An Omarosa interview from The Preachers in 2016 may point out that Omarosa is a Clinton Operative, and you can see the 2016 interview above. This week Omarosa herself leaked confidential White House conversations directly to the media, and Omarosa speaking very proudly of her years in the Clinton White House may officially indicate that Omarosa is a Clinton operative/spy for the Clinton/Obama network. We may finally know why President Trump officially fired Omarosa from the White House a few months

back, as Omarosa is now exposed as having a very proud time in the Clinton White House as a staffer to the Clinton administration.

These people truly are stupid, and with Omarosa now exposed as a Trump White House leaker...We may now understand why Omarosa is leaking. Thank God Trump got rid of Omarosa. Now Omarosa the very likely Clinton plant in the Trump White House faces criminal charges for violating White House protocol for leaking White House conversations to the media.
