

THE DIRTY BASTARDS IN CONGRESS THAT RUN A TECH CARTEL

A key aspect of Plaintiff's lawsuit exists in the assertion that Plaintiff's own elected and appointed United States Government officials operated a scam enterprise within the government based around using the stock market for bribes, insider trading and quid pro quo payola.

Defendants have vehemently denied that any politicians in the government are corrupt. This flies in the face of every poll of American citizens. 99% of Americans would rather kiss a rabid dog on the lips than get near a politician.

In 2022 Lake Mead was drained by regional circumstances and a number of bodies were found from organized crime activities.

The 2022 the tech financial recession drained the politicians assets and a number of financial bodies were found from organized crime activities.

The swamp gets drained, one way, or another.

While Defendants argue that *"the average citizen is too dumb to know what is good for them..."*, and state that the public only *"thinks"* that most politicians are corrupt, the Defendants seek to argue that only Congress people are smart enough to know when a politician is truly doing something corrupt. Plaintiff hereby presents the facts provided in support of Plaintiff's assertion by: **THE UNITED STATES CONGRESS** -

95% of the members of Congress are now involved in national law development (Like the American STOCK ACT, https://en.wikipedia.org/wiki/STOCK_Act, which Plaintiff helped create) to fully outlaw the ongoing scam enterprise within the government based around using the stock market for bribes, insider trading and quid pro quo payola.

If it didn't exist, Congress would not be spending billions of dollars to try to make the laws against these crimes happen and the crookedest members of Congress, and their Big Tech financiers, would not be spending billions of dollars to defeat such laws. The following news and investigation links are submitted as proof of Plaintiff's Assertion:

A key aspect of Plaintiff's lawsuit exists in the assertion that Plaintiff's own elected and appointed United States Government officials operated a scam enterprise within the government based around using the stock market for bribes, insider trading and quid pro quo payola in coordinated cooperation with a Silicon Valley organized crime cartel.

In related news headline lawsuits by Twitter against this Cartel and another by Rumble, against Google and another by the U.S. against Google, we see these assertions to be shown to be true through the investigations of others.

In Twitter's lawsuit, Twitter exposes the Silicon Valley men who conspire together and who hire assassins to take out those who displease them. Twitter's epic lawsuit seeks to expose this cartel.

[Twitter](#) has issued a flurry of legal requests seeking information about an array of elite Silicon Valley investors in [Elon Musk's](#) inner circle, as the company pursues its lawsuit attempting to force the billionaire to complete his \$44 billion takeover.

In one subpoena issued on Monday, Twitter requested information on a wide range of Musk's inner circle, including some who were not previously reported as having any involvement with the deal, according to the [Washington Post](#).

Named in the request were investors Chamath Palihapitiya, David Sacks, Steve Jurvetson, Marc Andreessen, Jason Calacanis and Keith Rabois, among others.

Investor Joe Lonsdale, an associate of Musk, said on Twitter that he had also received a subpoena from the social media firm.

Chamath Palihapitiya: A prominent venture capitalist with an estimated net worth of \$1.2 billion. His connection with the deal is unclear, but he attended the All-In Summit in May with Musk's other financial backers.

David Sacks: Sacks is a member of the so-called PayPal mafia who helped found the payments startup with Musk in the late 1990s. He was said to be a key advisor in Musk's inner circle as the takeover bid unfolded this spring.

Steve Jurvetson: Another member of Musk's reported 'brain trust' who counseled the billionaire. Jurvetson was an early investor in Tesla, where Musk is CEO. He once served on the Tesla board, and currently serves on the board of Musk's SpaceX.

Marc Andreessen: A Silicon Valley titan worth an estimated \$1.6B and co-founder of the VC firm Andreessen Horowitz, which agreed to invest \$400 million in Musk's takeover deal.

Jason Calacanis: Also previously reported as involved in funding the deal. Launched an investment pool known as a special purpose vehicle to raise money from smaller investors at a minimum buy-in of \$250,000

Keith Rabois: Another early PayPal executive alongside Musk. His connection to the Twitter deal is unclear.

Joe Lonsdale: A partner at 8VC, a San Francisco-based VC firm. 'I have nothing to do with this aside from a few snarky comments,' he said of Musk's Twitter takeover.

— How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches.

— Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers.

