Here's some more information about this petition:

We ask the White House to appoint a "Cleantech Crash" Special Prosecutor and create a Victims Fund to assist those targeted in this scandal.

This has come to be known as the "CleanTech Scandal". It has been deeply documented in numerous lawsuits; the 60 Minutes Episode called: "The CleanTech Crash"; Many published GAO investigations; the in-progress FBI case which began with the FBI Solyndra raid; Over 100,000 news stories which deal with the following keywords: "Corruption, steven chu, department of energy Solyndra"; U.S. Senate ethics investigation documents, and thousands of other published, and broadcast materials. In fact, there is now, so much published evidence, proving that this scandal took place, that it is impossible to deny. There are now millions of pages of evidence, and hours of recordings that provide irrefutable proof. This petition will set in motion a series of efforts, using techniques that have already curtailed public policy crimes.

Let's take this to the FINISH LINE!
