DEMAND THAT CONGRESS INSTALL A SPECIAL PUBLIC PROSECUTOR TO TRY THESE CASES!

"White House staff: Rahm Emanuel, David Axelrod, David Plouffe, Steve Ratner and Robert Gibbs, while in the White House, arranged for Silicon Valley Venture Capitalists to, exclusively, receive taxpayer cash through a Department of Energy conduit-ing scheme controlled by the associate of those Venture capitalists: Steven Chu and his hand-picked insiders, as payback for campaign financing. Over 12,000 evidence items prove this to be fact. White House staff, and certain Senators, who received business gain from this arrangement, also ordered an, ongoing, cover-up of the scam."
[- Federal Testimony Document, 2014](#)

"...My deepest concern is that White House staff may have ordered Eric Holder to halt any attempt to appoint a Special Prosecutor on behalf of the taxpayers, because they know, for a fact, that White House staff, campaign backers and a few Senators will be indicted. These cover-ups are destroying the public's faith in the system..."

"Upon investigation and examination of the evidence, there can be no doubt, to a person of average intelligence, about the fact that Department of Energy officials engaged in organized crime, and manipulation of federal law on behalf of themselves and this cartel of venture capitalists."
[- U.S. Federal Investigator, Filed Report, 2013](#)

"The public has a right to know; when the cops raided Solyndra, and in their follow-on investigations, did they discover a connection to White House staff and campaign financiers? Were they then told to "chill" the investigation?"

Tesla has announced that they are giving their patents away, patents which state, in no uncertain terms, that their batteries can "kill you", "burn you and your family", "set your house on fire", "set your office or parking structure on fire" (Not to mention the **cancer-causing fumes they release**). Tesla own engineers wrote that in the their patents and Musk signed off on those patents.

Why the average person should care about A scandal LIKE CAR-GATE?. How this affects you:

When you get a paycheck do you notice that up to 50% has been taken out and sent to somebody else? When you pay your taxes do you wonder where it goes? How does it make you feel to find out that part of your hard earned money is being used to [buy prostitutes](#), private jet rides for lobbyist golf parties and [create private monopolies](#)? Do you like it that a certain group is using your money for the targeting of taxpayers, the sabotage of the businesses of small American job creators, the blockading of entrepreneurship and the termination of domestic innovation. If you think that is not cool, then that is why you should pay attention to this and demand action to fix the situations discussed here.