— How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

— In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

— It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent. — The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: IN-Q-Tel — (DNC); Gawker Media — (DNC); Jalopnik — (DNC); Gizmodo Media — (DNC); K2 Intelligence — (DNC); WikiStrat — (DNC); Podesta Group — (DNC); Fusion GPS — (DNC/GOP); Google — (DNC); YouTube — (DNC); Alphabet — (DNC); Facebook — (DNC); Twitter — (DNC); Think Progress — (DNC); Media Matters — (DNC); Black Cube — (DNC); Mossad — (DNC); Correct The Record — (DNC); Sand Line — (DNC/GOP); Blackwater — (DNC/GOP); Undercover Global Ltd (DNC/GOP) Stratfor — (DNC/GOP); ShareBlue — (DNC); Wikileaks (DNC/GOP); Cambridge Analytica — (DNC/GOP); Sid Blumenthal- (DNC); David Brock — (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling — (DNC), Buzzfeed — (DNC) Perkins Coie — (DNC); Wilson Sonsini — (DNC) and hundreds of others... These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

— These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business.

— These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! — These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

— In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

— This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated.

— The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

— Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University."

— Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation.

— Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government.

— Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls "SPYGATE". — It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.")

— In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

— This is what they are hiding. — However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

— These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: — Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies.

— By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities.

If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target.

— If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost".

— Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

— Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case.

--- Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world.

--- This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

--- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

--- Over 50,000 trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon.

--- It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head".

--- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in.

--- Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

--- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject. - Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you.?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

--- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set.

--- This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago.

Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life.

--- Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt, and quite illegal.

- There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services.

--- The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders".

--- A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers.

--- The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payroll and hit-job attacks on third parties.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

Plaintiff was financed by the United States Government to build America's "Back Up" Energy plan when Congress realized that US/Middle East Relations were going to fully fail.

Plaintiff complied and the cronyism and corruption that followed, operated by senior United States Government officials, is deeply documented in the case files herein and tens of thousands of news reports.

On July 26, 2022 Plaintiff was informed, by Congressional officials, that another of many thousands of acts of Cronyism had again occurred in this matter. A sweetheart \$2.5B deal from the White House was announced for White House crony's.
330! 330 Million people live in America. In every single one of the previously documented collusion and cronyism matters, the same 20 INSIDERS are involved! Isn't it incredible that of all 330 million American's, The White House can only ever find 20 of them to hand out money to. The same 20 who are friends with the White House!!!!

Hunter Biden's Chinese business partners stand to make huge profits from this deal.

The Biden administration is loaning billions of dollars to poor, broke, General Motors (A commercial business who should not need any cash from taxpayers) to make electric car batteries after months of lobbying from a top Biden adviser's brother. This loan was in top competition to Plaintiff's government loan and technology application. This loan has covert stock market ownership by White House staff, Department of Energy staff and Silicon Valley oligarchs

The Department of Energy announced it will lend \$2.5 billion to the auto giant to manufacture lithium-ion batteries for electric cars, part of President Biden's goal to make the U.S. auto fleet 50 percent electric by the end of the decade. The loan is the latest Biden-era windfall for General Motors, which over the past year has paid Beltway lobbyist Jeff Ricchetti nearly \$350,000 to lobby the government on federal subsidies for electric vehicles and charging stations. Ricchetti is the younger brother and former lobbying partner of White House adviser Steve Ricchetti. The longtime Biden aide, who lobbied for GM [until 2008](#), has been directly involved in discussions with Congress about funding for electric vehicles and charging stations.

The Ricchetti relationship has long raised ethics concerns in Washington. White House ethics lawyers forced Steve Ricchetti to recuse himself from matters involving four of his brother's clients, though not GM. The *Washington Post* [reported](#) last year that Ricchetti's work on issues related to GM undercut Biden's pledge to "restore ethics in government."

The loan to GM is the first the Department of Energy has made since 2010 under its Advanced Technology Vehicles Manufacturing Loan Program. The controversial initiative has been marred by a series of ill-advised loans, including \$530 million [to Fisker Automotive](#), a now-defunct hybrid car maker, and \$50 million [to a van company](#) linked to a prominent Obama donor.

GM has enjoyed extensive access to the Biden administration. Biden in November [visited](#) a GM plant and in January [praised](#) the company for announcing plans to build a \$7 billion battery manufacturing plant, the same facility now slated to receive the Department of Energy loan. The head of GM's public policy unit and its general counsel in March met at the White House with Steve Ricchetti.

Jeff Ricchetti's firm and the White House did not respond to requests for comment. The brothers have previously denied that they discuss matters involving Jeff's lobbying clients but simple logic would dictate that to be a lie.

The technology being used for this \$2.5B "Loan" was exposed by engineers as a failure.

sk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

Elon Musk and the Senators he owns: Pelosi, Harris and Feinstein, will lie, until their dying day about these batteries that they all own stock in! -

--- Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

--- Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age

- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

--- The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

--- A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

--- There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.

--- Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

--- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader.

--- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

--- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

--- The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

--- In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

--- Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla.

--- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

--- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies.

--- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals.

--- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins".

--- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose!

--- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University;

--- The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

In Reality, All Electric Car Batteries Are Made By Forced Labor Overseas And 'Assembled' In The USA.

The lethal dirty work is done overseas. No lithium battery manufacturing could actually get past OSHA laws in the USA. Musk, Panasonic, LG and Mitsu are simply hiding the dirty labor part of the battery making process.

Increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

As many environmentalists push for a quick transition to electric vehicles and clean energy, increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

One province in particular, Xinjiang, is facing mounting criticism as more details emerge surrounding working conditions for members of the Uyghur Muslim minority. According to the New York Times, while China produces 75 percent of the world's lithium ion batteries, much of the raw material is mined elsewhere. In recent years, however, the Chinese government has set their sights on controlling all aspects of the supply chain.

In order to compete with other countries, China has ramped up production in the western province of Xinjiang, home to the nation's Uyghur Muslim minority.

As the Times reports, companies such as Xinjiang Nonferrous Metal Industry Group have partnered with the Chinese government to move hundreds of Uyghurs from the south to the industrialized north where they are put to work in mines, smelters, and factories producing lithium, nickel, manganese, beryllium, copper and gold.

While such companies deny that their workers are mistreated, reports show that Uyghurs are subject to what could easily be deemed to be forced labor.

Uyghurs who refuse to work in accordance with Chinese government policies are often sent to internment camps, and in May it was revealed that many of those camps have a "shoot-to-kill" policy for those who attempt to escape.

Thus, the official claim that "all employment is voluntary" is not supported.

In addition to forced labor, Uyghurs are also subjected to re-education, wherein government-appointed "teachers" attempt to create loyal subjects to the nation and communist regime.

On June 21, a new law will go into effect in the United States called the "Uyghur Forced Labor Prevention Act." As NPR reports, it gives the US authority to seize goods produced in Xinjiang unless companies can prove they did not engage in forced labor practices.

It's true that doing so will be resisted by Democrats who don't want to slow the deployment of solar panels and electric cars in the US, and be resisted by free market Republicans, but the evidence is clear and this is becoming a moral and national security imperative.

— Michael Shellenberger (@ShellenbergerMD) June 20, 2022

Environmental realist, author, and California gubernatorial candidate Michael Shellenberger is one of many calling on the Biden administration to go one step further and ban the importation of all goods from Xinjiang. He says the US should instead focus on manufacturing green technology at home.

As he points out, however, the decision would face pushback from both Democrats "who don't want to slow the deployment of solar panels and electric cars in the US," and "free market Republicans."

The world has shone a spotlight on the Chinese government's treatment of the Uyghurs in Xinjiang, but it remains to be seen whether the Communist Party and the companies to which it is so closely tied will change their practices.

Thus the \$2.5B Deal announced today is based on lies and corruption; safety, environmental and human rights issues are covered up and the cronyism of The White House is furthered to incredible depths. This kind of raw criminality is so overt, so over-the-top and so collusion-based that the average citizen can only wonder what happened to our Country?

Participants' **insider information** of COVID-19 pandemic · Multiple United States Senators, notably, Richard Burr, Kelly Loeffler, Jim Inhofe, Dianne **Feinstein**, ...

In the interest of brevity, Plaintiff has only provided the Court, this document, with a few proof examples. There are over **22,000 !!!!!** additional links proving Plaintiffs assertions, which can be supplied to the Court and The Jury, upon request.

Plaintiff hopes that this will end question, in this case, as to whether or not, politicians and United States officials do corruption.

As stated, a key aspect of Plaintiff's lawsuit rests in the assertion that Plaintiff's own elected and appointed United States Government officials operated a scam enterprise within the government based around using the stock market for bribes, insider trading and quid pro quo payola.

Political whiners and insider shells have clutched their pearls and wrung their hands about the fact that a public citizen would declare any member of Congress to be a crook...YET.. other members of Congress have declared most of their peers to be crooks.

"The Bipartisan Ban on Congressional Stock Ownership Act" is a bill now moving through Congress that Plaintiff has consulted on. The mere fact of this Bill's existence, not to mention the voluminous studies behind it, prove Plaintiffs assertions.

Facebook, Netflix, Google, YouTube, LinkedIn, Tesla, SpaceX, etc, pay their **CRIMINAL** political bribes using stock market tricks.

You can see **EXACTLY** which scumbag politicians and which of their corrupt Silicon Valley financiers are dirty by watching to see which ones spend money to try to defeat this bill. It is RACKETEERING when government funds are hard-wired to just one tiny group of investors who all party at each other's houses. Want to see the proof? It is in the FINCEN, SEC, Goldman Sachs and JP Morgan files that can be presented to any jury or Congressional investigation hearing.

