescinding all or part of the remaining credit subsidy appropriations,” GAO reported.

The Obama administration used that loan program to hand out taxpayer funds to electric car companies, including luxury automaker **Fisker Automotive, which drew down on \$192 million before [having its government credit stripped](#) away.**

Fisker’s loan was [sold off to a Chinese billionaire](#) for \$25 million in 2013, netting taxpayers a \$139 million loss.

# DOE corruption—appointed and elected officials should face prison time

[Marita Noon](#)

|

An exhaustive review of [350+ pages of leaked emails](#) regarding the Obama administration's handling of the various green-energy loan and grant programs makes several things very clear: they [lied](#), engaged in favoritism, and rushed application approvals to suit the political agenda of the White House. At the same time, worthy projects that went through a complete due diligence process were denied or ultimately withdrawn, as the lengthy approval process “taxed investors’ patience”—as was the case with Aptera Motors, which worked closely with the DOE for two years.

Paul Wilbur, President and CEO at Aptera, didn't think they were treated unfairly. He told me, “At the end of the day, we couldn't get through the process.” But, he admits, he hasn't read the emails.

Aptera was trying to build a very efficient electric vehicle with an under \$30K price point. Wilbur met with Secretary Chu who could see the value in the technology. But our research shows that value was not the deciding factor in which projects got funded and which ones didn't. Wilbur reports that he didn't donate to any candidate. He wanted to keep the whole process clean and do what was “good for America.”

[The report](#) from the House Oversight Committee says Aptera first applied for an ATVM loan in December of 2008 and “shut down on December 2, 2011.” The report implies that Aptera was led on: “After numerous negotiations with DOE, in September 2011, Aptera received a conditional loan commitment of \$150 million if the company was able to raise \$80 million privately.” And: “The loans given to Fisker and Tesla gave Aptera hope that DOE would eventually act on their application. More importantly, since the DOE continued to engage with the company throughout the time period, management was convinced that DOE was interested and willing to provide financing for the company.”

Aptera's 100% US technology has since been sold to a Chinese company.

Aptera was applying for an Advanced Technology Vehicle Manufacturing loan (ATVM). Only five loans were given out through the program and all have political ramifications. Christine Lakatos, who has worked with me on the green-energy, crony-corruption reports I've written, has done thorough research on the topic. She has read each and every one of the 350+ pages of emails released on October 31 and has written a [blog post](#) specifically addressing the ATVM program and its hijinks. As she cites, Fisker and Tesla (which Romney referenced in the first debate), got loans in 2010 and then the Vehicle Production Group's loan was the only ATVM loan closed in 2011; all have ties to Obama bundlers. The other two ATVM loans went to Ford and Nissan—both of which, according to the House [report](#), “were heavily engaged in negotiations with the Administration over fuel economy standards for model years 2012-2016 at the time the DOE was considering their applications. Both companies eventually expressed publicly their support for these standards, which the Administration described as the ‘Historic Agreement.’”

Armed with the sweeping knowledge of the House reports and subsequent hearings, evidence from DOE staffers (many of whom were appointed by Obama), Lakatos' research, and personal experience, a different ATVM applicant has now taken its case to court citing "corruption and negligence."

On November 16, 2012, [XP Technologies](#) filed a lawsuit against the federal government concerning the DOE's denial of XP Technology's loan guarantee application. The [complaint](#) alleges: "criminal activities did take place by DOE staff and affiliates." A November 23 [press release](#) announces that XP Technologies is now represented by [Cause of Action](#), "a nonprofit, nonpartisan organization that uses investigative, legal, and communication tools to educate the public on how government accountability and transparency protects taxpayer interests and economic activity."

According to the document filed on November 16, "Plaintiffs' backgrounds include extensive issued patents on seminal technologies in use world-wide, White House and Congressional commendations and an engineering team of highly experienced auto-makers. Plaintiff brought a vehicle design, which was proposed as the longest range, safest, lowest cost electric vehicle, to be built in America in order to deliver extensive American jobs nationwide. No other applicant, or award 'winner', has succeeded in meeting, or (is) intending to meet, that milestone. XP Technology developed a patented lightweight, low-cost, long-range, electric vehicle using air-expanded foam-skinned material for a portion of the polymer body and received numerous patents, acclaim and superior computer modeling metrics over any competing solution. XP presented a vast set of letters of support to DOE from pending customers. Major auto-industry facilities and engineers had joined forces to bring the vehicle to the defense, commercial and consumer market."

Over the weekend, we had an exclusive interview, on condition of anonymity, with a senior official at XP Technologies about the lawsuit and the experience.

He reported: "Staff from within the DOE have provided evidence which is quite compelling." As Aptera's Wilbur made clear, the individuals within the DOE were very thorough. One of the emails, in the 350+ pages, was from Secretary Chu himself in which he criticized staffers for taking a "principled stand," which held up the approval process of projects the White House wanted advanced. Another indicated that the pressure to rush was coming from "above the agency." Overall, the emails show that projects were rushed so that announcements could coincide with visits, speeches, and photo ops—as well as providing talking points for the president.

Our XP source told us "We experienced, and have been provided evidence of, applicant submissions and reviews being modified in order to benefit some and disadvantage others, and the business connections between the different parties associated with the ones that benefited is quite extraordinary." The leaked emails support this accusation, specifically regarding the "business connections." In her post, Lakatos calls it "green fraternizing." The emails show that certain applicants and decision makers went bike riding together, had coffee meetings, sleepovers, beer summits, parties, dinners, and fundraisers.

While he didn't provide us with a name, the XP official said, "We experienced a senior senator blockading our efforts and then providing favors to a competitor, which then benefited his family financially." The discovery the lawsuit will provide will expose the "senior senator," but our previous research shows that [Senator Harry Reid](#)'s actions seem to fit the XP official's comment.

XP Technologies believes that “DOE officials changed the first-come-first-served published rules and standards of the funding in order to take applicants in order of who they favored and who had purchased the most influence instead of the order in which they applied, as required.”

Having extensively studied the DOE’s various loan programs, including the ATVM, Lakatos and I agree with our source’s startling conclusion: “Based on the evidence provided by investigators, and experienced directly by our team, it is hard to imagine that at least one or more elected, or? appointed, officials might not be seeing measures ranging from censure or even federal prison time.”

Time, the lawsuit, and subsequent investigation will tell.

While the House Oversight Committee has been digging deeply into the mismanagement and corruption of the green energy loans, the media has paid little attention. Other than [our report](#), the October 31 release of the emails cited here received virtually no news reporting. Even the Fox News Channel ignored the story. The plight of promising companies like Aptera and XP Technologies would have gone unnoticed if not for the lawsuit. The legal complaint attracted attention.

On November 16, the [Heritage Foundation](#) broke the XP story: “A lawsuit filed in federal court on Wednesday alleges mass favoritism in the Department of Energy’s decisions to award federal grants to major car companies to develop electric vehicles, according to a legal complaint obtained by Scribe.”

On November 19, Lakatos, whose work is listed as “evidence” in the legal complaint, received a call from Fox News’ Gary Gastelu—who [reported on the story](#) on November 20. The next day, Fox News covered the lawsuit on America’s Newsroom. Even the Drudge Report picked up on the story.

XP has a [litigation website](#) on which the company states: “The case has nothing to do with complaining about not getting the loans. It has everything to do with HOW the applicants didn’t get the loans!” They are communicating with other applicants about participating in the lawsuit.

The XP story and subsequent media coverage offers a lesson for others—especially industries who have been wronged by the Obama Administration’s practices (such as energy). The lawsuit may—or may not—send officials to federal prison, as our XP source suggests, but it could go a long way to winning in the court of public opinion.

Any issues re: culpability can be easily resolved in meetings with the FBI, FINCEN, The SEC, The IRS, The FTC, ICIJ.ORG and open Congressional hearings! Never was the term: "Follow The Money" more appropriate than for these people! Why are these people not yet arrested for election manipulation, RICO and Anti-trust violations, money laundering, bribery and other illicit deeds? Who is protecting them? Who is telling the police not to act? This list also serves as a demand for investigation and prosecution of these individuals who conspired to engage in these illicit acts. This is not the complete list.

***Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and agencies like the United States Department of Energy and the U.S. Patent Office, as a stock market manipulation platform. Politicians turned the government into a cheap garage sale of cronyism! -***

--- This case affects who runs the United States Government and who profits from government decisions, a matter of many trillions of dollars.

---- THE EVIDENCE ITEMS ARE AT THE BOTTOM OF THIS PAGE.

---- The following folders provide evidence of the corruption in categories. The illicit acts described therein all involve the same perpetrators. The evidence items specific to this folder category are at the bottom of this page: A.) AFGHANISTAN RARE EARTH CORRUPTION; B.) CASE DIAGRAMS; C.) DEPT OF ENERGY CRONY SLUSH FUNDS; D.) FACEBOOK META CORRUPTION; E.) GOOGLE ALPHABET CORRUPTION; F.) MASS MEDIA MANIPULATION; G.) NETFLIX NEGLIGENCE; H.) PATENT THEFT; I.) REPAIRING SILICON VALLEY; J.) SICKO TECH FRATBOYS; K.) SONY PICTURES CORRUPTION; L.) STANFORD UNIVERSITY INVESTIGATIONS; M.) THE CORRUPT SENATORS; N.) THE ELON MUSK REPORTS; O.) THE HOUSING CRISIS; P.) THE LITHIUM BATTERY LIE; Q.) THE MEDIA ASSASSINS; R.) THE POLITICAL BRIBES; S.) THE SAN FRANCISCO CORRUPTION; T.) USING SOCIAL MEDIA SITES TO SPY ON CITIZENS; V.) THE SILICON VALLEY DEATHWATCH

--- The United States Department Of Energy, Since November 2008, has been almost entirely used as a scam crony payola slush-fund to pay off political campaign financiers of White House insiders. In addition, the Dept of Energy is used as a gate-keeper to sabotage and stall the competitors to those political campaign financiers of White House insiders. It is political racketeering operating in plain sight! The cover-ups by the IG, AJ and DOJ are ENDLESS!

---- At a high level: Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and government agencies as a stock market manipulation platform. Politicians turned the government into a cheap garage sale of cronyism! This kind of crime illicitly and illegally manipulates the power over who runs the United States Government and who profits from government decisions which are a matter of many trillions of dollars. The act and veracity of this crime enterprise will be proven to the Jury. ---- Based on that assertion it will then be proven that:

----- 1.) Plaintiff exposed and reported the crime to proper authorities through proper channels.

---- 2.) Some of those authorities used government resources to operate reprisal attacks against Plaintiff, using government resources to operate the attacks, as revenge for reporting the crimes.

---- 3.) The state-sponsored attacks were supported by the political campaign financiers of the government authorities in order to protect their payola conduits and stock market manipulations.

---- 4.) Over 40 harms, each to be detailed and examined in Court, were documented against Plaintiff by the actions of corrupt government authorities.

---- 5.) In a vast number of previous lawsuits, including one won by Plaintiff and his peers, it was proven that government offices infected with corruption regularly attack and harm citizens in reprisal. -

--- 6.) The government, having been caught in these illicit actions, must now pay Plaintiff for his losses, damages, harms, back-pay fees and other compensation.

---- Plaintiff founded and owned a United States government-financed electric vehicle manufacturing company. His technology and metrics surpassed every: A.) price metric, B.) safety

metric, C.) driving range metric, D.) national security metric, E.) debt Ratio metric, F.) non-bribery assertion metric, G.) 100% domestic worker hiring proof and EVERY other issue, which burdened Tesla and Fisker. Plaintiff worked as an employee and contractor for the USA. Tesla And Fisker were financed by the family and investors of Presidents Obama and Biden, as proven by Congressional investigators and email leaks. Government officials ordered attacks on Plaintiff, de-funding and reprisal because Plaintiff reported corruption at the White House, Department of Energy, and other government offices, and because Plaintiff's technology could obsolete the technologies that government officials were illicitly receiving bribes from via insider trading. The attacks and harms against Plaintiff used government resources paid for by taxpayers.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends.

---- If you are a taxpayer: You suffered damages! ---- If you are an American business: You suffered damages! -

--- If you are Democracy: You were broken! ---- If you were a tech mobster: You made out like a bandit!

---- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes!

--- Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes! The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

---- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of

dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

---- IF YOU SEE CORRUPTION, REPORT CORRUPTION: Post a public web page with all of the details and evidence of the political corruption. Then invite all of the press, public, Inspector General's, FBI, SEC, FTC and law enforcement to that web page. This will prevent cover-ups and stone-walling and protect you from getting ignored! Never assume that the agencies that are supposed to help you, will help you!

- The perpetrators operate a **massive and abusive sex cult**. The Sandhill Road Venture Capital offices, located between Highway 280 to Santa Cruz Avenue in Menlo Park, California, house the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. Their sex cult actions have been widely covered in the news individually in the [Joe Lonsdale rape case](#), [The Kleiner Perkins Ellen Pao sex abuse lawsuit](#), The [Eric Schmidt sex penthouse stories](#), [The Jeffrey Epstein case](#), The [Google Forrest Hayes hooker murder case](#), The [Andy Rubin sex slave case](#), The [Sergy Brin 3-way sex romp scandal](#), The [British Hydrant investigation](#), The [Elon Musk Steve Jurevson billionaire sex parties scandals](#), The [NXIVM sexual slave](#) cases, The [Michael Goguen anal sex slave](#) trial, **and thousands of other cases and federal divorce court filings**. This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members.

- An inordinate number of the members are closeted homosexuals who seek to use their media monopolies and massive lobbyist ownership's to promote child sex and child sex change consideration. Hence the massive, sudden, promotion of those issues in all of their media since they took power in 2008. The press has widely reported on underage boy sex clubs and the payment to [parents for the blood of young boys by these oligarchs](#). A large number of tech VC's and senior executives are covert gay activists who hire women to act as their "beards". Their elitist Yale and Stanford fraternity house upbringings promoted "bromances", "rape culture" and a *don't-worry-daddy-will-fix-it* mentality.

- The AngelGate Conspiracy ( <https://venturecapitalcorruption.weebly.com/the-angelgate-conspiracy.html> ); The Job Collusion Case ( [https://en.wikipedia.org/wiki/High-Tech\\_Employee\\_Antitrust\\_Litigation](https://en.wikipedia.org/wiki/High-Tech_Employee_Antitrust_Litigation) ) and hundreds of other cases, prove that the perpetrators regularly meet, conspire, collude and racketeer, in full view of law enforcement, without ever getting arrested by the FBI because they bribe public officials in order to avoid prosecution. The perpetrators operate in extreme violation of federal RICO laws yet no DOJ or SEC RICO case has been filed against them by federal officials.

- The perpetrators have used their exclusive monopolized cash flow of taxpayer financed grants, contracts and internet infrastructure to purchase the majority of the political lobby firms and technology law firms in America. This gives them an illegal, illicit and unfair ability to control: 1.) which laws are made or stalled, 2.) who gets government funded or blocked, 3.) Who gets tax breaks, tax credits and tax waivers and who does not, 4.) Who gets state-sponsored reprisal targeting or benefits blockades, 5.) Who gets revolving door payola jobs at their companies, 6.) Who gets PAC money bribes, 7.) and many other effects that are legally defined as "racketeering".

- The perpetrators conspire, coordinate and manually manipulate their digital media mass broadcasts in order to collude in a manner that injects coordinated subliminal messages, that no regular voting citizen can detect, into their media in order to manipulate co-aligned political and ideological messages that will promote their ideological beliefs and promote public and policy actions which will provide profits to their stock market holdings which they co-own. Many of those stock market holders, (ie: in Tesla, Google, Amazon, Solyndra, rare earth metals, Disney, etc) were coordinated between all of the perpetrators by their partners at JP Morgan, Bear Stearns, Goldman Sachs in such a manner as to collude to rig markets via insider trading ownership's that U.S. Senators, and their families, shared.

- The perpetrators have used their subliminal media control technologies to manipulate every national election since 2008.

- The perpetrators use a contrived Scientology-like hiring and HR management system which seeks out the most vulnerable, naive, easily influenced, and damaged people to fill their employee coffers with, in order to do their bidding. Their employees are nothing less than tools, sheep and fodder for their media manipulations, sexual abuses and ego-mania.

- These people are absolutely evil, sick and sociopath-like individuals who operate with impunity because they are never arrested. They thumb their noses at the law and anyone who does not agree with them. They create fake political issues to milk the emotions of the public in order to gain power.

**The documents in these files were provided by the witnesses, investigators and crowd-sourced peer-to-peer public law enforcement investigators who uncovered materials that were relevant.**

This case documents and reveals the evidence that a Cartel comprised of public officials, many of them elected and located at the highest levels of government, and their Silicon Valley financiers, engaged in crimes against the public (essentially creating a coup against the U.S. Government) in order to steal taxpayer money and resources.

In a key part of the crime, the Obama Administration used the U.S. Department of Energy, under Secretary of Energy Steven Chu, who was protected by USAG Eric Holder, to payoff campaign financiers via crony kickbacks and stock market “pumps”. The same agency staff sabotaged those campaign financier’s competitors by defrauding them of tens of millions of dollars by telling them to invest their funds in order to get loans and grants that DOE executives never intended to issue. Government staff also engaged in stone-walling, character assassination and other “dirty tricks” schemes against applicants and competitors. This portion of the corruption crime was implemented and planned from 2007 through 2016. This was a felony abuse of taxpayer monies. Russian billionaires, Goldman Sachs, and other investment banks, and U.S. Senators illicitly profited off of this scheme.

Law enforcement and Congressional evidence now prove the fact that only those who payed campaign finance bribes received the funding from State and Federal agencies and they received it in amounts equal to the size of the bribes they paid. Every single other applicant (hundreds of them) who did not pay campaign bribes, and who did not give stock market warrants to Senators, was stone-walled, de-funded, sabotaged and lost tens of millions of dollars by being defrauded by Energy Department officials who covertly knew that the funding had been hard-wired for their friends, in advance.

The criminal participants sought to manipulate elections and public opinion in order to place their insiders in government offices. They did this in order to steer government treasury cash, contracts, intelligence resources, government benefits and stock market advantages to their private profiteering accounts, at the expense of the public. Historical records and evidence has proven that they, indeed, did engage in these criminal activities.

They abused the operation of the DOJ, FBI, DOE, CIA, SEC, FCC, FTC, DOT and other agencies, in order to operate their scheme.

Via their leaked communications, non-compromised officials, news coverage and public testimony, their crimes and illicit actions are hereby exposed in order to curtail their corruptions.

These Senators, lobbyists, Silicon Valley billionaire oligarchs and investment-bankers used “party ideology” to seek to whip up a zealot-like frenzy to try to get voters to overlook their sins. In the end, the public has finally begun to realize that the issue is not about party politics. It is simply about organized crime and the abuse of public office for out-right theft and stock market fraud by these politicians.

150 criminally corrupt politicians and their Silicon Valley financiers abused hundreds of millions of American voters and the public policy system in order to line their private bank accounts and fulfill

their personal needs for power. They operated Congress like an organized crime syndicate. They did this in violation of the law and in violation of public ethics.

These assertions are proven, via hard facts and evidence, in the files contained in this repository. Additional confirming evidence from law enforcement, Congressional and insider sources is also available upon request.

Why does any of this matter?

Because many of us were lied to by our elected officials who then took our life savings and decades of work and put our money in their own pockets. Because many of us were in the offices of Nancy Pelosi, Debbie Wasserman and Dianne Feinstein and personally saw them engage in crimes to pad their own bank accounts at the expense of their co-workers and the public. Because many of us knew Seth Rich, Gary D. Conley, Rajeev Motwani and the 45+ other people who had intimate knowledge of these crimes and then suddenly and mysteriously turned up dead. Because many of us saw these crimes committed, first-hand, and know these assertions to be fact. Because the rest of us are American voters and citizens who will never tolerate this kind of corruption and will never allow it to disappear from public memory or the history books! Because the arms of the law and public justice are ever lengthening and will eventually bring every criminal involved to justice!

# How Elon Musk, Larry Page and Mark Zuckerberg Use Scam Nonprofits to Hide Dark Money

ALL OF THESE CORRUPTION CRIMES ARE ABOUT CRONY KICK-BACK PROFIT PAYOLA

It is of the utmost importance that researchers, investigators and observers understand that these matters have nothing to do with issues of politics or ideologies.

Politics or ideologies were used, by the criminals involved, as mass marketing manipulation tools in a secondary manner in order to manipulate voter trending pressures and increase the crooks government cash windfalls.

The core goal of these corruption crimes was to conduit trillions of government treasury dollars and stock market valuation manipulation profits into the pockets of certain politicians and their crony financiers.

In the ensuing exposure and cover-up, now underway, the criminal elements constantly seek to steer circumspection away from themselves by drawing on emotional political ideology triggers, ie: "...don't believe that we politicians did any crimes, we are part of your political party. It must be the bad OTHER political party making up stories because they are jealous.."

In fact, for a free scoop into the pig trough full of trillions of taxpayer dollars these criminals have proven that they will lie, murder, extort and operate more like a crime syndicate than a pool of elected representatives. This is not about politics, this is about crime.

Politicians are increasingly using nonprofits capable of accepting unlimited dark money funds to advance their agendas and oligarchs use those non-profits to bribe those politicians.

- [Chisun Lee reports:](#)

Since Watergate, it's been illegal for anyone to secretly donate millions to a federal candidate's election campaign. Congress decided at the time that capping contributions was a price worth paying to deter corruption. For the same reason, campaign finance law requires candidates to publicly disclose donations above a certain amount. Sunlight, as the Supreme Court likes to say, is the best disinfectant.

But such rules — designed to prevent would-be officeholders from being “bought” by wealthy donors — don’t apply to a burgeoning new mode of self-promotion that politicians are embracing once they actually take office.

Like so-called “buddy PACs” – unlimited spending groups that support a single candidate *during* campaign season – the new must-have accessory for successful politicians is the officeholder-controlled nonprofit. These entities, launched *after* the campaigning is over, can raise unlimited amounts in secret donations to spend on promoting officeholders and their agendas. And they are gaining popularity among elected officials at every level of government.

The time has come to enact common-sense regulations to stop these nonprofits from corrupting our politics.

Among the most prominent examples: America First Policies, a 501(c)(4) social welfare nonprofit that President Trump’s top advisors founded a week after his inauguration. Earlier this year, CNBC reported the group has [conducted polling](#) worth as much as seven figures — work that typically fuels political ad campaigns. Among other promotions of Trump administration positions, the nonprofit produced a [TV ad](#) last fall that featured flattering footage of the president and called on viewers to “stand with President Trump to cut taxes, now.” The donors to America First Policies remain secret.

In a recent [report](#), we at the Brennan Center for Justice found that at least two presidents, seven governors, and several prominent mayors – from both major parties – have established nonprofits that allow them to raise unlimited, anonymous funds for political spending after election day.

Since 2010, these elected officials — including Republicans like embattled Missouri [Governor Eric Greitens](#) and progressives like campaign finance warrior [Bernie Sanders](#) — have altogether raised as much as \$150 million for nonprofits that they are able to control and use to promote their respective agendas.

Allowing elected officials to take unlimited cash from usually secret donors through these nonprofits opens the door to conflicted loyalties and corruption. Occasional [exposés](#) reveal some of these donors have specific business interests before the elected officials whose nonprofits they support – and likely see their donation as a means to win government decisions that will benefit them.

In New York State, for example, gambling companies donated \$2 million to a nonprofit affiliated with Governor Andrew Cuomo just before he [declared his support](#) for increasing gambling in his 2012 State of the State address. And in Los Angeles, a pipe manufacturing executive made it clear that his million-dollar pledge to the mayor’s nonprofit was meant to gain influence in a city that forbids campaign contributions by companies seeking government business. He [told the Los Angeles Times](#), “We want to influence the government leaders to make the right decisions so that we can be more competitive.”

Some of these nonprofits have taken steps at self-regulation. President Obama’s Organizing for Action wrote the playbook on turning these types of nonprofits into publicity juggernauts. In the spirit of being “open and transparent,” OFA decided early on to [voluntarily disclose](#) its donors. But hoping that officeholder-controlled nonprofits will voluntarily disclose funders is hardly a plan to ensure ethical governance.

Americans deserve to have confidence that decisions about who builds bridges or treats drinking water are based on the most qualified, competitive bid – not who gives the most to an elected official's nonprofit. For this reason, we recommend a straightforward set of laws to bring transparency to these nonprofits and limit the influence of those with specific business interests before government, and we're urging legislators across the country to adopt it.

First, we should identify those nonprofits that pose a major risk of corruption – determining whether an elected official or close associates control the group and, if so, whether the group spends substantial amounts on promoting the official. Then, for the small set of entities this test would identify, we propose two key safeguards that are well-established components of anti-corruption law. One is public disclosure of who is giving money, and how much, to an officeholder-controlled nonprofit. The second is contribution limits for donors who have concrete business interests that the politician has the power to affect.

Some jurisdictions have already started following this model. In New York City, similar legislation kicked in this year following a federal investigation into Mayor Bill de Blasio's [nonprofit](#) and allegations of ethical transgressions. And in early 2017, the Missouri legislature considered a [measure](#) to require certain nonprofit groups to report donations, though the effort fell short.

To be sure, nonprofits associated with elected officials may do work that serves the public. They may use the officeholder's high profile to attract private funding for education, economic development, antipoverty work, and more. The beauty of a legal solution that focuses on control by the elected official and spending to promote that official is that these public benefits can go on, uninterrupted.

But with officeholders' increasing reliance on private donors even outside of campaign season, requiring transparency and limiting donations by those seeking government business are crucial starting points for protecting government integrity. To ignore this growing problem of money in our politics, where a [handful of ultrarich donors](#) already wield grossly outsized influence, would ignore an unacceptable threat to representative democracy.

# A few politicians go after political 'dark money' with anti-corruption measure but it is just an act to protect Big Tech!

HR1 is designed to combat the secret political funding illustrated in the John Doe Files, leaked to the Guardian in 2016

[Ed Pilkington](#) in New York and [Sabrina Siddiqui](#) in Washington

The influence of "dark money" in American politics that allows billionaires to fund political campaigns through third-party groups without disclosing their involvement was put under the spotlight at a congressional hearing on Thursday, as [Democrats](#) use their newfound majority to crank up a sweeping new anti-corruption measure.

In the first hearing on the bill, known as HR1, the House administration committee examined how undisclosed donations from some of the country's richest individuals is distorting they way politicians are elected.

"The mechanics of our democracy - access to voting, running for office, holding government accountable - have undergone radical changes in recent years," Congresswoman Zoe Lofgren, the committee's chairwoman, said while commencing the hearing.

She added: "These changes have tended to restrict the rights of eligible voters. It has made the voices of the wealthy and powerful so loud that they can drown out the voices of ordinary people."

The committee heard from a range of election experts, as well as from civil rights activists, who illuminated the impact of such "dark money" on the lives of ordinary people.

A key example of the corrosive influence of secret political funding presented before the committee was the John Doe Files, the vast tranche of documents leaked to the Guardian in 2016 and posted in their entirety on the Guardian website. [The 1,500 pages of material](#) exposed how big corporations and some of the wealthiest rightwing donors in the US used their fortunes to prop up prominent politicians, in some cases going on to extract political favors in return.

Peter Earle, one of the panelists, was poised to appear before the committee later in the hearing to detail the revelations of [the John Doe Files](#). A civil rights trial lawyer in Milwaukee, Earle has been suing the historic manufacturers of lead paint in a long-standing case designed to secure compensation for poisoned children as well as to generate funds needed to remove still existing toxic paint from hundreds of thousands of homes across the US.

"It is indeed a sad day for our democracy when a rich and powerful corporate CEO can deprive innocent victims of lead poisoning their day in court just because he could afford to secretly donate huge amounts of money to greedy and ruthless politicians," Earle will say, according to a copy of his written testimony.

"The only reason that this story is publicly known is because years after the secret six-figure donation and subsequent sweetheart legislation, a trove of previously secret documents was

leaked to the Guardian newspaper by a valiant whistleblower.”

The Guardian’s documents revealed that the late owner of one of the largest historic makers of lead paint, NL Industries, had donated \$750,000 to a third-party group in Wisconsin that was heavily involved in helping the state’s then governor Scott Walker fight a recall election. As the money was passed through a group, the identity of the donor, NL Industries’ owner Harold Simmons, remained secret until the Guardian exposed it.

That meant that nobody was able to join the dots when, soon after Walker won the election, the Republican-controlled legislature in Wisconsin changed state law. Under the rule change, it became much more difficult for victims of lead paint poisoning, most of them children, to sue NL Industries and other former lead paint manufacturers for the damage inflicted on them.

Concern about the pervasive influence of undisclosed political donations by corporations and the super-rich has become a red hot issue, particularly among the new intake of young Democratic Congress members swept in by November’s mid-term elections. The “corruption game” played by Alexandria Ocasio-Cortez before the House Oversight committee in which she denounced campaign finance controls – or the lack of them – this week became the [most viewed video](#) of a politician’s speech ever posted on Twitter.

In it she said: “We have a system that is fundamentally broken.”

The Democratic party has chosen to mark its renewed dominance in the House of Representatives following the November elections by putting reform of America’s stricken democracy at the top of its agenda. HR1, known as the [For The People Act](#), includes strong provisions designed to combat corruption by forcing all organizations involved in political activity, including so-called “social welfare” groups, to disclose large donors.

The bill is likely to be put to a House vote next month and is assured of passage through overwhelming Democratic support. It is almost certain to flounder, however, in the Republican-controlled Senate, given the [virulent opposition](#) from the party.

Mary Bottari, a researcher with the watchdog on money and politics, the Center for Media and Democracy, said Wisconsin should be seen as a cautionary tale for the nation. “Billionaires give huge amounts to aid politicians but because they gave it to a third-party group the public would never know.”

Many senior figures in the current Republican party and Trump administration appear in the John Doe Files. Trump himself has a walk-on part: the leaked documents disclosed that he [made a donation of \\$15,000](#) following a personal visit from Scott Walker to Trump Tower in New York.

Another who [makes an appearance](#) in the documents is Nick Ayers, who has just stepped down as chief of staff to the vice president, Mike Pence. He has reportedly left the White House for a senior role in a super Pac that will be channeling money from big donors to Trump’s 2020 re-election campaign.

Also prominent at Thursday’s hearing was the issue of voting rights and efforts to restrict access to the polls that are predominantly aimed at people of color and students.

"The promise of this country is that every person has a voice and every person out to be counted," Chiraag Bains, the director of legal strategies at the public policy organization Demos, told the panel. "Our history has been one of struggle to make that promise a reality."

## **WHO IS THE PALO ALTO MAFIA? - #PaloAltoMafia**

### **- A demand for FBI arrests of these parties**

The ***Palo Alto Mafia*** is an ad hoc organized crime group that violates RICO racketeering laws by engaging in dark money political corruption.

These mobsters use covert dark money schemes to direct elected officials to take public tax money and put that money in their pockets and the pockets of their campaign financier associates while using government resources to sabotage competitors. They pay the bribes to the political officials with stock market warrants, prostitutes, credit cards, real estate, mortgages, loans, revolving door jobs, contracts and other dark money.

Counter-measures against these criminals are aimed at making sure they are exposed, doxed, shamed and arrested! Private/public databases have been created to track and destroy all of their stock market holdings, Silicon Valley monopolies, off-shore spider holes, covert payola trusts, hidden shell corporations, sex trafficking clubs, emails, credit cards, stock accounts, covert real estate holdings, tax write-off profit fronts and other illicit assets.

They accrued money and power by creating mass hyper-scaled monopolies, mostly in new digital markets, by exploiting exclusive government financed exploitation provided by laws, grants and contracts that the politicians, that they owned, produced exclusively for them while locking out their competitors.

Although often exposed in such cases as the "*AngelGate Collusion Case*", "*The Silicon Valley No Poaching Class Action Lawsuit*" and hundreds of other cases, their ownership of the senior executives at FBI, SEC, FTC, FEC, OSC, DOJ and other enforcement agencies has, so far, prevented their formal interdiction.

While using billions of dollars of PR agencies to promote a "crunchy-granola", we-are-saving-the-world, "goodie-two-shoes" image for each of themselves, behind the scenes they conspire, collude, sex traffic, bribe, spy, black-list, payola, media bias control, censor, abuse and use Democracy as their play-thing for their sociopath addictions to power and money.

They bankrupted old-school print media and replaced it with digital media ***which they control*** to promote only their profiteering ideology. They control almost all search engines and media servers to rig them to censor public information and mass manipulate social perspectives using the automated tactics exposed in documentaries like: "***The Creepy Line***" and 60 Minutes segments about "*Information brokers*".

They pay their bribes to their politicians and operatives using dark money relayed by corrupt law firms, lobbyists, media services and character assassination services like IN-Q-Tel; Gawker Media; Jalopnik; Gizmodo Media; K2 Intelligence WikiStrat; Podesta Group; Fusion GPS; Google; YouTube; Alphabet; Facebook; Twitter; Think Progress; Media Matters; Definers; Black Cube; Roger Stone, Mossad; Correct The Record; Sand Line; Blackwater; Stratfor ; ShareBlue; Wikileaks; Cambridge

Analytica; Sid Blumenthal; David Brock; Covington and Burling, Perkins Coie, Wilson Sonsini and hundreds of others...

There are over 150 sudden, unexpected, suspicious deaths associated with person's who were at odds with this organized crime group ranging from "suicides", strange accidents and clear murders.

The tremendous number of sex scandals this group has been involved in are related to their need to control others, a key character trait of the sociopath psychological profile demonstrated by the majority of them.

They instruct the HR staff of the companies they own to only hire naive young employees that will appear to follow their echo-chamber-optimized, highly controlled corporate ideology culture. Any who fall out of proper "group-think" are fired until they have culled a perfect clone army of indoctrinated followers to push their political and profiteering control goals.

A large number of them are homosexual, subscribe to the Jewish cultural social training and are deeply influenced by collegiate fraternity and sorority teachings about social roles and elitism.

Russ Sullivan and Michael Drobac, McGuireWoods Consulting (As the longtime staff director for the Senate Finance Committee, Sullivan knows tax policy inside and out; Drobac is an expert on all things tech.)

Linda Tarplin, Tarplin, Downs & Young LLC (Tarplin, a longtime consultant and lobbyist, has an impressive roster of health-care clients to her name.)

Carl Thorsen and Alec French, Thorsen French Advocacy (This two-man bipartisan firm often works on issues that are off the beaten path for clients such as the American Association for Justice, the Directors Guild of America and Cultural Care Au Pair.)

Stu Van Scoyoc, Van Scoyoc Associates (Van Scoyoc has cultivated a partisan firm with roots in appropriations issues, helping out clients such as SeaWorld, Airports Council International, the city of San Diego and the Cleveland Clinic. )

Stewart Verdery, Monument Policy Group LLC (It's been nothing but growth since Verdery founded his shop more than 10 years ago; they've launched a public affairs arm and reopened a Seattle office this year.)

Jack Victory and Rick Shelby, Capitol Hill Consulting Group (Victory is a CEO with a knack for developing legislative strategy; Shelby wields power in the energy space and in state politics.)

Jonathan Yarowsky, WilmerHale (Yarowsky's client sheet spans multiple industry sectors, setting the tone as co-chairman of the firm's public policy and legislative affairs practice.)

**Together they use the key political tactic of "heart-string" stock market pumping.**

They deploy a coordinated PR program that hypes a certain fabricated "issue" which will end up increasing the valuation of stock market stocks they own.

"Immigration" creates more DNC voters which allow them to control more Senators who, in return, create more policies which increase the valuation of the Mafia's stock market holdings at JPMorgan and Goldman Sachs.

"Climate Change" causes more government cash for the solar panels, wind farms, lithium ion batteries and electric cars which the Palo Alto Mafia owns the exclusive rights to. The more they can push a "crisis" perception about climate change, the more cash they can put in their pockets. Goldman Sachs is the "advisor" for Tesla, Solyndra and most "green" Mafia companies.

The private profits of this scheme involve over SIX TRILLION DOLLARS of tax money. That is why they will lie, cheat, steal and even kill to keep their plot going.

The top ways to prevent these crimes are to 1.) outlaw lobbying and 2.) create a ten year moratorium of politicians working in politics. The Palo Alto Mafia spends over 16 BILLION DOLLARS per year in lobbying efforts to prevent this from happening.

The Palo Alto Mafia self-deludes and echo-chambers their peers into a frenzy of increasingly violent thought about all those who oppose their schemes and covertly supports ANTIFA as a surrogate entity so that they can sit in their Woodside mansions and "remote-control" disruptions and political resistance.

In fact, they are sociopath criminals deserving arrest by federal police and prosecution under RICO Racketeering laws.

## AAA WHO OPERATED THESE CRIMES?

The following individuals did “*Abso-F\*CKING-Lutely*” nothing to stop these crimes and, in fact, ran these crimes and their cover-ups.

We reported these crimes to most of these people in written police reports and these “public officials” then ran for cover and stone-walled all of those investigations in order to run insider trading scams to profiteer on the backs of the public using the stock market.

The voters, the media and the world will now work together to make certain that the legacy of these criminal abusers of the public trust places the in every history book as a “SCUMBAG AND CORRUPT MANIPULATOR OF THE PUBLIC INTEREST” next to their names, and their families names, for all of time.

- Other Potential Defendants exist including State And Federal Agencies and their executives. The assets, bank accounts and high recovery values of the above targets are known and documented, though. The evidence and subpoena-capable reinforcement of that evidence is substantial in the above list.

These parties have been forensically tracked to illicit campaign financing, hacking, bribes, political payola, stock-market rigging, slush-funds, false-front shell corporations and family trusts, abuse of corporate funds, advertising metrics frauds, RICO statute violation organized crime, employee abuse, electronic communications intended to evade law enforcement and other charges. In Palantir, XKeyScore and law enforcement databases they are all cross-linked. Terminations and interdictions for each party and their illicit actions have been continuing successfully.

The termination of this network of parties will, effectively, terminate The Cartel in question. Each and every legal take-down has now passed the 50% vector and is proceeding to completion.

California and DC politicians are being paid bribes with Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Rare-Earth mining rights; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors; Gallery art; Private jet rides and the use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Recreational drugs; Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington and Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists. DEMAND COMPLETE LAWS TO MAKE ANY BENEFITS TO POLITICIANS TOTALLY ILLEGAL!-

## The Khaki Pants Mobsters Of Palo Alto:

--- The "Silicon Valley Mafia" is comprised of The Sand Hill Road venture-capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) facade (Greylock Capital; Kleiner Perkins Caufield and Byers, Draper, Khosla Ventures, etc.) and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) that they control.

---- They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control and who own stock in their operations. They hire dirty law firms like MoFo, Wilson Sonsini, Covington, Perkins, etc. and dirty lobbyists like McBee, Podesta, Blumenthal, etc. to do their dirty deeds. -

---They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America Foundation, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders.

---- They collude with black-lists, valuation payola, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, Jeffrey Epstein-like executive prostitute sex-trafficking clubs, trophy wife trades, the bribery of politicians and worse. They are felons who bribe politicians to halt investigations and interdiction efforts.

---- They have quid-pro-quo stock market bribe deals with Senators Reid, Feinstein, Harris, Boxer, Spier, etc. In the CleanTech Crash: Every single Dept of Energy executive, and related Senator, owns stock market assets in Tesla, Fisker, Solyndra, Ener1, etc. so they blockaded and sabotaged every applicant who competed with their holdings in a RICO-violating, felony organized crime, using taxpayer funds, in order to profit at the expense of taxpayers.

---- They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis practitioners, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves' and other anti-social revelations. The divorce court and lawsuit federal court records on them prove that they are sex-abusing sociopaths.

---- They use their monopolistic control of the internet to massively and exclusively scale

services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

---- Some of the top crooks and bribe-payers include: Google's Larry Page, his boyfriend Elon Musk; Google's Eric Schmidt, Andy Rubin, David Drummond, Kent Walker, Jared Cohen and Sergy Brin; Political manipulators David Plouffe, Steve Westly, Steve Spinner and Vinod Khosla; Sociopath billionaires Reid Hoffman, Richard Blum, Jeff Epstein, Tim Draper, Steve Jurvetson, etc.

---- They order their staff and associates to: bribe politicians; operate sex trafficking for them; manipulate stock market valuations; launder money; run off-shore tax evasion schemes; black-list employees and competitors; hide, down-rank, DNS dead-hole, shadow-ban, censor and server obfuscate enemies on the entire web; rig the U.S. Patent Office; help them cheat on their wives; and engage in massive volumes of insider, illicit, RICO and anti-trust violating crimes while bribing public officials to avoid prosecution. The companies and corrupt politicians of Silicon Valley must be erased in order to, first, repair Silicon Valley.

---- The Silicon Valley tech Cartel (AKA: "Paypal Mafia", "Deep State") is evil because these racist, ageist, sex-trafficking, money-laundering, elitist, politician bribing, tax evaders: steal any technology they desire; FACEBOOK AND GOOGLE MAKE \$100M IN PROFITS OFF OF EACH CLASSROOM SHOOTING!!!

---- They manufactured the CLEANTECH CRASH as shown in the 60 MINUTES episode of the same name; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are 'rape culture' take-what-they-want misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI and SEC investigations; They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times.

---- They have bought up all of the Tier-One tech law firms and order them to black-list, and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws. Silicon Valley has become the largest assemblage of douche-bags and yuppie frat boy criminals in human history.

Theranos is not the exception, it is the standard. Tesla, Google, Theranos, Wework, Facebook

are lies backed by famous political insiders to protect their insider trading and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors. When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI!

The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy! When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, via corruption, then it is impossible for that Senator to ever do anything but be corrupt! We have reported this in writing to [winklerm@sec.gov](mailto:winklerm@sec.gov), [sanfrancisco@sec.gov](mailto:sanfrancisco@sec.gov) and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is?

---- Take a look at how many TRILLIONS of dollars pass through the stock markets annually and then look at the reported, AND UNREPORTED, securities holdings of famous U.S. Senators and government agency staff. That is what Seth Rich and the people in the "In Memory Of" section, below, were disclosing. These are massive crimes! The perpetrators operate a massive and abusive national sex cult.

---- The perverts in the SandHill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and Ed Buck sex scandals are well known.

---- These men's sex cult actions have been widely covered in the news individually in the Joe Lonsdale rape case, The Kleiner Perkins Ellen Pao sex abuse lawsuit, The Eric Schmidt sex penthouse stories, The Jeffrey Epstein case, The Google Forrest Hayes hooker murder case, The Andy Rubin sex slave case, The Sergey Brin 3-way sex romp scandal, The British Hydrant investigation, The Elon Musk Steve Jurvetson billionaire sex parties scandals, The NXIVM sexual slave cases, The Michael Goguen anal sex slave trial, The Tom Perkins Hooker Parties and thousands of other cases and federal divorce court filings.

---- This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. The Elon Musk sex perversions are the tip of the iceberg. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members.

Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. Google's Eric Schmidt is under massive investigation. You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: Eric Schneiderman and Eliot Spitzer, are involved in these sex rings.

These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses!

---- All Silicon Valley tech cartel media companies work together to censor all news and information in order to hide coverage of their dirty deeds and to only put politicians in office that will give the Cartel political payola, kick-backs and insider stock pumps.

---- The Smedley Butler "Business Plot" from the past is not unlike the coup that Google and clan tried. See details in Emily Chang's book: BROTOPIA; Roan Farrow's book: CATCH and KILL; Edward Snowden's Book: PERMANENT RECORD; Peter Schwetzer's book: THROW THEM ALL OUT; Dave Eggers book: THE CIRCLE; Franklin Foer's book: WORLD WITHOUT MIND; Corey Pein's book: JOURNEY INTO THE SAVAGE HEART OF SILICON VALLEY; Dan Lyon's book: DISRUPTED; Antonio Martinez book: CHAOS MONKEYS. The Angelgate, Epstein, No-Poaching DOJ Class Action, and hundreds of other cases, prove that they meet, conspire, collude and blacklist in felony violation of anti-trust and RICO Racketeering laws.

- 90% of these guys came from the same date-rape fraternity houses involved in the recent college rape cases.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is

anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology.

So it's like you are getting "mind-raped" without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking.

---- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

## **DIE SILICON VALLEY...DIE!!!!**

After a decade of exuberance, Silicon Valley start-ups, venture capitalists and established tech companies alike are cutting investment and firing workers, prompting some in the tech world to openly predict a U.S. recession is on the way.

Facebook and Amazon have slowed their frantic hiring paces, while highflying newer companies including scooter company Bird and email client Superhuman have laid off workers. Tesla chief executive Elon Musk recently told employees he has a “super bad feeling” about the economy, and venture capital firm Lightspeed Venture Partners warned in a blog post that “the boom times of the last decade are unambiguously over.”

On Thursday, fashion tech company Stitch Fix said it was cutting about 15 percent of salaried positions, or a total of 330 roles, sending its stock price sinking. The people losing their jobs were told that morning, chief executive Elizabeth Spaulding wrote in a memo to employees.

“In light of our recent business momentum and an uncertain macroeconomic environment, we’ve taken a renewed look at our business and what is required to build our future,” Spaulding wrote.

The broader industry slump worsened on Friday, when the tech-heavy Nasdaq index fell 3.5 percent. It is now down 28 percent for the year.

The sudden shift is giving many in the sector whiplash. Uncertainty has settled over Silicon Valley as venture capitalists, tech founders and regular employees debate whether the pessimism is overblown or if tech really is the canary in the coal mine, already suggesting a broader downturn in the U.S. economy.

[Most Americans expect inflation to get worse, Post-Schar School poll finds](#)

Tech start-ups do serve as a “leading indicator” for the economy, said Till von Wachter, a professor of economics at UCLA. Higher interest rates can mean it’s more difficult to raise money to fund new ventures — which typically take a while to turn a profit.

“They are one of the sectors that are the most sensitive to interest rate changes,” von Wachter said. “They are very dependent on what we believe the future to be.”

Tech has benefited immensely from the roaring bull market of the past decade, with soaring valuations enriching not just owners and investors but hundreds of thousands of employees who were paid in stock on top of their regular salaries. The pension plans and 401(k)s of millions of Americans have benefited from companies like Apple, Amazon, Google and Microsoft breaking through the trillion-dollar mark and becoming as valuable as the annual output of entire economies such as Italy or Brazil.

Year after year of rising valuations has created a pervasive feeling that there is nowhere to go but up. An entire generation of tech workers and founders have never worked in an industry without long lists of open jobs, new projects getting approved easily and employers throwing a stream of perks such as free meals and unlimited vacation at them.

## [Global leaders warn of economic dangers as crises multiply](#)

Money has poured into smaller tech companies, too, as investors, including traditional venture capitalists all the way up to government-run sovereign wealth funds, have looked for ways to get in on the tech boom that never seemed to end.

Tech has faced shaky moments in the recent past. At the beginning of the coronavirus pandemic, millions of Americans lost their jobs, and tech stocks, along with the rest of the market, fell quickly. But it bounced back almost immediately, and many grew even stronger during the pandemic as government spending boosted the economy and people spent more of their money on e-commerce and digital services.

To some prominent tech luminaries, this moment feels different.

“We do not believe that this is going to be another steep correction followed by an equally swift V-shaped recovery like we saw at the outset of the pandemic,” the leaders of blue-chip Silicon Valley venture capital firm Sequoia Capital wrote in a May presentation to its portfolio companies that was published by tech news organization the [Information](#). “We expect the market downturn to impact consumer behavior, labor markets, supply chains and more.”

That follows [early warning signs](#), including pandemic darlings feeling the squeeze: Exercise company Peloton’s shares slumped and celebrity video app Cameo laid off staff. Amazon also said it had overextended its warehouse space, and Uber CEO Dara Khosrowshahi warned of tougher times to come. Microsoft, Amazon, Apple, Tesla and Google have all lost at least 20 percent of their market value since the beginning of the year.

Even Twitter, which is in talks to be bought by Musk, has been pulled below the price he’s willing to pay by a market that’s pessimistic about whether the deal will go through, as well as the company’s business prospects.

A fresh wave of economic uncertainty has washed over the world as Russia’s war against Ukraine grinds on, China’s economy wobbles because of fresh pandemic restrictions and the U.S. Federal Reserve raises interest rates to try to tame inflation. That uncertainty hit Silicon Valley early, with share prices beginning a steep decline in January.

## [Amid global chaos, the tech industry takes a rare tumble](#)

The lack of investor confidence has quickly moved down to start-ups, too.

For years, investors had been pouring money into start-ups in the hope they could go public and net a big return, but that path doesn’t seem as reliably profitable anymore. Venture capitalists whose money is tied up in not-yet-profitable tech companies are telling them to cut their spending and prepare to hold on longer without as much money.

Those companies, in turn, are starting to react to the market downturn with layoffs and hiring freezes.

And many companies are paying extra close attention to costs. Bird, the electric scooter and bike company, said this week it had to let go of about 23 percent of employees as it cut costs.

"While the need for and access to micro-electric vehicle transportation has never been greater, macro economic trends impacting everyone have resulted in an acceleration of our path to profitability," Chief Communications Officer Rebecca Hahn said in a statement.

Global venture capital funding fell to \$39 billion in May, its lowest level since November 2020, according to Crunchbase, which noted that later-stage rounds were more heavily hit than early-stage start-up funding.

"We're just seeing a lot more caution from investors because of what's happened in the public markets," said Gené Teare, senior data editor for Crunchbase News.

#### [Elon Musk threatens to back out of Twitter deal over withholding data](#)

Seattle-based investor Greg Gottesman said he and other investors are advising companies to be careful, but he noted that many tech start-ups still succeed during economic downturns.

"There is more of a focus on growing smartly," said Gottesman, managing director of Pioneer Square Labs. "Putting the right amount of people in the right spots and trying to grow smartly as opposed to just aggressively."

The broader economic concerns are real, but cutting investment and spending across the board may create new issues, said Antoine Nivard, co-founder and general partner at Blank Ventures. Many start-ups sell software to other tech companies, making them especially vulnerable when the industry in general slows its pace of spending.

"There's also a self-fulfilling prophecy there. The first demand that evaporates is start-ups selling to each other," Nivard said. "I wish there was a bit less panic and bit more thinking about the nuance."

Whether the slowdown means a broader recession is coming to other industries is still an open question. Not everyone sees tech as a bellwether for the whole economy. Instead, the tech industry may have further to fall than other sectors simply because it received more funding, pumping up valuations to levels that the companies didn't deserve.

"People are going back and realizing, 'Maybe we shouldn't have been pricing at amounts we were doing,'" said Jake Hare, founder of start-up incubator Launchpeer.

#### [Amid global chaos, the tech industry takes a rare tumble](#)

A pullback in investment in start-ups is an example of the kind of thing the Federal Reserve is trying to trigger as it works to cool off the economy and lower inflation, said James Wilcox, an economics professor at the University of California at Berkeley. That doesn't mean a recession.

"That party is over," Wilcox said. "It's not necessarily that there's going to be a terrible hangover from it."

The doom and gloom from senior venture capitalists may also be part of an effort to educate the younger generation and encourage them to curtail spending in case of a downturn.

"If you're funding some 28-year-olds, they don't know a roller coaster, all they know is a rocket ship," Wilcox said. "They haven't seen what a financial winter looks like. They haven't even seen a cold spring."

**Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.**

## **THE MEDIA ASSASSINS: POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS**

- How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches.

---- Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers.

- How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

- In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

---- It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent. - The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Undercover Global Ltd (DNC/GOP) Stratfor - (DNC/GOP); ShareBlue -

(DNC); Wikileaks (DNC/GOP); Cambridge Analytica – (DNC/GOP); Sid Blumenthal- (DNC); David Brock – (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling – (DNC), BuzzFeed – (DNC) Perkins Coie – (DNC); Wilson Sonsini – (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

– These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business.

---- These attack services are responsible for 90% of the “Fake News” problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! – These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

– In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN’s Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

– This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running “Operation Echo Chamber,” which reportedly continues, in which he fed information to willing corporate media scribes. “They literally know nothing,” Rhodes said of the twentysomething journalists he easily manipulated.

---- The Freedom of the Press Foundation’s Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

– Timm writes: “Today, we are revealing—for the first time—the Justice Department’s rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University.”

– Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump’s team, as evidenced by Peter Strzok and Lisa Page’s texts confirming that Obama was overseeing their fly-by-night operation.

– Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government.

---- Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls “SPYGATE”. – It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to

the White House of Barack Obama. Here's the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.")

