VOLUME III.A

DIRECTORY OF DEVELOPMENT ORGANIZATIONS

GUIDE TO INTERNATIONAL ORGANIZATIONS, MINISTRIES, PRIVATE SECTOR
INSTITUTIONS, BANKS, DEVELOPMENT AGENCIES, UNIVERSITIES, NGOS/PDOS,
MICROFINANCE INSTITUTIONS AND DEVELOPMENT CONSULTING FIRMS

Introduction

Welcome to Devdir's Directory of Development Organizations 2001, Volume III: Europe.

This Directory has been prepared to facilitate international cooperation and knowledge sharing in development work, both among NGOs, research institutions, governments and private sector organizations. The Directory of Development Organizations is a compilation of contact data of the main sources of assistance available for the promotion of the private sector in developing countries, with particular attention to the development of (non-)financial markets for micro and small enterprises. A wide range of organizations are included in the Directory: microfinance institutions, small enterprise development organizations, NGOs/PDOs, development agencies, international organizations, private sector institutions, trade promotion organizations, banks, government ministries, development consulting firms and research and training institutions. The organizations promote both private sector development and poverty alleviation, through: **microfinance, business development services, small enterprise development, appropriate technology, community development, environmental protection, research, training and education.**

The Directory lists **over 20,000 individual contacts of organizations** which offer (non-)financial support, information and advice to the enterprise sectors in developing countries. Contact details include the organization's mail and street address, telephone and fax numbers, e-mail address and Web page details, if available. This Directory is intended to provide a comprehensive source of reference for development practitioners, researchers, donor employees, and policymakers who are interested in private sector development and poverty alleviation, particularly in developing countries.

Contact details of organizations have been gathered mainly through the Internet, from a wide range of sources, including institutional directories and databases (e.g. International Organizations), Internet discussion networks on development-related topics (e.g. DevFinance), vacancy announcements (e.g. The Economist) and many other resources based on my experience and perspective as a development economist.

You may use the "Find command" to locate the name of an organization or contact in the Directory. Original translations (English, Spanish, French, German, Dutch, etc.) of the names of the organizations have been maintained. Abbreviations are frequent and other translations (English) of the names may be used as well; those included here are given primarily to assist you in deciding which may be the most appropriate for you to contact.

Those interested in a particular organization are urged to contact that organization directly for further information. Although every effort has been made to ensure accuracy, individual and organizational contact details, Internet addresses, and dialing systems/numbers frequently change. I would therefore be grateful for any information or comments which may bring this Directory up to date or otherwise improve it. Please use the following e-mail address to communicate any comments or suggestions: info@devdir.org .

For easier referencing, the Directory has been divided into **7 geographical sections**: Africa, Asia and the Middle East, Central America and the Caribbean, Europe, Oceania, South America, Canada and the USA. For each of the regions contacts have been divided into **8 categories**:

1. **International Organizations** : including e.g. UN, WB, International Development Banks;
2. **Government** : Ministries, Government Institutions, Planning Agencies, Donor Organizations;
3. **Private Sector Support Organizations** : Chambers of Commerce and Industry, Fairtrade Organizations, Trade Promotion Organizations;
4. **Finance Institutions**: Central banks, Development banks, Commercial Banks, Credit Unions;
5. **Training and Research Organizations** : Universities, Research Centres and Institutions, Training Institutes;
6. **Non-Governmental Organizations (NGOs) / Private Development Organizations (PDOs)** : Microfinance Institutions, Development Programmes and Projects, Development Foundations and Associations, Membership Development Organizations, Church Development Organizations;
7. **Development Consulting Firms**;
8. **Information Providers** : Newsletters/Journals, Publishers, Web Resources, Databases.

The Directory of Development Organizations can be used in a variety of ways, ...by researchers, consultants and other development practitioners searching for up-to-date institutional information for a particular country; by trainers using the directories as a reference tool for their training programmes; by organizations trying to identify possible project partners; by individuals looking to identify possible employers; by funders seeking grantees; by grantees in search of funders; or by organizations aiming at identifying those institutions, agencies and programmes which are dedicated to providing resources, products and services to their members.

This cutting-edge publication -- Second Edition -- will give you hundreds (thousands) of useful sites where you can find the statistics, reports, regulations, best practices and other key information you need...when you need it. This time-saving tool includes a country finder index and annotates each organization by category, so you'll know from the start whether an organization is worth visiting. The Directory is particularly strong in the areas of microfinance and small enterprise development. Its Internet resources will point you in the direction of the best development resources available in each country on the World Wide Web today.