The dirty political manipulators have something in common. They are almost all, ALSO, guilty of: Money Laundering; Sex Trafficking; Family Alcoholism; Political Bribery; Stock Market

United States Senators Elizabeth Warren (D-Mass.), Steve Daines (R-Mont.), Marsha Blackburn (R-Tenn.), and Debbie Stabenow (D-Mich.) introduced new, bipartisan legislation to ban Members of Congress and their spouses from owning and trading stocks. The legislation is the first bipartisan proposal in the Senate to prevent members of Congress from owning and trading stock. Representatives Pramila Jayapal (D-Wash.) and Matt Rosendale (R-Mont.) are reintroducing the bill in the House of Representatives.

"No one should ever have to wonder whether their Member of Congress is working for the public interest or their own financial interest. I've fought for years to root out corruption in Washington, and to ban federal officials from owning and trading individual stocks," **said Senator Warren**. "With Senator Daines and this strong coalition, I'm proud to introduce the first bipartisan bill in the Senate on this critical issue, and now we have a real chance to get it done."

"Congress is here to serve, not be served. The American people should have faith in that fact," **Senator Daines said**. "Members shouldn't be able to make legislative decisions or use their platform and influence to benefit themselves personally, which is why it should be no question that owning and trading stocks should be banned. I'm glad to work across the aisle with Senator Warren on a bipartisan compromise to help restore the American people's faith in Congress and hold Members accountable to the folks they're serving."

"Washington has lost the trust of the American people. Allowing members of Congress to trade individual stocks can create the perception of corruption and a conflict of interest. I'm glad to join my colleagues in introducing this bipartisan legislation to help restore Americans' trust in democracy," **said Senator Blackburn**.

"There is an inherent conflict of interest for Members of Congress who have access to information impacting the stock market that is not available to the general public. Legislators have access to information and create laws that can impact entire industries. These actions can have a significant influence on stock prices. This legislation will prevent potential conflicts of interest and strengthen public trust in our government," **said Senator Stabenow**.

"Members of Congress were elected to serve the people, not their personal financial interests. But as long as members and spouses are allowed to hold and trade stocks, we keep the door open to corruption—and that cannot stand. I'm proud to join Senator Warren and our colleagues to introduce this legislation today and take this essential step to raising the ethical standards of Congress. It's good policy, and it's simply the right thing to do," **said Congresswoman Jayapal, chair of the Congressional Progressive Caucus**.

"I'm proud to introduce the bicameral *Bipartisan Ban on Congressional Stock Ownership Act* with Congresswoman Jayapal, Senator Daines, and Senator Warren. Banning insider trading by Members of Congress is a critical step to restoring public confidence in our institutions and ensuring the interests of the American people come before personal financial gain," **said Representative Rosendale**. "It's unacceptable that so many career politicians abuse their office to enrich themselves. Public servants must be held to a higher standard and our bill will help prevent such conflicts of interest."

In important respects, the *Bipartisan Ban on Congressional Stock Ownership Act* goes beyond current proposals to ban stock trading, and additionally bans the ownership of individual stocks. Specifically, the legislation:

- Bans Members of Congress and their spouses from owning and trading individual stocks, bonds, commodities, futures, and other securities including an interest in a hedge fund, a derivative, an option or other complex investment vehicle. It does not ban common, widely held funds, such as mutual funds and ETFs, as long as those funds do not present a conflict of interest and are diversified.
- Allows a transition period for lawmakers to divest their holdings and come into compliance, including a similar period for newly elected Members starting when they're sworn in.
- Establishes a civil penalty of up to \$50,000 for each violation. The Department of Justice and the U.S. Office of Special Counsel would enforce the law.
- Includes a provision which allows deferral of taxation of gains on investments that Members of Congress and their spouses are forced to divest.

The legislation is endorsed by the Project On Government Oversight.

"Congress has for a long time failed to hold itself to the kinds of high ethical standards that the American people expect and deserve," **said Danielle Brian, Executive Director of the Project On Government Oversight**. "Capitalizing on their privileged positions and their access to nonpublic information through inappropriate stock trading is one glaring example of this problem. Recent examples of real or potential insider trading by members of Congress and their spouses as well as reports of violations of disclosure laws meant to crack down on this behavior have made this issue even more pressing than usual. That is why Senator Warren and Senator Daines should be applauded for introducing a strong bill that would take a momentous first step toward cleaning up Congress by banning members of Congress and their spouses from owning stocks. POGO looks forward to working with the Senators and the rest of Congress to get these reforms enacted swiftly."

Around San Francisco and Silicon Valley there are over 50 individuals and organizations that sell young men and women to high net worth tech oligarchs and politicians.