- In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

- This is what they are hiding. - However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

- These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: - Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies.

---- By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities.

If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target.

---- If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will,

essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost".

---- Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case.

---- Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world.

---- This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer

discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

---- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

---- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon.

---- It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head".

---- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in.

---- Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

---- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject. – Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

---- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set.

---- This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago.

Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life.

---- Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

– McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

– Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

– There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services.

---- The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders".

---- A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. – Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have

documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers.

---- The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and hit-job attacks on third parties.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

News outlets in our country exhibit the widespread "criminality" and "defamation tactics" of a mostly corrupt news media landscape. The Gawker/Gizmodo/Jalopnik tabloid empire is nothing more than an organized info-crime operation backed up by offshore money-laundering through Russia and the Ukraine.

---- Despite widespread recognition of their deceptive conduct, fools still read these trash publications.

---- There are massive conflicts of interest related to many news media outlets' conglomerate-ownership as well and industry figures' financial and familial links to companies, interests, and people they ostensibly report on.

---- 'Fake news' isn't the proper term. It's the 'propaganda arm of the Silicon Valley Socialist oligarchs' In most cases.

---- There are only about 7 men who control all of the news and media in America. That's right! If you trace the media ownership in America, it all comes down to control by a few crazy old white boys -

--- It's no different than the Chinese Communist Party [and] the propaganda they put out. It's no different than what the Soviet Union did with the old Pravda media, and, quite frankly, it's no different than how Putin controls the media today, where 95 percent of his media in Russia is propaganda for the Putin regime. It's the same thing here with The Washington Post, NY Times, CNN, Hearst publications and all of the media owned by Hollywood and Silicon Valley.

--- Partisan news media should be treated as such. News media outlets such as the CNN, the New York Times, and the Washington Post regularly describe themselves as "politically objective and non-partisan." In reality they are a propaganda machine for sick Silicon Valley oligarchs.

--- The information institutions are corrupt. For example, Elon Musk is one of the most corrupt men in the world yet the socialist propaganda news media won't cover any of his crimes and corruptions in their publications because he pays political bribes to keep his dark side hidden in their media.

--- The public should not hurt legitimate news media outlets by engaging with and speaking to corrupt propaganda operations. One should only speak with genuine news media and not reward unethical companies with their time.

--- The following diagrams show what various independent researchers have discovered: The Manipulation Techniques Of Silicon Valley Media Outlets

--- A common tool Google, Facebook and Twitter use to exert control over their victims.

--- We all use manipulation at some point in our lives, whether it be telling a little white lie to get out of a situation, or using flattery to get what we want. For some people, however, using manipulation is a way of life, and their first weapon in an arsenal of techniques to overpower their victims.

--- Who is at risk from the Silicon Valley media predators? Predators use a range of manipulation techniques in order to control their victims, but they often target certain types of personalities. This is because they want to be able to easily manipulate a person, and particular vulnerabilities in a person lend themselves to manipulation. You are more likely to become a victim of a media predator if you have low self-esteem, are naïve, easy to please, lack an assertive nature and have no confidence in yourself.

--- Here are 20 of the most common news pundit manipulation techniques:

--- 1. Lying - Predators are constantly lying about practically everything in their life. They do this to wrong-foot their victim and confuse them. Lying is one of the manipulation techniques psychopaths typically use because they have no qualms about it.

--- 2. Not telling the whole story - This is different to lying as a predator will often keep a key part of the story to themselves in order to put their victim at a disadvantage.

--- 3. Frequent mood swings - Never knowing what mood your partner is going to be in when you get home, whether they'll be happy or angry is a very useful tool to the predator. It keeps their victim off balance and makes them more malleable.

--- 4. Love-bombing and devaluation - Narcissists typically use love bombing as a manipulation tactic, they will go on a charm offensive and get you hooked into thinking this is the best

relationship ever, then they'll drop you like a ton of bricks without explanation.

---- 5. Finger Pointing Punishment - This can include anything from constant nagging, shouting, the silent treatment, physical violence and mental abuse. ---- 6. Facts Denial - Often the simplest way a predator will manipulate a person is by denying the thing they are accused of ever happening.

---- 7. Spinning the truth - How many times have politicians twisted the facts to suit themselves? This spinning of the truth is often used to disguise bad behaviour by predators such as sociopaths.

---- 8. Minimising The Urgency - Where a predator will try and play down their actions as not important or damaging and shift the blame onto the victim for overreacting.

---- 9. Plays the victim - The manipulator will themselves take on the role of victim in order to gain sympathy and compassion from those around them. We as humans are naturally drawn to helping people when they are suffering.

---- 10. Targets the victim - When a manipulator accuses the victim of wrongdoing, they are making the victim defend themselves whilst the predator is able to mask their own manipulation techniques. The focus is on the victim, not the accuser.

---- 11. Positive political reinforcement - This includes buying expensive presents, praising them, giving money, constantly apologizing for their behaviour, excessive charm and paying lots of attention.

---- 12. Moves the goal posts - You might think you know where you stand with a person, but if they are constantly moving the goal posts in order to confuse you, then it's likely you're dealing with a predator.

---- 13. Diversion - Diverting the conversation away from the perpetrator's act and moving the conversation onto a different topic is a typical way predators manipulate their victims.

---- 14. Sarcasm - A predator will often be sarcastic about their victim in front of others. They do this to lower the self-esteem of the victim and to show others how powerful they are.

---- 15. Guilt tripping - Someone who manipulates will often guilt trip their victim by saying that they don't care about them, or that they are selfish or their life is easy. It all helps to keep that person confused and anxious.

---- 16. Flattery - Using charm, praise or flattering the victim is one way of gaining that person's trust. The victim is naturally happy to receive such compliments but in doing so lowers their guard.

---- 17. Playing the innocent card - A true manipulator will feign utmost shock and confusion at being accused of any wrongdoing. Their surprise is so convincing that the victim may question their own judgement.

---- 18. Over the top aggression - Manipulators often use rage and aggression to shock their victim into submission. The anger is also a tool to shut down any further conversation on the topic as the victim is scared but focused now on controlling the anger, not the original topic.

---- 19. Isolation - It is far easier to keep a person under control if they are isolated from family members and friends who could shed some light and truth on the situation.

---- 20. Feigns political love and empathy - News Predators such as psychopaths and sociopaths do not know how to love someone other than themselves, and cannot feel empathy, but they can pretend to in order to inveigle others into their lives

.---- If you watch out for the above manipulation techniques, you can keep yourself out of a media predator's clutches.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people ( because they would work so cheap ) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use.

Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that

wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking.

---- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

## **US State Department Funding Secret 'Disinformation' Crusade To Blacklist Media**

BY TYLER DURDEN

The US Department of State has been funding a "disinformation" tracking group through its Global Engagement Center (GEC), which reportedly works at demonetizing sites it accuses of disseminating "disinformation," - which are overwhelmingly conservative news outlets, the Washington Examiner reports.

The Global Disinformation Index, a British organization with two affiliated U.S. nonprofit groups, is feeding blacklists to ad companies with the intent of defunding and shutting down websites peddling alleged "disinformation," the Washington Examiner reported. This same "disinformation" group has received \$330,000 from two State Department-backed entities linked to the highest levels of government, raising concerns from First Amendment lawyers and members of Congress.

GDI through its website maintains a "dynamic exclusion list" of the worst offenders of disinformation online, which it then distributes to ad tech companies - such as Microsoft's Xandr - in order to try and "defund and downrank these worst offenders," and deprive said sites of ad revenue.

According to The American Conservative executive director Emily Doak, "They might consider TAC a 'high-risk' publication because we have consistently taken on the bipartisan establishment's sacred cows, whether it's the war in Iraq, nation-building in Afghanistan, or the harm done by free trade and open borders — and we've been proven right time and time again," adding "They know they can't say we're wrong, only that we're biased and 'high-risk,' so we will wear that designation as a badge of honor."

In 2018, the GEC began funding Disinfo Cloud, a State Department spokesperson told the Washington Examiner. The GEC awarded roughly \$300,000 to an investment group called Park Advisers, which fights "disinformation, terrorism, violent extremism, hate speech" to manage Disinfo Cloud, the spokesperson said.

Park Advisers implemented Disinfo Cloud "to provide the U.S. government and its partners with a database of the tools and technologies available to help push back against foreign propaganda and disinformation," according to its website, which links to Disinfo Cloud's former landing page that has since been pulled off the internet. -Washington Examiner

One State Department-funded group which supports GDI is the nonprofit National Endowment for Democracy, which receives nearly 100% of its funding from congressional appropriations (\$300 million in 2021), which critics have argued is essentially giving money to a government grantmaking body despite its status as a private entity.

In 2020, \$230,000 went from the NED to the AN foundation, a GDI group that also goes by the Disinformation Index Foundation. The grant was to "deepen understanding of the challenges to information integrity in the digital space" in Asia, Africa and other foreign countries, and to "assess disinformation risks of local online media ecosystems."

The Global Engagement Center notably appeared in the Twitter Files reported by @mtaibbi <https://t.co/M3LM3PkkX>

Meanwhile in September 2021, the GEC hosted the US-Paris Tech Challenge - an event which sought to "advance the development of promising and innovative technologies against disinformation and propaganda" in Europe and the UK. The event was a "collaboration with U.S. Embassy Paris, the Atlantic Council's Digital Forensic Research Lab (DFRLab), the Cybersecurity and Infrastructure Security Agency (CISA), the North Atlantic Treaty Organization (NATO)" and several other organizations.

Civil rights experts are appalled.

"Any outfit like that engaged in censorship shouldn't have any contact with the government because they're tainted by association with a group that is doing something fundamentally against American values," said Jeffrey Clark, former acting head of the DOJ's Civil Rights Division in a statement to the Examiner. "The government or any private entity shouldn't be involved with this entity that's engaged in conduct that is either legally questionable or at least morally questionable."

In addition to Park Advisers and Disinfo Cloud, partners for the Paris challenge included the Atlantic Council, a major think tank, the Cybersecurity and Infrastructure Security Agency, the North Atlantic Treaty Organization, and others, according to the State Department.

Meanwhile, Rep. Michael McCaul (R-TX) said: "Last year, under tremendous bipartisan pressure, I refused to reauthorize the Global Engagement Center because such a step seemed premature," adding "The most recent allegations, if verified, confirm the need for a strict accounting of all U.S. taxpayer funds going to the GEC."

Rep. Jim Banks (R-IN) says that the Biden administration is "knee deep" in left-leaning efforts to "crack down" on speech - telling the Examiner: "House Republicans will be hauling these bad actors before Congress, and I absolutely support legislation to ban federal funding of anti-free speech groups."

**Sony's Dirty Hollywood And Game Shenanigans.**

---- The hacks and leaks at Sony Pictures Entertainment have exposed the dark side of Hollywood. The new information reveals an insider vision of a company racked with sexism, office politics, high-school-level personality quibbles and a severe mine-is-bigger-than-yours territoriality culture.

---- A number of lawsuits against Sony, from Lady GaGa to Sony's own employees, have revealed even more.

---- An aspect of the revelations involves where Sony gets its ideas from. A number of revelations reveal that Sony seems to have established a process of "borrowing" technology and story ideas while "forgetting" to properly attribute or pay the sources.

---- Some of the 'dirt' exposed included: – Sony finances Democrat Presidents in exchange for media 'favored nations' status over competitors.

– Sony and Google coordinate political manipulation campaigns together.

– Sony executives trade female entry-level staff like cattle at a 'ranch'.

– Sony executives hire an insane amount of hookers, rent-boys and under-age sex providers.

– Sony executives bribe their kids into colleges.

– The good-old-white-jewish-boy club is alive and well at Sony.

– ZERO DARK THIRTY was a political PR hype movie commissioned by the Obama Campaign using government resources

– Sony steals patents from anybody it wants

– Sony stole its VR technology

– Sony stole its web video technology, especially SONY VUE

– Sex deviancy is the rule at Sony – Sony is a bunch of high-school whine babies who think their shit doesn't stink

– Ira Rubenstein, Sony's Marketing Head, put his name on Sony's patents, as the "inventor", even though his own emails admit that "he does not even know how to work a computer" -

--- Sony's web video patents, that were sold to ATandT/Direct TV, admit that Sony copied their patent ideas from TSNB in San Francisco

---- Sony spends millions and millions of dollars on political bribes

----The kids at Sony seem to have been very naughty children. They let their IT system go to pot, and got hacked, and outed, as "racist", "misogynist", "campaign rigging", "high school tantrum throwing" kinds of people, per their own emails. Hollywood Reporter, The Verge, Wikileaks, and a variety of tabloids and pundits, have delighted in dissecting the fraternity house, inside antics, of Sony Pictures. -

--- Sony says that the hackers "DELETED" Sony's files. THEY DID NOT. The Russians, Koreans, NSA, DOJ and a number of reports have ALL of Sony's files and emails!

---- Their boss got fired. They got ridiculed for turning "Zero Dark Thirty" into a, slightly fabricated, political vote-churn tool. Other execs got kicked to the curb. All of their financial, contracting, political cash layout, and tax dynamics were placed under investigation, and even more sketchy bits are shaking loose...

---- Sony announced that it sold just 2 million PlayStation 5 units last quarter (Q4), bringing its overall total to 19.3 million. That's down considerably from the same quarter last year when it sold 3.3 million units. The company did manage to boost game sales, though, with 70.5 million PS4/PS5 titles sold compared to 61.4 million a year ago, including 14.5 million first party games compared to 7.9 million in Q3.

---- Overall, its Game and Network Services (GNS) division earned 665 billion yen (\$5.1 billion) this quarter, up slightly over last year. Sales for the full 2021 year were flat, up just 2 percent over 2020, and profits also changed little.

---- Those numbers mean that the PS5 is falling even further behind the PS4 in sales, having now sold 3.1 million fewer units than the PS4 at the same point in time. Sony warned that this was coming, blaming the lack of sales not on customer demand but its inability to build enough units due to the ongoing chip shortage.

----There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. -

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

----Twitter, Splunk, Google, Facebook, Sony Interactive, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use.

Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking.

----Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

Stanford University builds corporate criminals, sex traffickers, sociopaths and elitist narcissists. It trains naive children to grow up to become adult stains on society!

---- In California, elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies.

---- The problems at Stanford University include:

---- Rape cover-ups by frats from rich families

---- Epic racism

---- Inter-Staff sex scandals that make the whole campus look like A Caligula party

---- Dynastic families control the whole campus

---- Arab, Iranian and Chinese oligarchs pay bribes to get their kids in

---- The CIA is always recruiting everyone and the most notorious spy project: STARGATE, happened at Stanford

---- The Russian, Iranian and Chinese spy agencies have placed a huge number of spies on the campus as 'pretend students' and pretend teachers

---- Elitism is rampant

---- The Silicon Valley venture capitalists, up the hill on Sand Hill Road, get all their interns from Stanford and they date rape the hot ones with Ruffies, Scopalumine, and other amnesia drugs. The interns wake up with sore butts and can't remember why.

---- To afford the fees, the girl students work as hookers at the Rosewood Hotel.

---- The entire school is funded by bribery. ----Arrogance is the attitude of choice at Stanford.

---- 99% of the guys that went to Stanford execute 99% of the corporate corruption crimes in the world. -

--- Girls at Stanford, that can't afford tuition, become Match.com hookers. Everyone in the bay area knows that if a Match.com profile has the words: "STUDENT" and "GENEROUS" anywhere in the text, that the girls are offering sex-for-tuition. Send your hot daughter to Stanford and turn them into hookers. Match.com even has sex agents, on campus, that get a commission for getting girls to join Match.com.

---- Rape is OK at Stanford as long as your daddy is rich or owns part of the Middle East. The Stanford deans and regents say: "Boys Will Be Boys".

---- Stanford provides buses that transport the sorority girls to the frat houses to get date raped and then back to the sorority houses drunk out of their minds or doped up on Ruffies and Scopalimine.

---- There have been a number of strange murders and suicides at Stanford.

---- Stanford students are prescribed the highest number of mental health medications of any campus in America.

---- All of the land on the Stanford Campus could solve all of Silicon Valley's housing crisis. The State of California should take all the land away from criminally corrupt Stanford University and build housing for average income on it. Stanford University doesn't "deserve" anything any more.

---- Chinese girls are sent to Stanford, by Chinese 'Wife Mills' to bag an Anglo husband and then divorce him 1 year after he hits paydirt. They are instructed to have 2 kids so the alimony upside is high. They pay a % of the money back to China.

---- Trophy wives were invented at Stanford

---- The Guardsman, The Key Club and over 50 "Final Clubs" brain-wash students into elitism and tribal exclusion of all but your fellow 'club members' from your ethnic group.

---- Most of the oligarch families paying bribes to Stanford are engaged in the most brutal human rights violations in history. They murder people and have them cut up with a hacksaw. They run prison camps. Only an idiot would think that modern day Stanford has any remaining 'prestige' or 'credibility'. This isn't the 1800's any more. Shut this crap campus down!

---- When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner.

---- They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors.

---- Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption.

---- They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime'.

---- The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking.

---- The Silicon Valley Tech Cartel is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in;

--- The hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

Beyond being highly addictive, last year's season highlighted the exclusivity surrounding Greek life, which is heavily rooted in racism, classism and sexism.

The majority of both active and PNMs on Bama Rush TikTok appeared to look practically identical - all white women with blonde locks and fake tans, which is unsurprising considering Alabama only desegregated their sororities nine years ago.

In 2013 Black students complained about the racism and discrimination in Greek life, and University officials ordered the sororities to end segregation after [The Crimson White](#) reported on the allegations that Black students were blocked from joining the all-white chapters.

Despite the segregation officially ending in 2013, things don't seem to have gotten much better.

According to the [The Crimson White](#), University of Alabama sororities were about 89 per cent white in 2021, down only five per cent from 2011.

To help fight allegations of racism, the [University](#) is now reportedly requiring chapter members to complete diversity training in preparation for rush week.

And although a few need-based scholarships are provided, the organization further shows their classism foundation through steep financial obligations.

In addition to rush week essentials PNMs splurge on, the average cost of fees for new member is \$4,170 per semester, according to University [data](#).

And the outrageous cost of being a sorority member at Bama just gets higher, chapter and meals fees for active members who live in the house total around \$7,465 per semester.

However, the flawed system doesn't stop the world from tuning in to season two and getting hooked on whether or not their favorite 'character' received a bid from their dream home.

Nothing but a \$\$\$\$popularity contest\$\$\$.

The part I hate is that girls who don't make it are crushed. There are so few places at Alabama and so many more girls competing for one. And don't get me started on fraternities. The amount of alcohol allowed at the on campus fraternity houses is endless, massive quantities and the school officials wink and nod and look the other way.

People that pay for friends are pathetic

They look like recycled Barbies

The most asked question is "why does my head whistle when I walk?"

I wanna go to college for the rest of my life Sip bankers club and drink miller lite On thirsty Thursday and Tuesday night ice And I can get pizza a dollar a slice...

Sororities & Fraternities are bad for college students. The hazing, excessive drugs & alcohol that goes on there is terrible. Join clubs or intramural sports if you want to make new friends. Don't put

yourself thru that abuse, it's not worth it.

Idiot people who pay thousands to go to college for the "experience" instead of an education.

The men that are in so much trouble in Silicon Valley were taught their ways by Stanford University:

Most American Parents Unaware China, Saudi Arabia, Qatar are Major Donors to Stanford University

According to recent reports ( ie: [Stanford\\_University\\_Teaches\\_Promotes\\_And\\_Protects\\_Sociopaths\\_And\\_Hate](#) ) a majority of American parents are unaware that China, Saudi Arabia, and Qatar are among the top financiers of U.S. universities and are worried that foreign cash is influencing what their children are taught in the classroom, according to a recent poll.

Nearly 60 percent of those interviewed in the September poll said they were not aware that the countries are major donors to U.S. universities. The poll was commissioned by the Lawfare Project, a nonprofit advocacy group that tracks campus issues.

Qatar's presence in the U.S. academic system was concerning to parents when they learned about the small Gulf nation's deep ties to Iran and terrorist organizations such as Hamas and the Taliban. Eighty-four percent of those surveyed said American schools should publicly disclose their ties to Qatar and explain how the money could be coloring the in-class agenda, according to the poll, which surveyed 2,009 adults last month and was provided exclusively to the Washington Free Beacon.

While extensive foreign funding of American universities has raised alarms in Congress and among advocacy groups such as the Lawfare Project, ordinary American parents are not aware of the issue. This is partly because American schools do not publicly disclose their funding and in many cases try to hide their ties to adversarial nations like China. Foreign countries see the U.S. academic system as central to their propaganda efforts, including anti-Israel initiatives. In the case of countries such as China, they seek to steal cutting-edge research. More than 80 percent of those surveyed said Congress should enact legislation requiring schools to publicly account for every foreign donation.

Around 70 percent of those surveyed said they were concerned that foreign donations influence teaching and research priorities. In Qatar's case, the country has spent billions running propaganda efforts in at least 28 American universities, generating concerns these donations run afoul of U.S. law. With anti-Semitism and anti-Israel attitudes increasing on many American campuses, foreign money has helped foment these movements, including at the University of North Carolina and Duke University—both of which have been embroiled in a long-running controversy over Qatar's funding of programs critics see as anti-Semitic.

"The public wants full transparency on what Qatar is funding in American schools, and Congress must demand it," Brooke Goldstein, the Lawfare Project's executive director, told the Free Beacon. "Parents have a right to know what foreign governments are teaching our children."

China's funding for American universities remains the top concern for parents, with 70 percent expressing worry about Beijing's presence at U.S. schools. Around 65 percent expressed similar

concerns about Saudi Arabia, followed closely by Qatar with 57 percent of those surveyed.

More broadly, there was a 50-50 split between those who support foreign funding of schools and those who oppose it altogether.

How the Elite Scumbag Bosses At Stanford University Got Busted For Selling Snootiness

Stanford University Elitist Rapists Get Away with..RAPE; All The Time! – SOCIAL MEDIA CRIMES

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

# What Went Wrong With The Electric Car Industry?

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammery.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age.

---- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promised Silicon Valley

oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them.

---- WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.

--- A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.

--- Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.

--- Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

--- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. -

--- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

--- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

---- Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.

---- Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

---- Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla.

---- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

---- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies.

---- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals.

---- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins".

---- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose!

---- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution.

At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done.

Between all of the sex cult activity; hookers; rent boys; political bribes to Pelosi, Harris, Newson, and Feinstein; DDoS attacks they run; CIA and NSA stealth deals; privacy harvesting; Scientology-like employee indoctrination; cheap Asian labor; covert Axiom scams and other illicit things they get up to; one just has to wonder.

Some of the largest political bribes in American or European history were paid via billions of dollars of pre-IPO cleantech stock, insider trading, real estate, Google search engine rigging and shadow-banning, sex workers, revolving door jobs, nepotism, state-supported black-listing of competitors and under-the-table cash. Why are these Silicon Valley Oligarchs and their K-Street law firms and lobbyists immune from the law?

U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

Google and Youtube are based on technology and business models that Google and YouTube stole from small inventors who had launched other companies that were up and operating before YouTube or Google even existed as business operations.

Google holds the record for the largest number of corporate sex scandals, abuses and sex trafficking charges.

There are only two kinds of people that work at Google: 1.) Cult indoctrinated naive kids with odd sexual quirks and 2.) divisive managers and executives who seek to exploit those eco-chambered employees for nefarious political and stock market manipulation purposes under the Scientology-like guise of "doing good things", when, in fact, they are engaged in horrific crimes against society.

Google has hired almost every technology law firm in order to "conflict them out" from ever working to sue Google. If Google rapes you, robs your patents or does anything awful, you won't be able to find a lawyer to help you.

Most Google executives in control of Google have been indoctrinated by family dynasties to believe that any crime is justified by a bigger cause. Most of those executives are men. The few women in control of departments are figure-heads.

Google bosses attend the same parties and business meetings in which they collude, co-lobby, rig markets and make anti-trust violating plans together.

Google is a private government with more money and power than most smaller nations. Google has more lobbyists bribing more politicians than any other company in America.

Jared Cohen and fashion show-horse Yasmin Green at Google had the job of over-throwing countries in the Middle East. They openly bragged about it. (<https://truthstreammedia.com/2013/06/02/googles-regime-change-agent-jared-cohen/> )

People that work at Google get paid \$260,000.00+ per year to lie, spy, manipulate politics, bribe politicians and engage in other crimes. For that kind of money, a person will do ANYTHING and rationalize it as "part of the higher cause".

The Project X investigation team is publicly quoted as stating: **"...give the same number of lawyers as Google has, with the same level of skills and experience, the same discovery budget, legal expenses budget and expert witness budget, we ABSOLUTELY GUARANTEE that we can put Google staff and investors in federal prison and close Google, in bankruptcy...the Google Cartel has engaged in that much criminal activity..."**

***"Google is the largest financier of the Obama political campaign and exceeded FEC campaign spending limits by tens of billions of dollars. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.***

***Google is the largest staffing source of the Obama Administration. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.***

***The largest number of laws and policy decisions, benefiting a single company and its investors, went to: Google. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.***

***Google, and its investor's are the single largest beneficiary of the Obama Administration. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.***

***The Obama Administration only won the White House because Google and Facebook engaged in the largest digital media and search engine manipulation in human history. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.***

***Google, and its investors, during the Obama Administration, had most of their competitors denied funding, grants, contracts and tax waivers while Google's investors GOT funding. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing and prove that Google coordinated anti-trust violations with senior Obama Administration White House staff...."***

Google operates its staffing like a Scientology cult. They control their employees lives, information, transportation, free time, entertainment and social life. A Google life is a glass-bubble of echo-chamber extremist, hyper-sex-kink, reinforcement.

(Article by Michio Hasai republished from [NOQReport.com](#))

The answers delivered today before Congress in response to questions by [Representative Dan Crenshaw](#) weren’t the standard denials. They were politically manipulative answers designed to make it known they’re doing what we’ve said they were doing all along, but they feel justified in doing it because “hate speech” must be stopped at all costs. Of course, what constitutes hate speech to the social justice warriors in big tech invariably circles around conservative thought. There is no form of hate speech short of physical threats that can be attributed to progressives, at least not in the minds of the people who control big tech. If conservatives are aggressive, they’re delivering hate speech. If progressives are aggressive, they’re just being truthful. That’s what big tech thinks.

This is the worst-case scenario for conservatives. Before, we could call them liars and cheats. Now, we have to fight them on an ideological level, and while we have the truth on our side, they have the technology. They have the eyeballs. They control what people see and don’t see. And as such, they can no longer be trusted to deliver anything even remotely close to fair and balanced. They’re unhinged from reality, but instead of coming back to reality once exposed, they’re building a new reality around their ideologies.

A Russian journalist has been accused of 'controlling minds' and 'affecting the human subconscious' after referencing George Orwell's 1984 in an article.

Mikhail Romanov, a reporter for the Yakutsk Vecherniy weekly, was writing a story on the alleged torture of an academic.

Police in [Russia](#)'s republic of Sakha charged Romanov after they suspected him of trying to tap into the readers' sub-consciousness, Russian newspaper [Kommersant](#) reported.

A Russian journalist has been accused of 'controlling minds' and 'affecting the human subconscious' after referencing George Orwell's 1984 (pictured) in an article

Romanov's editor told the publication: 'This is a story about how anyone can be squashed by the government machine.

'It's also about how Big Brother is watching, reading all comments on online forums.'

This is understood to be the first time a journalist will be tried under Russia's new legislation punishing those who are perceived to have published information 'containing hidden insertions affecting the human subconscious. '

The case has been forwarded to a Yakutsk city court.

# Google likely 'thoroughly infiltrated' by Chinese govt., expert warns

[alex stamos](#), [big tech](#), [china](#), [cybersecurity](#), [facebook](#), [google](#), [internet](#), [peter thiel](#), [richard clarke](#), [russia](#)

([LifeSiteNews](#)) – Tech billionaire Peter Thiel recently called on the federal government to investigate Google for potential infiltration by the Chinese government, and now security experts are saying his concerns are well-founded.

Thiel, one of President Donald Trump's most high-profile [gay supporters](#) and an [avowed critic](#) of Silicon Valley, made the remarks at last weekend's National Conservatism Conference, [Axios reports](#). He called on the FBI and CIA to ask Google, "how many foreign intelligence agencies have infiltrated your Manhattan Project for AI"; "does Google's senior management consider itself to have been thoroughly infiltrated by Chinese intelligence"; and whether this alleged infiltration is why the company works with China's military but not America's.

"I'm not sure quite how to put this, I would like them to be asked [these questions] in a not excessively gentle manner," Thiel added.

Alex Stamos, a researcher with the Stanford Internet Observatory and [former chief security officer at Facebook](#), said Tuesday it was "completely reasonable" to assume that both the Chinese and Russian governments have, in some form or another, already infiltrated not only Google but every top tech company:

Note that "subverted" is very different than planting professional spies in "The Americans" style. Each of the big companies employs thousands of employees with family members under the control of these countries, and a gov request might be simple and seem borderline reasonable.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

I expect that there will be a major combined HUMINT/InfoSec attack against a major tech company revealed in the next couple of years, which will trigger the same awakening that Project Aurora did in 2009.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

BTW, I don't blame the foreign-born employees at all. They are just trying to make a good living doing interesting work. If MSS had \*my\* Mom I would do whatever they asked.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

Stamos predicted that the "next couple of years" would see the revelation of a "major combined HUMINT/InfoSec [human intelligence/information security] attack against a major tech company."

He's not the only one who advises that Thiel's warnings be taken seriously. Richard Clarke, a former counterterrorism and cybersecurity advisor to both Democrat and Republican presidents,

[told CNBC](#) Wednesday there was cause for concern.

"Here's what I think is true: Google refused to work for the Pentagon on artificial intelligence," Clarke said. "If you turn around and you work on artificial intelligence in China, and you don't really know what they're going to do with that, I think there's an issue."

The internet giant has denied working with the Chinese military, but opened an artificial intelligence center in Shanghai in 2017 despite the Communist regime's strict speech and internet controls. On Tuesday, Google executive Karan Bhatia [testified](#) to the Senate Judiciary Committee that the company has terminated a [controversial](#) censored search engine it had been working on for China.

Clarke added that there was no meaningful distinction between Google working with Chinese companies and the Chinese government, given the level of state control in the country.

The specter of foreign influence on the tech industry further intensifies its ongoing controversies regarding [political bias and censorship](#) and [violations of user privacy](#). Responding to Thiel's original comments, President Trump [said Tuesday](#) that his administration will "take a look" at the matter.

Google being biased is glaringly obvious even to a retard. Google forcing their employees to support them politically is a human rights violation.

Th old railroad barons a hundred years ago were bad people, but no where near as abusive as google is to the employees. The old railroad tycoons had their supporters too who thought strikers and protesters against their tyranny were awful people.

Silicon Valley just indoctrinated their followers and employees by brainwashing them first like any cult does. "Do no evil" was always a smarmy block of shit in pixels, no different than the purple dinosaur singing "I love you, you love me". The purple dinosaur never loved you one little bit. It was a lie, and parents had no business being such gullible suckers and allowing their children to be lied to by an actor in a fuzzy suit.

- [link](#)

forcing their employees to support them politically is a human rights violation.

>Civil and political rights are a class of rights that **protect individuals' freedom** from infringement by governments, social organizations, and private individuals. They ensure one's **entitlement to** participate in the **civil** and **political** life of the society and state **without discrimination or repression**.

From the first time they censored, shadow-banned people who opposed their way of viewing world, far-left, SJW, leftards has put cornerstone to **civil rights movement 2.0**, including people who are at the rock bottom and uppermost stairs of oppression. Clearly, this is infringement of rights by gov and private entities, which has been ignored from by the time it was apparent that such violation is well spread and not a unique case.

Those at silicon valley had no idea that their attempt to have conservative and alike voice removed/deplatformed is **someway resemble how "white" and "colored" segregation works;** which is no brainer considering that they did not pay any attention to "obscure" details and only remember famous persons who was oppressed at that time.

So, don't spout only " Hate speech is Freee speech". Tell them that when some peers mock center-right personalities by reenacting what happened prior to Civil Rights Act of 1968,throwing liquids to nigger who ignored the sign, isn't a good joke since **political affiliation is covered in protected class** in District of Columbia, IA,WV state, which put them as the white fellas and anyone who didn't entirely agree with them as the blacks in this reenactment.

If anyone reading this is somehow connected to parliament from local council to state, **consider ammending the laws to add political affiliation as one of class covered by "(unfounded)hate crimes"**. We won't need to see bike lock attacker and his copycat got sweetheart deals. Share this to Trump, since who doesn't love for shit and giggles watching leftards kvetching having cognitive dissonance episode explaining why adding another class would hurt other classes that already existed in last statue

Regarding Google - Alphabet - Youtube and their Cartel, the issues, that the public and the news media have complained about include: producing child suicides and classroom shootings, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes!

-- An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking.

---- They seem to be an organized crime entity protected by the politicians that they pay bribes to.

---- This entity is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them.

---- "Google is a sick corrupt criminal business run by sex trafficking perverts and sociopaths..." Say GOOGLE'S own inside employees, Divorce Court records of Google executives, 70+ State and Federal investigations and major news outlets.

---- Google spies on competitors and steals their technology.

--- Google – Alphabet – YouTube stock is owned by almost all of the California politicians and their families and that is why Google – Alphabet – YouTube is never regulated and always protected by them for their political and profiteering manipulations -

--- Google runs tens of millions of dollars of defamation attacks against competitors

---- Google hides all media and news coverage for competitors of Larry Page's boyfriend: Elon Musk

---- Google lies to the public about what they really do with the public's data

---- Google promotes illegal immigration in order to get cheap labor and control votes

---- Google runs VC funding back-lists against start-ups that are competitive

---- Google bribes thousands of politicians

---- Google is a criminal RICO-violating monopoly – Google rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks -

--- Google pays bribes to politicians in Google and YouTube stock

---- Google manipulates who gets to see what web-sites, globally, for competitor black-lists

---- Google has a "no poaching" Silicon Valley jobs blacklist

---- Google bosses sexually abuse women and young boys ---- Google bosses run sex trafficking operations in the Epstein and NXVIUM cults

---- Google bosses control the NVCA financing cartel over start-ups -

--- Google has placed the majority of the corporate staff in at least one White House

---- Google controls national elections for anti-competitive purposes

---- The company "Polyhop", in the HOUSE OF CARDS tv show, does all the crimes that Google actually does in reality

---- Google's law firms, like Wilson Sonsini, are corrupt conduits for payola and political conduit-relays

---- Google bribes some politicians with revolving door jobs

---- Google is primarily responsible for destroying the Bay Area Housing opportunities

---- Google runs DDoS attacks on competitors by massively crawling their sites

---- Google boss Andy Rubin runs a sex slave farm according to his own family -

--- Google boss Eric Schmidt was a philandering sex-penthouse owner according to vast news articles

---- Google executives hire so many hookers that one of them, Mr. Hayes, was killed by his hooker

---- Google executives sexually abuse so many women that the women staff of Google walked out one day

---- In the 2009 White House, you could not swing a cat without hitting a Google insider

---- Google has paid covert bribes, PAC funds, real estate and search rigging payola to every CA Senator

---- Google has paid bribes, through its lobby fronts, to halt FBI, SEC, FEC and FTC investigations of Google crimes

---- Google was funded by the CIA, via In-Q-Tel, a so called "501 c3 charity" which was caught with tons of cocaine

---- Google gets millions of dollars of taxpayer cash for spying on Americans inside the USA -

--- Google's map service was a spy system paid for by taxpayers money that Google now profits off of

---- Nancy Pelosi and Dianne Feinstein have promised to "protect" Google because their families profit off Google stocks

---- Payment receipts prove that Google and Gawker/Gizmodo exchanged cash and staff for Character Assassination attacks

---- Google VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Google and harm Google competitors

---- Google bribed its lawyer into position as head of the U.S. Patent office in order to have her protect Google – To rig insider stock trades, Google hides negative Tesla stories and pumps positive Tesla stories on “push days” -

--- Google and Elon Musk Co-own, co-invest and co-market stocks covertly while running anti-trust schemes

---- Google rarely hires, or hires, black employees per federal and news media investigations

---- Google hired most of the Washington, DC K Street lobby firms and told them to “do what ever they could”

---- The film: “Miss Sloane” depicts only 2% of the illicit lobbying tactics Google employs daily

---- Demands for an FTC and FBI raid of Google, for criminal activity, securities law and election felonies have been filed

---- Google’s David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds

---- Google, and its Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google’s bosses bribe politicians, regulators and law enforcement officials to hold off prosecution.

----At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University;

---- The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---- So, while the categories covered in this investigation may seem diverse.

They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. -

--- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, “data mining”, “machine learning” and “AI” means computerized propaganda processing for certain political entities. They began hiring off-shore people ( because they would work so cheap ) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting “mind-raped” without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean.

Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking. ---- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

You can try to sue Google for anti-trust, racketeering and other illicit deeds and Google will hire tens of millions of dollars of lawyers to blockade you from getting to a Jury Trial. The best thing you can do is assist the Federal Government, many State Attorney General's and citizen's groups with their lawsuits against The Google Cartel.

Bloomberg, The Wall Street Journal, Stratfor, Wikileaks, FTC and SEC investigators and Kroll Intelligence says that Google runs the largest domestic spying operation in the world; larger than that of even Russia, China, Israel or Iran. The Google Cartel has set up thousands of companies in a spiderweb of surveillance, around the globe, and in space, that knows everything that everyone is thinking, doing or might do; and how to place media and events in front of them to subliminally steer people to do, or think, things that they might not otherwise have thought, done or voted for. Many of these operations were financed by IN-Q-TEL, which is the CIA and the NVCA combined. For example, A Google derivative called 'JigSaw' is run by Pro-Israel, Anti-Arab operatives and steers data to certain interested parties. Larry Page is on multiple Arab secret police "kill lists", which means they should terminate him if the opportunity arises. Barack Obama had Eric Schmidt in the basement of his campaign HQ on election night, running computers, and has secretly claimed that "Google put him in office". Most of the key White House staff came from Google. Google claims to 'not be political', but it is the most political business Cartel on Earth. Google finances politicians that will do what Google tells them to do. It finances them with billions of dollars of internet manipulation, insider stock favors and by getting every staff member to give max limits to their campaign PACS.

The system is designed to lower regulatory or disclosure requirements, tax evasion, money laundering and for hiding political payola. The name of the company is referring to the Roman numeral of 26, the number of letters in the alphabet.

Google LLC has over 200 direct and indirect subsidiaries in order to limit where lawsuits and federal actions can go. The Mafia uses this same approach. Almost everything Google owns is involved in acquiring, and analyzing your personal and business data for the Google surveillance computers. It is almost impossible to find a Google group that does not 'feed the data beast'. Larry Page and Eric Schmidt believe that no citizen is intelligent enough to live in the world and that they must covertly 'guide' populations to their own ideology and "Master Plan". The rest of the Google Cartel for global domination includes:

Google Fiber Inc.- USA - Internet Access Provider

Google Fiber North America Inc.- USA - Internet Access Provider

Google International LLC - USA - Holdings company for Google's subsidiaries in individual countries outside the US.

Google Ireland Holdings Unlimited Comp. - IRL - This is a very "famous" Google subsidiary that is incorporated in Ireland but managed and controlled in Bermuda. Google at least up to recently used this subsidiary as part of the "Double Irish" with "Dutch Sandwich" tax optimization scheme that is very common among large international companies. The company serves partially as a holding company for some international businesses but mainly as a holder of Google intellectual property that it further licensed to other Google companies for a fee.

Google Ireland Limited - IRL - Google Services Provider for Europe and Switzerland. It books a lot of revenue, but makes very small profits, since it pays a lot to Google Netherlands BV for Google's intellectual property. Google Netherlands BV then channels this revenue to Google Ireland Unlimited that is incorporated in Ireland but domiciled in Bermuda.

Google Netherlands Holdings B.V.NLD This company is used as a middle layer between Google Ireland Limited and Google Ireland Holdings. This allows Alphabet to pay very low taxes from its

European operations thanks to a tax optimization scheme called “Double Irish” with “Dutch Sandwich.” This loophole was very popular among international technology companies and was already fixed for new arrangements.

Google North America Inc.- USA - Provider of Google FI service (wireless network)

Google Payment Corp.- USA - Google’s companies that handle money transfers and peer-to-peer transactions. In US payments are processed by Google Payment Corp. (GPC), which has the appropriate license for transmitting money and for peer-to-peer transactions in US.

Google Payment Ireland Limited - IRL - Providing Google Payment Services for whole European Union (except UK) as a replacement for

Google Payment UK. UK subsidiary will keep providing services for UK.

Google Voice Inc.- USA - Provider of Google Voice service.

GU Holdings Inc.- USA - Through this company, Google is building subsea cable infrastructure. For example, in 2019, they finished the connection between Los Angeles and Chile.

Nest Labs (Europe) Limited - IRL - “virtual subsidiary” of Nest Labs. Owned by Google Ireland Holdings Unlimited, so not directly under

Nest Labs

Nest Labs Inc.- USA - Company flagship product and company’s first offering before it was acquired by Google was Nest Learning Thermostat. Nest operated independently of Google from 2015 to 2018. However, in 2018, Nest was merged into Google’s home-devices. (Still not sure if it was only organizational merger or also legal merger)

Nest Labs Singapore Pte. Ltd.SGPvirtual “subsidiary” of Nest Labs. Owned by Google Ireland Holdings Unlimited.

Verily Life Sciences LLC - USA - -Research company developing tools that focus on health data and how they can help with timely decision-making and effective interventions. (formerly Google Live Sciences)

Waze Mobile Ltd.ISRGPS navigation software. Waze describes its app as a community-driven GPS navigation app, which is free to download and use. Waze is owned directly by Google LLC.

YouTube, LLC - USA - -Youtube is a very successful video sharing and hosting service that Google acquired in 2006. This acquisition became hugely successful for Google. But not everybody was persuaded that the acquisition made sense at the time.

Alphabet Holding LLC is a holding company that is a direct subsidiary of XXVI Holdings, Inc. It is focused mainly on managing Google/Alphabet investments. Both Alphabet investment managing firms CapitalG and GV are housed under this holding. CapitalG and GV invest in other companies,

but since those are usually small stakes below 50%, these companies are not part of Alphabet Group. If you want to know more about what companies do they invest in, both CapitalG and GV have a helpful list of their investments on their webpages.

Sidewalk Labs Management Company LLC - USA - -Urban innovation

Before 2015, there was no Alphabet, and Google Inc. was a publicly-traded company that you could directly own by buying its shares. All subsidiaries were subsidiaries to Google Inc. In 2015 Google transformed into Alphabet, where Alphabet Inc became the top parent company that was publicly traded. Google Inc. shareholders became overnight Alphabet Inc shareholders.

In reality, many “Other Bets” businesses still stayed as subsidiaries of Google LLC even after the 2015 transformation, and it was only recently when the whole transformation was finalized. Finally, “Other Bets” companies were moved from outside Google LLC.

The reasons for this complex transformation were described by Google management as an “increase in transparency and oversight,” That would be achieved by putting larger projects at the same level as Google LLC with their separate management, reporting directly to Alphabet Inc management. The proclaimed increase in transparency was only internal for Google management. Transparency for investors did not increase. Another reason behind the transformation was obviously limiting risk. By separating Google into different companies, each one of them is independent of each other. If someone gets arrested in one company, the others would be protected from it.

Double Irish & Dutch Sandwich is a very popular and publicized arrangement through which mostly US companies were optimizing their taxes from European businesses. It involved two Irish and one Dutch company. Wikipedia has a nice article on both Double Irish and Dutch Sandwich, explaining how it works. In Alphabet/Google case. Companies involved in Double Irish with Dutch Sandwich arrangement are assumed to be:

Google Ireland Holding Unlimited (Irish company with Bermuda domicile)

Google Netherlands Holdings B.V. (Dutch “sandwich” company that serves as an intermediary between two Ireland companies)

Google Ireland Limited (Ireland company that is directly booking revenue from European business, and sends most of the revenue to the Netherlands as royalties for leasing Google’s intellectual property.

Rachel Renock, the chief executive of Wethos, center, with her business partners, Claire Humphreys, left, and Kristen Ablamsky. Ms. Renock said they received sexist comments while seeking financing. Credit Sasha Maslov for The New York Times

Their stories came out slowly, even hesitantly, at first. Then in a rush.

One female entrepreneur recounted how she had been propositioned by a Silicon Valley venture capitalist while seeking a job with him, which she did not land after rebuffing him. Another showed the increasingly suggestive messages she had received from a start-up investor. And one chief executive described how she had faced numerous sexist comments from an investor while raising money for her online community website.

What happened afterward was often just as disturbing, the women told The New York Times. Many times, the investors' firms and colleagues ignored or played down what had happened when the situations were brought to their attention. Saying anything, the women were warned, might lead to ostracism.

Now some of these female entrepreneurs have decided to take that risk. More than two dozen women in the technology start-up industry spoke to The Times in recent days about being sexually harassed. Ten of them named the investors involved, often providing corroborating messages and emails, and pointed to high-profile venture capitalists such as Chris Sacca of Lowercase Capital and Dave McClure of 500 Startups.

The disclosures came after the tech news site The Information reported that female entrepreneurs had been preyed upon by a venture capitalist, Justin Caldbeck of Binary Capital. The

new accounts underscore how sexual harassment in the tech start-up ecosystem goes beyond one firm and is pervasive and ingrained. Now their speaking out suggests a cultural shift in Silicon Valley, where such predatory behavior had often been murmured about but rarely exposed.

The tech industry has long suffered a gender imbalance, with companies such as Google and Facebook acknowledging how few women were in their ranks. Some female engineers have started to speak out on the issue, including a former Uber engineer who detailed a pattern of sexual harassment at the company, setting off internal investigations that spurred the resignation in June of Uber's chief executive, Travis Kalanick.

Most recently, the revelations about Mr. Caldbeck of Binary Capital have triggered an outcry. The investor has been accused of sexually harassing entrepreneurs while he worked at three different venture firms in the past seven years, often in meetings in which the women were presenting their companies to him.

Several of Silicon Valley's top venture capitalists and technologists, including Reid Hoffman, a founder of LinkedIn, condemned Mr. Caldbeck's behavior last week and called for investors to sign a "decency pledge." Binary has since collapsed, with Mr. Caldbeck leaving the firm and investors pulling money out of its funds.

The chain of events has emboldened more women to talk publicly about the treatment they said they had endured from tech investors.

"Female entrepreneurs are a critical part of the fabric of Silicon Valley," said Katrina Lake, founder and chief executive of the online clothing start-up Stitch Fix, who was one of the women targeted by Mr. Caldbeck. "It's important to expose the type of behavior that's been reported in the last few weeks, so the community can recognize and address these problems."

The women's experiences help explain why the venture capital and start-up ecosystem — which underpins the tech industry and has spawned companies such as Google, Facebook and Amazon — has been so lopsided in terms of gender.

Most venture capitalists and entrepreneurs are men, with female entrepreneurs receiving \$1.5 billion in funding last year versus \$58.2 billion for men, according to the data firm PitchBook. Many of the investors hold outsize power, since entrepreneurs need their money to turn ideas and innovations into a business. And because the venture industry operates with few disclosure requirements, people have kept silent about investors who cross the lines with entrepreneurs.

Some venture capitalists' abuse of power has come to light in recent years. In 2015, Ellen Pao took her former employer, the prestigious venture firm Kleiner Perkins Caufield & Byers, to trial for allegations of gender discrimination, leveling accusations of professional retaliation after spurned sexual advances. Ms. Pao lost the case, but it sparked a debate about whether women in tech should publicly call out unequal treatment.

"Having had several women come out earlier, including Ellen Pao and me, most likely paved the way and primed the industry that these things indeed happen," said Gesche Haas, an entrepreneur who said she was propositioned for sex by an investor, Pavel Curda, in 2014. Mr. Curda has since apologized.

Some of the entrepreneurs who spoke with The Times said they were often touched without permission by investors or advisers.

At a mostly male tech gathering in Las Vegas in 2009, Susan Wu, an entrepreneur and investor, said that Mr. Sacca, an investor and former Google executive, touched her face without her consent in a way that made her uncomfortable. Ms. Wu said she was also propositioned by Mr. Caldbeck while fund-raising in 2010 and worked hard to avoid him later when they crossed paths.

“There is such a massive imbalance of power that women in the industry often end up in distressing situations,” Ms. Wu said.

After being contacted by The Times, Mr. Sacca wrote in a blog post on Thursday: “I now understand I personally contributed to the problem. I am sorry.” In a statement to The Times, he added that he was “grateful to Susan and the other brave women sharing their stories. I’m confident the result of their courage will be long-overdue, lasting change.”

After the publication of this article, Mr. Sacca contacted The Times again to amend his original statement, adding: “I dispute Susan’s account from 2009.”

Many of the women also said they believed they had limited ability to push back against inappropriate behavior, often because they needed funding, a job or other help.

In 2014, Sarah Kunst, 31, an entrepreneur, said she discussed a potential job at 500 Startups, a start-up incubator in San Francisco. During the recruiting process, Mr. McClure, a founder of 500 Startups and an investor, sent her a Facebook message that read in part, “I was getting confused figuring out whether to hire you or hit on you.”

Ms. Kunst, who now runs a fitness start-up, said she declined Mr. McClure’s advance. When she later discussed the message with one of Mr. McClure’s colleagues, she said 500 Startups ended its conversations with her.

500 Startups said Mr. McClure, who did not respond to a request for comment, was no longer in charge of day-to-day operations after an internal investigation.

“After being made aware of instances of Dave having inappropriate behavior with women in the tech community, we have been making changes internally,” 500 Startups said. “He recognizes he has made mistakes and has been going through counseling to work on addressing changes in his previous unacceptable behavior.”

Rachel Renock, the chief executive of Wethos, described a similar situation in which she faced sexist comments while seeking financing for her online community site. While she and her female partners were fund-raising in March, one investor told them that they should marry for money, that he liked it when women fought back because he would always win, and that they needed more attractive photos of themselves in their presentation.

They put up with the comments, Ms. Renock said, because they “couldn’t imagine a world in which that \$500,000 wasn’t on the table anymore.” Ms. Renock declined to name the investor.

Wethos raised the \$500,000 from someone else and is still fund-raising.

Wendy Dent, 43, whose company Cinemmerse makes an app for smart watches, said she was sent increasingly flirtatious messages by a start-up adviser, Marc Canter, as she was trying to start her company in 2014. Mr. Canter, who had founded a software company in the 1980s that became known as Macromedia, initially agreed to help her find a co-founder. But over time, his messages became sexual in nature.

In one message, reviewed by The Times, he wrote that she was a “sorceress casting a spell.” In another, he commented on how she looked in a blue dress and added, “Know what I’m thinking? Why am I sending you this — in private?”

Mr. Canter, in an interview, said that Ms. Dent “came on strong to me, asking for help” and that she had used her sexuality publicly. He said he disliked her ideas so he behaved the way he did to make her go away.

Some entrepreneurs were asked to not speak about the behavior they experienced.

At a start-up competition in 2014 in San Francisco, Lisa Curtis, an entrepreneur, pitched her food start-up, Kuli Kuli, and was told her idea had won the most plaudits from the audience, opening the door to possible investment. As she stepped off the stage, an investor named Jose De Dios, said, “Of course you won. You’re a total babe.”

Ms. Curtis later posted on Facebook about the exchange and got a call from a different investor. He said “that if I didn’t take down the post, no one in Silicon Valley would give me money again,” she said. Ms. Curtis deleted the post.

In a statement, Mr. De Dios said he “unequivocally did not make a defamatory remark.”

Often, change happens only when there is a public revelation, some of the women said. In the case of Mr. Caldbeck and Binary, the investor and the firm have apologized, as has Mr. Caldbeck’s previous employer, the venture capital firm Lightspeed Venture Partners, which had received complaints about him.

“We regret we did not take stronger action,” Lightspeed said on Twitter on Tuesday. “It is clear now that we should have done more.”

Lindsay Meyer, an entrepreneur in San Francisco, said Mr. Caldbeck put \$25,000 of his own money into her fitness start-up in 2015. That gave Mr. Caldbeck reason to constantly text her; in those messages, reviewed by The Times, he asked if she was attracted to him and why she would rather be with her boyfriend than him. At times, he groped and kissed her, she said.

“I felt like I had to tolerate it because this is the cost of being a nonwhite female founder,” said Ms. Meyer, who is Asian-American.

