OBAMA AND BIDEN SENT ALL OF THE DEMOCRAT CIA SPIES TO FACEBOOK, TWITTER AND GOOGLE TO RIG ELECTIONS. THEY ROUTED CASH THROUGH A FRONT CALLED "IN-Q-TEL" TO ALLOW DOMESTIC CIA OPERATIONS AGAINST THE PUBLIC TO PUSH BIDEN AND OBAMA BUDDIES STOCK HOLDINGS! THEIR VOTING RECORDS PROVE IT!

[Spooks infiltrate Silicon Valley: Facebook is riddled with ex-CIA agents - including President's ex-briefer who now runs 'harmful content' team - while so many ex-FBI work at Twitter they have their OWN Slack channel](#)

Former CIA agents made up some of the top ranks in almost every politically sensitive department at Meta and Google, as former FBI agents migrated over to Twitter in droves before the 2020 election. DailyMail.com has been able to track down many of these former intelligence officials who are now working at top tech companies, including Aaron Berman, the senior policy manager for misinformation at the company who had previously written the president's daily briefings. It is unclear whether any of these former agents have been involved in any nefarious actions at the social media companies, but their involvement raises questions about the separation of state and tech companies following the release of the Twitter Files. FACEBOOK, YOUTUBE, GOOGLE, TWITTER all controlled by coordinated spy network to rig the news, elections and tech monopolies!

Why are these the only consumer facing companies on Earth filled with psychological warfare spies beholden to Biden and Obama? Because Big Tech planned it that way!