They conduct their business at The Bohemian Club, The San Francisco Opera Gala, Google parties, NETFLIX lunch parks, The MOMA Gala, The Pacific States Crafts Fair opening night

and over-priced restaurants. If the event has the word "gala" in it, the procurers are there. If the restaurant has a bar and the name is 'La Petite....' and the wine costs more than \$10 bucks per glass, they are there too.

Most of my rich friends family members will proclaim: *"My dad would never be involved with sex trafficking!!!!!!!"*

But most of the rich dad's in the Bay Area ARE involved in sex trafficking. When these married rich dad's go for a drink on University Avenue in Palo Alto and pick up a Stanford co-ed at the bar and take her up the road to the Rose Wood hotel on Sand Hill Road, put their penis in her butt and give her \$1000.00: THAT IS SEX TRAFFICKING!

Jeff Epstein did SEX TRAFFICKING! So do the husbands of multiple Bay Area Senators.

It is happening every day and the family members willful blindness and ability to deny, deflect and defer the truth is a shame.

Around San Francisco and Silicon Valley there are over 2000 individuals and organizations that help high net worth tech oligarchs and politicians launder their money. They are called CPA's or 'wealth managers' or 'financial advisors'. They transfer money to Switzerland and the Cayman Island's so the feds and the divorcees don't find it. They move the money to and from real estate property to family trusts and then to government officials.

Most of my rich friends family members will proclaim: *"My dad would never be involved with money laundering!!!!!!!"*

It is happening every day and the family members willful blindness and ability to deny, deflect and defer the truth is a shame.

The same goes for the Family Alcoholism; Political Bribery; Stock Market Manipulations; Hookers; Media Censorship; Misogyny; Dynastic Family Manipulations of Public Policy; Election Rigging; Search Engine Bias; Monopolies; Recession Causing Market Truets; Racism; Brotopian Frat Boyism; Secret Offshore Shell Corporations; Venture Capital Black-Lists; Patent Thefts; Payola; Graft; Corrupt Lobbyists; Using Your Democracy As Their Play-Thing; Hacking; User Privacy Abuse; Insider Trading Bribes; Causing Teen Suicides; Public Shootings Incitement By Linking Facebook, Instagram, Google Shooter PR; Tracking Of Women Seeking Abortions; Patent and Trade Secret Infringement; Tracking Of Assurance Phone-Using Poor People; Harassment Of Consumers Filing Complaints; Black-Listing Of Customers And Service Cut-Offs; RICO Law Violations; Stock Market Payola To Public Officials; Profits-Over-Privacy-Safety; Anti-Trust Law Violations; Using, Or Supporting Fusion GPS – Black Cube -Types Of Reprisal Attacks and a hundred other things.

All these dirty things are happening every day in 99% of the rich mansions in San Francisco and Silicon Valley.

The family members that ignore these crimes are just a big a bunch of scumbags as the parents.

If you think that your billionaire family is 100% clean then let's take a meeting at the FBI offices on a bet. I bet you ten million dollars that federal agents can bust your family for at least one crime. You really can't exist in Northern California and have a dynastic family with a billion dollars, or more, in your accounts and not be doing crimes in this area.

Many have met, and hung out with hundreds of Bay Area billionaires and millionaires and found that almost every one of them are crooks with dirty law firms, filthy CPA's, janked-up lobbyists and sicko PR firms to keep the swill boiling.

If you say otherwise: Take The Bet!

These are the steps that the Public, must demand to strengthen public integrity by eliminating corrupt financial conflicts in Congress.

Congress must be ordered to eliminate both the appearance and the potential for financial conflicts of interest. Americans must be confident that actions taken by public officials are intended to serve the public, and not those officials. These actions counter-act the actions taken by Administration staff and Department of Energy officials in illicit coordination with U.S. Senators.

We experienced all of the damages from each of the abuse-of-power issues listed below. Your public officials are being paid **BRIBES** through their family stock market holdings.

CUT THEM OFF - Demand that Congress make it a felony for any politician, judge or regulator to own stocks, or to let their family own stocks. If they want to get rich, they can go into another line of work.

If you can get these laws made, it will end 90% of American corruption. Politicians won't allow these laws to be made because it will cut off their corruption. Thus: You have to force the politicians to make these laws and leverage them with investigations and recall elections.