But even after she reached out to a mentor, who alerted one of Binary’s investors, Legacy Venture, to Mr. Caldbeck’s actions, little changed. Legacy went on to invest in Binary’s new fund. Binary and Mr. Caldbeck declined to comment.

"We failed to follow up on information about Mr. Caldbeck's personal behavior," Legacy said in a statement. "We regret this oversight and are determined to do better."

A Silicon Valley venture capitalist has been sued for \$40 million by a woman who claims he used her as a virtual sex slave for 13 years.

Michael Goguen, who had worked for a firm that funded Google and Paypal, "sexually and physically" abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges.

Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured "countless hours of forced sodomy" from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for "six hours at a time," and forced her to call him "king" and "emperor."

Filed in San Mateo County, Calif., on March 8, her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire's plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

Goguen, who was forced to step down from his position at Sequoia Capital, did not deny that the two had a sexual relationship but insisted the sex was consensual. He filed a countersuit against Baptiste claiming she is an "exotic dancer . . . looking for a payday."

The venture capitalist said Baptiste was obsessed with him and sought to extort him because she was jealous of his wife. In his countersuit, Goguen provides pages of texts and emails in which she apparently refers to him as "Prince Charming," "My Beautiful Love" and "the sweetest man in the world."

The suit includes Baptiste's descriptions of the "amazing sex" the two had together and photos that she allegedly sent him in which she is seen playfully posing in her underwear.

Baptiste is demanding \$40 million, saying the two agreed on the amount to compensate her for the horrors she had suffered. Goguen, who has already paid her \$10 million, said she is "a woman scorned" and a victim "of her own delusions."

He claims that when he tried to end their relationship, Baptiste became bent on vengeance, threatening to ruin his life and reputation. He said that he had no choice but to pay her the \$10 million, but that she refused to relent and demanded more money.

Sequoia Capital released a statement that called Goguen's departure from the firm the "appropriate course of action." A philanthropist, Goguen was lauded for donating \$2 million to fight online child pornography and sex trafficking where he lives in Montana.

Goguen is not the only business leader who's faced backlash over sexually inappropriate behavior.

FACEBOOK BOSS IN UNDER-AGE SEX SCANDAL

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle.

The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. Katz is to be arraigned on January 5th, and bail was set at \$125,000. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly **responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl.**

### **Horrific Google Anal Sex Slave Case Uncovers Twisted Perversions Of Google Executives**

By Samantha Conners - APT

Michael Goguen, Google's married senior investor, "sexually and physically" abused Amber Laurel Baptiste with constant anal sex over more than 13 years after picking her up at a Texas strip club. His company: Sequoia Capital, has had other run-ins with cheating married executives, escorts and tax evasion schemes, per legal filings.

Eric Schmidt, the head of Google, proclaimed that he would have a "open marriage" where he could have sex any time, with anybody, and is documented in a ream of news articles and video regarding his fifteen million dollar "sex penthouse" in New York.

Sergey Brin, another head of Google, is featured in numerous news articles for his "three way sex romp" with multiple Google employees forcing one employee to move to China to escape him. A married Google senior executive named Hayes, who helped rig Google's searches for political clients, was murdered on his "sex yacht" by his prostitute, which other Google executives had used.

Ravi Kumar, another VC associated with Google Executives, was also murdered by a pack of hookers and pimps that frequented his Silicon Valley home.

Valley Girls was a private escort service that used Stanford Co-eds to service the sexual kinks of Google executives.

Ellen Pao famously sued Google founding investor John Doerr, and his company Kleiner Perkins, for sexual abuse.

Google employee divorce filings hold the Silicon Valley record for use of the word "abuse" as one of the reasons given in the legal papers filed to initiate the divorce.

The list of kinky, twisted, bizarre sexual antics of Google executives, and their investors, goes on for pages and pages...

Google seems to attract the most twisted, perverted, morally decrepit men in the world. One has to wonder why, of all the large companies on Earth, only Google got to place the majority of its people in the White House? That's right, Nike doesn't have its people in the White House. Macy's doesn't either. Neither does Chevron, or John Deere tractor or any other company on Earth.

Only Google, exclusively and uniquely, had all of their people placed in the White House and top federal agency lead positions. What's up with that? Were they selected because of their technical skills or their ability to make people bend over?

An addiction to dirty sexual perversions are not the only illicit trends that Google folks display. The Google investors are members of a financing cartel called the National Venture Capital Association

(NVCA). This group of frat boy elitists got busted for running the "Angelgate" scandal in which they were documented rigging, colluding, black-listing and contriving the whole Silicon Valley start-up industry.

Then they were caught again when Eric Schmidt, Mr. "Sex Penthouse" and the head of Google, wrote emails ordering a conspiracy against Silicon Valley engineers. This "No Poaching" conspiracy got the Silicon Valley VC's sued in a class-action lawsuit, which the VC's lost. The Google founder's best friend: Jacques Littlefield, kept the world's largest private fully functional military tank squadron, in fully operational status, hidden in vast warehouses in his Silicon Valley estate in Woodside, California.

He said he had this arsenal: "just in case". Does Google make white frat house men insane or does it draw the crazy ones to it?

The FBI is finally crunching down on these people. After so many years of the White House ordering the FBI to leave the Google VC's and Silicon Valley perverts alone, it was just getting plain embarrassing for the FBI. The audacious impunity with which Google, and its friends, engaged in tax evasion, importing hookers, bribery, stock market rigging, anti-trust schemes and other crimes has become so overt, in the media, that it was created a spotlight on federal law enforcements avoidance of prosecution of the shenanigans of the Google crowd.

Brotopia is the elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies.

---- When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner.

---- They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors.

---- Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption.

---- They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime'.

---- The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking.

---- The Silicon Valley Tech Cartel is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

----So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Why don't you see much about this corruption in the "news? A handful of companies in Silicon Valley, all controlled by the same investors, control almost all of the news and information in the world. They only hire and publish writers that agree with their fake news ideology. That ideology is whatever lie they can sell to the emotions of those shill writers to get them to "believe". In reality the only ideology the owners of those companies actually have is to pump their personal stock market holdings. They control elections in order to manipulate people into office that will do things that benefit the stocks of those media owners.

They will lie to beat the band because their hookers, rent boys, private jets, drugs, private islands and other sins are expensive as hell and they are addicted to those deviancy's. They are all invested with Elon Musk's, Larry Page's and Mark Zuckerberg's companies so they never allow any negative news about those tech mobsters in the world news that they control. This is the worst kind of illegal media monopoly but these owners control the agency heads who are supposed to indict them. So everybody in America is screwed until some non-fake law enforcement comes along.

--- A horrific phenomenon of cultural depravity and white-collar crime is going unchecked in Silicon Valley because Silicon Valley controls the media and the politicians that are usually supposed to check these kinds of things. Millions of pages of news reports, documentaries, interviews and legal transcripts prove the following to be true:

---- Elitist Cult. Silicon Valley elitists believe they are better than everyone else. Silicon Valley's Kleiner Perkins founder: VC Tom Perkins, said that poor people must be "Nazis" for not accepting the "superior intellect" of VC's. Silicon Valley's Kleiner Perkins VC Vinod Khosla, took over California's favorite public beach, bribed the White House for "green cash" and got sued for arrogance by a horde of public interest lawsuits. Silicon Valley's Kleiner Perkins founder Ray Lane was indicted for tax evasion. Silicon Valley's Kleiner Perkins boss John Doerr was sued for sexual office abuse and running a "frat house". Most of the VC's and tech CEO's in Silicon Valley are charged with ethics breaches.

---- Prostitutes. Silicon Valley males hire more hookers and "rent-boys" and fly more sex workers into the Bay Area than any other city in America. Google's and Tesla Investments executives were killed in sex and drug romps with hookers. Google's Eric Schmidt ran a huge "sex penthouse" and promotes infidelity and "anti-marriage". Google's search engine rigging boss died at the hands of one of his hookers. The Silicon Valley VC's had the Rosewood Hotel built at the end of Sandhill Road as a place to take interns and hookers to for sex. Underage sex efforts operated by these VC's and Tech CEO's have created the "Pizzagate" phenomenon.

---- Rapists and Sexual Coercion of Employees. Young interns are "sent up the hill" by Stanford to the VC's Sandhill Road offices to become sexual playthings for the VC's at the Rosewood Hotel. Ellen Pao sued Kleiner Perkins over the sexual "rape culture" that they promoted. Thousands of women have written books and articles about the sexual intimidation they are subjected to by Silicon Valley VC's and their tech CEO's. VC's Joe Lonsdale, Micheal Goguen and hundreds of others have been charged with rape and sex trafficking. Stanford University gets "endowments" and "gifts" for hushing rape culture and intern-fluffing up.

---- Assholes. Fraternity House Take-What-You-Want culture is re-percussively promoted in the bars, clubs, meetings, conferences and emails of the VC's and CEO's. The TV Show: Silicon Valley, underscores the point of the dangers of infectious asshole-ism in Silicon Valley.

---- Clones. They assemble those around them that have the same stereotypical facial structure. In a room full of ordinary people and Tech VC's, the VC's faces stand out as Hollywood-type character-cartoon duplicates of each other.

---- Sexual deviance and extremism. Google's founders have all had extreme sex scandals involving cheating, 3-way sex, divorces over abuse, forced anal sex and other outrages. Their teachers at Stanford have had to quite over their sex scandals. Their willingness and infatuation with sexual extremes defines them as moral degenerates who care little about laws and ethics.

---- Insider Dysfunctional Parents. The majority of the VC's and Tech CEO's come from rich dynastic families who are cultism-like devoted to "the family bloodline" and run by male oligarchs who believe in a rape culture/oligarch ethos. This belief system is passed on to their children. The oligarch parents threaten to cut endowments to Stanford University if Stanford punishes their son's Frat Houses for date rapes.

---- Tone Deaf. Silicon Valley Tech people exist in a conceptual ideology reinforcement bubble by never interacting with, or reading information or news from, anyone outside of their group. VC Tim Draper spent vast amounts of money trying to make Silicon Valley its own country in order to systemize the Silicon Valley tunnel-vision bubble. They want to secede from America because they are offended by normal people who they consider to be low-class and unworthy.

---- Murders. Rajeev Motwani taught the Google founders how to build Google and was found, mysteriously, floating, dead, in his Silicon Valley swimming pool. Silicon Valley's Gary D. Conley reported John Doerr and Elon Musk for corruption and was found with a bullet in his head behind Beale Air Force base. Three top Tesla engineers reported corruption at Tesla Motors and then suddenly died in a plane crash next to Tesla's factory in San Carlos. There are over 100 mysterious deaths associated with people who had conflicts with Google, Kleiner Perkins and other Silicon Valley oligarchs.

---- Arrogant. Self-Centered Narcissists. Elon Musk has spent over a billion dollars buying exclusive Google, Twitter, MSM and Facebook hype about himself. Every Tech CEO has a multi-million dollar PR agent assigned to make them look like "Gods of Industry". They regularly hold "Babes and Balls" parties and sex parties in Woodside that require women to beg for their money. They were trained to be "assholes" and "abusive dominants" via the Stanford Rape/Frat Culture.

---- Misogynists. All White-Male-Controlled with frat house pasts. Women are used As Sex Objects and Window Dressing. The largest number of anti-women news stories, jock/bro blog reports and charges for abuse come from Silicon Valley. VC Steve Westly's CEO friend is notorious for kicking his girlfriend hundreds of times because she "sassed" him. Almost all of their Divorce filings include abuse charges against the man.

---- Manipulation of Employees. Silicon Valley cartel companies practice Scientology-like indoctrination and "cultural programming" of employees. These highly impressionable naive young employees are kept in "controlled environments", sent to "mindfulness programming workshops" and told what kind of political opinions they should have. Tight-knit groups of females experience synchronized menstrual periods ( <http://www.nature.com/nature/journal/v229/n5282/abs/229244a0.html> ) over time, cohesive Google and Facebook employee groups engaged in decision-making discount dissenting viewpoints in the interests of consensus, and that couples who stay together long enough begin to look alike. A new study has captured another group phenomenon in Silicon Valley and chronicled in humans' natural habitat: "group brain synchrony". This is a CIA-like brainwashing technique exploited to get all Google/Facebook/Twitter employees to rapidly adopt the same political views.

---- Racists. Silicon Valley companies have the lowest rates of hiring, or promoting blacks, in America even though they have a high population of blacks at the edge of their community.

---- Male insecurity issues. They use TED-Talks, SXSW and Synchronicity Events as self-promoting hype in which to act like an apostle of a tech religion. They buy Tesla cars as a badge of arrogance and mock any male who does not own what they own or who who did not go to Stanford or Yale. These pretentious and ostentatious boys are more inclined to brag about penis-size than family.

---- Blacklisting. In the AngelGate Investigation and Silicon Valley No Poaching Class Action Lawsuit, Silicon Valley was exposed as an insider club that black-lists those who look different or

are not part of the boys club.

---- Politically corrupt. Silicon Valley has bribed more politicians than any other domestic region in history. They promote more immigration in order to get cheap labor for their tech companies. They steal their technology and bribe politicians to eliminate patent protections for small inventors that they steal from. Political Corruption and Bribery Is The Norm for these boys. Silicon Valley created a CIA knock-off called "In-Q-Tel" in order to use CIA technology to manipulate elections at Google, Facebook and Twitter. The 60 Minutes Episode called: "The Cleantech Crash" is about their multi-billion dollar scam using the Dept. of Energy as a slush-fund. They refuse to allow their MSM to report on their corruption and crony kickbacks, ie: Tesla Motors Funding, Off-shore tax evasion, Hooker networks, etc.

---- Collusion. In the AngelGate Investigation, the Silicon Valley No Poaching Class Action Lawsuit, and hundreds of other cases, Silicon Valley was exposed as an insider club that colludes to rig valuations, stock markets and employee poaching. They operate in herds within their peer group. They are not inclined to independent thinking. Kleiner Perkins has been caught placing moles and saboteurs inside competitors start-ups. They operate in herds within their peer group. They are not inclined to independent thinking.

---- Stock Market Criminals. Stock Market Pump-and-Dump, Flash Boy Algorithm Manipulation, Insider Trading, Market Rigging. The Securities and Exchange law violations and FTC monopoly law violations are vast in number.

---- Burning Man Sex-and-Drugs Devotees. Silicon Valley frat boys have a huge participation in the date-rape goings-on at Burning Man and buy extensive pheromone and skin contact delivery animal-tranquilizer drugs to use on young Burning Man girls.

---- Minimal Regard For Consequences. Although their PR agents promote them as "green" and "socially positive", it is all hype to get tax waivers and government hand-outs. Mark Zuckerberg's take-over of San Francisco General Hospital's brand was entirely a scam to get him a \$1 billion dollar tax evasion deployment. The Silicon Frat Boys act on impulse and try to buy off the collateral damage later.

---- Closeted homosexuals. Using the tremendous funds they have at hand from their exclusive monopolies in public media, they push their trans-gender agendas through their bought-and-paid for politicians. This has resulted in a generation of sexually confused children who believe that they should cut their penises off. The top bosses at Facebook, Google, Twitter, Tesla and other companies are lying to the public about their sexuality and using hired wives, known as "beards". If they lie about something so basic, one has to wonder what else they lie about.

---- Thieves. They steal most of their technology from small inventors who can't defend themselves. They get inventions from Indian engineers and then ship them back to India before the employees can get any stock or IP rights. The tech CEO's send their VC friends to competing start-ups to spy on competing technologies and steal it. The VC's say they are just doing "due diligence" but they are actually sucking the competing start-up dry of IP and staff and making a clone of it under another name.

---- There are so many other awful things about the people of Silicon Valley. You get the picture. Silicon Valley is a swamp and a cesspool.

# WHO IS THE SILICON VALLEY MAFIA?

By Terry Reed and Mark Lawson

They are sex abusers like John Doerr and his entire Kleiner Perkins frat boy staff who were sued by Ellen Pao for the misogyny culture of sexual deviancy and abuse that they promote as their corporate culture. They are tax evaders like Ray Lane. They are hooker-hiring sex traffickers like Google's Forrest Hayes who died from an excess of drugs and sex. They are cheaters like Google's David Drummond who destroyed his family by his addiction to infidelity. They are sex addicts who own sex penthouses and cavort with the notorious Wendy Deng like Eric Schmidt. Amid the World's Largest Corporate Sex Scandals Google CEO Eric Schmidt will now leave Alphabet's board. Schmidt is a known womanizer despite being married for 37 years to Wendy Schmidt, who said in 2012 they started living separate lives because she felt like "a piece of luggage" following him around the world. News outlets have been sniffing around Schmidt's former flames looking for a Harvey Weinstein-like bombshell, a source close to Schmidt told The Post. They are mobster-class justice evasion lawyers like Wilson Sonsini and political bribe conduit lawyers like Perkins Coie. They are charged rapists and psychological sex manipulators like Joe Lonsdale.

When Kleiner Perkins offices were broken into by covert law enforcement operatives much was revealed. This was followed by the hack of all of John Doerr's emails' and the email of his top staff. This was followed by the revelation that Doerr bribes Stanford University for special favors for his kids and for certain 'relationships'. Now Doerr must walk on pins and needles because he has been put on notice that even the slightest bribe, political manipulation or mobster-like tech black-listing will not go unnoticed.

A female employee called Tesla's factory a 'predator zone' at a meeting where workers described the constant sexual harassment at Tesla.

DNC chairman Eric Bauman, the head of the California Democratic Party, and the Los Angeles County Democratic Party., has his former assistant say he was first assaulted after falling asleep in a hotel and waking up to his boss performing oral sex on him, and that there were two more instances where he was forced to submit to Bauman.

Bay area party guests and Rothschild-linked Bronfman sisters donated millions to the sex cult whose leaders, Allison Mack and Keith Raniere, have been charged with child sex trafficking.

Goddard, a director, producer and theme park designer, has faced many sex abuse allegations. Eight former members of a Santa Barbara youth theater group in the 1970s alleged that Goddard molested or attempted to molest them. A ninth was said to have told others before he died that Goddard sexually assaulted him as a child. Goddard denied their allegations.

The Silicon Valley Mafia is The Sandhill Road Venture Capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) partners and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) they control. They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control.

They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders. They collude on black-lists, valuation controls, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, executive prostitute clubs, trophy wife assignments, the bribery of politicians and worse. They are felons who pay politicians to halt investigations and interdiction efforts.

They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis abusers, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves' and other anti-social revelations. They are not limited to California and also operate out of New York and Washington DC.

They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

The Department of Justice conducted a series of raids across California tech and media circles and arrested 238 people in connection with a Hollywood pedophilia network, but this story went totally ignored by almost all media outlets. According to police, the arrests included some entertainers, community leaders, white-collar professionals, a monk, and other high-ranking clergy members. The raids were conducted by the Regional Internet Crimes Against Children task force, working directly with the Justice Department. Codenamed "Operation Broken Heart III", the sweeping raids targeted offenders wanted for the sexual exploitation of children, child prostitution, sex tourism and possessing and distributing child pornography, said Deputy Chief Matt Blake. Silicon Valley oligarchs use these intermediate level people to source up sex victims to be delivered to their Woodside and Atherton mansions.

Michael Goguen, who had worked for a firm that funded Google and Paypal, "sexually and physically" abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges. Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured "countless hours of forced sodomy" from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for "six hours at a time," and forced her to call him "king" and "emperor." Filed in San Mateo County, Calif., her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire's plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

The Silicon Valley Mafia Cartel is the largest provider of dark money bribes to West Coast politicians including Feinstein, Pelosi, Harris, Brown, Reid, Boxer, Lee, et al.. Those politicians and their families also covertly own the stock of the California tech companies and social media companies like Tesla, Solyndra, Abound, Google, Facebook, Netflix, etc. Larry Wallace, a senior staffer for Sen. Kamala Harris (D-CA) resigned over the discovery he was involved in a sexual harassment lawsuit and \$400,000 payout to the sexually abused victim while working for then California Attorney General Kamala Harris. In the latest case of Hollywood's and Silicon Valley's spiralling sexual abuse scandal, Variety reports that a veteran 58-year-old Disney executive has been charged with three felony counts of child sexual abuse. Jon Heely, the longtime director of music publishing at Disney, was arrested nearly a month ago and charged with three counts of lewd and lascivious acts on a child. One of the reported victims was 15. The other was abused for four years starting at the age of 11, according to the charges. Heely, who oversees the licensing of music from Disney films faces up to nine years and three months in prison according to The Daily News.

It is now time to sound the alarm bells on the economic prospects for the Millennial Generation in the Western world, but more importantly, at Stanford University. This generation of citizens aged 18 to 36, is the first in modern developed economies on course to have a lower standard of living than their parents. Housing affordability and a decaying job environment are some of the most pressing issues affecting Stanford Millennials. The future is bleak for this avocado and toast generation, as Western world economies have likely plateaued regarding economic growth. Surging debt and rising government bond yields are producing an environment that could lead to more hardships for this lost generation. Tech oligarchs have taken full advantage of broke Millennials by offering "adult arrangements" for a roof over their heads. Yes, you heard this correctly, Millennials are trading sex for a place to sleep and sex for tuition at Stanford University.

Sugar Babies now comprise a large portion of Stanford students. Kleiner Perkins and Greylock VC's hire them for sex. Google and Facebook executives use them like disposable sex toys. The student debt crisis in the US has gotten so bad, there's a growing group of young women — and some men — who are taking an unconventional approach to paying for college. Through dating websites like SeekingArrangement.com, and match.com, Sugar Babies, as they're called, partner up with wealthy, often older, men who want to spend money on them. Some 2.5 million Sugar Babies identified as students in 2016 on SeekingArrangement.com. Many of these Sugar Babies turned to the site to find someone who will pay for their education so they can graduate debt, and worry, free. In exchange, Sugar Babies go to dinners, attend events, or accompany their Sugar Daddy, or daddies, on trips. In some cases, they provide companionship or foster a mentor-mentee relationship. In other situations, the terms of the agreement include physical intimacy.

Jermaine Gagnon, 28, told DailyMailTV how he narrowly escaped death when DNC financier Edward Buck injected him with crystal meth at his sex-toy filled apartment. Gagnon said Buck, 63, paid to fly him from Minnesota to Los Angeles, drugged him with a substance dissolved in Gatorade then injected him with crystal meth. The 28-year-old shared photos of Buck, wearing white long johns, crouched over him on a mattress during one of their nights together last year. Gagnon shared images of sex toys Buck had for their encounter, saying: 'He had this red and black toolbox with all types of fetish toys, like c\*\*k rings, sex toys'. He added: 'He gave me some Tommy

Hilfiger tighty whities, a muscle t-shirt and some long johns. White knee-high socks'. Gagnon said during one encounter Buck offered him a drink he suspected had been spiked, feeling woozy and weak shortly after drinking it. He said: 'He took my phone. I was so scared. I felt death walked into my soul. I called my mother. I said, 'I feel like he's going to kill me, I think I'm going to die'. Buck is now under investigation over the deaths of two black men, including one man who died of an apparent overdose at his apartment on Monday.

According to the testimony of a federal agent, Harold "H.L." Moody, a former Democratic Party chairman, streamed live videos of children being raped, distributed child pornography to other pedophiles, and regularly smoked methamphetamine out of a glass pipe while seated at his desk during work hours. Our tax dollars at work, folks. Jason Bennett, a special agent for Homeland Security Investigations, said an undercover agent took "screen shots" of Moody sitting at his desk and chatting with pedophiles in a secret chatroom online on "more than one occasion" between Aug. 29 and Oct. 12. Bennett described Moody as a "high-volume user" who logged in and out of a chat room solely devoted to child pornography several times a day, including 26 times in a two-day span. He was also a host of the private chat room, which Bennett explains indicates that Moody did something to receive such recognition.

Tech magnate Elon Musk reportedly admits in an upcoming book that he once attended a somewhat well-known Silicon Valley "sex party,". Musk and his bro-friend: Steve Jurvetson, have been documented in a number of notorious sex scandals. **Even worse is the headline that reveals: "Elon Musk Says Pedophile Accusation Against British Man Was Protected Speech But Ignores Fact That Musks Father Had Sex With His Own Daughter"**

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle. The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl. Katz allegedly arranged a meeting at the Embassy Suites in Tukwila, offering to pay \$350 to have sex without a condom. When Katz arrived at the hotel with \$600 in cash, he was arrested by police.

Former Democrat CDC director Dr. Tom Frieden was arrested on sexual pervert allegations. Frieden was charged with forcible touching, sex abuse and harassment, according to police.

California gubernatorial candidate Gavin Newsom's past sexual misconduct disqualifies him from holding higher office, rival Democrat Amanda Renteria said Thursday, and he should resign from his position as lieutenant governor. "If he was in the Legislature right now, he'd be called out, and like what we've seen, being forced out," Renteria said in an interview with The Sacramento Bee. "We've got to be sending the message that the more power you have, the more responsibility you have to protect others." As mayor of San Francisco more than a decade ago, Newsom had an affair with one of his city hall aides, who was also married to his campaign manager at the time.

Google employees have accused Google boss Rubin of sexual misconduct. A woman, with whom Mr. Rubin had been having an extramarital relationship, said he coerced her into performing oral sex in a hotel room in 2013, according to two company executives with knowledge of the episode. Google investigated and concluded her claim was credible, said the people, who spoke on the condition that they not be named, citing confidentiality agreements. Mr. Rubin was notified, they said, and Mr. Page asked for his resignation. Google could have fired Mr. Rubin and paid him little to nothing on the way out. Instead, the company handed him a \$90 million exit package, paid in installments of about \$2 million a month for four years, said two people with knowledge of the terms. The last payment is scheduled for next month. Mr. Rubin was one of three executives that Google protected over the past decade after they were accused of sexual misconduct. In two instances, it ousted senior executives, but softened the blow by paying them millions of dollars as they departed, even though it had no legal obligation to do so. In a third, the executive remained in a highly compensated post at the company. Each time Google stayed silent about the accusations against the men. Google executives have been caught having sex slaves.

The Rosewood Hotel is brimming with tech guys, some loudly talking about money. The college student at our table recommends the ribs—she's been here before, on "dates" with her "daddies." "There are a lot of tech guys," she says. "They want the girlfriend experience, without having to deal with an actual girlfriend." "The girlfriend experience" is the term women in the sex trade use for a service involving more than just sex. "They want the perfect girlfriend—in their eyes," says Miranda, the young woman at our table.\* "She's well groomed, cultured, classy, able to converse about anything—but not bringing into it any of her real-world problems or feelings. Her adventures in "sugaring" started three years ago when she got hit on by an older guy and rebuffed him, saying, "Look, I'm not interested, so unless you're offering to pay my student loans," and he said, "Well . . . ?" After that, "he paid for stuff. He gave me money to help out with my living expenses." This is how many of the skinny co-eds at Stanford University pay the bills and Stanford bosses look the other way.

In Silicon Valley, There Are Over 100 Services That Deliver Young Men And Girls To Rich Google And Facebook Executives For Dirty Sex. Most of the victims come from local colleges, universities, art schools and the Mission District, Haight Street and Noe Valley districts in San Francisco. They use Facade organizations like "Power Exchange", "Mission Exchange", "The Arena", "Orgasmic Meditation", "NXVIUM", "The Spinsters", "The Guardsmen", One Taste, etc. act as fronts for sexual transactions. The Rosewood Hotel has sex nights for the sale of women using sly hand signals. Almost every hotel on El Camino Real in Palo Alto has a prostitution activity going on around the clock. Russian and Italian prostitutes fly in and out of San Jose and San Francisco airports so often that they are known as the "pus\*y ports". Young, impossibly attractive, girls with tight mini skirts and a roller bag in the airport alone are now under constant surveillance by police.

One report recalls: "...At the hotel, Hillary Clinton Mega donor and John Podesta partner Wyss assaulted Long physically and sexually, according to her police complaint. "Me screaming, 'No stop it,'" she wrote in her own handwriting to police. "He grabbed my teeth with his left hand and ripped my mouth open. He inserted a vibrator into my vagina and almost suffocated me by putting his fist into my mouth. I struggled and pushed. I thought for sure he was going to kill me," she wrote. "I left that hotel room sick and in pain," she told police in the statement. She returned to Boulder and "stayed in bed for weeks. The physical sickness of this event was devastating," she told police. Wyss also allegedly threatened to stop his financial support for her daughter if she broke up with him, according to Long. "She's probably one of the first who took on powerful men over sexual misconduct," recalled Police Chief Tom Koby in an interview with TheDCNF. He personally knew the Boulder resident and counseled her about her relationship with Wyss. "After the attack, I had breakfast with Jackie at the Hotel Boulderado. She broke down during breakfast. This thing had happened and it was terrible. She was quite shaken and Jackie doesn't shake too easily," Koby said. "Hans had her in a bind in terms of helping Jackie heal her daughter, who had some serious health addiction issues," Kolby added. "That was what was keeping Jackie in the relationship and she didn't have a lot of money. She was still clinging to the hope she could save her daughter. And that she had these things she wanted to do with these organizations working on detention homes and shelters in Boulder and in Denver," Koby recalled..."

Amid allegations of sexual harassment, embattled freshman Democratic Rep. Ruben Kihuen vowed he will not resign from his post, despite calls from Democratic leaders that he step aside. Instead, Kihuen is digging in with a shocking allegation of his own, taking aim at the leaders of his own party. In an interview with ABC News, Kihuen, D-Nev., said party leaders knew last year about a former campaign staffer's allegations of misconduct but stood by his campaign nonetheless. Kihuen questioned why they are calling for his resignation now, more than a year later. "I do find it interesting that the DCCC, Leader [Nancy] Pelosi and Chairman Ben Ray Lujan -- they knew about these allegations last year," Kihuen said. "They looked into them. They didn't find anything, and they continued investing millions of dollars in my campaign. ***They went out there and campaigned for me.***"

A married senior official in President Obama's Department of Education was convicted of sex crimes and resigned for following women on the DC Metro and taking pictures up their skirts,

DailyMail.com can exclusively reveal. William Mendoza, 42, the former executive director of the White House Initiative on American Indian and Alaska Native Education, stepped down after he was arrested and charged with attempted voyeurism in November, 2016, for the vile acts. Mendoza, who earned \$140,000 a year as a policy advisor in Obama's White House, tried to take photos and videos up women's skirts at least four times on his government-issued iPhones in July 2016 without their consent. He was also caught looking at footage, apparently filmed in secret, of a woman in her underwear getting changed in a dressing room. It is not known if he recorded the video himself. When he took the indecent photos, he was supposed to be at work and was using a travel card funded by the taxpayer, according to documents obtained by DailyMail.com through a Freedom of Information Act request.

After California's then-Attorney General Kamala D. Harris announced felony pimping charges last year against the two owners of Backpage.com — a classified-ad website that is a hub for sex trafficking and prostitution, one of the men cut a \$10,000 check to House Minority Leader Nancy Pelosi's super PAC. Mrs. Pelosi's political action committee, House Majority PAC, has resisted giving the money back, and an aide to Mrs. Pelosi said the California Democrat knows nothing about the contribution. The uproar over sexual harassment that began with the Harvey Weinstein scandal has intensified the scrutiny of political contributions linked to Backpage, which law enforcement officials say is the chief platform for activities far worse than harassment, including sexual slavery and child prostitution. Mrs. Pelosi isn't the only Democrat struggling to deal with the piles of cash that Backpage's owners spread around to candidates and state Democratic parties over the years. Even Ms. Harris, a California Democrat who is now a U.S. senator, ducked the issue. Her office wouldn't respond to repeated emails about Backpage money going to House Majority PAC and other Democratic organizations. Since 2010, the owners and their wives have shoveled about \$99,000 to candidates and about \$95,000 to Democratic parties in Arizona, Colorado and New Mexico, according to federal campaign finance data collected by the Center for Responsive Politics.

Prominent Democrat donor Terry Bean was indicted earlier this month on two counts of sodomy and one count of sex abuse for allegedly having sex with a teenage boy. Bean was arraigned on the charges, TV station KGW8 reported. He pleaded not guilty and was taken into custody at County jail.

The body of investigative journalist Jen Moore was found in her Washington D.C. hotel room on Monday after her investigation into an alleged sexual assault by President William J. Clinton. "In fact, just four weeks before her death, Moore filed details of the alleged victim's claims with the Department of Homeland Security, detailing the allegations against Clinton. Moore contacted Homeland Security beginning on July 6th through July 9th, records show. A week later, she contacted the FBI with identical details about the victim and the shocking allegations against Clinton,"

A leading liberal think tank run by a longtime adviser to former presidential candidate Hillary Clinton is facing allegations of serious sexual harassment which went undealt with by management, a new report claims. The Centre for American Progress (CAP), headed by Clinton associate Neera Tanden, has released four policy proposal papers on dealing with sexual harassment in the workplace, but former staffers have come forward with stories of repeated harassment at the think tank, BuzzFeed reports.

Defy Ventures brings the gospel of entrepreneurship to an unlikely place: prisons. The nonprofit company founded by Catherine Hoke says it is dedicated to helping formerly incarcerated people start their own businesses and stay out of prison. "Transform the hustle," the company's tagline encourages. Defy has received grants from Google. Facebook COO Sheryl Sandberg wrote a foreword to Hoke's new memoir. Former U.S. Attorney Preet Bharara called Hoke's work "incredibly inspiring" on his podcast. But while Defy woos Silicon Valley and Washington, D.C., scandal has rocked the company's leadership. Last month, Defy fired its president after he blew the whistle on allegations of sexual harassment by Hoke and fraudulent statistics exaggerating the program's successes.

Henry T. Nicholas III, the Silicon Valley billionaire founder of chip-maker Broadcom, has been arrested by police on drug trafficking charges. According to the Associated Press, Nicholas was arrested on suspicion of trafficking heroin, cocaine, meth and ecstasy. Security was called when Nicholas couldn't get into his sex fuelled room at the Encore, a Las Vegas casino hotel. When security arrived, they reportedly found Nicholas with Ashley Fargo, the ex-wife of an heir to the Wells Fargo banking fortune. Fargo was passed out with a semi-deflated balloon in her mouth, but was revived by paramedics. According to reports, security subsequently found canisters of nitrous oxide inside the room, and a subsequent search by cops turned up more drugs inside a suitcase. Nicholas's attorney, David Chesnoff, told the Associated Press that they will "deal with the facts in court."

Multiple famous Silicon Valley lawyers have been found dead, hanged by their own hand while attempting to masturbate while choking themselves because they thought that choking would add to the sensation. A formerly powerful Democrat, Attorney Mark Benavides, has been found guilty on six individual counts of human trafficking in a grotesque and sex-filled criminal conspiracy. Mark Benavides, a well-known Democrat who ran for the 186th District Court in 2014, was accused by federal law enforcement of trading his legal services as an attorney for sex from his clients and then recording those manipulative sex-romps, according to local ABC affiliate KSAT. Benevides would then promise the women that if they allowed him to engage in erotic sex that sometimes included physical torture, that he would offer them a legitimate defense in the courtroom.

Hundreds of leaked text messages between Kevin Tsujihara, actress Charlotte Kirk and partners Brett Ratner and James Packer show the powerful executive, under pressure, said repeatedly he would push for auditions as accusations of "extortion" and a proposed settlement agreement followed

## **The World Health Organization (WHO) has declared Silicon Valley oligarch sex addiction to be a mental illness.**

Known as compulsive sexual behaviour disorder, it is defined as an inability to control intense sexual urges leading to people neglecting their health despite often deriving no pleasure from being intimate, according to a report issued by the WHO.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the report adds.

It is unclear if this move will lead to sex addiction treatment being provided on the NHS, which does not currently consider it to be a condition.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Actor Michael Douglas, who is married to Catherine Zeta Jones, also sought treatment for the disorder after numerous affairs ended his first marriage to Diandra Luker in 1995.

As well as reported drug and alcohol problems, Mean Girls star Lindsay Lohan has described herself as 'not a crazy [sex] addict' but adds she enjoys being in different relationships.

David Duchovny, star of The X-Files, sought treatment for sex addiction in 2008 after being unfaithful to his actress wife Téa Leoni.

After the release of a sex tape with his Playboy model ex Nicole Narain in 2003, actor Colin Farrell admitted to liking sex with prostitutes and suffering from an addiction.

Socialite Calum Best, whose footballer father George suffered from alcoholism, has said 'I'm a red-blooded male and I'm addicted to sex'.

Sex addiction is seen as 'shameful'

According to Dr Valerie Voon, from the Royal College of Psychiatrists, between two and four per cent of people in the UK suffer from sex addiction. Three-to-six per cent are thought to have the condition in the US.

She told The Sun: 'It is a behaviour that tends to be hidden as it's shameful and often sex addicts don't come forward.

'Adding this to the WHO list is an excellent step for patients as it allows them to recognise that they are suffering with a problem.

'It takes it out of the shadows and they are able to seek help for it.'

Dr Voon believes sex addiction may one day be treated on the NHS alongside conditions like depression and anxiety.

Gaming addictions tear families apart

This comes after Dr Shekhar Saxena, director of WHO's department for mental health, said the body listed gaming as an addiction based on scientific evidence, as well as 'the need and the demand for treatment in many parts of the world.'

According to Dr Joan Harvey, from the British Psychological Society, only a minority of gamers suffer from the disorder, warning that the new condition might cause unnecessary concern among parents.

She said: 'People need to understand this doesn't mean every child who spends hours in their room playing games is an addict, otherwise medics are going to be flooded with requests for help.'

Others welcome WHO's classification, saying it is critical to identify video game addicts quickly due to them usually being teenagers or young adults who do not typically seek help themselves.

Dr Henrietta Bowden-Jones, a spokeswoman for behavioral addictions at Britain's Royal College of Psychiatrists, added: 'We come across parents who are distraught, not only because they're seeing their child drop out of school, but because they're seeing an entire family structure fall apart.'

The updated ICD is scheduled to be presented to all WHO member states at their annual assembly in May 2019.

According to the relationship counselling service Relate, sex addiction is any intimate activity that feels 'out of control'.

This could be sex with a partner, masturbation, pornography use, visiting prostitutes or using chat lines.

In some cases, people feel unable to control their urges, which affects their quality of life and those around them.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the WHO adds.

# **Facebook, Google and Instagram Facing Lawsuits for Teen Mental Health Crisis**

Neumann Law Group is now investigating claims against Meta Platforms, Inc., the parent company of Facebook and Instagram for their intentional manipulation of the mental health of young and at-risk users of their products.

In October 2021, a Facebook whistleblower testified to the U.S. Senate how Facebook, Instagram, and Meta used tactics to manipulate young people into using their products for extended periods of time and intentionally created a toxic environment leading to significant psychological harm to America's youth.

### Google whistleblower claims tech giant's Developer Studio division has been infiltrated by 'pedophilic religious doomsday cult' Fellowship of Friends that was featured in a Spotify podcast series called 'Revelations' last year

- Kevin Lloyd, 34, was a video producer for Google Developer Studio from 2017 until he was fired in February 2021
- Lloyd in August 2021 filed a lawsuit at California Superior Court alleging that he lost his job because he questioned a 'cult' that many of his colleagues joined

An apocalyptic 'cult' led by an eccentric misogynist accused of sexual abuse of young men has taken over a division of [Google](#), a whistleblower has claimed.

Kevin Lloyd, 34, claims that he was fired from his job as a video developer at Google last year because he began questioning the influence of the cult.

In August, Lloyd filed a discrimination case in [California](#) Superior Court, alleging he was fired for digging into Fellowship of Friends - a group based in the small Californian town of Oregon House, and whose members made up a large percentage of employees in his division.

'Plaintiff's preliminary research into Oregon House and the Fellowship of Friends described the Fellowship as a destructive cult, with a pedophilic leader who makes false prophecies about the end of the world,' the lawsuit claims.

'Plaintiff became alarmed that Google was involved with and/or financially supporting such an organization.'

Earlier this month, Lloyd wrote a lengthy description of his case on [Medium](#), and spoke to The [New York Times](#) - who corroborated many of the lawsuit's claims through interviews with eight current and former employees of the Google business unit.

Google's campus in Mountain View is 180 miles from the small town of Oregon House, population 1,250 - yet half of the people Lloyd met were from Oregon House, he said

Lloyd said he began work at Google in 2017, as part of Google Developer Studio (GDS) - the tech giant's internal production company, making adverts and video content.

He said it slowly dawned on him that many of the people he met at GDS were from the same small Californian town, 180 miles north of Google's Silicon Valley home, in Mountain View.

The town of Oregon House is home to 1,250 people, and yet Lloyd said he realized that half of the 25 people he met at GDS were from the same town.

Lloyd said he noticed that many of the outside vendors, such as caterers and entertainers at corporate events, were also from Oregon House.

In 2018, Lloyd said, he was speaking to a freelancer who was working with them that day, and was from a town near Oregon House.

Lloyd recalls the freelancer telling him: 'Oregon House isn't a town. It's a cult.'

He began investigating the freelancer's claim, and said he was shocked by what he found.

'There are online support groups for former Fellowship of Friends members to help them process the trauma endured during their membership, as well as problems that arise after leaving,' Lloyd's lawsuit states.

Fellowship of Friends, which is based in Oregon House, was founded in 1970 by Robert Earl Burton, a former school teacher in the San Francisco Bay area.

'From its inception the vision of the Fellowship was, and remains, to establish a practical spiritual organization and to make it available to anyone interested in pursuing the spiritual work of awakening,' they state on their website.

Burton, believed to be now aged in his early 80s, sought to create a center celebrating the fine arts - with opera, ballet, works of art and literature the focus.

He based his organization in Oregon House, and created a winery where his devotees worked, when not studying the arts.

Google even purchased wine, the lawsuit claims, from the Grant Marie Winery, an allegedly cult-affiliated vineyard run by a Fellowship member in Oregon House.

But critics claimed that he had sexually abused new members of his group - in particular young boys.

In 1984 a former member filed a \$2.75 million lawsuit claiming that young men who joined the organization 'had been forcefully and unlawfully sexually seduced by Burton,' according to documents obtained by [The New York Times](#).

In 1996, another former member accused Burton in a law suit of sexual misconduct with him while he was minor. Both suits were settled out of court.

Some accusers, Lloyd alleged, had been flown to the country under false pretenses and then abused.

## **What is Fellowship of Friends?**

Founded on January 1, 1970 by San Francisco school teacher Robert Earl Burton, Fellowship of Friends is a non-profit religious organization, headquartered in Oregon House, California.

Burton based his faith system on a philosophy called the Fourth Way, founded by an Armenian philosopher and mystic, George Gurdjieff, who lived from 1866 to 1949.

Burton adopted Gurdjieff's believe that people are in a hypnotic 'waking sleep', and need to work on themselves through studying art, music and literature.

He named his 1,200-acre headquarters Apollo, and his 1,800 followers gave 10 percent of their earnings to the organization - which spent the money on art, fine wine and culture.

Critics have filed lawsuits claiming sexual abuse.

Other critics said that the group was strongly anti-women, and celebrated white European men above all.

In September, investigative journalist Jennings Brown published a six-part podcast produced for Spotify, entitled [Revelations](#).

Brown had spent three years from 2018 digging into the group, and documented allegations of sexual abuse in what he termed a 'doomsday cult'.

Lloyd said he was aghast that GDS was so strongly linked to the Fellowship, with GDS's director, Peter Lubbers, described as a longtime member of the group, who joined shortly after he moved to the U.S. from the Netherlands.

Lubbers introduced a video producer named Gabe Pannell to the Fellowship: Pannell was pictured with Burton in 2015, and described as a 'new student', The New York Times report.

Lloyd's lawsuit states: 'Mr Lubbers gained status and praise relative to the increase of money flowing to the Fellowship through his efforts at Google that put (and kept) other Fellowship members — directly or indirectly — on Google's payroll.'

Lubbers insisted faith had nothing to do with his hiring.

'My personal religious beliefs are a deeply held private matter,' Lubbers told The New York Times.

'In all my years in tech, they have never played a role in hiring. I have always performed my role by bringing in the right talent for the situation — bringing in the right vendors for the jobs.'

Pannell told the paper that those hired were brought in from 'a circle of trusted friends and families with extremely qualified backgrounds'.

Lloyd, in his Medium post - which does not name Lubbers or Pannell - said that anxiety about the Fellowship, and its reputation, sparked a panic attack, for which he was admitted to ER.

He said in his court documents that he worried events he produced 'could somehow be used to funnel money back into the Fellowship of Friends.'

 Burton is seen in a 1981 photo at Oregon House. Fired in February 2021, he has retained a lawyer who previously represented a woman at Lubbers' previous company, Kelly Services, and sued in 2008 in a similar case.

Lynn Noyes claimed that Kelly Services had failed to promote her because she was not a member of the Fellowship.

A California court awarded her \$6.5 million in damages.

'Anyone outside of the Fellowship is seen as somehow inferior and at times adversarial,' Lloyd's lawsuit says.

'Those that express serious concerns, criticism or question the group may be eventually perceived as enemies.'

Google told The New York Times that they were barred by law from inquiring about someone's religious practices during the hiring process.

'We have longstanding employee and supplier policies in place to prevent discrimination and conflicts of interest, and we take those seriously,' a Google spokeswoman, Courtenay Mencini, said in a statement.

'It's against the law to ask for the religious affiliations of those who work for us or for our suppliers, but we'll of course thoroughly look into these allegations for any irregularities or improper contracting practices.

'If we find evidence of policy violations, we will take action.'

Fellowship of Friends was approached for comment.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under

way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people ( because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code.

It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking. ---- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

#### Darkest Secrets Of Facebook AKA Meta (VIDEO)

By comparing records and files from FINCEN, FBI, FTC, SEC, Congressional Investigators, ICIJ, FEC, Interpol, CIA, DOJ, ProPublica, and other sources, one can easily see that political officials own Google, Tesla, Facebook, YouTube, Instagram, et al, (AKA "The Tech Cartel" or, in legal terms: "The Enterprise"). This explains why those companies have been exempt from regulation and prosecution. Those public officials and tech company oligarchs have exchanged millions, and millions, of dollars between themselves and their families for profiteering.

They were all either financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; our business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political digital search manipulation services to. Criminal U.S. Senators coordinated and profited in these schemes. Their own family members have now supplied evidence against them. You don't hear about this, much, in the "main-stream news" because nearly half of Congress, White House staff and government agency bosses own the stock in the news broadcasters and receive billions of dollars of financing from them.

Many witnesses, including us, have now sworn, warranted and certified to federal law enforcement about the details of these crimes. Many of those whistle-blowers were former executives in "The Tech Cartel".

This is not about politics. It is about felony crimes! Our government representatives are business partners with our biggest enemies and make decisions based on greed, not duty!

# **YOUR POLITICIANS ARE TAKING STOCK MARKET INSIDER TRADING BRIBES AND HERE IS HOW YOU CAN CATCH THEM AND STOP THEM!**

Have you noticed that none of the current decisions in politics help you? The current Washington DC and Sacramento policy decisions only help the politicians with their insider stock market profits!

Corrupt political California dynasty families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

## **YOU CAN WIPE THEM OUT USING 100% LEGAL PUBLIC FORENSICS!**

In all of recorded history, there has never been so much taxpayer cash given to so few people, where each, and every, one of the recipients was a friend of the politician giving away the taxpayer cash and everyone who got the cash immediately skimmed "unjust profits" and shut down the business.

**Want to help end the tech oligarch's rape of society?** Never, EVER: use, read, quote, link to, paste from, or refer to; anything on corrupt and contrived: T-Mobile - Twitter, Google - Alphabet - Facebook - Meta - Instagram - Netflix or YouTube! Don't expand their reach! Don't be their digital bitch! Stop being an addict to Silicon Valley's social media scam! Keep the battery out of your phone so Big Tech can't continue to spy on you. Did you know you CAN'T turn an iPhone off. Apple iPhone's pretend to be "off" but still monitor you with reserve power. The government should shut these companies down but they don't because these companies pay the largest bribes on Earth to politicians! Demand that Congress shut down these big tech abusers that cause child suicides, bullying, sex trafficking, money laundering, tax evasion, political bribery, election manipulation and other social crimes. Twitter, Facebook, Google, Netflix, YouTube spy on you and rape your mind by serving manipulated content choices requires by automatically creating covert user dossiers made by spying on users' content consumption preferences and continually changing them based on psychological analysis of the users. Spy agency-type profiles created by Twitter, Facebook, Google, etc. use abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using NLP methods. They Aggregating these features per user at scale based on what rich white Democrat ideology Google programmers want. In particular, it is impractical to store the entire dynamic history of a user's interaction features, requiring the companies to use biased algorithms that selectively decay information in favor of a more liberal political representation. The more it scales, the more racist, sexist, classist, misogynistic and politically biased it gets.

The history books teach that San Francisco was founded by **Prostitutes, Pirates And Gangsters**. That crowd still runs San Francisco, even in modern times. These criminals expanded south of San Francisco to Silicon Valley based on Stanford University institutionalizing and teaching business corruption to sociopath frat boys. They then took their circus of bribery and insider trading to Washington, DC and the rest is history.

**For example: All of the money that the U.S. Department of Energy gave out during the Obama and Biden Administrations only went to the friends and financiers of the Obama and Biden Administrations. Anybody that applied for the money, that competed with the friends and financiers of the Obama and Biden Administrations were cut-off and de-funded. The staff and politicians in the Obama and Biden Administrations owned the stocks of those few who got funded and went to work for them after they left Washington. It was as blatant a quid-pro-quo revolving door scam as anyone had ever seen. (ie: Solyndra, Tesla, Abound, Abengoa, etc.)**

**In another example:** Feinstein's family owned and controlled A.) Government trained attack 'spies' formerly with the CIA, NSA, etc., B.) The leasing contracts for Tesla and Solyndra, C.) Their office staff that threatened competitors in writing and in-person, D.) the financing for Tesla and Solyndra, E.) The construction services for Tesla and Solyndra, F.) The staffing company for Tesla and Solyndra, G.) The adjacent railroad services for Tesla and Solyndra, H.) Key suppliers for Tesla and Solyndra, I.) Goldman Sachs cooperative relationships for Tesla and Solyndra, J.) Transitions

from their own Senate Office staff to revolving door jobs at Tesla and Solyndra, K.) Government decisions for Tesla and Solyndra, L.) The relationship incentives between Google, Tesla and Solyndra and that Senator's campaign financing to that Senator; and other illicit conflicts of interest. Her husband: Dick and her daughter: Kathy, even confessed to these schemes to a whistle-blower, while being recorded. Competitors owned the competing electric car companies and technology that would have obsoleted Tesla, Google and Solyndra and was the first to begin negotiations with the factory that Tesla later took over at the insistence of that Senator, even though Elon Musk appears in news reports, previously stating that he saw no use for the building for Tesla. Feinstein put a hit job on them to protect her own stock market shares.

Silicon Valley has had the largest number of Congressional hearings against it, BUT the least number of regulations imposed on it. Why? You can look no further than the covert ownership of Silicon Valley by elected officials. Our politicians get paid bribes, by Silicon Valley, to keep the political corruption alive and well while they operate, with impunity, as the biggest threats to society ever manifested.

**While the FBI, FTC, DOJ and FEC are supposed to objectively prosecute this case, it is impossible for them to be objective when their raises, promotions, house payments and stock market profits are entirely determined by the individuals we are charging with these crimes.**

**Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and government agencies as a stock market**

**manipulation platform.**

**Politicians turned the government into a cheap garage sale of cronyism!**

<https://case-xyz2020a.com>

---- This case affects who gets to run the United States Government and who profits from government decisions, a matter of many trillions of dollars. -

--- The evidence folders provide evidence of the corruption in categories. The illicit acts described therein all involve the same perpetrators. The evidence items specific to this folder category are at the bottom of this page: A.) AFGHANISTAN RARE EARTH CORRUPTION; B.) CASE DIAGRAMS; C.) DEPT OF ENERGY CRONY SLUSH FUNDS; D.) FACEBOOK META CORRUPTION; E.) GOOGLE ALPHABET CORRUPTION; F.) MASS MEDIA MANIPULATION; G.) NETFLIX NEGLIGENCE; H.) PATENT THEFT; I.) REPAIRING SILICON VALLEY; J.) SICKO TECH FRATBOYS; K.) SONY PICTURES CORRUPTION; L.) STANFORD UNIVERSITY INVESTIGATIONS; M.) THE CORRUPT SENATORS; N.) THE ELON MUSK REPORTS; O.) THE HOUSING CRISIS; P.) THE LITHIUM BATTERY LIE; Q.) THE MEDIA ASSASSINS; R.) THE POLITICAL BRIBES; S.) THE SAN FRANCISCO CORRUPTION; T.) USING SOCIAL MEDIA SITES TO SPY ON CITIZENS; V.) THE SILICON VALLEY DEATHWATCH

---- For example; The United States Department Of Energy, the U.S. Patent Office, The EPA and others, since November 2008, have been almost entirely used as scam crony payola slush-funds to pay off political campaign financiers of White House insiders. In addition, government agencies are used as gate-keepers to sabotage and stall the competitors to those political campaign financiers of White House insiders. It is political racketeering operating in plain sight! The cover-ups by the IG, AJ and DOJ are ENDLESS!

---- Politicians turned the government into a cheap garage sale of cronyism! This kind of crime illicitly and illegally manipulates the power over who runs the United States Government and who profits from government decisions which are a matter of many trillions of dollars. The act and veracity of this crime enterprise will be proven to the Jury.

---- Based on that assertion it will then be proven that:

---- 1.) Plaintiffs exposed and reported the crime to proper authorities through proper channels.

---- 2.) Some of those authorities used government resources to operate reprisal attacks against Plaintiffs, using government resources to operate the attacks, as revenge for reporting the crimes.

---- 3.) The state-sponsored attacks were supported by the political campaign financiers of the government authorities in order to protect their payola conduits and stock market manipulations.

---- 4.) Over 40 harms, each to be detailed and examined in Court, were documented against Plaintiffs by the actions of corrupt government authorities.

---- 5.) In a vast number of previous lawsuits, including one won by Plaintiffs and their peers, it was proven that government offices infected with corruption regularly attack and harm citizens in reprisal.

---- 6.) The government, having been caught in these illicit actions, must now pay Plaintiff for his losses, damages, harms, back-pay fees and other compensation.

---- Tesla And Fisker were financed by the family and investors of Presidents Obama and Biden, as proven by Congressional investigators and email leaks.

----- Government officials ordered attacks on Plaintiffs, de-funding and reprisals because Plaintiffs reported corruption at the White House, Department of Energy, and other government offices, and because Plaintiff's technology could obsolete the technologies that government officials were illicitly receiving bribes from via insider trading. The attacks and harms against Plaintiffs used government resources paid for by taxpayers.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends.

---- If you are a taxpayer: You suffered damages!

---- If you are an American business: You suffered damages! -

--- If you are Democracy: You were broken!

---- If you were a tech mobster: You made out like a bandit! -

--- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes!

--- Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes! The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

---- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

---- IF YOU SEE CORRUPTION, REPORT CORRUPTION: Post a public web page with all of the details and evidence of the political corruption. Then invite all of the press, public, Inspector General's, FBI, SEC, FTC and law enforcement to that web page. This will prevent cover-ups and stone-walling and protect you from getting ignored! Never assume that the agencies that are supposed to help you, will help you!

- End political corruption in America by making any stock ownership by senators and political insiders illegal.

- Exterminate Google, Facebook, Tesla, Youtube and Netflix for their crimes, attacks on competitors, patent office and Senate bribes.

- File criminal referrals to federal law enforcement on each oligarch that hired Fusion GPS, Gawker, Black Cube, Amyntor, et al, to run "kill teams" against competitors and whistle-blowers and produce public, CIA-quality, investigation dossiers on each one. Make it a felony for anyone to hire a "kill service", "character assassination service" or "oppo service"!

**CONGRESSIONAL BUDGET:** Are you wondering why Congress can't get the Congressional budget approved? Because Nancy packed it with TWO TRILLION dollars of kick-backs that directly profit her, and her friends, stock market accounts! None of that budget is for you. It is all for lobbyists and insider trading schemes! A little political Cartel of California insiders coordinate together to rig political expenditures for their own personal benefits. You can see in their "stimulus bills" that almost no money goes to the public but, instead to big construction developers who finance those insiders. Congress should make a law that NO company that the Feinstein family, the Newsom Family or the Pelosi family owns stocks in can use any of the Stimulus Funds or benefit from those funds!

**THE PANAMA PAPERS AND THE GREEN CAR BOONDOGGLE:** You have probably heard of "*The Offshore Leaks*", "*The Panama Papers*", "*The Pandora Papers*", "*The Swiss Leaks*", "*The Sony Pictures Hack*", "*The Luanda Leaks*", "*The Bahamas Leaks*", "*The Paradise Papers*", etc. What you

might not know is that EVERY bank and international CPA firm has been hacked. Different state agencies, seeking to embarrass each other, have a leaking war going on. The public has only seen 10% of what the international journalists (Like ProPublica, ICIJ, Transparency International, The Guardian, etc.) have in their hands. The Government hired a team to build America's back-up energy plan "*in case the Middle East had problems*". The Government convinced them to invest years of their time and their life savings in this Government sponsored program. At the last minute, the government didn't pay what they had promised that team and sent the money, instead, to a White House political campaign financier oligarch. Federal and news investigators later discovered that the oligarch, and his staff, were sleeping with, giving jobs to and paying the White House staff that made all of the funding decisions. It was felony-class organized crime. What you can expect to see in the future is a set of material called "**THE ENERGY PAPERS**". ( [https://www.the-truth-about-the-dept-of-energy.com/the\\_energy\\_scam\\_papers.pdf](https://www.the-truth-about-the-dept-of-energy.com/the_energy_scam_papers.pdf) ) These materials document an organized-crime using taxpayer dollars to pay quid pro quo to politicians and their tech oligarch financiers. The papers document how bribes, payola and insider deals financed Solyndra, Ener1, Tesla, Abound and others. Elon Musk, Mark Zuckerberg, Eric Schmidt and Larry Page are exposed ordering hit-jobs" on competitors and maintaining covert business ownership's with U.S. Senators.

**FACEBOOK/META:** Because of what the "**THE FACEBOOK/META FACE-PLANT**" matter exposed; citizens are calling their elected officials and demanding that the Department of Defense and The Department Of Justice CUT-OFF **Facebook/WhatsApp/Instagram** from their global DNS servers until they **FULLY answer to Congress for their crimes and lies**. This Silicon Valley social crime operation has been proven to be a national security risk, a dire threat to our youth, **a bribery operator** and a threat to society as a whole! October 4, 2021 was the first day in modern human history that the entire planet was freed from the social stain that is the Facebook empire. University data scientists and forensic internet analysts were able to compare traffic manipulations on Oct 1., 2021, by Facebook's web manipulation and privacy harvesting gang, to the "clean" internet that uniquely existed on Oct. 4, 2021. **You can see the changes. You can see who was controlling what. You can see the fake user data stop...and start. The whole thing is rigged and the scientific facts now prove it!** The Congressional Senate Commerce hearings have further proved that FACEBOOK operates exactly like a **Mexican drug cartel** run by 'El Zucko' pushing addictive media and messaging to kids and vulnerable citizens in order to control global politics. Zuckerberg's "Tech Cartel" owns the U.S. Congress with billions of dollars of bribes and lobbyists. We have warned Congress and the agencies about these issues, in writing, since 2002 but **lobbyists seem to speak louder than justice! The facts prove that Facebook is one of the largest abusers of children in the world. FACEBOOK-META makes over one billion dollars, per day, for each day that they delay Congress from acting! If Osama Bin Laden and Adolph Hitler jointly owned Google and Facebook and Congress repeatedly called them in for hearings and at the end of each hearing they said "We made some mistakes but we will do better", would you ever believe them? Would you wonder how Congress could go for decades without stopping them? If you found Nazi gold bars and underage Afghan slaves in the closets of the Senators, would that better explain why Congress does nothing about Facebook And Google?**

---- The corruption is easy to prove with a simple spread-sheet but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet.

---- If you saw the spread-sheet that shows all of the covert family bank accounts, fake trust funds, shell companies and stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you can easily see how they only get a salary of \$190K per year but put hundreds of millions of dollars in their accounts that all traces back to special interest groups that tell them what laws to make and what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day.

---- WITH A COURT ORDER – WE CAN PRESENT DETAILED DOCUMENTS ACCOUNTING FOR EVERY CENT IN EVERY ACCOUNT THAT IS CONNECTED TO NANCY PELOSI, DIANNE FEINSTEIN, EVERY MEMBER OF THEIR FAMILY AND THE KICK-BACKS AND INSIDER TRADING THAT PRODUCED THOSE FUNDS!

---- These Senators have “rules” that delay investigations against themselves, though. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate! The 2008 and 2021 “Stimulus Funds” were just scams cooked up by politicians for them to skim stock market pump-and-dump profits off of and grab personal payola.

---- In all these corruption cases, these corrupt people took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading ( notice that most of these crooks marry an investment banker to run their dirty schemes) and 3.) getting government contracts, loans and grants for their friends that they get kick-backs from. They then had their dirty law firms and CPA's shove the money into their standardized covert financial structure to hide it.

---- They use family members to run the operation. Their dirty family members and lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc.

--- The 2008 and 2021 “stimulus funds” are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing ( FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians and their billionaires.

---- The cover-ups are off-the-charts!

---- these mobsters (Google, Tesla, Facebook, Linkedin, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (...via cash, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased

censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice and blockade our, and your, rights! There can be no question about the fact that Google, Facebook, Netflix, Tesla and the Silicon Valley Cartel control the Obama and Biden White House.

---- For example: Elon Musk ordered the politicians who are his bitches to sabotage his competitors. He gave those political insiders: cash, stock in his cartel, revolving-door jobs, campaign funding, sex workers, off-shore money laundering, and other quid pro quo. Eric Schmidt, Larry Page, Mark Zuckerberg, and the rest of the tech mob, all worked together on these crimes.

---- The hacks and leaks of their documents prove it. Government agency bosses are covering up these crimes to protect their jobs and their corrupt stock market holdings. Musk and Goldman Sachs have gotten over FIFTEEN BILLION DOLLARS of free taxpayer cash and monopolized exclusives to pay for Musk's drugs, sex parties and mansions. This is one of the largest violations of anti-trust laws in history. The politicians and agencies that are supposed to stop him are getting money from him. Musk exists entirely from quid pro quo bribes! Musk's banks, including Deutsche Bank, have had to pay more than \$100 million to settle charges related to violating anti-bribery laws and engaging in money laundering. While the Musk-controlled media bloviate on the god-like image of Musk, he and his buddies are just crooks and mobsters. -

--- It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk and his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists and bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) and Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave Musk over \$15B of free taxpayer money, 7.) get campaign financing from Musk, 8.) order government agencies to freeze funding for Musk's competitors, 9.) and engage in a vast number of other corruption and anti-trust crimes.

---- U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington and Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, and their families, from owning ANY stock market stocks or securities!

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

The corruption is easy to prove with a simple spread-sheet but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet. ---- INSIDER TRADING with layered stock market payola is the top bribe method for politicians, these days!

The social horror that 'Silicon Valley' became is just a bubble of social abuse waiting to burst. Let's count down the days until it finally implodes.

---- All Of Silicon Valley needs to be "KILLED OFF" without breaking a single law. They can never be fixed. It's easy to do with one simple, 100% legal, weapon: THE TRUTH! -

--- Said one Bay Area developer: "These crooks don't get to buy private jets, sex islands, multiple mansions, throw celebrity parties and buy hookers with MY money! If they are making big bucks off my technology, I get my percentage of what they spied on, copied and theived or they get exposed for what they are. I will bring the FBI, DOJ, CIA, FTC, SEC, FEC, FINCEN, 60 Minutes and Congress, along with my team, to help take them down..."

---- PAYBACK IS A BITCH FOR BIG TECH COMPANIES THAT USED THEIR BUSINESS FRONTS TO OPERATE: BRIBES TO CONGRESS, TAX-EVASION, SEX-TRAFFICKING, PATENT THEFT, ELECTION MANIPULATION, SHADOW-BANS, EMPLOYEE SEXSTORTION, OFF-SHORE MONEY LAUNDERING, STOCK MARKET MANIPULATION, BLACKLISTS, MONOPOLIES AND, WORST OF ALL, HIRED FUSION GPS, BLACK CUBE, IN-Q-TEL AND MEDIA MATTERS TO RUN ILLEGAL HIT-JOBS ON THEIR COMPETITORS! ISN'T IT INTERESTING THAT EVERY SINGLE ATTACKER HAS LOST BILLIONS OF DOLLARS IN STOCK VALUATION?

---- KARMA? PAY-BACK? HMMMMMM...???: BREAKING NEWS LINK: HA- HA -HA! THE EXACT SAME COMPANIES THAT STOLE SCOTT'S STUFF AND THEN VIOLATED HIS ANTI-TRUST PROTECTIONS ARE GETTING NAILED! KARMA - KARMA- KARMA! TECH VALUES CHOPPED AS PALO ALTO'S CORRUPT MEDIA EMPERORS FOUND TO HAVE NO CLOTHES ---- BREAKING NEWS LINK: How The Sick Pervert Billionaires Boys' Club Came To Dominate The Public Square And Rig Elections

---- STOCKS DEADLY UGLY AS SILICON VALLEY CARTEL TURNS OUT TO BE ALL HYPE AND NOTHING OF REAL VALUE

---- THE SILICON VALLEY MAFIA COORDINATE THEIR CRIMES VIA SAND HILL ROAD INSIDERS AND THAT VIOLATES RICO AND MONOPOLY LAWS!

---- Silicon Valley has had the largest number of Congressional hearings against it, the largest number of consumer complaints in American history BUT the least number of regulations imposed on it. Why? You can look no further than the covert ownership of Silicon Valley by elected officials. Our politicians get paid bribes, by Silicon Valley, to keep the political corruption alive-and-well while they operate, with impunity, as the biggest threats to society ever manifested.

---- Politicians protect Silicon Valley and allow them to keep doing crimes!

---- WHAT CRIMES ARE WE UPSET ABOUT SILICON VALLEY DOING?: Silicon Valley is producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other crimes! Why? Because crime pays...for corrupt U.S. Senators!

---- "EVERY SINGLE ENTITY THAT ATTACKED US HAS LOST A MINIMUM OF A BILLION DOLLARS OF STOCK MARKET VALUATION OR GONE BANKRUPT...." -

--- YOU CAN KILL ANY CORRUPT ENTITY WITH: "THE TRUTH"!

---- In the Age of Transparency, also known as The Great Disruption. Many document leaks have taken place, and more are expected, with particularly shocking data. The public has now become way more savvy about information tools. This nexus of factors has created a new reality.

---- As billionaires and super-corporations become more prolific, their hubris, tone-deafness, and egotistic excesses seem to increase. -

--- In this new age of equal access to all information, every member of the public now has access to the same investigation resources that the FBI and CIA have. Over 2000 online service providers will track down any crime, at any corporation or in any billionaire's portfolio. You can, now, easily, hunt down the hookers, criminal expense accounts, tax evasion shelters, abuse of funds, insider trading, political bribes, mistresses, and other corporate mis-deeds of each and every executive at a company.

----The lesson to the wise: If you are a cocky billionaire, or corporation, one week; you can now be an out-of-business corporation, or billionaire, the next week. Be honest, legal and moral and you won't get the axe.

----- BY THE WAY: ATTACKS AND CENSORSHIP BY GOOGLE-ALPHABET-YOUTUBE: We have placed more software sensors on more server networks globally than anyone else has ever announced. When Google-Alphabet-YouTube Shadow Bans, DNS re-routes, Hides, Demonetizes, Search Manipulates, Server Table Edits, Censors, Election Rigs, SEO limits, etc; our links, we record it, document it technically and report it to every regulatory and publishing group in the world. We also compile the data into evidence for lawsuits against Google and each Google executive. Our insiders work at the deepest levels of their operation. It isn't nice to mess with Mother Nature or Freedom Of Speech. It's worse to run tax evasion, sex trafficking, dark money funds, real estate fraud and other crimes from inside Google! -

--- Our autonomous monitoring applications are on a vast number of co-location servers, shared hosting ISP's, stand-alone servers and sites around the world and have been operating for over ten years. We log: 1.) Google's search results compared to other search engines, 2.) Google's DNS

and spoofing activities, 3.) Google's results on 100 key search terms including search terms of assets, candidates and business associates connected to Google (ie: "Obama", "Elon Musk", "Election Results", etc.), 4.) ## **ELON MUSK AND TESLA MOTORS FRAUD, STOCK RIGGING, BRIBERY AND SAFETY INVESTIGATIONS**

Elon Musk's toxic battery fires, spaceship exhaust, private jet vapors, toxic battery factories and battery chemical mines have caused over 1000 times more environmental damage than all of the minimal "green" values he has hyped, combined.

The CIA, FBI, FTC, EU and other agencies have been studying Elon Musk and the effects his strange government windfall financing has had on world economic and geopolitical events.

While some news outlets portray Musk as a man *"...raised by a racist escort mother, that Musk desired sexually, and a hateful father who killed a number of black's in South Africa and impregnated his own daughter..."*; the psychological profile of Elon Musk is more complex and severe.

Musk has been diagnosed with a buffet of psychological defects. Musk is predominantly driven by a desire to impress his mother and to show his abusive father that he is as good as Musk says he is.

Musk is a consummate liar who will rationalize every lie, when caught, with a "what I really meant was this" tactic.

## **ELON MUSK SPENDS BILLIONS ON HYPE PR TO COVER UP THESE FAILURES OF HIS:**

### **Elon Musk's Biggest Tech Failures That No One Talks About**

Elon Musk, at times the world's richest man, is certainly one of its most discussed. After making a name for himself at PayPal, he would go on to buy his way into the already-established Tesla Motors company, becoming an industry leader in electric vehicles. Unable to be constrained by Earth or its gravity, his next venture was SpaceX, and Musk became a leader in private space exploration.

For years, Musk was hailed as a "*visionary*" (A term Musk pays reporters to say about him) who would help end the era of fossil fuels and might even propel humanity to other planets. He was even a partial inspiration for the character of Tony Stark in the Marvel Cinematic Universe, to whom he has often been compared.

But with wild success comes wild failure, and Musk's past is riddled with it. From being forced out of his own company to costly business mismanagement, and even seeing his creations crash or explode, here are Elon Musk's biggest tech failures that no one talks about. Musk will change his politics at the drop of a hat, depending on which party he can get the most cash from.

## **He was fired from PayPal**

One of Elon Musk's earliest successes came with the financial services website X.com, which he founded by investing the money he'd made from his first company, Zip2, after it was purchased by Compaq. Musk founded X.com in 1999, and the company merged with tech vampire Peter Thiel's Confinity, which offered a money-transfer service called PayPal, but the combined venture retained the name X.com (via The Verge).

But there were stormy seas ahead for Musk. In September 2000, while Musk was on honeymoon with his first wife, Justine, a collection of employees at PayPal, dissatisfied with Musk's leadership, threatened to resign if Musk didn't step down as CEO. Executives delivered a vote of no confidence to the board of X.com, forcing Musk out and replacing him with Thiel. After Musk's departure, the company was renamed PayPal, and Thiel would later go on to sell it to eBay for \$1.5 billion (via The New Yorker).

It was a rough early blow for the entrepreneur, but in the coming years, it would barely be remembered as a speed bump on his road to riches.

## **He waged war against Tesla whistleblowers**

One of the least discussed but most revealing chapters in Musk's history came in 2018 when a Tesla assembly worker named Martin Tripp noticed some concerning things at Tesla's Gigafactory in California. Tripp identified a number of wasteful practices in production, so he brought his concerns to Musk, who proved unreceptive.

Tripp next brought internal Tesla documents to Business Insider, but in response, Musk waged war against the leaker, as detailed in a bizarre and harrowing Bloomberg investigation. He fired Tripp, then sued him for \$167 million. He hired private investigators who tailed him in person and hacked his phone to see his texts in real-time. And, on his alleged orders, Tesla's security team passed along a "tip" to police claiming that Tripp was planning to commit a mass shooting at the factory. The SWAT team deployed to Tripp's house found him unarmed and sobbing.

Aside from being, to put it mildly, a bit of an overreaction, Musk's enraged response to Tripp's whistleblowing is a major failure for a tech CEO overseeing his own factory. As noted by CNBC, companies that are responsive to whistleblower concerns are ultimately more profitable in the long run. And, as we shall see, this would not be the last time Musk paid a price for ignoring the concerns of his workers. Musk has hired Nick Denton's tabloid empire of Gawker, Gizmodo, Jalopnik, etc. to attack and destroy Musk's competitors and disfavored politicians.

## **Under his management, Tesla covered up safety violations, workplace injuries, and racism**

In 2019, Forbes found that Tesla had been investigated by California OSHA 24 times between 2014 and 2018 and was fined for 54 violations. One worker lost a finger after his glove was caught in a torque gun. There were eight investigations at Tesla's Tennessee factory with five violations found, and the one in Kentucky was investigated 13 times with four violations issued. In 2020, the Los Angeles Times reported that Tesla had covered up hundreds of factory-related injuries since 2015.

Then, a judge ruled in April 2022 that Tesla must pay out \$15 million to a Black contract worker who was systematically discriminated against inside the company (via NPR). And in July of that year, fifteen Black employees, both former and current, filed a lawsuit alleging they were racially harassed with slurs, compared to chattel slaves, and assigned to the most physically exhaustive labor while being passed over for promotions (via Al Jazeera).

Given Elon Musk's iron grip over his companies, noted by outlets like The Guardian, the buck stops with him. When factories are this chaotic, is it really surprising we have yet to see deliveries of the Tesla Roadster or Cybertruck?

## **Under his management, a shocking number of SpaceX rockets have exploded**

After Tesla's success in the years after Elon Musk bought his way into the company, the billionaire's next venture left the road behind in favor of the stars. SpaceX, the private, Musk-controlled spacecraft and satellite manufacturer has become one of the leaders in space technology and was even the first private company to develop a liquid-propellant rocket that achieved Earth orbit when it launched the Falcon 1 in 2008 (via NASA). But despite its successes, a surprising number of SpaceX rockets have gone down in flames — according to the New York Post, at least 10 rockets have combusted between 2014 and 2021.

Indeed, many of SpaceX's rockets have become nothing more than incredibly expensive fireworks, such as a Falcon 9 that exploded over the Atlantic Ocean in 2015, costing the company an estimated \$112 million according to Futurism. As reported by Reuters, another Falcon 9 carrying cargo bound for the International Space Station combusted two minutes after liftoff that same year. And among the most spectacular failures was a Falcon 9 rocket that exploded on the launch pad, a failure so mind-boggling to Musk that he — according to The Washington Post — investigated it as a case of sabotage.

At times, these technological failures can even present a threat to those of us who are terrestrially bound. According to The Guardian, in August 2022, two Australian farmers found debris from a SpaceX crash on their respective properties.

## He got in trouble with the FCC over rigging Tesla stock prices

Elon Musk has always considered himself a bit of a troll, and nothing tickles his posting syndrome more than a weed joke. But in 2018, Musk's stoner antics backfired when he made what may just be the world's costliest 420 joke. On Twitter, the billionaire posted, "considering taking Tesla private at \$420 a share." Laughs were had. Yuks were yukked. And then the Securities and Exchange Commission (SEC) got involved.

Musk's proposed share price may have been intended in jest, but he seemed serious about taking Tesla private, and his announcement, which suggested a valuation 11% higher than the current trading price at that time, caused a sudden spike in Tesla's stock prices and trading was halted by Nasdaq (via CNBC). The SEC charged him with civil securities fraud. Investors sued, and a judge ruled that Musk had made intentionally false statements; he had been lying, to begin with (via CNBC). It wouldn't even be the last time he messed with Tesla stock.

In 2019, Musk settled with the SEC, landing on an arrangement that included personally paying \$20 million — pocket change for a man like Musk — and agreeing to have any tweets about Tesla vetted by the company's legal counsel before posting them, as reported by Reuters. Though it was regarded as a slap on the wrist by experts, Musk filed to kill the SEC deal in 2022, accusing the regulating body of violating his free speech (via Reuters).

Clearly, Musk is still chafing against the consent decree, but if there's one thing American businesspeople know, it's that regulators never take kindly to defrauding investors.

## **Under Musk's management, over 270 Tesla vehicles crashed on Autopilot in one year**

While many of Elon Musk's technological failures represent setbacks for his companies or for himself, personally, others have had much more dire consequences. Nothing is more representative of that fact than the staggering number of Tesla cars that have been involved in crashes while in Autopilot mode. Between June 2021 and June 2022, a staggering 273 Teslas were involved in crashes while in Autopilot mode, accounting for almost 70% of crashes that involved driver-assistance systems according to the National Highway Traffic Safety Administration.

Tesla's Autopilot is, despite what its name suggests, not meant to drive the car fully autonomously. Rather, it is a suite of driver-assistance features that help the vehicle maintain speed, make safe lane switches, and the like. Although a beta of "Full Self Driving" mode is available on some models, it is not reliable enough to allow drivers to divert their attention from the road. But that doesn't stop some Tesla drivers from doing so anyway, perhaps trusting Musk's exaggerated promises about the technology (via The Verge). When that technology fails, the results can be deadly, which is probably why other auto manufacturers avoid such hyperbole about their own vehicles' self-driving capabilities.

## **He brought Tesla and SpaceX to the verge of bankruptcy**

As the head of two companies that manufacture, respectively, automobiles and rockets, tech issues can be costly. And as the head of both Tesla and SpaceX, both companies came dangerously close to the precipice of bankruptcy under Elon Musk's leadership.

In the case of Tesla, the issues came while the company was in the production of its Model 3 electric sedan. As reported by CNBC, Musk shared on Twitter that, from mid-2017 to mid-2019, Tesla was within a month of bankruptcy as production on their vehicles stalled. The CEO named "production and logistics hell" as the culprit.

Then, in 2021, SpaceX nearly exploded into financial flames like a failed rocket launch. The problem was, similarly, production issues with its Raptor rockets. In a companywide email obtained by CNBC, Musk warned his employees at the space technology firm, "The Raptor production crisis is much worse than it seemed a few weeks ago. We face genuine risk of bankruptcy if we cannot achieve a Starship flight rate of at least once every two weeks next year."

Ultimately, both companies overcame their technological difficulties, and their respective near bankruptcies became another in a long list of Musk's least publicized failures.

## **His Starlink satellites became Russian and Chinese military targets**

Russia's invasion of Ukraine has dominated the 2022 news cycle, and Elon Musk plays a surprisingly key role in the ongoing conflict. Starlink satellites provided by SpaceX formed the backbone of Ukraine's communications network, helping its armed forces and civilians as Russia pummeled the country's ground infrastructure. The satellites were subsidized by the United States, though as The Washington Post suggests, SpaceX representatives have framed it as a charity operation.

Aside from their invaluable role in Ukraine's communications, the besieged nation uses the satellites provided by Musk's company to photograph Russian military deployments, review damage done to its enemy's air bases, and even provide grim evidence of mass graves in Russian-occupied territory (via Axios).

In September 2022, the Russian delegation to the U.N. General Assembly released a statement promising that "quasi-civilian infrastructure" could be a "legitimate target" if Ukraine continues to use them, almost certainly referring to SpaceX's Starlink Satellites, according to Futurism.

But as dire as the situation was, it was about to escalate due to Musk's own actions.

## **He threatened Ukraine but was forced to back down**

In October 2022, as the Russo-Ukrainian war waged on, Musk abruptly threatened to cease funding the use of Starlink satellites by Ukraine, as reported by The Washington Post. Given the nation's heavy reliance on those satellites for its war efforts, such a move would have crippled Ukraine's defenses and provided a major tactical advantage to Russia.

Even more shockingly, the threat seemed to be a response to a Ukrainian ambassador who insulted him on Twitter. After Musk ran a Twitter poll suggesting the conflict be ended via a UN-supervised vote, and that the contested Crimea region remain part of Russia, Andriy Melnyk, Ukraine's ambassador to Germany, told Musk, "F— off is my very diplomatic reply to you." Shortly after threatening to cut Ukraine off from the Starlink network, Musk tweeted, "We're just following his recommendation."

But only a day later, Musk rescinded his threat, promising to continue funding with a bitter tweet that read, "The hell with it ... even though Starlink is still losing money & other companies are getting billions of taxpayer \$, we'll just keep funding Ukraine govt for free" (via The New York Times). The Times speculated that Musk's about-face was in response to international rebuke for his threat, and noted that SpaceX had only donated 3,000 satellites to the Ukrainian effort, while the United States, the United Kingdom, and Poland footed the bill for almost 17,000.

The incident was a bizarre instance of a tech company becoming mired in international geopolitics, and the world may never know how close Musk came to handing Russia its desired annexation of Ukraine.

## **His management of Twitter is predicted to result in the loss of 32M users**

While Twitter wasn't exactly in peak shape before Elon Musk took the reigns of the social media platform, his management since then has been chaotic to say the least, and market analysis now suggests those mistakes may be costly.

As SlashGear recently reported, market research firm Insider Intelligence is predicting a loss of 32 million Twitter users by 2024 due to Musk's layoffs at the company and a declining public perception of Musk himself. According to the report, Twitter's vastly reduced workforce will likely struggle to address technical issues, leading to user frustration and, ultimately, attrition.

Additionally, the report cites a proliferation of hateful content and a personal distaste of Musk as another reason users may choose to abandon the platform, a concern raised by other tech experts. As Nilay Patel at The Verge pointed out in an opinion column shortly after Musk marched into Twitter HQ with his sink in tow, social media may contain inbuilt mechanisms that help to proliferate extreme content, but users generally like their experiences to be pleasant.

As of this writing, Musk is in the process of suspending notable journalists from the platform, ostensibly for violating a new policy by posting the publicly available flight data of his private jet, which Musk claims is a personal safety risk. But while it's not clear how many of those journalists did so, many appear to have been critical of the "chief Twit" (via CNBC). In the immediate aftermath, many more media figures have declared their intention to leave Twitter for good. According to The Washington Post, Musk may also face sanctions from the European Union.

While the dire long-term projections are not the subject of widespread discussion, the decline of Twitter would be Musk's most visible tech failure yet.

Any homeless person could have done everything that Elon Musk has done if they too were handed billions of taxpayer dollars, tax free perks, thousands of investment bankers and outside engineers and the exclusive favors of The White House. Musk has never built a car or a rocket. He has invented nothing and has only taken the innovations of others. His cars and rockets blow up; he tortured huge numbers of animals for his 'brain chip' experiments; his hole making company is ridiculous' his father is a pedo, blood mineral exploiter and incest violator; his mother was an escort, and his brother is a scammer. He is part of Jeffrey Epstein and Steve Jurvetson's sex ring. He is a mobster. His whole family is a pack of racist, perverted, privileged assholes.

All of the 'glowing' news articles about him that ignore his lies were paid for by Musk's PR staff. Feinstein and Pelosi own Musk assets and rig Congress on his behalf for their own profits. SpaceX is never going to Mars, that is just a smoke-screen tale to hide the fact that all SpaceX does is satellites that spy on people. Musk gets so many girls pregnant because he subscribes to the Deep Breeder scheme of Jeffrey Epstein. Musk is a narcissistic, drug abusing, sociopath that hires In-Q-Tel and Black Cube to attack others. His Tesla Cars have more safety defects than any car in the world. Obama shut down part of NASA, fired NASA staff and then gave that same part to Musk as political quid pro quo. His controlled news articles only talk about the few things that have worked and ignore the thousands of Musk things that have failed horrifically. Google and Musk are partners in stock market rigging and information manipulation.

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

# How Musk Destroyed The Electric Car Industry

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

## **You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of his hype-coin. Here is who Elon Musk really is:**

We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this report can be proven in a jury trial, Congressional hearings or live TV debates.

Musk will do anything to keep this information from getting out but... it is too late for him!

While Musk's dirty deeds sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs. The payola between Musk, his scummy cronies and the politicians included:

Billions of dollars of Google (Where Musk's boy buddy Larry Page works), Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

## INSIDE THE MUSK CORRUPTION OPERATION

The U.S. Energy Dept (DOE) has been covering-up organized political crime activities in which government funds are being used as a slush-fund to pay off political campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors.

Political campaign financiers and government agency staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts.

The Musk scam-deal was: *"Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks..."*

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues. Musk has been professionally diagnosed as a 'psychotic narcissist. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

Extremist politicians and their controlled news outlets refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

Investor oligarch's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.

Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk.

In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.

The 'Silicon Valley Mafia'; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals

involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla

crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

# **ELON MUSK AND HIS CRONY STOCK MARKET SLUSH-FUND PAYOLA**

- Why We Know That Elon Musk Is A Criminal

By Susan T. and Andrew H.

We saw Elon Musk commit crimes and we saw the Obama White House cover-up those crimes.

We, and our associates, worked for Bright Automotive, Zap Electric, Aptera, Eco Motors, XPV, The United States Department of Energy and the federal Office of Management and Budget and Tesla Motors itself.

Americans have an expectation that their tax dollars will be used in a fair and legal manner and not to pay off crony campaign financiers like Elon Musk. Americans have an expectation that fair market competition will decide which companies get to live or die and that no campaign financiers gets to order the White House to produce the death or success decision about any American business. Elon Musk's operation exists entirely because of criminal corruption and all of his companies must be shut down by federal law enforcement.

For nearly a decade, the U.S. Department of Energy has refused to comply with Freedom of Information Act (FOIA) requests for copies of Tesla Motors entire D.O.E. funding application documents. Former D.O.E. employees have shredded copies of those documents in order to keep them from being exposed to the public and the media. Why would they do that? Because those documents reveal felony criminal fraud by Tesla Motors, federal violations of the Section 136 law requirements and manipulations of the "hard-wiring" of the entire D.O.E. program. Those documents, which we have seen (and some Senate staff have private copies of) prove that, in a side-by-side comparison with all other applicants, the Tesla application was manipulation, rigged, false-reviewed and crony-advanced in order to pay-off certain campaign financiers and damage their competitors. Tell the U.S. Congress to demand that the U.S. Department of Energy stop breaking the law and comply with the FOIA requests to stop hiding the incriminating evidence in the Tesla files. Demand that the public be shown the original paper and not the later, "doctored" versions.

We saw Elon Musk operate an entirely illegal and unethical program based on State and Federal corruption. We told this, in writing and in person to the U.S. Attorney General: Eric Holder, who then quit his job after we reported these facts to him.

We reported that Elon Musk lied about vast number of dangers of the lithium ion chemistry he was using. Nothing was done.

We reported that our associates at the Department of Energy were having their safety reports on

lithium ion danger suppressed. Nothing was done.

We reported that Elon Musk's credit rating and financial records were fraudulent and amounted to "cooking the books". Nothing was done.

We reported bribes paid by Musk's lobbyists and associated to government officials in order to grease the skids for his crony payola. Nothing was done.

We reported that Goldman Sachs and Tesla Motors were operating a stock fraud pump-and-dump scam to manipulate Elon Musk's stock holdings. Nothing was done.

We reported over a hundred illegal and corrupt actions by Elon Musk and his mob of Silicon Valley gangsters. Nothing was done.

## **TESLA MOTORS: CREATED BY CORRUPTION, BRIBES AND LIES!**

- DEMAND THAT A FEDERAL SPECIAL PROSECUTOR REVIEW ALL OF THESE CHARGES IN A PUBLIC HEARING!

\*\* If you have an ounce of morality, then you will not want to help Musk & Tesla profit from the crony political corruption that created them. Musk exists because he bribes politicians & acts as an illegal campaign financing conduit.

\*\* DOT/NHTSA has covered up years of reports about an acceleration surge issue that can suddenly crash your Tesla into walls and drive it off cliffs. It is either a known hacking attack or the effect of WiFi on Tesla electronics. Either can kill you.

\*\* Musk & Tesla are pure evil & exist because of hyper-corruption. You don't want to contribute to their evil or be part of it in any way. You are funding evil & supporting criminal corruption by buying a Tesla or any Elon Musk owned product like Solar City, Tesla, Space X, Hyperloop, etc.!

\*\* Elon Musk spent more money, than any other car company in history, to do the exact same things that any other car has done, or could do, for 20 times less money. Musk's Tesla was \$100,000.00 over budget, per car, at the time that Musk was handed his crony Dept. of Energy funds by Steven Chu. Musk has no clue how to operate a car company.

\*\* In one lawsuit it is noted that: "...Plaintiff and Tesla both applied for funds at the same time, in the same funding cycle in the same program. Tesla had the historically epic number of horrific issues listed below, which were known to DOE at the time of application, and Plaintiffs had NONE of these issues. How can any court, or rational person, believe that Plaintiffs were not intentionally bypassed, targeted and damaged for political reasons while Tesla was simultaneously approved for political reasons, when the comparative metrics between the two applicants prove the largest merit disparity in the entire recorded history of the U.S. Department of Energy....the singular, and only, review criteria used by Department of Energy officials was: WHICH ONE BRIBED THE CAMPAIGN FINANCE GROUP FOR BARACK OBAMA?!"; Thus proving that Tesla exists because of organized-crime level political corruption.

\*\* Elon Musk's self-driving "autopilot" feature, which keeps crashing and failing, is his attempt to scam taxpayer cash from Dept. of Transportation and Dept. of Energy public funds. He is only trying to do it to get more free federal cash.

\*\* The inventor of lithium ion batteries has confessed that lithium ion batteries blow up eventually. He says that deadly dendrites plague lithium-ion battery technology. The dendrites accumulate as part of the standard charging and recharging cycle and eventually cause a short circuit that often results in a smoldering or burning battery. These dendrites are destined to eventually blow up most Tesla cars and many electronic devices using lithium ion!

\*\* The CIA's software designed to take over any Tesla on Earth and kill the driver, passengers and

bystanders has been released in the wild and every hacker on Earth can now easily get a copy of it and kill you in your Tesla!

\*\* Ex-employees have leaked faked financial records, evidence of massive click-farm fake social media manipulation and evidence of unreported deaths and accidents. They say that most Tesla's have one kind of defect or another.

\*\* If you read about the dirty deeds and cocaine dealings with the In-Q-Tel airplanes called "Cocaine 1" & "Cocaine 2", & the corruption behind the company called In-Q-Tel & Musk's software programmer who ran "The Silk Road" drug & murder service then you must be concerned that many In-Q-Tel people work for Musk. Why does Musk need dirty druggies & spies on his payroll unless he is running covert drug and business spying activities?

\*\* Ex-employees, Gawker writers and gay lawyers from Covington & Burling have leaked stories that Elon Musk, Reid Hoffman, Larry Page are "butt buddies".

\*\* Musk is anti-American and Anti-Worker Rights and has been caught flying in H1-B cheap offshore labor and exploiting immigrants for his deadly profits. Musk hates unions and worker rights efforts.

\*\* Elon Musk gets the Cobalt chemical to make his lithium ion batteries from slave trade and blood-money corruption in the Congo!

\*\* The lithium ion batteries that Musk uses also blow up when they naturally encounter Low Energy Nuclear (LENR) effects in the ambient environment. Millions of chemicals don't blow up from LENR'd but lithium ion does!

\*\* If you are a Democrat then know that Elon Musk cost you the Hillary Clinton campaign because of his payola schemes. If you are a Republican, know that Elon Musk is the epitome of the worst form of DNC crony corruption you ever saw!

\*\* Musk bribed California politicians to give him hundreds of millions of dollars of taxpayer dollars & resources he never earned or worked for. He only got those crony payola perks handed to him because he operated as an illicit front for corrupt campaign financing for Dianne Feinstein, Jerry Brown, Harry Reid, Barack Obama and Hillary Clinton.

\*\* Multiple parties have filed "Demands For The Arrest of Elon Musk" with the FBI, DOJ, AG, FTC, SEC and other law enforcement agencies. It is not likely that Musk, or his companies will survive a full investigation.

\*\* Tesla and Solyndra sit on the same land in Fremont, CA. Solyndra was raided by the FBI for corruption. Tesla SHOULD be raided by the FBI for corruption. Both companies had kick-back crony payola schemes with Senator Dianne Feinstein. She owned the land, lease, HR, construction company and supplier interests and stock for both companies in one of the most massive conflict-of-interest crony financing schemes in U.S. history. Elon Musk and the Feinsteins are corruption partners.

\*\* People who see you in a Tesla think of you as a "Tone Deaf Douchebag", "Tesla Tool!", "Arrogant

Prick", "Ostentatious Obama Oaf", "Sheep", "Mindless Yuppie Scum", "Misogynistic Silicon Valley Clone", "Self-promoting Elitist Douche", "Fake News Reading Main Stream Boob", "Naive Idiot" or other bad things.

\*\* Elon Musk is one of the main financiers behind Barack Obama & Hillary Clinton, both of whom have been charged with corruption. Musk endlessly tweets lies & "...No I didn't do those bad things" BS but nobody else supports him.

\*\* Tesla financial records are "cooked" in a fraudulent manner to make the stock market valuation of Tesla a falsely manipulated factor. Musk uses "pre-orders", by his own investors, to fake sales and wrote emails to customers asking them to put small deposits down so he could book them as fully paid sales in one of a large number of stock and loan valuation frauds. Musk and his investors practice stock market skims, pump-and-dumps and Flash Boy manipulations.

\*\* Lithium ion batteries are blowing up, starting fires &, generally, destroying people's homes, cars, electronics & physical health. Boeing was ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously. A group of silicon valley venture capitalists forced/leveraged the government to buy & pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about the dangers from day one, but put greed ahead of safety. There are thousands & thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's & the Senators they bribed own stock in lithium mining companies too. HERE IS THE PROOF:  
[HTTP://LITHIUMBATTERYCOVERUP.COM](http://LITHIUMBATTERYCOVERUP.COM)

\*\* Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer: "Thermal runaway is of major concern since a single incident can lead to significant property damage &, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, & sufficient heat to lead to the combustion & destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke & fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked". See <http://whoiselonmusk.com> for more...

\*\* Tesla's own staff, & every fire department, have now admitted that once a lithium ion fire gets started in a Tesla, that it is impossible to extinguish burning lithium ion material. This is Telsa's

own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can “go thermal”, start a chain reaction and blow up all of the rest of the 6800+ deadly batteries! Tesla drivers have been burned alive in thermal globs of flaming lithium ion, plastics & metal. Bystanders have heard their horrific screams of unutterable pain & terror as they were burned alive! Tesla fires can't be extinguished & the bodies are burned into “unrecognizable lumps of charred flesh”, according to fireman.

\*\* Lithium Ion batteries “go thermal” in peoples pockets, in your notebook, especially in a Tesla & Fisker car. There are tens of thousands of articles documenting this & there is a cover-up by the VC's that fund these things to keep this fact out-of-sight. Making Lithium Ion batteries poisons the workers who make them. It is a dangerous product that is covered-up by the Obama Administration. Panasonic knows that these batteries are deadly.

\*\* Tesla only exists to exploit Elon Musk's bribes. The lithium ion batteries blow up when they get: wet, hot, bumped, over-charged, struck by energy fields, exposed to air or squashed. Lithium ion batteries poison the Earth & that they poison & kill the workers that make them. Lithium ion batteries come from war profiteering in Afghan & Bolivian corruption.

\*\* Panasonic is Elon Musk's partner. Panasonic is one of the most corrupt companies in the world. Panasonic has been charged, on multiple continents with: Product dumping, bribery, collusion, price fixing, anti-trust law violations, racketeering, worker abuse, toxic poisoning of workers, & other crimes. It is no wonder that Elon Musk & Panasonic are partners. Tata Motors executive Karl Slym was killed for exposing this fact.

\*\* Your tax dollars were stolen in order to make Tesla Motors, as part of a political financing kick-back scam. In other words, part of your paycheck was taken away from you in order to buy hookers, rent-boys & private jets for Musk & company.

\*\* Tesla's are forged in criminal corruption, so anybody who drives a Tesla must be either ignorant, a weasel or one of the corrupt. The whole world now knows all of the facts in this list so you can never plead ignorance to these crimes.

\*\* Tesla's have a huge amount of highly documented defects. The defects are so extensive that Tesla made buyers sign confidentiality agreements to try to hide how messed up their cars are.

\*\* Tesla's have killed more people than the main-stream news has reported. The full Tesla death-list is covered up.

\*\* Musk lied about why he wanted to make electric cars, when, in fact, he actually poisons the environment because Tesla investors wanted to exploit toxic minerals & materials which can't be recycled in a clean manner

\*\* No other electric car has been so mundane, & yet had so many problems with it, since the electric car was first sold in the 1800's. There is nothing “novel” or “amazing” about the Tesla aside from dime store parlor tricks for PR hype.

\*\* More drunks have crashed Tesla's, than any other per capita car in the world, per volume of cars made

\*\* Elon Musk's co-founders, investors, partners, wives, investors, suppliers & employees have sued him for being a fraud &, essentially, called him an "asshole" in court records.

\*\* Elon Musk lied on this Department of Energy funding application and the Obama Administration refuses to allow any federal employees or witnesses to testify to these facts in public due to the devastating potential results of these facts.

\*\* More owners of Tesla's have been found to cheat on their taxes, & be involved in abuse-based divorces, than almost any other car brand owner. Tesla owners are bad people who rationalize their poor life choices. Owning a Tesla is a red-flag for a tax audit!

\*\* Elon Musk will lie, cheat & steal in order to self-aggrandize & glorify his egotistical mania. Musk has been documented engaging in over 100 lies which were later proven to be false. He has spent tens of millions of dollars to buy fake news about himself on Twitter, Facebook & Google because he is such a mentally disturbed ego-maniac.

\*\* None of Elon Musk's companies would exist if not for taxpayer funded handouts given to him by corrupt politicians in exchange for illegal campaign finance deals with him & his investors.

\*\* Google, & Tesla, who are financial & political partners, have both been caught spying on consumers & manipulating Internet data in order to cover-up their complicity in huge political corruption & kick-back deals

\*\* Musk took U.S. taxpayer dollars from the government & then hired cheap off-shore labor & fired U.S. Union workers & domestic workers. He lied to & screwed the NUMMI workers that were working at the Fremont plant.

\*\* Musk has put over 18 surveillance devices in the Tesla. Anybody can hack those devices & monitor you. WORSE YET, foreign agents have hacked the Tesla & taken over the controls & driven Tesla's into bystanders & over cliffs.

\*\* When Erick Strickland was head of the NHTSA he was confronted about DOT safety cover-ups of the Tesla to protect Obama. He quit 48 hours later. The DOT safety cover-ups to protect the Obama campaign finance payola scheme continue to this day. Obama's Gibbs, Emanuel, Plouffe, Axelrod and Carney quit within a week of being threatened with exposure.

\*\* Tesla's have had a large number of recalls but Elon Musk refuses to call them "recalls". Tesla's have had multiple recalls for SEVERE safety dangers. DOT has been told this, in writing, for years, but wont take action in order to protect Obama.

\*\* Elon Musk is a bullshit artist who has no original ideas & wears black-turtle neck shirts (like Elizabeth Homes) to try to create a "cult" around himself & convince the world that he is a "Jesus-like" figure when, in fact, he is a clinical sociopath.

\*\* Tesla is a severe public safety hazard that has been systematically covered up by corrupt politicians.

\*\* Large numbers of Ex-CIA staff and In-Q-Tel spy staff work for Musk. Why does he need spies to build cars?

\*\* Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields. Kleiner Perkins and Draper Fisher hyped the "...trillions of \$ of lithium in Afganistan."

\*\* Tesla Motors batteries blow up on their own.

\*\* Tesla Motors batteries blow up when they get wet.

\*\* Tesla Motors batteries fires cannot be put out by any common fire-fighting resources.

\*\* Tesla Motors batteries set themselves on fire.

\*\* Per Federal MSDS disclosure documents, Tesla Motors batteries emit cancer-causing vapors when they burn.

\*\* Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, & environments where such incidents occur.

\*\* Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper.

\*\* In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive.

\*\* Tesla has multiple sexual harassment and unsafe work-place lawsuits against the company.

\*\* Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn.

\*\* Tesla is a stock pumping scam to profiteering on stock market peak manipulation at the expense of taxpayers.

\*\* Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus.

\*\* Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage.

\*\* Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage.

\*\* Per published lawsuits & news reports, the factories that make Tesla Motors batteries have been charged with the deaths, & potentially fatal illness, of over 1000 workers & the poisoning of nearby towns.

\*\* Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards & Tesla's. The chemistry in a lithium ion battery

changes to become more unstable over time.

\*\* Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible.

\*\* Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants.

\*\* Elon Musk's Space X vehicles & Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR.

\*\* Leaked Sandia National Labs & FAA research videos dramatically demonstrate the unstoppable, horrific, "re-percussive accelerating domino-effect" explosive fire effect of the Tesla Motors batteries.

\*\* Tesla's own "Superchargers" & home 3-prong chargers have set Tesla's, homes & businesses on fire.

\*\* Consumer rights groups contacted Erick Strickland, the head of the NHTSA, & charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests & lobbyist bribes, from Tesla, which got the investigation shut down.

\*\* NEPA regulations for the Tesla NUMMI factory in California & the Nevada Tesla "Gigafactory" have been violated relative to environmental safety standards. See <http://xyzcase.xyz> for details.

\*\* Tesla Motors vehicles are not "Factory Built" "like Ford" builds cars, as Tesla professes. They are hand built in small volumes & subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing.

\*\* Tesla's "showrooms" are often "pop-up" retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage.

\*\* Tesla Motors vehicles have been hacked & taken over. Their doors, steering, listening devices & navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved off the road, over cliffs & into other vehicles, killing bystanders & Tesla drivers.

\*\* Three Tesla top engineers & two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day.

\*\* Multiple employees, founders, investors, marital partners, suppliers & others have sued Tesla Motors, &/or it's senior executives for fraud. Musk had nothing to do with creating Tesla. He ran a hostile take-over of Tesla from the founders.

\*\* In addition to suing him, many of his former staff & partners have described Musk as an "Arrogant Prick".

\*\* Main-Stream Media (MSM) have agreed not to provide news coverage of the deadly defects of the Tesla because the MSM are owned by the same politicians who own Tesla Motors. It is now legal to sue The New York Times for hiding these deadly defects, though, particularly if your family member was injured or killed because they covered-up the danger for political reasons.

\*\* If you think the above bullet-points are bad there are over a 1000 more. Find the book "Is Elon Musk A Fraud" online or visit <https://stopelonfromfailingagain.com/> or thousands of other sites that expose the truth about Musk & Tesla!

BANKRUPT MUSK – NO CASH FOR CRONY CORRUPTION. Print this out & freely re-post it on blogs & social media. Post this on bulletin boards. Put this on the windshield of every Tesla you find. Print this out & hand these out in front of every Tesla dealership: Nobody can stop you from handing these out, it is your U.S. Constitutional First Amendment Right! Pass the word! We are prepared to back up every single fact on here at any public meeting with the FBI, Congress, FTC, GAO, SEC or before a Federal Special Prosecutor.

The crash of a Tesla Model X through the home of South Korean singer and actor Ji Chang Son. The crash ended with the nose of the vehicle in Ji Chang Son's living room after the Tesla malfunctioned. Hundreds of such Tesla crashes have occurred, resulting in the deaths and injuries of Tesla owners, passengers, bystanders, oncoming drivers and others.

Following accusations by a Korean celebrity that a Tesla car spontaneously drove through a wall, the carmaker has replied that the crash was "entirely due to the man's horrible driving" in an ongoing effort, by Tesla, to steer the blame away from Tesla faulty engineering

Actor and singer Son Ji-chang (identified as Ji Chang Son in court documents) claimed he was parking his Tesla Model X SUV when the vehicle suddenly [lurched forward into his living room](#).

In a lawsuit filed last week in California, Son claimed that the crash was due to "sudden unintended acceleration" and sought class-action status with other Model X owners.

In a nod to the car's ability to sense and avoid crashes, the lawsuit also hinted that the Model X should not be allowed take actions that the car "knows will result in the collision with a fixed

object.”

But Tesla contends its Model X was only dutifully following Son’s instructions to plough through his house.

“The evidence, including data from the car, conclusively shows that the crash was the result of Mr. Son pressing the accelerator pedal all the way to 100 per cent,” said Tesla [in a statement to Reuters](#).

Although most new cars are equipped with “black box” technology to record driver actions in the event of a crash, Tesla is unique for amassing vehicle data as detailed as whether a driver’s hands are on the steering wheel.

The data is collected to aid in research and design, but Tesla user agreements also reserve the carmaker’s right to use it to defend itself in court.

The term “sudden unintended acceleration” has a checkered recent history. Most famously, between 2009 and 2011 Toyota recalled more than eight million vehicles following widespread allegations that the vehicles were subject to unexpected acceleration.

But a subsequent investigation by the U.S. Department of Transportation found that most of the reported cases of “sudden unintended acceleration” were simply drivers stepping on the gas instead of the brake — with only a handful of incidents being due to pedals getting stuck on floor mats.

In June, another California-based Model X owner, Puzant Ozbag, similarly claimed that his Model X spontaneously accelerated through a parking lot and into a wall. In that case, too, Tesla reviewed vehicle records and reported that the actual culprit was Ozbag jamming his foot down on the accelerator. A special prosecutor is needed to investigate Tesla due to the huge number of cover-ups, by Tesla and the Obama Administration, to protect campaign financier Elon Musk. Jeff Sessions needs to hire a [lawyer](#) from outside the [government](#) appointed by Sessions as [attorney general](#) or, in the United States, by [Congress](#) to investigate a government official for misconduct while in office. A reasoning for such an appointment is that the governmental branch or agency may have political connections to those it might be asked to investigate. Inherently, this creates a [conflict of interest](#) and a solution is to have someone from outside the department lead the investigation. The term "special prosecutor" may have a variety of meanings from one country to the next, from one government branch to the next within the same country, and within different agencies within each government branch. Critics of the use of special prosecutors argue that these investigators act as a "fourth branch" to the government because they are not subject to limitations in spending, nor do they have deadlines to meet.

Attorneys carrying out special prosecutor functions in either federal or state courts of the United States are typically appointed [ad hoc](#) with representation limited to one case or a delineated series of cases that implicate compelling governmental interests, such as: Fraud (SEC, Complex, Cybercrime, Mortgages), Public Corruption, Money Laundering & Asset Forfeiture, Civil Rights, Racketeering Across State lines, Environmental Protection, National Security, Tax & Bankruptcy, Organized Crime, or International cases where the US is a party).<sup>[1]</sup> Special prosecutors in courts of the [United States](#) may either be appointed formally by one of the three branches of

government in a criminal proceeding, or when dictated by federal law or regulation, or informally in civil proceedings, and also by one of the three branches of government, or by a non-governmental entity to prosecute alleged unlawful conduct by government agents. When appointed by the [judicial branch](#) to investigate and, if justified, seek indictments in a particular judicial branch case, the attorney is called special prosecutor.<sup>[2]</sup> When appointed/hired particularly by a governmental branch or agency to investigate alleged misconduct within that branch or agency, the attorney is called [independent counsel](#).<sup>[3]</sup> When appointed/hired by the state or political subdivision to assist in a particular [judicial branch](#) case when the public interest so requires, the attorney is called [special counsel](#).<sup>[3]</sup> When appointed/hired by an organization, corporation, person or other non-governmental entity to investigate and, if justified, seek indictments against one or more government officials for acts committed under color of law, the attorney may be called [special counsel](#) or special prosecutor, but not [independent counsel](#).<sup>[3]</sup>

On January 3, 1983, the United States federal government substituted the term independent counsel for special prosecutor.<sup>[4]</sup> [Archibald Cox](#) was one of the most notable special prosecutors. However, special prosecutor Archibald Cox today would be called independent counsel Archibald Cox in the United States.

The term is sometimes used as a synonym for [independent counsel](#), but under the former law authorizing the independent counsel, the appointment was made by a special panel of the [United States Court of Appeals](#) for the [District of Columbia Circuit](#). The [Ethics in Government Act](#) expired in 1999, and was effectively replaced by [Department of Justice](#) regulation 28 CFR Part 600, under which Special Counsel [Patrick Fitzgerald](#) was appointed to look into the [Plame affair](#). The Tesla Motors and Elon Musk Case requires a Special Prosecutor.

# THE CORRUPTION, FRAUD AND BRIBERY CHARGES AGAINST ELON MUSK AND TESLA MOTORS

Update 2.7

The following, culled from a variety of news articles, lawsuits and investigative reports, demonstrates the profound number of illicit actions charged against Elon Musk and his Silicon Valley cartel insiders. While any given, unbiased, expose on Musk covers some of these issues, it is important to examine the width and breadth of Musk's culture of corruption. Expert witnesses, former employees and investigators are able to fully detail and confirm, with extended evidence, the following charges, in court, or Congressional public hearings:

[A.\) ELON MUSK AND TESLA FACE CRIMINAL FRAUD CHARGES BY FEDS! MUSK FINALLY EXPOSED!](#)

[B.\) SEC subpoenas TESLA over Musk tweets...](#)

[C. Whistleblower posts 'flawed cars' details...](#)

D.) Elon Musk's Incredible Smoke And Mirrors Dance. Elon Musk's untraceable money laundering and political bribery scam has now been exposed. It is called an "Invisible Bridge". It is the way that covert funds move through a secret conduit of close associates and family members. Elon Musk is at the head of the conduit and his mother, brother and associates Tim Draper, Steve Jurvetson, and George Soros round out the other tentacles. With operational links through Wells Fargo Bank, Silicon Valley Bank and Goldman Sachs, the scheme is perfected corruption. The "bridge" uses a combination of fake tax evasion charities and business assets, passes through Senator's pockets and is never visible to the FBI, the FEC and the SEC unless they have very good agents assigned to the matter.

E.) NTSB, DOJ, SEC and FEC have been blocked from action by DNC lobbyists.

F.) The overt and arrogant Musk misdeeds have now become "obvious and RICO-violating..."

G.) He is protected by Senators Reid, Harris, Pelosi and Feinstein. They are beneficiaries of the scam. Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

H.) He is protected by the Clinton and Obama organizations along with most of the DNC. He finances these politicians via this scheme.

I.) The U.S. Dept of Energy (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for Fusion-GPS attacks on Silicon Valley business competitors.

J.) DNC campaign financiers and DOE staff share stock market holdings with each other under

family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

K.) Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader.

L.) Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

K.) Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.

M.) Musk has been professionally diagnosed as a 'psychotic narcissist.

N.) Musk has publicly stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

O.) Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance buddy. They share an apartment.

P.) Musk uses shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

Q.) A huge number of Tesla drivers, per capita, have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

R.) The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

S.) VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.

T.) Peter Thiel, a Musk "boyfriend" also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills.

U.) There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy'on blogs.

V.) Main Stream DNC-biased News organizations who refuse to cover the story reveal themselves as shills for Musk.

W.) The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone.

X.) His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.

Y.) The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Z.) Musk holds the Silicon Valley record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

A1.) Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

A2.) Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them.

A3.) <https://stopelonfromfailingagain.com> reveals even more Musk lies.

A4.) Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

A5.) Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation.

A6.) Musk's "Mars" scheme is just a PR distraction.

A7.) The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

A8.) Musk can't fix a car or build a rocket and has almost no mechanical skills.

A9.) If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections.

A10.) NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business.

A11.) Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.

A12.) Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

A13.) The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX

A14.) Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.

A15.) Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!

A16.) All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

A17.) Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both companies.

A18.) Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.

A19.) The 'lithium' in Musk's horrifically miss-engineered lithium ion batteries cause wars in the Congo over mining corruption.

A20.) Afghanistan and Bolivian mobsters benefit from the corrupt mining deals involved with mining lithium and cobalt for Elon Musk's batteries.

A21.) Elon Musk's Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu and they engaged in extreme conflict-of-interest to help Musk.

A22.) Elon Musk's Lithium ion batteries excrete chemicals that mutate fetuses when they burn.

A23.) Elon Musk's Lithium ion batteries destroy your brain, lungs and nervous system when they burn.

A24.) Elon Musk's Lithium ion batteries kill the factory workers who make them.

A25.) Elon Musk's Lithium ion batteries cause Panasonic to be one of the most corrupt companies in the world.

A26.) Elon Musk's Lithium ion batteries poison the Earth when disposed of.

A27.) Elon Musk's Lithium ion batteries can't be extinguished by firemen because water makes them explode even more and then explode again hours later.

A28.) Elon Musk's Lithium ion batteries have chemical dendrites and deposition massing issues (revealed by X-Ray analysis) which makes them more and more likely to explode as they age.

A29.) Elon Musk's Lithium ion batteries poison firemen when they burn.

A30.) Elon Musk's Lithium ion batteries are based on criminally corrupt mining schemes like URANIUM ONE.

A31.) Elon Musk's Lithium ion batteries have over 61 toxic chemicals in them.

A32.) Elon Musk's Lithium ion batteries come from an industry that spends billions on internet shills and trolls that they hire to nay say all other forms of energy

A33.) Elon Musk's Lithium ion batteries are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

A34.) Apple products with lithium ion batteries have been exploding and setting people on fire.

A35.) Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

A36.) Tesla owner's had had more DUI's, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.

A37.) Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.

A38.) "Bad Guys" have figured out how to make Elon Musk's Lithium ion batteries explode remotely in devices by making the device electronics cause the batteries to overload.

A39.) The dangers of Elon Musk's Lithium ion batteries batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

A40.) George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.

A41.) The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging.

A42.) United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from

outlawing them.

A43.) There have been thousands of defect reports filed on Tesla cars.

A44.) Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

A45.) If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions".

A46.) Water makes Tesla batteries explode.

A47.) In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.

A48.) Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

A49.) Tesla Motors has caused far more deaths and injuries than the world generally knows about.

A50.) A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.

A51.) In Florida two kids died in a Tesla, burned alive, screaming in agony.

A52.) A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.

A53.) A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

A54.) There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

A55.) Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public.

A56.) Elon Musk's Lithium ion battery partners spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.

A57.) Lithium ion EVs are more prone to battery fires.

A58.) Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.

A59.) Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.

A60.) Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Another whistle-blower has suggested they were killed in a "Boston Brakes" hit-job.

A61.) The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

A62.) The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

A63.) They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

A65.) Musk buddies: Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.

A66.) Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.

A67.) Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

A68.) Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.

A69.) THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

A70.) THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

A71.) THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

A72.) The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year.

A73.) Tesla again fell far short of its own production targets for the mass-market Model 3 sedan

A74.) Another person died in a crash involving its assisted-driving feature.

A75.) Musk entered into a public dispute with federal safety regulators.

A76.) Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.

A77.) No one has raised or spent money the way Elon Musk has; Nor has any other chief executive officer of a public company made a bankruptcy joke on Twitter at a time when so much seemed to be unraveling.

A78.) Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to data compiled by Bloomberg. Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2. Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>

A79.) In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.

A80.) One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

A81.) Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

A82.) Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.

A83.) Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the slower-than-expected pace of

production means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported “net Model 3 reservations remained stable.”

A84.) There’s an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for “Full Self Driving” capability, for example—that Tesla thus far hasn’t figured out or released to anyone.

A85.) Elon Musk cooked the books by emailing interested sales prospects and asked them to put a deposit down before each quarter ended so he could book their tiny deposits as fully transacted \$60K+ "sales" before each quarter closed.

A86.) Elon Musk and SpaceX are being sued by multiple employees for "lying about safety standards, safety records" and deadly safety defects.

A87.) The Elon Musk Tesla Money Laundering Board Of Directors is as full of fraud and corruption as Musk. Birds of a feather stick together and the Jurvetson, Draper, Musk, et al; clan of corruption runs deep. The Board of Directors can't operate their scam without the whole pack of thieves and liars in place. An outsider will break theirs swamp of tax evasion, Dark Money political bribes, off-shore cash, self-dealing, book-cooking, real estate fraud, expense padding and other nefarious deeds.

A88.) Dianne Feinstein's family member: Herb Newman of Sausalito, California's HR firm: Newman Search (415 332-8425) has a company as of 1972 with the sole purpose of setting up investment bank deals with the People’s Republic of China. Feinstein arranged for Newman to provide the staffing for Tesla and Solyndra. Dianne Feinstein has been under investigation for spy activities with China and her senior aide was arrested as a Chinese top spy. In 1973 Mr. Newman arrived in Canton at the invitation of the Chinese Council for the Promotion of International Trade. (CCPIT). He and his company MVTC were one of fifty businesses to be invited to the Canton Trade Fair held in Kwangchow China. In 1978 Mr. Newman founded China Investments and in partnership with California Trade Delegations both companies as members of the San Francisco Chamber of Commerce began taking US Corporations to China. Mr. Newman along with one of his associates at the time Mr. Darryl Schoon helped organize Senator Dianne Feinstein's first trip to China in conjunction with the San Francisco Chamber of Commerce. Herb Newman, Mart Bailey and Feinstein's Husband; Dick Blum are on intelligence agency watch-lists, and under electronic surveillance, for potentially corrupt deals with China, Tesla and Solyndra.

A89.) Dianne Feinstein's husband owns CBRE which owns the real estate contracts for both Tesla and Solyndra.

A90.) Dianne Feinstein's family owns interests in the construction companies hired by both Tesla and Solyndra.

A91.) Dianne Feinstein had her staff warn other California businesses away from using the NUMMI car factory in order to protect the real estate deal for both Tesla and CBRE, which is owned by her husband.

A92.) Tesla began real estate deals in multiple states and then cancelled them at the last minute,

which got them sued for fraud and charged with "lying" to different communities. They started, and then pulled out of these different building (San Jose, Southern California, New Mexico, Etc.) deals, because CBRE and Feinstein were trying to leverage real estate profit exploitation using taxpayer funding.

A93.) Panasonic and Tesla have known for decades that the Panasonic 18650 batteries used in the Tesla suffer from multiple chemistry degradation defects which will almost always make them eventually explode or "go thermal". The defects include: 1.) LENR activation, 2.) Dendrite lengthening, 3.) Particle congealing, 4.) Chemistry evolution and other defects. The Tesla projects is, essentially, a failed product product dumping effort of a failed and dangerous battery product.

A94.) Elon Musk has demanded that his employees sign "loyalty pledges", "vows" and engage in Omerta's in order to keep the corruption details of Tesla from being exposed to the public.

A95.) Tesla insider Antonio Gracias is the mob boss insider at Tesla who arranges media hit-jobs on those who displease Musk.

A96.) The NHTSB has issued requests to Tesla for safety tests and data that Tesla never complied with. Instead, Tesla paid bribes, which were referred to as "fees" to avoid having to complete those tests. An independent group of outside investigators issued a damning safety report to the NHTSB demanding that Tesla be compelled to produce the safety tests in 2010 but Obama appointed NHTSB executives buried the report and protected Tesla in order to keep the connection between Obama's funding and Tesla protected. NHTSB boss: Strickland, an Obama insider, was confronted with this in Washington, DC and resigned from his job 48 hours later. NHTSB has still not acted on the severe Tesla safety defects that have been reported since 2009.

A97.) An SEC investigation of Musk uncovered horrific evidence of Musk corruption but the SEC could not report or act on it because Obama congressional bosses and lobbyists got the SEC investigation "limited" to only examine a single Twitter "Tweet" from Musk.

A98.) Elon Musk is protected by top DOJ, SEC, CFTC, FEC and other Obama left-over staff as well as 45 U.S. Senators and top Federal Reserve members and Goldman Sachs, who live in terror that exposure of the entire Elon Musk financial food-chain will topple the entire DNC Dark Money payola scam. This is the reason that Tesla can get away with so much obvious and overt corruption and still continue operations. Tesla Motors book-cooking, financial frauds and political payola conduits, if fully revealed, would change the course of political influence in America.

A99.) Elon Musk has been sued by a man that Musk called a "Pedo", yet Musk's own father has been accused of child sex abuse, racism and, indeed, got his own daughter pregnant!

A100.) Elon Musk's mother has been accused of being a "self-indulgent trophy wife" who Musk was trained by to be an arrogant elitist. Her hatred of black people was imbued on Musk who has been sued by black people at his company for "running a racist culture".

A101.) Elon Musk divorced the same woman twice because she knew his dirty little secret and threatened to out him if he did not keep the deal going. She was hired to "act" as his wife.

A102.) Musical artist Iggy Azalea was at a Musk Party, with other friends, who captured Elon Musk

on video on drugs and in weird sex acts. Musk had Iggy's camera stolen at the party to hide the evidence but he did not get the other cameras and did not realize that some of those cameras placed their images and videos directly on the Cloud, where hackers acquired them.

A103.) With cover-up help from Eric Holder, Steven Chu, Obama, Valarie Jarret, DNC FBI agents, Perkins Coie, Covington and Burling, Wilson Sonsini, etc; sociopath Musk actually believes he is "untouchable" and that he can get away with anything. His downfall will be the same downfall of every narcissist sociopath oligarch throughout all of recorded history.

A104.) Elon Musk is a drug addict. A simple urine and blood test proves it. Musk's downfall and the downfall of John DeLorean are seeming to align.

Who is violating the law protecting Tesla by withholding investigations and prosecutions?

Why are they allowing American citizens to continue to die from the 1.) "sudden acceleration electronics defect"; 2.) "The failed Auto-pilot electronics defect"3.) "The deteriorating and deadly lithium ion batteries" and 4.) numerous other defects widely documented in the news media and filed lawsuits?

# Why Elon Musk is a really bad guy and why his business operation is a corruption scam

By Former Tesla Staff

You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of the coin. We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this letter can be proven in a jury trial, Congressional hearings or live TV debates. Musk will do anything to keep this information from getting out but... it is too late for him! While this may sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues. Musk has been professionally diagnosed as a 'psychotic narcissist'. He publicly stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment. Musk uses massive numbers of shell companies and trust funds

to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs. Main Stream News organizations who refuse to cover the story reveal themselves as shills and are then targeted for bankruptcy (ie: Time, Gawker, etc.) because they serve no public service.

The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.

The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them. <https://stopelonfromfailingagain.com> reveals even more Musk lies.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile takeover!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation. Musk's "Mars" scheme is just a PR distraction.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive

amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections. NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business. Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX and Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is

why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

Tesla owner's had had more DUI's, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.

Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN. George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. There have been thousands of defect reports filed on Tesla cars.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions". Water makes Tesla batteries explode. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading owner-ships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her

boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.

THIS corruption is what all of the big political scandals are about today!

THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

THIS can all be proven in jury trial and in live televised Congressional hearings!

There is so much more to reveal but you get the picture.

This is all being covered up because top State and Federal officials are in on it, own the stock in it and are so deeply involved in it that they could go to Federal prison when this all comes out.

This is Part 1. There is more to be released. Show this document to the United States Senate and see what they say about all this..."

A complete guide to how Elon Musk has raised, and then spent, billions of dollars, mostly from your tax money and pension funds.

The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year.

The anxieties that lurk beneath the tremendous ambition of Tesla Inc. moved into the forefront in recent weeks. The company again [fell far short](#) of its own production targets for the mass-market Model 3 sedan, another person [died in a crash](#) involving its assisted-driving feature and Musk entered into [a public dispute](#) with federal safety regulators. Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.

There's a good reason to worry: No one has raised or spent money the way Elon Musk has. Nor has any other chief executive officer of a public company made a [bankruptcy joke](#) on Twitter at a time when so much seemed to be unraveling.

Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to [data compiled by Bloomberg](#). Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2.

In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.

A lot of Musk's money has been extracted from suckers, who think he is God's gift, as Bloomberg

report:

One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.

Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the [slower-than-expected pace of production](#) means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."

There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.

The consumer psychology that sees hundreds of thousands of people essentially extending an interest-free loan to a public company is unusual, to say the least. Consider the devotion of Bruce Sidlinger, a 60-year-old aerospace engineer who lives in Flagstaff, Arizona:

"The morning after the Roadster was announced, I put a deposit down. Putting down \$50,000 for a Roadster that won't be out for a few years is kind of like buying a bond that returns zero. Elon Musk is one of our planet's great hopes. I would offer a kidney to him if he needed it."

Keep in mind that Sidlinger already owns both a Model S and a Model X. He drove across the country to Florida earlier this year in a car made by one Musk company so he could watch a rocket made by another Musk company take flight for the first time.

I think the phrase "more money than sense" rather sums it up

# Apple and Google also named in US lawsuit over Congolese child cobalt mining deaths for Elon Musk's Tesla Cars

Dell, Microsoft and Tesla also among tech firms named in case brought by families of children killed or injured while mining in DRC

A landmark legal case has been launched against the world's largest tech companies by Congolese families who say their children were killed or maimed while mining for cobalt used to power smartphones, laptops and electric cars, the Guardian can reveal. Apple, Google, Dell, Microsoft and Tesla have been named as defendants [in a lawsuit filed](#) in Washington DC by human rights firm [International Rights Advocates](#) on behalf of 14 parents and children from the Democratic Republic of the Congo (DRC). The lawsuit accuses the companies of aiding and abetting in the death and serious injury of children who they claim were working in cobalt mines in their supply chain. The families and injured children are seeking damages for forced labour and further compensation for unjust enrichment, negligent supervision and intentional infliction of emotional distress. It is the first time that any of the tech companies have faced such a legal challenge. Cobalt is essential to power the rechargeable lithium batteries used in millions of products sold by Apple, Google, Dell, [Microsoft](#) and Tesla every year. The insatiable demand for cobalt, driven by desire for cheap handheld technology, has tripled in the past five years and is expected to double again by the end of 2020. More than 60% of cobalt originates in DRC, one of the poorest and most unstable countries in the world. Aerial view of the Kasulo neighborhood of Kolwezi. In the first picture, taken May 2016, there are just residential houses. By May 2019, Congo DongFang International Mining (a subsidiary of chinese company Huayou Cobalt) have built a mining site, with a walled perimeter and processing buildings (in blue). The pink tarps cover tunnels used for mining. The extraction of cobalt from DRC has been linked to human rights abuses, corruption, environmental destruction and [child labour](#). The lawsuit argues that Apple, Google, Dell, Microsoft and Tesla all aided and abetted the mining companies that profited from the labour of children who were forced to work in dangerous conditions – conditions that ultimately [led to death](#) and serious injury. The families argue in the claim that their children were working illegally at mines owned by UK mining company Glencore. The court papers allege that cobalt from the Glencore-owned mines is sold to Umicore, a Brussels-based metal and mining trader, which then sells battery-grade cobalt to Apple, [Google](#), Tesla, Microsoft and Dell.

Other plaintiffs in the court documents say they worked at mines owned by Zhejiang Huayou Cobalt, a major Chinese cobalt firm, which the lawsuit claims supplies [Apple](#), Dell, and Microsoft and is likely to supply the other defendants.

In the court documents, the Congolese families describe how their children were driven by extreme poverty to seek work in large mining sites, where they claim they were paid as little as \$2 (£1.50) a day for backbreaking and dangerous work digging for cobalt rocks with primitive tools in dark, underground tunnels.

The families claim that some of the children were killed in tunnel collapses while others were paralysed or suffered life-changing injuries from accidents.

## [I saw the unbearable grief inflicted on families by cobalt mining. I pray for change](#)

[Read more](#)

Another child, referred to as John Doe 1, says that he started working in the mines when he was nine. The lawsuit claims that earlier this year, he was working as a human mule for Kamoto Copper Company, carrying bags of cobalt rocks for \$0.75 a day, when he fell into a tunnel. After he was dragged out of the tunnel by fellow workers, he says he was left alone on the ground at the mining site until his parents heard about the accident and arrived to help him. He is now paralysed from the chest down and will never walk again.

Other families included in the claim say that their children were killed in tunnel collapses or suffered serious injuries such as smashed limbs and broken spines while crawling through tunnels or carrying heavy loads. The families say that none were paid any compensation for the deaths and injuries.

One of the central allegations in the lawsuit is that Apple, Google, Dell, Microsoft and Tesla were aware and had “specific knowledge” that the cobalt they use in their products is linked to child labour performed in hazardous conditions, and were complicit in the forced labour of the children.

The families argue in the court papers that all companies named as defendants entered into commercial “ventures” with the mining companies operating in DRC, and all gained significant financial advantages from the widespread illegal mining of cobalt by children, which continues to enter global supply chains.

Photograph: Siddharth Kara The court papers claim that Apple, Dell, Microsoft, Google and Tesla all have the authority and resources to supervise and regulate their cobalt supply chains and that their inability to do so contributed to the deaths and injuries suffered by their clients. A spokesperson for Glencore said: “Glencore notes the allegations contained in a US lawsuit filed on 15th December 2019.

“Glencore supports and respects human rights in a manner consistent with the universal declaration of human rights.

“Glencore’s production of cobalt in the DRC is a by-product of our industrial copper production. Glencore’s operations in the DRC do not purchase or process any artisanally mined ore.

“Glencore does not tolerate any form of child, forced, or compulsory labour.”

Huayou, Apple, Google, Dell, Microsoft and Tesla have also been approached for comment.

## **THE BOTTOM LINE ON ELON MUSK:**

### **The facts are:**

- That an organized crime program exists between Silicon Valley tech oligarchs, investment banks, U.S. Senators, government agency staff and White House staff to engage in these crimes.
- That public officials knowingly participate in these crimes by failing to report their associates who engage in these illicit actions and by hiring suppliers who operate these illicit activities.
- That the suspects manipulate government funds for their personal profiteering at the expense of domestic citizen taxpayers like us.
- That the suspects operate a vast stock market manipulation program, as a core function of their operations, and those illicit deeds function at the expense of the public to render unjust gain to public officials.
- That the suspects contract a known group of lobbyists, corrupt law firms, unethical CPA's, corrupt investment banks and specialized corruption services providers to attack, defame, physically harm, character assassinate, black-list and/or kill those they dislike and they harmed us with those acts.
- That the suspects operate an Epstein-like sex-trafficking network of prostitutes and sexual extortion activities and locations for the engagement of said activities and for the bribery of cohorts via sex workers.
- That the suspects engage in electronic attacks and manipulations including hacking, election manipulation, media censorship and internet search results manipulation in order to mask their schemes.
- That the suspects engage in Lois Lerner-like, SPYGATE-like, VA whistleblower-like reprisal and retribution attacks using government agencies like SSA, DOJ, FBI, LSC, HUD, HHS, DOE, Etc.

**We demand that Elon Musk be arrested on RICO Racketeering, Anti-Trust, Tax Evasion, Bribery, and related charges!**

## **What a twisted, raging, sick pervert, narcissist, vengeful, anti-competitive, monopolistic, Goldman Sachs sucking, hit-man hiring mobster!**

--- The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed.

---- Elon Musk, Larry Page, Steve Jurvetson and Jared Birchell hire Ex-CIA losers right after they are fired by the CIA, or directly from IN-Q-TEL or from Fusion GPS, Media Matters and other CYBER ASSASSIN KILL SERVICES. They send their hit men after competitors, reporters, ex-employees and whistle-blowers because they chose to CHEAT RATHER THAN COMPETE! ---- Elon Musk's "Twitter Purchase" is just a scam to sell his Tesla stock without the SEC or his old investors noticing: THEY NOTICED!

---- Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources!

---- We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects.

---- Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another.

---- Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess.

---- Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to.

--- Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class

records, financial tracking, emails, stock market relay records and other forensic data that proves it.

---- We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try.

---- Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up.

---- The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds.

---- Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors.

---- Musk is the POSTER BOY OF WHITE ANTI-BLACK PRIVILEGE

---- He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, starlets and sex parties.

---- He pays women for sex and pays other women not to disclose that he tried to sexually extort them. He paid Amber Heard at least \$500K for sex, paid his stewardess \$250K to report his sex abuse of her, and has a provider service via a layer of insiders.

---- His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions.

---- Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were

taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- THESE CARS BLOW-UP AND RELEASE POISON SMOKE THAT WILL POISON YOU, YOUR FAMILY AND YOUR FETUS!!!!!!

---- THE VAMPIRE POWER DEFECT: Your Tesla will suck more power than it needs in order to try to charge itself. A huge bunch of Tesla charging cords set themselves on fire. IF YOU WANT YOUR HOME OR OFFICE TO BURN DOWN, THEN PARK YOUR TESLA INSIDE IT.

----- TESLA HAD to POWER DOWN all of their cars because they blow up when charging. THIS MEANS THAT THE CAR THAT WAS ADVERTISED IS NOT THE CAR THAT YOU BOUGHT! BECAUSE OF TESLA'S BAD ENGINEERING, ALL OF THEIR CARS HAD TO HAVE ADDED SAFETY SHIELDS AND POWER REDUCTION AFTER-MARKET PROGRAMMING TO DETUNE THEM.

---- TESLA'S GO OUT OF CONTROL ALL OF THE TIME AND CRASH

----- HORRIBLE DEFECTS: Not everything is unicorns and rainbows when it comes to an electric vehicle, and Tesla (undoubtedly) has a few kinks to work out. However, some of these flaws have seemingly been ignored or swept away from the public eye. There are some things that are never openly admitted or speculated about Tesla vehicles, yet we harshly criticize run-of-the-mill autos with ease. Out of fairness—and for potential buyers, necessity—we should take a look at a few of the complaints that current owners have raised about these beloved EVs.

---- AWFUL BUILD QUALITY: If you have ever experienced difficulties with a Tesla, firsthand, then you probably know better than anyone how pricey repairs can become if they're not covered by a warranty or insurance. This explains why insurance premiums are so high for these vehicles. However, the truth of the matter is that even if you're not paying to replace those parts, they are much poorer quality than we're all led to believe. If Tesla's parts were, in

fact, of great quality, then we wouldn't have freak issues such as bolts rusting off after a mere few years of ownership, or falcon doors constantly misaligning themselves. Not everything on a Tesla is inherently low-quality, but Tesla is certainly cutting corners. The durability shows in the longevity of the parts and by how early rattling, squeaking, and other common problems seem to surface.

---- HORRIBLE SPEEDOMETER PLACEMENT: The golden rule we're all taught in driving school is to keep your eyes on the road. This is, obviously, why police have been cracking down on drivers who use handheld electronic devices while driving. You would expect that a carmaker would probably build a car with safety in mind and take things like this into consideration during the design process. But technology comes first for Tesla. Their (controversial) touchscreen is also the home for the speedometer, which on the edge of the driver's peripheral vision, which means that they have to look away from the road in order to see what speed they're going. It's not necessarily the biggest problem, at least in hindsight, but it can become a dangerous feature for the unsuspecting. Still, the feature is shared with the Mini Cooper, including the electric Mini Cooper SE.

---- INSANELY EXPENSIVE TO REPAIR: Part of the appeal of buying something expensive is the expectation that it will save you money in the future. But Tesla has earned a spot in the hall of fame for overpriced vehicles, and that doesn't just apply to the sticker price but also takes into account all the maintenance costs that plague owners. Even though the Tesla's don't need oil changes, spark plug replacements, or oil filters, Tesla recommends drivers invest in their maintenance plans that include a thorough inspection of the vehicle every 12,000 miles. The prices vary based on the year and model of the car, as well as which specific plan the driver chooses, but standalone inspections range anywhere from \$475 to \$750 per visit (not including repairs). A four-year maintenance plan is around \$2,500. Needless to say, you'll need to have a good chunk of change set aside for these evaluations. Issues extend to tires and poor suspension, and yes, we will certainly mention the battery.

---- EXTENSIVE STEERING FAILURES: It's true that Teslas tend to carry a bit of technological baggage with their state-of-the-art devices. Most of it is just annoying more than it is dangerous, but rest assured, Tesla has also managed to squeeze in a few mechanical problems as well. They've been much less common than the cosmetic flaws but can have life-threatening outcomes. A few new Tesla owners have experienced problems with the steering wheel locking up while turning. Not only will you see your life flash before your eyes, but you may be dismayed to find out that several weeks of repairs are typically involved since it's not an issue that Tesla has completely resolved. This is before we even bring to light the new "yolk" steering wheel in the Model S Plaid.

---- YOU CAN NEVER GET YOUR CAR BACK FROM THE SERVICE CENTERS: Speaking of car troubles, Tesla dealerships are so sparse that many owners are forced to plan out their trip to the service center much more thoroughly than the average driver would. Unfortunately, the plight with their new Tesla's can sometimes be uncharted territory for mechanics—this is a relatively new technology, after all—so it may take several days, and sometimes even weeks, before owners get to see their cars again. What's worse is that many of these technical difficulties aren't fully resolved during the first visit. Like we've said before, there isn't much knowledge on electric vehicles and technicians may not be as familiar with the problems that plague these vehicles, primarily because a Tesla operates more like a computer than it does an old gas guzzler.

---- TESLA CARS SPY ON YOU: Teslas are incredibly connected... to the point that they're able to (potentially) predict when you plan to drive them and what routes. Elon hasn't been known for respecting privacy and his first company, PayPal, has even been in lawsuits for it. All respect to his technological advancement, but consider what a man creating a chip for your brain is trying to do with your car! Face recognition, video sharing with or without consent, and Tesla monitoring your driving history and patterns are all open for discussion and unless you dig really deep or have a law degree, you might not be safe. If you're a criminal or just worry about being watched, this is one of the last bit of tech pieces you would want. Some have even raised red flags over issues of hacking Teslas for a new world of issues.

---- THE EMERGENCY RELEASE WILL SCREW YOU: It may seem like a nitpick (and it is) but the terrible placement of the emergency handle is also a potential threat to the car and therefore, it's a necessary point to bring up. Since Tesla's vehicles don't have your average door handle and everything in the car is electric, the manufacturer was witty enough to install an emergency handle on the interior to prevent passengers from getting trapped inside. There's just one little flaw with this idea: the placement. Since new passengers aren't used to the high-tech vehicle, they tend to go for the emergency handle instead of using the standard electric button that opens the door. This is an honest mistake since the emergency handle is near where a door handle normally would be, but if it's pulled too often it can and will crack the window. And that's the last thing any Tesla owner wants to deal with.

---- DEADLY BLIND SPOTS: Another feature that is seen in many modern-day vehicles (electric or not) is blind-spot detection. This is a nice touch to have and is practically expected on a high-end vehicle these days. The only thing that separates Tesla from other manufacturers that are employing blind-spot detection is the placement of the detector. Similar to the difficulty that people have seeing the speedometer, the blind-spot detection doesn't alert drivers of a threat on the side-view mirrors like most vehicles do. Instead, a notice pops up on the touchscreen. A lot of people have something against the touchscreen and, while we don't find it to be all bad, there are instances such as this one when it's understandable why it can become a nuisance. If every feature is integrated into the touchscreen, it seems like the entire car revolves around a mounted iPad.

---- BAD COSMETIC DETAILS: Have you ever bought something nice only to have it experience defects shortly after? If you've put a good amount of cash into it, it's not only inconvenient but also extremely frustrating. Proud Tesla owners have been extremely let down to find that their overpriced electric vehicle has scratches all over their car and bulges in the windshield. These unfortunate Teslas were born with cosmetic defects from the factory. Clearly, the newbie manufacturer hasn't been able to get the assembly process down yet. Waiting out the initial wave of manufacturer defects would be wiser than jumping on a waiting list for the latest and greatest model.

---- ZERO FUTURE PROTECTION: Except Tesla and Rivian, there have been no major car manufacturers to emerge in almost 100 years. Naturally, this doesn't include off-shoot luxury brands or foreign brands that were bought out. Tesla respectably came from the ground-up in the 21st century on its own. That being said, it doesn't have a long carefully-recorded history of reliability, work ethic, or quality control, and it shows hard. Besides body gaps that range from dog doors to atomic fusion, the real longevity of a Tesla is almost entirely unknown. The used market for a Tesla is not great to begin with, but with the emergence of high battery replacement costs, how the old Teslas hold up is a big fat question mark. New rules and

restrictions like to speed or features can be turned off without your consent remotely at the whim of a the bureaucrats.

---- VERY UNSAFE WHEEL DESIGN: There are some things that you never know about a car until you personally own it. And, to be fair, owners tend to critique their own cars harshly. A common nitpick with the Tesla Model 3 is the obnoxious fact that it comes with all-terrain (otherwise known as, 'all season') tires. Many Model 3 owners dislike this because they want more performance-oriented tires. Not to say that it's not a smooth ride—it has received incredible reception for that alone—but if it was included with performance tires, the experience could be enhanced tremendously. The shared belief among many owners (specifically, those who don't need winter tires) is that all-terrain tires should be something that a buyer can purchase on their own if they happen to need them.

---- BATTERY REPLACEMENT IS A NIGHTMARE: Along with the sketchy aspect of having an electric vehicle, there's also a major setback on the cost to repair it as well. While a charge may not be so pricey, the cost to replace any of the parts on a Tesla can really become a burden. For instance, if you had to buy a new battery for a Model 3, the base would cost around \$9,500 (on the low end) and the extended-range battery would come close to \$16k. Sadly, that's as much as a used car (maybe even a few). There's a domino effect with these overpriced repairs as well, as the price to insure a Tesla tends to be more than the average vehicle. The high rate of accidents in Teslas is partly to blame, but their expensive repairs are no help.

---- THERE ARE NO DEALERSHIPS AROUND TO HELP YOU: Tesla has just recently begun opening service centers in areas with a large amount of foot traffic, but the idea of dealerships is a concept of the past for Tesla. Following a completely different business model from the traditional car manufacturers, Tesla sells its cars directly to its customers through their own small, intimate stores. This allows Tesla to educate the customers on what exactly they're getting into with an electric vehicle and to choose precisely how they'd like their car to look. Of course, it takes months for customers' vehicles to be delivered, but this still allows them to get exactly what they want. It also means that Tesla makes money off of their cars, while traditional dealerships make money from their service departments. The drawback for a Tesla owner is that these are located, largely, in metropolitan areas and so are the service centers. Unlike traditional dealerships that are in every town, Tesla selects store and service center locations based on foot traffic.

---- TESLA STILL COSTS MORE THAN A GAS CAR AND IS WORSE FOR THE ENVIRONMENT: Even though Tesla has managed to bring down the customer's cost of a vehicle by cutting out dealerships altogether, they're still pretty pricey. Many of Tesla's major competitors have a bit of an edge by offering vehicles that aren't 100% electric, which is an appealing point for many buyers, but they're also less expensive. The base Chevy Volt, for instance, is cheaper than Tesla's base Model 3. Less people are as willing to go for the Model S purely because they have no desire to have an electric vehicle that revolves around performance. For many, the price just isn't worth it, not when the battery will need to be replaced in a matter of a few years (depending on use). This goes hand-in-hand with the cost of Tesla's parts because consumers don't want to spend a lot of money on a car that will also be pricey to fix down the road.

---- TESLA'S AUTOPILOT CAN KILL YOU: Tesla's autopilot has been known to get people in trouble, napping, reading, and working on the freeway. The fact is, there's still no legal protection for someone to sit down and be driven away. Thought Tesla gets close with tools like "tow mode," allowing for an empty car to follow another Tesla with some limitations. Legally you still need to keep your hands on the wheels and be alert, despite the statistically safer autopilot driving and advancements in technology. While a truly autonomous car would open up a new world; safe transport for the elderly, fewer fatalities, easier commutes, and the like, we may be a few major traffic law changes away from that world, and Tesla can't change that yet.

---- COLD WEATHER KILLS YOUR TESLA: There are so many common glitches that go on with a Tesla that drivers have become paranoid of serious troubles, especially anything involving that precious battery. If you haven't tested one out in cold weather, don't be alarmed at that slow acceleration, it's normal. Yep. If you buy a \$35,000 (and up!) vehicle, you can expect that the cold air will affect the battery just like it would any other vehicle. But cold prevents the battery from regenerating as quickly as it typically would, which limits the driver's ability to move faster. It sounds simple in retrospect, but it can be a frightening few minutes for a Tesla owner to discover their car is having trouble moving quickly.

---- ACCELERATION SURGE DEFECTS WILL KILL YOU: Contrary to what Elon Musk has claimed on social media, Tesla has been accused of having a fatality rate that's more than triple what you see in luxury vehicles. Musk claims that Tesla's are the safest vehicles on the road, which is either an ill-researched claim or a blatant lie on his part. Since his stats are based on vehicle miles (rather than vehicle years) it leads you to an inaccurate conclusion, and we don't actually know how many miles these vehicles have traveled, and this also leaves out passengers. After thorough research, many of the Tesla accidents weren't even properly coded, meaning that Musk's claim leaves out several accidents within the US and other countries (such as China) that have higher accident rates. Really, this could all be because of accident-prone drunk Tesla owners who are, mostly, drunk douche bags.

---- CONSTANT RATTLING NOISES: The little things in life shouldn't bother you, but when it's an incessant rattling noise in your brand-new luxury car, those little things can be difficult to ignore. There's a common problem with Teslas experiencing rattling in several areas of the cars. Owners have taken their cars to service centers numerous times for this issue but a very rare few have seen the annoyance resolved. In fact, a few have even documented their experience online, while some have even received their car from the service center only to discover that the rattle has not gone away plus there is a new one! It shouldn't be blown out of proportion, but the fact of the matter is that consumers have put a lot of their money into these cars and they expect a decent level of quality so if problems occur then some resolutions would be nice.

---- TESLA SOLAR STUFF IS NEVER IN STOCK: Lesser known than Tesla's famed electric vehicles is the Solar Roof and Powerwall. As the names imply, these are solar panels that store energy that is even cleaner for the car to run off of. Just two years into this accessory, though, sales have dropped over 70% from their peak. The Powerwall 2 is said to lose 70% of its efficiency after 10 years and solar tiles are close to \$42 per square foot, which is part of why most consumers steer clear. Investors aren't extremely pleased with the outcome of SolarCity's products (which Musk has endorsed with open arms), but the signs were written on the walls, as it were. If solar panels were cheap enough for everyone to afford, wouldn't we all have

them on our houses? Since they don't even have a guaranteed longevity, consumers generally feel that the Powerwall and Solar Roof are simply not worth it. In the home solar markets, even if consumers beg for the still "available" Powerwall or new shingle-replacing solar roof, it's almost guaranteed they won't be able to find or get any of them anywhere!

---- TESLA CUSTOMER SUPPORT JUST SUCKS: The underworld of the customer service department is dreaded by customers of just about any major corporation. No customer wants to call in and get passed around from rep to rep and robot to robot. You'd think that Tesla would have come up with a more efficient way to handle their 'valued' customers' problems and have a decent customer service team. That's wishful thinking, though. If you need any help, particularly with SolarCity's products, then you can forget ever getting through to anyone the first time. Attempting to get ahold of the 'right' representative is a game of cat-and-mouse, and you'll have a pretty challenging time catching them in a spare moment (when they can actually speak, at all).

---- TESLA IS ALWAYS ON THE VERGE OF BANKRUPTCY: While it's no secret that Tesla has struggled with sales, it raises a few questions about what that means for the future of the corporation. We don't really know how close Tesla truly came to going under, seeing as how Elon Musk has repeatedly glossed over Tesla's issues instead of being frank about things (e.g., the SolarCity investments, accident rates, etc). So, Musk's exasperated croaks of how Tesla nearly went bankrupt almost sound like the boy who cried wolf, at least from an outside perspective. If Musk is being honest about the company's financial struggles, then the future looks bleak. Scraping by when the economy is relatively stable is not a good sign for a new car company, and what happens when those battery costs skyrocket? No one is going to be willing to pay more than \$40k for a base Model 3.

---- TESLA CARS HAVE AWFUL BODY PANEL GAPS: You don't have to give a Tesla, specifically the Model 3, a thorough inspection to notice that there's an insane amount of space between the body in some parts and less in others. It's not an overly invasive issue, but when you're paying around \$35,000 for a car, there are a few minimum expectations that should be met. One of those is definitely a clean look. Each of the Tesla models has perfectly executed an aerodynamic style, with concealed handles and sleek lines, which makes the gap that much more noticeable to anyone who happens to glance in the direction of a Model 3. Since Tesla factory workers have been killing each other in Tesla's parking lot in Fremont, you can't expect too much from them.

---- DEADLY TESLA DOOR HANDLES: One of the most notable characteristics of every Tesla is their futuristic door handles that pop out with ease. The higher-end models have nice, metal handles with chrome finishes. However, if you happen to compare, say, a Model S to a Model 3, you'll immediately notice the lack of strength behind the latter's handles. Not only are the door handles on the Model 3 thinner, but they seem to be made with inferior materials to the higher-tier models. There have even been a few people who have had the door handles freeze to the car, leaving them unable to get inside. We have to note that there hasn't been a plague of door handle issues, so this isn't an official defect, but it's more of a cosmetic problem that could become a mechanical one in the future.

---- TESLA CARS ADD AWFUL INCONVENIENCE TO YOUR LIFE: The naïve car buyer is often led to believe that electric cars are all ponies and rainbows. However, many manufacturers acknowledge that we have yet to get everything down to a science. Plus, there's a learning

curve for those new to EVs, which is why most semi-electric cars are still able to be powered with gasoline. The serious drawback with a Tesla is the lack of a safety net should the battery run dead. Jumper cables are entirely out of the question, which is why owners of EV's get anxiety on road trips and long-distance commutes. The remaining range can be inaccurate, potentially leaving a driver stranded if they don't judge their car's abilities correctly.

---- TESLA'S ALL LOOK ALIKE AND ARE NOW RUN-OF-THE-MILL: Although this isn't much of a shock at all, little fail to recognize the total lack of variety that's offered in the Tesla fleet. Of course, the higher-end models have prettier finishes and tend to look nice no matter what, but each and every Tesla is almost identical. This is obviously the case with everyday run-of-the-mill vehicles as well, but that's sort of the point, isn't it? If you're spending a good chunk of change to claim that over-hyped Tesla as your own, wouldn't it be nice if you at least had a decent amount of options to truly make it feel like your own? For what you're paying, it seems like there should already be a plethora of options.

---- ABOVE ALL ELSE: Tesla's battery system is the worst designed, most deadly, awful power system in history! IT WILL KILL YOU AND BURN YOUR FAMILY ALIVE, LIKE IT HAS DONE TO MANY TESLA VICTIMS ---Also see the additional Tesla issues, above, involving 'rare earth mines', 'lithium battery dangers', 'Elon Musk's constant use of "hit-men" and character assassins' to destroy competitors and reporters, the vast racism and women abuse and the dead workers poisoned in his battery factories around the globe.

## **THE DEADLY LITHIUM BATTERY POLITICAL PROFITEERING LIES OF THE DEPARTMENT OF ENERGY**

The Mine-To-Wheelbase cost of lithium batteries, as opposed to NICAD and other batteries, is the most expensive in the world, of any energy storage option, and gets more expensive every year. When you include in the costs the: poisoned workers medical costs; the replacement costs of the homes and offices destroyed by lithium ion fires and explosions; the Congo genocides and child labor; the wars to get those minerals from foreign nations that hate the U.S.; the mitigation expenses from the toxins in the soil from dumping the depleted batteries and other costs lithium ion batteries are LITERALLY the worst option on Earth!

Fuel Cell electric cars solve all of the problems of lithium ion electric cars but DNC billionaires own the mines for lithium ion batteries, so they sabotage and blockade fuel cell electric cars. As warned, there is not enough lithium ion to solve America's electric car problem and the whole lithium ion electric car industry has crashed as everyone realizes that what they were warned about lithium ion is true.

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

The Russian's left mining "Treasure Maps" behind in Afghanistan. But; were those "Treasure Maps" a trick or a treat? The maps claimed to show ten trillion dollars of electric car minerals hidden in the Afghan desert... but was that all a lie?

To this day, controversy exists across the intelligence communities, of many nations, about whether, or not, those maps were a scam created to "trick the American's" or the actual locations of trillions of dollars of mining deals that were "antibody's for the taking". The papers that the CIA geologists pulled out of that archival library in Kabul, Afghanistan still read to be a bit too convenient for what happened next.

Decades later, after an invasion or two, and vast expenditures of cash, political capitol and lives, very little of the promised golden mining treasure has materialized. What has materialized is epic corruption, political payola, campaign secrets, deaths and controversy.

Goldman Sachs, McKinsey Consulting and Deloitte helped a few rogue CIA buddies distribute a huge number of white papers and press releases which used the buzz words: "Trillions of dollars of lithium in Afghanistan" and "Afghanistan is the Saudi Arabia of Lithium". Why would those particular companies put so much effort into hyping a pile of dirt on the other side of the planet? The answer lies in who they hyped it to and who took the bait. It turns out, most of the money that flowed through this (probable) scam financed the Obama campaign. It also turns out that those who skimmed profits from this vast flowing river of corruption sludge were Elon Musk, John Doerr, Eric Schmidt, Steve Jurvetson and the very pack of investors who co-funded the Obama

campaign. They were also the very same people who, exclusively, got the only cash from the Obama Administration.

They are also the very same people who had partnered with the Russian mining companies who were standing by to go back into Afghanistan to dig up this magical dirt-pile. Where "covert mining deals" were never a big election deal, in 2016, thanks to some monumental document leaks, they became one of the biggest deals in U.S. history..and not in a good way.

Lithium ion batteries are blowing up, starting fires and, generally, destroying people's homes, cars, electronics and physical health. Boeing was just ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously.

A group of silicon valley venture capitalists forced/leveraged the government to buy and pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about this from day one but put greed ahead of safety. There are thousands and thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up.

Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught.

There are vast sets of other links proving the point.

Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer:

“Thermal runaway is of major concern since a single incident can lead to significant property damage and, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, and sufficient heat to lead to the combustion and destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke and fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked.”

Tesla's own staff have now admitted that once a lithium ion fire gets started in one of their cars, it is almost impossible to extinguish burning lithium ion material. This is Tesla's own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can “go thermal” and start a chain reaction! If you look at all of the referenced YOUTUBE movies you will see how easy it is to set these things into danger mode.

Imagine a car crash with a Tesla where these 6800 batteries get slammed all over and then exposed to rain, fire hose water, water on the roads, cooling system liquid.. OMG!! And then if, in that same accident the other car is a gasoline car... getting burned alive sounds “BAD”! Tesla is covering up the problems with its batteries.

LION batteries have already crashed a UPS plane and killed people. Look here:  
<http://washingtonexaminer.com/dreamliner-fires-spark-new-doubts-about-a-green-energy-technology/article/2519353>

Tesla and Fisker have only sold a few hundred cars, (thank god) because nobody but dicks want these overpriced eliteist toys. A regular car company sells hundreds of thousands of cars per model. Every single Tesla or Fisker sold increases the likelihood of a burn up. Those burn-ups will affect the homes, cars and lives of the people next door who never even bought one.

Go to <http://www.youtube.com> and type into the search window:

“Lithium ion explosion” or “lithium battery and water” or “lithium ion water” and any related derivation and you will find hundreds of videos about how dangerous these batteries are.

This article in the LA Times sheds more light of the horrors of Lithium Ion:

<http://articles.latimes.com/2013/jan/18/business/la-fi-dreamliner-battery-20130119>

Lithium Ion batteries “go thermal” in peoples pockets, in your notebook, especially in your Tesla and Fisker car and everywhere else. There are thousands and thousands of articles documenting this and there is a cover-up by the VC's that fund these things to keep this fact out-of-sight.

Making Lithium Ion batteries poisons the workers who make them. It is a dangerous product. Each time the workers, particularly in Asia, realize they are being poisoned by the factory, they jack up the product.

In the report: The Afghanistan Mining Scam Failure, G.I. Dough - The U.S. Spent a Half Billion on Mining in Afghanistan With 'Limited Progress' - Megan McCloskey reveals that ProPublica is investigating how billions of U.S. tax dollars have been spent on questionable or failed projects and how those responsible for this waste are rarely held accountable.

The Military Built Another Multimillion-Dollar Building in Afghanistan That No One Used The United States has spent nearly half a billion dollars and five years developing Afghanistan's oil, gas and minerals industries — and has little to show for it, a government watchdog reported today.

The project's failings are the result of poorly planned programs, inadequate infrastructure and a challenging partnership with the Afghan government, the Special Inspector General for Afghanistan

Reconstruction wrote in its newest damning assessment of U.S. efforts in the war-torn country. The

finding comes after some 200 SIGAR reports have detailed inefficient, unsuccessful or downright wasteful reconstruction projects. A recent ProPublica analysis of the reports found that there has been at

least \$17 billion in questionable spending.

We Blew \$17 Billion in Afghanistan. How Would You Have Spent It?

Here's just what the Special Inspector General for Afghanistan Reconstruction found. See for yourself

how that money could have been used at home. Explore the app. The United States Agency for International Development and a Pentagon task force were in charge of developing a so-called "extractive" industry in Afghanistan — basically a system for getting precious

resources out of the ground and to the commercial market. SIGAR called out both USAID and the Defense Department last year for their failures to coordinate and to ascertain the ability of Afghans to

sustain the project, which unsurprisingly is not promising. In fact, when international aid stopped supporting the Afghan office responsible for oversight of the petroleum and natural gas industries, two-

thirds of the staff were fired.

Exploiting these resources, which are estimated to be worth as much as \$1 trillion, is pivotal to Afghanistan's economic future. SIGAR noted that the Afghan government has shown progress under

USAID's tutelage in regulating and developing the commercial export of the resources. But the report

said the project was still hampered by corruption, structural problems and a lack of infrastructure for

the mining industry, such as reliable roads. Many of the mines operate illegally, with some profit going

to the insurgency, SIGAR said.

When it came to individual extractive projects, there was little progress made, the IG found.

The controversial Pentagon task force in charge of much of the effort, the Task Force for Business Stability Operations, spent \$215 million on 11 extractive programs, but "after operating in Afghanistan

for 5 years, TFBSO left with nearly all of its extractive projects incomplete," SIGAR found. Three of the programs technically met objectives, but one of those is of questionable value at best. The task

force built a gas station for an outrageously inflated cost and in the end it didn't have any customers. So

while the objective to create the station was achieved, SIGAR doubted it was a worthwhile venture.

The task force, made up of mostly civilian business experts and designed to develop the Afghan economy, has come under fire from SIGAR and Congress for demanding unusual and expensive accommodations in the country, allegedly punishing a whistleblower, and lacking overall accountability. The Senate is holding a hearing on the task force next week.

In today's report, SIGAR highlighted that the task force spent \$46.5 million to try to convince companies to agree to develop the resources, but not one ended up signing a contract. About \$122

million worth of task force programs had mixed results, SIGAR said.

The Defense Department declined SIGAR's request to comment on its findings. In its response, USAID

said it has helped Afghanistan "enact investor-friendly extractive legislation, improve the ability to market, negotiate and regulate contracts, and generate geological data to identify areas of interest to

attract investors." Any conclusions and criticisms, USAID told SIGAR, "need to be substantially tempered by the reality that mining is a long-term endeavor."

By David Shepardson

DETROIT (Reuters) - The Obama administration will announce efforts to boost self-driving cars on Thursday, and President Barack Obama may discuss advanced transportation efforts in his final State of

the Union Address on Tuesday, according to government officials.

Mark Rosekind, head of the National Highway Traffic Safety Administration, told reporters that Transportation Secretary Anthony Foxx will be in Detroit to talk about efforts by the Obama administration to speed the introduction of self-driving vehicles.

"Thursday is huge because this is the White House telling you that the secretary is going to be

here to

amplify stuff that is coming out of the State of the Union, and it's focused on self-driving cars," Rosekind told reporters in Detroit.

There is not yet a clear legal framework governing their presence on U.S. roads.

Automakers and technology companies such as Alphabet Inc's Google have called on regulators to

clarify guidelines for introduction of autonomous driving technology, in part out of concern that a mishap involving a self-driving car could result in costly litigation.

A Google spokesman said the company will take part in Thursday's announcement by Foxx.

Detroit

automakers are also likely to participate.

In December, Rosekind said he opposes a "patchwork" of state regulations on driverless cars and promised a "nimble, flexible" approach to writing new rules for self-driving vehicles. (Reporting by David Shepardson; Editing by Bill Rigby and Dan Grebler)

The Alphabet Inc. company wants to announce some of those joint efforts during 2016, John Krafcik,

with North American International Auto Show.

Almost every automaker "has been in to speak with us, if only to understand where we are,"

Atkinson, 63, stepped down in December from her post in U.S. President Barack Obama's administration as an emissary to the Group of 20 economies, negotiating behind-the-scenes on agreements of international scope and significance. Google, a unit of Alphabet Inc., currently faces

probes from both federal and European regulators into its businesses, as the company's increasing

The future of Silicon Valley may lie in the mountains of Afghanistan

The future of Silicon Valley's technological prowess may well lie in the war-scarred mountains and salt

flats of Western Afghanistan.

United States Geological Survey teams discovered one of the world's largest untapped reserves of lithium there six years ago. The USGS was scouting the volatile country at the behest of the U.S. Department of Defense's Task Force for Business and Stability Operations. Lithium is a soft metal used

to make the lithium-ion and lithium-polymer batteries essential for powering desktop computers, laptops, smartphones, and tablets. And increasingly, electric cars like Tesla's.

The vast discovery could very well propel Afghanistan — a war-ravaged land with a population of 31

million largely uneducated Pashtuns and Tajiks, and whose primary exports today are opium, hashish,

and marijuana — into becoming the world's next "Saudi Arabia of lithium," according to an internal

Pentagon memo cited by the New York Times.

The USGS survey report on Afghanistan that detailed the findings also noted that, in addition to lithium, the country also contains huge deposits of iron ore, gold, cobalt, copper, and potash, among

many other valuable minerals.

"The mineral wealth there is astonishing," said professor Michel Chossudovsky of the Montreal-based

Center for Research and Globalization, who has written extensively on Afghanistan.

A conservative estimate of the riches is \$1 trillion. In some circles, it's as high as \$5 trillion. Above:

A typical lithium "button" cell found in many small electronics.

In Silicon Valley and beyond, tech companies like Apple, Google, Amazon, Microsoft, Hewlett-Packard, Samsung, Sony, and Tesla rely on continual, and uninterrupted, access to lithium, as lithium-

based batteries are the primary power storage devices in their mobile hardware.

Without these batteries, MacBooks, iPads, iPhones, Kindles, Nooks, Galaxy IIIs, Chromebooks, and,

yes, Tesla Model S cars would be largely worthless. If forced to use older, nonlithium batteries, their

battery lives would certainly be much shorter.

The world's current lithium heavyweight is Bolivia, the biggest exporter of the element. There, in the

swamps and marshlands of the southern region of the country near where the borders of Chile and

Argentina meet, are the biggest deposits.

Canada, China, Australia, and Serbia also have varying amounts of lithium, but not as much as Bolivia.

Or apparently, Afghanistan.

Enough to last a lifetime

Depending on who you talk to, the current lithium global reserves are adequate for at least another

generation of lithium-ion battery manufacturers to produce them.

But not everybody thinks so, and some say the light metal compound may someday run dry. That could

in turn spell trouble for any company whose business depends on light and portable mobile

electronics

— unless someone comes up with an alternative to lithium batteries before then.

The experts VentureBeat interviewed pointed to sharp year-on-year increases in the demand for lithium.

That's putting heavy pressure on existing stockpiles.

According to Lithium Americas, a Canadian lithium-mining company with significant business interests in Argentina, lithium demand will more than double in the next 10 years, while lithium prices

have nearly quadrupled during the same timeframe.

Tesla, for its part, is in the process of investing up to \$5 billion to build its own lithium-ion Gigafactory

in Texas, a plant capable of churning out 500,000 expensive battery packs a year by 2020 for its line of

zero-emission, all-electric cars. Above: Tesla predicts that its "Gigafactory" will produce more lithium batteries (by capacity) in 2020

than the entire global production of such batteries in 2013.

Image Credit: Tesla Motors

A Tesla spokeswoman did not return calls seeking comment.

As a potential source to feed that demand, enter Afghanistan.

"At some point, if present trends continue, demand [for lithium] will outstrip the supply. And again, at

some point, the market for lithium-ion could get so big that it actually affects the supply chain," said

Donald R. Sadoway, a professor of the Materials Chemistry Department of Materials Science and Engineering at MIT.

Looking at Afghanistan, Sadoway says the war-ravaged nation, which has no effective mining infrastructure in place, may well be attractive to the world's mining outfits.

"In this regard," Sadoway, one of the world's foremost experts on energy sources, says, "the deposits in

Afghanistan could be important."

Andrew Chung, a venture capitalist with Khosla Ventures in Silicon Valley who has invested in multiple startups producing alternative batteries, says lithium-ion batteries are limited in their lifetime

cycles, scalability, and cost. Despite this, Chung says, he can understand how the untapped reserves of

Afghan lithium are now an increasing focus.

"It is an issue of the supply chain, whether it's Afghanistan or other [countries]. There is a finite supply,

and lithium-ion will continue to be the [power] choice for the next decade," Chung said.

Some of the Valley's biggest and most powerful tech companies either declined to comment for this

story or never returned calls. But they didn't deny the importance of lithium-ion batteries.

For instance, an Apple spokesperson declined to comment for this story but provided VentureBeat with a 2014 "Suppliers List" of the 200-plus vendors it uses to produce its products. A related post made the

Cupertino, Calif.-based company's commitment to lithium batteries clear, at least in the short term.

"Rechargeable, lithium-based technology currently provides the best performance for your Apple

notebook computer, iPod, iPhone, or iPad," the Apple post says. Sony Energy Devices Corp. invented the lithium-ion battery in 1994. It was hailed as a breakthrough, providing longer battery life and without the "memory effect" that gradually reduced the effective capacity of previous types of batteries. Since then, companies have gradually refined lithium battery technology but have not succeeded in moving beyond it. Indeed, early Tesla cars are actually powered by large packs of industry-standard lithium-ion battery cells — the same type of cells found in many laptop batteries. And here is where it gets interesting. Sharply increasing demand

Above: The custom battery pack Tesla uses for its Tesla Model S. Inside are hundreds of lithium cells.

Image Credit: Tesla Motors

If electric car manufacturers begin ramping up production of lithium-ion battery-powered cars, the global demand for lithium will skyrocket. This could potentially come about at the same time for increasing demand for handheld consumer goods like tablets and laptops, Chung said, thus creating a perfect storm.

"So you want to start looking at other sources producing it with current supplies being called into question, if we move more toward production of electric cars," Chung said. Which is why, increasingly, eyes are turning to Afghanistan and its new purported lithium reserves, a country long referred to as the "graveyard of empires." The U.S. invaded Afghanistan after the terror attacks of Sept. 11, 2001, and according to iCasualties, 2,315 American servicemen and women have been killed there.

Analyst Jay Jacobs of Global X Funds in New York, which has interests in lithium mining, said demand for the compound is growing, and that "there are two regions that have been revealed to contain huge lithium reserves: Afghanistan and Bolivia."

William Tahil, a respected lithium expert who lives in France and is the general director for Material International Research, argues that lithium deposits in Bolivia will at some point be depleted. Jacobs was sanguine about safely extracting lithium from Afghanistan. He said political risks there were considerable.

"With that being said, should there be a substantial and sustained increase in demand for lithium, lithium miners may become increasingly interested in the country as it has an abundance of the resource," Jacobs said.

It was the Soviets who first discovered the country's deposits when they invaded in 1979. Soviet geologists began mapping Afghanistan's lithium, gold, and potash fields but abandoned their efforts after the former communist superpower pulled out of the country in 1989. But with a weak and corruption-plagued "central government," Afghanistan is now ripe for the picking,

Chossudovsky said. Indeed, the country is still very much divided into fiefdoms, with the Muslim fundamentalist Taliban, warlords, and drug traffickers controlling large swaths of the country — and using violence to advance their interests.

“There’s no question the mining companies will go in there. No question. There’s no real functioning government there to reap the foreign investment of the mineral deposits. This makes it all the more enticing to the mining companies because nobody in the government of [President] Hamid Karzai will be regulating the bonanza of lithium, so they can do what they want,” he said.

For its part, the U.S. government, which helped locate the lithium deposits using flyovers with a sensor-filled Lockheed P-3 Orion and teams of geologists fielding soil samples, knows a potential gold

rush when it sees one. And it has no intention of being left on the sidelines. Especially since the Chinese are now — and quickly — making deals with Afghan pols for mineral rights to copper deposits.

The USGS did return multiple calls seeking comment. Nor did the Pentagon.

Despite what some say are the shortcomings of lithium-ion batteries, venture capitalists and investors

continue pouring money into them. Amprius, a lithium battery maker based in Sunnyvale, Calif., snared a \$30 million infusion round of investor cash in January.

Over at the Afghan embassy in Washington, D.C., the Afghans are licking their lips at the potential lithium and mineral windfall despite the country’s continued conflict with a resurgent Taliban.

What

this may portend for the impoverished and war-torn nation is anybody’s guess. But the Afghans are

playing up the finds — or they were, until recently.

“In recent years, headlines from the Afghan mineral sector have competed to outdo each other in scale:

from the landmark \$3 billion Chinese investment in the Aynak copper concession to the astounding

survey work of the U.S., Afghan, and British Geological Services estimating anywhere between \$1 trillion and \$3 trillion in mineral potential, to the historic \$11 billion deal now being finalized with an

Indian consortium for the Hajigak iron ore concession,” said a posting on the Afghani Washington DC

website.

Afghanistan’s ambassador to the U.S., Eklil Hakimi, presided over a press conference at the Afghan embassy in Washington, D.C., on March 10, where he talked about the untapped deposits, along with

reps from the USGS and other U.S. politicians.

But Hakimi, through a spokesman, told me he simply didn’t have the time to talk.

## Scientists Discover That Lithium Ion Batteries Grow More Explosive Over Time

- Using lithium ion batteries in cars, hover-boards and other “high tasking” systems FORCES them to blow up more
- Chemicals degrade into more self-igniting states over time
- Use in a system with electric motors dramatically increases likelihood of explosions, self-ignition and release of cancer-causing, brain damaging fumes that can harm un-born infants
- Exposure to electric fields, high altitude radiation and water in air causes very much increased danger parameters
- Cover-up of safety issues charged because many Senators and Energy Department executives own stocks in Lithium Ion batteries
- Public welfare at risk due to political greed, per <http://lithium-ion.weebly.com/>
- Combining the type of chemicals that lithium ion batteries hold is like “making a blasting cap” warn researchers

Lithium ion batteries, when they burn, cause brain cancer, liver cancer and other, potentially lethal, toxic poisoning. Certain regulators are told to "ignore these issues" because certain lithium

ion investors donated cash to certain campaigns.

The chemicals for lithium ion batteries come from countries which needed to be invaded in order to monopolize the mining of those chemicals. Certain politicians are told to "ignore these issues" because certain lithium ion investors engaged in war profiteering in order to control those minerals.

The FAA has issued numerous warnings and videos showing that lithium ion batteries do spontaneously self-ignite and crash airplanes. Numerous people have been killed in lithium ion plane crashes. Certain regulators are told to "ignore these issues" because certain lithium ion investors donated cash to certain campaigns.

Lithium ion batteries have self-ignited and set numerous children and senior citizens on fire. They have set homes on fire. They have set offices on fire. They have set Apple Stores on fire. You constantly hear about passenger airlines being forced to land because passengers "smell smoke in the cabin". This is almost always a lithium ion battery going off in the cabin and exposing all of the passengers to it's carcinogenic ignition vapors.

Silicon Valley investors took over the lithium ion battery market, along with Goldman Sachs, because they knew they were getting large government hand-outs from the Department of Energy in exchange for campaign contributions.

Lithium ion batteries lose their power and memory over a relatively short time.

Lithium ion batteries blow up when they get wet or bumped. Fisker Motors went out of business when millions of dollars of Fisker cars, using lithium ion batteries, got wet and all blew up.

Tesla battery packs have blown up, on multiple occasions, from simply hitting bumps in the road.

Manufacturing these kinds of batteries is so toxic that even China, a country known for the most minimal regulations, has closed a huge number of battery factories because of the massive numbers of deaths they caused to workers and nearby

residents.

Journalists have published a glut of articles exposing cover-ups about the dangers and corruption involved with lithium ion batteries. The U.S. Government and numerous groups have filed charges against Panasonic, and similar battery companies for bribery, corruption, dumping, price fixing and other unethical tactics.

Every key investor in lithium ion was also a campaign donor who also received huge federal cash from the Department of Energy in the same funding cycle in which they paid campaign contributions.

- The Trillion dollar + Lithium-ion industry pays over a billion dollars a year to elected officials, appointed officials, their staff and lobbyists in order to get them to cover up the facts listed here and to promote this dangerous chemical for profit. Many of those have family stock in lithium-ion companies, private sector job promises and PAC funding from lithium-ion companies. Why won't the people who are using lithium-ion stop using it? Why is there almost no regulation of deadly lithium-ion? The answer: [KICKBACKS!](#)

- If you are exposed to burning lithium-ion from a burning car, iPad, phone, [airplane](#), [FED-Ex](#) or [UPS truck](#), or other fire from lithium-ion batteries, the smoke and vapors that you inhale are some of the most cancer-causing, brain-damaging, lung damaging liver poisoning chemicals you could be exposed to. - Lithium-ion batteries are made in "concentration camp-like" fenced-in compounds where low income workers are exposed to poison gas and powders from the lithium-ion manufacturing process. A dramatically large group of these workers die from the cancers and toxic poisoning from these factories. They have always been made in overseas, impoverished, regions because there is little or no occupational safety regulation there. Tesla's factory has been fined by OSHA for setting workers on fire. This is a very deadly business. Now they are trying to build these factories in the American southwest to try to exploit Mexican workers like they do overseas. Some argue that large "white man owned" corporations "fighting for immigration rights" are really fighting to relax laws to allow cheap labor into these kinds of camp-factories in the desert. Some of the factory owners have even purchased multiple lots, in multiple southern states, and told investors that they will "build on the one where we can buy control of the most local politicians".

- The makers of lithium ion batteries have issued a document called the "MSDS". It states known facts about the batteries. The MSDS warns firefighters they can get cancer. It warns that the batteries are toxic. It clearly states the very great dangers of spontaneous, or easily caused fire from bumps or moisture. Why did Panasonic kill it's MSDS web links the day the first Tesla fires hit the news? Look at the facts [HERE](#).

- Lithium-ion batteries seem to have caused some wars. At [THIS LINK](#), you will see hundreds of facts, films and links showing the direct connection between lithium ion investors in Silicon Valley and wars for ore in middle east countries.

- [Silicon Valley Lithium-ion investors signed deal with Russian "businessmen"](#) to create an international lithium ion cartel.

- IPAD Lithium-ion batteries have blown up setting entire stores on fire.

- Samsung lithium-ion batteries in cell phones have set a number of people, including many children, on fire.

- Lithium-ion does not even work as well as other lower-cost, safer energy solutions:

- The charge-keeping capability of a typical lithium-ion battery degrades steadily over time and with use. After only one or two years of use, the runtime of a laptop or cell phone battery is reduced to the point where the user experience is significantly impacted. For example, the runtime of a typical 4-hour laptop battery drops to only about 2.5 hours after 3,000 hours of use. By contrast, the latest fuel cells continue to deliver nearly their original levels of runtime well past the 2,000 and 3,000 hour marks and are still going strong at 5,000+ hours.

- The electrical capacity of batteries has not kept up with the increasing power consumption of electronic devices. Features such as W-LAN, higher CPU speed, "always-on", large and bright displays and many others are important for the user but severely limited by today's battery life. Lithium ion batteries, and lithium-polymer batteries have almost reached fundamental limits. A laptop playing a DVD today has a runtime of just above one hour on one battery pack, which is clearly not acceptable.

- Silicon Valley [Lithium-ion billionaires](#) try to exploit the lack of public awareness with disinformation campaigns linking anti-lithium-ion to saying that you are anti-environment. In fact: Lithium ion use and manufacturing is one of the most toxic industries on the planet.

- Lithium-ion battery companies have actually been charged with, and sued for organized crime. [HERE IS AN EXAMPLE](#)

#### 1. Overview

Regulators asked Tesla to detail the possible consequences of battery pack damage to the Model S and how those problems were addressed in the Model S design. NHTSA also asked Tesla to describe the "limits of that design to prevent damage to the propulsion battery, stalling and fires". While electric cars have been in commercial production since the 1800's, and have been widely released by major automobile manufacturers, only the Tesla vehicles have experienced the fire issues, relative-to-inventory, in this magnitude. The questions and data required by NHTSA, in the letter from NHTSA, contained below, demands disclosure of certain Tesla information which will reveal conflicts in previously provided Tesla data. Reporters and public interest law firms will be using the FOIA process to disclose the responses, required under federal law, in the public interest.

## 3. Safety Tests That Were Never Conducted and Must Now Be Conducted.

The continued failure to engage in these tests, and/or provide the results from these tests, continues to call into question the efficacy and conflicts of interest of the original testing. The batteries used by Tesla were never designed, or created, to be used in automobiles and this short-cut to cost reduction must be mitigated by the relative increase in safety reduction.

6. Are Tesla drivers more likely to get in accidents than mainstream drivers?

Sociological reports, such as the report below, confirm that Tesla drivers are more likely to drive drunk, use drugs and respect less laws:

Various crash reports find that a large number of Tesla drivers drive drunk. Here is a typical mocking web graphic pointing out this fact:

Tesla related investors engage in this sort of extreme behavior and use their resources to promote the car as a tool to skirt social bounds with speed and sex. Skirting social bounds often lies close to skirting laws and common sense. Here are reports on activities and personalities of these people who promote the vehicle:

<http://vcracket.weebly.com>

A Tesla Driver is now charged with the homicide of two people in a crash with their Tesla.

The evidence shows that Tesla drivers and the Tesla Culture promotes extra-carelessness, extra arrogance, extra drinking, extra distraction due to sexual theatrics and an overall requirement to create higher-than-normal safety parameters for these drivers, particularly in light of the highly explosive bed of material they are driving around amongst other consumers and structures. Tesla drivers appear to be more likely to crash, or create lithium ion thermal event circumstances, because of the cultural dynamic which Tesla attracts.

#### 7. Original participant conflicts-of-interest created reduced safety oversight

A certain, specific, group of investors, known to the FBI, The GAO, The SEC and the Senate Ethics Committee, purchased undo influence on the previous Tesla decisions process, in order to acquire "unjust rewards" from the U.S. Treasury. These investors, coincidentally, provided funds to related campaign efforts and, shockingly, they all hold major investments in the very battery system in question.

Because of this, the American consumer has been forced to "accidentally" conduct some of these tests at great personal risk to those consumers. These risks should have been disclosed by Tesla prior to the application for their DOE loan and prior to their first contact with NHTSA. Tesla produced documents show that Tesla was aware of the dangers disclosed herein.

Tesla Motors Inc. TSLA shares tanked after a video of a Model S on fire circulated on the web, prompting the electric car company to move quickly to douse the flames of bad publicity.

Elizabeth Jarvis-Shean, director of global communications at Tesla, confirmed that the vehicle engulfed in flames was indeed a Tesla but stressed that the driver walked away without injuries.

Tesla Issues Statement On Fiery Car Crash That Caused The Stock To Tank

MMamta Badkar Oct. 2, 2013, 3:45 PM 13,469 11

tesla  
Aj Gill via YouTube

Tesla's stock was down over 7% to a low of \$175.40 today, but pared some of its losses to close down 6.24% at \$180.95.

It appears that shares began to tumble in the last half hour on reports that a Tesla Model S car caught fire on Washington State Route 167.

Some speculated that the video highlights problems with the car's battery. Though others rushed to point out that the battery is located in the back of the car.

"Media finds that "Safety Investigators" (read "SHILLS") are bribed by VC's and lithium holding companies to say "nothing to see here", "lithium batteries are probably ok". Beware of NTSB "consultant's" and "investigators" who are being bribed, offered after-politics high pay jobs, called up by bribed congressional staff with "suggestions", given sports tickets, handed stock in certain ventures and other bribes. Many of the "investigators" need to be put under investigation

themselves!!!! When you see an investigator talking about how lithium ion is a wonderful thing, investigate them!"

The following are a variety of quotes, from across the web, demonstrating the critical nature of this public safety issue:

"Lithium ion batteries are blowing up, starting fires and, generally, destroying people's homes, cars, electronics and physical health. Boeing was just ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously."

"A group of silicon valley venture capitalists forced/leveraged the government to buy and pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about this from day one but put greed ahead of safety. There are thousands and thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's own stock in lithium mining companies too."

"Here is the Fisker Karma after it got wet and the batteries blew up. These batteries blow up JUST FROM GETTING WET! ALL of these burned up hulks are brand new \$100,000.00+ cars that just blew up and torched everything around them just because they got wet! How bad do you want a Fisker or Tesla now? Fisker's insurance company is balking at paying for this saying: "You knew this would happen".

HERE IS THE BATTERY YOU COULD HAVE BEEN SITTING ON TOP OF IN A TESLA

Picture

THIS IS THE TESLA MAGIC CARPET OF DOOM. THIS WHOLE THING IS FULL OF LITHIUM. YOUR WHOLE FAMILY IS SUPPOSED TO SIT ON TOP OF THIS!!!

TESLA HAS TO TEST THEIR BATTERIES IN a BLAST CHAMBER!!!!!!!:

Picture

IF TESLA SAYS THIS THING IS SO SAFE WHY DO THEY TEST IT IN A STEEL ENCLOSED EXPLOSION ROOM WITH WIRES COMING IN THROUGH BLAST HOLES!!!!???????

"TESLA ELECTRIC CARS HAVE 6800 CHANCES OF "GOING THERMAL".

"TESLA ELECTRIC CAR BATTERIES ARE MORE LIKELY TO BLOW UP." SAYS STANFORD ENGINEER, "USING LITHIUM ION IN AN ELECTRIC CAR DOUBLES THE CHANCES IT WILL EXPLODE OR GO THERMAL BECAUSE AN ELECTRIC CAR PUSHES IT FURTHER THAN ANYTHING ELSE. BOEING HAD MANY SAFETY CIRCUITS AND EVEN THOSE FAILED. THERE IS NO WAY THE TESLA SAFETY CIRCUITS WILL NOT EVENTUALLY FAIL"

"Tesla Electric cars have 6800 lithium ion batteries wedged into a box. This can create a repercussive thermal event that can set the whole car off. The TESLA 18650 batteries can be seen exploding in multiple YOUTUBE videos. It is NOT TRUE that they are "an entirely different battery" they are the same chemical compound that blows up."

"A direct quote from Tesla's patent application, below. Tesla KNEW this was going to happen and never adequately warned anybody. Tesla wrote these words in the federal papers they filed yet they never showed these words to any buyers :

"Thermal runaway is of major concern since a single incident can lead to significant property damage and, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, and sufficient heat to lead to the combustion and destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial

destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke and fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked.”

“WTF!!!!!!

Tesla’s own staff have now admitted that once a lithium ion fire gets started in one of their cars, it is almost impossible to extinguish burning lithium ion material. This is Tesla’s own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can “go thermal” and start a chain reaction! If you look at all of the referenced YOUTUBE movies you will see how easy it is to set these things into danger mode.”

“Imagine a car crash with a Tesla where these 6800 batteries get slammed all over and then exposed to rain, fire hose water, water on the roads, cooling system liquid.. OMG!! And then if, in that same accident the other car is a gasoline car... getting burned alive sounds “BAD”! Tesla is covering up the problems with its batteries.”

“Lithium ion batteries have already crashed a UPS plane and killed people. Look here: <http://washingtonexaminer.com/dreamliner-fires-spark-new-doubts-about-a-green-energy-technology/article/2519353>”

“AS A DEMONSTRATION OF HOW DANGEROUS LITHIUM IS, NASA IS GOING TO MAKE IT BURN IN OUTER SPACE:

“If you’re along the Eastern Seaboard tonight, it might be worth your while to look at the sky this evening. NASA’s Wallops Flight Facility is scheduled to launch a sounding rocket that will release “two red-colored lithium vapor trails in space.”

As Space.com reports, those trails might be seen across the Mid-Atlantic and perhaps as far north as Canada and as far south as

northern Florida. Space.com explains how these trails will produce a “night sky show:”

“The sounding rocket that will be used to create the two NASA-made glowing cloud trails will be a Terrier-Improved Orion. In this technology test launch, two canisters in the rocket’s payload section will contain solid metal lithium rods or chips embedded in a thermite cake. The thermite is ignited and produces heat to vaporize the lithium.

“Once the vapor is released in space, it can be detected and tracked optically. The rocket will eject two streams of lithium which will be illuminated at high altitudes by the sun (which will be below the local horizon at ground level).”

In a statement, mission project manager Libby West said the launch is a test flight for two

upcoming missions. It'll give scientists a view of two different methods for creating lithium vapor trails. By the way, NASA says the "lithium combustion process poses no threat to the public during the release in space."

If lithium is so dangerous it will even burn in space, why are we putting it in our airplanes and cars???????

Making Lithium Ion batteries poisons the workers who make them. It is a dangerous product. Each time the workers, particularly in Asia, realize they are being poisoned by the factory, they jack up the product. Outlaw lithium ion batteries. Demand a recall."

There are PLENTY of other energy storage solutions that do not involve the highly compromised Lithium Ion chemistry!"

Report: Galaxy S 4 Lithium Explosion Burns Hong Kong Home To The Ground:

By Stephanie Mlot July 30, 2013

A Hong Kong couple have been displaced after an exploding Samsung Galaxy S 4 smartphone burst into flames, burning their house to a crisp.

The man, identified in the original Xianguo.com report only as Mr. Du, claims that his phone, battery, and charger were all legitimate Samsung products, but that's now difficult to confirm since his home and everything in it were destroyed.

According to the translated report, Du sat on the living room sofa playing the game “Love Machine” on his charging GS4 when it suddenly exploded. In the heat of the moment, he threw the device onto the couch, which caught fire. The flames then spread to the curtains and the rest of the house, “out of control,” Xianguo said.

Du, his wife, and his dogs managed to escape the house unscathed; neighbors were temporarily evacuated as firefighters fought the flames. Almost all of the couple’s furniture and appliances burned to ash, the news site said, adding that their Mercedes parked outside was also damaged.

Whether or not the true cause of an entire house fire was a singular 5-inch smartphone remains to be seen, though a fire department investigation initially resulted in a report of “no suspicious circumstances.”

Samsung did not immediately respond to PCMag’s request for comment, but told Xianguo that it will “carry out detailed investigations and tests to determine the cause of the incident.” Last year, a Galaxy S III owner in Dublin was driving in his car when the device caught fire. Cell phone safety is increasingly becoming an issue in Asia, where two cases of iPhone shock occurred within a week of each other this month. On July 11, a 23-year-old flight attendant with China Southern Airlines was allegedly electrocuted when she took a call on her Apple device while it was charging. She was reportedly using the original charger when she was killed.

Boeing 787 Dreamliner woes put spotlight on lithium ion battery risks  
BY KEN BENSINGER, Los Angeles Times

Chances are the same kind of battery that twice caught fire in Boeing 787 Dreamliners in recent weeks is in your pocket at this very moment.

Lithium ion batteries, small and powerful, have become the electricity storage device of choice. They are everywhere — in cellular phones, laptops, power tools, even cars. They allow us to talk, email and drill longer than ever possible in the past.

But the incidents that led to the grounding of the 787 fleet worldwide, and the decision by Boeing on Friday to temporarily halt all deliveries of the plane, have highlighted a troubling downside of these energy-dense dynamos: their tendency to occasionally burst into flames.

FOR THE RECORD: Dreamliner batteries: An article in the Jan. 19 Section A on lithium ion battery safety and the grounding of the Boeing 787 incorrectly described a fire in a Chevrolet Volt automobile. The battery did not ignite spontaneously; instead it burned after a crash test damaged the vehicle’s cooling system and the test car was left parked with the battery fully charged, eventually causing it to overheat. With investigators now working to determine the cause of the incidents, one on a Dreamliner on a Boston runway, the other forcing an emergency landing of a 787 in western Japan, the larger question of lithium ion safety has snapped into focus.

“Every battery can burn and every battery can be flammable,” said Mike Eskra, a Milwaukee-based battery development scientist who also works as a battery fire investigator for insurers. “But

lithium ion batteries are more dangerous because they store more energy. It's like a firecracker instead of a stick of dynamite."

The casualty list is long. In recent years, tens of thousands of laptop batteries have been recalled due to the risk of fire or explosion. The 400-pound lithium ion battery on General Motors' cutting-edge electric car, the Chevrolet Volt, burst into flames seemingly spontaneously while parked in 2011. And investigators blamed a cargo hold full of lithium ion batteries for a fire that caused a UPS-operated 747 to crash shortly after takeoff from Dubai in late 2010.

That crash, which killed both pilots, is one of more than 100 incidents recorded by the Federal Aviation Administration linking lithium ion batteries to onboard fires over the last two decades. This month, new rules took effect limiting the transport of lithium ion batteries in aircraft. And the FAA had long prohibited use of the technology in commercial airplanes.

That changed in 2007, when it granted Boeing permission to use the batteries in the 787 under a number of conditions to ensure safety. For Boeing the lithium ion advantage was clear.

Thanks to their chemistry, the rechargeable batteries can store as much energy as a nickel metal hydride pack that's 50% heavier, while charging and discharging faster than other battery types. That's made them attractive for military applications such as the B-2 bomber and also for use on the International Space Station and the Mars Rover.

Lithium ion batteries enabled Boeing to swap out heavy hydraulic systems in the airframe for lightweight electronics and electric motors to operate systems like wing de-icers. That's a key reason the Dreamliner burns 20% less fuel than other wide-body aircraft.

The weight and power savings are exactly what made lithium ion batteries popular in other applications. In excess of 95% of mobile phone batteries worldwide are lithium ion, and without lithium ion, laptops couldn't run anywhere near as long as they do without a recharge.

"They completely dominate the consumer market," said Vishal Sapru, energy and power systems research manager at consulting firm Frost & Sullivan in Mountain View, Calif.. He estimates that global sales of lithium ion batteries reached \$14.7 billion last year, up from \$9.6 billion in 2009, a 53% increase. Sapru expects the market to soar to \$50.7 billion by 2018. "No other battery chemistries are growing at that rate."

But lithium ion also has downsides. The batteries tend to have shorter life spans than older, more proven battery technologies. And although the price is falling, lithium ion is still more expensive than other batteries. Although some carmakers have embraced the technology, others, such as Toyota, have decided against it. Several makers of lithium ion auto batteries for electric vehicles have filed for bankruptcy last year because of weak demand.

Safety experts also have concerns. Because lithium ion batteries can store more energy, and discharge it more quickly, than other batteries, lithium ion cells can get much hotter than other technologies in the event of an overcharge or the external application of a heat source. Larger applications, such as the 63-pound batteries on the 787, incorporate multiple cells and the heat can spread rapidly from cell to cell, a chain reaction called "thermal runaway."

And while other types of batteries use a water-based electrolyte in each cell, lithium ion relies on a highly flammable solvent. When heated up, that solvent tends to vaporize, spraying the burnable gas into the surrounding air. As a result, lithium ion battery fires burn extremely hot, as high as 2,000 degrees Fahrenheit.

Those conditions were blamed for an explosion at a General Motors battery testing lab last April that caused \$5 million in damage and sent one person to the hospital. GM said flammable gas had vented from an experimental lithium ion battery that heated up during extreme testing.

“Lithium ion is very controversial in the safety engineering space,” said Brian Barnett, vice president for battery technology at TiAx, a technology firm in Lexington, Mass. He spoke last month at a conference on battery safety in Las Vegas, where more than three-quarters of the presentations focused on lithium ion batteries.

The cause of the fires in the two Dreamliners has still not been determined and neither Boeing nor the Japanese company that made the batteries, GS Yuasa, have publicly commented on likely factors. Boeing subjected the batteries on the plane to thousands of hours of testing and installed numerous safety systems specific to the batteries.

“We have high confidence in the safety of the 787 and stand squarely behind its integrity as the newest addition to our product family,” Boeing Chief Executive Jim McNerny said Friday.

Barnett and others emphasize that it’s not uncommon to see problems in relatively new technologies. But they add that most lithium ion fires are caused by an external problem, such as a bad circuit or a software glitch that leads to overcharging. Another common problem in consumer electronics is the use of low-cost wiring and other components that can overheat and spark or catch fire next to the battery itself.

Eskra, the battery fire investigator, said he’s seen fires started by Chinese-made toys that use lithium ion batteries hooked up to chargers designed for nickel cadmium or nickel metal hydride batteries. Manufacturing errors, including allowing tiny metal particles to contaminate cells, can cause dangerous shorts, although they are exceedingly rare.

“Somebody tried to cut corners somewhere,” he said, noting that most lithium ion fires are caused by a tiny part that malfunctioned somewhere along the line and are easily resolved. “It’s a \$2 fix, but it takes half a million dollars in research to figure out what it is.”

Sometimes the problem is more persistent. In 2006, Sony announced a global recall of more than 10 million lithium ion laptop batteries used in a variety of laptop computers after more than a dozen fires, and two years later issued a second recall.

“This is a battery type that is only one of hundreds of possible batteries but this particular type was pushed by a few companies and investors so they could make money off it at the risk of public injury or death...”

THIS IS AN ACTUAL BOEING BATTERY

"2006 fire under NTSB scrutiny  
Carli Brosseau Arizona Daily Star

When a test of a lithium-ion battery charger turned into an inferno at Securaplane Technologies Inc. in 2006, temperatures reached as high as 1,200 degrees and three waves of firefighters failed to save the building. An employee of the Oro Valley company blasted the flaming battery with a fire extinguisher to no effect. Two hours later, the galvanized metal roof collapsed, and the 10,000 square-foot building was a total loss.

It's a fire that federal safety regulators are taking another look at now, since Securaplane provides two key battery components to the Boeing 787 Dreamliner, the start-power and battery-charger units. Records from local Golder Ranch Fire Department, the first of three fire departments to respond to the blaze, describe "an uncontrolled thermal reaction (that) caused the battery to vent and this venting caused the ignition to various items and fixtures throughout the test lab area."

"The electrical technician who was performing a test on the battery when it exploded likened the experience to being near a jet after-burner. Electrolytes from inside the battery were shooting 10 feet into the air, the former Securaplane employee, Michael Leon, said in an interview Friday. "The magnitude of that energy is indescribable."

"The fire stands as a graphic illustration of the power stored within energy-dense lithium-ion batteries and the potential consequences if something goes awry. It also highlights the importance and delicacy of the quality-control measures applied to a novel – and potentially explosive – technology, a technology now allowed, under special conditions, to be used as the main and auxiliary power source of certain aircraft.

The Boeing 787 Dreamliner, the company's newest and most energy-efficient plane, uses two lithium-ion batteries. After two battery-related incidents in the past month, the 50 Dreamliners distributed so far have been grounded."

"Whistleblower: Dreamliner LITHIUM ION Batteries Could Explode

He says he was fired after warning about battery problems  
By Christopher Freeburn, InvestorPlace Writer

Boeing's (NYSE:BA) new 787 Dreamliner could end up being a nightmare for the aircraft giant.

A former senior engineering technician at Securaplane Technologies, which makes the charging system for the lithium-ion batteries used in 787 Dreamliners, told CNBC that the batteries are defective and liable to explode if they overheat."

" Lithium-ion batteries are heat intolerant, according to a potential whistleblower familiar with...  
Lithium-ion batteries are heat intolerant, according to a potential whistleblower familiar with their

technology. "Too much heat on those things, they will go into a thermal runaway, they will explode." The informant, a former senior engineering technician of Securaplane Technologies, was fired in 2007 for repeated misconduct, but he says it was in retaliation for voicing concerns about the batteries. The NTSB acknowledges that the lithium-ion batteries in Boeing's (BA) Dreamliner experienced a thermal runaway, but insists there's no connection between the incident and the whistleblower's claims. "The Japan Transport Safety Board makes a number of interim points. This battery, unlike one that burst into flames in a Japan Airlines 787 earlier in January, did not actually ignite. It experienced a thermal runaway, as a result of a build up of heat, yet the materials affected did not start burning. While the semantics might escape the casual observer the safety investigator said:-

"The battery was destroyed in a process called thermal runaway, in which the heat builds up to the point where it becomes uncontrollable.

"But it is still not known what caused the uncontrollable high temperature".

In simple language, uncontrollable rises in temperature will if uncontrolled most likely result in a fire, including one that can burn through structural composites and alloys, and prove almost uncontrollable by fire fighters, even on the ground.

It took a Boston airport fire brigade detachment 99 minutes to put out the Japan Airlines fire using equipment unavailable if the airliner was hours away from an emergency landing strip in the high arctic or north Pacific, which that particular flight had only recently traversed before the fire broke out after landing.

he Japan air safety investigator said the wire supposed to ground or discharge static electricity build ups in the battery had been severed meaning it had experienced abnormal levels of current.

However as also confirmed by the early stage of the US incident investigation into the Japan Airlines fire, this large lithium-ion battery had not experienced a voltage surge, and had so far as flight data recordings could tell, had been operating normally immediately before the emergency landing.

Expect the news release in Japan to cause more tension between those who want the 787s to fly again pending a full understanding of the causes and cures in these incidents, and independent safety investigators who will recommend to safety regulators like the FAA a continuation of the grounding"

"One aspect that may confuse some people relates to the decision to use this particular type of battery. The danger posed by it has been evident by a lengthy and documented list of disturbing events in recent years. They include many thousands of batteries used in laptops being recalled, because of determined risks of fire or explosion. General Motors were also placed in the battery limelight. In 2011, the 400 pounds Lithium ion battery in their Chevrolet Volt apparently was subject to spontaneous combustion when it burst into flames, while reportedly in a parked vehicle. In 2010,

a UPS-operated Boeing 747 crashed just after take-off from Dubai. Investigators placed the blame on a cargo hold that contained Lithium ion batteries, for a fire that caused the incident.”

A number of incidents of cell phones with lithium ion batteries blowing up in peoples pockets, notebook computers blowing up in peoples briefcases and other shocking fires have been deeply documented.

Exclusive: Tesla Model S charging system may have started garage fire – California fire dept  
BY BERNIE WOODALL AND NORIHIKO SHIROUZU  
Wed Dec 18, 2013

(Reuters) – A fire department in Southern California said a garage fire may have been caused by an overheated charging system in a Tesla Model S sedan, in the latest link between the top selling electric car and the potential for fire.

While Tesla Motors Inc maintains that the fire was not related to the car or its charging system, the Orange County Fire Authority said the Tesla-supplied charging system or the connection at the electricity panel on the wall of the garage of a single-family home could have caused the fire.

“The fire occurred as a result of an electrical failure in the charging system for an electric vehicle,” said a report by the fire authority, a copy of which was obtained by Reuters. The report also emphasizes that the cause of the fire is unclear.

“The most probable cause of this fire is a high resistance connection at the wall socket or the Universal Mobile Connector from the Tesla charging system” which was plugged into a 240-volt wall socket, the report said.

The fire occurred on November 15 in Irvine, California. The possible link between the fire and the Tesla Model S was not reported previously.

The garage fire is not related to three road fires in Model S sedans that occurred in October and November and which caused Tesla’s stock to fall sharply last month. The road fires occurred in Washington state, Tennessee and Mexico.

In the U.S. incidents, Model S sedans caught fire after running over road debris. In Mexico, a Model S caught fire after striking a concrete wall. U.S. regulators are investigating the cause of the U.S. road fires, which caused the high-flying stock of the “green” car maker to fall from a high of \$194.50 in late September to under \$120 in late November. On Wednesday, Tesla shares fell 2.9 percent to close at \$147.98 on the Nasdaq. The November residential fire on the campus of the University of California-Irvine caused \$25,000 of damage to the garage and its contents, but the Model S sustained only smoke damage, and no one in the house was injured, according to the Orange County Fire Authority’s report.

A Tesla representative disagreed on Wednesday with some of the report’s findings. “We looked into the incident,” said Tesla spokeswoman Liz Jarvis-Shean. “We can say it absolutely was not the car, the battery or the charging electronics.”

She added: “The cable was fine on the vehicle side. All the damage was on the wall side. “A review of the car’s logs showed that the battery had been charging normally, and there were no

fluctuations in temperature or malfunctions within the battery or the charge electronics,” said Jarvis-Shean.

The owner of the Model S, who lives at the Irvine residence, had parked the car in the garage the evening of November 14, plugged the cord from the vehicle into the 240-volt wall socket, and set a timer to begin the flow of electricity to the car’s on-board batteries at midnight. She noticed a fire just before 3 a.m. and called for help. Fire crews put out the blaze quickly.

Some cardboard boxes stacked near the point of connection between the Tesla Model S charging system and the connection to the 240-volt outlet helped the fire spread, the report said. (Reporting by Bernie Woodall in Detroit and Norihiko Shirouzu in Beijing; editing by Matthew Lewis)

[Hard to Take the German Absolution of Tesla Fires Seriously.](#)

[NLPC](#) | December 5, 2013 | Paul Chesser

Posted on Thursday, December 05, 2013 10:31:19 PM by [jazusamo](#)

Following incidents in [Washington state](#), Mexico and [Tennessee](#), the [National Highway Traffic Safety Administration](#) announced it would probe fires that occurred recently over a six week period in [Tesla Motors'](#) electric Model S.

And this week, as revealed in a Detroit News [story](#), the NHTSA looks like they're serious – at least more serious than Germany's transportation safety authority.

Why bring up Germany? Because as the regulatory heat bears down in the U.S. on Tesla and high-profile CEO [Elon Musk](#), they have trotted out the Eastern Europe nation to demonstrate that they've been absolved of any culpability in the fires. The media that has mostly fawned over the electric automaker helpfully amplified the development, which certainly Musk welcomed. He even got a slight recovery in the company stock price as a result.

On Monday Tesla posted a [press release](#) that claimed the company received an inquiry from the German Federal Motor Transport Authority about the three fires. While the NHTSA seems intent on conducting a thorough investigation (I'll get to those details momentarily), the Germans have already wrapped up their inquiry! The result: After Tesla provided "data and additional information" and the Germans "reviewed Tesla's responses to their inquiries," they determined that "no manufacturer-related defects could be found. Therefore, no further measures under the German Product Safety Act are deemed necessary."

Tesla posted a [copy of the letter](#) from the German Transport Authority – which is addressed to what appears to be the company's [local legal counsel](#) – with the translation into English in the

press release. Four things beg for explanation:

- The letter is dated Nov. 27, which is only about three weeks after the most recent fire. Such a rapid conclusion to an inquiry would seem to be a new record for governmental efficiency looking into complicated, sensitive matters such as this.
- The letter references a phone call earlier in the day with the attorney. What was that discussion about, that the Transport Authority immediately issued its exculpatory letter the same day?
- Tesla blacked out the identity and contact information of the Transport Authority representative who wrote the letter. Why?
- It's apparent the German authority depended only on limited information supplied to it by Tesla ("According to the documents, no manufacturer-related defects could be found"). So it's hard to give their "investigation" much credibility.

Compare that to what the US NHTSA is asking for. As the Detroit News [reported Tuesday](#), the safety agency has requested that Tesla turn over detailed records of all consumer complaints, field reports, warranty claims and property damage claims related to the fires.

"Describe in detail all possible consequences to the vehicle from an impact to the subject component that damages the battery," wrote NHTSA vehicle integrity chief D. Scott Yon. "Describe in detail how these possible consequences were addressed in the design of the (Model S) and the limits of that design to prevent damage to the propulsion battery, stalling and fires."

The newspaper reported that Yon also asked for the results of all Tesla's tests, studies, and investigations to review the battery fires and the alleged defect, and information about whether Tesla made any changes to the Model S to address the possible defect of roadway debris sparking fires in the battery packs. He also wants detailed records of vehicles at the time of the incidents, owner contact information, and all communication to owners or regional officers that the company plans to issue in the next four months.

The letter was dated November 27, and Tesla has until January 14 to respond. That's about 50 days just to gather the information – more than twice as long as it took the Germans to collect, analyze and conclude their "inquiry" that "cleared" Tesla.

Tesla has carefully controlled information that's been released about the fires, including statements from the Model S owners. For the most part media reports have derived from these. It makes you wonder if there is some sort of non-disclosure agreement between the company and its vehicle owners.

For example, in early October – shortly after the first fire in Kent, Wash. – Musk posted an essay on Tesla's blog that explained how the Model S "struck a large metal object" that caused damage.

"A curved section that fell off a semi-trailer was recovered from the roadway near where the

accident occurred and, according to the road crew that was on the scene, appears to be the culprit," Musk explained. "The geometry of the object caused a powerful lever action as it went under the car, punching upward and impaling the Model S with a peak force on the order of 25 tons. Only a force of this magnitude would be strong enough to punch a 3-inch diameter hole through the quarter inch armor plate protecting the base of the vehicle."

Maybe so, but for all the physical explanations Musk has tried to present, no photos of the large metal object have been produced. Nor are there any pictures – that are reasonably findable on the Web, at least – of the tow hitch that was accused of causing the Model S fire in Tennessee. In such a hotly scrutinized case you'd think Musk would be parading the evidence if it existed, but he hasn't.

In the same blog post Musk went to great lengths to argue a conventional gasoline powered car, in the same circumstances, could have experienced a far worse fate.

"A typical gasoline car only has a thin metal sheet protecting the underbody, leaving it vulnerable to destruction of the fuel supply lines or fuel tank, which causes a pool of gasoline to form and often burn the entire car to the ground," he wrote.

But the crash data [doesn't support that](#). As Justin Hyde of Yahoo!'s automotive Web site Motoramic [wrote](#) in early November, "Even though it has fewer electric cars on the road than its competitors (such as the [Chevy Volt](#) or [Nissan Leaf](#)), none have reported similar fires after crashes. And while liquid-fueled vehicles suffer about 170,000 such fires every year, federal data show they take place in only 0.1 percent of all crashes."

Tesla's control freakishness is also reflected in how the Model S owners who were fire victims. Has any independent journalist interviewed them? Below Musk's blog post was a portion of an email exchange between Tesla's vice president for sales and service and Rob Carlson, the Washington driver. The VP's missive came off as a carefully crafted (lawyered?) explanation of how the fire occurred and that the Model S's safety protections "operated correctly." In reply, Carlson supported Tesla's response to the incident and said, "I am still a big fan of your car and look forward to getting back into one." Then he revealed that he is an investor in Tesla – so certainly a critical response on his part would not have helped the value of the shares he owns!

While not exactly tanking, Musk likely felt some anxiety (and investor pressure) when the company's stock dropped from almost \$200 earlier this year to about \$120 the last couple of weeks, after the fires. Publicly Musk has said Tesla's share price was overpriced anyway (he's right), but at the same time, what executive wants to see a rapid drop like he's seen? Not a moment too soon, this week he discovered a way to turn the German "inquiry" of the Model S fires into a Wall Street bump – the stock is up to almost \$139 this morning.

As for the American investigation, time – and a serious examination – will tell whether Tesla needs to revisit its Model S design or not. Before the fires NHTSA still gave it a top safety rating, which seemed more like it was [joining the irrational exuberance party](#) rather than an accurate evaluation. The signs point to the agency taking this a lot more seriously than the Germans did, but then again, this is the [Obama administration](#) we're talking about, which has relentlessly protected and subsidized the electric vehicle industry.

Samsung exploding Lithium ion Galaxy COVER-UP Expose proves Danger of Lithium ion! Lithium ion and Cover-Ups seem to go hand-in-hand. [Samsung tries to silence user whose S4 caught fire, it doesn't go over well](#)

[Brad Sams](#)08 December 2013

Oh Samsung, you tried to have a YouTube video pulled after it showed a [Galaxy S4](#) that caught fire while charging but this is about to blow up in your PR and legal teams face after you sent a 'hush' document to the user.

Here's the deal, YouTube user [GhostlyRich](#) posted a video on YouTube in early December that showed that his Samsung Galaxy S4 caught fire while charging. While the battery did not explode (thankfully) you can clearly see the charging port is burnt. To no surprise, a burnt charging point rendered the device useless and seeing that the Phone is still under warranty, you would think Samsung would simply exchange the device and make good with the consumer to fix the issue.

Wrong. What Samsung has done, foolishly, is sent the user a document saying that they will exchange his defective device only after he pulls his initial video from YouTube. If Samsung was unaware of how the Internet works, it's about to find out that trying to quiet the user will result in a black eye for the company.

Yes, we can understand why a company would want keep this type of incident quiet but anyone who has a basic understanding of the Internet will tell you that once it's posted to the web, there is no way to delete it. Sure, removing the video might keep it a bit quieter, but that would likely only raise more suspicion in the long run with the followers of that YouTube channel.

Samsung has goofed up big time as the original YouTube video, at the time of this posting, had 45,000 views and the video showing the Samsung demand letter, well, it has over 277,000 views.

The video discussing the letter and the incident is posted above and is worth a watch. It goes to show what Samsung will do anything to keep its S4 issues off the radar but in this case, it has completely backfired. Not to mention that having to sign a contract to execute a warranty is borderline unethical for the circumstances of this incident.

Hard to Take the German Absolution of Tesla Fires Seriously

- by [Paul Chesser](#)

- December 7, 2013

Following incidents in [Washington state](#), Mexico and [Tennessee](#), the [National Highway Traffic Safety Administration](#) announced it would probe fires that occurred recently over a six week period in [Tesla Motors'](#) electric Model S.

And this week, as revealed in a Detroit News [story](#), the NHTSA looks like they're serious – at least more serious than Germany's transportation safety authority.

Why bring up Germany? Because as the regulatory heat bears down in the U.S. on Tesla and high-profile CEO [Elon Musk](#), they have trotted out the Eastern Europe nation to demonstrate that they've been absolved of any culpability in the fires. The media that has mostly fawned over the electric automaker helpfully amplified the development, which certainly Musk welcomed. He even got a slight recovery in the company stock price as a result.

On Monday Tesla posted a [press release](#) that claimed the company received an inquiry from the German Federal Motor Transport Authority about the three fires. While the NHTSA seems intent on conducting a thorough investigation (I'll get to those details momentarily), the Germans have already wrapped up their inquiry! The result: After Tesla provided "data and additional information" and the Germans "reviewed Tesla's responses to their inquiries," they determined that "no manufacturer-related defects could be found. Therefore, no further measures under the German Product Safety Act are deemed necessary."

Tesla posted a [copy of the letter](#) from the German Transport Authority – which is addressed to what appears to be the company's [local legal counsel](#) – with the translation into English in the press release. Four things beg for explanation:

- The letter is dated Nov. 27, which is only about three weeks after the most recent fire. Such a rapid conclusion to an inquiry would seem to be a new record for governmental efficiency looking into complicated, sensitive matters such as this.
- The letter references a phone call earlier in the day with the attorney. What was that discussion about, that the Transport Authority immediately issued its exculpatory letter the same day?
- Tesla blacked out the identity and contact information of the Transport Authority representative who wrote the letter. Why?
- It's apparent the German authority depended only on limited information supplied to it by Tesla ("According to the documents, no manufacturer-related defects could be found"). So it's hard to give their "investigation" much credibility.

Compare that to what the US NHTSA is asking for. As the Detroit News [reported Tuesday](#), the safety agency has requested that Tesla turn over detailed records of all consumer complaints, field reports, warranty claims and property damage claims related to the fires.

“Describe in detail all possible consequences to the vehicle from an impact to the subject component that damages the battery,” wrote NHTSA vehicle integrity chief D. Scott Yon. “Describe in detail how these possible consequences were addressed in the design of the (Model S) and the limits of that design to prevent damage to the propulsion battery, stalling and fires.”

The newspaper reported that Yon also asked for the results of all Tesla’s tests, studies, and investigations to review the battery fires and the alleged defect, and information about whether Tesla made any changes to the Model S to address the possible defect of roadway debris sparking fires in the battery packs. He also wants detailed records of vehicles at the time of the incidents, owner contact information, and all communication to owners or regional officers that the company plans to issue in the next four months.

The letter was dated November 27, and Tesla has until January 14 to respond. That’s about 50 days just to gather the information – more than twice as long as it took the Germans to collect, analyze and conclude their “inquiry” that “cleared” Tesla.

Tesla has carefully controlled information that’s been released about the fires, including statements from the Model S owners. For the most part media reports have derived from these. It makes you wonder if there is some sort of non-disclosure agreement between the company and its vehicle owners.

For example, in early October – shortly after the first fire in Kent, Wash. – Musk posted an essay on Tesla’s blog that explained how the Model S “struck a large metal object” that caused damage.

“A curved section that fell off a semi-trailer was recovered from the roadway near where the accident occurred and, according to the road crew that was on the scene, appears to be the culprit,” Musk explained. “The geometry of the object caused a powerful lever action as it went under the car, punching upward and impaling the Model S with a peak force on the order of 25 tons. Only a force of this magnitude would be strong enough to punch a 3-inch diameter hole through the quarter inch armor plate protecting the base of the vehicle.”

Maybe so, but for all the physical explanations Musk has tried to present, no photos of the large metal object have been produced. Nor are there any pictures – that are reasonably findable on the Web, at least – of the tow hitch that was accused of causing the Model S fire in Tennessee. In such a hotly scrutinized case you’d think Musk would be parading the evidence if it existed, but he hasn’t.

In the same blog post Musk went to great lengths to argue a conventional gasoline powered car, in the same circumstances, could have experienced a far worse fate.

“A typical gasoline car only has a thin metal sheet protecting the underbody, leaving it vulnerable to destruction of the fuel supply lines or fuel tank, which causes a pool of gasoline to form and often burn the entire car to the ground,” he wrote.

But the crash data [doesn’t support that](#). As Justin Hyde of Yahoo!’s automotive Web site Motoramic [wrote](#) in early November, “Even though it has fewer electric cars on the road than its competitors (such as the [Chevy Volt](#) or [Nissan Leaf](#)), none have reported similar fires after crashes. And while liquid-fueled vehicles suffer about 170,000 such fires every year, federal data show they

take place in only 0.1 percent of all crashes.”

Tesla’s control freakishness is also reflected in how the Model S owners who were fire victims. Has any independent journalist interviewed them? Below Musk’s blog post was a portion of an email exchange between Tesla’s vice president for sales and service and Rob Carlson, the Washington driver. The VP’s missive came off as a carefully crafted (lawyered?) explanation of how the fire occurred and that the Model S’s safety protections “operated correctly.” In reply, Carlson supported Tesla’s response to the incident and said, “I am still a big fan of your car and look forward to getting back into one.” Then he revealed that he is an investor in Tesla – so certainly a critical response on his part would not have helped the value of the shares he owns!

Tesla Safety Challenged! The Facts:

---

Deadly Smoke and Fumes. If the crash and fire don’t kill you now, the toxins in the deadly smoke fumes kill you later.

(See all that smoke in the TESLA fire, above? That smoke is filled with deadly toxins from burning [lithium ion](#) combined with plastics. Why does Tesla say nothing about this in it’s buyer documents? See all the cars stuck in traffic in the smoke plume? Do those innocent drivers, and their families, that have to sit there, behind the fire and in the smoke, appreciate having to breath in deadly vapors? See the fireman with the Full-Hazmat breathing apparatus on? He knows it sucks.)

Per the IJES via the State School of Chemical Engineering and Technology of China:

---

(Image above: New tests can see the cancer causing chemicals that got in your body from a Tesla fire from just two strands of your hair or one drop of blood or one swab of saliva. You can't hide product toxic poisoning anymore.)

There are a vast number of MSDS disclosure forms and technical product documents from the feds, the battery companies, the FAA, the TSA, the SME, The IEEE and tons of others say that "Lithium ion batteries will explode and they will give off toxic gas".

Why were the Tesla's not equipped with carbon dioxide fire extinguishers as required? Why was a simple sheet of soft metal placed between the explosives and a "thousands-of-pound-per-sq.-ft. impact surface" (the road)? Was the car actually engineered or did Musk just doodle it out on the back of a napkin? You can hit the edge or front of the car and it will go off. The reason "Elon Musk stands behind Tesla" is because they usually blow up starting from the front.

#### TESLA COVER UP

Lithium Ion goes boom when it gets wet, poked, charged, used or pretty much gets unhappy for no apparent reason. All those car hulks, below, lined up next to each other are lithium ion electric piles of burned up \$100K, per pile, cars, Nice huh? They are going to great lengths to cover that fact up:

(Notice the surgeon who owned it. Most of these guys are Swingin' D Rich Guy Male Doctors)

Those images above show many different lithium ion electric car fires. Why is this being covered up? By whom? So far, most Tesla's have been acquired by Tesla Fan Boys and their own investors to pump up the numbers. This has prevented a number of "thermal events" from getting reported.

WHAT!!!? You don't think that's enough burning Tesla's? Well here's some more, the next one is from Boston:

Not enough burning Tesla's?

Stand by...

RS- LAT

Tell The U.S. Government to order Tesla to remove all Lithium Ion chemicals from it's cars! Is someone telling the NTSB not to do their job? Who?

TESLA CAN LOCK DOORS ON ITS OWN- BURNING ALIVE = BAD THING!

You can read a number of postings online about the continual failure of the Tesla electronic door handles and door locks. How might fire increase these failure-to-unlock issues. Is it possible your own Tesla could lock you, and your family, INSIDE the car when it catches fire? How was this tested in the safety tests, or was it even tested?

The Tesla Defects seem to be multiplying.

Lithium ion = Bad Stuff

Notice that in the following movie, the lithium ion battery like Tesla uses starts exploding just when the insides are exposed to air and ALSO when it gets wet:

---

Another Tesla Movie

So you think: "OK, I would never drive my Tesla over any metal or bumpy roads so I never need to worry about that", Well, that's what this Tesla driver thought:

Watch the left side of the screen along the meridian wall. You can recognize the Tesla by the round open mouth grill.

No matter what kind of a persnickety, self-centered, rich douche-kinda guy you are: Your Tesla is eventually going to hit a pot-hole, bottom-out or hit some crap in the road and then: fire and toxic smoke!

---

SHOCKER EXCLUSIVE!!!! Tesla "battery supply" problem -NOT. Battery explosion problem- YES.

"The napalm-like lava that is burning lithium-ion, combined with burning Tesla plastic, can eat through your entire face in about 2.5 seconds and it is nearly impossible to extinguish. This is not good stuff. They tried it on pig-corpse, ugly results.

There are over 1000 different ways to store electricity. Lithium ion is the worst. The faster a car goes, the more likely it is to crash and to flip over in a crash. Tesla is the fastest car so it will crash more and flip over more. People that drive Tesla's are, generally, arrogant yuppie males with ego issues who want to go fast and show off. That makes crashes even more likely. While you are driving around on a carpet of deadly lithium ion, buried in the floorboards of the Tesla at your feet, and the car suddenly flips over, you are now trapped under a ceiling of burning lithium ion that firefighters can't extinguish and your face burns off. This is like flouridation of water controversy; this chemical was specified because a certain group is making money off of this chemical. Over time, each battery has a higher and higher chance of "going off" because the charging demands of a car combined with the degradation offset of a single lithium ion battery is high in normal circumstances. Tesla uses them in extreme circumstances. They were never built for cars. You are not going to see less Tesla fires, you are going to see more. Tesla has dense-packed 6800 lithium ion packs in a closed metal box under your seat. That is 6800 chances of having your face burned off and 6800 chances of getting rained on with burning lithium ion and plastic, gassed out and burned up by the Tesla. I don't like the odds. Look at some of these pictures on this site, it even melts the metal.

The people that are telling you "Lithium Ion is just a lovely thing, don't worry about all of those scare stories" have a financial investment in batteries using this chemical. Almost all of them have worked for, invested in or been hired by the people that make money off it. The form factor Tesla uses is a common 18650 battery you can buy on Amazon and Ebay so Tesla is not telling the truth about "having a battery supply problem" in their latest financial reports. They are having a battery blow-up problem. Suppliers won't sell them any batteries because they know Tesla abuses the batteries in the way they deploy them in cars and they don't want to get sued too, along with the lawsuits that are coming after Tesla. These batteries were never intended to be used in cars. All this has been known for decades. If the "biggest electric car funding effort in history" hired the "greatest technical review team ever created", how did this get by? Why didn't the reviewers mention this for Tesla's 'loan'? This is not new technical information!"

NHTSA has now called Musk a Liar TWICE, said he lied about probe and lied about NHTSA safety rating

The National Highway Traffic Safety Administration (NHTSA), which produced the safety rating,

isn't happy about Tesla's boasting.

In its announcement, Tesla explained that the Model S earned five-star marks in every category; a rare feat. On top of that, its overall Vehicle Safety Score, provided to manufacturers, gave it a "new combined record of 5.4 stars."

In a statement on its website, the NHTSA issued a rebuke to Tesla:

"NHTSA does not rate vehicles beyond 5 stars and does not rank or order vehicles within the star rating categories. In addition, the agency has guidelines in place for manufacturers and advertising agencies to follow to ensure that accurate and consistent information is conveyed to the public."

<http://www.businessinsider.com/nhtsa-tesla-didnt-request-investigation-2013-11>

<http://www.businessinsider.com/government-mad-at-tesla-over-safety-claim-2013-8>

Reporters use a new technology called: FACTS, to recall that only just the other day Musk was screaming in the press that "no recall" and "no probe" was needed, yet today he says he has secretly been demanding that NHTSA do a probe. Hmmmmm? Interesting!

Bloomberg, Guardian and Reuters staff have now spoken with NHTSA staff, including the head: David Strickland, who have said, on record, that Tesla did NOT request probe and that it would be "unprecedented" for any car company to request a liability probe like that. Another Musk lie to his investors. Both the lie and the counter, published and on the record. NHTSA said it had already had concerns about Tesla prior to any calls from Tesla or Tesla's investors. Previous communications had been from Tesla backers and Senators (Who Tesla investors already had in their pockets) saying "don't do a probe"! Another P.T. Barnum "smoke-screen" move by Musk. Musk tried to take credit for creating Tesla even though Martin Eberhard created Tesla. Musk tried to take credit for creating the probe even though the feds had it already going. Musk tried to take credit for inventing electric cars even though GM and others did it decades earlier. Musk changed the NHTSA safety results and got caught lying about that too. Musk tried to take credit for creating the HyperLoop even though MIT created it 9 years earlier. What's up with this douche bag?

Tesla: Unsafe At Any Speed, Unethical at Inception.

If I read all of the posts and articles on this page I get:

"Tesla seems to have been used to provide kickbacks to [lithium ion](#) investors in exchange for politics and those investors may, or may not, have known that [lithium ion blows up](#), on its own, way more often than gasoline. When it does blow-up, along with the plastics and metals of the car, the toxic smoke and vapors can lead to a slow death of the occupants and bystanders. The Tesla

batteries were not made for cars and when they are made, the workers who make them become very ill or fatally ill. There are plenty of electric cars available, today, from other companies. Tesla was not the first or the last and has led no wave of innovation that was not already in place decades earlier. Tesla staff and bundlers bribed Washington DC officials to get taxpayer money and fake stock market positioning for a billionaire. They deserve no applause. Almost all of the "Tesla fanboy Hype" is Tesla's own hired bloggers, and investors, run out of Fremont, creating fake buzz by operating as thousands of fake social media accounts."

Does that about sum it up?

EACH of those electric Fisker cars, in the photos above, blew up as they sat there when their lithium ion got wet in a storm. Lithium Ion blows up just from getting wet (or overcharged or banged). The cars, in the photos above, were not all brought there, and put together, after they blew up. They just blew up sitting in the parking lot waiting to get delivered to customers. That is a picture of dozens and dozens of VERY expensive cars that were being used as a scam to sell this chemical called "lithium ion" that campaign financiers had a near monopoly on. It was a kickback deal. Due Diligence was done, but ordered to be ignored, in order to shove as much cash out the door, and in their pockets, before they got caught.

Here is another one, below, the owner just ran into the grocery store and BOOM the lithium ion batteries in his \$100K+ lithium ion electric super car just blew up, taking the tree and the car next to it out:

#### TESLA PATENTS, FILED WITH FEDS, SHOW MUSK KNEW CARS WERE UNSAFE!

TESLA knew their car was unsafe and says so in their own patent filings. This, alone, says Musk was lying. The extreme military tank-type "ballistic shield" measures called for in their patent, below, are shocking proof that they knew how awful lithium ion is the way they use it. In another Tesla patent, Tesla says, in THEIR words filed with the feds: ""Thermal runaway is of major concern since a single incident can lead to significant property damage and, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, and sufficient heat to lead to the combustion and destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke and fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked."

Plus this other Tesla patent which says you need to, essentially, be in a military tank to drive a Tesla safely. Patent calls for "Ballistic Shielding" to keep drivers & passengers alive !!!!:

Per SME, lithium ion has blown up in products over 2000 times more often than any other energy storage.

Lead acid batteries, gasoline, hydrogen, nickel metal hydride, and all other product energy storage technologies COMBINED have NOT blown up as much as lithium ion has gone thermal in

cars, airplanes, cell phones, computers, data centers, tablets, backup power systems and other systems. People have died in some of these incidents. Planes have crashed. Homes have been set on fire. People have been horribly burned. It is not OK to let lithium ion investors buy the news media and shut down the articles about these dangers.

Please Send This open letter to the German Federal Motor Transport Authority, or Kraftfahrt-Bundesamt (KBA):

Regarding: Your recent Tesla "safety declaration".

Dear German Federal Motor Transport Authority:

It is quite surprising to hear that your organization has declared the Tesla completely safe without engaging in full due diligence. It makes it appear like someone got bribed. We certainly hope that Deutsche Bank staff's substantial positions in Tesla held no bearing. We see that Deutsche Bank staff were just indicted for massive securities fraud and we hope that is just a coincidence.

Numerous organizations and experts have provided data showing that the car is not safe. The statistics, historical facts about lithium ion, and actual evidence point to the opposite conclusion. Many websites, including: <http://lithium-ion.weebly.com> and others provide rather contrary evidence. Tesla's own patent documents state that the car is not safe. The Chevy Volt was recalled for far less battery issues with lithium ion.

There are over 200 safety concerns that can be provided to you in a documented report. America has not even started their safety investigation and has requested a deep set of technical documents from Tesla. Did your agency request such documents?

The members of the public hereby request publication of the identities of the reviewers, the methods and analysis methods they employed, the read-out of their data and the conclusive, specific data that the research was based upon. Here is a link to a much more overt investigation you might want to review:

Samsung exploding Lithium ion Galaxy COVER-UP Expose proves Danger of Lithium ion! Lithium ion and Cover-Ups seem to go hand-in-hand. [Samsung tries to silence user whose S4 caught fire, it doesn't go over well](#)

[Brad Sams](#)08 December 2013

Oh Samsung, you tried to have a YouTube video pulled after it showed a [Galaxy S4](#) that caught fire while charging but this is about to blow up in your PR and legal teams face after you sent a 'hush' document to the user.

Here's the deal, YouTube user [GhostlyRich](#) posted a video on YouTube in early December that showed that his Samsung Galaxy S4 caught fire while charging. While the battery did not explode (thankfully) you can clearly see the charging port is burnt. To no surprise, a burnt charging point rendered the device useless and seeing that the Phone is still under warranty, you would think Samsung would simply exchange the device and make good with the consumer to fix the issue.

Wrong. What Samsung has done, foolishly, is sent the user a document saying that they will exchange his defective device only after he pulls his initial video from YouTube. If Samsung was

unaware of how the Internet works, it's about to find out that trying to quiet the user will result in a black eye for the company.

Yes, we can understand why a company would want keep this type of incident quiet but anyone who has a basic understanding of the Internet will tell you that once it's posted to the web, there is no way to delete it. Sure, removing the video might keep it a bit quieter, but that would likely only raise more suspicion in the long run with the followers of that YouTube channel.

Samsung has goofed up big time as the original YouTube video, at the time of this posting, had 45,000 views and the video showing the Samsung demand letter, well, it has over 277,000 views.

The video discussing the letter and the incident is posted above and is worth a watch. It goes to show what Samsung will do anything to keep its S4 issues off the radar but in this case, it has completely backfired. Not to mention that having to sign a contract to execute a warranty is borderline unethical for the circumstances of this incident.

Germany Clears Tesla Of Fire Probe...????? Was it a real probe?

Tue Dec 3, 2013

(Business Insider) The German Federal Motor Transport Authority, Kraftfahrt-Bundesamt (KBA) has concluded an investigation into three recent Tesla Model S fires and found "no manufacturer-related defects," Tesla said today.

In a press release, Tesla said it provided the KBA with relevant data on the accidents, and received a letter saying "no further measures under the German Product Safety Act [Produktsicherheitsgesetz (ProdSG)] are deemed necessary."

In November, the National Highway Transportation Safety Administration (NHTSA) opened an investigation into the three fires. Tesla said it has "requested" the process, but NHTSA Administrator told a House panel that was untrue, according to The Detroit News.

That investigation is ongoing, but at least the Germans have been placated.

If you woke up this morning and read this, as I did, upon seeing TSLA up 6% before the open and my puts reversing lower on this "news", you could be forgiven if your first impression was, "when the hell did Germany open an investigation?"

You see, I remember being told about the investigation being conducted by the NHTSA, the US based auto safety agency. I remember they opened an investigation following three fires, two of which occurred in the US, and the remaining one in Mexico. Barely a few weeks ago...

But it's funny, as I don't recall there ever being an announcement of a German investigation. It must have got lost under the Blankenship resignation announcement.

In fact, swinging over to Tesla's Investor Press Releases – it's astounding – but it seems completely

devoid of any bad news at all. Not even a mention of the US based investigation, much less a German one, or a peep about the VP of sales leaving the company.

Meanwhile, in the real world, real men and women are throwing their money into this company, shaking off oversold conditions on a hard bounce. And class action lawsuits are raining from the sky. I've mostly been thinking those lawsuits were warrantless before now, but if this is how Tesla handles communications, I'm not so sure.

This isn't a game, people.

If GM had to do a recall for a potential thing, why didn't Tesla have to do one for an actual thing?  
(Hint: Bribes)

"GM to Call Back 8,000 Chevrolet Volt to Strengthen Battery Pack

Michael Graham Richard  
Transportation / Cars @ Treehugger

The saga continues! After some Chevy Volt battery fire issues during testing and GM offering Volt owners to buy back their cars or loan them replacements, we learn that that GM has decided to not take any chances; it is supposedly about to announce a call back of 8,000 Volt electric cars.

The Associated Press only writes: "A person briefed on the matter says General Motors will ask Volt owners to bring their electric cars into dealers to strengthen the structure around the batteries." We should have more details later today, but if you own a Volt, expect to be contacted by your dealer and to have to bring them you car for some strengthening of the structure protecting the battery pack."

###

See image below. Even though Chevy Volt batteries are contained deep within the body and chassis of the car, GM still had to do a recall to cover the lithium ion batteries up in even more steel. Tesla [lithium ion](#) batteries are fully exposed at the edges and bottom of the car. It should not be possible for NHTSA to NOT require a recall unless someone is paying someone off. Is Musk "Convinced there will be no recall" because Rahm told him so?

(C) GM

The Tesla Battery pack has TONS more impact points than a Chevy Volt, Nissan Leaf or other car. It has less shielding density per Lithium Ion Square inches than any car. The batteries are very close to the edge and exterior of the car without protection equal to the known, and calculated, destruction potential. That is why Tesla's blow up more often:

The Tesla battery box wall is a mere breath away from a deadly road surface moving with tremendous force and the lower edge of the car where an impact is most likely to occur. Thousands of pounds of shock force will instantly do things to those batteries that will be: Awesome in a frightening and fire-explosion kinda way.

Incriminating New Evidence!

Corporate testing videos have now been uncovered showing mice in a glass box exposed to a single burning Tesla Lithium ion cell and then exposed to a single burning Tesla Lithium 2 inch ion battery with a section of Tesla car body plastic and metal burning. After the horrid results, the mouse bodies were tested for toxins. Needless to say, none of the results were good. U.S.

Government MSDS documents reveal the toxic vapor danger from these batteries was fully documented outside of DOE, yet never discussed by staff. Federal MSDS documents, from multiple federal agencies, specifically state that the Tesla lithium ion batteries are deadly toxic when burning.

Tesla Batteries Act Like Solid "rocket fuel" when they ignite!

As of 11/6/2013 Tesla had said there were only 3 fires, yet social media shows there were many more fires. Those other fires have been documented in photos and videos and Elon Musk has said he has tracking chips on all of the cars so Tesla had to have known about all of the other fires. The reality of the documentation and the statements from Tesla seem to clearly show a cover-up. Lithium ion in a metal box burns like solid rocket fuel when it gets going in a fire. Musk would have known this since he started SPACE X: A rocket company! (Which keeps having technical failures)

## Bad Engineering

It was an idiotic move to use thousands of [lithium ion](#) consumer flashlight-type batteries, that were never made to be used in a car, to create an entire bed of toxic explosive material and put it just a hair breadth away from a surface that can puncture, explode and inflame it. That surface, the road, is trying to puncture, bump, and destroy the undercarriage, of every car, every inch of every mile of every road across the country. Also, the batteries are so close to almost all of the outside edges of the car, that puncture damage in a crash is certain. They decided to CHEAP OUT with the flashlight batteries yet they charge buyers insane amounts of money for a car with a growing list of technical failures. What were these people thinking?

## Understanding Tesla's Life Threatening Battery Decisions

SEEKING ALPHA- John Peterson

Nov 22 2013

In the last couple of months, electric cars from Tesla Motors (TSLA) have had three collision-related battery fires that were widely covered by the media. Last week, the NHTSA decided to conduct a formal investigation of these incidents. While Tesla's CEO Elon Musk immediately went on the offensive arguing that Tesla's BEVs have a lower fire risk than gasoline powered cars, the question an increasing number of investors are asking is "Why has Tesla had three battery fires in a fleet of 17,000 BEVs while Nissan hasn't had any fires in its fleet of over 90,000 BEVs?" The answer is simple. Tesla's battery decisions significantly increased battery risks for both the customer and the company. [MORE...](#)

## Musk Claim of Fewer Tesla Fires Questioned in MIT Report Bloomberg

By Angela Greiling Keane & Jeff Green

Tesla Motors Inc. (TSLA) cars have caught fire caused by collisions more often than gasoline-powered vehicles, according to a Massachusetts Institute of Technology report rebutting assertions by Elon Musk, the electric-car maker's chief executive officer.

Because only 4 percent of vehicle fires are caused by collisions, Tesla's Model S sedan, with a rechargeable lithium-ion battery, is statistically more likely to catch fire than are cars with gasoline

tanks, wrote Kevin Bullis, senior editor for energy for MIT Technology Review.

TESLA MATH:

If one IPAD can take out a whole store and a Tesla has the equivalent of thousands of IPAD batteries in each car, how many homes in your neighborhood can a Tesla take out?

I want my neighbor to keep his Tesla at the office. Musk has made a big point out of saying, in recent interviews, that the new fires were not "spontaneous" thereby admitting he knows that Lithium Ion CAN go off spontaneously like it did in the Boeing planes and with many other electronics in the last 10 years.

<http://m.digitaltrends.com/cars/second-tesla-model-s-catches-fire-critical-crash-mexico/>

"Is the beginning of an onslaught of fiery Tesla Model S wrecks?

A second Tesla Model S reportedly caught fire last week after crashing through a concrete wall in Mexico.

According to Mexican paper Progreso Hoy (by way of Business Insider), a Model S owner was speeding when he lost control of the car and went through a concrete wall and then into a large tree.

You can see the resulting fire in the video below.

The man was apparently not seriously injured and walked away from the incident.

Here is an official recount from Tesla:

"We were able to contact the driver quickly and are pleased that he is safe. This was a significant accident where the car was traveling at such a high speed that it smashed through a concrete wall and then hit a large tree, yet the driver walked away from the car with no permanent injury. He is appreciative of the safety and performance of the car and has asked if we can expedite delivery of his next Model S. The first reported Model S fire occurred earlier this month when a Washington State driver struck an object in the road, which caused a fire in the front portion of the car, beneath the carpeted trunk area. It appears the Mexican Model S fire also began in the forward section of the car." "

The Lithium ion profiteering scam. Dump, grab the money and run.

Tesla shares slip more on reports of third fire, other car problems

By Jerry Hirsch- LA Times

November 7, 2013

By Jerry Hirsch November 7, 2013, 8:39 a.m.

[Tesla Motors](#) shares continued to fall Thursday as the automaker confirmed a third fire in one of its high-end electric cars and a major auto reviewer pointed out problems with its Model S luxury hatchback.

The 9%, or \$13.40, decline in mid-morning trading to \$137.76 followed a 15% plunge in the shares Wednesday after the automaker said limited supplies of batteries were hampering sales and that it was spending heavily on research and development to design new models. Tesla shares have been on a run for most of the year, rising about 400% before this reversal.

Car shopping website Edmunds.com said its 2013 Model S was "making an ominous noise under acceleration and deceleration. It originates from the rear of the car and seems to be getting worse."

It is a complaint that's also starting to show up on Tesla's owners forum, an online discussion group hosted by the automaker for drivers of its cars.

"Mine had that and it got bad at 70 mph," said one owner, posting under the "mortgagebruce" moniker.

He said Tesla had to replace the drive unit twice to fix the problem.

Tesla also replaced the drive unit on the Edmunds car, but declined to tell the company what caused the problem. It also replaced the driver door mechanism because of another problem. The car has just less than 11,000 miles on the road.

"We're not sure what to think about the fact that both of these repairs were completed with just one overnight stay," said Mike Schmidt, Edmunds' vehicle testing manager. "Maybe the dealer is really on the ball. Maybe the supply chain is short. Or maybe the parts are readily available because they've seen these before."

Tesla spokeswoman Liz Jarvis Shean said she was not familiar with the Edmunds complaint.

Meanwhile, another Model S electric car caught fire Wednesday near Smyrna, Tenn., following a crash. This was the third Model S to have caught fire in the last five weeks. One burned near Seattle and another in Mexico. Both cars were in crashes and the fires injured no one.

Normally, car fires are not significant events that influence investors. There are about 150,000 annually, according to the National Fire Protection Assn. However, safety officials have been tracking fires in electric cars, as well as computers and other equipment, out of concern that the lithium-ion battery systems might be fire-prone.

Earlier this year, federal regulators grounded [Boeing 787](#) planes for four months after batteries on two planes overheated, with one catching on fire. Boeing later ordered modifications to the jets to increase ventilation and insulation near the batteries, but the company and investigators never determined the root cause of the overheating.

The [National Highway Traffic Safety Administration](#) reviewed the Tesla fire in Seattle and concluded it was caused by the accident rather than a vehicle defect.

Tesla said it contacted the driver of the car in Tennessee and noted he was not injured and "believes the car saved his life. Our team is on its way to Tennessee to learn more about what happened in the accident."

"The problem is that we have three fires in six weeks," said Karl Brauer, senior analyst at [Kelley Blue Book](#), the car information company. "For a company with a stock price based as much or more on image than financials, those recurring headlines are highly damaging."

The Palo Alto automaker said Tuesday it posted a loss of \$38.5 million, or 32 cents per share, in the third quarter. That compares to a loss of \$110.8 million, or \$1.05 per share, in the same period a year earlier. Now that it is delivering cars, revenue grew to \$431 million from just \$50.1 million a year earlier.

Tesla Issues Statement On Fiery Car Crash That Caused The Stock To Tank

Tesla's stock was down over 7% to a low of \$175.40 today, but pared some of its losses to close down 6.24% at \$180.95.

It appears that shares began to tumble in the last half hour on reports that a Tesla Model S car caught fire on Washington State Route 167.

Some speculated that the video highlights problems with the car's battery. Though others rushed to point out that the battery is located in the back of the car.

The following are a variety of quotes, from across the web, demonstrating the critical nature of this public safety issue:

"Lithium ion batteries are blowing up, starting fires and, generally, destroying people's homes, cars, electronics and physical health. Boeing was just ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously."

"A group of silicon valley venture capitalists forced/leveraged the government to buy and pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about this from day one but put greed ahead of safety. There are thousands and thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's own stock in lithium mining companies too."

"Here is the Fisker Karma after it got wet and the batteries blew up. These batteries blow up JUST FROM GETTING WET! ALL of these burned up hulks are brand new \$100,000.00+ cars that just blew up and torched everything around them just because they got wet! How bad do you want a Fisker or Tesla now? they are **the same** chemical compound that blows up."

"A direct quote from **Tesla's patent application**, below. Tesla KNEW this was going to happen and never adequately warned anybody. Tesla wrote these words in the federal papers they filed yet they never showed these words to any buyers :

*"Thermal runaway is of major concern since a single incident can lead to significant property damage and, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, and sufficient heat to lead to the combustion and destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke and fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked."*

**"WTF!!!!!!**

**Tesla's own staff have now admitted that once a lithium ion fire gets started in one of their cars, it is almost impossible to extinguish burning lithium ion material. This is Telsa's own words in THEIR patent filing. (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can "go thermal" and start a chain reaction! If you look at all of the referenced YOUTUBE movies you will see how easy it is to set these things into danger mode."**

**"Imagine a car crash with a Tesla where these 6800 batteries get slammed all over and then exposed to rain, fire hose water, water on the roads, cooling system liquid.. OMG!! As Space.com reports, those trails might be seen across the Mid-Atlantic and perhaps as far north as Canada and as far south as northern Florida. Space.com explains how these trails will produce a "night sky show:" "The sounding rocket that will be used to create the two NASA-made glowing cloud trails will be a Terrier-Improved Orion. In this technology test launch, two canisters in the rocket's payload section will contain solid metal lithium rods or chips embedded in a thermite cake. The thermite is ignited and produces heat to vaporize the lithium.

"Once the vapor is released in space, it can be detected and tracked optically. The rocket will eject two streams of lithium which will be illuminated at high altitudes by the sun (which will be below the local horizon at ground level)."

In a statement, mission project manager Libby West said the launch is a test flight for two upcoming missions. It'll give scientists a view of two different methods for creating lithium vapor trails. By the way, NASA says the "lithium combustion process poses no threat to the public during the release in space."

If lithium is so dangerous it will even **burn in space**, why are we putting it in our airplanes and cars???????

## **Report: Galaxy S 4 Lithium Explosion Burns Hong Kong Home To The Ground:**

- By [Stephanie Mlot](#) July 30, 2013

A Hong Kong couple have been displaced after an exploding Samsung Galaxy S 4 smartphone burst into flames, burning their house to a crisp.

The man, identified in the [original Xianguo.com report](#) only as Mr. Du, claims that his phone, battery, and charger were all legitimate Samsung products, but that's now difficult to confirm since his home and everything in it were destroyed.

According to the translated report, Du sat on the living room sofa playing the game "Love Machine" on his charging GS4 when it suddenly exploded. In the heat of the moment, he threw the device onto the couch, which caught fire. The flames then spread to the curtains and the rest of the house, "out of control," Xianguo said.

Du, his wife, and his dogs managed to escape the house unscathed; neighbors were temporarily evacuated as firefighters fought the flames. Almost all of the couple's furniture and appliances burned to ash, the news site said, adding that their Mercedes parked outside was also damaged.

Whether or not the true cause of an entire house fire was a singular 5-inch smartphone remains to be seen, though a fire department investigation initially resulted in a report of "no suspicious circumstances."

Samsung did not immediately respond to PCMag's request for comment, but told Xianguo that it will "carry out detailed investigations and tests to determine the cause of the incident." Last year, a Galaxy S III owner in Dublin was driving in his car when [the device caught fire](#). Cell phone safety is increasingly becoming an issue in Asia, where two cases of iPhone shock occurred within a week of each other this month. On July 11, a 23-year-old flight attendant with China Southern Airlines was [allegedly electrocuted](#) when she took a call on her Apple device while it was charging. She was reportedly using the original charger when she was killed.

Here is what the Lithium Ion Batteries did to their home:

## **Boeing 787 Dreamliner woes put spotlight on lithium ion battery risks**

**BY KEN BENSINGER, Los Angeles Times**

Chances are the same kind of battery that twice caught fire in Boeing 787 Dreamliners in recent weeks is in your pocket at this very moment.

Lithium ion batteries, small and powerful, have become the electricity storage device of choice. They are everywhere — in cellular phones, laptops, power tools, even cars. They allow us to talk, email and drill longer than ever possible in the past.

But the incidents that led to the grounding of the 787 fleet worldwide, and the decision by Boeing on Friday to temporarily halt all deliveries of the plane, have highlighted a troubling downside of these energy-dense dynamos: their tendency to occasionally burst into flames.

**FOR THE RECORD:** Dreamliner batteries: An article in the Jan. 19 Section A on lithium ion battery safety and the grounding of the Boeing 787 incorrectly described a fire in a Chevrolet Volt automobile. The battery did not ignite spontaneously; instead it burned after a crash test damaged the vehicle's cooling system and the test car was left parked with the battery fully charged, eventually causing it to overheat. With investigators now working to determine the cause of the incidents, one on a Dreamliner on a Boston runway, the other forcing an emergency landing of a 787 in western Japan, the larger question of lithium ion safety has snapped into focus.

"Every battery can burn and every battery can be flammable," said Mike Eskra, a Milwaukee-based battery development scientist who also works as a battery fire investigator for insurers. "But lithium ion batteries are more dangerous because they store more energy. It's like a firecracker instead of a stick of dynamite."

The casualty list is long. In recent years, tens of thousands of laptop batteries have been recalled due to the risk of fire or explosion. The 400-pound lithium ion battery on General Motors' cutting-edge electric car, the Chevrolet Volt, burst into flames seemingly spontaneously while parked in 2011. And investigators blamed a cargo hold full of lithium

ion batteries for a fire that caused a UPS-operated 747 to crash shortly after takeoff from Dubai in late 2010.

That crash, which killed both pilots, is one of more than 100 incidents recorded by the Federal Aviation Administration linking lithium ion batteries to onboard fires over the last two decades. This month, new rules took effect limiting the transport of lithium ion batteries in aircraft. And the FAA had long prohibited use of the technology in commercial airplanes.

That changed in 2007, when it granted Boeing permission to use the batteries in the 787 under a number of conditions to ensure safety. For Boeing the lithium ion advantage was clear.

Thanks to their chemistry, the rechargeable batteries can store as much energy as a nickel metal hydride pack that's 50% heavier, while charging and discharging faster than other battery types. That's made them attractive for military applications such as the B-2 bomber and also for use on the International Space Station and the Mars Rover.

Lithium ion batteries enabled Boeing to swap out heavy hydraulic systems in the airframe for lightweight electronics and electric motors to operate systems like wing de-icers. That's a key reason the Dreamliner burns 20% less fuel than other wide-body aircraft.

The weight and power savings are exactly what made lithium ion batteries popular in other applications. In excess of 95% of mobile phone batteries worldwide are lithium ion, and without lithium ion, laptops couldn't run anywhere near as long as they do without a recharge.

"They completely dominate the consumer market," said Vishal Sapru, energy and power systems research manager at consulting firm Frost & Sullivan in Mountain View, Calif.. He estimates that global sales of lithium ion batteries reached \$14.7 billion last year, up from \$9.6 billion in 2009, a 53% increase. Sapru expects the market to soar to \$50.7 billion by 2018. "No other battery chemistries are growing at that rate."

But lithium ion also has downsides. The batteries tend to have shorter life spans than older, more proven battery technologies. And although the price is falling, lithium ion is still more expensive than other batteries. Although some carmakers have embraced the technology, others, such as Toyota, have decided against it. Several makers of lithium ion auto batteries for electric vehicles have filed for bankruptcy last year because of weak demand.

Safety experts also have concerns. Because lithium ion batteries can store more energy, and discharge it more quickly, than other batteries, lithium ion cells can get much hotter than other technologies in the event of an overcharge or the external application of a heat source. Larger applications, such as the 63-pound batteries on the 787, incorporate multiple cells and the heat can spread rapidly from cell to cell, a chain reaction called "thermal runaway."

And while other types of batteries use a water-based electrolyte in each cell, lithium ion relies on a highly flammable solvent. When heated up, that solvent tends to vaporize,

spraying the burnable gas into the surrounding air. As a result, lithium ion battery fires burn extremely hot, as high as 2,000 degrees Fahrenheit.

Those conditions were blamed for an explosion at a General Motors battery testing lab last April that caused \$5 million in damage and sent one person to the hospital. GM said flammable gas had vented from an experimental lithium ion battery that heated up during extreme testing.

"Lithium ion is very controversial in the safety engineering space," said Brian Barnett, vice president for battery technology at Tiax, a technology firm in Lexington, Mass. He spoke last month at a conference on battery safety in Las Vegas, where more than three-quarters of the presentations focused on lithium ion batteries.

The cause of the fires in the two Dreamliners has still not been determined and neither Boeing nor the Japanese company that made the batteries, GS Yuasa, have publicly commented on likely factors. Boeing subjected the batteries on the plane to thousands of hours of testing and installed numerous safety systems specific to the batteries.

"We have high confidence in the safety of the 787 and stand squarely behind its integrity as the newest addition to our product family," Boeing Chief Executive Jim McNerny said Friday.

Barnett and others emphasize that it's not uncommon to see problems in relatively new technologies. But they add that most lithium ion fires are caused by an external problem, such as a bad circuit or a software glitch that leads to overcharging. Another common problem in consumer electronics is the use of low-cost wiring and other components that can overheat and spark or catch fire next to the battery itself.

Eskra, the battery fire investigator, said he's seen fires started by Chinese-made toys that use lithium ion batteries hooked up to chargers designed for nickel cadmium or nickel metal hydride batteries. Manufacturing errors, including allowing tiny metal particles to contaminate cells, can cause dangerous shorts, although they are exceedingly rare.

"Somebody tried to cut corners somewhere," he said, noting that most lithium ion fires are caused by a tiny part that malfunctioned somewhere along the line and are easily resolved. "It's a \$2 fix, but it takes half a million dollars in research to figure out what it is."

Sometimes the problem is more persistent. In 2006, Sony announced a global recall of more than 10 million lithium ion laptop batteries used in a variety of laptop computers after more than a dozen fires, and two years later issued a second recall.

*"This is a battery type that is only one of hundreds of possible batteries but this particular type was pushed by a few companies and investors so they could make money off it at the risk of public injury or death..."*

THIS IS AN ACTUAL BOEING BATTERY

**"2006 fire under NTSB scrutiny**

Carli Brosseau Arizona Daily Star

When a test of a lithium-ion battery charger turned into an inferno at Securaplane Technologies Inc. in 2006, temperatures reached as high as 1,200 degrees and three waves of firefighters failed to save the building. An employee of the Oro Valley company blasted the flaming battery with a fire extinguisher to no effect. Two hours later, the galvanized metal roof collapsed, and the 10,000 square-foot building was a total loss.

It's a fire that federal safety regulators are taking another look at now, since Securaplane provides two key battery components to the Boeing 787 Dreamliner, the start-power and battery-charger units. Records from local Golder Ranch Fire Department, the first of three fire departments to respond to the blaze, describe "an uncontrolled thermal reaction (that) caused the battery to vent and this venting caused the ignition to various items and fixtures throughout the test lab area."

"The electrical technician who was performing a test on the battery when it exploded likened the experience to being near a jet after-burner. Electrolytes from inside the battery were shooting 10 feet into the air, the former Securaplane employee, Michael Leon, said in an interview Friday. "The magnitude of that energy is indescribable."

"The fire stands as a graphic illustration of the power stored within energy-dense lithium-ion batteries and the potential consequences if something goes awry. It also highlights the importance and delicacy of the quality-control measures applied to a novel - and potentially explosive - technology, a technology now allowed, under special conditions, to be used as the main and auxiliary power

source of certain aircraft.

The Boeing 787 Dreamliner, the company's newest and most energy-efficient plane, uses two lithium-ion batteries. After two battery-related incidents in the past month, the 50 Dreamliners distributed so far have been grounded."

## "Whistleblower: Dreamliner LITHIUM ION Batteries Could Explode

He says he was fired after warning about battery problems  
By Christopher Freeburn, InvestorPlace Writer

Boeing's (NYSE:BA) new 787 Dreamliner could end up being a nightmare for the aircraft giant.

A former senior engineering technician at Securaplane Technologies, which makes the charging system for the lithium-ion batteries used in 787 Dreamliners, told CNBC that the batteries are defective and liable to explode if they overheat."

### " Lithium-ion batteries are heat intolerant, according to a potential whistleblower familiar with...

Lithium-ion batteries are heat intolerant, according to a potential whistleblower familiar with their technology. "Too much heat on those things, they will go into a thermal runaway, they will explode." The informant, a former senior engineering technician of Securaplane Technologies, was fired in 2007 for repeated misconduct, but he says it was in retaliation for voicing concerns about the batteries. The NTSB acknowledges that the lithium-ion batteries in Boeing's (BA) Dreamliner experienced a thermal runaway, but insists there's no connection between the incident and the whistleblower's claims. "

"The Japan Transport Safety Board makes a number of interim points. This battery, unlike one that burst into flames in a Japan Airlines 787 earlier in January, did not actually ignite. It experienced a thermal runaway, as a result of a build up of heat, yet the materials affected did not start burning. While the semantics might escape the casual observer the safety investigator said:-

"The battery was destroyed in a process called thermal runaway, in which the heat builds up to the point where it becomes uncontrollable.

"But it is still not known what caused the uncontrollable high temperature".

In simple language, uncontrollable rises in temperature will if uncontrolled most likely result in a fire, including one that can burn through structural composites and alloys, and prove almost uncontrollable by fire fighters, *even on the ground*.

It took a Boston airport fire brigade detachment 99 minutes to put out the Japan Airlines fire using equipment unavailable if the airliner was hours away from an emergency landing strip in the high arctic or north Pacific, which that particular flight had only recently traversed before the fire broke out after

landing.

The Japan air safety investigator said the wire supposed to ground or discharge static electricity build ups in the battery had been severed meaning it had experienced abnormal levels of current.

However as also confirmed by the early stage of the US incident investigation into the Japan Airlines fire, this large lithium-ion battery had not experienced a voltage surge, and had so far as flight data recordings could tell, had been operating normally immediately before the emergency landing.

Expect the news release in Japan to cause more tension between those who want the 787s to fly again pending a full understanding of the causes and cures in these incidents, and independent safety investigators who will recommend to safety regulators like the FAA a continuation of the grounding"

## Death By Tesla

By Susan Johnlo For Web Times (Based on actual events)

The sun glistened off the sleek futuristic body of the six figure Tesla sports car as it careened around the next curve of the beautiful Malibu coastal highway.

Below, the Pacific Ocean spread out to the horizon in an endless carpet of blue, undulating waves and sparkling wonder.

Nickleback was blaring from the speakers of the car, the driver's hair was tossed in the wind, his popped collar was flapping in the high speed rush of air and his Ray Bans barely hid his I-own-the-world feeling of delight in the moment.

Then the gates of hell opened up...

The car suddenly swerved, it dived straight off the cliff. Did the driver smell the smoke, or see the flames first? We may never be sure.

Was the, notoriously, hackable Tesla suddenly taken over by Chinese hackers, who had found his car IP address on the internet? That is another question that has yet to be resolved.

What is certain, is the horrific death that then followed. As investigators, safety engineers and fire officials detail the sequence of events, the results require a warning to readers: **Do not read further if you have a weak stomach -**

First, lithium ion battery number 862, in the floor pan of the car, experienced the collapsing housing of the lightweight aluminum box housing that surrounded it. The collapsing metal pierced the skin of the first battery. This was caused by the first rock that the lower corner of the Tesla floor pan slammed into.

The rapid compression, and distortion of the 3 inch long Tesla battery caused that battery to buckle and forced the metal compounds inside, the lithium ion core battery chemicals, to experience the force as a pyrotechnic trigger. This, then caused that battery to release vapors, while at the same time, igniting those vapors like a little hand-grenade.

This battery had just been struck, ignited and exploded, and in that fire and explosion it was releasing gases which the driver was inhaling in his last moments of life. Those gasses have been publicly documented by The FDA, OSHA, Panasonic, and hundreds of other laboratory-grade facilities, to be the cause of cancer, liver damage, neurological damage, fetal damage and other deadly health issues.

If this driver had not been killed by the fire and explosions, he would have had a longer, slower set of lethal issues to contend with.

Back to battery number 862; a few milliseconds after battery number 862 experienced the catastrophic explosion, battery number 863, right next to it, experienced the same devastating failure. This was followed by battery number 864, then number 865, then number 866, milliseconds apart. A chain reaction of self-igniting thermal hell was underway and no fireman could stop it now, nor, could they stop it after the crash.

The unstoppable nature of this lithium ion battery fire, set Malibu Canyon, itself, on fire.

So these flashlight-type batteries, that every Tesla driver is sitting on top of, are going off like military grade incendiary devices, during this crash, one-after-the-other.

These flashlight batteries were never made to be used in cars. Safety engineers say that Elon Musk's decision to use these batteries, in this way, was based on rapid profit exploitation, and not on proper engineering.

Be that as it may, we are now mid-way through the slow motion movie of this crash. The batteries are exploding, one after the other, the car is plowing through the rocks and debris as it dives off the cliff. But the horror has only begun. How many batteries do we have to watch explode in this single vehicle? NEARLY 8000 EXPLODING BATTERIES.

Let us stop and consider this fact.

Where only one in 40 gasoline tanks, in each regular car accident, ever explodes. Here, in one car, you have nearly 8000 possibilities of an explosion AND each battery, that explodes, has an extremely high likelihood of setting off, all the rest, in a chain reaction. Do you like those odds? You have a 400% better chance of winning the lottery.

In our slow motion analysis, we have only crossed the half-way point in the accident. The front of the car is crumpling, the heavy batteries are being thrown upwards, through the floor of the car, to cover the driver in exploding lithium metal particles, and the cockpit of the car is filling up with some of the most toxic fumes you can legally produce.

*Still, the worst is yet to come.*

The special alloys, which Tesla decided to make its car out of, turn out to interact with the exploding batteries to cause an effect called alloy conflagration. The very metal of the Tesla car has now been set on fire by the massive heat from these exploding batteries. The car has turned into the public version of a military phosphorous bomb, one of the most hideous military weapons of all time. This burning metal composition is worse than napalm, it can burn all the way through your face, your skull, and any bones in your body. It is a fire that almost nothing can extinguish.

Molten, flaming metal is dripping on the driver and it is coming from every side of the car, surrounding him in a fireball of deadly metal lava.

The car has finally come to a rest in a fireball. The driver is consumed in a nightmare of fire, dripping molten metal and deadly toxic smoke. The pain is beyond comprehension.

He is, in the same moment, burned to death, asphyxiated and entombed in red hot liquid metal.

The resulting fire, in the Canyon, is, at first, unstoppable and threatens the entire community of homes.

The first responder's attempts to douse the car fire, only make it worse! Water, it turns out, makes lithium ion batteries explode all over again. The car has been filled with a type of battery that mere bumps, and water, can cause to explode. Let me repeat this for emphasis: WATER MAKES LITHIUM ION BATTERIES EXPLODE. Not only does water *not* put out lithium ion fires, IT MAKES THEM WORSE!

Hours later, after the car has burned itself out, the first responders try to recover the body.

The problem is, they can't recognize a body. The driver has been burned into an unrecognizable lump of melted plastic, molten metal and human flesh.

His lovely drive down the coast ended in a horror as awful as any nightmare midnight movie.

So this use, of this battery, in this way, was decided by the very Senators and billionaire campaign investors who owned the stock in this battery. If you wonder why a deadly choice, like this, was

made about a battery that already had all of these dangers fully documented, on federal record; the answer can be found in one word: Corruption.

This massive oversight, putting the public at such risk, took place because a kick-back scheme was created by Mr. Musk, and his campaign finance partners. They chose greed, over scientific facts. Those chose mining commodity deals, and expediency, over proper engineering. They chose corruption, over anything else.

So, when you buy a Tesla, you need to think about your own safety and the safety of the American political system. Consider not supporting corruption and consider supporting the safety of yourself and your family: Buy an Audi!

---

*"One aspect that may confuse some people relates to the decision to use this particular type of battery. The danger posed by it has been evident by a lengthy and documented list of disturbing events in recent years. They include many thousands of batteries used in laptops being recalled, because of determined risks of fire or explosion. General Motors were also placed in the battery limelight. In 2011, the 400 pounds Lithium ion battery in their Chevrolet Volt apparently was subject to spontaneous combustion when it burst into flames, while reportedly in a parked vehicle. In 2010, a UPS-operated Boeing 747 crashed just after take-off from Dubai. Investigators placed the blame on a cargo hold that contained Lithium ion batteries, for a fire that caused the incident."*

*A number of incidents of cell phones with lithium ion batteries blowing up in peoples pockets, notebook computers blowing up in peoples briefcases and other shocking fires have been deeply documented.*

# What Went Wrong With The Electric Car Industry?

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

Elon Musk and the Senators he owns: Pelosi, Harris and Feinstein, will lie, until their dying day about these batteries that they all own stock in! -

--- Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

---- Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age

- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

---- The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

---- A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

---- There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.

---- Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

---- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader.

---- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon

Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

---- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

---- The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

---- In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

---- Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla.

---- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

---- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies.

---- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals.

---- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins".

---- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8

Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose!

---- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University;

---- The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

# Elon Musk's Electric Car Batteries Made By Forced Labor Overseas

Increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

 Electric car batteries tied to forced labor in China: report

[Jarryd Jaeger Vancouver, BC](#)

As many environmentalists push for a quick transition to electric vehicles and clean energy, increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

One province in particular, Xinjiang, is facing mounting criticism as more details emerge surrounding working conditions for members of the Uyghur Muslim minority. [According](#) to the *New York Times*, while China produces 75 percent of the world's lithium ion batteries, much of the raw material is mined elsewhere. In recent years, however, the Chinese government has set their sights on controlling all aspects of the supply chain.

In order to compete with other countries, China has ramped up production in the western province of Xinjiang, home to the nation's Uyghur Muslim minority.

As the *Times* [reports](#), companies such as Xinjiang Nonferrous Metal Industry Group have partnered with the Chinese government to move hundreds of Uyghurs from the south to the industrialized north where they are put to work in mines, smelters, and factories producing lithium, nickel, manganese, beryllium, copper and gold.

While such companies deny that their workers are mistreated, reports show that Uyghurs are subject to what could easily be deemed to be forced labor.

Uyghurs who refuse to work in accordance with Chinese government policies are often sent to internment camps, and in May it was [revealed](#) that many of those camps have a "shoot-to-kill" policy for those who attempt to escape.

Thus, the official claim that "all employment is voluntary" is not supported.

In addition to forced labor, Uyghurs are also subjected to re-education, wherein government-appointed "teachers" attempt to create loyal subjects to the nation and communist regime.

On June 21, a new law will go into effect in the United States called the "Uyghur Forced Labor Prevention Act." As NPR [reports](#), it gives the US authority to seize goods produced in Xinjiang unless companies can prove they did not engage in forced labor practices.

It's true that doing so will be resisted by Democrats who don't want to slow the deployment of solar panels and electric cars in the US, and be resisted by free market Republicans, but the evidence is clear and this is becoming a moral and national security imperative.

— Michael Shellenberger (@ShellenbergerMD) [June 20, 2022](#)

Environmental realist, author, and California gubernatorial candidate Michael Shellenberger is one of many calling on the Biden administration to go one step further and ban the importation of all goods from Xinjiang. He says the US should instead focus on manufacturing green technology at home.

As he points out, however, the decision would face pushback from both Democrats "who don't want to slow the deployment of solar panels and electric cars in the US," and "free market Republicans."

The world has shone a spotlight on the Chinese government's treatment of the Uyghurs in Xinjiang, but it remains to be seen whether the Communist Party and the companies to which it is so closely tied will change their practices.

# Blame Lithium Batteries for Samsung Note 7 And Tesla Motors Fires

major recall of Samsung Galaxy Note 7 phones could also be a wakeup call for manufacturers and consumers about lithium-ion (Li-ion) batteries.

"My brand new Note 7 exploded this morning while I was still asleep, it was plugged in and charging." So begins a [Reddit post](#) from a user in Australia, detailing how a Samsung Galaxy Note 7 caught fire in a hotel room -- causing \$1,800 in damage.

An image of a damaged Samsung Galaxy Note 7 shows that the overheating began at the center of the Li-ion battery.

(Source: Reddit user -- Crushader)

The Reddit post, made in September, was the first noted case in Australia but it would be far from the last in the world. According to the [US Consumer Product Safety Commission](#), beginning in mid-September Samsung received 96 reports of Note 7 phones overheating, of those 13 resulted in burn injuries and 47 in some type of property damage.

On Sept. 15, Samsung initiated a recall of the Note 7, offering to replace units for customers. But in early October the Note 7 made its biggest headlines when a replacement model phone started [emitting smoke](#) on a Southwest Airlines flight from Louisville to Baltimore. Airlines subsequently banned the Note 7 from flights and Samsung would go on to recall all of its Note 7 models, including the replacements -- a total of 1.9 million phones, according to the US Consumer Product Safety Commission.

Initially Samsung stayed quiet on what was causing the phones to overheat, but after dozens of pictures of burnt out Note 7s were posted online, Internet sleuths were able to figure out the problem. Noting where the burn marks appear, a technology reviewer on YouTube who goes by the name JerryRigEverything deduced that the failure was happening with the phone's lithium-ion battery itself and not with the charging port or any part of the motherboard, which were also potential points of failure.

South Korea-based Samsung has since acknowledged that the problem is with the battery but hasn't gone deep into specifics. However, [Bloomberg](#) obtained documents from Korea's Agency for Technology and Standards saying the overheating was being caused by a lack of insulation between the battery's positive and negative electrodes, which created a short. Chris Robinson, research analyst at Lux Research, told *Design News* that battery shorts like this are common, but there could be more to these Samsung incidents. "A battery short is a common mode of failure, which results when electrical contact is made between the positive and negative electrodes. This oftentimes is caused by a manufacturing defect, such as a contaminant getting into the manufacturing process, but in this case there may be more to the Samsung story," Robinson said via email. "The replacement batteries started catching fire, which could indicate a larger problem with the design of the handset."

Of course, the Note 7 is only the latest in what has been a series of recent lithium-ion-related issues in consumer products. Back in 2012 the [Fisker Karma](#) was recalled because of battery overheating issues. In 2013 a Tesla Model S [caught fire](#), revealing a design flaw in which the vehicle's battery pack wasn't properly shielded against road debris that could potentially puncture it. And just last Christmas the hottest item on the shelves -- the [hoverboard](#) -- had its hype train derailed when reports started surfacing of shoddy knockoff products with defective lithium-ion batteries catching fire.

It really brings to question why we rely on such a potentially volatile solution for our battery needs. But Robinson said that issues with lithium-ion batteries do not happen at random. "These incidents are problems given how much we use electronic devices and the severity of the fires, but Li-ion batteries can be made safe. However, with Li-ion battery fires there is almost always a reason why they catch fire -- it's not just a random event," he said. "Considering the hoverboard fires, they were caused by mostly Chinese Li-ion manufacturers with poor quality control and no established track record of making volumes of batteries, who hoverboard manufacturers turned to as Li-ion demand increased ahead of rushing these products to market ahead of the holiday season. Fisker battery fires were caused by coolant leaks which led to batteries overheating, and several Tesla fires were related to external damaging of the battery from debris or a crash."

"The key component which prevents shorting, a major failure mode of batteries, is the separator," Robinson said. "Many use a polymer separator, but ceramics have been of some interest to the industry for improved safety and durability. However, these add weight and cost to the battery, which is why most companies forego their use." He suggested that, moving forward, these types of separators may become more attractive to companies looking to increase product safety. [Next-generation chemistries](#), things like solid-state batteries, could also be an option. "This also could allow for improved energy density," Robinson said. "But these batteries are not manufactured at the large scale required to supply cell phones, and also add significant costs."

Right now, despite any risks, Li-ion batteries are still the best choice for consumer products and electric vehicles since they offer the best balance of energy and power density and lifecycle. "Previous chemistries, primarily NiMH batteries, could only offer about half of the performance relative to size and weight that Li-ion batteries can provide." Robinson said.

However, as consumers demand products that are not only higher performing but also increasingly light and thin, we may be putting a greater burden on OEMs as far as ensuring product safety. Cramming a battery into a smaller and smaller space while still demanding more power and performance also opens the door for the sort of incidents seen with the Note 7. The Note 7, for example, is Samsung's lightest and thinnest Note model yet (by a small margin), but also has more sensors, a better camera, and more hard drive storage space.

"As manufacturers push for lighter and thinner phones that does make both the battery and system design more difficult," Robinson said. "Batteries must be kept fairly cool to prevent thermal runaway, which leads to fires, and increasingly small space make this difficult. Furthermore, on the cell level, manufacturers try to use the thinnest and cheapest separators as possible, since they add weight, volume, and price to the cell."

## ***Netflix wants to charge us money to watch their abortion ads, BLM promos and cut-off-your-dick trans hype!!!!??***

*WOKEFLIX is what everyone now calls Netflix because Netflix takes our money and pushes weird sex propaganda that Netflix bosses are into!*

Per Susan Deen:" Let's face it, Netflix sucks. Netflix spies on you and sends your psychological profile, location and interests off to spies, political parties, marketing services, Google, The Silicon Valley mafia, the IRS, the DEA.. pretty much anybody can see what you are doing on Netflix.NETFLIX is not a movie service.

NETFLIX IS AN ULTRA-WOKE, ANTIFA PROPAGANDA OPERATION THAT SEEKS TO PROMOTE EXTEMIST POLITICAL AND SEXUAL SOCIAL CONCEPTS! If you like to get pandered to and treated like one of the data cattle on the privacy harvesting ranch then Netflix is your Pimp! Netflix pretty much works for Obama and his political gang and pushes woke mass media manipulation and gay sex social programming at you as a result. If you are a guy, Netflix really, really, really wants you to cut your penis off and call yourself a girl!"

---- Whats worse is that with so many studios refusing to license content to Netflix now, streaming services such as Disney plus, Peacock and many more are on the rise. Netflix sucks. Somehow, Netflix subscribers are left feeling like there's nothing to watch on a platform that force feeds an over abundance of content from Indian and Mexican movies to it's viewers.

---- Every Netflix subscriber claims there's nothing above "B-list" movies being served to them on a thirteen dollar per month silver platter (and sixteen for 4k) Not to mention how unfavorable the label "Netflix originals" have become when slapped on a movie or show: "Netflix originals" is building a negative rep on par with Nickelback and Adam Sandler's series of Happy Madison productions movies.

---- Everyone knows that Netflix is bad now and getting worse every day. Netflix makes young adults feel the same way the price of extra guac at Chipotle does... and that is the: "I don't agree with this, but please take my money", feeling. They know they've got your money because it's too hard to say no each month because Millennials are so stupid and sheep-like.

---- Did we mention the increase of the monthly price? Netflix sucks. Netflix only hires Burning Man type extreme hair-dyed hipsters who have an ANTIFA-type attitude, especially if they are from Asia and will work like dogs for McDonald's type pay and conditions. People who use Amazon Prime and then go back to Netflix can really see how much Netflix sucks. They would rather set their genitals on fire than stay with Netflix.

---- Netflix will make you love crippled, fat, black transgendered lesbians. You will get so many of them you won't be able to stand it.

---- A while back Netflix destroyed its own rating system. What we mean by that is... they literally deleted it. Now, at the start of each movie we're forced to either check rotten tomatoes or risk the next 25 minutes to figure out if a show or movie is worthy of our time and attention. Netflix removed their rating system in order to hide the fact that everyone thinks their movies are absolute shit!

---- Netflix stole most of its streaming media technology from small inventors that it never paid. If any inventor tries to sue Netflix, Netflix just sends millions of dollars of lawyers after them so that the inventors can never get paid. It is best just to put Netflix out of business.

---- Netflix spent zillions of dollars making new content but the content they made turned to be the worst shit ever created. When Obama and his buddies make media to try to program you into being “woke”, it ends being heartless propaganda. Seriously, Netflix spent more money making shittier content than anyone in history. It's as if Netflix was just funneling money back to Biden and Obama. Speaking of funneling money, the FBI's Peter D. Cair has been busting Netflix executives who steal big money through the Netflix stock market system. ---- If you use Netflix you enter a “Netflix pit” you fell into and can't get out of...

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, “data mining”, “machine learning” and “AI” means computerized propaganda processing for certain political entities. They began hiring off-shore people ( because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting “mind-raped” without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean.

Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking.

---- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

---- Netflix handed that sex-obsessed fetishist Ryan Murphy (pictured) \$300 million to create flop after flop after flop. Oh, and where's all the America-is-racist shit? I'll tell you where all that garbage is: it's buried in that pile of shit Netflix calls a "content menu," and as far as eyeballs, it's all losing to 20-year-old movies everyone's already seen, like Happy Gilmore. Netflix's whole plan was to release a new movie every week, which it did. But those movies were all shit — all preachy, insulting, anti-human nature exercises in woketardery.

----So now that The People have spoken and the bottom has begun to fall out of Netflix's stock price — from \$679 in November to \$192 today — and now that Netflix is losing subscribers and expecting to lose two million more this quarter — the Netflixards need to rethink some things...It makes perfect sense for Netflix to want to attract talent. What makes no sense is standing back and allowing them to produce their insane vanity projects that have no appeal to any normal human being.

Plaintiff was told by a senior member of The National Venture Capital Association: "... We (The NVCA) are not going to let you get any more patents that compete with our operations. Straight from the Palladino spy files --- San Francisco is ruled by corruption, cronyism, bribes and favors. SF has become increasingly inhospitable to the average person. The median rent for a one-bedroom is \$2,695. A family of four is considered "low-income" if they make less than \$97,000. The Target and Walgreen's stores have had to operate in "crisis" mode because the crime is so bad in San Francisco that you get robbed in the aisles while shopping at major retail stores in San Francisco. The STD rates are off-the-scale. It is almost certain that your car will be broken into or keyed. This place is tough to exist in long-term. It got like this because San Francisco's corruption culture is so out of control. ---- If you think San Francisco's ills are all due to the technology mobsters, you are mostly correct!

---- San Franciscans now have an obsession with escaping from San Francisco. This comes from a healthy heaping of realistic bitterness — bitterness that you won't be able to stay here, bitterness that you can't buy a house and set down roots and bitterness that others, unplagued by inertia, can recognize these facts and leave.

---- As San Franciscans, we'll always be looking over our shoulders at Austin and Portland and Denver, wondering what life's like in a more hospitable city where City Hall is not entirely controlled By Twitter, Facebook, Google and Netflix corporate bribes.

---- The villains in "The End of the Golden Gate" book are familiar ones. Tech, capitalism, Mayor Ed Lee's tax laws. Every writer seems to agree on one front: San Francisco has changed, and in many ways, for the worse.

--- "The San Francisco I knew and loved has been face-lifted, sleeked, chromed, polished, colonized, homogenized, and marginalized as a cultural innovative force," writes Peter Coyote in "San Francisco, For Sale by New Owners." "The transformation was accomplished in a smooth, seamless manner by money and addiction to power."

---- "San Francisco," he writes earlier in the essay, "is too expensive, too monoculturally wealthy. Tech wealth and privilege have transformed it into a cushy enclave for the heartless."

---- Gary Kamiya's standout essay acknowledges the downsides of this city: "The exorbitant cost of housing, the influx of tech workers, traffic, crime, dirty streets, and an ever-worsening homeless crisis."

---- The Bay Area's Google, Facebook and Netflix, Tesla executives and VC's happen to be the organizing, financing and beneficiary partners in a massive market manipulation scheme.

---- They formed their "Silicon Valley Cartel" to collude, conspire and organize against the government, the public and industry in a manner which the tech oligarchs describe in their own emails as being based on "...the Italian Mafia!".

---- Indeed, The Silicon Valley Tech oligarchs have formed a collusion-based, law-violating, tax-evading, government-manipulating crime empire protected by famous Bay Area politicians, whom they bribe! No cops seem to be able to stop them.

---- The Bay Area Solyndra/Silicon Valley Cartel case was one of the largest corruption matters in America with roots that ran all the way to the Oval Office. The FBI raid on Solyndra was only the tip of the iceberg. The matter illuminated an organized crime scheme, in violation of RICO, anti-trust and other laws, between major public officials, Silicon Valley tech oligarchs and their operatives.

---- The tech oligarchs beg for you to view them as "Green Advocates" but they lie! They engage in genocide, child labor slavery and rape farms via corrupt overseas rare earth mining schemes owned by California Senators, Department of Energy Executives, White House staff and the Silicon Valley tech Cartel. They are actually only really interested in anything green that has a dollar sign on it.

---- The Silicon Valley Cartel loves to run everything. In their federal "no poaching" lawsuits: Case #s 11-cv-2509 and 5:2011cv02509 and 1:10-cv-01629 and 1:10-cv-02220; these cases, along with the "Angelgate" scandal, prove that the Silicon Valley Cartel colludes to harm the public, rig the government and monopolize industries. -

--- State-sponsored "hit-jobs" were ordered, operated and financed by San Francisco government officials in order to engage in revenge, reprisal and vendetta, against any who speak out about their crimes.

# SILICON VALLEY'S SHAM CULTURE

## - CALIFORNIA ELITIST POLITICIANS DESTROY CALIFORNIA BY CATERING TO ASSHOLES

V.D. Hanson wrote about "The Selfish Californian" describing how Silicon Valley Californians create inequality by pretending to hate inequality. Their hatred of inequality is just a front. It is a faux, fake, a pretense as a means to power and control. None of the tech elites in their mountain top homes and beach side mansions have any experience of "inequality".

We hear plenty of reasons for the perfect storm that imploded California. One-party, progressive government, of course. Decades of unchecked illegal immigration, without doubt. Years of mass flight out of state of the productive middle classes, certainly.

But perhaps the most important, but overlooked, reason has been the infusion of trillions of dollars of mostly tech capital into the state. Unimaginable sums of market capital warped politics and led to a top-down, feudal society, run by progressive elites who are shielded from the ramifications of their own toxic ideologies.

More specifically, the common denominator was the emergence in California of a selfish, monied, left-wing political class. In concrete terms, it cared little for others but masked that unconcern with abstract leftism, emulating medieval penance and indulgences to assuage guilt over its enjoyment of sheltered and very good lives.

California's recent premier politicians at the local, state, and federal levels—Jerry Brown, Barbara Boxer, Dianne Feinstein, Gavin Newsom, and Nancy Pelosi—all enjoyed wealth and power, whether by inherited money and family brand names, through marriage, or using their positions to leverage lucrative family and personal business with the Chinese.

Their lifestyles before, during, and after office-holding reflected both their privileges and the vast material differences between their own lives and the millions of Californians who suffered enormously from their utopian bromides. Yet a world away from their homes in Grass Valley, Kentfield, Lake Tahoe, Napa, Pacific Heights, or Rancho Mirage, the rest of the state's residents who voted for them currently cannot afford a house, a full tank of gas, a chuck steak, or an air-conditioned afternoon.

At least the Church of the 15th century offered formal contractual indulgences and personal penance manuals for the guilt-ridden elite eager to abort their earned inferno-to-come. In California, however, to enjoy affluence and leisure without guilt or recriminations, left-wing power elites virtue signaled their progressivism, even as it wrecked the lives of distant others.

If it were a question of drilling more oil while transitioning to clean power or shrugging that nobody José Martinez in Sanger would pay \$6.50 a gallon to commute to work, it was a no brainer: Mr. Martinez was simply out of sight, out of mind collateral damage.

So too all of California's poor and lower middle classes who could not afford to flee and now cannot afford shelter, food, fuel, and safety, due to decades of policies that zoned away new home construction, strangled the gas, timber, and mining industries, taxed and regulated gas and diesel

to the point of unaffordability, neglected the needs of the state's once rich farming industry, and loved fish far more than people. Apparently, these well-educated and self-declared Socrateses believed that Californians could drink Facebook, eat Google, drive Twitter, and live on Snapchat.

The far-left Atlantic's various contributors for years have been cheerleading most of the policies adopted by the Bay Area elite—defunding the police, decriminalizing an array of crimes, appeasing homelessness, ignoring dangerous drug use and dealing, and urging more redistributive taxation and entitlement.

But now Atlantic essayist Nellie Bowles warns us that San Francisco is a “failed city.” And she is correct in that the city is increasingly medieval. Its downtown is emptying, filthy, toxic, dangerous, and pre-civilizational—perhaps an unfair term since it was rare in pre-Roman Gaul or nomadic North Africa for tribal residents to sleep in the village pathways, fornicate and defecate openly among children, and violently attack random passersby.

In truth, the implosion of San Francisco, Los Angeles, and California more broadly is no accident. Destroying all the bounty that was inherited from far better and far-seeing generations was the logical result of deliberate policies—reflecting the self-interest of a few million rich, educated professionals. They apparently decided that their genius and superior morality had transcended worries over ancient challenges of food, water, shelter, transportation, and received law and custom.

California's anointed enjoyed safe neighborhoods from Malibu to Presidio Heights. They inherited or purchased beautiful coastal corridor homes worth \$1,200 a square foot, from La Jolla to Berkeley. They drew income from the trillions of dollars invested in Silicon Valley and the new globalized and Asia-centric economy that opened markets of multibillions of consumers for entertainment, media, finance, law, academia, corporations and the accompanying credential professional classes.

And so, they grew hubristic and stupid. In their arrogance and ignorance, they began to feel their own bounty and leisure were birthrights. Free from worries about who brought them their water, food, safety, energy, and shelter—or how—they were liberated to institutionalize their own visions of 21st-century-correct living to less fortunate others, albeit from a properly segregated distance.

Freeways were obsolete ideas. The fewer built, and the even fewer maintained, the more likely the clueless could be crowded into cost-effective, clean, and safe mass transit.

So, a \$15 billion high-speed rail disaster arose and remained inert like Stonehenge monoliths. Meanwhile, thousands of the poor on the obsolete Highway 99 continued to die and were maimed in daily accidents on a Road Warrior-esque obstacle course. The nearby Amtrak trains still sat delayed on side-tracks, for want of a simple, 19th-century two-track rail. How strange that bankrupt 21st-century visions came at the cost of easy 20th-century solutions.

Aqueducts, reservoirs, dams? These were likewise relics of previous delusional generations. That the coastal corridor's water came from aqueducts across vast distances was mostly unknown by those who crowded into one of the most naturally unsustainable regions on the North American continent—a coastal strip mostly dry and bereft of an aquifer to sustain its tens of millions.

So, the state stopped building water storage. More often, it released snowmelt and runoff water into the ocean rather than to farms and to replenish aquifers.

Fires? Let forests of evergreens burn as they had in primordial times, better to burn to provide mulch for worms and birds—and scare away the deplorable foothill folk who had no business living in the mountains, anyway.

The elite now dreamed of returning to a half-million person California of the 19th century, reputedly with lush riverbanks from the sea to Sierra, with salmon runs to the mountains. They recoiled at the very idea that a 40 million-person state of mostly poor immigrants—over a quarter of the state's population was not born in the United States—might need water for their towns or for the farms they worked.

How ironic that millions fled Mexico and Central America to enter, often illegally, the once golden California, land of plenty. They were welcomed by the state's business and political elite but not to be housed, fed, and schooled as were the elite. Their directive was to vote correctly for their supposed betters and to supply janitors, landscapers, nannies, cooks, and housekeepers for those who welcomed them in—on the condition that they not dare demand the state's green resources for good homes, affordable gas, or a nice lawn or long shower.

Let them instead eat a solar farm, bike path, or Tesla.

And so it went, each carefully placed brick in the once sturdy long wall of California, laid carefully over the past 150 years—to ensure a naturally fragile state with affordable food, energy, security, housing, transpiration, schools, and education—was ripped out, mocked as obsolete, and written off an embarrassment to the present.

Californians who look at their aging dams, their granite classical civic buildings, and their large municipal parks, are like Dark-Age Greeks who stumbled around the ruins of Mycenaean palaces and walls, wondering who were the demi-gods who built such things that now were impossible to emulate. So, too, we are bewildered at Balboa Park or the California aqueduct, or rather saddened that simply copying them is beyond our moral power or expertise.

The state was once rich and secure in gas and oil, nuclear power, cutting-edge freeways and airports, water storage, law enforcement, a topflight public school system, and an effective higher education triad. All these resources have become either politicized or taboos that are neglected, dismantled, or destroyed by a class that commuted little, was nonchalant about their power bills, put their kids in private schools, and enjoyed neighborhoods whose zip codes and private security patrols bounced away revolving-door felons and homeless far distant to the haunts of the middle class and poor.

Rich leftists quote the Gini coefficient chapter and verse, oblivious that they have created a state of affairs in which California ranks second to the bottom—below even New York—in such calibrations of inequality. The Silicon Valley motto should be, "I create inequality by hating inequality."

We have not built a major mountain reservoir outside of Los Angeles in over 40 years even as the population has soared. The main north-south laterals of the state—the 101, I-5, and 99—often

narrow into four-lane deathtraps. SFO and LAX are among the more nightmarish airports in the nation. California's test scores rank in the nation's bottom 10 percent of schools.

Over one-fifth of the state lives below the poverty rate. Urban geographer Joel Kotkin recently noted that African Americans and Latinos in California suffer among the lowest real incomes in the nation, 48th and 50th respectively. How could that be true in the land of Mark Zuckerberg, Nancy Pelosi, and Jerry Brown?

One-third of Americans on public assistance live in California. To drive through the rural center of the state is to revisit the 1930s world of the Joads. Ramshackle farmhouses now house 20 or some immigrants. Many of them reside here illegally, in trailers, shacks, and illegal add-ons. A state famous for regulating the life out of the middle classes simply ignores systemic flagrant violations of sewage, water, power, and building codes, in the manner of the exemptions given the homeless: out of sight, out of mind.

California's mid-size cities nudge out other blue-state metropolises to rank among the nation's leaders in property crimes. The nation's highest gas taxes, income taxes, and near highest sales taxes either do not mitigate the above pathologies or perhaps help fuel them.

If our liberal political elites lived in crime-ridden Stockton, San Bernardino, or Modesto, had two children in the Los Angeles City public schools, commuted daily on the 99 from Delano to Visalia, flew weekly commercial out of LAX, tried to buy a California home on their salaries as public officials, rode BART to Oakland each evening home, or depended on a business supplying the state with lumber, gas or oil, food, transportation, or construction—the stuff of life—then they might fathom how assuaging their left-wing guilt in the abstract destroyed the lives of those they never see and never wish to see.

So, in a word, California's debacle was the work of the self-absorbed.

The self-declared most caring, virtuous, and moral in the end proved the most narcissistic, selfish, and self-centered. Yes, the rich left-wing California elites are many things, but utterly selfish explains what they do unto others.

Match.com, OK Cupid and corporate dating sites exist to harvest your data for political campaigns

---- They spy on you to manipulate your politics, ideology and intentions and to report you to bill collectors, tax collectors, investigators and political parties. -

The fact is: We can prove they did the crimes and FBI experts can help us prove it! Google is known as the "Nazi's of the Internet". -

---- In a case unfolding in Britain over whether Google wrongly demoted price comparison rival Foundem from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws. -

--- The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking. -

---- At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergy Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Google executives came from most of the fraternity houses involved in the college rape scandals. -

--- Google sells covert character assassination services to politicians and fellow oligarchs. Youtube/Google/Alphabet/Deep State are all the same entity. They conspire to hide news about their corruption and they control most of the internet.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news

manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---- So, while the categories covered in this investigation may seem diverse.

They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, “data mining”, “machine learning” and “AI” means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions.

---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting “mind-raped” without any penis use.

Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking. -

--- Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.

# Facebook Is Abusing Your Sensitive Medical Information from Hospital Websites

Experts say some hospitals' use of an ad tracking tool may violate a federal law protecting health information By [Todd Feathers](#), [Simon Fondrie-Teitler](#), [Angie Waller](#), and [Surya Matt](#)

A tracking tool installed on many hospitals' websites has been collecting patients' sensitive health information—including details about their medical conditions, prescriptions, and doctor's appointments—and sending it to Facebook.

The Markup tested the websites of [Newsweek's](#) top 100 hospitals in America. On 33 of them we found the tracker, called the Meta Pixel, sending Facebook a packet of data whenever a person clicked a button to schedule a doctor's appointment. The data is connected to an IP address—an identifier that's like a computer's mailing address and can generally be linked to a specific individual or household—creating an intimate receipt of the appointment request for Facebook.

On the website of University Hospitals Cleveland Medical Center, for example, clicking the "Schedule Online" button on a doctor's page prompted the Meta Pixel to send Facebook the text of the button, the doctor's name, and the search term we used to find her: "pregnancy termination."

Clicking the "Schedule Online Now" button for a doctor on the website of Froedtert Hospital, in Wisconsin, prompted the Meta Pixel to send Facebook the text of the button, the doctor's name, and the condition we selected from a dropdown menu: "Alzheimer's."

## Coming Next in the Pixel Hunt Series

This children's hospital network is giving kids' names to Facebook.

The Markup also found the Meta Pixel installed inside the password-protected patient portals of seven health systems. On five of those systems' pages, we documented the pixel sending Facebook data about real patients who volunteered to participate in the Pixel Hunt project, a collaboration between The Markup and Mozilla Rally. The project is a [crowd-sourced undertaking](#) in which anyone can install [Mozilla's Rally browser add-on](#) in order to send The Markup data on the Meta Pixel as it appears on sites that they visit. The data sent to hospitals included the names of patients' medications, descriptions of their allergic reactions, and details about their upcoming doctor's appointments.

Former regulators, health data security experts, and privacy advocates who reviewed The Markup's findings said the hospitals in question may have violated the federal Health Insurance Portability and Accountability Act (HIPAA). The law prohibits covered entities like hospitals from sharing personally identifiable health information with [third parties like Facebook](#), except when an individual has expressly consented in advance or under certain contracts.

Neither the hospitals nor Meta said they had such contracts in place, and The Markup found no evidence that the hospitals or Meta were otherwise obtaining patients' express consent.

"I am deeply troubled by what [the hospitals] are doing with the capture of their data and the sharing of it," said David Holtzman, a health privacy consultant who previously served as a senior privacy adviser in the U.S. Department of Health and Human Services' Office for Civil Rights, which enforces HIPAA. "I cannot say [sharing this data] is for certain a HIPAA violation. It is quite likely a HIPAA violation."

University Hospitals Cleveland Medical Center spokesperson George Stamatis did not respond to The Markup's questions but said in a brief statement that the hospital "comport[s] with all applicable federal and state laws and regulatory requirements."

After reviewing The Markup's findings, Froedtert Hospital removed the Meta Pixel from its website "out of an abundance of caution," Steve Schooff, a spokesperson for the hospital, wrote in a statement.

This is an extreme example of exactly how far the tentacles of Big Tech reach into what we think of as protected data space.

*Nicholas Price, University of Michigan*

As of June 15, six other hospitals had also removed pixels from their appointment booking pages and at least five of the seven health systems that had Meta Pixels installed in their patient portals had removed those pixels.

The 33 hospitals The Markup found sending patient appointment details to Facebook collectively reported more than 26 million patient admissions and outpatient visits in 2020, according to the most [recent data available](#) from the American Hospital Association. Our investigation was limited to just over 100 hospitals; the data sharing likely affects many more patients and institutions than we identified.

Facebook itself is not subject to HIPAA, but the experts interviewed for this story expressed concerns about how the advertising giant might use the personal health data it's collecting for its own profit.

"This is an extreme example of exactly how far the tentacles of Big Tech reach into what we think of as a protected data space," said Nicholson Price, a University of Michigan law professor who studies big data and health care. "I think this is creepy, problematic, and potentially illegal" from the hospitals' point of view.

The Markup was unable to determine whether Facebook used the data to target advertisements, train its recommendation algorithms, or profit in other ways.

Facebook's parent company, Meta, did not respond to questions. Instead, spokesperson Dale Hogan sent a brief email paraphrasing the company's [sensitive health data policy](#).

"If Meta's signals filtering systems detect that a business is sending potentially sensitive health data from their app or website through their use of Meta Business Tools, which in some cases can happen in error, that potentially sensitive data will be removed before it can be stored in our ads systems," Hogan wrote.

## **Facebook and Anti-Abortion Clinics Are Collecting Highly Sensitive Info on Would-Be Patients**

[The social media giant gathers data from crisis pregnancy centers through a tracking tool that works whether or not a person is logged in to their Facebook account](#)

Meta did not respond to follow-up questions, but Hogan appears to be referencing a sensitive health information filtering system that the company launched in July 2020 in response to a [Wall Street Journal article](#) and New York Department of Financial Services investigation. Meta told the investigators that the filtering system was “not yet operating with complete accuracy,” according to the department’s February 2021 [final report](#).

The Markup was unable to confirm whether any of the data referenced in this story was in fact removed before being stored by Meta. However, a recent [joint investigation with Reveal](#) found that Meta’s sensitive health information filtering system didn’t block information about appointments a reporter requested with crisis pregnancy centers.

Internally, Facebook employees have been blunt about how well—or not so well—the company generally protects sensitive data.

“We do not have an adequate level of control and explainability over how our systems use data, and thus we can’t confidently make controlled policy changes or external commitments such as ‘we will not use X data for Y purpose.’ ” Facebook engineers on the ad and business product team wrote in a 2021 privacy overview that was [leaked to Vice](#).

## “Almost Any Patient Would Be Shocked”

The Meta Pixel is a snippet of code that tracks users as they navigate through a website, logging which pages they visit, which buttons they click, and certain information they enter into forms. It's one of the most prolific tracking tools on the internet—present on more than 30 percent of the most popular sites on the web, according to The Markup's [analysis](#).

In exchange for installing its pixel, Meta provides website owners analytics about the ads they've placed on Facebook and Instagram and tools to target people who've visited their website.

### [How We Built a Meta Pixel Inspector](#)

[The first large-scale, crowdsourced study that monitors how Meta tracks people across the internet](#)

The Meta Pixel sends information to Facebook via scripts running in a person's internet browser, so each data packet comes labeled with an IP address that can be used in combination with other data to [identify an individual or household](#).

HIPAA lists IP addresses as one of the [18 identifiers](#) that, when linked to information about a person's health conditions, care, or payment, can qualify the data as protected health information. Unlike anonymized or aggregate health data, hospitals can't share protected health information with third parties except under the strict terms of business associate agreements that restrict how the data can be used.

In addition, if a patient is logged in to Facebook when they visit a hospital's website where a Meta Pixel is installed, some browsers will attach third-party cookies—another tracking mechanism—that allow Meta to link pixel data to specific Facebook accounts.

And in several cases we found—using both dummy accounts created by our reporters and data from Mozilla Rally volunteers—that the Meta Pixel made it even easier to identify patients.

When The Markup clicked the “Finish Booking” button on a Scripps Memorial Hospital doctor's page, the pixel sent Facebook not just the name of the doctor and her field of medicine but also the first name, last name, email address, phone number, zip code, and city of residence we entered into the booking form.

## [Report Deeply and Fix Things](#)

Because it turns out moving fast and breaking things broke some super important things.

### [Give Now](#)

The Meta Pixel “hashed” those personal details—obscuring them through a form of cryptography—before sending them to Facebook. But that hashing doesn’t prevent Facebook from using the data. In fact, Meta [explicitly uses](#) the hashed information to link pixel data to Facebook profiles.

Using a [free online tool](#), The Markup was also able to reverse most of our hashed test information that the pixel on Scripps Memorial Hospital’s website sent to Facebook.

Scripps Memorial didn’t respond to The Markup’s questions but it did remove the Meta Pixel from the final webpages in the appointment booking process after we shared our findings with the hospital.

On other hospitals’ websites, we documented the Meta Pixel collecting similarly intimate information about real patients.

When one real patient who participated in the Pixel Hunt study logged in to the MyChart portal for Piedmont Healthcare, a Georgia health system, the Meta Pixel installed in the portal told Facebook the patient’s name, the name of their doctor, and the time of their upcoming appointment, according to data collected by the participant’s Mozilla Rally browser extension.

When another Pixel Hunt participant used the MyChart portal for Novant Health, a North Carolina-based health system, the pixel told Facebook the type of allergic reaction the patient had to a specific medication.

The Markup created our own MyChart account through Novant Health to further investigate and found the Meta Pixel collecting a variety of other sensitive information.

Clicking on one button prompted the pixel to tell Facebook the name and dosage of a medication in our health record, as well as any notes we had entered about the prescription. The pixel also told Facebook which button we clicked in response to a question about sexual orientation.

“Our Meta pixel placement is guided by a third party vendor and it has been removed while we continue to look into this matter,” Novant spokesperson Megan Rivers wrote in an email.

Epic Systems, the software company behind MyChart, has “specifically recommended heightened caution around the use of custom analytics scripts,” Stirling Martin, a senior vice president for the company, wrote in an email.

Facebook is [able to infer intimate details](#) about people’s health conditions using other means—for example, the fact that a person “liked” a Facebook group associated with a particular disease—but the data collected by pixels on hospitals’ websites is more direct. And in sharing it with Facebook, experts said, health care providers risk damaging patients’ trust in an increasingly digitized health system.

“Almost any patient would be shocked to find out that Facebook is being provided an easy way to associate their prescriptions with their name,” said Glenn Cohen, faculty director of Harvard Law School’s Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics. “Even if perhaps there’s something in the legal architecture that permits this to be lawful, it’s totally outside the expectations of what patients think the health privacy laws are doing for them.”

## Legal Implications

Facebook's data collection on hospital websites has been the subject of class action lawsuits in several states, with mixed results.

Those cases involve types of data that health law experts said are sensitive but less regulated than the health information The Markup documented the Meta Pixel collecting.

In 2016, a group of plaintiffs [sued Facebook](#) and a handful of health systems and organizations, alleging that the organizations had breached their own privacy policies and several state and federal laws—including wiretapping and intrusion on seclusion statutes—by collecting data via tracking technology on the health care providers' websites.

The U.S. District Court for the Northern District of California [dismissed that case](#) in 2017 for a variety of reasons, including that the plaintiffs failed to prove that Facebook had collected "protected health information," as defined by HIPAA. Rather, the court found, Facebook had tracked plaintiffs on public-facing pages of the websites—such as the homepage or informational pages about diseases—where there was no evidence that the plaintiffs had established a patient relationship with the provider.

In 2019, plaintiffs brought a [similar class action lawsuit](#) in Suffolk County Superior Court against Massachusetts-based Partners Healthcare System, which has since changed its name to Mass General Brigham, alleging that the system had violated patients' privacy and its own policies by installing the Meta Pixel and other tracking tools on its websites.

## [Report Deeply and Fix Things](#)

Because it turns out moving fast and breaking things broke some super important things.

[Give Now](#)

The parties [settled the case](#) in January, with Mass General Brigham denying the allegations and admitting no wrongdoing or liability but paying \$18.4 million to the plaintiffs and their attorneys. After the settlement, Mass General Brigham appears to have removed Meta Pixel and other tracking tools from many of its hospitals' websites—but not all of them.

When The Markup tested the website of Brigham and Women's Faulkner Hospital, clicking the "Request Appointment" button on a doctor's page caused the Meta Pixel to send Facebook the text of the button, the doctor's name, and the doctor's field of medicine. Mass General did not respond to The Markup's request for comment.

As with all such data we found the Meta Pixel collecting, it was sent to Facebook along with our computer's public IP address.

"When an individual has sought out a provider and indicated that they want to make an appointment, at that point, any individually identifiable health information that they've provided in this session, in the past, or certainly in the future, is protected under HIPAA and could not be shared with a third party like Facebook," Holtzman said.

The U.S. Department of Human Services' Office for Civil Rights "cannot comment on open or potential investigations," spokesperson Rachel Seeger wrote in an emailed statement.

"Generally, HIPAA covered entities and business associates should not be sharing identifiable information with social media companies unless they have HIPAA authorization [from the individual] and consent under state law," said Iliana Peters, a privacy lawyer with the firm Polsinelli who previously headed HIPAA enforcement for the Office for Civil Rights.

Patients have the right to file HIPAA complaints with their medical providers, who are required to investigate the complaints, Peters said, adding, "I would hope that institutions would respond quickly to those types of complaints so that they aren't escalated to a state or federal regulator."

## "Plausible Deniability"

Most of the hospitals The Markup contacted for this story did not respond to our questions or explain why they chose to install Meta Pixel on their websites. But some did defend their use of the tracker.

"The use of this type of code was vetted," wrote Chris King, a spokesperson for Northwestern Memorial Hospital, in Chicago. King did not respond to follow-up questions about the vetting process.

King said that no protected health information is hosted on or accessible through Northwestern Memorial's website and that "Facebook automatically recognizes anything that might be close to personal information and does not store this data."

In fact, Meta explicitly states in its [business tools terms of service](#) that the pixel and other trackers do collect personally identifiable information for a variety of purposes.

Houston Methodist Hospital, in Texas, was the only institution to provide detailed responses to The Markup's questions. The hospital began using the pixel in 2017, spokesperson Stefanie Asin wrote, and is "confident" in Facebook's safeguards and that the data being shared isn't protected health information.

When The Markup tested Houston Methodist's website, clicking the "Schedule Appointment" button on a doctor's page prompted the Meta Pixel to send Facebook the text of the button, the name of the doctor, and the search term we used to find the doctor: "Home abortion."

Houston Methodist doesn't categorize that data as protected health information, Asin wrote, because a person who clicks the "Schedule Appointment" button may not follow through and confirm the appointment, or, they may be booking the appointment for a family member rather than for themselves.

Since our further examination of the topic is ongoing, we elected to remove the pixel for now to be sure we are doing everything we can to protect our patients' privacy while we are evaluating.

*Stefanie Asin, Houston Methodist Hospital spokesperson*

"The click doesn't mean they scheduled," she wrote. "It's also worth noting that people often are exploring for a spouse, friend, elderly parent."

Asin added that Houston Methodist believes Facebook "uses tools to detect and reject any health information, providing a barrier that prevents passage of [protected health information]."

Despite defending its use of the Meta Pixel, Houston Methodist Hospital removed the pixel from its website several days after responding to The Markup's questions.

"Since our further examination of the topic is ongoing, we elected to remove the pixel for now to be sure we are doing everything we can to protect our patients' privacy while we are evaluating," Asin wrote in a follow-up email.

Facebook did not launch its sensitive health data filtering system until July 2020, three years after Houston Methodist began using the pixel, according to the New York Department of Financial Services' investigation. And as recently as February of last year, the department reported that the system's accuracy was poor.

That type of Band-Aid fix is a prime example, privacy advocates say, of the online advertising industry's inability to police itself.

"The evil genius of Facebook's system is they create this little piece of code that does the snooping for them and then they just put it out into the universe and Facebook can try to claim plausible deniability," said Alan Butler, executive director of the Electronic Privacy Information Center. "The fact that this is out there in the wild on the websites of hospitals is evidence of how broken the rules are."

Your Phone Is Killing You And Destroying Your Life

By Donna Lawson

Did you know that the electronics in your phone, AND, 99% of the 'Apps' on your phone are tracking you, spying on you, tricking you, and reporting to others when you:

- Get an abortion
- Have sex
- Get pregnant
- Don't go to work
- Enter, or leave, any building
- Get into, or out of, your car
- Have a sex worker take Uber, Lyft or any taxi or ride service to where you are
- Receive money
- Buy anything
- Are depressed
- Breath heavy
- Are located at any location on Earth
- Move from any location on Earth to another location
- Take anything out of your wallet with a chip in it
- Vote
- Express a political opinion
- Use a dating site (Axciom and Equifax make psych profiles on you from your date data)
- Use any 'gay' code words
- Use any 'political' code words
- Speak, or listen, to anyone within 20 feet
- And thousands of other invasions of privacy...

It does these things even if you pushed the button to 'turn it off'. Most phones don't actually turn

off when you think they are off because 'spies-gotta-spy'.

COVID is doing a great job of killing off all of the idiot people who grab the door-knob, bare-handed, at the post office, the Starbucks and the grocery store. COVID waits on public surfaces to kill the sheep of society.

Silicon Valley is doing a great job of killing off all the lives of the rest of the sheep who are too dumb to take the battery out of their phone. The people that walk around with a phone, or tablet, always powered on are committing digital suicide. If you buy a phone that you can't take the battery out of, you are just an idiot.

You may not want to face the truth but I can show you thousands of court records, Congressional investigations and university studies proving that every single assertion in this report is true.

Everybody in Congress knows this is all true but they do nothing because Silicon Valley is bribing almost every single one of them to do nothing. Silicon Valley's largest source of income is your privacy!

NEW YORK (CBSNewYork) — As we recognize October as Domestic Violence Awareness Month, we want to shed light on a type of abuse that many don't even realize is such a problem.

It's a tool readily available to any abuser and very difficult for victims to detect.

READ MORE: Ground-Breaking Ceremony Held At Site Of New \$650 Million 'Hub' In New Brunswick  
CBS2's Jessica Layton has more on the dangers of cyberstalking and how you can protect yourself.

It's so simple, it's scary — software that allows a stalker to secretly spy through an unsuspecting person's cellphone without their consent.

Experts say "Stalkerware" use is rapidly on the rise, increasing 60% from September 2020 to May 2021.

"Unfortunately, it has been on the increase from being a few hundred apps available in the marketplace," said Tony Anscombe of ESET Internet Security.

The concept may have started with decent intentions — parents installing apps to keep tabs on their kids. But as Anscombe explained, it has turned into an industry where a stalker can track a victim's every move, without them ever realizing it.

"These apps can key log, so they can see every key stroke on your device. They can extract all the information from your contacts, your messages, your email," Anscombe said.

The dangerous app disguises itself as something that is an important function of the operating device on the phone, and it only takes minutes to install. So in the time it takes a person to get up and use the bathroom, take a shower or make a snack, their partner may already have them under surveillance.

Experts showed Layton how easy it is to intercept data once the app is on a phone. Groups like Coalition Against Stalkerware also share warning videos, explaining this is seen most often in cases of domestic abuse.

"When someone is controlling all these aspects of your personal information you have to worry about what they have access to. I know that was a concern for me," domestic violence survivor Heather Glogolich said.

Glogolich, a police lieutenant in New Jersey, understands in many ways how hijacking a personal devices is just one way an abuser exercises control over a victim.

"I couldn't leave my phone down without my ex-husband looking through it," Glogolich said. "So technology plays a big role in trapping victims and keeping them in that abusive relationship," survivor Neisha Himes added.

Himes didn't know the dangers of digital abuse when she was trying to leave a toxic relationship, but she has since dedicated her life to helping other victims. She said she now sees it almost every day.

"If they have a phone that maybe the offender purchased for them, we have to tell them, 'OK, let's get you a new phone,'" Himes said.

Glogolich and Himes are supporters of a program developed by Sheri Kurdakul, the CEO of Victim's Voice. It's a web-based app that gives power to the victim, allowing him or her to document cases of abuse in real time on their device to present to the courts. They're taken through a series of guided questions vetted by prosecutors and the answers are encrypted and stored in a secure server.

"It's a progressive web app, which means there's nothing to download. You won't find us in any app store. That also means there's no dangerous icons on sitting on your phone and there's no trigger such as a receipt that you downloaded the app," Kurdakul said. "A lot of victims' emails and such are being tracked and monitored all the time."

That kind of awareness and privacy is paramount. That's why even just knowing there could be Stalkerware on your phone is the first step to protecting yourself.

Low battery life, high data usage and slow performance on your phone may also be red flags, yet sometimes intuition is the best indicator that your personal device isn't so private.

So if you suspect you're being stalked through technology, get expert help. Take the phone to a tech company so they can run programs to check it for you. And also, get police involved.

Experts say never try to delete the app yourself. The abuser will get notified and that could put a person in an even more dangerous situation.

### Google whistleblower claims tech giant's Developer Studio division has been infiltrated by 'pedophilic religious doomsday cult' Fellowship of Friends that was featured in a Spotify podcast series called 'Revelations' last year

An apocalyptic 'cult' led by an eccentric misogynist accused of sexual abuse of young men has taken over a division of [Google](#), a whistleblower has claimed.

Kevin Lloyd, 34, claims that he was fired from his job as a video developer at Google last year because he began questioning the influence of the cult.

In August, Lloyd filed a discrimination case in [California](#) Superior Court, alleging he was fired for digging into Fellowship of Friends - a group based in the small Californian town of Oregon House, and whose members made up a large percentage of employees in his division.

'Plaintiff's preliminary research into Oregon House and the Fellowship of Friends described the Fellowship as a destructive cult, with a pedophilic leader who makes false prophecies about the end of the world,' the lawsuit claims.

'Plaintiff became alarmed that Google was involved with and/or financially supporting such an organization.'

Earlier this month, Lloyd wrote a lengthy description of his case on [Medium](#), and spoke to The [New York Times](#) - who corroborated many of the lawsuit's claims through interviews with eight current and former employees of the Google business unit.

Lloyd said he began work at Google in 2017, as part of Google Developer Studio (GDS) - the tech giant's internal production company, making adverts and video content.

He said it slowly dawned on him that many of the people he met at GDS were from the same small Californian town, 180 miles north of Google's Silicon Valley home, in Mountain View.

The town of Oregon House is home to 1,250 people, and yet Lloyd said he realized that half of the 25 people he met at GDS were from the same town.

Lloyd said he noticed that many of the outside vendors, such as caterers and entertainers at corporate events, were also from Oregon House.

In 2018, Lloyd said, he was speaking to a freelancer who was working with them that day, and was from a town near Oregon House.

Lloyd recalls the freelancer telling him: 'Oregon House isn't a town. It's a cult.'

He began investigating the freelancer's claim, and said he was shocked by what he found.

'There are online support groups for former Fellowship of Friends members to help them process the trauma endured during their membership, as well as problems that arise after leaving,' Lloyd's lawsuit states.

Fellowship of Friends, which is based in Oregon House, was founded in 1970 by Robert Earl Burton, a former school teacher in the San Francisco Bay area.

'From its inception the vision of the Fellowship was, and remains, to establish a practical spiritual organization and to make it available to anyone interested in pursuing the spiritual work of awakening,' they state on their website.

Burton, believed to be now aged in his early 80s, sought to create a center celebrating the fine arts - with opera, ballet, works of art and literature the focus.

He based his organization in Oregon House, and created a winery where his devotees worked, when not studying the arts.

Google even purchased wine, the lawsuit claims, from the Grant Marie Winery, an allegedly cult-affiliated vineyard run by a Fellowship member in Oregon House.

But critics claimed that he had sexually abused new members of his group - in particular young boys.

In 1984 a former member filed a \$2.75 million lawsuit claiming that young men who joined the organization 'had been forcefully and unlawfully sexually seduced by Burton,' according to documents obtained by [The New York Times](#).

In 1996, another former member accused Burton in a law suit of sexual misconduct with him while he was minor. Both suits were settled out of court.

Some accusers, Lloyd alleged, had been flown to the country under false pretenses and then abused.

## **What is Fellowship of Friends?**

Founded on January 1, 1970 by San Francisco school teacher Robert Earl Burton, Fellowship of Friends is a non-profit religious organization, headquartered in Oregon House, California.

Burton based his faith system on a philosophy called the Fourth Way, founded by an Armenian philosopher and mystic, George Gurdjieff, who lived from 1866 to 1949.

Burton adopted Gurdjieff's believe that people are in a hypnotic 'waking sleep', and need to work on themselves through studying art, music and literature.

He named his 1,200-acre headquarters Apollo, and his 1,800 followers gave 10 percent of their earnings to the organization - which spent the money on art, fine wine and culture.

Critics have filed lawsuits claiming sexual abuse.

Other critics said that the group was strongly anti-women, and celebrated white European men above all.

In September, investigative journalist Jennings Brown published a six-part podcast produced for Spotify, entitled [Revelations](#).

Brown had spent three years from 2018 digging into the group, and documented allegations of sexual abuse in what he termed a 'doomsday cult'.

Lloyd said he was aghast that GDS was so strongly linked to the Fellowship, with GDS's director, Peter Lubbers, described as a longtime member of the group, who joined shortly after he moved to the U.S. from the Netherlands.

Lubbers introduced a video producer named Gabe Pannell to the Fellowship: Pannell was pictured with Burton in 2015, and described as a 'new student', The New York Times report.

Lloyd's lawsuit states: 'Mr Lubbers gained status and praise relative to the increase of money flowing to the Fellowship through his efforts at Google that put (and kept) other Fellowship members — directly or indirectly — on Google's payroll.'

Lubbers insisted faith had nothing to do with his hiring.

'My personal religious beliefs are a deeply held private matter,' Lubbers told The New York Times.

'In all my years in tech, they have never played a role in hiring. I have always performed my role by bringing in the right talent for the situation — bringing in the right vendors for the jobs.'

Pannell told the paper that those hired were brought in from 'a circle of trusted friends and families with extremely qualified backgrounds'.

Lloyd, in his Medium post - which does not name Lubbers or Pannell - said that anxiety about the Fellowship, and its reputation, sparked a panic attack, for which he was admitted to ER.

He said in his court documents that he worried events he produced 'could somehow be used to funnel money back into the Fellowship of Friends.'

 Burton is seen in a 1981 photo at Oregon House. In 1984, a former member filed a \$2.75 million lawsuit claiming that young men who joined the organization 'had been forcefully and unlawfully sexually seduced by Burton,' according to documents obtained by The New York Times. Fired in February 2021, he has retained a lawyer who previously represented a woman at Lubbers' previous company, Kelly Services, and sued in 2008 in a similar case.

Lynn Noyes claimed that Kelly Services had failed to promote her because she was not a member of the Fellowship.

A California court awarded her \$6.5 million in damages.

'Anyone outside of the Fellowship is seen as somehow inferior and at times adversarial,' Lloyd's lawsuit says.

'Those that express serious concerns, criticism or question the group may be eventually perceived as enemies.'

Google told The New York Times that they were barred by law from inquiring about someone's religious practices during the hiring process.

'We have longstanding employee and supplier policies in place to prevent discrimination and conflicts of interest, and we take those seriously,' a Google spokeswoman, Courtenay Mencini, said in a statement.

'It's against the law to ask for the religious affiliations of those who work for us or for our suppliers, but we'll of course thoroughly look into these allegations for any irregularities or improper contracting practices.

'If we find evidence of policy violations, we will take action.'

Fellowship of Friends was approached for comment.