These are the actions needed to resolve this corruption:

- Ban individual stock ownership by Members of Congress, Cabinet Secretaries, senior congressional staff, federal judges, White House staff and other senior agency officials while in office. Prohibit all government officials from holding or trading stock where its value might be influenced by their agency, department, or actions.
- Apply conflict of interest laws to the President and Vice President through the Presidential Conflicts of Interest Act, which would require the President and the Vice President to

place conflicted assets, including businesses, into a blind trust to be sold off

-
- Require senior Department of Energy government officials, employees, contractors and White House staff to divest from privately-owned assets that could present conflicts, including large companies like Tesla, Google, Facebook, Sony, Netflix, etc., and commercial real estate.
-
- Make it a felony to not respond to a filing by a citizen within 48 hours. Former White House and Energy Department staff use 'stone-walling' to intentionally delay responses for a decade, or more.
-
- Apply ethics rules to all government employees, including unpaid White House staff and advisors.
-
- Require most executive branch employees to recuse from all issues that might financially benefit themselves or a previous employer or client from the preceding 4 years.
-
- Create conflict-free investment opportunities for federal officials with new investment accounts managed by the Federal Retirement Thrift Investment Board and conflict-free mutual funds.
-
- Close and lock the Revolving Door between industry and government and stop tech companies from buying influence in the government or profiting off of the public service of any official.
-
- Lifetime ban on lobbying by Presidents, Vice Presidents, Members of Congress, federal judges, and Cabinet Secretaries; and, multi-year bans on all other federal employees from lobbying their former office, department, House of Congress, or agency after they leave government service until the end of the Administration, but at least for 2 years (and at least 6 years for corporate lobbyists).
-
- Limit the ability of companies to buy influence through former government officials.
-
- Require income disclosures from former senior officials 4 years after federal employment.
-
- Prohibit companies from immediately hiring or paying any senior government official from an agency, department, or Congressional office recently lobbied by that company.
-
- Prohibit the world's largest companies, banks, and monopolies (measured by annual revenue or market capitalization) from hiring or paying any former senior government official for 4 years after they leave government service.
-
- Limit the ability of companies to buy influence through current government employees.
-
- Prohibit current lobbyists from taking government jobs for 2 years after lobbying; 6 years for corporate lobbyists. Public, written waivers where such hiring is in the national interest are allowed for non-corporate lobbyists only.
-
- Prohibit corporate outlaws like Google, Tesla, Facebook, LinkedIn, Netflix, Sony, etc., from working in government by banning the hiring of top corporate leaders whose companies were caught breaking federal law in the last 6 years.
-
- Prohibit contractor corruption by blocking federal contractor and licensee employees from working at the agency awarding the contract or license for 4 years.
-

Ban "Golden Parachutes" that provide corporate bonuses to executives for federal service.

- Publicly expose all influence-peddling in Washington.
- Strengthen and expand the federal definition of a "lobbyist" to include all individuals paid to influence government.
- Create a new "corporate lobbyist" definition to identify individuals paid to influence government on behalf of for-profit entities and their front-groups.
- Radically expand disclosure of lobbyist activities and influence campaigns by requiring all lobbyists to disclose any specific bills, policies, and government actions they attempt to influence; any meetings with public officials; and any documents they provide to those officials.
- End Influence-Peddling by Foreign Actors such as that which occurred in the ENER1, Severstal, Solyndra and related scandals.
- Fire the Fed officials that own, trade and pump stocks using the Fed itself for profiteering.
- The most senior officials in the U.S. Government are the worshipers of Elon Musk, investor's in Elon Musk's companies and suppliers, deciders of the financing for Elon Musk, suppliers of staffing to Elon Musk, recipients of political campaign financing by Elon Musk and Musk's covert Google And Facebook partnership, social friends of Elon Musk and the attackers of Elon Musk's competitors. Copies to Congressional Staff and Regulatory Offices

FORMAL FCC COMPLAINT –

Dear Inspector General, FCC Chairman and FCC Commissioners:

As former workers at San Francisco Suicide Prevention, former workers at Google, Facebook, Instagram and Netflix, we can swear, warrant and verify that T-Mobile has engaged in complicit homicide by encouraging over 5,500 teens to attempt suicide **every day** and to engage in classroom shootings on a regular basis.

T-Mobile is the '[Ghislaine Maxwell](#)' of the telecommunications industry. T-Mobile chose profits over child safety and embedded damaging apps, software, links and network routes on its products which it knew was harming children. T-Mobile did it for cash and ignored children's lives and mental health.

T-Mobile kills children and destroys their mental health!

Neumann Law Group and a host of other law firms are preparing cases to class-action sue the Telco's and Silicon Valley social media companies for these complicit homicides but the FCC should take the most immediate and visible action on this threat to the nation.

This is a formal complaint filed with the FCC against T-Mobile. Copies of this document, and associated evidence have been published globally and CC:d to all concerned parties.

Specifically, The Neumann Law Group is now investigating claims against Meta Platforms, Inc., the parent company of Facebook and Instagram for their intentional manipulation of the mental health of young and at-risk users of their products. In October 2021, a Facebook whistleblower testified to the U.S. Senate how Facebook, Instagram, and Meta used tactics to manipulate young people into using their products for extended periods of time and intentionally created a toxic environment leading to significant psychological harm to America's youth. These kinds of investigations have led to every Telco and social media company.

Every few hours another teen is MURDERED by Facebook/Instagram executives. Nobody does anything about it because California politicians OWN the stock in Facebook/Instagram and also get their political campaign cash from Facebook/Instagram/Google !!! Should Mark Zuckerberg be charged with Homicide? He knew, for over a decade, that he was killing these kids, but buying a part of Hawaii is expensive, and he needed the cash! Should Michael Sievert, the president and CEO of T-Mobile US, be arrested? He saw the Facebook insider reports yet gave no orders to his staff to change anything at T-Mobile.

Every telecommunications company knew about these risks to kids, for decades, yet they embedded these products on kids phones and tablets and profited from getting kids to use Instagram, Facebook and Google. Parents, and kids who were harmed by this can now sue Telco's for "complicit homicide" in the deaths of kids affected by those sites that they embedded on their phones and forced kids to use.

The United States Congress can make Instagram, T-Mobile and Facebook disappear off the internet, in any 60 second period, simply by ordering DOJ to delete their DNS records.

The FCC must demand that officials order the DNS records for Instagram, T-Mobile and Facebook deleted, and not turned back on, until T-Mobile, Facebook and Instagram prove to Congress that no teens will be affected by their sites again!

The senior executives of these companies have been arrested for child sex pandering and for hiring rent boys and prostitutes. Are those the people we want around our children's media?

These law firms are seeking any American who suffered and asking:

" Were you a minor when you signed up for Facebook and/or Instagram";

" Were you using Facebook and/or Instagram for more than three (3) hours per day at that time; and have you received documented mental health treatment (with no prior history of mental health issues)?"

" Did you, or your children, use T-Mobile, AT&T or COX to access these abusive social media sites?"

So far, most people say: "YES!"

The #2 boss at Facebook: Sheryl Sandberg, recently quit Facebook/Instagram because she knew these liabilities had been exposed by **Frances Haugen**: an advocate for accountability & transparency in social media at Facebook/Instagram, and over 100 other whistle-blowers from Facebook, T-Mobile, Instagram, Netflix, Youtube, Google and related entities.

T-Mobile embedded apps, software, networking links and related materials on its consumer devices, that it knew would kill children and cause classroom shootings. T-Mobile did it out of greed!

" Facebook's internal research shows that teen users' mental health is negatively impacted by using the company's photo- and video-sharing app, Instagram."

The government should shut these companies down but they don't because these companies pay the largest bribes on Earth to politicians! Demand that Congress shut down these big tech abusers that cause child suicides, bullying, sex trafficking, money laundering, tax evasion, political bribery, election manipulation and other social crimes.

T-Mobile knew that their products were causing kids to suffer from:

- **Depression**

- **Anxiety**

- **Eating disorders**

- **Body Dysmorphia**

- **Self-harm**

- **ADD/ADHD**

- **ODD**

Do you believe that you or a loved one may have experienced psychological harm due to the negligence of T-Mobile, Google, Instagram, Facebook et al? Parents are, today, calling law firms to discuss their claims and sharing this notice with those they care about.

T-Mobile has been caught paying bribes, manipulating FCC staff and lobbying against the interests of the public.

T-Mobile, and other Telco's are known to pay bribes to FCC underlings to get favors. They pay some of those bribes in stock market holdings.

For example, T-Mobile sought and organized a relationship with Google, Inc., and, it's financially connected front companies, and investors, have provided billions of dollars of non-disclosed campaign financing in the form of search engine manipulation, public user mood manipulation, counter-ideology news story hiding and DNS server re-direction, along with other media communications selective ideological information manipulation. Recent court decisions have proven that Internet social media advertising and information manipulation IS a campaign contribution.

'GOOGLE IS RUN BY CHILD SEX PERVERTS' says Google whistleblower who claims tech giant's Developer Studio division has been infiltrated by 'pedophilic religious doomsday cult' Fellowship of Friends that was featured in a Spotify podcast series called 'Revelations' last year. Kevin Lloyd, 34, was a video producer for Google Developer Studio from 2017 until he was fired in February 2021. Lloyd in August 2021 filed a lawsuit at California Superior Court alleging that he lost his job because he questioned a 'cult' that many of his colleagues joined. Earlier this month Lloyd wrote a Medium post about his time at Google, and his concerns about Fellowship of Friends. California politicians, and their families, covertly own Google and they protect Google from being held accountable.

Google insists that they are unaware of a person's religious or political beliefs during hiring; Lloyd says they know about the influence of the cult, but turn a blind eye. In a report By Harriet Alexander. Google has not reported their use of these political actions, nor have they reported the parties who financed them to undertake these actions, nor have they reported their true ownerships and pass-along controls of these actions by extreme political interests among their owners and handlers.

This is a violation of U.S. laws and a violation of the trust of the public with which you are charged.

Google has been paid billions of dollars from the U.S. Treasury.

Google's investors were exclusively awarded billions of dollars in the Department of Energy "Cleantech Scandal". In that scandal, Google used U.S. communications resources to falsify stock valuations for people like Elon Musk, while promoting Elon Musk and hiding all negative news about Elon Musk while Google investors exclusively profited from those manipulations using U.S. communications resources.

More heinously, Google used U.S. Communications resources, to character assassinate domestic U.S. Citizens who were U.S. voters in order to engage in political retribution against those citizens attempts to report Google's violations. Senators, CBS news reporters, average citizens, competitors and many more, numbering in the thousands have lost their lives, incomes and careers because of Google's malicious political attacks ordered by the extremists Silicon Valley Billionaire Cartel owners.

The voters of America ask that a Special Prosecutor be appointed to investigate these charges.

The voters of America ask the U.S. Congress to hold special public hearings to review the evidence in these charges.

While it is well known that the current FCC represents the interests of the Democrat political party, even the most liberal views cannot tolerate the private, covert, extreme political manipulations engaged in by Google and it's egotistical narcissistic investors. No matter your ideology, to condone the conspiratorial private business manipulations that Google, and it's investors, have engaged in, at the expense of the American public, must be beyond the conscientious tolerance of any political employee. Tens of thousands of published news stories, along with hundreds of thousands of pages of evidence, now en-route to your committee, prove this to be fact. The key points include:

- The Silicon Valley billionaire Cartel controls much of the content broadcast on a Internet via their ownership of GOOGLE assets.
- GOOGLE is part of an expanding global web of websites in which the Silicon Valley billionaire's involvement is obscured.
- When candidates, whistle-blowers and public news reporters need to be killed, with character assassination, top political operatives issue the kill-order to GOOGLE
- Behind GOOGLE's coverage is a fact that's never broadcast: The The Silicon Valley billionaire Cartel controls much of what airs on the Internet, which can be heard on Capitol Hill and at the White House.

- Elon Musk was given tens of Billions of free taxpayer dollars as a kick-back and then Google covered the whole thing up. "That whole Solyndra "Cleantech" fisaco was just a scam to finance their White House takeover plot." Eric Schmidt has spent more time inside the White House, on lobby campaigns, than all of the members of Congress, combined.
- Investigations, spanning every state, have identified at least hundreds of communications entities that are part of a covert U.S. news web structured in a way that obscures its majority shareholder: GOOGLE and it's stock beneficiaries.
- Corporate and regulatory filings around the world, identify a web of news Internets connected to Silicon Valley campaign financing Billionaires and behind-the-scenes control of Google operations
- Google, inc. has covertly, illicitly and unethical harvested U.S. voters personal information, psychologically analyzed that private data and sold user and voter psychological profiles to outside third parties, without fully disclosing those third parties, and their intents.
- Reporters monitored broadcasts in many of these states, programming distributed primarily in English and Silicon Valley Billionaires, but also in local languages, including Spanish, Italian and Chinese. Regulatory, zoning, property, tax, immigration and corporate records, including news Internet purchase contracts and lease agreements prove that these associated Internets primarily broadcast content created or supplied by GOOGLE or by media companies it controls in the United States, Australia and Europe. Silicon Valley Billionaire businessmen, who are GOOGLE's local partners, run the companies and in some cases own a stake in the Internets. The network reaches across America and to outside territories.
- In almost all cases Google, through covert ownership tricks, owns the majority control of the news information but obfuscates that fact by theatrical record-keeping.
- U.S. law enforced by the Federal Communications Commission (FCC) prohibits covert secret internal governments, or their representatives, from holding a news license for a U.S. broadcast Internet. Under the Communications Act, covert payola individuals, governments and corporations are restricted from ownership in entities that can be manipulated to control public perceptions for ideology.
- These allegations state that Google, and it's investors have engaged in organized crime and the violation of U.S. laws by operating covertly for private business and political gain.
- U.S. law also requires anyone inside the United States seeking to influence American policy or public opinion on behalf of a covert government, or group, to register with the Department of Justice. Public records show that GOOGLE's U.S. Silicon Valley Billionaires-American business partner and his companies haven't registered as lobbyists or political agents under the law. Google has clearly engaged in the broadcasting of propaganda for private personal gain and the manipulation of U.S. policy to benefit the personal stock holdings of its investors and the politicians they compensate with those stock holdings.

Can any person or government agency be expected to cut T-Mobile even the slightest bit of slack when T-Mobile generates headlines like these?:
