CROWD-SOURCED ERADICATION OF EVERY SINGLE CORRUPT OLIGARCH AND SENATOR CONNECTED TO THE SILICON VALLEY CARTEL IS NOW ONGOING

Are you sick of their: *Money Laundering, Sex Trafficking, Family Alcoholism, Political Bribery, Stock Market Manipulations, Hookers, Media Censorship, Misogyny, Dynastic Family Manipulations of Public Policy, Election Rigging, Search Engine Bias, Monopolies, Recession Causing Market Trusts, Racism, Brotopia, Secret Offshore Shell Corporations, Venture Capital Black-Lists, Patent Thefts, Payola, Graft, Corrupt Lobbyists and Their Use of Our Democracy As Their Play-Thing...?*

YOU CAN WIPE THEM OUT USING 100% LEGAL PUBLIC FORENSICS!

YOU CAN WIPE THEM OUT BY FORCING YOUR ELECTED REPRESENTATIVES TO MAKE THE FOLLOWING LAWS TO END POLITICAL CORRUPTION...

THESE ARE THE LAWS YOU NEED TO FORCE YOUR POLITICAL REPRESENTATIVES TO MAKE.

CONGRESS REFUSES TO MAKE THESE LAWS BECAUSE SENATORS PUT TENS OF MILLIONS OF DIRTY DOLLARS IN THEIR FAMILY BANK ACCOUNTS WITH THESE DIRTY CORRUPTION TRICKS:

These are the steps that the public must demand to strengthen public integrity by eliminating corrupt financial conflicts in Congress. We went to every member of Congress, via their senior staff, and said: **"What laws would end corruption in the American government?"** These are their answers!

Congress must be ordered to eliminate both the appearance and the potential for financial conflicts of interest. Americans must be confident that actions taken by public officials are intended to serve the public, and not those officials. These actions counter-act the actions taken by White House Administration staff, Department of Energy, and other, officials in illicit coordination with U.S. Senators. In other words, we experienced all of the damages from each of the abuse-of-power issues listed below. Your public officials are being paid **BRIBES** through their family stock market holdings. **CUT THEM OFF** - Demand that Congress make it a felony for any politician, judge or regulator to own stocks, or to let their family own stocks. If they want to get rich, they can go into another line of work.

If you can get these laws made, it will end 90% of American corruption. Politicians won't allow these laws to be made because it will cut off their corruption. Thus: You have to force the politicians to make these laws and leverage them with an action playbook (ie: [TO KILL A GIANT](#)). Tell them: **"All of the things in [this playbook](#) will happen to you if you don't make these laws, now!"**

These are the actions **YOU** need to demand from Congress to end political corruption:

- Ban individual stock ownership by Members of Congress, Cabinet Secretaries, senior congressional staff, federal judges, White House staff and other senior agency officials while in office. Prohibit all government officials from holding or trading stock where its value might be influenced by their agency, department, or actions.
- Apply conflict of interest laws to the President and Vice President through the Presidential Conflicts of Interest Act, which would require the President and the Vice President to place conflicted assets, including businesses, into a blind trust to be sold off
- Require senior Department of Energy government officials, employees, contractors and White House staff to divest from privately-owned assets that could present conflicts, including large companies like Tesla, Google, Facebook, Sony, Netflix, etc., and commercial real estate.
- Make it a felony to not respond to a filing by a citizen within 48 hours. Former White House and Energy Department staff use 'stone-walling' to intentionally delay responses for a decade, or more.
- Apply ethics rules to all government employees, including unpaid White House staff and advisors.
- Require most executive branch employees to recuse from all issues that might financially benefit themselves or a previous employer or client from the preceding 4 years.
- Create conflict-free investment opportunities for federal officials with new investment accounts managed by the Federal Retirement Thrift Investment Board and conflict-free mutual funds.
- Close and lock the Revolving Door between industry and government and stop tech companies from buying influence in the government or profiting off of the public service of any official.
- Lifetime ban on lobbying by Presidents, Vice Presidents, Members of Congress, federal judges, and Cabinet Secretaries; and, multi-year bans on all other federal employees from lobbying their former office, department, House of Congress, or agency after they leave government service until the end of the Administration, but at least for 2 years (and at least 6 years for corporate lobbyists).
- Limit the ability of companies to buy influence through former government officials.
- Require income disclosures from former senior officials 4 years after federal employment.
- Prohibit companies from immediately hiring or paying any senior government official from an agency, department, or Congressional office recently lobbied by that company.
- Prohibit the world's largest companies, banks, and monopolies (measured by annual revenue or market capitalization) from hiring or paying any former senior government official for 4 years after they leave government service.
- Limit the ability of companies to buy influence through current government employees.
- Prohibit current lobbyists from taking government jobs for 2 years after lobbying; 6 years for corporate lobbyists. Public, written waivers where such hiring is in the national interest are allowed for non-corporate lobbyists only.
- Prohibit corporate outlaws like Google, Tesla, Facebook, LinkedIn, Netflix, Sony, etc., from working in government by banning the hiring of top corporate leaders whose companies were caught breaking federal law in the last 6 years.
- Prohibit contractor corruption by blocking federal contractor and licensee employees from working at the agency awarding the contract or license for 4 years.
- Ban "Golden Parachutes" that provide corporate bonuses to executives for federal service.
- Publicly expose all influence-peddling in Washington.
- Strengthen and expand the federal definition of a "lobbyist" to include all individuals paid to influence government.
- Create a new "corporate lobbyist" definition to identify individuals paid to influence government on behalf of for-profit entities and their front-groups.
- Radically expand disclosure of lobbyist activities and influence campaigns by requiring all lobbyists to disclose any specific bills, policies, and government actions they attempt to influence; any meetings with public officials; and any documents they provide to those officials.
- End Influence-Peddling by Foreign Actors such as that which occurred in the ENER1, Severstal, Solyndra and related scandals.
- Fire the Fed officials that own, trade and pump stocks using the Fed itself for profiteering.
- The most senior officials in the U.S. Government are the worshipers of Elon Musk, investor's in Elon Musk's companies and suppliers, deciders of the financing for Elon Musk, suppliers of staffing to Elon Musk, recipients of political campaign financing by Elon Musk and Musk's covert Google And Facebook partnership, social friends of Elon Musk and the attackers of Elon Musk's competitors. Make this a felony.
- Combat foreign influence in Washington by banning all foreign lobbying.
- End foreign lobbying by Americans by banning American lobbyists from accepting money from foreign governments, foreign individuals, and foreign companies to influence United States public policy.
- Prohibit current lobbyists from taking government jobs for 2 years after lobbying; 6 years for corporate lobbyists. Public, written waivers where such hiring is in the national interest are allowed for non-corporate lobbyists only.
- End Legalized Lobbyist Bribery and stop lobbyists from trading money for government favors.
- Ban direct political donations from lobbyists to candidates or Members of Congress.
- End lobbyist contingency fees that allow lobbyists to be paid for a guaranteed policy outcome.
- End lobbyist gifts to the executive and legislative branch officials they lobby.
- Strengthen Congressional independence from lobbyists and end Washington's dependence on lobbyists for "expertise" and information.
- Make congressional service sustainable by transitioning Congressional staff to competitive salaries that track other federal employees.
- Reinstate the nonpartisan Congressional Office of Technology Assessment to provide critical scientific and technological support to Members of Congress.
- Level the playing field between corporate lobbyists and government by taxing excessive lobbying beginning at \$500,000 in annual lobbying expenditures, and use the proceeds to help finance Congressional mandated rule-making, fund the National Public Advocate, and finance Congressional support agencies.
- De-politicize the rulemaking process and increase transparency of industry efforts to influence federal agencies.
- Require individuals and corporations to disclose funding or editorial conflicts of interest in research submitted to agencies that is not publicly available in peer-reviewed publications.
- Prevent McKinsey-type sham research from undermining the public interest by requiring that studies that present conflicts of interest to undergo independent peer review to be

considered in the rule-making process.

- Require agencies to justify withdrawn public interest rules via public, written explanations.
- Close loopholes exploited by powerful corporations like Google, Facebook, Tesla, Netflix, Sony, etc., to block public interest actions.
- Eliminate loopholes that allow corporations, like Tesla and Google, to tilt the rules in their favor and against the public interest.
- Restrict negotiated rule-making to stop industry from delaying or dominating the rule-making process by ending the practice of inviting industry to negotiate rules they have to follow.
- Restrict inter-agency review as a tool for corporate abuse by banning informal review, establishing a maximum 45-day review period, and blocking closed-door industry lobbying at the White House's Office of Information and Regulatory Affairs.
- Limit abusive injunctions from rogue judges, like Jackson, et al, by ensuring that only Appeals Courts, not individual District Court judges, can temporarily block agencies from implementing final rules.
- Prevent hostile agencies from sham delays of implementation and enforcement by using the presence of litigation to postpone the implementation of final rules.
- Empower the public to police agencies for corporate capture.
- Increase the ability of the public to make sure their interests are considered when agencies act.
- Create a new Office of the Public Advocate empowered to assist the public in meaningfully engaging in the rule-making process across the federal government.
- Encourage enforcement by allowing private lawsuits from members of the public to hold agencies accountable for failing to complete rules or enforce the law, and to hold corporations accountable for breaking the rules.
- Inoculate government agencies against corporate capture such as Google undertook against the White House.
- Provide agencies with the tools and resources to implement strong rules that reflect the will of Congress and protect the public.
- Boost agency resources to level the playing field between corporate lobbyists and federal agencies by using the proceeds of the tax on excessive lobbying and the anti-corruption penalty fees to help finance Congress-mandated rule-making and facilitate decisions by agencies that are buried in an avalanche of lobbyist activity.
- Reform judicial review to prevent corporations from gaming the courts by requiring courts to presumptively defer to agency interpretations of laws and prohibiting courts from considering sham McKinsey studies and research excluded by agencies from the rule-making process.
- Reverse the Congressional Review Act provision banning related rules that prevent agencies from implementing the will of Congress based on Congress' prior disapproval of a different, narrow rule on a similar topic.
- Improve judicial integrity and defend access to justice for all Americans.
- Strengthen Judicial Ethics Requirements.
- Enhance the integrity of the judicial branch by strengthening rules that prevent conflicts of interest.
- Ban individual stock ownership by federal judges.
- Expand rules prohibiting judges from accepting gifts or payments to attend private seminars from private individuals and corporations.
- Require ethical behavior by the Supreme Court by directing the Court to follow the Code of Conduct that binds all other federal judges.
- Boost the transparency of Federal Courts.
- Enhance public insight into the judicial process by increasing information about the process and reducing barriers to accessing information.
- Increase disclosure of non-judicial activity by federal judges by requiring the Judicial Conference to publicly post judges' financial reports, recusal decisions, and speeches.
- Enhance public access to court activity by mandating that federal appellate courts live-stream, on the web, audio of their proceedings, making case information easily-accessible to the public free of charge, and requiring federal courts to share case assignment data in bulk.
- Eliminate barriers that restrict access to justice to all but the wealthiest individuals and companies.
- Reduce barriers that prevent individuals from having their case heard in court by restoring pleading standards that make it easier for individuals and businesses that have been harmed to make their case before a judge.
- Encourage diversity on the Federal Bench.
- Strengthen the integrity of the judicial branch by increasing the focus on personal and professional diversity of the federal bench.
- Create a single, new, and independent agency dedicated to enforcing federal ethics and anti-corruption laws.
- Support stronger ethics and public integrity laws with stronger enforcement.
- Establish the new, independent U.S. Office of Public Integrity, which will strengthen federal ethics enforcement with new investigative and disciplinary powers.
- Investigate potential violations by any individual or entity, including individuals and companies with new subpoena authority.
- Enforce the nation's ethics laws by ordering corrective action, levying civil and administrative penalties, and referring egregious violations to the Justice Department for criminal arrest and enforcement.
- Receive and investigate ethics complaints from members of the public.
- Absorb the U.S. Office of Government Ethics as a new Government Ethics Division tasked with providing confidential advice to federal employees seeking ethics guidance.
- Consolidate anti-corruption and public integrity oversight over federal officials, including oversight of all agency Inspectors General, all ethics matters for White House staff and agency heads, and all waivers and recusals by senior government officials.
- Remain independent and protected from partisan politics through a single Director operating under strict selection, appointment, and removal criteria.
- Provide easy online access to key government ethics and transparency documents, including financial disclosures; lobbyist registrations; lobbyist disclosures of meetings and materials; and all ethics records, recusals, and waivers.
- Maintain a new government-wide Office of the Public Advocate, which would advocate for the public interest in executive branch rule-making.
- Enforce federal open records and FOIA requirements by maintaining the central FOIA website and working with the National Archives to require agencies to comply with FOIA.
- Strengthen legislative branch enforcement.
- Expand an independent and empowered ethics office insulated from congressional politics.

- Expand and empower the U.S. Office of Congressional Ethics, which will enforce the nation's ethics laws in the Congress and the entire Legislative Branch, including the U.S. Senate.
- Conduct investigations of potential violations of ethics laws and rules by Members of Congress and staff with new subpoena power.
- Refer criminal and civil violations to the Justice Department, the Office of Public Integrity, or other relevant state or federal law enforcement.
- Recommend disciplinary and corrective action to the House and Senate Ethics Committees.
- Boost transparency in government and fix Federal Open Records laws, public official and candidate tax disclosure.
- Disclose basic tax return information for candidates for federal elected office and current elected officials.
- Require the IRS to release tax returns for Presidential and Vice-Presidential candidates from the previous 8 years and during each year in federal elected office.
- Require the IRS to release tax returns for Congressional candidates from the previous 2 years and during each year in federal elected office.
- Require the IRS to release tax returns and other financial information of businesses owned by senior federal officials and candidates for federal office.
- Require the IRS to release tax filings for nonprofit organizations run by candidates for federal office.
- Disclose the Cash behind Washington Advocacy and Lobbying.
- Prevent special interests from using secret donations from corporations and billionaires to influence public policy without disclosure.
- Require nonprofit organizations to list donors who bankrolled the production of any specific rule-making comment, congressional testimony, or lobbying material, and to reveal whether the donors reviewed or edited the document.
- Require individuals and corporations to disclose funding or editorial conflicts of interest in research submitted to agencies that is not publicly available in peer-reviewed publications.
- Prevent sham research, like that from DNC shell McKinsey Consulting, from undermining the public interest by requiring that studies that present conflicts of interest to independent peer review to be considered in the rule-making process.
- Improve the Freedom of Information Act (FOIA).
- Close the loopholes in our open records laws that allow federal officials to hide tech industry and Silicon Valley oligarch industry influence.
- Codify the default presumption of disclosure and affirmatively disclose records of public interest, including meeting agendas; government contracts; salaries; staff diversity; and reports to Congress.
- Require all agencies to use a central FOIA website that is searchable and has downloadable open records databases with all open FOIA requests and all records disclosed through FOIA.
- Strengthen FOIA enforcement by limiting FOIA exemptions and loopholes, and by giving the National Archives the authority to overrule agency FOIA decisions and to compel disclosure.
- Extend FOIA to private-sector federal contractors, including private federal prisons and immigration detention centers, and require large federal contractors to disclose political spending.
- Make Congress more transparent by ending the corporate lobbyists leg up in the legislative process. The public deserves to know what Congress is up to and how lobbyists influence legislation.
- Require all congressional committees to immediately post online more information, including hearings and markup schedules, bill or amendments text, testimonies, documents entered into the hearing record, hearing transcripts, written witness answers, and hearing audio and video recordings.
- Require Members of Congress to post a link to their searchable voting record on their official websites.
- Require lobbyists to disclose when they lobby a specific congressional office; specific topics of visit; the official action being requested; and all documents provided to the office during the visit.

Do these seem like common-sense rules that should have already been in place? **They are!**

These anti-corruption rules have been blocked by your own elected officials because those politicians work for themselves and **not** you! How many mansions does YOUR Senator own? How many mansions do YOU own?

You need to PUNISH any public official who does not put these changes into effect!

If you want to **support this effort**, then promote this effort and copy-paste the text on it around the globe. You don't need to give us your money. Spend it on media and marketing promotions of this site and the text on it. You can use www.newswire.com, Mohr Publicity, promoteyourwebsite.com, and many other services, to make the message global.

In all of recorded history, there has never been so much taxpayer cash given to so few people, where each, and every, one of the recipients was a friend of the politician giving away the taxpayer cash and everyone who got the cash immediately skimmed "unjust profits" and shut down the business. On top of that, every applicant, who was not a friend of the politician, was considered a competitor, and was attacked and sabotaged using state and federal resources. This was a felony-class crime that has cost taxpayers trillions of dollars in losses. Evidence proving this, as fact, many times over, is available to be presented before the Special Prosecutor in a public hearing.

America is facing the worst housing crisis in history and it was entirely caused by special interest groups! The recession is from corruption. How many Russian hookers are "too many" for White House family members to hire? How many sex islands do you need your politicians to show up on to get you upset?

A majority of American voters across nearly all demographics and ideologies believe their system of government does not work, with 58 percent of those interviewed for a New York Times/Siena College poll saying that the world's oldest independent constitutional democracy needs major reforms or a complete overhaul.

The discontent among Republicans is driven by their widespread, unfounded doubts about the legitimacy of the nation's elections. For Democrats, it is the realization that even though they control the White House and Congress, it is Republicans, joined with their allies in [gerrymandered state legislatures](#) and [the Supreme Court](#), who are achieving long-sought political goals.

For Republicans, the distrust is a natural outgrowth of former President Donald J. Trump's domination of the party and, to a large degree, American politics. After seven years in which he relentlessly attacked the country's institutions, a broad majority of Republicans share his views on the 2020 election and its aftermath: Sixty-one percent said he was the legitimate winner, and 72 percent described the Jan. 6, 2021, attack on the Capitol as a protest that got out of hand.

The survey results come as the House committee investigating Jan. 6 [revealed new evidence](#) this week that Mr. Trump and his aides had a hand in directing the mob to the Capitol to try to maintain his hold on the executive branch.

Among all voters, 49 percent said the Capitol riot was an attempt to overthrow the government. Another 55 percent said Mr. Trump's actions after the 2020 election had threatened American democracy. As with so many other issues, voters saw the riot through the same partisan lens as other issues.

Seventy-six percent of Republican voters said Mr. Trump had simply been exercising his right to contest his loss to Joseph R. Biden Jr. Asked if Mr. Trump had committed crimes while contesting the election, 89 percent of Democrats and 49 percent of independent voters said yes, while 80 percent of Republicans said he had not.

"If I'd have been Trump, I'd have been very pissed off about the whole situation," said Charles Parrish, 71, a retired firefighter from Evans, Ga.

Among Democrats, 84 percent said the Capitol attack was an attempt to overthrow the government and 92 percent said Mr. Trump threatened American democracy.

Democrats' pessimism about the future stems from their party's inability to protect abortion rights, pass sweeping gun control measures and pursue other liberal priorities in the face of Republican opposition. Self-described liberals were more likely than other Democrats to have lost trust in government and more likely to say voting did not make a difference.

Americans' bipartisan cynicism about government signals a striking philosophical shift: For generations, Democrats campaigned on the idea that government was a force for good, while Republicans sought to limit it. Now, the polling shows, the number of Americans in both parties who believe their government is capable of responding to voters' concerns has shrunk.

In one indicator of how Americans' perception of the government has transformed, the poll found that Fox News viewers were more optimistic than any other demographic about the country's ability to get on the right track over the next decade: Seventy-two percent were hopeful for such a scenario.

Ray Townley, 58, a retiree from Ozark, Ark., and a regular Fox News viewer, said he was very optimistic about the country's future because he anticipated major changes in Washington.

"They're going to vote the Democrats out," he said.

More than half of all voters surveyed, 53 percent, said the American political system was too divided to solve the nation's problems, an increase from 40 percent in a Times/Siena poll from October 2020. The sentiment is now most acute among Black voters and the youngest voters.

The lack of faith is starkest among the young, who have little to no memory of a time when American politics didn't function as a zero-sum affair. Nearly half — 48 percent — of those surveyed between the ages of 18 and 29 said voting did not make a difference in how their government operates.

Mitch Toher, a 22-year-old independent from Austin, said there was little reason to vote because the country would not function as long as its government operated under the two-party system.

Mr. Toher, who works in information technology, said he was not optimistic that the American political system or its elected officials were responsive enough to address the needs of young voters. Voting for either Democrats or Republicans, he said, would do little to change things in his life for the better.

"The largest divide is not necessarily left versus right, but those that are generationally old versus young," he said. "I don't think those types of changes are coming any time soon, or at least forthcoming in my point in lifetime."

Rosantina Goforth, 55, of Wagoner, Okla., said officials at every level of government needed to be removed and replaced with people "who believe in the United States."

Ms. Goforth, who is retired from the Army and said she got her news from Christian news programs, is one of the Republicans who falsely believe Mr. Trump won the 2020 election. Voting, she said, has little bearing on how the government operates.

"Our say really doesn't matter," she said. "I know Trump won that election. It's a given. He won that election. But somehow or another, you know, people got paid and votes were mismanaged."

Some voters expressed frustration with a political system they saw as ill equipped to address problems from across the ideological spectrum. Felix Gibbs, 66, a retired forklift operator from Niagara Falls, N.Y., said the government was not prepared to solve the two issues he saw as most pressing: illegal immigration and a lack of universal health coverage.

"I'm sure there are other issues I can bring up that will show that our political system is not working," said Mr. Gibbs, who said he voted for Mr. Trump in 2020 and would do so again.

The Supreme Court, which has long guarded its reputation as above politics, is widely viewed as a political body, the poll found. Nearly two-thirds of those polled said the justices' rulings were based on their political views, not on the Constitution, a belief shared by 88 percent of Democrats and 39 percent of Republicans.

Voters who backed Mr. Biden in 2020 said they were dispirited by the Supreme Court's conservative majority, which includes three justices appointed by Mr. Trump.

Elizabeth Thiel, 40, an administrative assistant from Lilburn, Ga., who was among the millions of suburban women who helped propel Mr. Biden to victory in 2020, said the country needed to end lifetime appointments for Supreme Court justices. Ms. Thiel said the court's recent decisions on [gun control](#) and [abortion rights](#) had undermined the popular will of the country.

"We see it in the way that they vote for and against things, and especially with the Roe versus Wade thing a few weeks ago," she said. "It's just not right. I mean, it's just not right."

Interviews with voters who were polled revealed chasms in American society that stretched far beyond policy debates in Washington and extended to cultural issues that often dominate news coverage.

Conservatives expressed opposition to proposed gun control measures and gains in rights for transgender people, while liberals said they could not believe that the country's civil rights advances had moved so slowly and that the Supreme Court had ended the federal right to an abortion.

Rachel Bernhardt, 62, a legal assistant from Silver Spring, Md., said her family had been involved in progressive politics since her [grandfather served as an economist](#) in Franklin D. Roosevelt's administration. Her parents participated in civil rights demonstrations in Washington, she recalled.

Now, she said, she has become disillusioned with the difficulty of persuading the American government to respond to what people want.

Mr. Trump's election, Ms. Bernhardt said, revealed to her the scope of American racism and the extent to which Republican elected officials would cater to it.

"You don't have to necessarily be a liberal Democrat to be a good person," she said. "But what I had no idea until I was much older was how many people still believe in the Confederacy or, you know, just — if I saw a Confederate flag, I'd just assume that that person was some kind of mentally ill psycho."

The diminution of trust in the American political system has come during a moment of vast retrenchment of local news outlets. A quarter of all newspapers — more than 2,500 — [have closed since 2005](#), cable news viewership [has sharply fallen](#) and more Americans are getting their news from social media. The poll found that just 34 percent of voters were very or somewhat confident that major newspapers and television networks reported accurately and fairly about news and politics.

Just 7 percent of those polled said they got most of their news from a major national newspaper. Only 1 percent said they turned to a local newspaper. Among Republicans, 29 percent said Fox News was their primary news source.

The level of confidence in the mainstream media is lowest among voters who find their news through social media.

Jacqueline Beck-Manheimer, 58, is an independent who has voted for third-party candidates in recent presidential contests. She works at an employment services company in Albuquerque and said her news diet consisted of YouTube shows that presented stories they claim the mainstream media is ignoring, including the channel of Russell Brand, an actor who has become [a prominent purveyor](#) of coronavirus conspiracy theories.

Ms. Beck-Manheimer said she was upset about the Supreme Court's rollback of abortion rights, members of Congress who took corporate campaign contributions, the increased size of the defense budget and profits that pharmaceutical companies made in selling coronavirus vaccines to the federal government.

The government's problems would be easier to solve, she said, if the news media weren't invested in sowing division among Americans.

"It's the media who stokes the culture war," she said. "It's all a provocation to distract us from what what's really going on, and what's really going on is nothing but big businesses and their money."

Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and government agencies as a stock market manipulation platform.

Corrupt politicians turned the government into a cheap garage sale of cronyism!

--- This corruption affects the determination about who gets to run the United States Government and who profits from government decisions, a matter of many trillions of dollars.

--- For example; The United States Department Of Energy, the U.S. Patent Office, The EPA and others, since November 2008, have been almost entirely used as scam crony payola slush-funds to pay off political campaign financiers of White House insiders. In addition, government agencies are used as gate-keepers to sabotage and stall the competitors to those political campaign financiers of White House insiders. It is political racketeering operating in plain sight! The cover-ups by the IG, AJ and DOJ are ENDLESS!

--- Politicians turned the government into a cheap garage sale of cronyism! This kind of crime illicitly and illegally manipulates the power over who runs the United States Government and who profits from government decisions which are a matter of many trillions of dollars. The act and veracity of this crime enterprise will be proven to the Jury.

----- Government officials ordered attacks on Plaintiffs, de-funding and reprisals because Plaintiffs reported corruption at the White House, Department of Energy, and other government offices, and because Plaintiffs technology could obsolete the technologies that government officials were illicitly receiving bribes from via insider trading. The attacks and harms against Plaintiffs used government resources paid for by taxpayers.

----- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

--- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends.

--- If you are a taxpayer: You suffered damages!

--- If you are an American business: You suffered damages! -

--- If you are Democracy: You were broken!

--- If you were a tech mobster: You made out like a bandit! -

--- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes!

--- Forget about any allegiance you might have to one political party over another. This is not about parties, **this is about racketeering crimes!** The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

--- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

--- IF YOU SEE CORRUPTION, REPORT CORRUPTION: Post a public web page with all of the details and evidence of the political corruption. Then invite all of the press, public, Inspector General's, FBI, SEC, FTC and law enforcement to that web page. This will prevent cover-ups and stone-walling and protect you from getting ignored! Never assume that the agencies that are supposed to help you, will help you!

- End political corruption in America by making any stock ownership by senators and political insiders illegal.

- Exterminate Google, Facebook, Tesla, Youtube and Netflix for their crimes, attacks on competitors, patent office and Senate bribes.

- File criminal referrals to federal law enforcement on each oligarch that hired Fusion GPS, Gawker, Black Cube, Amyntor, et al, to run "kill teams" against competitors and whistleblowers and produce public, CIA-quality, investigation dossiers on each one. Make it a felony for anyone to hire a "kill service", "character assassination service" or "oppo service"!

THE PANAMA PAPERS AND THE GREEN CAR BOONDOGGLE: You have probably heard of "*The Offshore Leaks*", "*The Panama Papers*", "*The Pandora Papers*", "*The Swiss Leaks*", "*The Sony Pictures Hack*", "*The Luanda Leaks*", "*The Bahamas Leaks*", "*The Paradise Papers*", etc. What you might not know is that EVERY bank and international CPA firm has been hacked. Different state agencies, seeking to embarrass each other, have a leaking war going on. The public has only seen 10% of what the international journalists (Like ProPublica, ICIJ, Transparency International, The Guardian, etc.) have in their hands. The Government hired a team to build America's back-up energy plan "*in case the Middle East had problems*". The Government convinced them to invest years of their time and their life savings in this Government sponsored program. At the last minute, the government didn't pay what they had promised that team and sent the money, instead, to a White House political campaign financier oligarch. Federal and news investigators later discovered that the oligarch, and his staff, were sleeping with, giving jobs to and paying the White House staff that made all of the funding decisions. It was felony-class organized crime. What you can expect to see in the future is a set of material called "**THE ENERGY PAPERS**". These materials document an organized-crime using taxpayer dollars to pay quid pro quo to politicians and their tech oligarch financiers. The papers document how bribes, payola and insider deals financed Solyndra, Ener1, Tesla, Abound and others. Elon Musk, Mark Zuckerberg, Eric Schmidt and Larry Page are exposed ordering hit-jobs" on competitors and maintaining covert business ownership's with U.S. Senators.

FACEBOOK/META: Because of what the "**THE FACEBOOK/META FACE-PLANT**" matter exposed; citizens are calling their elected officials and demanding that the Department of Defense and The Department Of Justice CUT-OFF **Facebook/WhatsApp/Instagram** from their global DNS servers until they **FULLY answer to Congress for their crimes and lies**. This Silicon Valley social crime operation has been proven to be a national security risk, a dire threat to our youth, **a bribery operator** and a threat to society as a whole! October 4, 2021 was the first day in modern human history that the entire planet was freed from the social stain that is the Facebook empire. University data scientists and forensic internet analysts were able to compare traffic manipulations on Oct 1., 2021, by Facebook's web manipulation and privacy harvesting gang, to the "clean" internet that uniquely existed on Oct. 4, 2021. **You can see the changes. You can see who was controlling what. You can see the fake user data stop...and start. The whole thing is rigged and the scientific facts now prove it!** The Congressional Senate Commerce hearings have further proved that FACEBOOK operates exactly like a **Mexican drug cartel** run by **'El Zucko'** pushing addictive media and messaging to kids and vulnerable citizens in order to control global politics. Zuckerberg's "Tech Cartel" owns the U.S. Congress with billions of dollars of bribes and lobbyists. We have warned Congress and the agencies about these issues, in writing, since 2002 but **lobbyists seem to speak louder than justice! The facts prove that Facebook is one of the largest abusers of children in the world. FACEBOOK-META makes over one billion dollars, per day, for each day that they delay Congress from acting! If Osama Bin Laden and Adolph Hitler jointly owned Google and Facebook and Congress repeatedly called them in for hearings and at the end of each hearing they said "We made some mistakes but we will do better", would you ever believe them? Would you wonder how Congress could go for decades without stopping them? If you found Nazi gold bars and underage Afghan slaves in the closets of the Senators, would that better explain why Congress does nothing about Facebook And Google?**

Felony Charges Against U.S. Senators And Other Public Officials..

The companies charged in this complaint are largely owned by U.S. Senators and their family members, along with major government agency officials.

In other words, the companies charged with doing coordinated crimes and corruption are owned by the very people that are responsible for regulating those companies.

Those public officials have the means, the motive and the novel ability to manipulate funding for those companies and against their competitors.

Forensic data proves that the charged officials have done so.

Analysis of financial disclosure data, FINCEN reports and ICJ leaks shows senators and their spouses have as much as \$400M invested in corporate stocks.

We have first-hand knowledge of, and experience with, West Coast public officials putting hit-jobs, media attacks, de-funding orders and benefits manipulations on their constituents in order to protect their stock interests.

As they set national policy on important issues such as climate change, tech monopolies, medical debt and income inequality, these US senators have glaring conflicts of interest and have participated in cover-ups of these crimes and attacks on us for reporting them.

Speaking of COVER-UPS: 1.) Simone Biles, The U.S. Olympic Gymnastics Team and Larry Nasser sex case, 2.) The Jeffrey Epstein sex cult case, 3.) The Gov. Gretchen Whitmer kidnapping case, 4.) The 9/11 families case, and hundreds of other cases prove that government officials cover-up crimes. The victims reported to the FBI, DOJ, GAO, FTC, SEC and Congress in a timely manner and got stonewalled, lied to, attacked and retaliated against simply because they reported a crime! THIS CASE is yet another such case where the crimes were reported long ago but because it involved famous rich people, it was covered up by public officials.

FINCEN, The FBI and the GAO have proven that stock ownership by politicians creates noncontractible quid pro quo relations with firms like Tesla, Google, Facebook and Netflix. The ownership by US Congress members in these firms contributing to their election campaigns is higher than in noncontributors. This bias toward contributors depends on the financial incentives of politicians and the relation's value. Firms with a stronger ownership-contribution association receive more government contracts, cash and tax waivers, such as Elon Musk's record-breaking government payola. The financial gains from these contracts are economically large when politicians buy stocks in covert exchange for contributions to the politicians, via insider arrangements. We got harmed by dirty government officials getting paid bribes via insider trading. Now they owe us! See: http://www.the-truth-about-the-dept-of-energy.com/the_energy_scam_papers.pdf

This matter covers:

- 1.) The creation and operation of the disclosed organized crime entity involving public figures
- 2.) The methods and tactics of the bribery they employed using the stock market
- 3.) The attacks they operated against whistle-blowers and competitors using government resources, black-listing, funds blockades and dirty tricks services.
- 4.) The systemized sex trafficking and employee abuse protection scheme they operate
- 5.) The industrialization of political payola that they enforce using corrupt contracted services and former intelligence agency operatives
- 6.) Their coordinated violations of free speech and their systemized control of all digital news and information
- 7.) The harms to the public that they caused
- 8.) Judges and regulators who reviewed this case who owned the culprits companies: <https://www.dailymail.co.uk/news/article-10038643/131-federal-judges-broke-law-hearing-cases-involving-companies-financial-in.html>

The FBI, FINCEN, GAO, the AG and IG have been informed that Joshua Comins, and others, have now disclosed how Nancy Pelosi's financial dealings gave her \$315 million in assets on just a government salary. Organized crime is suspected. If Bay Area politicians get mad at a constituent they can have that constituent "erased" from SSA, HUD and pension benefits, black-listed, media-attacked and utterly destroyed.

The United States Department of Energy AND The FCC have taken bribes via stock payments to their staff, executives and lobbyist contractor/advisors. They were paid off to partner with California Senators in order to rig money exclusively to Elon Musk. The ATVM, LGP and Battery funding programs at DOE are nothing but crony payola scams and most of DOE staff should be indicted for conspiracy.

Pelosi, Harris, Feinstein, White House financier Google and George Soros own Elon Musk's companies. Could any competitor to Musk get a fair shake in commerce or government funding? Never!

Where's the politician's 'dirty money' money coming from?, everyone is asking.

House Speaker Nancy Pelosi, D-Calif., has served in Congress for nearly 34 years and presently presides in a top-tier position as one of the most powerful figures in the U.S. government.

Speaker was unable to pass the bipartisan infrastructure bill as progressives in her own party signaled their disapproval. Many have condemned her policies, saying they're making it "harder and harder for average Americans to accumulate wealth," shackling them with taxes and "destroying the dollar with reckless spending." The current salary of a Speaker of the House sits in the low six-figures, yet Pelosi is one of the richest members of Congress. So what is her secret: "It appears to be her husband, Paul."

"After they got married, Paul opened up a real estate and venture capital firm. Through his connections, he pushed Nancy into the political world, helping her get elected to Congress in 1987.". This is just like how Dianne Feinstein and Richard Blum hooked up their own deal.

The couple has timed the market and insider trading perfectly over the years while Nancy's been a Washington insider. With real estate and stocks, the Pelosis always know what the right investment is based on her lobbyist deals. The Pelosis own several pieces of real estate including a mansion in Napa Valley valued up to \$25 million, a DC waterfront condo worth over \$2 million, and a red brick mansion in California's Pacific Heights.

Her husband owns commercial properties in San Francisco "combined, worth up to \$50 million.

In 2018, the Pelosis' wealth has skyrocketed. That year, her financial disclosure report revealed a net worth of over \$114 million. In 2019, Pelosi's assets total up to a whopping \$271 million and in 2020, those numbers went up even more to as high as \$315 million.

In 2007, Visa worried the new Democrat Congress would target their swipe fees, costing them billions. So they hired a team of lobbyists who descended on Pelosi. Visa's CEO personally met with her. She got donations from them. One of his advisers left and became a VISA lobbyist himself. Suddenly, Paul Pelosi got a phone call from his broker. He was in luck, Paul was offered a prescreened invite to get in early on Visa's \$18 billion IPO. Did Nancy and her husband hesitate? No, they bought between \$1 million and \$5 million worth of Visa stock. But it gets better. While Pelosi was speaker, bills that would have hurt Visa's stock price were blocked in the House. Visa shares going up over 200 percent during the time, making the Pelosis a fortune on paper.

In January, the Pelosis got a million dollars worth of Tesla stock right before Joe Biden announced electric car incentives in June. The Pelosi family cashed in big time just before Congress was set to pounce on Big Tech. Mr. Pelosi exercised options on Google's parent company, Alphabet, making an easy \$5.3 million.

Pelosi, Harris, Feinstein, Google and George Soros own Elon Musk's companies. Could any competitor to Musk get a fair shake in commerce or government funding? Never!

In March, Paul Pelosi exercised \$2 million worth of Microsoft options, just two weeks before the tech giant got a \$22 billion contract to equip the US Army with high tech headsets. The Pelosis and the Feinsteins have never been indicted for insider trading, but her marriage investments and access, combined with extremely fortunate timing, have created a lot of suspicions.

FINCEN, GAO, FBI, ICJ and private investigators are now following the money, and there sure is a lot of it. There are hundreds of suspected criminal dark money charges that have been pointed at San Francisco Bay Area politicians.

At the suggestion of some government officials, we would like to further examine the offer to partner with the U.S. Government to prosecute our case. Where we had proposed mediation, we concurrently, also, propose a JV opportunity suggested by members of Congress.

Every public official who attacked Plaintiff: A.) held stock and assets in Plaintiff's competitors, B.) was compensated by Plaintiff's competitors, C.) was a member of organizations who paid news, internet and information services to manipulate their output for their own unjust gain, D.) knew that their malicious assertions were false and defamatory, and E.) and otherwise met the legal means test to qualify as violators of federal RICO laws, Human Rights laws, Civil Rights standards and related State and Federal Constitutional rights laws.

By rigging HUD, SSA, DOE, and other public benefits determinations, to harm the funding, payments, witness fees, informant fees, whistle-blower awards and stock market profits of adversaries, the Defendants engaged in felony crime. The purpose of this case is to cripple the whole crime organization via numerous charges, which shall be brought against multiple defendants, under multiple liability, which means that prosecutors will find the underlying elements of these acts and then have conspiracy on top of it, and then each and every charge against the perpetrators is separate and runs consecutively.

For example when Elon Musk is charged with bribery and conspiracy that charge may have led to 10-15 years in prison in the old days, now under RICO, when found guilty of racketeering he can be fined up to \$25,000 and sentenced to 20 years in prison per each racketeering count.

RICO charges, as part of the charge set, will make these convictions easier. In many cases, the threat of a RICO indictment can force these defendants to plead guilty to lesser charges, in part because the seizure of their assets would make it difficult to pay a defense attorney for a case this large. Racketeering and RICO-related crimes are grave and require skilled defense, that is prepared to face the government-assembled legal teams in federal court. Essentially, "it means the convicted would never see the light of day again, they are never getting out."

Despite its harsh provisions, these RICO-related charges are easy to prove in court, as they focus on patterns of behavior as opposed to criminal acts. The government officials and their tech oligarch partners were audacious in publicly promoting their crimes and their above-the-law attitudes. RICO, here, also permits a private individual "damaged in his business or property" by a "racketeer" to file a civil suit. The government should, thus, join with Plaintiff in this case.

The plaintiff has proven the existence of an "enterprise".

The defendant(s) are not the enterprise; in other words, the defendant(s) and the enterprise are not one and the same.

The defendant(s) meet the construct of four specified relationships:

1. the defendant(s) and the enterprise: either the defendant(s) invested the proceeds of the pattern of racketeering activity into the enterprise;
2. the defendant(s) acquired or maintained an interest in, or control of, the enterprise through the pattern of racketeering activity;
3. the defendant(s) conducted or participated in the affairs of the enterprise "through" the pattern of racketeering activity ;
4. the defendant(s) conspired to do all of the above crimes.

The enterprise, herein, is the 'prize,' 'instrument,' 'victim,' or 'perpetrator' of the racketeers. A civil RICO action for this matter should be filed in state AND federal court.

We intend that both the criminal and civil components will allow the recovery of treble damages (damages in triple the amount of actual/compensatory damages) for Plaintiff.

Our evidence has focused on patterns of behavior AND criminal acts.

We seek multiple liability (charges brought against multiple defendants, which means if prosecutors now find the underlying elements of these acts, you have conspiracy on top of it)

Each and every charge against defendants is separate and runs consecutively. Admissible hearsay evidence is offered in this case. Associative evidence is allowed (guilt by association meaning if a defendant profited off the crimes of an organization even if he was not directly involved with the crime himself he shall still be charged as a co-conspirator and go all the way up the chain of command).

This case structure will incentivize the operatives (soldati) at the corrupt law firms, CPA's, lobbyists and media outlets to flip, or roll-over, on the bosses.

This case structure allows both the government and Plaintiff to engage in substantial asset seizure (over \$900B). The owners of the racketeering shell corporations, real estate scams and trusts are well-known to often abscond with the assets. An injunction and/or performance bond ensures that there is something to seize in the event of a guilty verdict. In addition, the racketeers must forfeit all ill-gotten gains and interest in any business gained through a pattern of "racketeering activity." Over 1000 false-front shells, trusts, dark money and PAC assets are known to be held by the defendants.

While government bosses may be embarrassed, or find this matter "politically awkward", no citizen in America cares. Any boss who delays or obfuscates this case further should consider that they will, by such action, legally define themselves as a member of the above defined "enterprise" and will be criminally referred to FBI for prosecution.

There is no time like TODAY, to get this matter moving. See: http://www.the-truth-about-the-dept-of-energy.com/the_energy_scam_papers.pdf

An Inconvenient Truth: How Tesla Became a Trillion-Dollar Company Through Corruption, Bribery And Cronyism

Astonishing story about the rise of green technologies using political payola

By Ilya Pestov and The Justice Alliance

Al Gore and Elon Musk

After the news that Hertz [decided](#) to buy 100 000 Tesla cars for more than \$4 billion, Tesla capitalization has already increased almost by \$200 billion. I am not talking about the market irrationality anymore, but I feel a bit curious. Hertz has recently emerged from bankruptcy and [has not received](#) any wholesale discount from Musk. How and why is Hertz going to buy such expensive cars? The answer is simple — with taxpayers' money.

Apparently, the White House [has recently passed](#) the Budget Reconciliation Bill, which would cost \$1.75 trillion for US citizens. There are plenty of benefits for the so-called 'clean energy' in it, particularly, 30% of tax deductions for '[qualified commercial electric vehicles](#)'. It means that after buying Tesla cars Hertz will receive \$1.26 billion of tax cashback. In fact, there are also some benefits for the installing of electric vehicle charging stations. Hertz has already announced plans to make thousands of charging stations.

Lithium, Cobalt and rare earth mines are owned by Kleiner Perkins, Goldman Sachs and Department of Energy/White House insiders. That is what power's Elon Musk's cars. Many say that Tesla was just a front for invading foreign nations for their lithium batter mines (which are operated with child labor).

It is important to mention that common people have also an access to tax benefits that the public pays for with their April income taxes and the compensation limits [are increased](#) from \$7500 to \$12 500. As an example, instead of paying \$15 000 income tax you may buy Tesla Model S and pay just \$2500. It is like a pretty bonus from Tesla or a good discount on electric vehicles. Seems to be a good motivation to refuse internal-combustion engines, doesn't it?

Moreover, Tesla also gets ZEV credits and other benefits for manufacturing its products. That way, the US government restructures the automotive market literally by hand and picks the winners and losers. Do you know what I find the most interesting in this story? The fact that the new bill [was published](#) on October, 28th but Hertz announced buying of Tesla cars on October, 25th. As you can understand, the decision was made much earlier.

You may already know that Secretary of Energy Steven Chu, who gave Tesla their money, and his Silicon Valley friends at McKinsey Consulting, who provided the staff for the Department of Energy, were all in the pocket of Kleiner Perkins, where Al Gore works. Chu has now been replaced by an actress named Jennifer, who laughs at any suggestion that her job involves protecting America by keeping gas prices low and who owns the very companies that she is giving government funds to.

Now I would like to tell you about one very interesting character in the US establishment named Al Gore. This is the former US Vice President under Clinton, the presidential candidate in 2000 and the Nobel Peace Prize winner for the film *An Inconvenient Truth* (2006) about global warming.

His film and book have actually become the foundation for modern climate policy and the public demand for renewable energy sources. One should notice keep in mind that along with the awareness of internal concern for the ecology Al Gore was one of the first who realized the commercial potential in projects devoted to the protection of the environment.

Two years before 'An Inconvenient Truth' Al Gore together with Goldman Sachs Chief Asset Manager David Blood has run a new investment company Generation Investment Management. As a result, they both defined terms sustainable investing and ESG.

The former presidential candidate, as we could see, was very good at technology and finance. In 2007, he was suddenly [invited](#) to become a partner in Kleiner Perkins — one of the oldest and largest venture funds of Silicon Valley. John Doerr, one of Kleiner Perkins chief partners, joined the advisory board of Generation Investment Management.

1. Doerr, as Al Gore, stood for the innovations in clean energy to struggle with climate change. On the TED conference in 2007, he quoted his daughter "your generation created this problem, you better fix it". That reminds me on Greta Thunberg's words which would be told later. So that J. Doerr and Al Gore had a similar vision of the future and the month after mentioned partners' rotation Kleiner Perkins fund invested into Silver Spring Networks. Biden's daughter, Ashley, left her hand-written diary for journalists to find where she reveals the same thoughts (in addition to her naked shower play with Joe Biden)

By great coincidence, this deal happened a year before the US Department of Energy [had announced](#) a \$3.4 billion grant program for smart grid developers. In fact, \$560 million of this amount was spent to utilities serviced by Silver Spring Networks, which works exactly with smart grids. 6 years later Silver Spring Networks successfully entered an IPO.

David Blood, Al Gore and John Doerr

Luck literally pursued Kleiner Perkins. In 2008, the fund invested tens of millions dollars in a start-up hybrid cars manufacturer Fisker Automotive. After that, in September 2009, the company [received](#) a low-interest \$529 million loan under the Advanced Technology Vehicle Manufacturing (ATVM) direct loan program from the same US Department of Energy.

Congress [passed](#) ATVM in 2007 after a drop in sales in the big three (General Motors, Ford, and Chrysler). The volume of the borrowed capital was \$25 billion. The goal of the program was to help the US auto industry to reduce fuel costs because Americans were tend to choose more fuel-efficient Japanese cars. That is, the problem devoted not to ecology issues, but much more to fuel saving.

Again, ATVM passed in 2007, but the allocation of funds began only 2 years later on a competitive basis. In February 2009, 8 months before the government loan to Fisker Automotive, John Doerr of Kleiner Perkins [became](#) a member of the Presidential Economic Recovery Advisory Council. The funny thing is that Fisker did not even have manufacturing facilities in the USA and the assembly of their Karma models took place in Finland.

The Obama-Biden administration appointed a venture capitalist from Kleiner Perkins as a member of an economic advisory board. They also signed a government loan for help American automotive industry to a company (without any manufacturing capacity in the United States) that Kleiner Perkins has invested in.

That trick [was obviously noticed](#) by the public. Some companies [have sued](#) the Department of Energy, Mitt Romney even [called on](#) Congress to open an investigation into the loan to Fisker Automotive, pointing out that its investors included Al Gore, who sponsored Obama's presidential campaign. Nevertheless, somehow all those worries dwindled away as federal cover-ups went into full swing.

Fisker's plans to start the manufacture at a closed GM plant in Delaware at the expense of a government loan, which GM itself did not receive, deserved special attention. These plans caused some questions among local residents, and then current Vice President Joe Biden, who served as Senator from Delaware from 1973 to 2009, [assured](#) people that the budget money for Fisker would be paid off, and the company will eventually return "billions-billions" dollars to everyone.

Running ahead, the budget money didn't return to taxpayers because Fisker went bankrupt in 2013. From the bankruptcy documents, which fell into the journalists' hands only 7 years later, it [turned out](#) that Hunter Biden (Joe Biden's son) was an investor of Fisker. However, this fact also faded into oblivion without preventing Biden from gaining 58.8% of the votes in Delaware during the 2020 presidential election.

Let us turn back to Tesla. Only \$8.4 billion [were allocated](#) from the \$25 billion program of help to the American auto industry. Only 5 companies received money, although 108 applications were received. Almost \$6 billion went to Ford with a democratically oriented management, \$1.5 billion were given to Nissan, about half billion — to Fisker and Tesla and, finally, \$50 million came to a less known VPG company.

Just one of the first results in Google on the "Chrysler republican" query.

Surprisingly, the credit limit has not been exhausted, large manufacturers like General Motors or Chrysler did not receive money, but two unprofitable startups from California, selling several hundred cars each, [did](#). We already know the main lobbyists of Fisker — they are Al Gore and John Doerr, who invested in Fisker through Kleiner Perkins. But were they acquainted with Elon Musk? A brief search immediately gave a positive answer to that question.

In 2013, Al Gore, while talking about his new Tesla S in an interview to Yahoo Finance, [called](#) Elon Musk his friend. More than that, his son Al Gore III [has been in charge](#) of Policy & Business Development at Tesla since 2015. After learning that I immediately went to have a look at the Generation Investment Management profile on CB Insights. It turned out that the Gore fund had invested in Musk's SolarCity in 2011 and Gore III [worked there](#) as a Policy Officer.

Then in 2016, Tesla acquired SolarCity. An unprofitable service company that didn't even produce solar panels was taken over for a suspiciously large amount of money. Recently it [turned out](#) that Elon Musk has faced a \$9.4 billion fine for this deal, although the final court decision had not been made yet. It is important that after the takeover in 2018, Al Gore became suddenly [nominated](#) for the post of chairman of the Tesla board of directors.

SolarCity's valuation was really high

Al Gore [rejected](#) that offer but I did not doubt more about his close connection with Tesla. At the same time, I was interested in their possible contacts before receiving the lobbied state subsidies of 2009. That's why I decided to change the angle and check whether Tesla has a relationship with Kleiner Perkins. Then it turned out that Elon Musk had been friends with John

Doerr for a very long time.

In 2006, when Tesla looked for money in round C, Kleiner Perkins fund offered \$50 million, while VantagePoint offered \$70 million. Despite the huge difference in bids, Musk wanted to strike a deal with Kleiner Perkins but on the condition that John Doerr would sit on the board of directors. Unfortunately, J. Doerr had many other obligations and was forced to refuse. That's why Musk chose VantagePoint, as he [told](#) in an interview.

I went on and learned that the vice president of Tesla in 2006–2017 was Diarmuid O'Connell. As I remember, he [was responsible](#) for national security issues under former Secretary of State Colin Powell. He also spoke about Iraq chemical weapons and showed test tube to legitimize the military invasion of Iraq at the UN in 2003.

I wondered how he appeared in that story. However, I didn't have to look for an answer for a long time, so let us meet Colin Powell, a member of the advisory board of Kleiner Perkins, a strategic partner of the fund in 2005.

There was no direct investment from the fund in the company, nevertheless it seems that there was another strong connection between Kleiner Perkins and Tesla. Is Al Gore really not a government subsidy beneficiary for Tesla? My confirmation bias did not allow this thought to get along in my head. Searching for keywords, I came across publications in [Yahoo Finance](#) and [Insider Monkey](#). The articles mentioned Gore's earlier investment in Tesla.

Keeping in mind that the journalists could simply make a mistake, I began to study which funds were invested in Tesla at earlier stages and whether Al Gore was involved. Finally, I came across [an interview](#) with the managing partner of Capricorn Investment Group on the blog of the Japanese financial holding Nomura. He said that Capricorn financed the filming of 'An Inconvenient Truth' movie.

Capricorn was founded by Jeffrey Skoll, the former eBay president and billionaire. The fund invested in Tesla together with SpaceX at early stages. Mr Gore [brought in](#) \$35 million! Can you imagine? "That's a big wad of cash for someone who reported barely \$2 million in assets in 2000, when his job as vice president came to an end", as the New York Times wrote in 2008.

As a result, Al Gore was the direct beneficiary of providing state loans under the ATVM program for Fisker Automotive and Tesla Motors, in which he owned shares through venture funds Kleiner Perkins and Capricorn Investment Group.

When I proved it, I wanted to learn more about Al Gore's bio. It has been revealed that after losing the election, in 2001, he [became](#) a vice president of Metropolitan West Financial — a company with more than \$65 billion in assets under management. The company [was managed](#) by former heads of Drexel Burnham Lambert. That was a bankrupt investment bank, which history was very similar to Lehman Brothers.

The same year Mr Gore also joined the Google Advisory Board, in which he [invested](#) together with Kleiner Perkins in 1999. Probably that was the time when he met John Doerr. Then, in 2003, the former US presidential candidate became a member of Apple's board of directors. In addition, the founders of Google were also early investors in Tesla.

It is clear that Albert Gore had many connections in political and financial communities. In 2006, he started a charitable organization The Alliance for Climate Protection. The company [launched](#) a \$300 million (sic!) ad campaign to mobilize Americans to reduce greenhouse gas emissions immediately. As a result, an "inconvenient truth" was told to everyone.

In 2009, Gore [appeared](#) before the United States Senate Committee on Foreign Relations to support Obama's economic recovery plan. Then the government had passed the Recovery and Reinvestment Act, which included an \$80 billion stimulus package to promote green energy initiatives. Newspapers [called](#) the bill the "biggest energy bill in history".

The person who owns stakes in Tesla and Fisker first knocks out government loans and then pushes a law according to which manufacturers of electric vehicles should pay fewer taxes, and buyers of electric vehicles should receive tax deductions. Can you imagine?

Surely, Al Gore was not the only one who acted in this process. In 2006, Nick Pritzker, the brother of Hyatt founder, [invested](#) in Tesla. His niece Penny Pritzker became the 38th US Secretary of Commerce in Barack Obama's cabinet, and his nephew was the Governor of Illinois. In general, Pritzker is one of the richest families in the US.

Among of early investors in Tesla there is Steve Westley, a politician and businessman. He has already joined the company's board of directors in 2007. More than that, during the 2008 presidential election, Westley [acted](#) as a co-chairman of California's Obama for America campaign. Currently, he is a member of the US Department of Energy advisory board.

Al Gore, John Doerr, Nick Pritzker, Steve Westley, Elon Musk, Sergey Brin, Larry Page — all of them [were](#) so-called donors and beneficiaries to the Obama campaign. I mentioned only the names from the public access. Let me remind that these people are only mentioned in the context of the Tesla story while the whole green initiative and the Recovery and Reinvestment Act affects a much larger number of companies and investors.

The rapid development of electric vehicle companies is taking place in a distorted market environment. Their commercial success is mainly driven by government incentives unavailable for ICV cars manufacturers.

The US government is literally restructuring the auto market by hand in order to make one guy: Elon Musk, massively rich. In that case the active discussions about climate change and greenhouse gas emissions could probably be nothing more than a part of a program to reallocate money in the US establishment since Nancy Pelosi, George Soros and The Feinstein family are the true owners of the stock profits from Elon Musk.

However, the question remains whether this is really a good thing, because there is no full consensus in the scientific community regarding the general belief in the environmental friendliness of electric vehicles and the beneficiaries are always the same 50 people associated with Nancy Pelosi.

Help End The Corruption Of The U.S. Patent Office

America's Senator's, and other major politicians, **own the stock** in Facebook, Google, Netflix, YouTube and Instagram. Those politicians refuse to reform the U.S. Patent Office, or internet privacy, because Facebook, Google, YouTube, Instagram, et al, stole most of their technologies from small inventors that they never paid. Those Big Tech companies have spent billions in lawyer and lobbyist payola to stop inventors from getting paid. Big Tech even has their own staff planted in the U.S. Patent Office to protect Big Tech and to sabotage small

inventors. The FBI and FINCEN can easily deliver a forensic auditing report proving that politicians (Mostly those from California) own, and get bribes from, Silicon Valley Big Tech...BUT...Congress refuses to request such a report because it would implicate so many members of Congress! We are exposing the Senator's, Mayor's and Governors that covertly take bribes from Big Tech!

Please join inventors and supporters - Write To Congress and Demand That The PTAB and Silicon Valley Oligarch Control of the U.S. Patent Office be over-thrown:

<https://www.congress.gov/contact-us>

Why?

It is the 10 year anniversary of the America Invents Act, [a radical change to the fundamental structure of the U.S. patent system](#). The Supreme Court has declared that under the AIA patents are no longer property rights, but are now merely "[privileges from the government](#)", which they can unilaterally revoke at the PTAB. Thus the newly created fascist administrative tribunal INSIDE the patent office has invalidated ISSUED patents of thousands of inventors, usually for the benefit of large corporations accused of infringement.

The AIA – whether deliberate or unintentional – has been [devastating for independent inventors](#) and small businesses who attempt to compete through innovation. Regardless of how carefully and precisely the law is followed, large corporations are persuading the USPTO to [invalidate 84% of the patents reviewed under the AIA](#). Clearly this is not only bad for inventors, it is bad for society. National security is jeopardized, innovation lags, while corporate incumbents metastasize and roll their monopoly profits into even more political influence to crush competition.

The effort is to draw attention to the crisis created by the AIA and to seek [legislation to curb unjust patent revocations by the USPTO](#). Under the AIA, USPTO headquarters along with the 4 regional offices are the venues of the [patent "death squads"](#), where administrative patent judges hold hearings and issue orders stripping inventors of our hard-earned intellectual property rights. A sixth location in Vermont is the local office of Senator Patrick Leahy who authored the America Invents Act and needs to hear how his bill has harmed inventors and been [weaponized by large corporations to snuff out small competitors](#).

The Crony Corruption Political Payola Quid Pro Quo

[By Amy Lester, Brad Corners, Steven Reed](#)

- Bribes and crony quid pro quo political payola payments are paid to politicians in Washington DC and Sacramento, California to keep Big Tech monopolies in power!!!

- Citizen groups are now [making certain that FinCEN](#) and the FBI are [coming for each](#) of these [Tech Scum](#) and their [Congressional lapdogs!](#)

- The victims are [Filing Federal Charges](#) and requesting that the FBI [investigate](#) every one of [These Crooks](#) using crowd source [Digital Forensics!](#)

The United States Department of Energy runs a political crony-payola slush-fund operation. They don't "[support green cars](#)"; they support "[greenbacks for crony insiders who financed political campaigns](#)". The U.S. Department of Energy violates anti-trust law by funding only the friends of The President and cutting out their competitors. Most observers think that the Department of Energy needs to be sued by the government on behalf of the citizens that were harmed and defrauded by the agencies schemes.

The DOE non-crony victims were specifically and illegally excluded from participation in funding, benefits, jobs and income by major political figures, including U.S. Senators and White House executives who they knew, and their Silicon Valley oligarch financiers. The victims had reprisal/retribution/vengeance/retaliation hit-jobs put on them by Fusion GPS, Black Cube, Gawker/Gizmodo/Google and other media attack outlets. Financial records show that the hit-jobs were paid for by U.S. Senators and Department of Energy executives who owned the stock in the victim's competitors.

Jennifer Granholm began touting the "[amazing electric car funding](#)" from the Department of Energy and "[inviting electric car makers to apply](#)" for fabulous amounts of funding from DOE. Upon becoming the new Secretary of Energy, her staff had to report to her that the Department of Energy has fucked over every single car manufacturer in America and that there are no electric car makers that trust DOE except the handful of Obama buddies who already got cash from DOE. She quickly tried to pivot to "[funding batteries for all kinds of stuff](#)", only to find that you can't make batteries unless China allows you to. These two dumb, naive, moves clearly demonstrate the unprofessional and crony idiocy that DOE has become widely known for. Fuel cell cars, (like Toyota, Honda, Hyundai, etc. sell), work perfectly, use domestic materials, don't blow-up like lithium-ion batteries always do and solve all of America's energy problems. Fuel Cell's obsolete the batteries that Jennifer Granholm and her buddies own the stock in! In fact, Jennifer Granholm's Proterra lithium ion buses have been exploding into fireballs lately. Jennifer hates fuel cell cars because her stock market investments are in lithium.

Dept of Energy officials and operatives attacked applicants because those applicants cooperated with investigations of those political officials. The investigations looked at sex trafficking, tax evasion, off-shore money laundering, political bribery quid-pro-quo, revolving door payola scams, foreign nation-sponsored domestic manipulations, stock market rigging, internet censorship and search engine manipulation and other crimes.

The staff chum at the Department of Energy since 2008 has been nothing short of horrific. You find yourself talking to one major staff person one week and they are gone the next week. The Energy Department likes to sucker-in naive, wide-eyed, deer-in-the-headlights college kids with promises of "save-the-planet" and "cutting edge" but each new hire discovers that the come-on's are false. Once the new employee is inside the Department they can easily see the dirt, cronyism and insider schemes. Their dreams shattered, they head out to work for HUD or some other spot. The only ones that are still there, since 2008, are Obama's insiders that make sure that the money only goes to Obama's stock market partners. Department of Energy staff will lie like dogs to anybody who wants to apply for DOE funds. They will tell them that they have an equal chance of getting funded when they know that, even in 2021, only Elon Musk and the Obama sanctioned insiders will get to move forward.

The politicians attacked the whistle-blowers because they reported the crimes to federal police. They attacked them because non-crony applicant's products obsoleted the insider products of Tesla, Fisker, Solyndra and other crony companies owned covertly by Senators. They attacked the victims using taxpayer-funded state resources. That is a felony violation of the law.

The ongoing cover-up of these crimes and attacks is also a felony violation of the law. The victims are owed damages compensation, witness fees and back-pay. So far they have gotten nothing but cover-ups.

The FBI and other law enforcement organizations define a "cartel" as: 'An association of industrialists and business firms organized covertly to establish a national, or international monopoly, via price fixing and ownership of controlling stock, to operate a trust or monopoly to reduce competition between themselves by allocating markets, censoring public knowledge, manipulating governments or [controlling the price and production](#) of media, products and/or services.' This case is about a criminal "cartel". The Silicon Valley Cartel is an organized criminal enterprise!

In 2007, if someone said: "The Social Security Administration and other government offices have been weaponized to provide revenge, retribution, reprisal and retaliation attacks against witnesses, whistle-blowers and journalists..." you might have laughed. Over 2000 victorious lawsuits and IG investigations later: That statement has irrefutably been proven, in courts, to have been totally true. It is now well documented in Court and in federal investigations that Over 120 companies (listed by name, below, sell attack services to well known politicians. Applicant's investigators have proven that "kill services" were hired by public officials and aimed at Applicant, and other citizens.

In this case, one Applicant's Senators have made many tens of millions of dollars in profits and bribes off of Google. Google is applicant's competitor, patent infringer and operator of the largest of the attacks. Google, Literally, controlled and staffed, The White House in 2008. The financing, command and control, deployment and beneficiaries all point directly to the

perpetrators in this case. The FBI, FinCEN and other investigators have "no doubt" about who attacked Applicant and the scope of the spy agency tactics that were used.

Said one victim: "Government officials and their Silicon Valley cartel financiers are refusing to pay our damages, [blocking our legal rights](#), operating [spy agency-type reprisal attacks](#) and [running cover-ups](#). We demand that they [pay us](#) for our damages [back fees](#) and harms from their [felony crimes](#)... Ask the FBI to show you the [302 reports](#) on this case. Demand that we get a fair Jury Trial. End these bribes and payola schemes. U.S. Government : [PAY OUR DAMAGES!](#)... Hundreds of millions of dollars of [crony bribe cash](#) uncovered in [covert family trusts](#), stealth [real estate holdings](#), [shell corporations](#), [Cayman Islands hidden accounts](#), [false-front Goldman Sachs accounts](#), and [nepotism deals](#) held by Harris, Boxer, Feinstein, Pelosi, Reid, Biden, etc. They were supposed to protect us and, instead, lied to us, [ran hit-jobs against us](#) and competed with us! We found out that our political representatives own the stocks and assets of our competitors, have sex and party with our competitors, get tens of millions of dollars of election manipulation services from our competitors and use government spy and public services agencies to screw us over. Most of our political representatives work for corporations who abuse the public and they do it out of pure mercenary greed and lust for power..."

It is now well documented in Court and in federal investigations that Over 120 companies (listed by name, below, sell attack services to well known politicians. Applicant's investigators have proven that Fusion GPS, Black Cube, Gawker/Gizmodo and other "[kill services](#)" were hired by public officials and aimed at Applicants because they assisted with effective law enforcement cases against these corrupt politicians. The victims got Attorney General Eric Holder fired from his job for corruption. The victims got Secretary of Energy Steven Chu fired from his job for corruption.

Police records prove that the arrested and/or charged financiers ([Howard Rubin](#), Ed Buck, Roger Boas, [Jeffrey Epstein](#), [Joe Lonsdale](#) , [Eric Schmidt](#), [Andy Rubin](#), [Sergiy Brin](#), [Steve Bing](#), [Michael Goguen](#), [Forrest Hayes](#), [Tom Perkins](#), etc.) of these public officials ran a national sex cult in which some victims were murdered and many were underage. The depth of their sick depravity proves that the perpetrators will stoop to any crime, using the highest levels of government resources, to cover-up their crimes. The Complainant helped investigate some of these perverted perpetrators and has had government agencies deployed to attack him in reprisal, retribution, retaliation efforts as payback.

The Victim's engineering team, as early as 2005, had informed the Department of Energy, in writing that, as Lithium ion batteries age, the dendrite defects in their internal chemistry cause the batteries to constantly increase their tendency to blow up.

External forces, moisture, ambient energy waves and other factors, increase their tendency to self-ignite. Department of Energy Secretary's of Energy, their staff, White House and CIA executives have been proven, via their public stock brokerage records, to own lithium ion battery companies and child labor rare earth mining interests.

That is why they cover up the dangers of toxic lithium ion (the burning smoke of which causes cancer, brain and fetus damage) and sabotage efforts to market fuel cells, ultra caps, nicad batteries and competing alternative energy storage: in violation of anti-trust laws.

Proterra Buses are now blowing up, Tesla is known for blowing up, Bolt's are now blowing up. Ener1 batteries destroyed millions of dollars of Fisker's when they got wet... The Department of Energy has hundreds of reports proving this to be a fact.

Citizens demand an end to this cover up that allows corrupt politicians to profiteer on the death of Americans!

How The Social Security Administration And The IRS have been ILLEGALLY Weaponized For Payback Revenge Reprisals Against The Whistle-Blowers And Journalists In This Case

... Social Security, SSI, SDI, Disability and other earned benefits were stone-walled. Applications for benefits for the Plaintiffs were intentionally "lost" like a "Lois Lerner hard drive". Files in the application process "disappeared". A U.S. Senator ordered Plaintiffs benefits to "never be approved" even though Plaintiffs worked 60 hour+ weeks for decades in service to their nation and their community. A SSA official in the local SSA office, who had a devout expressed hatred against one United States President ordered a benefits blockade against Plaintiffs because he found out that Plaintiffs ex-lawyer now worked in the White House.

Forensic evidence and backgrounders on every person who worked on, or had access to, Applicants files, records, benefits decisions and related data sets shows that a number of those employees and contractors were members, financiers, web promoters or supporters of ANTIFA anarchy groups or KKK or Proud Boys related political activist-type groups. In San Francisco and Marin Counties SSA offices, in employees workspaces and on their Facebook and MySpace sites, many employees proudly display pictures of themselves wearing their pink "pussy hats", black riot gear and sporting political tattoos. FBI records and IG investigations show that SSA has the highest percentage of political activist employees of any federal agency.

Such persons are inclined to become drunk with power when allowed access to the trillions of dollars of government technology on the SSA file and decisions systems. A number of these persons have worked for, or with, U.S. Senators and other politicians who targeted Applicant in political reprisal. At least 3 persons in the San Francisco SSA office, at least 2 persons in the San Mateo SSA office and at least 2 persons in Marin SSA office are known to have engaged in such actions. Applicants funding and benefits were manipulated, so as to harm Applicant, as political reprisal as vendetta for his provision of testimony to federal investigators in a trillion dollar political corruption matter involving famous political figures featured in global news coverage. A vast number of agency abuse cases and lawsuits are now on public record in the Inspector General's offices and federal courts.

It is an indisputable fact that some government agencies run "hit-jobs" on citizens on orders from certain corrupt politicians. These actions are felony violations of the law.

Federal and State Agencies including SSA, FEC, DOE, HHS, VA, CIA, HUD, SA, SEC, FBI, DOJ and many others, have been charged, and found guilty, in these crimes against citizens.

In the Congressional investigation published by the United States Congress in review of the U.S. Department of Energy LGP/ATVM programs, it is clearly proven that the U.S. Department of Energy was used as a slush-fund by some DOE executives in order to pay off campaign financiers by attacking and sabotaging their competitors.

The DOE Paducah Gaseous Diffusion Plant under contracts with the Department of Energy and the government-owned U.S. Enrichment Corp paid \$5M whistle-blower awards to those whistle-blowers who were attacked, using government agency resources, for reporting a crime.

Dept. of Energy Hanford URS has agreed to settle a lawsuit brought by former employee Walter Tamosaitis for \$4.1 million. The settlement in the whistle-blower case comes almost one year before the case was set for a jury trial in federal court in Richland and compensates Tamosaitis for attacks against him, by DOE officials, in retribution for reporting a crime.

VA officials attacked hundreds of citizens who reported corruption, ie: <https://www.thenewamerican.com/usnews/health-care/item/18610-va-whistleblowers-facing-retribution>.

As shown in this report: <https://www.pogo.org/analysis/2018/08/new-report-confirms-whistleblower-retaliation-is-alive-and-well-at-department-of-veterans-affairs/>

, Agencies attack often and harshly.

CIA and NSA executives have been widely shown to use spy tools to attack domestic citizens they don't like, ie: <https://www.dailymail.co.uk/news/article-2435011/NSA-employees-used-phone-tapping-tools-spy-girlfriends-cheating-husbands.html>, and hundreds of other news links that can be provided.

Elon Musk and Tesla, as well as Eric Schmidt and Larry Page at Google, have been proven to use the CIA group: IN-Q-TEL, to run government sponsored/financed attacks on business competitors.

In Civil Action No. 1:13-cv-00777-RBW GOVERNMENT AGENCIES WERE CAUGHT BEING USED FOR ATTACKS AGAINST CITIZENS AND PUNISHED IN THE COURT AND THE MEDIA!

The IRS, and hordes of other government agencies have been caught and proven, IN COURT, to target and attack people for presumed political differences.

Why should we assume that the Social Security Administration is not ALSO doing this too to harm citizens who speak out?

The Lois Lerner IRS attacks took many years to resolve. In an unprecedented victorious conclusion to a four year-long legal battle against the IRS, the bureaucratic agency admitted in federal court that it wrongfully targeted citizens, during the Obama Administration, because of their political viewpoints and issued an apology to those people for doing so.

In addition, the IRS is consenting to a court order that would prohibit it from ever engaging in this form of unconstitutional discrimination in the future.

In a proposed Consent Order filed with the Court, the IRS has apologized for its treatment of U.S. citizens including organizations from 20 states that applied for 501(c)(3) and (c)(4) tax-exempt status with the IRS between 2009 and 2012 -- during the tax-exempt determinations process. Crucially, following years of denial by the IRS and blame-shifting by IRS officials, the agency now expressly admits that its treatment of our clients was wrong and a total violation of our Democracy..

As set forth in the proposed Order:

"The IRS admits that its treatment of Plaintiffs during the tax-exempt determinations process, including screening their applications based on their names or policy positions, subjecting those applications to heightened scrutiny and inordinate delays, and demanding of some Plaintiffs' information that TIGTA determined was unnecessary to the agency's determination of their tax-exempt status, was wrong. For such treatment, the IRS expresses its sincere apology."

Throughout litigation of this case, activists have remained committed to protecting the rights of the public who faced unlawful and discriminatory action by the IRS and other agencies. The objective from the very beginning has been to hold agencies accountable for corrupt practices.

This Consent Order represents a historic victory for the public and sends the unequivocal message that a government agency's targeting of citizens organizations, or any organization, on the basis of political viewpoints, will never be tolerated and that revenge will be swift and vast.

The Order will put an end, once and for all, to the abhorrent practices utilized against citizens, as the agreement includes the IRS's express acknowledgment of -- and apology for -- its wrongful treatment of the public. While this agreement is designed to prevent any such practices from occurring again, rest assured that all public interest lawyers will remain vigilant to ensure that the IRS, SSA, DOJ or SEC does not resort to such tactics in the future.

Per detailed reports, in March of 2012 lawyers began being contacted by literally dozens of citizens and groups who were being harassed by the Obama IRS after submitting applications for tax-exempt status. Their tax-exempt applications were held up for years (over seven years in some cases), and they began receiving obtrusive and unconstitutional requests for donor and member information. That began a now more than five and a half year fight with the burgeoning bureaucracy at the IRS. Then on May 10, 2013, Lois Lerner, the then head of the IRS Tax Exempt Organizations Division, publicly implicated the IRS in one of the worst political targeting scandals of the century.

This is an extraordinary victory against government agency abuse. It sends a powerful warning to the deep state bureaucracy that it will not be allowed to violate the Constitution in order to silence and shut down the whistle-blowers.

In addition to the IRS's admissions of and apology for its wrongful conduct, the Consent Order would specifically award Plaintiffs the following:

- A declaration by the Court that it is wrong to apply the United States tax code to any tax-exempt applicant or entity based solely on such entity's name, any lawful positions it espouses on any issues, or its associations or perceived associations with a particular political movement, position or viewpoint;

- A declaration by the Court that any action or inaction taken by the IRS must be applied evenhandedly and not based solely on a tax-exempt applicant or entity's name, political viewpoint, or associations or perceived associations with a particular political movement, position or viewpoint; and

- A declaration by the Court that discrimination on the basis of political viewpoint in administering the United States tax code violates fundamental First Amendment rights. Disparate treatment of taxpayers based solely on the taxpayers' names, any lawful positions the taxpayers espouse on any issues, or the taxpayers' associations or perceived associations with a particular political movement, position or viewpoint is unlawful.

In the Order, the IRS has also agreed that (unless expressly required by law) certain actions against the Plaintiffs-- i.e. the sharing, dissemination, or other use of information unnecessarily obtained by the IRS during the determinations process (such as donor names, the names of volunteers, political affiliations of an organization's officers, etc.)-- would be unlawful. In addition, the IRS promises not to take any retaliatory action against our clients for exposing the targeting scheme.

Finally, and of crucial significance, the IRS admits it targeted persons and groups based on their viewpoints (i.e., "policy positions") and that such viewpoint discrimination violates fundamental First Amendment rights. This is the first time the IRS has admitted that its targeting scheme was not just "inappropriate" -- as TIGTA found -- but, as alleged, blatantly unconstitutional.

To ensure consistency and uniformity within the agency's operations going forward, the IRS is required, pursuant to the Order, to inform all employees within the Exempt Organizations Division, as well as the Commissioners and Deputy Commissioners within other divisions, of the Order's terms.

This Order not only validates allegations about their treatment at the hands of the corrupt Obama-era IRS but also provides important assurances to the American public that the agency understands its obligation to refrain from further such discriminatory conduct. As Attorney General Sessions acknowledged in this regard, "[t]here is no excuse for [the IRS's] conduct," as it is "without question" that the First Amendment prohibits the conduct that occurred here, i.e., subjecting American citizens to disparate treatment "based solely on their viewpoint or ideology." Sessions further confirmed his Department's commitment to ensuring that the "abuse of power" in which the IRS engaged here "will not be tolerated."

It is impossible to overstate the importance of this victory. This marks a years-long fight for justice in defense of the constitutional rights of the public.

This is an extraordinary victory against abuse of power and corruption.

It sends a powerful warning to the deep state bureaucracy that it will not be allowed to violate the Constitution and manipulate the IRS, SSA and other agencies in order to silence and shut down those who speak out about political corruption crimes.

In the wake of Wisconsin Watchdog's investigation into SSA staff allegations of incompetence, misconduct, and retaliation in Social Security disability appeals offices, several employees have taken their complaints to a Senate committee led by Wisconsin Sen. Ron Johnson.

An official with knowledge of the complaints said the Senate Homeland Security and Governmental Affairs Committee, chaired by the Oshkosh Republican, has received emails and other contacts from "certain people" inside the Social Security Administration's Office of Disability Adjudication and Review.

The initial complaints came from an employee inside the Milwaukee office following Wisconsin Watchdog's opening investigative report that found some claimants waiting more than 1,000 days for an appeals decision on their disability benefits claim.

Following Wednesday's story of a whistleblower in the Madison ODAR office, the committee has received more specific complaints about retaliation against employees, the source said.

Committee staff members sent the latest Watchdog piece to SSA administrators hoping they will "cooperate," the source said. To date, the agency has been less than cooperative.

"This is an ongoing process, and they are not always as forthcoming as we'd like them to be," the source said. "Hopefully with your continued reporting, this is an issue they can't duck."

A Senate committee member said officials there are working with the Office of Special Counsel on "multiple whistleblower retaliation claims." The committee continues to request information from the SSA.

The whistleblower in the Madison office claims management retaliated against her after she was called to testify in a misconduct case. The incident involved "inappropriate behavior" by an administrative law judge, she said.

"They are so corrupt. It's absolutely horrible," said the woman, a lead case technician in the Madison Office of Disability Adjudication and Review.

She spoke on condition of anonymity, fearing more retribution from her supervisors. While she said recounting her particular experiences will more than likely betray her identity anyway, the ODAR case worker insisted she has had enough.

"I'm at a point where they don't care about me, I don't see why I'm protecting them. This is my last resort," she said. "I want to do my work without fear of retaliation."

She said she has contacted the Senate committee.

"I forwarded my information to them and I got an email back from them. They said people are coming out of the woodwork with their complaints (about ODAR) following your story," the whistle-blower said.

Ronald Klym, a long-time senior legal assistant in the Milwaukee ODAR office, alleges he has been retaliated against by supervisors for going public with his charges of incompetence and misconduct in the agency.

The federal employee, who has worked for SSA for 16 years, provided Wisconsin Watchdog with documents showing extremely long wait times for claimants appealing their denied applications for benefits.

Doug Nguyen, SSA regional spokesman, in a previous story said the agency acknowledges that Milwaukee ODAR has a "high average processing time for disability appeal hearings, and we are working to address the issue."

Beyond the delays is what Klym calls the "shell game," the wholesale transferring of cases to other parts of the country by administrators to make the Milwaukee office's numbers look better than they are.

The Madison office whistle-blower confirmed Klym's allegations, saying at one point she saw 2,000 cases from the Milwaukee office handed off to the Oak Brook operation.

There are over 10,000 SSA disability manipulation charges against SSA executives and staff...."

WHAT DOES THE FBI NEED TO INVESTIGATE AND REPORT TO THE PUBLIC ABOUT:

Ever since 2004, a group of insiders in Department of Energy programs have warned that at the very moment the United States will be ramping up electric vehicle development manufacturers will be running up against the weakest link in the supply chain — a shortage of battery materials combined with a scheme to put the few sources of battery materials under the monopoly control of Silicon Valley tech oligarchs who hate hydrogen fuel cells because they obsolete batteries. The financiers of Presidential political campaigns own and control all of the TRILLIONS of dollars of lithium and rare earth mining in the world. U.S. Energy Secretary's Jennifer Granholm and Steven Chu work for those tech oligarchs and own parts of their companies. They only shovel money to their friends. They hate the perfectly-operational fuel cell cars that Hyundai, Kia, Honda and Toyota sell because fuel cell cars don't explode and set their owners on fire, like Elon Musk's lithium batteries do. Fuel Cell cars can go wayyy further on less energy and they weigh a huge amount less.

Why it matters: The bottleneck puts the United States at a major disadvantage to China, which controls most of the world's battery minerals mining and processing.

- Without further action, the U.S. risks becoming as dependent on imported batteries as it was on foreign oil — or repeating mistakes of the past with solar panels or smartphones which are now made primarily overseas.

The big picture: [Amid tougher emissions regulations worldwide, automakers are racing to add more EVs to their lineup, while phasing out internal combustion engines.](#)

- Planned EV investments jumped 41% in the past year, to \$330 billion globally by 2025, according to AlixPartners.
- In the U.S., President Biden has made vehicle electrification a core element of his clean energy strategy.

Those EV goals are at risk, however, without a secure supply of advanced lithium ion batteries — and the raw materials like lithium, nickel, cobalt and graphite that go into them.

The state of play: The U.S. recently laid out a [national blueprint for lithium batteries](#), which aims to establish a secure supply chain for battery materials and technology by 2030 in ways which only benefit DNC insiders.

- "It will take a strategic investment by the federal government, in concert with industry, to stand up more domestic manufacturing capability," U.S. Rep. Mike Doyle (D-Penn.) said at the DOE roundtable.
- Compared to other countries which invest in manufacturing through public-private partnerships, "we are bringing a knife to a gun fight," said U.S. Energy Secretary Jennifer Granholm.

What's happening: The Energy Department said June 14 it would channel [\\$200 million in funding](#) over the next five years to U.S. national labs to support EV- and battery-related research.

- The DOE also said that battery projects can qualify to borrow from the \$17 billion available under the Advanced Technology Vehicle Manufacturing loan program, created during the Obama era.

A lawsuit filed by Louisiana shows that an obscure nonprofit organization operated as part of a larger nonprofit founded and largely funded by Silicon Valley billionaire Pierre Omidyar attempted to manipulate local election officials to apply for grants from the Mark Zuckerberg-funded Center for Technology and Civic Life (CTCL) where those officials were "hard wired" to get the money as bribes to put DNC candidates in office who would funnel taxpayer cash back to tech billionaires in Silicon Valley.

They [filed](#) the lawsuit on behalf of the State of Louisiana against CTCL, New Venture Fund DBA Center for Secure and Modern Elections, Dawn Maisel Cole, a private individual; and Full Circle Strategies LLC, "to prevent the injection of unregulated private money into the Louisiana election system." But these Silicon Valley oligarchs are doing this in every state, organized by David Plouffe, Steve Westly, Steve Spinner, John Podesta and related parties.

The lawsuit [alleged](#):

- The New Venture Fund, operating in Louisiana under the trade name Center for Secure and Modern Elections (CSME), partnered with CTCL to solicit applications and information from Louisiana officials in connection with proposed grants [from CTCL as part of the \$350 million in grants made nationwide in the 2020 election].
- CTCL and CSME worked their grant scheme in the State of Louisiana through a lobbyist by the name of Dawn Maisel Cole, owner and operator of Full Circle Strategies, LLC, as their Louisiana representative and agent to target registrars of voters, clerks of court, and local election officials.
- The scheme targeted 13 parishes, some to receive contributions of more than \$500,000, accompanied by a request for detailed information about the operations, conduct and expenses of the registrars/clerk's office.
- Ms. Cole directly solicited registrars and clerks of courts to accept contributions from CTCL and New Venture Fund for the operation of their respective offices.

These practices were prohibited, the lawsuit argued, because: ...private contributions to local election officials are unlawful and contrary to the methods for election funding established by law in the State of Louisiana, and such contributions by these defendants should be declared illegal and permanently enjoined.

The lawsuit was significant in part because it highlighted the role an obscure organization called the [Center for Secure and Modern Elections](#), which describes itself as a "[fiscally sponsored project of the New Venture Fund](#)," played in advancing the efforts of the Mark Zuckerberg-funded CTCL in privately funding the administration of the 2020 election.

[The New Venture Fund](#), in turn, is part of Democracy Fund, [whose website says](#) it is "an independent and nonpartisan, private foundation that confronts deep-rooted challenges in American democracy while defending against new threats."

[Pierre Omidyar](#), a Silicon Valley billionaire who founded Ebay, also [founded and financially backs](#) Democracy Fund:

Democracy Fund has committed more than \$150 million to support a healthy democracy. Established by philanthropist and eBay founder Pierre Omidyar in 2011 and incubated inside Omidyar Network, Democracy Fund launched as an independent foundation in July 2014 and is a part of The Omidyar Group.

Civitas, a well connected public affairs firm founded and staffed by Democrat activists, [counts CSME among its clients](#), but its website is unclear what services it provides the group.

According to the Form 990 Democracy Fund filed for 2019, the organization provided a [\\$275,000 grant](#) to CTCL that year.

As was [reported](#):

Private funding of election administration was virtually unknown in the American political system until the 2020 presidential election, when Facebook CEO and founder Mark Zuckerberg and his wife Priscilla Chan donated \$350 million to the Center for Technology and Civic Life (CTCL), which provided funding to county and municipal governments around the country for election administration, and \$69 million to the Center for Election Innovation and Research (CEIR), which provided funding to 23 state governments, primarily through the Secretary of State's office, also for the funding of election administration.

In late October, a Louisiana judge ruled against Landry and in favor of the defendants, as The Advocate [reported](#):

Judge Lewis Pitman, of the 16th Judicial District in St. Martin Parish, ruled against Landry in the lawsuit last week. Landry said in an interview he would appeal the ruling. . . In Louisiana, the clerks of court and registrars of voters had applied for around \$7.8 million [in CTCL grant money], which the local officials said they would use to help pay for additional costs brought on by the pandemic. That includes equipment, personal protective gear and wages for election workers staffing early voting sites for longer hours. The local officials have since backed off the grant money and won't be tapping into the funds before the Nov. 3 election. Early voting is already underway.

[According](#) to the CTCL website, not a single Louisiana parish or city ended up with funding from CTCL in the November 2020 election.

But the previously obscured relationship between CTCL and CSME highlighted in the October 2020 lawsuit by Louisiana Attorney General Landry suggests that the relationship between these two groups may have extended to many states beyond Louisiana.

The two groups, for instance, [delivered a joint presentation](#) on election administration issues in January 2019. Scott Seeborg, the CSME contact in that January 2019 presentation, was hired in April 2020 as the [Pennsylvania State Director for All Voting is Local](#), a non-profit whose mission statement says, "We fight to dismantle barriers to the ballot well before the next election, so that every voter can cast a ballot that counts."

According to its [website](#), "All Voting is Local Action is a campaign of The Leadership Conference on Civil and Human Rights. We fight for the right to vote in eight states with distinct assaults on the right to vote."

[Those eight states](#) are Georgia, Arizona, Florida, Pennsylvania, Ohio, Wisconsin, Nevada, and Michigan.

The Leadership Conference on Civil and Human Rights website [states](#):

The Leadership Conference's founders came together in 1950 out of the belief that the fight for civil rights could not be won by one group alone, but needed to be waged in coalition.

Our members — which have grown from 30 civil and human rights organizations at our founding to more than 200 today — differ in size, scope, and structure. But what transcends our differences and unites The Leadership Conference coalition is our enduring common purpose: full equality for all.

That common purpose gave our leaders the wisdom to see that civil rights are women's rights and LGBTQ rights and immigrant rights and workers' rights and disability rights and human rights. That common purpose is our coalition's inheritance. It is a living legacy that binds us together — in cause and community.

[According to the website](#) of the Leadership Conference Education Fund, "All Voting Is Local [is] housed within Access Democracy, an incubated project of The Leadership Conference Education Fund, [and] fights to protect and expand the right to vote for every American."

Investigators will explore the relationship between CTCL, CSME, All Voting is Local and the Silicon Valley Cartel's national election manipulations.

[Tesla And Lying Elon Musk Asked Chinese Government To Help Censor Social Media Posts Critical Of Musk](#)

We have been tracking Elon Musk's fading relationship with the Chinese Communist Party for the better part of the last 18 months. And while we can barely guess what the temperature of the ever-changing relationship is today, one thing seems to be certain: Musk and the Chinese government are growing closer.

And for proof of that, look no further than a new [Bloomberg Businessweek article](#) profiling Elon Musk's struggles in China. While the content of the article isn't entirely new - our readers are likely very familiar with the story - one portion of the report was stunning: Musk, in true CCP form, reportedly asked the Chinese government to censor the company's critics.

In speaking about how Tesla is trying to create relationships with journalists in China, Bloomberg buried the lede in dropping this bomb:

Previously focused on state-run media, Tesla is now trying to build relationships with auto-industry publications and influencers on platforms such as Weibo and WeChat, for example by inviting them on factory tours, and conducting group "discussion sessions" with policymakers, consumers, and media outlets. According to people familiar with the matter, it's also complained to the government over what it sees as unwarranted attacks on social media, and asked Beijing to use its censorship powers to block some of the posts.

It appears to be more proof positive not only that Musk is working closely with the CCP, but also that Musk may be adopting their tactics for "holding the narrative together".

Recall, we were first, with the help of well-known short seller Montana Skeptic [to ask in April of 2020](#) whether or not Musk risked becoming a Chinese asset, due to how much of a necessity China was becoming to Tesla's business operations.

Things were mostly quiet until the beginning of 2021, when in January, [Musk called](#) the Chinese government "more responsible" to its citizens than the U.S. government. In March we noted how Musk continued to [kiss the ass](#) of the CCP, singing the praises of the country and its government.

Then, in April 2021, a spat emerged between Musk and the CCP, supposedly [after a protestor](#) at the Shanghai Auto Show in April "went viral" after standing on top of a Tesla vehicle and decrying the car's brakes. This led to [intense shaming](#) by Chinese media, who called Tesla's handling of the situation a "blunder" and suggested it could "inflict serious damage" on Tesla with the Chinese market.

Since then, we noted that the Chinese government [still didn't seem amused](#) by Musk until May of this year, when Musk made a public about-face on Bitcoin and was [then immediately praised](#) by China's state owned Global Times. In fact, the Global Times then [published a piece](#) stating that "work at Tesla's Shanghai Gigafactory is going smoothly," just days after it was reported that Tesla was halting its expansion in China, seen as key to its plans to export from its Asia headquarters.

As of July, deliveries in China have picked back up and Musk is back to his old self, praising China, even in response to Chinese state-owned media:

In case anyone was wondering who is pulling the strings: <https://t.co/9WAAkw1PA>

— Quoth the Raven (@QTRResearch) July 1, 2021

Recall, our initial April 2020 [report](#) on China and Musk referenced Montana Skeptic's blog called "Tesla's Transformation Into A Chinese Company Seems Unstoppable", which sought to critically examine why the company's Shanghai factory could be a negative for Tesla, how Tesla's China operation could ultimately compete with Fremont and what the Chinese may ultimately gain from having Musk as an ally.

The article first addressed the questions of:

- Who calls the shots at Tesla Shanghai?
- What are the interests of the Chinese leadership?
- Whom does the Shanghai factory actually benefit?
- How will Shanghai affect Tesla's operations elsewhere?
- When will Tesla's security filings reflect the economic reality?

And now it looks like the mainstream media is getting around to asking these very same questions. We can't wait for the answers...

[Nancy And Paul Pelosi Making Millions In Crooked Payola Stock Trades In Companies She Actively Regulates - Stock Tips As Bribes](#)

BIG TECH'S ORGANIZED POLITICAL CORRUPTION OPERATION

Most politicians, today, go into politics in order to scam money via bribes and payola. Their corruption is easy to prove with a simple spread-sheet, but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet. If you saw the spread-sheet that shows all of the covert family bank accounts, fake trust funds, shell companies and stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you could easily see how they only get a salary of \$190K per year but put hundreds of millions of dirty dollars in their accounts. That [Dark Money](#) all traces back to special interest groups that tell them what laws to make and what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day....BUT, These Senators have "rules" that delay investigations against themselves. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate!

[The 2008 and 2021 "Stimulus Funds"](#) were just scams cooked up by politicians for them to skim stock market pump-and-dump profits off of and grab personal payola.

As an analogy: If you wanted to plan one of the largest crimes in history, you could use street 'Stop Signs', for example.

You know that the government pays for all of the stop signs. You could have your friends buy all of the stop sign pole factories, stop sign bolt factories and red reflective paint factories in advance. You then bribe your politicians and fake news outlets to proclaim that there is a global crisis of people running stop signs and killing school children. You manufacture this "stop sign running crisis" that will "kill all of the children within 15 years" if we don't stop it. You claim that the stop sign running is "man made" and caused by your political opponents because they make whiskey and that causes stop sign running. You get your politicians to create a giant "stimulus" that ends up almost exclusively giving all of the stimulus money to you and your corrupt cronies who own all of the stop sign pole factories, stop sign bolt factories and red reflective paint factories.

The people who make yellow warning lights and other traffic control devices are cut-out of all those funds because they are competitors to the insiders who own all of the stop sign pole factories, stop sign bolt factories and red reflective paint factories.

In the pretend "stimulus" the government treasury funds are used to payola your friends monopolies and cut all of their competitors. If you had done these "stimulus scams" in 2008 and 2021 and evaded paying taxes like Elon Musk did....you would have pulled off a trillion dollar crime with you and your friends.

In actuality, when federal and private investigators traced the instigators and beneficiaries of some other notorious "crisis" things: they and their politicians turned out to all be the exact same handful of people who owned all of the exclusive "solutions" to the [manufactured "crisis"](#).

[The Silicon Valley Cartel](#) began in California. Elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies. When they graduate they either go up the hill to Sandhill Road in Palo Alto and start an insider venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds.

They only work with their frat buddies and insiders in a tribal '[old boys club](#)' manner. They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snott-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption. They then sexually extort some Stanford interns in [Rosewood Hotel](#) rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and "Bro-Crime".

In all these corruption cases, [these corrupt people](#) took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading (notice that most of these crooks marry an investment banker to run their dirty schemes) and 3.) getting government contracts, loans and grants for their friends that they get kick-backs from. They then had their dirty law firms and CPA's shove the money into their standardized covert financial structure to hide it. They use family members to run the operation. Their dirty family members and lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc.

The 2008 and 2021 "[stimulus funds](#)" are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing (FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians and their billionaires. the cover-ups are off-the-charts! these mobsters (Google, Tesla, Facebook, LinkedIn, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (...via cash, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice and blockade our, and your, rights! There can be no question about the fact that Google, Facebook, Netflix, Tesla and the Silicon Valley Cartel control the Obama and Biden White House. For example: Elon Musk ordered the politicians who are his bitches to sabotage his competitors. He gave those political insiders: cash, stock in his cartel, revolving-door jobs, campaign funding, sex workers, off-shore money laundering, and other quid pro quo. Eric Schmidt, Larry Page, Mark Zuckerberg, and the rest of the tech mob, all worked together on these crimes.

[The hacks and leaks of their documents](#) prove it. Government agency bosses are covering up these crimes to protect their jobs and their corrupt stock market holdings. Musk and Goldman Sachs have gotten over FIFTEEN BILLION DOLLARS of free taxpayer cash and monopolized exclusives to pay for [Musk's drugs, sex parties and mansions](#). This is one of the largest violations of anti-trust laws in history. The politicians and agencies that are supposed to stop him are getting money from him. [Musk](#) exists entirely from quid pro quo bribes! Musk's banks, including Deutsche Bank, have had to pay more than \$100 million to settle charges related to violating anti-bribery laws and engaging in money laundering. While the Musk-controlled media bloviates on the god-like image of Musk, he and his buddies are just crooks and mobsters. It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk and his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists and bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) and Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave [Musk](#) over \$15B of free taxpayer money, 7.) get campaign financing from [Musk](#), 8.) order government agencies to freeze funding for [Musk's](#) competitors, 9.) and engage in a vast number of other corruption and anti-trust crimes.

U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out

NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, and their families, from owning ANY stock market stocks or securities!

LITHIUM AND RARE EARTH CORRUPT CHILD LABOR MINES FOR ELON MUSK'S DEADLY BATTERIES

Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. Lithium-ion batteries, which also require mining rare earth metals, are difficult and dangerous to recycle, difficult to dispose of without polluting the environment and it takes about 67,000 cubic feet of water to mine a tonne of lithium salt. The carbon costs of producing lithium-ion batteries from mining to shipping to manufacturing the final product compared to that of fuel cells is awful. The lifetime costs of replacing and recycling Li-ion Batteries periodically versus maintaining Fuel cell systems is also awful..

NICAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. Evan Halper, Elon Musk and their cronys, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt.

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one.

Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "assassins". It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

Most lithium mining comes with an environmental cost, and a major new Nevada project has drawn lawsuits from environmental groups.

These are the "Khaki Pants Mobsters Of Palo Alto"! The "Silicon Valley Mafia" is comprised of The Sand Hill Road venture-capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) facade (Greylock Capital; Kleiner Perkins Caufield & Byers, Draper, Khosla Ventures, etc.) and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) that they control.

They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control and who own stock in their operations. They hire dirty law firms like MoFo, Wilson Sonsini, Covington, Perkins, etc. and dirty lobbyists like McBee, Podesta, Blumenthal, etc. to do their dirty deeds.

They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America Foundation, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders.

They collude with black-lists, valuation payola, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, Jeffrey Epstein-like executive prostitute sex-trafficking clubs, trophy wife trades, the bribery of politicians and worse. They are felons who bribe politicians to halt investigations and interdiction efforts.

They have quid-pro-quo stock market bribe deals with Senators Reid, Feinstein, Harris, Boxer, Spier, etc. In the CleanTech Crash: Every single Dept of Energy executive, and related Senator, owns stock market assets in Tesla, Fisker, Solyndra, Ener1, etc. so they blockaded and sabotaged every applicant who competed with their holdings in a RICO-violating, felony organized crime, using taxpayer funds, in order to profit at the expense of taxpayers.

They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis practitioners, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves' and other anti-social revelations. The divorce court and lawsuit federal court records on them prove that they are sex-abusing sociopaths.

They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

Some of the top crooks and bribe-payers include: Google's Larry Page, his boyfriend Elon Musk; Google's Eric Schmidt, Andy Rubin, David Drummond, Kent Walker, Jared Cohen and Sergy Brin; Political manipulators David Plouffe, Steve Westly, Steve Spinner and Vinod Khosla; Sociopath billionaires Reid Hoffman, Richard Blum, Jeff Epstein, Tim Draper, Steve Jurvetson, etc.

They order their staff and associates to: bribe politicians; operate sex trafficking for them; manipulate stock market valuations; launder money; run off-shore tax evasion schemes; black-list employees and competitors; hide, down-rank, DNS dead-hole, shadow-ban, censor and server obfuscate enemies on the entire web; rig the U.S. Patent Office; help them cheat on their wives; and engage in massive volumes of insider, illicit, RICO and anti-trust violating crimes while bribing public officials to avoid prosecution.

THE SCAMS OF ELON MUSK AND TESLA MOTORS

The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed. Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources! We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects. Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded.

Now the damages must be paid for, one way, or another. Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! In this whole mess. Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to. Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing.

If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try. Lithium metals, and other rare earth [mining](#) materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in [rare-earth corrupt mining scams](#). [Lithium's widespread](#) use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up.

The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds. Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors. He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, starlets and sex parties. His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions. Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips.

GOOGLE'S ABUSES OF THE PUBLIC AND OF DEMOCRACY

Google exists to mass manipulate populations and run stock market scams for Google's owners. From INSIDE Google, our team saw Google manipulate the entire internet to hype up Larry Page's "boyfriend": Elon Musk and Tesla, which Google execs owned a portion of, while sabotaging Tesla's competitors. Google illicitly and illegally timed these manipulations with stock market pump-and-dump efforts to exploit insider trading. That is a felony violation of RICO, Antitrust and other laws. Every single thing that Google does is contrived to harm a competitor, a politician, an employee whistle-blower or some other business adversary. There are no "bugs", "operator errors", "server anomalies" or other media "accidents" at Google. Everything Google does is contrived, at a psychological warfare kind of level, to change a social perception. Google must show its software to FBI, SEC, FTC and our search engine optimisation experts to prove that they did not engage in these crimes. The fact is: We can prove they did the crimes and FBI experts can help us prove it! Google is known as the "Nazi's of the Internet". In a case unfolding in Britain over whether Google wrongly demoted price comparison rival Foundem from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws. The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking. Google is a criminal operation.

It's executives have been publicly exposed as participants in horrific sex scandals, money laundering, political bribery and racism. It is time for the bought and paid shill politicians to stop protecting them! - Google spies on competitors and steals their technology - Google runs tens of millions of dollars of defamation attacks against competitors - Google hides all media and news coverage for competitors of Larry Page's boyfriend: Elon Musk - Google lies to the public about what they really do with the public's data - Google promotes illegal immigration in order to get cheap labor and control votes - Google runs VC funding back-lists against start-ups that are competitive - Google bribes thousands of politicians - Google is a criminal RICO-violating monopoly - Google rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks - Google pays bribes to politicians in Google and YouTube stock - Google manipulates who gets to see what web-sites, globally, for competitor black-lists - Google has a "no poaching" Silicon Valley jobs blacklist - Google bosses sexually abuse women and young boys - Google bosses run sex trafficking operations in the Epstein and NXIVM cults - Google bosses control the NVCA financing cartel over start-ups - Google has placed the majority of the corporate staff in at least one White House - Google controls national elections for anti-competitive purposes - The company "Polyhop", in the HOUSE OF CARDS tv show, does all the crimes that Google actually does in reality - Google's law firms, like Wilson Sonsini, are corrupt conduits for payola and political conduit-relays - Google bribes some politicians with revolving door jobs - Google is primarily responsible for destroying the Bay Area Housing opportunities.

Google runs DDoS attacks on competitors by massively crawling their sites - Google boss Andy Rubin runs a sex slave farm according to his own family - Google boss Eric Schmidt was a philandering sex-penthouse owner according to vast news articles - Google executives hire so many hookers that one of them, Mr. Hayes, was killed by his hooker - Google executives sexually abuse so many women that the women staff of Google walked out one day - In the 2009 White House, you could not swing a cat without hitting a Google insider - Google has paid covert bribes, PAC funds, real estate and search rigging payola to every CA Senator - Google has paid bribes, through its lobby fronts, to halt FBI, SEC, FEC and FTC investigations of Google crimes - Google was funded by the CIA, via In-Q-Tel, a so called "501 c3 charity" which was caught with tons of cocaine - Google gets millions of dollars of taxpayer cash for spying on Americans inside the USA - Google's map service was a spy system paid for by taxpayers money that Google now profits off of - Nancy Pelosi and Dianne Feinstein have promised to "protect" Google because their families profit off Google stocks.

Payment receipts prove that Google and Gawker/Gizmodo exchanged cash and staff for Character Assassination attacks - Google VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Google and harm Google competitors - Google bribed it's lawyer into position as head of the U.S. Patent office in order to have her protect Google - To rig insider stock trades, Google hides negative Tesla stories and pumps positive Tesla stories on "push days" - Google and Elon Musk Co-own, co-invest and co-market stocks covertly while running anti-trust schemes - Google rarely likes, or hires, black employees per federal and news media investigations - Google hired most of the Washington, DC K Street lobby firms and told them to "do what ever they could" - The film: "Miss Sloane" depicts only 2% of the illicit lobbying tactics Google employs daily - Demands for an FTC and FBI raid of Google, for criminal activity, securities law and election felonies have been filed - Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds.

Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution. At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so emmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Google executives came from most of the fraternity houses involved in the college rape scandals. Google sells covert character assassination services to politicians and fellow oligarchs. Youtube/Google/Alphabet/Deep State are all the same entity. They conspire to hide news about their corruption and they control most of the internet.

THE TECH CARTEL

The Silicon Valley tech Cartel (AKA: "Paypal Mafia", "Deep State") is evil because these racist, ageist, sex-trafficking, money-laundering, elitist, politician bribing, tax evaders: steal any technology they desire; they manufactured the CLEANTECH CRASH as shown in the 60 MINUTES episode of the same name; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are "rape culture" take-what-they-want misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI & SEC investigations; They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times; They have bought up all of the Tier-One tech law firms and order them to black-list, and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws.

Silicon Valley has become the largest assemblage of douche-bags and yuppie frat boy criminals in human history. Theranos is not the exception, it is the standard. Tesla, Google, Theranos, Wework, Facebook are lies backed by famous political insiders to protect their insider trading and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors. When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI! The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy! When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, via corruption, then it is impossible for that Senator to ever do anything but be corrupt! We have reported this in writing to winklern@sec.gov, sanfrancisco@sec.gov and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is? Take a look at how many TRILLIONS of dollars pass through the stock markets annually and then look at the reported, AND UNREPORTED, securities holdings of famous U.S. Senators and government agency staff. That is what Seth Rich and the people in the "In Memory Of" section, below, were disclosing.

These are massive crimes! The perpetrators operate a massive and abusive [n Nancy And Paul Pelosi Making Millions In Stock Trades In Companies She Actively Regulates](#) national sex cult. The pervers in the Sandhill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and Ed Buck sex scandals are well known. These men's sex cult actions have been widely covered in the news individually in the Joe Lonsdale rape case, The Kleiner Perkins Ellen Pao sex abuse lawsuit, The Eric Schmidt sex penthouse stories, The Jeffrey Epstein case, The Google Forrest Hayes hooker murder case, The Andy Rubin sex slave case, The Sergey Brin 3-way sex romp scandal, The British Hydrant investigation, The Elon Musk Steve Juvetson billionaire sex parties scandals, The NXIVM sexual slave cases, The Michael Goguen anal sex slave trial, The Tom Perkins Hooker Parties and thousands of other cases and federal divorce court filings. This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. The Elon Musk sex perversions are the tip of the iceberg.

At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members. Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. Google's Eric Schmidt is under massive investigation. You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: Eric Schneiderman and Eliot Spitzer, are involved this these sex rings. These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses! All Silicon Valley tech cartel media companies work together to censor all news and information in order to hide coverage of their dirty deeds and to only put politicians in office that will give the Cartel political payola, kick-backs and insider stock pumps.

The Smedley Butler "Business Plot" from the past is not unlike the coup that Google and clan tried. See details in Emily Chang's book: BROTOPIA; Roan Farrow's book: CATCH & KILL; Edward Snowden's Book: PERMANENT RECORD; Peter Schwetzer's book: THROW THEM ALL OUT; Dave Eggers book: THE CIRCLE; Franklin Foer's book: WORLD WITHOUT MIND; Corey Pein's book: JOURNEY INTO THE SAVAGE HEART OF SILICON VALLEY; Dan Lyon's book: DISRUPTED; Antonio Martinez book: CHAOS MONKEYS. The Angelgate, Epstein, No-Poaching DOJ Class Action, and hundreds of other cases, prove that they meet, conspire, collude and blacklist in felony violation of anti-trust and RICO Racketeering laws. - 90% of these guys came from 100% of the fraternity houses involved in the recent college rape cases.

THE HIRED CHARACTER ASSASSINS AND KILLING THE WHISTLE-BLOWERS

POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS - How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers. - How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history? - In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways. - It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: Candiru (DNC); IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossaad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Undercover Global Ltd (DNC/GOP) Traffor - (DNC/GOP); ShareBlue - (DNC); WikiLeaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal - (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC); Buzzfeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real

estate in exchange for destroying the lives of others. - These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! - These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions. - In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth. - This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated. - The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press. - Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University."

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation. - Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls "SPYGATE". - It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG] shall immediately transmit under seal to the court [FISC] a copy of his certification.") - In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC. - This is what they are hiding. - However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) if indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified? - These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: - Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.-

Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash. - Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups. - Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again. - FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony.

The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required. - Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures. - Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target.

These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility. - Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". - In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him".

Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds. - Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject. - Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare. - Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments. - Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth.

The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will "Fair Use", SLAPP Protections, Public Domain, Freedom-of-the-Press, Creative Commons, Reddit/Voat/Wiki, First Amendment, EU GDPR, Wikipedia and other protective rights apply.

get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life.

Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you. - McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment. - [Obama Administration](#) targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal. - There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders".

A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and hit-job attacks on third parties.

Whistle-blowers reporting this corruption have adopted a Silicon Valley "Insurance Policy". If attacked or harmed again, the victims will use 100% legal eye-for-an-eye tactics on a scale so massive it will be recorded in history books. If you look at A.) their United States Federal Patent awards (proving they think of new technologies first) and B.) the news coverage of what exotic technological aerospace, internet, media and other things they have built in the past and, C.) the well known technologists that they work with, and, D.) the headline-making federal investigations and lawsuits that they have launched you will see that: 1.) They can produce technological developments that nobody has seen before and that affect millions of users. 2.) They can out-create most any government official. 3.) You can't imagine what they can build or have already built. 4.) Even if they are killed, the thing they deploy will still self-function autonomously. This will all be done using things that are currently totally legal and massively effective. ie: Don't kill the messengers and they won't shame you into oblivion! 'Fair Use', SLAPP Protections, Public Domain, Freedom-of-the-Press, Creative Commons, Reddit/Voat Wiki, First Amendment, EU GDPR, WikiPedia and other protective rights apply in this reporting.

YOU can end the housing crisis!

INVESTIGATING THE CULPRITS

The housing crisis has been created by special interest groups including: 1.) Big corporate real estate broker lobbyists (Sotheby, Better Homes Realty, CBRE, Coldwell Banker, etc.); 2.) big corporate developers (K&B, Pulte, Blackrock, Vanguard, Berkshire Hathaway, etc.); 3.) NIMBY's and 4.) certain exclusionist tech billionaires want to NEVER allow affordable housing and affordable pre-fab builders to exist. Almost every politician, especially county planning staff, are paid bribes by real estate broker lobbies and big corporate developers. Tracking the stock market assets of the politicians and their families clearly shows the bribes.

We used FBI, CIA, FINCEN-type AI-based forensic tracking software and looked at the heads of all of the housing agencies and housing decision "research" groups, particularly in California and New York State. 98% of those people do not make the majority of their money from their salaries, THEY MAKE IT FROM INSIDER STOCK MARKET PERKS and special gifts tied back to the special interests. Why are the real FBI not arresting them? You will have to ask The Director of the FBI that question. You can talk to the folks that run the sites at: (<http://www.pogo.org>), (<http://www.sunlightfoundation.com>), (<http://followthemoney.org>), (<http://icij.org>), and thousands of other investigative groups and prove it for yourself! Why is the public not demanding that stock market ownership by politicians and their families be made illegal? Because Goldman Sachs controls public policy more than you do?

In other words, the politicians that are supposed to be helping you are accepting bribes to hurt you!

EASY SOLUTIONS TO THE CRISIS ARE BEING BLOCKADED

In San Mateo County, the housing agency does even fill out the forms to apply to the State for housing funds any more. Even though, in 2021, the State has nearly \$100B to give away to housing, San Mateo has so many rich oligarchs living there that poor and middle class housing is too much of a bother for them.

Dwell Magazine-type modern low-cost prefab homes, CREATED in California, are blockaded by these special interest groups. Clayton Homes, BluHomes (now killed off by special interests), Factory OS, Homes Direct and hundreds of other California companies make off-site manufactured homes that are nicer looking, 50% lower cost, safer, faster to erect, more energy efficient and better than site-built homes. The real estate and union lobbies have gotten them banned in most counties because they are jealous of them. Powerful anti-trust law violating real estate and union lobbies got the zoning codes changed to make off-site manufactured homes hard to get permits for. If you want the best home at the best price, sue your county to demand home equality and construction-justice.

Ensuring that our County has sufficient affordable housing for its residents is an urgent challenge. Off-site construction serves as the most promising tool to reduce costs and increase supply, but one whose full potential cannot be realized or optimized without thoughtful and intentional changes in the policy, process, and programs that support affordable housing in the County.

Across all stakeholder groups, you always found a shared desire and passion to address the monumental housing shortage, as well as a collective understanding of the collaboration needed to make modular one part of the solution. As one interviewee put it: "Everyone wants everyone else to succeed."

While modular may not be a panacea, nor the only innovation needed, the County must take advantage of this opportunity to catalyze innovation in off-site construction methods and remove unnecessary anti-trust-violating barriers to its adoption created by special interest groups.

Many counties just pay lip-service, window-dressing, pretend-we-are-doing-something time to housing because their officials are paid by big business lobbies who HATE affordable housing because it competes with them.

Over a million Californians get \$1500.00 from HUD Section 8 and related programs but they are blockaded by lobbying from these special interest groups from using those funds to buy a home. The HUD Section 8 Home Ownership program in California is a sham. Nobody can find the paperwork, get the help or get the counties to pay attention when they apply.

So there is this massively financed army of mega-powerful anti-housing people who have huge law firms working to stop all of your good deeds and manipulate all of your politicians and social service agencies.

HOW TO WIN THE BATTLE

As California enters what Sacramento calls: "the worst housing crisis in 100 years!", one must look at the big picture. The U.S. housing market is 4 million single-family homes short of what is needed to meet the country's demand, according to a new analysis by mortgage-finance company Freddie Mac. The estimate represents a 52% rise in the nation's home shortage compared with 2018, the first time Freddie Mac quantified the shortfall because states like California have made home-building practically a crime.

Thousands of modern Dwell magazine-type pre-fab home suppliers can deliver amazing modern homes for around \$150K but they are stonewalled, delayed and forced to double or triple those costs because of anti-building rules promoted by California and now mirrored nationally by greedy politicians. Greedy politicians take bribes from real estate lobbies and big developer corporations who HATE affordable homes because they don't make much profit on them.

One approach is to break-up and sue ALL of the real estate broker lobbies and big development corporations. You can sue them and their political lap dogs under RICO and anti-trust laws. Politicians receive bribes from the anti-housing bad guys as: cash, search engine rigging, hookers, dinners and via hundreds of other forms of payola and stock market trades. You would think that using legal tactic to take them all down would be a slam dunk. It isn't. Those politicians control whether or not those legal actions can get launched. So you have to be very creative to counter-measure them. For example, you can shame them into submission using the internet's mass media technologies.

Farmers and Colleges, especially, have tons of extra land. Farmers are losing money on agriculture and could make far more money selling their land for housing. Stanford University is in so much trouble for bribery, sex abuse, mysogyny, politics and other scandals that the State can justify taking back the Stanford campus to build housing on.

If the State of California was serious about solving the housing crisis it would support a SIMPLE program for the hundreds of thousands of renters, who get \$1600.00 a month, forever, from HUD for tiny rental apartments, to EASILY use that money for mortgage to build, or buy, a small home.

By law, there is SUPPOSED to be such a program: The HUD Section 8 Home Ownership Program, is supposed to allow this to happen, but it is shadow-banned across the state. Most county officials don't even know how it works or direct inquiries to dead-ends. The HUD Section 8 Home Ownership Program must be easier to get into, easier to find out about and no longer HIDDEN by County officials.

Don't believe it? Do a test yourself. Call the Housing agency office in each of California's 58 counties. When someone pick's up the phone say: "I am HUD-qualified for the HUD Section 8 Home Ownership Program. I would like to use the program to buy or build a home in your county. What do I need to do to complete the process?". Then experience a hell beyond anything you can imagine. You won't get in, most likely, and it won't be your fault.

You will be kept out. This is a federal law. It is your right to use this law. If you already get HUD money to underwrite your rent, you are per-qualified to use this program. Santa Cruz, Marin, San Francisco and other snooty counties will try to stop you because using it means you might not be white enough for their vision of high tax revenue home owners. You might be a deplorable if you use your federal \$1500.00 for an actual home. The average mortgage payment in America is \$940.00 per month to own a home. HUD pays an average of \$1500.00 per month to your landlord. Do the math! These people will build free home inventory for California, die, and leave that inventory in California. Why won't California help them to help solve California's housing inventory crisis?

A person building their own home is going to make sure it is done right if they are going to live in it. Build-your-own-home singular home-builders can contribute to the home inventory problem faster and more cost-effectively.

Marcia Fudge at HUD said the Biden administration plans to level the playing field for Americans who want to buy a home by providing down payment assistance for people to move from public housing to home-ownership. "We will make sure those who can afford a mortgage are put in a position to be able to buy a home," Fudge said. "Right now we have banks who don't want to lend to people to buy a home for less than \$50,000" — homes, she said, that "poor people" can afford, with monthly mortgage payments often lower than rent.

THE FAKE INFLATED COST OF A HOME

San Francisco built brand new homes across from the Police HQ in San Francisco and these small prefab units ended up costing hundreds of thousands of dollars per unit: They cost twice as much as the same unit in Austin, Texas would cost to build. Why are cities spending the same per apartment for homeless people that you can build a 1600 sq. ft. stand-alone single family modular home for???? The answer is: Cronyism. They could have cost much less but the process tripled their cost in California.

California spends an average of \$800,000.00 to build each "low income apartment" for low income people. That is what the government pays for each unit. If you are not aware of how much things actually cost, and you are willing to pay all of the mark-ups and inflated numbers of retail prices then your average cost to build a 2,600 sq.ft. single-family home in the U.S. ranges from \$240,000 to \$710,000, with most homeowners spending around \$423,800 for the job.

The high cost is \$1,000,000+ for a 2,600 sq.ft. custom-built home with high-end materials, three-car garage, covered deck, and landscaping. That million dollar+ price is for the yuppie people who pay \$150.00 per month for the same tv channels that smart people get for \$10.00 per month. BUT!...The build-it-yourself cost for this is \$140,000 for a 2,600 sq.ft. builder-grade home with no changes. Every time you change even the tiniest thing in your construction plan, add \$10,000.00, or more, to your cost.

Most people only ACTUALLY need a 1,200 sq. ft. home but they can't let go of the "mine-is-bigger-than-yours" syndrome. That build-it-yourself modular/prefab home at 1,200 sq. ft. can be under \$100,000.00 if you are an EDUCATED general supervising contractor who hires a licensed, top-references, electrician, carpenter and plumber to build it with them. If you build-it-yourself without hiring those seasoned specialists, your project will usually fail. Homes only cost a million dollars if you are a sucker.

2 bedroom stand-alone homes can be built for \$100,000.00 in costs. Realtors, builders, developers and politicians will LIE all day long to keep this fact from being exposed. The bribes, mark-ups, payola, padding, profiteering, etc. make that same house cost \$1.2M on the market. For example, see: <http://ruralstudio.org/project/2020-20k-home/>

In Santa Rosa California, it cost the County \$268,000.00 to build a single seat public toilet. In Alabama it costs \$268,000.00 to build a 2 bedroom house.

San Francisco City Hall found that painting and servicing a white rectangle on the ground for homeless people to put their tent in cost the City \$6000.00 per month per rectangle. That is how much a penthouse luxury apartment with multiple bathrooms costs in Austin, Texas. Why is building something costing more than the thing is worth? Cronyism, kickbacks and self-dealing with buddies.

Many Housing Permit Department and City Hall people in San Francisco have been arrested, recently, but the corrupt practices and bribery continues without pause. Bribery of public officials often doubles the cost of a home.

ENCAMPED HOMELESS PEOPLE DON'T WANT YOUR HELP

Even more interesting: San Francisco took over luxury hotels and offered them to the homeless but 70% of the homeless refused to use the free housing. 70% of the homeless refused a free home in a luxury hotel!!! Why?

The homeless people said why, and it is documented, but NOBODY IN SACRAMENTO EVER reads the statements or they hide the statements from the public.

Here is why the homeless said they don't want California's free housing:

- 1.) The rules to live in the housing are not rules they can, or will, comply with.
- 2.) Most of them are addicted to smoking, drinking and drugs and the "free units" have cameras and sensors that record them doing the illicit things. They know that and won't move into a place they know they will get arrested or evicted from as fast as they move in.
- 3.) The vast contracts and regulation documents they must agree to are something they need a lawyer to explain to them and none of them have lawyers.
- 4.) Many of them use sex bartering and the cameras on the units will record sex worker activities.
- 5.) None of them want to be condensed into a tight space with other crazy people because they get set-upon by the worst of the bunch.
- 6.) They don't want multi-unit housing! They hate it. They want individual homes where they control the whole environment. San Francisco is spending at least TWICE as much money for short term solutions as it would cost for individual pre-fab stand-alone homes.
- 7.) Many of them are clinically insane and won't cooperate with any form of order or "rules".

Most of all: Drug-soaked crazy people don't want any help from The State. Families, seniors and disabled people want the help from the SSA and Housing people and they are getting ignored.

ALL homeless people should receive a free mental health evaluation and free therapy until their issues are resolved.

California has published a vast number of reports, at a cost of tens of millions of dollars, listing the exact number of homeless people, but California has never spent the \$60,000.00 it would cost to ask each homeless person the 10 questions about what they want! California politicians in Sacramento don't actually care what homeless people want. They care what they can scam out of a "stimulus" fund to scrape their cut off-the-top of.

HOUSING AGENCIES (PHA'S) AND UNIONS ARE STOPPING SOLUTIONS TO THE HOUSING CRISIS

The San Francisco construction unions and lobbies won't allow the homeless solutions that will work. All of the special interests in San Francisco, from unions, to rich people, to politicians, to realty lobbies, to you-name-it, will block anything that makes housing cheaper. They ALL make their money off of a percentage of the most expensive property values. The Realtor lobby and the big building lobby are probably the most powerful special interest groups in California, after the teachers union. They HATE affordable housing. Anything they say to the contrary is a lie. They bribe 90% of the politicians in the state via Dark Money conduits. They are NOT going to help solve this.

Remember when California shut down it's 400 Redevelopment Agencies because the corruption and bribery was so out of control? It is the same exact thing with California PHA's.

When you call top Housing agency officials in Santa Cruz, Marin, San Francisco, Tulare and other counties to ask them what the main reason is that poor people can't get new homes

built, they all pretty much said: "The State and County laws prevent us from building anything these days..."

San Jose got it right by promising a one hour permit time-frame for ADU home construction but other counties are resisting this permit optimization effort because permits are where bribes happen!

Factory OS, Clayton Homes, Homes Direct, and an army of other factory built home companies, have offered homes to Californians for \$150,000.00, or less, if the State will just fix the permit process and give them a pre-order of 200 homes at a time. Banks will finance these...if the State of California will help bundle land and construction financing in the same package.

Marin County staff said: "We have enough open, empty fields in the county to house every single homeless person in the State but we can't get anything built here without a ton of lawsuits, 5 year studies and permit hell-scapes. Every homeless person could get a modern Dwell Magazine-style stand-alone small house if the County Office's didn't block every single construction project that is attempted!"

The difference between what California says, and does, is the same difference between night and day. San Francisco is an example of how home-building has been halted in the State. The rest of the state is following the profiteering based blockades to keep homes from getting built to deliver permanent supportive rental housing for people living with a serious mental illness who are homeless, chronically homeless, or at-risk of chronic homelessness. The government funds are rarely ACTUALLY used to acquire, design, construct, rehabilitate, or preserve permanent supportive housing, which may rarely include a capitalized operating subsidy reserve.

OK, so say you don't care about the homeless people. "Screw em all" you say. "They are low life drug users and weirdos who won't confirm to our white picket fence social programming..."

CORRUPTION AND CRONYISM MAKE IT IMPOSSIBLE FOR CALIFORNIA TO HELP MIDDLE-CLASS AND LOW-INCOME HOME BUYERS

Want to buy a home or buy a bigger home? Forget it, you are screwed if you live in California. The State has, essentially, "outlawed" construction.

You can't build a home without the process being so painful, expensive, delayed and litigation-focused that it will ruin your life.

If the State of California was serious about solving the housing crisis it would create a single two to three page building permit application, that worked in every County, that a single state office could sign off on within 48 to 60 hours.

If the State of California was serious about solving the housing crisis they would change the zoning codes. Nobody can build in California without being punished for it by California and County regulations.

If the State of California was serious about solving the housing crisis they would turn the tsunami of state-created immigrant unemployment into a positive, Now that California has let half of Mexico in to the State, you have huge clusters of skilled workers hanging around, looking for work, a few blocks away from every Home Depot in the State. Each 20 of them can erect a move-in ready home in one week. Give them an empty pasture and a challenge and turn them loose with a pay-per-house incentive payment structure.

All of the programs listed at: <https://www.hcd.ca.gov/grants-funding/active-funding/index.shtml> need TRIPLE the amount of funds currently allocated and they need to be moved into no less than 3 main programs. The current MASSIVE number of programs guarantees that corruption, duplication, and transparency inefficiency are at a maximum worst-case level. In all of these programs there is nothing for the individual. Almost all of the plans are based on the "Shove-them-all-in-a-big-concrete-building" concept. The public does not want that. NOBODY wants to live in, or see, multi-unit housing. The State needs to also TRIPLE the amount of programs for the SINGLE FAMILY or INDIVIDUAL. County Housing agencies have been found to be corrupt and motivated by bribes. If the State of California was serious about solving the housing crisis it would put a billion dollars of it's freebie COVID CASH from Washington, DC into it's CalHOME fund and restart that fund.

On Broadway and Divisadero streets in San Francisco, giant mansions house two to four people. Those structures, without changing the outside of the buildings one tiny bit, can house hundreds of people. NIMBY's biggest complaint is based on appearance. If you change the inside of structures and keep the outside looking "classic", you get the least amount of NIMBY issues. San Francisco already has ALL of the fully constructed square footage to solve ALL of it's housing issues, if it works from the inside out. Empty office buildings and dead millionaire mansions can deliver the square footage.

Gavin Newsom based his election on providing millions of new homes to California. Nobody has been able to find a single one of these new houses he said he was going to build.

THE BIGGEST TAKE-AWAY: "NOBODY wants to live in a multi-unit concrete building block. Multi-unit project buildings harm people's mental state and create conflict, house gangs and they are bad socially. There is enough empty land for everyone in California to have a 1600 sq. ft. home of their own. Change the rules so that more people at below \$100K income levels can buy or build a home and the public will solve the housing crisis.

Until those kinds of things happen, there is no hope for the State! Greed, payola, special interests and revolving door jobs control your housing opportunities in the state of California. California State has every tool, resource and dollar it already needs to solve every single housing issue in the State except one think: "Courage". It takes courage to say "No" to the special interests. It takes courage to say "No to the Silicon Valley billionaires. It takes courage to cut off the spigot of Congressional bribes. Most of the federal cash that comes to California always ends up in a politician's, or their friend's pockets. It takes courage to say that every Californian that invested their lives in California deserves the home in California that they were promised. Fix the HUD Section 8 Home Ownership Program in California. Make an office in every major city that ONLY helps people with the HUD Section 8 Home "Ownership" Program and not just the Section 8 "rental" program.

ALL OF THE MONEY needed to fund that is already paid out in California, by HUD, EVERY MONTH! Give citizens their promised right to build and own a home!

The State of California and HUD housing agencies have long lists of "Certified", "Qualified", "Approved", etc. loan brokers and mortgage brokers that the agencies say will help low-income citizens get single family financing.

So we called everybody on one of those lists provided by the State of California.

In fact, those loan brokers and mortgage companies don't want to hear from you unless you are in a bid war on a \$1.5 million dollar bungalow for which you already have \$500K, or more, in cash in the bank.

Only a small percentage of the loan brokers and mortgage brokers on those lists had EVER done a completed subsidized home loan and even less had any clue how to paper a HUD Home Ownership financed home loan. Over 20 U.S. Bank mortgage brokers even refused to respond to emails or phone calls if one used the words "Cal-FHA USDA" because, as one unusually talkative U.S. Bank employee stated: "To us, those are code-words for 'poor people', the market is, frankly, too hot for banks to bother with the poors because we don't make any money off them".

It does not matter if you have spent years trying to keep your FICO score above 700. It does not matter that you never had a bankruptcy. It does not matter that you have guaranteed income for life from your government benefits. All of those things that the media told you to do to be a "good citizen" with a good social credit score seem to be pointless.

The loan and mortgage brokers on those lists are only on those lists to get a few PR brownie points. They do not want to hear from you or deal with you unless you are making big bucks in tech. They will let you upload your information but they will do little or nothing to help you because they lose money by helping you. They only make money off of the big deals.

On top of that the big real estate developers like Pulte Homes, Berkshire Hathaway (Warren Buffet), Kauffman and Broad (K&B Homes), etc. are bribing the Governor and the heads of all of the agencies to keep you from building a home or getting a home that is not in one of their giant developments.

Most low-income people are the laborers who build the homes in those big real estate developments. Those people know how to build their own homes but State and Federal agency heads are bribed to make sure you NEVER can build your own home. Those people know they can build an incredible home, on their own, for under \$100,000.00. You can see thousands of videos on the internet showing people that do it every day in any state but California. Try to build a home in California. You will find you are blockaded at every turn EXCLUSIVELY by rules that you have to follow but that big developers do not!

Try to buy a modular or factory build home in California ...Same thing.

The political bosses in California have taken so many bribes from big special interests that they can't stop sucking on the graft hose.

Political Bribes By Special Interest Lobbyists Make California Uninhabitable

If the state and federal government were actually serious about solving the housing crisis, they would have a mortgage agency that only serviced subsidized housing!

Low income people: "approved" lenders and mortgage brokers hate you and don't want you bothering them.

US BANK, Wells Fargo, Guild Mortgage, and all the rest, talk a good story when they are on-camera or doing a public presentation but the reality is that they consider you to be a "waste of their time" if you are needing subsidized housing. They all issue press releases where they talk about their "commitments" and "special programs" but they put zero effort into those green-washing intentions. They only say those things to keep the banking regulators off their backs and to make their favorite politicians happy.

When real estate developers are paying politicians and banks to ignore low-income people and 79% of America is now "low income", with more arriving daily, what chance does the public have?

The trend is edging toward disaster.

THE WORST PLAYERS IN WAR AGAINST HOMES

The incipient "Great Reset" is a multi-faceted beast. We talk a lot about vaccine passports and lockdowns and the Covid-related aspects – and we should – but there's more to it than that.

Remember, they want you to "own nothing and be happy". And right at the top of the list of things you definitely shouldn't own, is your own home.

The headlines about this have been steady for the last few years, but it has picked up pace in the wake of the "pandemic" (as has so much else). An agenda hidden on back pages, behind by Covid's meaningless big red numbers, but perhaps no less sinister. You can find articles all over the net talking up renting over owning.

Last month, for example, Bloomberg ran an article headlined: "America Should Become a Nation of Renters"; Which praises what they call "the liquefaction of the housing market" and gleefully expounds on the idea that "The very features that made home buying an affordable and stable investment are coming to an end."

The Atlantic published "Why It's Better To Rent Than Own" in March. Financial pages from Business Insider to Forbes to Yahoo and Bloomberg again are filled with lists titled "9 Ways Renting is Better Than Buying", or similar.

Other publications go more personal with it, with anecdotal columns about ignoring financial advice and refusing to buy your home. Vox, never one to sell their agenda with any kind of subtlety, have a piece titled: "Homeownership can bring out the worst in you" Which literally argues that buying a house can make you a bad person: "It's the biggest thing you might ever buy. And it could be turning you into a bad person."

So what exactly is the narrative here? What's the story behind the story?

The short answer is fairly simple: It's about greed, and it's about control.

It almost always is, in the end.

The longer answer is rather more complicated. Major investment firms such as Vanguard and Blackrock, along with rental companies such as American Homes 4 Rent, are buying up single-family homes in record numbers – sometimes entire neighbourhoods at a time. They pay well over market value, pricing families who want to own those homes out of the market, which forces the housing market up whilst the Lockdown-created recession is lowering wages and creating millions of newly unemployed.

Of course, this is motivating people to sell the houses they already own.

People all across America have been saddled with houses worth less than they bought them for since the 2008 economic crash, and are eager to take the cash from private investment firms paying 10-20% over market value. Combine an economic recession with a created housing boom and you have a huge population of motivated sellers.

Of course, many of these sellers don't realise, until it's too late, that even if they attempt to downsize or move to a cheaper area, they may be priced out of the market completely, and forced to rent.

As such, in the last year, the private investment share of single-family home purchases is estimated to have increased ten-fold, going from 2% in 2018 to over 20% this year.

As more and more people are forced to rent, of course, rental properties will be in higher and higher demand. This in turn will drive the cost of renting up.

Market Watch has already reported that, in the last year, rent has increased over 3x faster than the government predicted. This problem is likely to get worse in the near future.

Congress "accidentally failed" to extend the Covid-related eviction ban.

Which means, this weekend, while Senators adjourn to the summer homes they probably don't rent, the ban will officially end and a lot of people are likely to have their houses foreclosed or their landlords kick them out.

The newly empty buildings will be a feeding frenzy for the massive corporate landlords. Who will descend on the banks like starving hyenas to snap up the foreclosed properties for pennies on the dollar. Just like they did in 2008.

None of this is any secret, it's been covered in the mainstream. Tucker Carlson even did a segment on it in early June.

The Wall Street Journal headlined, back in April, "If You Sell a House These Days, the Buyer Might Be a Pension Fund", and reported: Yield-chasing investors are snapping up single-family homes, competing with ordinary Americans and driving up prices. However, since then, something has clearly changed. The propaganda machine has kicked into gear to defend Wall Street from any backlash.

No better example of this shift can be found than The Atlantic, which ran this story in 2019: WHEN WALL STREET IS YOUR LANDLORD. With help from the federal government, institutional investors became major players in the rental market. They promised to return profits to their investors and convenience to their tenants. Investors are happy. Tenants are not. ...and this story last month: BLACKROCK IS NOT RUINING THE US HOUSING MARKET, The real villain isn't a faceless Wall Street Goliath; it's your neighbors and local governments stopping the construction of new units.

Going back to the Vox well we have: "Wall Street isn't to blame for the chaotic housing market" Which ran just a few days after the Atlantic article, and is practically identical.

Both these (oddly similar) articles argue that Wall Street and private equity firms can't be blamed for buying up houses, and that the real problem is the lack of supply to meet demand.

You see, all the "selfish" people who already own homes (they did say it makes you a bad person) are blocking the construction of new houses, and thus driving up the cost of property through scarcity.

This has been a logically flawed argument around the housing market for decades.

That there aren't enough houses for people to buy is patently absurd when the US census data says that there are over 15 million houses currently standing empty. That's enough to house all of America's roughly 500,000 homeless people 30x over. There's plenty of houses, there's just not enough money to buy them.

The reason for that is the same reason the California has massive "homeless camps" in its major cities, and that so many people are having to become renters instead of owners: wage stagnation.

For decades now, wage increases have lagged behind increases in the cost of living. In the 1960s one full-time job could afford a decent standard of living for a family of four or more. These days both parents work, sometimes multiple jobs each.

It was huge amounts of financial de-regulation which created this situation. So, whether you believe Vox's BlackRock apology or not, one way or another Wall Street very definitely is to blame.

But this isn't just about money. It never is. Just as the war on cash isn't just about efficiency, and the environmental push isn't just about climate change. Ditto veganism. It's about control. Just like vaccines, lockdowns and masks.

It always comes down to control.

It's an oft-used cliché, but no less true for that, that homeownership "gives people a stake in society". A family-owned house is a source of security for the future and something to leave your children. It is also sovereignty and privacy. Your own space that no one else can control or take away.

In short: A homeowner is independent. A renter is not. A renter can be controlled. A homeowner can not.

It's the same reasoning behind the way working people were encouraged to take out loans and become debt slaves. If you limit people's options, if you make them rely on you for a roof over their heads, you have control over them.

There's a great article about this situation called "Your New Feudal Overlords".

Under Feudalism, land wasn't owned by the working class, but provided to them by landed barons, hence the term "Land Lord". If you disrespected your Lord, or broke his rules, or he perceived another peasant/farm animal/crop would be a better use of the land, he could take it back.

Essentially, the behaviour of serfs was kept in check by their reliance on the nobility for a place to live. That's very much the dynamic they're going for here.

Rental agreements can be full of any terms and conditions the landlord wants, and the more desperate people get the more of their consumer rights they will sign over.

Maybe you'll agree to smart meters which monitor your internet or power-usage habits, and then sell the data to behavioural modellers and viral marketers.

Maybe you'll have to agree to certain power limitations or water shortages in order to "fight climate change".
Maybe it will get worse than that.

Maybe they'll go full Black Mirror style corporate dystopia. Maybe, through affiliation programs, the mega-equity firm which owns your rental house has ties to McDonald's, and as such will require you to not eat at any competing fast-food franchises, or demand you observe at least ninety seconds of Disney advertisements per day.

Maybe it will be as simple as including vaccine status in the tenancy agreement, making it impossible for the unvaxxed to find a home.

Maybe they just want to make poor people miserable.

After all, the super-wealthy have got all the money they could ever need, and all the luxury they could ever use. Their living standards are as high as physically possible. So maybe the only way they can keep "winning", is to start driving the living standards of us proles down.

No air travel. No vacations. No going out at all. Live in a tiny house, or a pod. Eat bugs. Get rid of your car. Rent your clothes. Or your furniture. Pay taxes on sugar. And alcohol. And red meat.

They've been very clear about this. They've told you about the Great Reset and the Internet of Things. That's the plan.
You won't own a house. And you'll be happy...or else the mega-corporation you're forced to rent from will kick you out.

The lenders said that Wall Street Conglomerates and investment corporations are coming in right behind the California fires and buying up all the fixer uppers and chunks of homes so that individuals can't get them. The contractors that made money flipping homes are saying they can't get enough fixer uppers any more. The lenders also said that "the lenders market is only looking at these \$1.5M home deals where people are overbidding \$200K or more".

There are two conglomerates that already have people on the ground in South Lake Tahoe and Southern Oakland making cash offers for properties, US Bank told us. We can build a nice house for about \$100K. We have done such nice ones in the past that they were on TV. Access to housing in the county is being limited by the conglomerates and banks and the push by lenders to keep the over-priced housing market going for as long as possible. Alameda County and All East Bay counties should make these people buy houses for low income and seniors since they are stealing all of the homes in the area:

Public Comments from Readers:

- This is an excellent article which should be blatantly obvious to all by now: Blackstone/BlackRock and the CCP are the major real estate owners — this is the culmination of the 50-year long Rockefeller Plan, hatched by the meetings of Rockefeller and Mao and Zhou when Nixon and Kissinger, David Rockefeller's minions, flew to Beijing with Rockefeller aboard Air Force One!

Blackstone Group — founded with Rockefeller seed money by DR's minion, Peter G. Peterson — owned 30% of BlackRock which was spun off from the Blackstone Group — who knows what their ownership is today?! In the 1970s Rockefeller and the Chicoms created the Rigged Market of Rigged Markets — the control of capital/labor between these two economies, establishing them as the top 2 economies 50 years later — eventually merging Wall Street and the CCP, which is exactly what happened! IT IS ALL ABOUT the ultra-concentration of ownership — welcome to the Global Neofeudalist State.

- Vanguard (privately owned) owns most shares of Blackrock as well as most of the other main players. Vanguard sits at the top of the pyramid of power and money and is THE big monopolist in this world. See this video
<https://www.bitchute.com/video/QdbvR9Wn5HFU/>

- If you don't own real property, your economic security and independence is weakened. For the last 20 years I've owned at least 2 places to live just for extra safety. At this time I have 3. But then I've been a real estate investor for almost 50 years.

- Good analysis. Effectively, the US Constitution was Revolutionary because it made a statement that Individual Rights were going to be protected for everyone. In these Rights is understood the right to own, a key feature of real capitalism. But when we can't make the difference anymore between Major Corporations and Government, and these mega corporations get into a complicit scheme to own everything...our individual rights dissipate. Prior to the US revolution, Individual Rights were closely correlated with social status which is closely related to economic status. You just need to read the Plea (<https://craigwright.net/blog/bitcoin-blockchain-tech/satoshi-and-the-sophists/>) Mega elitists such as Craig Steven Wright, the fake Satoshi Nakamoto and pretend Bitcoin creator, to understand to core of the Big Post Covid Reset...it's running back to your life being a Privilege distributed by the State. In English, 2 words describe the core of our rights: Freedom and Liberty. One carries an exogenous dimension (Liberty), the other an Endogenous one (Freedom). In the French language, there is no such nuance. And Liberty and Freedom are only Liberté And it their dictum "Liberté Égalité Fraternité", an Individual Rights incompetency arise. Because with these 3 words persists the idea that we are foremost a community before being Individuals, in line with a Matriarchal concept, but the Antitheses of the American Original vision. Is it surprising that Sarkozy promulgated laws which made it so that even in your House, what you say may be held against you. In France, if more than 3 persons in a house are talking, and that one is not a direct member of the family in the first degree, any hate speech articulated may send you in prison and get you a fine...No sanctity in the Household, even if you are the owner.

- Manfred Max-Neef, the late "Barefoot Economist" from Chile, who lectured at UC Berkeley, said 5 or 10 years ago that USAmerica was the 1st "Undeveloping Nation" and cited formerly affluent homeowners living in vans at the curbside of their foreclosed mansions. An analogue to this, for "dot" collectors, is what Alan Watts called over 50 years ago "the Los Angelization of the world" (himself an L. A. resident, and as a bonus fun fact, interviewed my old man, a profoundly corporatist lawyer — ecjlaw.com — for his services, in 1969, and declined them, despite an intro from his friend Laura Huxley). Both the LosAngelization of the World and Undevelopment are sorry symptoms of the same disease of Organized Greed, without an apparent immune system or other remedy in most societies, since Intel is busily employed with its vast armies of termites to eviscerate all these structures, many ages old. The controlled demolition of our societies and cultures goes on apace, with accelerators of salivating covetousness, institutionalized sins. I myself have always preferred the nomadic way, the street, rich with the opportunities for unconventional wisdom, such as contented any number of native peoples here in USA, before having even their tribal roots and networks here largely deracinated and decimated by "settlers". And, even more so, "developers". All as a fairly recent development into this Age of Undevelopment. I met a guy 50 miles down the coast near the seaside in Bucanear Park, Oceanside, north San Diego County. We talked a long time one sunny day, he told me from the front seat of his high end Lexus luxury model how he had been living there in his car with his cat for three years, after losing his mansion with custom swimming pool. He had little street savvy and I cringed while he told me, with childlike naiveté, stories of being mistreated by all the usual suspects, health agencies, other street people, and on and on. I tried to warn him, seeing one gnarly red flag after another, but it went in

one ear and out the other, from what I could tell.

- Here in the US, the CDC mandated a policy to prohibit eviction of renters for 1 year (that has just now expired). Many landlords sustained huge financial losses or bankruptcy as their renters became squatters. What this might portend for our biowarfare future is the squeezing of individual/small group rental property ownership using onerous regulation, a lack of access to financing, etc. to foster the consolidation of rental property by mega/global corporations who will seamlessly align with any and all tenets of The Great Reset.

- Do they not fear that creating a population that owns nothing, that population also have nothing to lose?

- Why doesn't anyone discuss zero to negative interest rates? Why has this unprecedented phenomenon been pushed by the bankers?

- In America, the government owns your home even if you pay the bankers off. Don't pay your property tax and out on the street you go.

- I've given this a lot of thought over the last dozen years. And done a lot of research too. It is one of the most important mechanisms of transforming middle-class life into out and out serfdom in America, this taking away the possibility of home ownership. First they went after the millennials, by way of impossible levels of student debt (so they couldn't buy a house), then they worked on the problem of what to do about the existing tens of millions of homeowners. Private equity entered into the picture big-time and since then has been at it relentlessly. Basically, it is not possible for any normal middle-class person to buy a home in any desirable part of the country (and increasingly even the less desirable, more remote and inaccessible parts), because you can't compete with the endless cash resources of private equity. The article is very right, and I have had the same thesis in mind for many years: homeownership provides a form of security, a political voice that comes from power, that the new feudal lords have to get rid of at any cost. And they've succeeded without any noise.

- IT IS ALL ownership — not just home ownership! Who owns the banks? In a study of the Rockefeller Financial Group back in the early 1970s by Prof. James Knowles (impossible to find now, although once frequently found in other book citations), Prof. Knowles wrote that the owners of the banks was a carefully guarded secret. Once upon a time we knew. Recall that the original primary investors in Intel, Apple and Microsoft was the Rockefeller family — who are the principal investors today — not the investment firms of BlackRock, Vanguard, State Street, etc., but those investing through them??? NOBODY KNOWS!

- "No property rights for private citizens"? Why so stalinist? It's not necessary at all. They will just make us so poor, that we won't be able to own anything of relevance, everything courtesy of free market inclusive capitalism. <https://qz.com/work/1942727/pope-francis-backs-the-council-for-inclusive-capitalism/> They are well on track, today this is home, in few years you won't be able to afford an electric car, carbon indulgences will impoverish us further... People will have tooth brush and clothes of their Choice. And be happy, yeaah

- ...Where there's *Rent* there are *Rentiers*... "The Cantillon effect. The Cantillon effect was explained by Richard Cantillon (1680s – 1734) an Irish-French economist and author of "Essai sur la Nature du Commerce en Général" (Essay on the Nature of Trade in General). In his Essay, Cantillon provided an advanced version of the quantity theory of money, however he also dug deeper and perceptively into the relative inflation associated with the introduction, circulation and velocity of money. He explained that the original recipients of new money enjoy higher standards of living at the expense of later recipients. This is because of inflation in asset prices e.g. affecting house prices and rents and as a result of time lags impacted by a disproportionate relative inflation in prices of assets and goods decreasing value of money in the hands of non-asset holding individuals i.e. the majority. These concepts of relative inflation, or a differential rise in prices among different goods in an economy, is now known as the Cantillon effect. The Cantillon effect has two components. One is the impact of new money on differential inflation rates between assets and consumption items and, the other, is the real incomes and wealth effects that result in an increasing disparity in incomes and wealth within the country. Under QE this effect has been extreme because banks short-circuited money distribution largely to themselves and a reduced number of large corporate customers to deal in assets and share buy backs. It is self-evident that if rentiers maintain a growth in income that is inflation proof the state of their real income will constantly rise. However, this is not the case of the state of real incomes for an increasing majority of the population. This Bank of England "policy" has done little to help the conditions of the working population which is becoming increasingly asset-less. This mechanism constraining asset access and accumulation by the majority is a driver of an inevitable future increasing inequality." "The nature of asset-derived income... Thostein Veblen identified the problems we now face, back in 1921, well before the 1929 New York Stock Exchange crash, when he examined trends in financialisation and the growth in the rentier class in manufacturing and industry. Financialization is the process whereby all economic considerations are reduced to a nominal financial quantification usually measured in the local currency or expressed in a common currency by applying exchange rates. The crucial problem with financialization is that what appear to be distinct policies or even schools of thought, such as Keynesianism or Monetarism, and supply side economics are in fact questions of emphasis on which aspect of financialization is more significant as a policy target. These are aggregate demand (expressed as a quantified monetary aggregate) or money supply (expressed as a quantified monetary aggregate). Increasingly economic activities involve so-called financial engineering where the manipulation of numbers substitutes for real production or services where income is received in return for little effort beyond the holding of some asset which generates an income from those who make use of the asset. This has created a major financial services activity that is made up of über-rentiers." ... (Emphasis mine...) <http://www.realincomes.org.uk/classdivstab.htm> ... Now tell me, what's "Wrong" with "This" picture?... - Note the 2008-2020 QE 'ramp', then note the 2020-2021 *Spike*... - Then further note the L/H scale is in 1,000s of Billions, ie: *Trillions* (...Pic from University of Michigan's Federal Reserve Economic Database, sourced from this article:

... US M1 Money Supply, 1960-2021: (...Q: - Now just "Where" do y'all think pretty much "Ala" that "Went" (and subsequently "Stayed Put")?..)

- First time commenting here. Today I just couldn't stand. I've checked the whole article and comments for instances of 'capitali'.

Until now just 4 instances, not a one in article. Horror!!! No wonder we are in deep shit, since knowledge of who is banging us from behind is almost literally absent. Century+ years ago Marx predicted, capitalism will end in monopoly capitalism and that is exactly what we are experiencing now. They will buy everything, they will control everything. Sadly, even majority of the "left" would probably not agree with me on this point, because they believe monopoly capitalism happened during robber barons times. Never mind that concentration of capital today is unprecedented and is just increasing. And when I hear lamenting about feudalism..... I don't know whether to be sad or angry. From article: "The short answer is fairly simple: It's about greed, and it's about control."

Sure, control, power, no doubt. But greed..... Invoking greed is completely useless psychologization. It's excellent time for an adage, one profane and profound: Why a dog is licking his balls? Because he is able to, because he can!!! No bs about he likes it or..... ability is first. Therefore the right question is: What is the basis that allows today monopolists to grab? I haven't been precise enough in the third line from the end. It's not just that ability is first, it is a necessary condition. To rephrase the final question, a million dollar question, not a rhetorical question, for most people is unfortunately like to ask what 42 means and I predict I won't get the right answer: What is the ultimate necessary condition for monopolists' grabbing???

- The investor class has a powerful ally (as if we didn't know that) in the FHA in the US. Example: the condo community I live in now has so many rentals that the FHA will not approve a loan. Since these are lower end condos, FHA loan approval is absolutely crucial for a prospective buyer. Consequently, one has almost no choice but to sell to an investor – who is able to pay cash.

They got you coming and going.

- Yup. Ban ownership all non-resident owned property, along with the existence of all forms of corporate stock ownership, and the "rental" problem resolves in a flash. Of course no one backs these logical remedies, because they're invested in IMF and World Bank controlled portfolios and pension funds. Who's zoomin' who?

- Some guy in Libya did it once, does anyone remember what happened to him? Muammar al Ghaddafi. "Today there is swine flu. Perhaps tomorrow there will be fish flu, because sometimes we produce viruses by controlling them. It is a commercial business. Capitalist companies produce viruses so that they can generate and sell vaccinations. That is very shameful and poor ethics. Vaccinations and medicine should not be sold," he said. He went on to say that "medicines should be free of charge and vaccinations given free to children, but capitalist companies produce the viruses and vaccinations and want to make a profit. Why are they not free of charge? We should give them free of charge, and not sell them." Muammar Gaddafi Speech To United Nations - September 23, 2009

- Sure our equally faux Govt will soon roll out this horror show too:

- Hello everyone! Re: Housing market in cities. Its fckin scandalous what's going on in cities throughout the world. Average people who work damned hard for their barely minimum wages can't get the mortgages to afford to buy at even the bottom end of the market in the cities they were born in. They can't save enough for a deposit cos the prices are constantly rising. Private rentals are through the roof and there is a very, very long waiting list for cheaper, social housing. This is an excellent documentary I saw on TV not so long ago. Sorry I can't find a link for the whole film. The situation has gotten even worse since this film was made in 2019. 'Push' 2019 trailer: <https://www.youtube.com/watch?v=2iLWpuZrd-I> 'Landlords without faces. Apartments without renters. A documentary exploring the new, unlivable city. Housing prices are skyrocketing in cities worldwide. Incomes are not. The working and middle classes are getting pushed out of cities, while financial powerhouses use housing as a place to park money. PUSH is a documentary from award-winning director Fredrik Gerten, investigating why we can't afford to live in our own cities anymore. We follow UN Special Rapporteur on Housing, Leliani Farha, on her quest to understand who's getting squeezed, who's getting rich and why housing has become one of today's most pressing world issues?' The film had its World Premiere at CPH:DOX, 2019, where it won the coveted Audience Award.

- I don't know how wonderful a mortgage is. My darling ex paid for it for a while. Though as a migrant DownUnder coming from Berlin about 75% rent. The way the city council administers a quarter of a million buildings means rent doesn't kill life off as it does in similar sized anglo amerikanized cities like Sydney, which mortgage as the con to freedom when you are almost dead means no life before you get there. Saving for the deposit for instance at a time when you are twenty something should be spent getting ripped into life. Conconvid 19-33 or not. Sitting nowhere to save every penny because you know when you're old blah blah leaves no money to get into life. Which is perhaps what the politicians want. As they are proving with the lock up regime of no choice. Furthermore one's money ought if possible to be invested in you choice so that with a better saving amount nationally foreign take overs will less than more. In Australia is it basically non-existent. No one invests in anything. When Darwin harbour was up for the 99 yr lease no Australian firm, company or investors stepped up because the money was wasted in non productive real estate. The Chinese won the contract. Now the government is complaining that this is the Chinese Governments infiltration of Australia. Well almost. Implied. Apart from nearly all production DownUnder is US, UK, Holland and then EU, Japan in minerals mainly. The Chinese have stopped buying coal and Russian tenders have won some contracts. If the locals put their money where their mouths were they'd have more local ownership. A mortgage is not a life. Though the banks are laughing without having to try it on to get your life signed away for the next quarter of century – spent doing nothing cause you got no money. Most inner cities compared to other societies here are basically lame.

- ...Calling 'em Vampires would be granting them a generous romanticism/glamour that they "Do Not" deserve... – Straight-up-and-down "Leeches" is what they are, in point of fact... – "Life-Sucking Leeches"...

- Two phenomena are occurring in parallel, at least here in Canada. On the one hand, in the cities, what we call "renovictions" are multiplying and throwing hundreds of families out on the street who can't find new housing. New landlords like Blackrock are buying up apartment blocks and shortly afterwards send eviction letters to tenants because major renovation work is needed. These renovations often involve cutting the number of units in a building by half and turning them into deluxe apts. Current tenants can't afford and, as a result, many people are looking for new housing and prices are skyrocketing. On the other hand, more financially comfortable people, mostly retired baby boomers with good pensions, are buying second and third homes in the countryside, which has pushed up house prices by 20-40% in a few months. Add to this refurbishing of primary residences and their new second homes, which is driving up the price of lumber and creating shortages. In addition, covid-19 has created a buying frenzy: cars, RVs, motorcycles, electric bikes, boats, etc., it's completely crazy. Everything is going up except the inflation rate. People are living like there's no tomorrow. Maybe they're right. Personally I see a gloomy tomorrow. There's also dire staff shortages in every sector. Things are not looking good and expect tribulations before owning nothing and being happy.

- 'it's completely crazy. Everything is going up except the inflation rate. People are living like there's no tomorrow. Maybe they're right. Personally I see a gloomy tomorrow.' Yes Jean, I've been discussing this craziness with friends for quite a while now. Zero % interest rates on regular savings accounts, so people are being coerced into 'investing' with any extra cash they may have. The stock markets and housing markets are booming it seems. Mortgage rates have been at an all time low for years. If (or more likely when) there is a massive crash it will be the small 'investors' who will suffer after naively risking all their hard-earned savings. It may be quite lucrative for some right now, but I don't see how it can carry on like this. This surely can't be a sign of a healthy economy....or maybe it is, but only for wealthy people. I don't know.

- A book called The Thought Experiment shows the quantum outcome of changing these things using thought patterning of the masses that Google and Facebook use every second of every day: 1) Obfuscation: Just basic confusion of one thing for another- a smoke and mirrors game. 2) World View Poisoning: Conditioning the way people view human nature and their own self-value. 3) Conditioning of Primal Fear: The exploitation of primal fears. 4) Divide and Conquer Strategy: Highlight any perceived differences between people and then exploit those differences to create infighting so they are easier to control and conquer. 5) Indoctrination of Education System: A left brain form of Nazis called it mastery learning, grade school, HS and university. Trivium and quadrivium education could counteract this. 6) Controlled Opposition: Basic dialectics - dialectical mechanics or Hegelianism Creating conflict that you already have an outcome management system for. Create the conflict and wait for a type of reaction to the conflict (usually chaotic that demands a resolution) and then you step in and resolve it. Artificial conflict resolution. 7) Monetary System of Control: Debt based fiat currency fractional reserve banking a system of illusion that we call money yet people believe in it like its a religion or god. People seem to be the most powerless to come out of. It exists purely in the mind. 8) Control of Mass Media: If you can control the info that people get to see hear and read you control their perception of reality. If you limit the scope of what they can take into their minds and awareness you limit their possibilities of solutions. Human perception management. 9) Food and Medicine: attack on the physical aspects of the body relates to how our brain development goes. You affect thought and consciousness you are what you eat. Use techniques that are damaging to consciousness through the modern medical system 10) Illusion of Time: Very important for people to grasp. Play on people's seeming inability to live in true present moment awareness-- getting people to live in regret over the past or anxiety over the future. Its a fear based technique. Takes us out of true present awareness. Being fully present now to take on what is happening now. If our consciousness can be manipulated into always looking into what has happened. It takes away effectiveness of dealing with the current situation. 11) The DHR Factor: Denial, Hassle, Ridicule: What other people perceive about you. Denial, hassle ridicule factor. Things are fine the way they are I don't want to rock the boat because I may have to deal with hassle of other people. The hassle free zone is-- I don't want all the uncomfortable aspects of life that come with standing up for truth. These are all fear based. Heightening those three forms of mental instability. Trap of inactivity and not really doing anything to make things better. 12) Religion: We need to understand these last three the best. Religion is a form of binding. To tie back Re-Ligare tying back. Forms of modern religion are mind control based on astro-theology. Giving people an exoteric version of something that was once esoteric or internal. Government is the binding on the left brain... religion is the binding of the right brain. 13) Use of Subversive Symbolism: Based on ancient sacred symbolism. Based on symbols that have been with us from antiquity. Solar symbolism, life force symbols, energy, blood, or anything we need for existence and life. They use these in modern institutions-- banks, police, media, stores. We're drenched in it. Basic symbols have a powerful psychic influence. They can speak to us without words. A wordless form of communication. Connects to occultism. 14) Problem-Reaction-Solution (Chaos Sorcery): A mass demonstration or a public display of the dark aspects of the Hegelian dialectic. Hegelian dialectic can be used in a positive or negative sense. Chaos sorcery or false flag terrorism. This is ritual magic being used openly in the light of day. You are creating a chaotic situation in the light of day and you know it will elicit an extreme reaction of fear and chaos that demands order be brought as soon as possible. You are manipulating the fear in the limbic system-- people are not in a state that they can reason. They are demanding solutions purely out of emotions. They are in a reactive mode of consciousness. They want the outcome of the game known before the game is played. Interject chaos, you know the reaction its going to cause and you know. A leap in consciousness will subvert this technique. This technique works over and over again. Humanity won't wake up. 9-11 was chaos sorcery.

- The astronomical prices for houses in the USA is caused almost 100% by the Fed buying a minimum of \$40 billion a month in mortgage backed securities, the very instruments responsible for the GFC of 2008. Hard to make this shit up. For those who are not familiar with them, the banks make Ninja loans to deadbeats, then they immediately sell them to the Wall Street megabanks, who package them together as MBS. In 2008 the megabanks sold them to brain dead bureaucrats who run pension funds around the world. Now even they are to way to buy them, so the Fed just prints the money out of thin air and buys them, adding them to their exponentially growing balance sheet. "Give me control of a nation's money and I care not who makes the laws." – Mayer Amschel Rothschild [Mayer Amschel Bauer] (1744 -1812), Godfather of the Rothschild Banking Cartel of Europe

- Fed: "That's a nice housing market you have there. Be a shame if somethin' happened to it." They did much the same early last year when they helpfully stepped in with generous loans to the flailing paper industry. The dread virus locked everyone up, paper usage took a tumble, the fed issued loans and bought up tumbling bonds, the year moved on and things re-opened, the fed sells back the bonds at interest PLUS gets the interest from the ongoing loans. Rinse, repeat, forever.

- US Federal Reserve provided over \$16 trillion in financial assistance to some of the largest financial institutions and businesses, in USA and abroad, a clear case of socialism for the rich. – Bernie Sanders, 2011. Our investigation reveals that Federal Reserve provided at least \$29.6 trillion in aid. Only one of these facilities, amounting to 12.9%, was within its mandate to protect the commercial banking system. The rest was an attempt to rescue the shadow banking sector, which is highly leveraged and hardly regulated or supervised. – Andrew Felkerson & Nicola Matthews, 2011

UPDATE SOCIAL SECURITY!!!

Demand that Congress set the minimum Social Security benefit to 125% of the federal poverty level, or higher. Seniors are not getting enough money to live on. Do YOU want to be starving and struggling to exist when you are old?

PASS THIS AROUND TO YOUR FRIENDS AND POST ABOUT IT ON SOCIAL MEDIA IF YOU HAVE PARENTS OR RELATIVES!

✓ **SOCIAL SECURITY'S BASIC STRUCTURE, WHICH EMBODIES THE BEST OF AMERICAN VALUES AND HAS STOOD THE TEST OF TIME, SHOULD BE PROTECTED.**

The late Robert M. Ball, the longest serving commissioner of Social Security, began his Social Security career in 1939 and was involved in all major reforms from that time until his death in 2008. He defined the fundamental structure and principles in the landmark essay, "[The Nine Guiding Principles of Social Security.](#)"

Both in the essay and throughout his long, storied career, Mr. Ball explained that changes to Social Security have and always should occur "within a framework consisting of nine major principles. Social Security is *universal; an earned right; wage-related; contributory and self-financed; redistributive; not means-tested; wage-indexed; inflation-protected; and compulsory.*"

The members of this Coalition subscribe to each of those guiding principles. We oppose proposals to means-test Social Security, change it into a defined contribution plan, or cut its dedicated premiums and substitute an open-ended draw on the general fund for its financing. These and similar ideas are contrary to Social Security's underlying structure, principles, and values.

✓ **SOCIAL SECURITY IS A SOLUTION AND SHOULD BE EXPANDED.**

Expanding social security is a solution. It provides retirement, disability, and life insurance to nearly all of America's working families more efficiently, securely, and universally than its private sector counterparts. Social Security lifts millions of Americans, including over a million children, out of poverty and reduces the depth of poverty for millions more. Expanding Social Security is key to addressing many of our nation's most pressing problems, including the retirement income crisis, growing income and wealth inequality, and the financial squeeze on working families.

When signing the Social Security Act of 1935 into law, President Franklin Roosevelt [explained](#), "This law... represents a cornerstone in a structure which is being built but is by no means complete." Consistent with that incremental approach, survivors' and spousal protections were added in 1939, long-term disability insurance was added in 1956, and Medicare and Medicaid were added in 1965. No additional risks have been added since then, though. It is well past time to build on the strong cornerstone laid down in 1935 and address additional risks that result in lost wages and increased expenses.

✓ **SOCIAL SECURITY IS A VEHICLE FOR SOCIAL AND ECONOMIC JUSTICE. EXPANDING IT WILL MAKE IT EVEN MORE SO.**

Social Security is designed to disproportionately benefit low-wage earners, including people of color, women, those with disabilities, members of the LGBTQ+ community, and others who have suffered discrimination. Moreover, because those discriminated groups are less likely to work in jobs that provide supplemental pensions, they are even more reliant on their earned Social Security benefits than white, non-Hispanic men, on average. Expanding benefits both across-the-board and in targeted ways can cause our Social Security system to be an even more important and effective vehicle of social and economic justice.

✓ **ALL REFORMS OF SOCIAL SECURITY SHOULD GO THROUGH REGULAR ORDER, IN THE SUNSHINE.**

Social Security is an extremely important issue that touches everyone's lives. It should only be modified in the sunshine, subject to the full Congressional process known as regular order, with open hearings, Committee consideration with the ability to amend, and full debate on the floor of each chamber with the ability to amend. That is what has been done historically and that is what should be done in the future. Opponents of Social Security often try to use bipartisan commissions to fast-track Social Security legislation that would force through unpopular changes. Should that happen, it would be a major disservice to current and future beneficiaries.

Americans' earned protections are under threat by continued, harsh cuts to the operating budget of the Social Security Administration (SSA). These cuts are occurring despite the fact that the services provided by SSA have already been paid for by the American people.

Cuts to SSA's budget have already forced the agency to close field offices, reduce staff and office hours, and freeze hiring—resulting in increased wait times and deterioration in SSA's world-class services. Further reductions will greatly limit SSA's ability to administer benefit payments while also maintaining critical services to the public. To ensure that SSA can continue to provide Americans with the world-class, in-person services they deserve and have paid for, cuts to the agency's operating budget should be reversed, and Congress should allow SSA to restore and expand the vital services it provides to the American people.

The critical changes that you must ask your elected officials to make are:

1. Changing how your COLA is calculated

Congress must change how cost-of-living adjustments (COLAs) are calculated to better reflect seniors' costs. Social Security currently uses the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), which excludes households that don't have at least one person working. That means many retirees are left out. Compared to working-age people, retirees on average spend a higher share of their incomes on medical and housing costs, both of which rise faster than inflation.

Congress should be told to use the Consumer Price Index for the Elderly (CPI-E), which measures costs for older Americans. Using the CPI-E would only increase COLAs by 0.2 percentage points in an average year. Had the 2021 COLA been calculated based on the CPI-E, it would have been 1.5% instead of the 1.3% beneficiaries will receive, though the impact could be more meaningful when compounded over time.

2. A minimum benefit if you worked 30 years

Congress must be told to provide a minimum benefit of 125% of the federal poverty level for people with low lifetime earnings who worked at least 30 years. Based on the 2020 federal guidelines for the 48 contiguous states and the District of Columbia, someone with a 30-year work record would get a guaranteed monthly benefit of about \$1,329. According to a Penn Warren Budget Model analysis, such a plan would also increase benefits by anywhere from 5% to 50% for a small group of people who worked between 10 and 30 years.

3. A higher benefit after 20 years

Congress must be told to increase benefits by 5% for people who have received benefits for 20 years or more. The bonus would be phased in at 1% per year, starting with the 16th year of benefits. The goal is to boost payments for Social Security's oldest recipients because they have been forced into exhausting their retirement savings.

Contact your elected officials at this link to tell them to do these things: <https://www.usa.gov/elected-officials/>

You have to ask why no Social Security reform is mentioned/included in the \$1.5 trillion dollar stimulus package! No one in Congress wants to make a decision when it comes to addressing the reform issue. That is why the public must continue to lobby and fight on the behalf of others that are not receiving benefits they rightfully earned and deserve. Congress likes it the way it is, so they can have money to spend on their "pork-barrel projects" instead of helping their constituents that are in need of basic financial assistance. Congress has your tax money for big parties, hookers, vacations and Rolex watches so they don't care about regular folks.

Inventors Are Being Screwed By Silicon Valley's Intellectual Property Thefts

Randy Landreneau

Innovation is the cornerstone of the American Dream. Everyone can build the next best mousetrap. US Inventor's vision is to help teach people that process as well as defending that ability on Capitol Hill.

US Inventor brings together the best and brightest innovators of today to help the best and brightest innovators of tomorrow. We teach, promote, and defend the invention process and business methods involved in developing an idea, making a profit, and changing lives.

For those new to the issue of inventors having lost the ability to stop large corporations from just taking valuable, patented technologies, here's a quick rundown:

1. Patent Trial and Appeal Board (PTAB): The America Invents Act of 2011 (AIA) created an easier way to invalidate (revoke) an issued patent. The PTAB is an administrative court with no jury and much less due process than a real court. Rather than a lifetime-appointed judge, a PTAB trial typically has three attorneys who are called Administrative Patent Judges (APJs). Since inception, 84% of the patents that go through a PTAB process get fully or partially invalidated (partially usually means the parts of the patent that matter).

When you attempt to stop a large corporation from infringing your patent, they will try to use the PTAB to invalidate your patent. If you win one PTAB attack, you can still be pulled into additional ones by the same or other infringers. According to the AIPLA (American Institute of Patent Law Association), a reasonable PTAB defense costs \$400,000 to \$800,000. Historically, the typical inventor would hire an attorney on a contingency basis to fight an infringer (where the inventor doesn't pay much up front and the attorney gets a percentage of the verdict award or settlement amount). Today, it is extremely rare for an attorney to take any PTAB case on contingency.

2. Injunctive Relief (the ability to stop an infringer after you have won your case): The U.S. Supreme Court decided that it was in the "public interest" for a proven infringer to continue infringing because it could serve the market better than a startup (Ebay, 2006). As a result, even if you win your case, you will have to pass a "public interest" test before an injunction can be issued to stop the infringer. A startup vs an entrenched corporation will typically fail this test, so you can't stop the infringer. You end up with a court-ordered royalty that you cannot negotiate, and the infringer keeps your invention and the market. This is often an impossible barrier for what would have been, until recently, the next great American disruptive startup. 3. Abstract Idea: The U.S. Supreme Court's Alice decision (2014), put into law that an "abstract idea" cannot be patented, but did not define this term. The result is that a sharp attorney can often convince a judge, who may have little tech experience, that a patent should have not been issued. This argument is most often used for software related or medical diagnostics patents. The patents of many important, future technologies that are invalidated on this issue in America are valid and defensible in China and Europe, so that is where startup funding is going. A U.S. Patent is supposed to provide the inventor with the exclusive right to his or her invention (U.S. Constitution Article I, § 8, Clause 8). You should be able to legally stop any infringer, no matter how powerful. You should be able to create a disruptive startup, or license your invention at a market rate. This is what created the incentive to invent that enabled America to lead the world in innovation for over 200 years and has been a major part of the American Dream. This is what US Inventor is fighting to restore. Help this vital effort by signing our [Inventor Rights Resolution](#) and getting your U.S. Representatives and Senators behind this effort. In his first speech to the joint session of Congress he recognized there were "new and useful inventions" found abroad. He then admonished, "I cannot forbear intimating to you the expediency of giving effectual encouragement [...] to the exertions of skill and genius in producing them at home." Congress answered less than 4 months later with the Patent Act of 1790. George Washington personally signed the first 156 issued patents. So, how effectual is the US patent system? That depends on who you ask — and, unfortunately, what year you are asking. It's fruitless to argue that the rate of innovation didn't accelerate after the signing of our Constitution. The last 234 years have produced an unprecedented time of discovery in the history of humankind. The Constitution was signed with a quill (the writing technology of the time). I'm writing this article while sitting in the passenger seat of a motorized vehicle, on a laptop, connected to the internet, through a wireless connection of a mobile phone. High Tech Connection Another important word, "Secure" ("to make fast, save, protect, ensure," Webster, 1806) is only in the Constitution twice. First, expressing the need to, "secure the blessings of liberty to ourselves and our posterity." Second, the pointed direction that Congress is accountable for "securing for limited times the exclusive right to authors and

inventors."Congress seemed to understand their responsibility to secure exclusive rights to inventors back in 1904 when the bicycle shop tinkers Wilbur and Orville Wright received their first patent.Argue all you want about the Wright brothers patents and their effect on the "heavier than air" aviation industry. Just remember that that industry didn't effectively exist before their painstaking efforts that led to the groundbreaking discoveries of these two brothers. Wilbur Wright aptly pointed out, "Those who tried to study the science of aerodynamics knew not what to believe and what not to believe."Fast-forward to 2011 when Congress passed the America Invents Act (AIA). The name of the Act harkens back to George Washington's admonition to motivate exertions of skill and genius at home. Unfortunately, the Act did exactly the opposite.The AIA created the Patent Trial and Appeal Board (PTAB). Just two years after its implementation the chief judge of the U.S. Court of Appeals observed the devastating impact this Act had on patents, describing it as "death squads killing property rights."This new process of invalidating patents, lobbied heavily for by the established technology companies, has been killing off patents at an extraordinary rate – with the PTAB revoking 84% of the 3,000+ patents they have reviewed.

Instead of following their Constitutional mandate to secure exclusive rights to inventors, our elected officials were securing the ability for established multi-national companies to crush independent innovation; innovation which occurred outside the well-funded research and development departments of the conglomerates.

It's a far cry from the year 1921 when a 14-year-old farm boy thought up the idea of "electronic television" while plowing the horizontal lines out in a field. This boy, Philo Farnsworth, conceptualized the idea that an electronic image could be built up line by line. His young-adult life was spent painstakingly proving out that theory in the Green Street labs in San Francisco.

When it came time to protect Philo from the massive companies of the time (manufacturers of radios who had been out-innovated by Philo) the courts and the law protected Philo through the rights granted by his patents.

"Oh My God, This Is So F---ed Up": Inside Silicon Valley's Secretive, Orgiastic Dark Side

- A deep insider reveals that the men on Palo Alto's Sand Hill Road control the world with forced sex, drugs and toxic frat boy sociopathy

Some of the most powerful men in Silicon Valley are regulars at exclusive, drug-fueled, sex-laced parties—gatherings they describe not as scandalous, or even secret, but as a bold, unconventional lifestyle choice. Yet, while the guys get laid, the women get screwed. In an adaptation from her new book, *Brotopia*, Emily Chang exposes the tired and toxic dynamic at play.

By [Emily Chang in Vanity Fair](#)

About once a month, on a Friday or Saturday night, the Silicon Valley Technorati gather for a drug-heavy, sex-heavy party. Sometimes the venue is an epic mansion in San Francisco's Pacific Heights; sometimes it's a lavish home in the foothills of Atherton or Hillsborough. On special occasions, the guests will travel north to someone's chateau in Napa Valley or to a private beachfront property in Malibu or to a boat off the coast of Ibiza, and the bacchanal will last an entire weekend. The places change, but many of the players and the purpose remain the same.

The stories I've been told by nearly two dozen people who have attended these events or have intimate knowledge of them are remarkable in a number of ways. Many participants don't seem the least bit embarrassed, much less ashamed. On the contrary, they speak proudly about how they're overturning traditions and paradigms in their private lives, just as they do in the technology world they rule. Like Julian Assange denouncing the nation-state, industry hotshots speak of these activities in a tone that is at once self-congratulatory and dismissive of criticism. Their behavior at these high-end parties is an extension of the progressiveness and open-mindedness—the audacity, if you will—that make founders think they can change the world. And they believe that their entitlement to disrupt doesn't stop at technology; it extends to society as well. Few participants, however, have been willing to describe these scenes to me without a guarantee of anonymity.

If this were just confined to personal lives it would be one thing. But what happens at these sex parties—and in open relationships—unfortunately, doesn't stay there. The freewheeling sex lives pursued by men in tech—from the elite down to the rank and file—have consequences for how business gets done in Silicon Valley.

Sex Parties of the Tech and Famous

From reports of those who have attended these parties, guests and hosts include powerful first-round investors, well-known entrepreneurs, and top executives. Some of them are the titans of the Valley, household names. The female guests have different qualifications. If you are attractive, willing, and (usually) young, you needn't worry about your résumé or bank account. Some of the women work in tech in the Bay Area, but others come from Los Angeles and beyond, and are employed in symbiotic industries such as real estate, personal training, and public relations. In some scenarios, the ratio of women to wealthy men is roughly two to one, so the men have more than enough women to choose from. "You know when it's that kind of party," one male tech investor told me. "At normal tech parties, there are hardly any women. At these kinds of party, there are tons of them."

I believe there is a critical story to tell about how the women who participate in these events are often marginalized, even if they attend of their own volition. One female investor who had heard of these parties before I approached her told me, "Women are participating in this culture to improve their lives. They are an underclass in Silicon Valley." A male investor who works for one of the most powerful men in tech put it this way: "I see a lot of men leading people on, sleeping with a dozen women at the same time. But if each of the dozen women doesn't care, is there any crime committed? You could say it's disgusting but not illegal—it just perpetuates a culture that keeps women down."

To be clear, there is a wide range of parties for experimental sexual behavior. Some, devoted entirely to sex, may be drug- and alcohol-free (to encourage safety and performance) and demand a balanced gender ratio. Others are very heavy on drugs and women and usually end in group "cuddle puddles," a gateway to ever-so-slightly more discreet sexual encounters.

Men show up only if directly invited by the host, and they can often bring as many women as they want, but guys can't come along as plus-ones. (That would upset the preferred gender ratio.) Invitations are shared via word of mouth, Facebook, Snapchat (perfect, because messages soon disappear), or even basic Paperless Post. Nothing in the wording screams "sex party" or "cuddle puddle," in case the invitation gets forwarded or someone takes a screenshot. Besides, there's no need to spell things out; the guests on the list understand just what kind of party this is. Women too will spread the word among their female friends, and the expectations are hardly hidden. "They might say, 'Do you want to come to this really exclusive hot party? The theme is bondage,'" one female entrepreneur told me. "It's at this V.C. or founder's house and he asked me to invite you."

"IT'S VERY RISKY—ONCE YOU'RE IN THAT CIRCLE, ONCE YOU DECIDE YOU WANT TO PLAY THE GAME, YOU CAN'T BACK OUT."

Perhaps this culture is just one of the many offshoots of the sexually progressive Bay Area, which gave rise to the desert festival of free expression Burning Man, now frequented by the tech elite. Still, the vast majority of people in Silicon Valley have no idea these kinds of sex parties are happening at all. If you're reading this and shaking your head saying, "This isn't the Silicon Valley that I know," you may not be a rich and edgy male founder or investor, or a female in tech in her 20s. And you might not understand, anyway. "Anyone else who is on the outside would be looking at this and saying, Oh my God, this is so fucked up," one female entrepreneur told me. "But the people in it have a very different perception about what's going on."

This is how the night goes down, according to those who have attended. Guests arrive before dinner and are checked in by private security guards, who will turn you away if you're not on the list. Sometimes the evening is catered. But at the most intimate gatherings, guests will cook dinner together; that way they don't have to kick out the help after dessert. Alcohol lubricates the conversation until, after the final course, the drugs roll out. Some form of MDMA, a.k.a. Ecstasy or Molly, known for transforming relative strangers into extremely affectionate friends, is de rigeur, including Molly tablets that have been molded into the logos of some of the hottest tech companies. Some refer to these parties as "E-parties."

MDMA is a powerful and long-lasting drug whose one-two punch of euphoria and manic energy can keep you rolling for three or four hours. As dopamine fires, connections spark around the room, and normal inhibitions drop away. People start cuddling and making out. These aren't group orgies, per se, but guests will break out into twosomes or threesomes or more. They may disappear into one of the venue's many rooms, or they may simply get down in the open. Night turns to day, and the group reconvenes for breakfast, after which some may have intercourse again. Eat, drugs, sex, repeat.

These sex parties happen so often among the premier V.C. and founder crowd that this isn't a scandal or even really a secret, I've been told; it's a lifestyle choice. This isn't Prohibition or the McCarthy era, people remind me; it's Silicon Valley in the 21st century. No one has been forced to attend, and they're not hiding anything, not even if they're married or in a committed relationship. They're just being discreet in the real world. Many guests are invited as couples—husbands and wives, boyfriends and girlfriends—because open relationships are the new normal.

While some parties may be devoted primarily to drugs and sexual activity, others may boast just pockets of it, and some guests can be caught unawares. In June 2017, one young woman—let's call her Jane Doe—received a Paperless Post invite for "a party on the edge of the earth" at the home of a wealthy venture capitalist. The invite requested "glamazon adventurer, safari chic and jungle tribal attire." Ironically, the gathering was held just a week after sexual-harassment allegations against Binary Capital co-founder Justin Caldbek had been reported, but that didn't seem to discourage certain guests from indulging in heavy petting in the open.

"It was in the middle of the Binary thing," Jane Doe told me, referring to the scandal at the V.C. firm. "And it was all so ridiculous." Doe found herself on the floor with two couples, including

a male entrepreneur and his wife. The living room had been blanketed in plush white faux fur and pillows, where, as the evening wore on, several people lay down and started stroking one another, Doe said, in what became a sizable cuddle puddle. One venture capitalist, dressed up as a bunny (it's unclear how this fit into the edge-of-the-earth theme), offered Jane Doe some powder in a plastic bag. It was Molly. "They said it will just make you feel relaxed and you're going to like being touched," Doe recounted to me.

Nervous, she dipped her finger into the powder and put it in her mouth. Soon, her guard dropped. Then, the male founder asked if he could kiss her. "It was so weird," she says. "I'm like, 'Your wife is right there; is she O.K. with this?' " The founder's wife acknowledged that, yes, she was O.K. with it. Jane Doe, who considers herself fairly adventurous and open-minded, kissed the founder, then became uncomfortable, feeling as if she had been pressured or targeted. "I don't know what I'm doing, I feel really stupid, I'm drugged up because I'd never taken it before, and he knew I'd never taken it," she recalled. She tried to escape to a different area of the party. "I felt gross because I had participated in making out with him and then he kept trying to find me and I kept trying to run away and hide. I remember saying to him, 'Aren't people going to wonder?' And he said, 'The people that know me know what is going on, and the people that don't, I don't really care.'" Before dawn, she jumped into her car and left. "What's not O.K. about this scene is that it is so money- and power-dominated. It's a problem because it's an abuse of power. I would never do it again."

While this particular woman felt ambushed, if it's your first time, a friend will normally fill you in on what you're signing up for, and you are expected to keep it to yourself. You know that if you do drugs with someone you work with you shouldn't mention it to anyone, and the same goes with sex. In other words, we're not hiding anything, but, actually, we kind of are. You only get invited if you can be trusted and if you're going to play ball. "You can choose not to hook up with [a specific] someone, but you can't not hook up with *anybody*, because that would be voyeurism. So if you don't participate, don't come in," says one frequent attendee, whom I'll call Founder X, an ambitious, world-traveling entrepreneur.

They don't necessarily see themselves as predatory. When they look in the mirror, they see individuals setting a new paradigm of behavior by pushing the boundaries of social mores and values. "What's making this possible is the same progressiveness and open-mindedness that allows us to be creative and disruptive about ideas," Founder X told me. When I asked him about Jane Doe's experience, he said, "This is a private party where powerful people want to get together and there are a lot of women and a lot of people who are fucked up. At any party, there can be a situation where people cross the line. Somebody fucked up, somebody crossed the line, but that's not an indictment on the cuddle puddle; that's an indictment on crossing the line. Doesn't that happen everywhere?" It's worth asking, however, if these sexual adventurers are so progressive, why do these parties seem to lean so heavily toward male-heterosexual fantasies? Women are often expected to be involved in threesomes that include other women; male gay and bisexual behavior is conspicuously absent. "Oddly, it's completely unthinkable that guys would be bisexual or curious," says one V.C. who attends and is married (I'll call him Married V.C.). "It's a total double standard." In other words, at these parties men don't make out with other men. And, outside of the new types of drugs, these stories might have come out of the Playboy Mansion circa 1972.

I had a wide-ranging conversation with Twitter co-founder Evan Williams about the peculiar mixture of audacity, eccentricity, and wealth that swirls in Silicon Valley. Williams, who is married with two kids, became an Internet celebrity thanks to his first company, Blogger. He pointed out that he was never single, well known, and rich at the same time, and that he isn't part of this scene, but recognizes the motivations of his peers. "This is a strange place that has created incredible things in the world and therefore attracts these types of people and enables these types of people. How could it be anything but weird and dramatic and people on the edge testing everything?" On the one hand, he said, "if you thought like everyone else, you can't invent the future," yet he also warned that, sometimes, this is a "recipe for disaster."

Rich men expecting casual sexual access to women is anything but a new paradigm. But many of the A-listers in Silicon Valley have something unique in common: a lonely adolescence devoid of contact with the opposite sex. Married V.C. described his teenage life as years of playing computer games and not going on a date until he was 20 years old. Now, to his amazement, he finds himself in a circle of trusted and adventurous tech friends with the money and resources to explore their every desire. After years of restriction and longing, he is living a fantasy, and his wife is right there along with him.

Married V.C.'s story—that his current voraciousness is explained by his sexual deprivation in adolescence—is one I hear a lot in Silicon Valley. They are finally getting theirs.

Founder Hounders

There is an often told story that Silicon Valley is filled with women looking to cash in by marrying wealthy tech moguls. Whether there really is a significant number of such women is debatable. The story about them is alive and well, however, at least among the wealthy men who fear they might fall victim. In fact, these guys even have a term for the women who pursue them: founder hounders.

When I ask Founder X whether these men are taking advantage of women by feeding them inhibition-melting drugs at sex parties, he replies that, on the contrary, it's women who are taking advantage of him and his tribe, preying on them for their money.

On their way up to a potential multi-million-dollar payout, some younger founders report, more and more women seem to become mysteriously attracted to them no matter how awkward, uncool, or unattractive they may be.

However many founder hounders exist, the idea of these women lives large in the minds of Silicon Valley founders, who often trade stories about women they've dated. As Founder X puts it, "We'll say whether some girl is a fucking gold digger or not, so we know who to avoid."

When I tell her this, Ava, a young female entrepreneur, rolls her eyes. According to Ava, who asked me to disguise her real identity and has dated several founders, it's the men, not the women, who seem obsessed with displays of wealth and privilege. She tells of being flown to exotic locations, put up in fancy hotels, and other ways rich men have used their money to woo her. Backing up Ava's view are the profiles one finds on dating apps where men routinely brag about their tech jobs or start-ups. In their online profiles, men are all but saying, "Hello, would you like to come up to my loft and see my stock options?"

In Ava's experience, however, once men like this land a woman, they are quick to throw her back. After a few extravagant dates, Ava says, she will initiate a conversation about where the tryst is going. The men then end things, several using the same explanation. "They say, 'I'm still catching up. I lost my virginity when I was 25.'" Ava tells me. "And I'll say, 'Well, you're 33 now, are we all caught up yet?' In any other context, [these fancy dates] would be romantic, but instead it's charged because no one would fuck them in high school. . . . I honestly think what they want is a do-over because women wouldn't bone them until now."

Ava's jaundiced view of newly wealthy moguls would be funny if their gold-digger obsession didn't mask something serious. The claim of being stalked by women often becomes an excuse used by some tech stars to justify their own predatory behavior.

What that adds up to is a great deal of ego at play. "It's awesome," says Founder X. At work, he explains, "you're well funded. You have relative traction." Outside work, "why do I have to compromise? Why do I have to get married? Why do I have to be exclusive? If you've got a couple girls interested in you, you can set the terms and say, 'This is what I want.' You can say, 'I'm happy to date you, but I'm not exclusive.'" These are becoming table stakes for guys who couldn't get a girl in high school."

Furthermore, these elite founders, C.E.O.'s, and V.C.'s see themselves as more influential than most hot-shit bankers, actors, and athletes will ever be. "We have more cachet than a random rich dude because we make products that touch a lot of people," says Founder X. "You make a movie, and people watch it for a weekend. You make a product, and it touches people's lives for years."

At least on the financial level, Founder X has a point. The payouts of A-list actors and the wolves of Wall Street just aren't that impressive among the Silicon Valley elite. Managing directors at top-tier investment banks may pocket a million a year and be worth tens of millions after a long career. Early employees at tech firms like Uber, Airbnb, and Snapchat can make many times that amount of money in a matter of years. Celebrities such as Ashton Kutcher, Jared Leto, and Leonardo DiCaprio have jumped on that power train and now make personal investments in tech companies. The basketball great Kobe Bryant started his own venture-capital firm. LeBron James has rebranded himself as not just an athlete but also an investor and entrepreneur.

With famous actors and athletes wanting to get into the tech game, it's no surprise that some in the Valley have a high opinion of their attractiveness and what they should expect or deserve in terms of their sex lives. In the Valley, this expectation is often passed off as enlightened—a contribution to the evolution of human behavior.

For many women who describe it, however, it's a new immaturity—sexist behavior dressed up with a lot of highfalutin talk—that reinforces traditional power structures, demeans women, and boosts some of the biggest male egos in history: just another manifestation of Brotopia.

When I spoke about Silicon Valley's sex parties—specifically those where women vastly outnumber men—with Elisabeth Sheff, a Chattanooga-based writer and professor who has spent two decades researching open relationships, her reaction was heated: "That's exploitation. That's old-school, fucked-up masculine arrogance and borderline prostitution," she said. "The men don't have to prostitute themselves, because they have the money. . . . I should be able to have sex with a woman because I'm a rich guy." That is not even one particle progressive; that is the same tired bullshit. It's trying to blend the new and keeping the old attitudes, and those old attitudes are based in patriarchy, so they come at the expense of women."

Jennifer Russell, who runs the established Camp Mystic at Burning Man, is more sympathetic. "Men and women are equally drawn to creating a structure that invites their full sexual expression, and events like this are a safe place to dabble," she says. "It's way better than a swingers' club would feel because this is at a home and you are surrounded by people you know."

Married V.C. admits, however, that for many men these parties aren't so much about self-expression as they are about simply sport fucking. "Some guys will whip out their phones and show off the trophy gallery of girls they've hooked up with," he says. "Maybe this is behavior that happened on Wall Street all the time, but in a way they owned it. These founders do this, but try not to own it. They talk about diversity on one side of their mouth, but on the other side they say all of this shit."

The New Paradigm for Women Getting Screwed

For successful women in Silicon Valley, the drug-and-sex-party scene is a minefield to navigate. This isn't a matter of Bay Area tech women being more prudish than most; I doubt recent history has ever seen a cohort of women more adventurous or less restrained in exploring sexual boundaries. The problem is that the culture of sexual adventurism now permeating Silicon Valley tends to be more consequential for women than for men, particularly as it relates to their careers in tech.

Take multi-time entrepreneur Esther Crawford, who is familiar with sex parties (specifically those with an equal gender ratio and strict rules around consent) and talks openly about her sexual experiments and open relationships. For four years, she had been in a non-monogamous (they say "monogamish") relationship with Chris Messina, a former Google and Uber employee best known for inventing the hashtag. More recently, Crawford and Messina have started a company together called Molly—perhaps not un-coincidentally the same name as the drug—where they are developing a "nonjudgmental (artificially intelligent) friend who will support your path to more self-awareness." They also chose to become monogamous for a while; seeing other people was getting too complicated. "The future of relationships is not just with humans but A.I. characters," Crawford told me. By December 2017, they had raised \$1.5 million for their new company. In the meantime, Crawford is acutely aware of the harsh reality that as a female entrepreneur she faces so many challenges that men don't. What she has found is that, for a woman, pushing private sexual boundaries comes with a price.

When Crawford was raising funds for her second company, a social-media app called Glmps, she went to dinner with an angel investor at a hip restaurant on San Francisco's Valencia Street. At the end of the meal, he handed her a check for \$20,000, then immediately tried to kiss her. "I certainly wasn't coming on to him," she asserts. "I kind of leaned back, and he ordered me an Uber, and I was like, 'I gotta go home.'" Crawford thinks it's likely that this particular investor knew about her sexual openness and found it difficult to think of her simply as an entrepreneur rather than as a potential hookup. This encounter is an example of a unique penalty women face if they choose to participate in the "we're all cool about sex" scene.

Ava was working as an executive assistant at Google when she ran into her married boss at a bondage club in San Francisco. He was getting a blow job from a woman strapped to a spanking bench who was being entered by another man from behind. Ava and her boss, an engineer, locked eyes but didn't exchange a word and never spoke of the encounter again. However, a few months later, at a Google off-site event, another married male colleague approached her. "He hits on me, and I was like, 'What are you doing? Don't touch me. Who are you again?' He was like, 'I know who you are. The other guys said you like all this stuff.'" Someone had outed Ava. She quit working at Google shortly thereafter. "The trust works one way," Ava says. "The stigma for a woman to do it is so much higher. I'm supposed to be in this industry where everyone is open and accepting, but as a woman the punishment is so much more unknown."

Crawford can't even count the number of men who've told her how lucky she is to have so many eligible men to date in the male-dominated tech scene. "Of all the privileges in the world, that is not the one I would choose," she says fiercely. "I'd choose equal pay for equal work. I'd choose having better access to capital and power. I'd choose not being passed over for promotions. I'd choose not having to worry about being in the 23.1 percent of undergraduate college women who get sexually assaulted. I'd choose not being slut-shamed if I do opt to explore my sexuality."

Married V.C. admits he might decline to hire or fund a woman he's come across within his sex-partying tribe. "If it's a friend of a friend or you've seen them half-naked at Burning Man, all these ties come into play," he says. "Those things do happen. It's making San Francisco feel really small and insular because everybody's dated everybody." Men actually get business done at sex parties and strip clubs. But when women put themselves in these situations, they risk losing credibility and respect.

The party scene is now so pervasive that women entrepreneurs say turning down invitations relegates them to the uncool-kids' table. "It's very hard to create a personal connection with a male investor, and if you succeed, they become attracted to you," one told me. "They think you're part of their inner circle, [and] in San Francisco that means you're invited to some kind of orgy. I couldn't escape it here. Not doing it was a thing." Rather than finding it odd that she would attend a sex party, says this entrepreneur, people would be confused about her not attending. "The fact that you *don't* go is weird," the entrepreneur said, and it means being left out of important conversations. "They talk business at these parties. They do business," she said. "They decide things." Ultimately, this entrepreneur got so fed up that she moved herself and her start-up to New York and left Silicon Valley for good.

The women who do say yes to these parties rarely see a big business payoff. "There is a desire to be included and invited to these kinds of things and sometimes it felt like it was productive to go and you could get ahead faster by cultivating relationships in this way," one female tech worker told me. "Over time, I realized that it's false advertising and it's not something women should think is a way to get ahead. It's very risky—once you're in that circle, once you decide you want to play the game, you can't back out. If you really believe that's going to get you to a serious place in your career, that's delusion."

Another female entrepreneur described the unfair power dynamic that's created. "There is this undercurrent of a feeling like you're prostituting yourself in order to get ahead because, let's be real, if you're dating someone powerful, it can open doors for you. And that's what women who make the calculation to play the game want, but they don't know all the risks associated with it," she said. "If you do participate in these sex parties, don't ever think about starting a company or having someone invest in you. Those doors get shut. But if you don't participate, you're shut out. You're damned if you do, damned if you don't."

It harkens back to those popular 1980s teen movies which tell the "heartwarming" story of a glasses-wearing nerd who is transformed into the cool, funny kid who gets all the hot chicks. But we're not living a teenage dream. Great companies don't spring magically to life when a nerd gets laid three times in a row. Great companies are built in the office, with hard work put in by a team. The problem is that weekend views of women as sex pawns and founder hounders can't help but affect weekday views of women as colleagues, entrepreneurs, and peers.

Google And Facebook Have A Psychological Trick To Make You Do Things You Wouldn't Believe You Might Do

By Conner Lewis For The Congressional Report

Most of the U.S. Senators and government agency heads own stock in, get their political campaigns financed by and party with, the owners and executives of the Silicon Valley big tech companies.

That is why those public officials fail to halt the mass societal abuses of those companies. Above all others, the California politicians are in bed with the same criminals they are supposed to regulate.

While politicians shrug off any attempt to bring the oligarchs into line, they provide lip-service, window-dressing pretend actions that have impressive titles but zero bite.

The authors of this report were in private meetings with the investors and founders of the Silicon Valley "Big Five", at the inception of their companies, and hereby testify that those owners planned, with malicious intent, the use of their business licenses for the purpose of manipulating, harming and restricting the public interest, and DEMOCRACY, for profiteering purposes.

Big tech's "green-washing", false-savior, "we-are-your-mother" fake "do-gooder" facade is a sham to sucker everyone.

They hide behind a curtain of false altruism and do the darkest deeds any industry can undertake behind that contrived screen.

One of Google, Youtube and Facebook's most insidious technologies can even get you to engage in riots, murders and other crimes, even though you might, otherwise, never do those things. Here is how that technology works:

Since the early 20th century, the name of the Russian scientist Ivan Pavlov has been associated with the idea of brainwashing. Pavlov's experiments, in which he trained dogs to salivate in response to a signal such as a bell, showed that the mind could be conditioned to react automatically to stimuli. But he looked forward to a time when science could manipulate the brain directly. In a passage eerily accurate in describing today's neural imaging, he wrote: "If we could look through the skull into the brain of a consciously thinking person... then we should see playing over the cerebral surface a bright spot with fantastic, waving borders, constantly fluctuating in size and form, and surrounded by a darkness, more or less deep, covering the rest of the hemispheres."

We still don't have a precise topography of the brain in terms of specific thoughts or feelings. It's hard to imagine where one would begin if one wanted to surgically force someone to reveal a particular secret, or to persuade him or her to vote for a certain candidate. But since Pavlov's time, science has moved much closer to enabling direct physical control of the brain. In this century, neuroscientists' insights into memory, cognition, pleasure and pain may make coercive "mind control" a reality.

The psychologist James Olds (1922-76), one of the founders of modern neuroscience, conducted an experiment at McGill University in 1953 in which he implanted electrodes deep in the brains of rats and started observing their responses to electrical stimulation at various sites. His key observation resulted from an accident: He missed the desired anatomical site slightly on one particular rat. After recovering from surgery, the animal was placed in a special chamber. Every time it went to a corner of the chamber, it received a small electrical stimulus to the brain, with each corner stimulating a different site. The rat kept returning to one specific corner, even skipping eating to hang out there and get the brain stimulation. Olds inferred that there was something pleasurable about receiving a shock at that site in the brain. Next he started training the rat to go to different parts of the box or to turn right or left before it could receive the desired electrical stimulation. Using this technique, Olds could elicit complex behaviors easily; Pavlov would have been envious about this shortcut to behavioral conditioning. Olds observed that "Left to itself in the apparatus, the animal...stimulated its own brain regularly," up to 5,000 times an hour. The mind-control possibilities for this intervention sounded almost limitless, but would it work on people? Psychiatrist Robert Heath (1915-99), of Tulane University, performed studies with human patients, including one code-named B-7, a 28-year-old man with severe narcolepsy. Heath implanted a series of electrodes in various areas of his brain and asked the patient what he felt after each area was stimulated. One area was so aversive that the patient intentionally broke the stimulus button so that he would never have to experience that sensation again.

However, the feelings evoked by stimulating a different site were intensely pleasurable. The patient learned that he could block an incipient narcoleptic attack by self-stimulating; he was able to control his symptoms so well that for the first time he was able to get a job. On the rare occasion that he fell asleep too rapidly to press the button, his friends knew that they could promptly wake him up by pressing it for him.

Neurosurgical techniques have continued to evolve to be less invasive, less risky and applied to very specific areas of the brain.

At one point the CIA approached Heath, asking if he would work with the agency to study the brain's pleasure and pain system. He spurned the invitation, he told a New York Times reporter in 1977: "If I had wanted to be a spy, I would have been a spy. I wanted to be a doctor and practice medicine." This kind of work, most of which was conducted in the 1960s and 1970s, has largely been shut down because of ethical concerns.

However, the underlying neurosurgical techniques have continued to evolve. Fifty years after Heath's studies, procedures are less invasive, less risky and can be applied to very specific areas of the brain. Implanted deep-brain stimulators (DBS) are used by thousands of people with Parkinson's disease to help control their muscle movements, as well as for other conditions such as pain and epilepsy. There is ongoing interest in using such interventions on different sites in the brain to treat patients with psychiatric disorders, particularly patients with treatment-resistant depression.

Deep-brain stimulation requires painstaking surgery and expensive equipment, suitable for an individual but hardly appropriate for group interventions. Is there a way of stimulating a group of people without implants? In her 1996 book "Cults in Our Midst," Psychologist Margaret Singer described love bombing," an indoctrination technique used by some cults in which recruits are given so much flattery and adulation that they feel welcome and safe.

The neuroendocrine equivalent involves a hormone called oxytocin that is manufactured deep in the brain. People release oxytocin when they are bonding with another; it is sometimes nicknamed the feel-good hormone. Early research found that it is increased during breast-feeding and during sexual intimacy. Subsequent research showed that oxytocin is also produced in other situations of closeness—prayer, team sports, even when dog owners interact with their pets.

But there is a darker side to oxytocin. Experiments have found that it can stoke trust and cooperation within a group at the expense of distrust of people outside the group. Currently, the most effective way of administering oxytocin is through a nasal spray, but if it were possible to administer it orally or via aerosol, it could conceivably be used in group settings to increase attachment and thereby recruit new potential members of a cult or party. People might willingly join a group or adopt a new belief if it allowed them to receive pleasurable stimulation—after all, addicts aren't particularly squeamish about what they need to do to obtain their drugs.

On the other side of the coin, people might repudiate their old beliefs or identities to turn off painful stimulation, the way patient B-7 broke his stimulus button. When the dystopian movie "A Clockwork Orange" was released in 1971, audiences were stunned by its portrayal of the power of aversive conditioning. The advance of neuroscience means that such techniques are no longer just fantasies. So far they have been kept in check only by government regulation and medical professionals' sense of ethics. But governments are always seeking new weaponry, and history suggests that there will always be some researchers who close their eyes to the implications of their work or justify it as a way to protect society from looming threats. Their self-restraint may not always protect us from the dark potential of Google and Facebook's scientific coercion. This report goes deeper into those contrived and manually steered tech manipulations operated by Big Tech's executives.

Google is manipulating your internet searches, your elections, your perceptions of the news, your democracy, your ideologies and your school curriculum's. Google and their cartel (including FACEBOOK, NETFLIX, LINKEDIN, YOUTUBE, et al) collude to manipulate social dynamics.

White House executives, Federal Agency Executives and U.S. Senators including Dianne Feinstein, Kamala Harris, John Podesta, Nancy Pelosi, Harry Reid own, control and finance "The Deep State" because they own, and their families, own the stock in the companies comprising The Deep State, they tell those companies what to do, they fund those companies and they social communicate with each other through covert channels, they engage sexually with each other and they exchange stock market tips and strategies, and that forensic accounting shows that the politicians and the corrupt companies are all the same organization. This, in part, proves that the "Deep State" is "State Sponsored".

Google, and The Deep State's, socialistic, anti-Christian bias is invisibly reflected in the suppression of ideological content from appearing in some search results.

In shocking research that has spanned the past 6 ½ years, Dr. Robert Epstein – former editor-in-chief of Psychology Today and now Senior Research Psychologist at the American Institute for Behavioral Research and Technology – has found that by controlling search results, Google possesses unprecedented power to sway the thinking of undecided voters during an election campaign.

How is it done?

Google can manipulate its search engine algorithm to display one-sided search results that decidedly favor one political candidate over another.

Dr. Epstein gave a grim prediction in recent congressional testimony...

He said that "democracy as originally conceived cannot survive Big Tech as currently empowered."

Dr. Epstein is a registered Democrat. He supported and voted for Hillary Clinton in the 2016 election. He has no hidden agenda ... and no axe to grind for President Trump.

During the 2016 presidential election campaign, he captured and analyzed "more than 13,000 election-related searches conducted by a diverse group of Americans on Google, Bing, and Yahoo in the weeks leading up to the election..."

During the 2018 midterm election cycle, Dr. Epstein captured 47,000 election-related searches – plus nearly 400,000 web pages to which the search results were linked.

The results of his scientific analysis in both cases were disturbing...

The Google search results in 2016 – which account for over 92% of worldwide internet searches – were significantly biased in favor of Hillary Clinton in all 10 positions on the first page of search results in both blue states and red states.

In 2018, the first-page search results heavily favored web sites and articles favoring Democrat candidates rather than being evenly split between Democrat and Republican candidates.

Very few people who do spontaneous searches ever scroll past the first page of search results. And Google knows this.

Dr. Epstein has conducted dozens of controlled experiments in the U.S. and other countries to precisely measure – through before-and-after questionnaires – how opinions and votes shift among undecided voters when search results strongly favor one candidate over another.

He calls this shift "SEME" – Search Engine Manipulation Shift.

"SEME is one of the most powerful forms of influence ever discovered in the behavioral sciences," Dr. Epstein said in his congressional testimony, "and it is especially dangerous because it is invisible to people – 'subliminal' in effect... Bottom line: biased search results can easily produce shifts in the opinions and voting preference of undecided voters by 20% or more – up to 80% in some demographic groups."

I can tell you, this is enough voters to change the results of any election.

Dr. Epstein calculated that Search Engine Manipulation Shift likely persuaded at least 2.6 million undecided voters to cast their ballots for Hillary Clinton in 2016 ...and perhaps as many as 10.4 million.

In the 2018 midterm elections, Epstein's evidence suggests that as many as 78.2 million votes may have been shifted to Democrat candidates due to Search Engine Manipulation Shift.

These effects are far more meddlesome and interfering than fake news stories or ads placed by Russians on social media...

While these acts of interference are troubling and unacceptable, they don't shift very many votes because they are competitive and visible. Search Engine Manipulation Shift – on the other hand – is invisible and non-competitive.

Dr. Epstein explains: "SEME is an example of an 'ephemeral experience,' and that's a phrase you'll find in internal emails that have leaked from Google recently. A growing body of evidence suggests that Google employees deliberately engineer ephemeral experiences to change people's thinking... My recent research demonstrates that Google's 'autocomplete' search suggestions can turn a 50/50 split among undecided voters into a 90/10 split without people's awareness."

As expected, Google, Hillary Clinton, and progressive media outlets have all disputed Dr. Epstein's research and his claims...

They all say in unison that this 2016 study of election-related search results has been “debunked,” and that Epstein’s results aren’t valid because he made “weird methodological choices” in an earlier 2010 study.

But they haven’t debunked his methodology or his results at all...

They’re just saying this to try to discredit him and convince people to not take his work seriously. They haven’t refuted him either by conducting their own comparable studies ... or by addressing his explanations of his methodology.

Incidentally, the number one Hillary Clinton financial supporter in the 2016 election was Alphabet Inc. – the parent company of Google.

You can read Dr. Epstein’s testimony and study the methodology of his experiments [here](#).

He is eminently qualified to conduct the type of research he’s been conducting with Google search – having been a research psychologist for nearly 40 years.

He received his Ph.D. at Harvard University in 1981 and has published 15 books and more than 300 scientific articles on artificial intelligence and other behavioral topics.

Dr. Epstein believes the solution to Google’s search engine manipulation is to end its monopoly over its “black box” algorithm operation.

By requiring that the database they use to generate search results must be available in the public domain – accessible to all – many new search platforms will spring up and compete with Google, providing the same excellent search results.

Incidentally, I find that every time I run a Google search on a topic, I am served biased viewpoints...

Usually a CNN report is first on the list, followed by:

- The New York Times
- The Washington Post
- MSNBC
- Other pro-socialist media

I often have to scroll to page 7 or 8 to start finding conservative viewpoints.

Since 2012, Google has discriminated against and marginalized our editorial content. If they are doing it to us, they are certainly doing it to conservative web sites with higher numbers of subscribers. See these videos:

There were allegations raised that Google was manipulating the news to help Hillary. They allegedly steered [2.6 million votes to Hillary](#) and had far more of an impact upon the 2016 election than Russians. A whistleblower at Google has come out and warned that things are getting worse. Google whistleblower [Zach Vorhies](#) came out and provided documents and warnings. He said:

“Before Trump won, Google had this mission statement to organize the world’s information and making it universally accessible and useful.”

“After Trump won, they said ‘Well, Donald Trump won because of fake news and Russia hacking the election, so what we need to do is ... protect our users from fake news; we need to protect our users from the damaging effects of Russian trolls and bots.’”

What is interesting is that Elizabeth Warren has been a longtime critic of the economic power of Amazon, Google, and Facebook. She is making their [break-up](#) under Anti-Trust Laws a key component of her presidential platform.

Google’s ubiquitous search engine, [Google Search](#), is the backbone of the tech giant’s business.

In many ways, Google Search is the backbone of the modern internet — the way much of the web is sorted and organized and located. Given how crucial it is to daily internet use for billions of people around the world, it’s a particularly ripe target for manipulation.

Google denies doing as much, and [insists that Google Search is built on algorithms](#) and data gleaned from use.

But [a new Wall Street Journal investigation](#) found that Google manipulated search algorithms in some worrying ways, including prioritizing large businesses over smaller ones, removing autocomplete results that involve sensitive topics like immigration and abortion, and even outright blacklisting some websites.

In one such change to Google’s search algorithms, the service guided search users to more prominent businesses over lesser-known ones, the Journal reported. That change reportedly helped to boost Amazon’s store in search results.

In another example cited in the Journal’s report, autocomplete search results for sensitive subjects were replaced with safer results than those found on competing search engines like Yahoo, Bing, and [DuckDuckGo](#).

Google is known for refusing to share specific details on how its search algorithms operate, which it attributes to a measure of operations logistics: If the algorithms were public, then they could be gamed, Google argues.

“Extreme transparency has historically proven to empower bad actors in a way that hurts our users and website owners who play by the rules,” Google spokesperson Lara Levin told the Journal.

When reached for a response to the report, a Google spokesperson offered the following statement:

“We have been very public and transparent around the topics covered in this article, such as our Search rater guidelines, our policies for special features in Search like Autocomplete and valid legal removals, our work to combat misinformation through Project Owl, and the fact that the changes we make to Search are aimed at benefiting users, not commercial relationships. This article contains a number of old, incomplete anecdotes, many of which not only predated our current processes and policies but also give a very inaccurate impression of how we approach building and improving Search. We take a responsible and principled approach to making changes, including a rigorous evaluation process before launching any change — something we started implementing more than a decade ago. Listening to feedback from the public is a critical part of making Search better, and we continue to welcome the feedback.”

If you use Google’s search engine, “There’s no way of knowing what you’re missing,” says Gabriel Weinberg, CEO and founder of search engine DuckDuckGo, whose company released a [study](#) Tuesday claiming that Google is manipulating Americans’ search results.

The study concludes that Google is editorializing and providing different search results for different users who search for identical terms, within seconds and minutes of each other.

“The editorialized results are informed by the personal information Google has on you, like your search, browsing and purchase history,” the study says.

“What we’re seeing is intense amounts of variation,” Weinberg told Yahoo Finance. “Most of the people in the study saw results completely unique to them.”

By unique, Weinberg means that inconsistent source links appeared in search results, and some of the same links appeared in varying hierarchical order.

Seventy-two U.S. participants in the study entered three independent Google search terms — gun control, immigration, and vaccinations — using a desktop Chrome browser at 9 p.m.

eastern time on July 24, 2018.

Unique results were returned for 68% of private searches for "gun control," 57% of searches for "immigration," and 92% of searches for "vaccinations."

According to the study, Google returned these filtered results, regardless of whether participants searched in private "[incognito](#)," or non-private mode.

"It's exactly opposite of what people would expect," Weinberg said.

In non-private mode, unique search results were generated for 59% of searches for "gun control," 63% of searches for "immigration," and 92% of searches for "vaccinations."

"Our proposition is that if you search in the U.S. you should be seeing the same things, especially when you search major political topics," Weinberg said.

DuckDuckGo decided to run the new study after a previous version examined Google search results in connection with the 2012 presidential campaigns. A [Wall Street Journal study](#), commissioned around the same time, mirrored DuckDuckGo's findings, showing that Google's personalized search results inserted tens of millions of more links for then-candidate Barack Obama than for his primary challenger Mitt Romney.

"Search personalization doesn't actually help search results, it really hurts in the aggregate, making people more politically polarized," Weinberg said.

In his experience, Weinberg says when consumers think of search personalization they're really expecting search localization for services like local weather, local restaurants, and maps, rather than national or international political issues.

"You can do that all without a filter bubble because it's not based on your search history," he said, adding that search-based ad revenue is not dependent on search personalization.

DuckDuckGo's study controlled for local results by designating all local search results as equal and accounting for no variation if the local links appeared in the same hierarchical order. A result showing an LA Times link, for example, was treated the same as link to the Chicago Tribune.

For critics who dispense with the importance of result order, Weinberg says they're mistaken.

"The first link gets about 40% of the clicks, the second gets about 20%, and it drops off by half with each [subsequent] link," he said. "If you switch the second and first link, that's actually a huge difference" because the one is now getting twice as many clicks as the other.

Yahoo Finance reached out to Google for a response to DuckDuckGo's study and didn't receive a response.

"I'm really not on any particular side," Weinberg said when asked about his political ideology.

He says he'd like to see Congress question Google CEO Sundar Pichai about search result bias when he testifies before the House Judiciary Committee on December 11.

"We understand [the study] is coming from a competitor and there's an inclination to believe [the findings] less so. That's why we made it all public, the data, the code, the directions, and we are basically saying we believe other people should study this," he said.

Weinberg says editorialized results may be crafted depending on the level of privacy, and the number of Android products you use.

"They may have all your email, they may have all your text messages, have all your photos, all your contacts, so [editorialized content] can be based on all of those things. It's a completely black box and opaque to consumers."

A few people in the study were given a much broader range in search results from what the majority of participants were seeing, Weinberg said.

"You would just have no idea if you were one of those people. And you also would have no idea, even if you know you're seeing something different, why you're seeing it."

The rise of renewed and vociferous social movements for every non-white and non-cis male group can be seen as paralleling the rise of social media and the domination of technology platforms. In time, at least in the Western world, when blacks, women, gays, and most other populations have won equal rights, and even preferential rights, under codified federal law, and when their social currency has never been higher, it seems now that their voice has never sounded more pained or aggrieved.

Without a doubt, the ease of emoting through a tweet has certainly affected how individual users can set off maelstroms of irrational fury. Whether calling out real hurt, self-deluded hurt, or pure schadenfreude, there is no shortage of bored and usually meaningless lives attempting to drag down a crab that has nearly escaped the barrel of life.

The other side of the same coin is how the tech giant themselves can influence the narrative. We see this play out with not-so-alleged [shadow banning](#) practices of conservative social media accounts, and most people are by now aware of YouTube [demonetizing](#) conservative channels. We can add a new wrinkle: The representation of Google Image searches to advance a social narrative.

Let's break down what we saw in our own online queries, and then we can analyze it afterward. Try it out for yourself and leave a comment at the end of the article.

Google Search: "White Men"

The top three rows of the search produced a total of sixteen results. Of those, there were:

- One result featuring a woman of color
- Three results featuring exclusively black men, either as a victim of white brutality or as a successful black man. Each image is a well-dressed black man wearing a tuxedo or suit.
- Five results featuring either a mug shot of some kind or simply an angry visage.
- Visible taglines for the images including phrases like "Dear White Men, We Need You," "White Men Are Bad," "An Angry White Man" and one begins "White Men Aren't Thrilled When Women"
- Only two results showing white men smiling

Google Search: "Black Men"

The top three rows of the search produced a total of seventeen results. Of those, there were:

- All seventeen results featuring black men
- Eight of the results featuring black men smiling
- At least six of the results explicitly expressing victimhood. A few others are vaguer but allude to it.
- Visible taglines for the images including: "The Young Black Men Caught," "Why Do White People Feel," "Photo Campaign That Celebrates Black" and "Resilience Of Black Men."

Google Search (see feature photo): "White Women"

The top three rows of the search produced a total of fifteen results. Of those, there were:

- Five results featuring women of color

- Two results featuring black men
- Four featuring white women smiling
- Visible taglines for the first five results including: "The Trouble with White Women," "White Women Need To Talk About Race," "White Women Aren't Allies At Work," "Dear White Women, No More," and "White Women: It's Time To Be..."
- Other taglines including "White Women Were Southern Slave Owners," "Being Exoticised By White Women," "Black Women Are Paid Less Than White," and "White Women Benefit Most (from white privilege)."

Google Search: "Black Women"

The top three rows of the search produced a total of sixteen results. Of those, there were:

- All sixteen results featuring black women
- All sixteen results featuring well-dressed and well-groomed women
- Fourteen of the results featuring black women smiling or projecting happiness (the other two project strength)
- Visible taglines including: "How Women Have Shaped," "Studies Suggest Black Women Are More," "My Heroes Are Black Women," and "20 Millennial Black-Owned Brands."

Google Search: "White People"

The top three rows of the search produced a total of fifteen results. Of those, there were:

- Seven results featuring people of color
- Four additional results featuring white people protesting in solidarity with black people
- Just one result featuring a white person smiling (a white woman with dreadlocks)
- Visible taglines including: "Dear White People," "Dear White People (again)," "A Letter To White People," and another features the deplorable Robin DeAngelo.

Google Search: "Black People"

The top three rows of the search produced a total of fifteen results. Of those, there were:

- All fifteen results featuring black people
- Eleven results featuring blacks smiling
- Visible taglines including: "What's Life Really Like For Black," "Being Black In America," "Racism Grows in Places," and "Facebook Has Problem With Black People."

An Analysis of Search Results

An aggregate of the three "white" searches is unflattering for white people. Of the forty-six total results, a full eighteen (39%) of them depict non-whites, sometimes in roles of victimhood but usually in portrayals of independence and success. In and of itself, this is not bad, but it is misrepresentative of the intended search, and as we see, it is not replicated in reverse for other searches. For the whites themselves, just seven (15%) were represented in a positive light as indicated by smiling. Put another way, more than twice the amount of blacks were shown than whites in a positive way – in a search designed to produce white results, to begin with.

The taglines are especially egregious. Just two taglines suggest something positive ("Employment Helps White Men's Health," and another is assumed to be positive because it shows white women rallying against the death of a black woman at the hands of police). Two others are neutral in that they advertise white shirts. That leaves a full twenty-four taglines (52%) under an image of white people that states something negative or dangerous about them.

An aggregate of the three "black" searches has a different outcome. Of the forty-eight total results, fully 100% of those results came back with images of black people. In the same vein, none of the taglines suggest that blacks are dangerous or that anything blacks do is harmful to others (as is the case especially with white women, more on that anon).

Amazingly, twenty-nine taglines portray blacks as victims. Despite the overall happiness of blacks as seen through imagery, the titling of the pictures nevertheless contends that blacks must be seen as victims. The taglines refer to the problems being black in America, and several refer to their killings (always at the hands of whites or police, not other blacks, even though black homicide victims are killed by other blacks 90% of the time according to the FBI).

As it relates specifically to the query of white women, something striking is happening. There is clearly a concerted effort to portray white women as comfortably and cunningly subversive (Where is the feminist outrage, by the way?). Most headlines call out white women for a combination of their insincere efforts at allying with blacks, benefiting from white privilege, and to really hammer home a negative stereotype, fulfilling the role of a "Karen." In the intersectional rat race, the irony is that a significant majority of all women marchers in January 2017 were [white and championing leftist causes](#). Two immalleable rules in life: You can't please everyone, and the left always consumes its own.

It is obvious that the Marxists at Google have an agenda to pursue, namely that the narrative must be alive and well. White men and women are evil? Check. Are blacks simultaneously victims of white oppression and strong individuals? Check. The more subtle displays arise when looking at the positive and negative dispositions. In Nazi propaganda, Goebbels only had to compare [Jews to rats](#) for so long before most Germans went along with the lie. How long before a similar lie is believed here? More concerning, what happens after that?

The Wall Street Journal has undertaken a thorough [investigation](#) into how Google, despite its denials and disavowals, manipulates search results to influence what you learn and find online.

For years Google executives have insisted that they do not use human intelligence to arrange the results of online searches. Yet, the Journal found that, "Google's algorithms are subject to regular tinkering from executives and engineers who are trying to deliver relevant search results, while also pleasing a wide variety of powerful interests and driving its parent company's more than \$30 billion in annual profit."

The Journal also found that, "Despite publicly denying doing so, Google keeps blacklists to remove certain sites or prevent others from surfacing in certain types of results."

The tech giant also influences search results through its auto-complete feature prior to searching the internet. "In auto-complete, the feature that predicts search terms as the user types a query, Google's engineers have created algorithms and blacklists to weed out more incendiary suggestions for controversial subjects, such as abortion or immigration, in effect filtering out inflammatory results on high-profile topics."

In response to the investigation, a Google spokeswoman, Ms. Levin, told the Journal, "We do today what we have done all along, provide relevant results from the most reliable sources available."

Google, which has more than 90% of the market share for online searches, is an extremely powerful company capable of controlling what people know and what they can learn online.

The Journal tested the word "abortion" in Google's search engine and compared the results to Bing and DuckDuckGo's results. According to the test, Planned Parenthood was featured in 39% of the results on the first page of Google's results compared to 14% for Bing and 16% for DuckDuckGo.

Ms. Levin responded to the test by claiming that Google does not promote Planned Parenthood through its algorithm, but the available evidence suggests otherwise.

Google has also [been exposed](#) by a former staffer who spoke with the undercover investigative organization Project Veritas. The staffer, Zachary Vorhies, claimed that Google has a "news blacklist" document which censors conservative websites such as LifeNews.com, Newsbusters and the Media Research Center.

According to one researcher, Google even has the power to influence the results of an election. Indeed, they have already done so.

Dr. Robert Epstein, Ph.D., a senior research psychologist at the American Institute for Behavioral Research and Technology, is one of the lonely voices that has been speaking out about Google's manipulation of search results. Dr. Epstein's research has focused particularly on the impact of Google's search result manipulation on elections.

In a [testimony](#) before the Senate Judiciary Committee in June of 2019, Dr. Epstein claimed that, "In 2016, biased search results generated by Google's search algorithm likely impacted undecided voters in a way that gave at least 2.6 million votes to Hillary Clinton (whom I supported)."

Dr. Epstein also claimed that, "On Election Day in 2018, the "Go Vote" reminder Google displayed on its home page gave one political party between 800,000 and 4.6 million more votes than it gave the other party. In other words, Google's "Go Vote" prompt was not a public service; it was a vote manipulation."

The evidence Dr. Epstein provides is disconcerting, though not surprising.

In a leaked video following the election of President Donald Trump in 2016, Google executives held a staff meeting in which they conveyed significant remorse about the election results.

In the [video](#), Google co-founder Sergey Brin states, "I know this is probably not the most joyous TGIF (weekly meeting) we have had. Let's face it, most people here are pretty upset and pretty sad because of the election."

Brin goes on to say, "Myself, as an immigrant and refugee, I certainly find this election deeply offensive and I know many of you do too. And I think it's a very stressful time, and it conflicts with many of our values."

In the same meeting, Google CFO Ruth Porat broke down in tears recounting Hillary Clinton's loss that Tuesday evening. After texting a friend who was at what would have been Clinton's election night victory party, Porat said her friend responded, "People are leaving. Staff is crying. We're going to lose." With her voice trembling, Porat says, "Uh... that was first moment I really felt like we were going to lose, and it was this massive kick in the gut that we were going to lose."

Numerous other examples of liberal bias among Google's top executive team was demonstrated in the video, and what's remarkable is that there is not a single moment of conservative opinion expressed. The support for Clinton and the sense of dread seemed to be unanimous.

It couldn't be clearer that Google is an enormously influential company run by an entirely liberal executive team. And the Journal's excellent investigative work further exposes their manipulative practices.

I think it's past time we consider whether using Google as our primary search engine, which most Americans do, is wise.

Google, Inc., isn't just the world's biggest purveyor of information; it is also the world's biggest censor.

The company maintains at least nine different blacklists that impact our lives, generally without input or authority from any outside advisory group, industry association or government agency. Google is not the only company suppressing content on the internet. Reddit has frequently been [accused](#) of banning postings on specific topics, and a [recent report](#) suggests that Facebook has been deleting conservative news stories from its newsfeed, a practice that might have a significant effect on public opinion – even on voting. Google, though, is currently the biggest bully on the block.

When Google's employees or algorithms decide to block our access to information about a news item, political candidate or business, opinions and votes can shift, reputations can be ruined and businesses can crash and burn. Because online censorship is entirely unregulated at the moment, victims have little or no recourse when they have been harmed. Eventually, authorities will almost certainly have to step in, just as they did when [credit bureaus](#) were regulated in 1970. The alternative would be to allow a large corporation to wield an especially destructive kind of power that should be exercised with great restraint and should belong only to the public: the power to shame or exclude.

If Google were just another mom-and-pop shop with a sign saying "we reserve the right to refuse service to anyone," that would be one thing. But as the golden gateway to all knowledge, Google has rapidly become an essential in people's lives – nearly as essential as air or water. We don't let public utilities make arbitrary and secretive decisions about denying people services; we shouldn't let Google do so either.

The Elon Musk Story

By Donna King

Elon Musk is a political money laundering operation. Lapdog hired media skills, that are bribed by Musk's cartel, write hype and fluff about him, (like Douglas Coupland, Ashley Vance and other lying pigs-for-hire). Those PR cover-up weasels need to crawl back to their holes.

SpaceX only exists because NASA budget cuts were timed with SpaceX contract outlays. A huge number of NASA staff were fired, and programs cut, the same time that NASA work for the same exact functions were contracted to SpaceX to pay the Musk Cartel for putting Obama and Biden in office. The billionaires that benefit from SpaceX are the financiers of Obama/Biden. Google and the Silicon Valley Oligarchs are the biggest portion of the Musk Cartel. Google was the biggest staffing source of the Obama White House.

SpaceX is simply a crony political payola scam. If you look at the voter registration of the GAO investigators on the case, 80% of them are Obama/Biden supporters.

100% of Musk's government funds have been voted in or approved by government staff who voted for Obama/Biden. Obama/Biden staff have given the Musk Cartel more billions of dollars than any other person in history and the Musk/Google Cartel have made more exclusive profits from financing Obama/Biden political campaigns than any other lobby group in history.

When you peek behind the curtain in the magical fantasy technology world of Elon Musk you find that the entire emerald utopia is built out of bribes, payola and crony tech Illuminati stock market manipulations. Elon Musk's 'wizardry' is 20% other people's stolen technologies and 80% bullshit! He has purchased his internet PR facade with billions of dollars of the taxpayer's cash and keeps his self aggrandizing front going with extensive contracted off-shore troll farms and stock market "flash boy" algorithm computer hype engines.

Any tech person could do every single thing that Elon Musk has done with ONE THIRD LESS cash than Elon Musk has plowed through. So where does the rest of the money go?

It goes to political candidates in quid pro quo money laundering Dark Money conduits!

\$5.5B- Government Contracts
\$1.6B- NASA space taxi contract
Total Subsidy= \$7,120,000,000 BILLION AND COUNTING

Know that everything you have seen in the main stream news media about Elon Musk was bought and placed there by Elon Musk. Elon Musk is a figment of his own propoganda, Chinese click farms, his hired troll "fan boys" and his sociopathy.

Musk has gotten billions of dollars of City, State And Federal Cash and exclusive tax breaks which reduce taxpayer funds for teachers and firemen. He gets taxpayer market space worth hundreds of billions of dollars too. In other words Steven Chu and the Obama White House gave Musk all the stock market valuation perks and cash to monopolize the EV market. They gave this set of perks exclusively to Musk while sabotaging his competitors at the same time. Dept of Energy and White House staff were ALSO shareholders in the Musk Cartel. Bloggers a fake "reporters" that "report" that Musk "hardly got any government help" and "paid it all back" are FULL FLEDGED LYING SHILLS! Musk has harmed the public, democracy, free markets and hundreds of competitors while pocketing billions of dollars that he only got because of taxpayer cash manipulations. He didn't not earn that money, he took that money from crooked political deals and bribes paid to White House staff, California Senators and Dept of Energy bosses! Tesla spends [\\$1 million](#) annually on Washington lobbyists. Its cars are financed by over \$280 million in federal tax incentives, including a \$7,500 federal tax break and millions more in state rebates and development fees. SpaceX has also received [over \\$5 billion](#) in government support. It has over promised and under delivered. SpaceX rockets, for example, are far less reliable than many of its competitors. This is outlined in reports from December 2017 and January 2018 in which the [Department of Defense Inspector General](#) and [NASA's Aerospace Safety Advisory Council](#) described a list of security concerns they have with SpaceX, among them 33 significant non-conformities.

Bloomberg Business News [reported](#) in November about a Tesla solar factory for which the State of New York paid \$750 million based on a commitment to create 1,500 jobs. The factory had been developed for another Musk-run company, SolarCity, which Tesla bought in 2016 in a \$2.6 billion deal. SolarCity had been \$2.9 billion in debt. Only a relative handful of jobs have been created, and New York officials are expressing dismay. Raymond Walter, a Republican in the New York State Assembly, says he is concerned that the state "has too many eggs in the Tesla basket, which doesn't seem like a very strong basket." John Kaehny, executive director of Reinvent Albany, a nonprofit focused on government accountability, says, "It's a complete hoo-ha! These mega-subsidy deals take place in complete secrecy without scrutiny from the public."

Bloomberg News [declares](#) that this is "...a familiar playbook for Musk, start with wild promises followed by product delays, production hell, shareholder anger and finally, hopefully, redemption."

Things, however, may be even worse than they appear. Some are even speculating that Elon Musk, SpaceX and Tesla may be on their way to becoming the new Enron. Enron, the energy giant, employed [approximately 20,000 people](#) and claimed [revenues of \\$111 billion](#) at its peak by 2000. As it turned out, Enron used shady accounting practices to hide its losses and report profits which, in fact, did not exist. Andrew Fastow, the chief financial officer, created the scheme to falsify Enron's real financial status. In April 2001, the fraud began to unravel as analysts began to question Enron's numbers. In the end, Enron was found to have [losses](#) of \$591 million and debt totaling \$628 million. Stock prices [declined](#) from \$90 in 2000 to less than one dollar when the scandal was exposed. Senior managers, who kept selling their stock while encouraging others to continue buying, were convicted of insider trading. In December 2001, the company declared bankruptcy.

In the view of many, Elon Musk has been engaging in similar behavior. A Bloomberg report in November suggests that SpaceX may be less than honest with its numbers, giving a false illusion of profitability. According to [Bloomberg](#), "While SpaceX is burning through cash, disclosures to potential lenders showed the company had positive earnings before interest, taxes, depreciation and amortization of about \$270 million for the 12 months through September, people with knowledge of the matter said. But that's because it included amounts that customers had prepaid and because it excluded costs related to non-core research and development...Without those adjustments, earnings were negative, they said."

According to [Bloomberg](#), "This shouldn't come as a shock. A Wall Street Journal report from a few years ago showed that its profit margins were laser-thin. But if Musk is now going to these lengths to pad SpaceX's books to secure a loan, it appears there's a serious problem."

In the case of Tesla, the Wall Street Journal [reports](#) that, "Federal investigators are probing whether Tesla's stated information about production of its Model 3 electric sedans had misled investors about the company's business. Under examination is Tesla's public statements about Model 3 productions as compared to the number of vehicles that were actually built."

Elon Musk and his companies have a very questionable record when it comes to truth and honesty. Overstating prices to qualify for higher state tax credits seems to fit a pattern. According to a recent [report](#) in The Oregonian/Oregon Live, "The state of Oregon has recovered \$13 million it paid to Tesla for solar power projects, after an investigation conclude the company inflated prices to qualify for higher tax credits."

Whatever the potential benefits of such a system, one of the disastrous consequences would be [light pollution](#). As they traveled across the skies, thousands of Starlink satellites would effectively make [astronomical images useless](#) by leaving long [luminous trails](#). At the March 9 "Satellite 2020" conference [keynote speech](#), Elon Musk dismissed those worries and claimed that his satellites will do no harm to astronomical research – if need be, they will be painted black. This idea was tested with satellite 1130, "DarkSat". The results were [unconvincing, to say the least](#). The next generation is supposed to be [less luminous than the faintest stars that can be seen with the unaided eye](#), but this is still far too bright for astronomers' ultra-sensitive instruments, which can observe stellar objects [four billion times fainter than that threshold](#). Why did you hide, or avoid, these widely covered facts unless you are a lying shill?

The low Earth orbit region is already heavily used by scientific, remote-sensing and telecom satellites as well as the International Space Station (ISS). A large-scale increase in the number of satellites would increase the risk of [space collisions](#) and the ensuing [multiplication of debris](#) – in the worst-case scenario, it could render the LEO and near-space environment unusable. The first incident already took place: on September 2, 2019, the European Space Agency was forced to [move away one of its Earth observation satellites](#) to avoid a collision after [Starlink refused to change the path of its satellite](#). Elon Musk asserts that all the satellites be equipped with thrusters to make them fall back on Earth once they reach the end of their active life, but that doesn't reduce the risk while they're operational. Why would you hide these facts unless you are a Musk tool.

Since the first launch, [six Starlink satellites have already failed](#). If a mere 5% of Starlink's satellites broke down during their estimated lifespan of five to seven years, they would add many thousands of fragments of space debris to the [20,000 already under surveillance](#).

Musk initially planned to put a quarter of his constellation at the altitude of 1,110 km (690 miles). [Seventy-five percent were due to be placed no higher than 600 km](#) (370 miles). Below this altitude, residual atmospheric drag will eventually cause a failed satellite to fall out of orbit. On April 17, 2020, SpaceX modified its plans and [requested permission](#) for all its satellites to orbit lower than 600 km. This reduces the risk of broken-down satellite staying in high-earth orbit for centuries, but increases congestion in the low Earth orbit region.

Beyond the operational risks, building, launching and maintaining such a gigantic network of satellites would require an enormous amount of raw materials and energy. Unlike the geostationary satellites commonly used by telecoms, Starlink satellites will stay in a low Earth orbit and cross the visible sky of a given location for just a few minutes. To follow and connect to them, buyers will have to use purpose-built [phased array antennas](#). To make them affordable, they would have to be mass produced, and SpaceX has asked permission for [1 million of them](#). For starters. Why did you avoid discussing the obvious megalomania of Musk's scheme?

On March 9, 2020, Elon Musk [claimed](#) that thanks to Starlink, anybody "will be able to watch high-def movies, play video games and do all the things they want to do without noticing speed". Thus, Musk explicitly underlines his wish to reinforce already massively energy-guzzling digital activities, such as video streaming and online video games. These consume just below the whole electricity consumption of Europe (if you want figures, the world digital energy consumption of [3.834 TWh](#) expected in 2020 is comparable to the [4.077 TWh](#) for European electricity in 2018). Their [share of world greenhouse gas emissions is already 4% and could double to 8% by 2025](#).

Musk's declaration ends on an ominous note, in essence saying "My clients will be able to do whatever they want, just as I am able to do whatever I want". Why don't you discuss Musk's overt bribery of federal officials that he pays at NHTSA, DOE, FCC, SEC and other agencies, to avoid regulation?

Why do you also ignore the following assertions?

"...Elon Musk (Along with his Silicon Valley Cartel bromance frat boy buddies Eric Schmidt and Larry Page, et al) is a mobster-class criminal sociopath who hired business assassins to attack us and operated anti-trust and RICO law violating competitor "kill programs". He used his windfall of taxpayer funded cash and Goldman Sachs assisted stock market manipulations and intelligence agency staff and tools from In-Q-Tel and Google to engage in these crimes. We have demanded that the FBI arrest him and that the SEC, FTC and NHTSA prosecute him. We will make certain that his legacy, for the rest of time, reveals the true facts about his crimes and political manipulations..."

Per his own staff, ex-wives, partners, ex-founders, suppliers, FBI, SEC, Congress and private investigators. These are all statements from court reports, investigations, FBI submissions and Congressional reports. Each numbered statement is associated with a numbered witness report containing the evidence for the statement. Please pass this report around and post it on Tesla windshields. We demand a hearing, with Musk on-site, on a live Senate televised and webcast investigation hearing in Congress to go over each of these points.

Nobody On Earth Can Launder And Hide Illicit Cash Like Elon Musk. He's worth an estimated \$39 billion, but has repeatedly said he's poor. He is a scumbag liar and a crook!

In one of a series of wild tweets posted last week, [Elon Musk stated](#) he would be "selling almost all physical possessions" and that he would "own no house." He appears to be actually following through with that promise, as chronicled in a great story in [The Wall Street Journal](#) about Musk's personal finances that you should go read.

According to the WSJ, despite being worth an estimated \$39 billion on paper:

...he has to borrow, sometimes a lot, to pay for his lifestyle and business investments without liquidating shares that help him maintain control of the companies he runs. About half his Tesla stock is pledged as collateral for personal loans, an April 28 financial filing shows. Maintaining his equity stake—about 20%, or around \$29 billion at its current valuation—is important for him to keep control over the Silicon Valley auto maker.

Musk also doesn't take a salary at Tesla, but he apparently became eligible for stock options worth more than \$1 billion this week. To get that money, he will need an eye-watering \$592 million to exercise the option, according to the WSJ. It's not clear if Musk has the money on hand to exercise that option or if the money raised from the house sales will be used to help pay for the sum. "Mr. Musk said he wasn't selling his possessions because he needs the money," the WSJ reported.

The article also lists a few times Musk has said he's cash poor. Here's one example:

Before Tesla went public, Mr. Musk told a judge during a contentious divorce with his first wife that he had run out of cash and had taken on emergency loans from friends to support his family and pay living expenses.

Here's another:

Last year, Mr. Musk's ability to access cash came up again during a defamation lawsuit over comments he made about a man involved in the rescue of a Thai soccer team from a flooded cave in 2018. A lawyer in the case said in a filing that Mr. Musk had described himself as "financially illiquid."

The whole article has a lot of history about Musk, interesting information about his finances backed up by regulatory filings, and numerous quotes from Musk himself, and I sincerely recommend taking 10 minutes [to read it in full](#).

Musk has Goldman Sachs, Welles Fargo and Wilson Sonsini Mobster-Class executive bankers hide his money in a rabbit warren of HUNDREDS of trusts, shell corporations and fake charities from South Dakota, to Switzerland to the Cayman Islands to Russia.

A federal investigation to show the tentacular diagram of scams has been demanded!

FBI, SEC, FTC and citizen forensic investigators are hot on his trail, though!

These are the illicit things that sociopath narcissist Musk has engaged in with the taxpayer cash he mooched from government treasuries:

1. PRIVATE INVESTIGATORS HAVE PRODUCED REPORTS ON THE ELON MUSK AND TESLA MOTORS FRAUD, STOCK RIGGING, BRIBERY AND SAFETY INVESTIGATIONS that Musk's Silicon Valley Sandhill Road venture capitalists cover-up.
2. Musk hides his money in illicit and false-front real-estate scams to avoid taxes and to launder money.
3. "His corrupt cobalt mines promote genocide in the Congo as seen in NETFLIX Black Earth Rising".
4. "His corrupt cobalt mines promote mass rape in the Congo as seen in NETFLIX Black Earth Rising".
5. "His corrupt cobalt mines promote child slave labor in the Congo as seen in NETFLIX Black Earth Rising".
6. "He tries to bury his ill-gotten money from the taxpayers in gobs of real estate acquisitions and houses including his notorious purchase of the Vaughn DeGuigne Court mansion at 891 Crystal Springs Road, in Burlingame, California which is staged for his kinky sex parties and Illuminati-like cartel get-togethers..."
7. "His is not faithful to his girlfriends. Some of them are Ghislane Maxwell-type enablers, too, just to hang around his money and promote his sex schemes like Maxwell did for Epstein"
8. "The workers that build his batteries die or sicken from toxic poisoning and Musk tries to hide his dirty factories overseas"
9. "Tesla bribes U.S. Senators with cash and stock in order to get free taxpayer funds"
10. "He is addicted to drugs and booze"
11. "He has 'sociopath-class' mental issues and he is a narcissist..."
12. "Tesla has had more recalls for safety defects, per volume, than any other car maker. Musk refuses to allow the use of the word RECALL but the facts are the facts."
13. "It is so easy to hack any Tesla and crash it, break into it or give it bad braking orders that it is criminally negligent to allow Tesla's on the street. Even the Chinese have hacked Tesla's from the other side of the world! Tesla's have been hacked and remotely crashed, the drivers killed and Tesla covers this up..."
14. "His partner: Steve Jurvetson, has been charged with sex and corruption issues"
15. "He arranged government kick-backs with the White House"
16. His entire current existence is based on stock market scams created with taxpayer dollars and Goldman Sachs securities manipulations
17. "He is the world's biggest government mooch and has taken more taxpayer cash than anyone in U.S. History as a billionaire who does not need a hand-out"
18. "He is a member of the Palo Alto Tech Mafia operated by Stanford University gay frat house guys"
19. "Google (who is a major Tesla investor) hides all negative Musk/Tesla news in digital media globally and hypes TSLA stock in order to profiteer with Tesla stock. This is a violation of federal SEC laws"
20. "More drivers have been caught driving drunk, in Tesla's, than any other car Per Capita produced"
21. "Google boss Larry Page is Musk's 'bromance' boyfriend buddy and he uses Google to cover-up Musk's scandals"
22. "His so-called 'foundation' is just a payola and tax evasion scam for his family. It is a charity scam"
23. "His batteries are the most dangerous use of lithium ion storage ever conceived"
24. "His partner: Panasonic, has been charged with multiple corruption, dumping, price rigging and manipulation crimes around the globe"
25. "Almost all of the internet 'Tesla Fanboys' are Russian troll farms and hired bloggers that Musk pays vast amounts of money to in order to hype up a fake image for him. Musk has over 1000 click-farm and Russian troll bloggers under his employ via various false-front cover organization contractors.
26. "The drug and murder-for-hire website: Silk Road, was built at drug-enthusiast Musk's company SpaceX by Musk's programmer and Musk hires many people from a group called: In-Q-Tel, who were caught with tons of cocaine on their airplanes in a DEA raid"
27. "His SpaceX is nothing more than a domestic spy satellite company"
28. In-Q-Tel supplies a number of Musk's staff, yet In-Q-Tel has been accused of numerous criminal ventures and abuses of the public.
29. You never hear about these crimes because Musk's buddies in Silicon Valley control 90% of the global media these days and they censor any bad news about Musk in order to protect their Cartel.

30. "Musk's brain chip company tortures monkey's and other small animals in bad science experiments"
31. "His father screwed his daughter and got her pregnant. His father seems to be a pedophile and incest participant"
32. "Dianne Feinstein and her family covertly own many Musk interests and arranged for him to get his funds from the taxpayers. She helped sabotage his competitors in her district"
33. "You can't put out the fires when his batteries explode say fireman because Lithium fires are military class thermo-dynamics"
34. "The fumes from his lithium ion thermal battery vapors give you cancer, lung and brain damage"
35. Psychologists say that Musk is a self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype addict.
36. Many of us know these facts from personal interaction with Musk, his companies and his politicians.
37. Everything in these reports can be proven in a jury trial, Congressional hearings or live TV debates but Musk would rather die than face uncontrolled public scrutiny.
38. Musk will do anything to keep this information from getting out, including hiring attack services like his Fusion GPS, Black Cube, Gawker and Gizmodo Kill services.
39. While Musk's dirty deeds sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.
40. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool.
41. When you follow-the-money and the insider trading, stock ownership and crony payola kick-backs. The payola between Musk, his scummy cronies and the politicians is proven.
42. The Musk empire pays bribes in billions of dollars of Google (Where Musk's boy buddy Larry Page works), Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC
43. The Musk empire pays bribes in billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC
44. The Musk empire pays bribes in free rent
45. The Musk empire pays bribes in Male and female prostitutes
46. The Musk empire pays bribes in cars
47. The Musk empire pays bribes in dinners at fancy restaurants
48. The Musk empire pays bribes in socialite party financing
49. The Musk empire pays bribes in Sports Event Tickets
50. The Musk empire pays bribes in Political campaign printing and mailing services "Donations"
51. The Musk empire pays bribes in Secret PAC Financing. Musk's empire is a massive political financing conduit for the DNC politicians via a tentacular array of covert shell corporations, trusts, 501C's and stock bribes.
52. The Musk empire pays bribes in Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Manage Bribes
53. The Musk empire pays bribes in "Consulting" contracts from McKinsey Consulting as fronted pay-off gigs
54. The Musk empire pays bribes in Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors
55. The Musk empire pays bribes in Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff)
56. The Musk empire pays bribes in commercial Real Estate
57. The Musk empire pays bribes in Fake mortgages
58. The Musk empire pays bribes in The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts and The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts
59. The Musk empire pays bribes in Free spam and bulk mailing services owned by Silicon Valley corporations
60. The Musk empire pays bribes in the use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials
61. The U.S. Energy Dept (DOE) has been covering-up organized political crime activities in which government funds are being used as a slush-fund to pay off political campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors via Musk political conduits.
62. Political campaign financiers and government agency staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts.
63. The basic Musk scam-deal goes like this: "Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks..."
64. Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.
65. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".
66. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself.
67. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so.
68. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.
69. Musk has been professionally diagnosed as a 'psychotic narcissist.
70. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.
71. Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him.
72. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment.
73. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading.
74. His brother ran Solar City and is now under federal investigation for securities fraud.
75. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

76. Extremist politicians and their controlled news outlets refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.
77. Investor oligarch's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.
78. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk.
79. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills.
80. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a "Tesla Fan Boy" on blogs.
81. The 'Silicon Valley Mafia'; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.
82. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.
83. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
84. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!
85. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.
86. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.
87. Musk can't fix a car or build a rocket and has almost no mechanical skills he can't build or work on any of the things he made himself famous for.
88. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!
89. Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18+ men who rig stocks and valuation bumps for Musk.
90. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing!
91. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
92. All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI by those who supplied this information but Musk has yet to be arrested because crooked California politicians, who own his stock, protect him from arrest.
93. Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.
94. Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
95. When you take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries you will uncover horrible crimes engaged in to acquire it.
96. His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt.
97. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu.
98. Lithium ion batteries excrete chemicals that mutate fetuses when they burn and destroy your brain, lungs and nervous system when they burn
99. Musk's batteries kill the factory workers who make them
100. Musk's batteries cause Panasonic to be one of the most corrupt companies in the world
101. Musk's batteries poison the Earth when disposed of
102. Musk's batteries can't be extinguished by firemen
103. Musk's batteries poison firemen when they burn
104. Musk's batteries are based on criminally corrupt mining schemes like URANIUM ONE
105. Musk's batteries have over 61 toxic chemicals in them
106. Musk's batteries come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy
107. Musk's batteries and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
108. Apple products with lithium ion batteries have been exploding and setting people on fire.
109. Over time the chemical dendrites, or deposits, inside each Musk battery grow worse and increase the chances of explosion as they age -
110. Musk's LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up.
111. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.
112. "Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload.
113. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.
114. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging
115. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
116. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of

the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

117. Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.
118. Tesla Motors has caused far more deaths and injuries than the world generally knows about.
119. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.
120. In Florida two kids died in a Tesla, burned alive, screaming in agony.
121. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
122. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
123. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.
124. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to still and troll hype about lithium ion batteries and cover-up the dangers.
125. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.
126. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
127. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.
128. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.
129. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
130. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
131. Musk's "cabin boy": Jared Birchell, runs around covering up Musk crimes all day
132. Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.
133. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.
134. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

149. WE HAVE ASKED THE FBI, DOJ, OSC, SEC, FTC, GAO, U.S. CONGRESS, AND OTHERS, TO INVESTIGATE AND PROSECUTE MUSK AND HIS CRONY OPERATION!
150. ELON MUSK'S PAID-FOR MEDIA SHILLS COVER UP HIS CORRUPTION AND PUSH PUFF-STORIES ABOUT MUSK. NEVER TRUST THEM TO BE ANYTHING BUT BIASED PROPAGANDA OUTLETS. MANY OF THEM OWN TESLA STOCK: Electrek, Google, Facebook, CNN, Huffington Post, Dianne Feinstein's PR office, Nancy Pelosi, Steven Chu, MSNBC, PayPal, KPIX-TV, San Jose Mercury News, Any Hearst owned entity, The SF Chronicle, Motley Fool, Green Car Congress, The executive staff of the DNC, The NY Times, etc.
151. We saw Elon Musk commit crimes and we saw the Obama White House cover-up those crimes. We, and our associates, worked for Bright Automotive, Zap Electric, Apera, Eco Motors, XPV, The United States Department of Energy and the federal Office of Management and Budget and Tesla Motors itself. Americans have an expectation that their tax dollars will be used in a fair and legal manner and not to pay off crony campaign financiers like Elon Musk.
152. Americans have an expectation that fair market competition will decide which companies get to live or die and that no campaign financiers gets to order the White House to produce the death or success decision about any American business. Elon Musk's operation exists entirely because of criminal corruption and all of his companies must be shut down by federal law enforcement.
153. For nearly a decade, the U.S. Department of Energy has refused to comply with Freedom of Information Act (FOIA) requests for copies of Tesla Motors entire D.O.E. funding application documents. Former D.O.E. employees have shredded copies of those documents in order to keep them from being exposed to the public and the media. Why would they do that? Because those documents reveal felony criminal fraud by Tesla Motors, federal violations of the Section 136 law requirements and manipulations of the "hard-wiring" of the entire D.O.E. program. Those documents, which we have seen (and some Senate staff have private copies of) prove that, in a side-by-side comparison with all other applicants, the Tesla application was manipulation, rigged, false-reviewed and crony-advanced in order to pay-off certain campaign financiers and damage their competitors.
154. Demand that the U.S. Department of Energy stop breaking the law and comply with the FOIA requests to stop hiding the incriminating evidence in the Tesla files. Demand that the public be shown the original paper and not the later, "doctored" versions.
155. We saw Elon Musk operate an entirely illegal and unethical program based on State and Federal corruption. We told this, in writing and in person to the U.S. Attorney General: Eric

Holder, who then quit his job after we reported these facts to him.

156. We reported that Elon Musk lied about vast number of dangers of the lithium ion chemistry he was using. Nothing was done.
157. We reported that our associates at the Department of Energy were having their safety reports on lithium ion danger suppressed. Nothing was done.
158. We reported that Elon Musk's credit rating and financial records were fraudulent and amounted to "cooking the books". Nothing was done.
159. We reported bribes paid by Musk's lobbyists and associated to government officials in order to grease the skids for his crony payola. Nothing was done.
160. We reported that Goldman Sachs and Tesla Motors were operating a stock fraud pump-and-dump scam to manipulate Elon Musk's stock holdings. Nothing was done.
161. We reported over a hundred illegal and corrupt actions by Elon Musk and his mob of Silicon Valley gangsters. Nothing was done.
162. If you have an ounce of morality, then you will not want to help Musk & Tesla profit from the crony political corruption that created them. Musk exists because he bribes politicians & acts as an illegal campaign financing conduit.
163. DOT/NHTSA has covered up years of reports about an acceleration surge issue that can suddenly crash your Tesla into walls and drive it off cliffs. It is either a known hacking attack or the effect of WiFi on Tesla electronics. Either can kill you.
164. Musk & Tesla are pure evil & exist because of hyper-corruption. You don't want to contribute to their evil or be part of it in any way. You are funding evil & supporting criminal corruption by buying a Tesla or any Elon Musk owned product like Solar City, Tesla, Space X, Hyperloop, etc.!
165. Elon Musk spent more money, than any other car company in history, to do the exact same things that any other car has done, or could do, for 20 times less money. Musk's Tesla was \$100,000.00 over budget, per car, at the time that Musk was handed his crony Dept. of Energy funds by Steven Chu. Musk has no clue how to operate a car company.
166. In one lawsuit it is noted that: "...Plaintiff and Tesla both applied for funds at the same time, in the same funding cycle in the same program. Tesla had the historically epic number of horrific issues listed below, which were known to DOE at the time of application, and Plaintiffs had NONE of these issues. How can any court, or rational person, believe that Plaintiffs were not intentionally bypassed, targeted and damaged for political reasons while Tesla was simultaneously approved for political reasons, when the comparative metrics between the two applicants prove the largest merit disparity in the entire recorded history of the U.S. Department of Energy...the singular, and only, review criteria used by Department of Energy officials was: WHICH ONE BRIBED THE CAMPAIGN FINANCE GROUP FOR BARACK OBAMA?!"; Thus proving that Tesla exists because of organized-crime level political corruption.
167. Elon Musk's self-driving "autopilot" feature, which keeps crashing and failing, is his attempt to scam taxpayer cash from Dept. of Transportation and Dept. of Energy public funds. He is only trying to do it to get more free federal cash.
168. The inventor of lithium ion batteries has confessed that lithium ion batteries blow up eventually. He says that deadly dendrites plague lithium-ion battery technology. The dendrites accumulate as part of the standard charging and recharging cycle and eventually cause a short circuit that often results in a smoldering or burning battery. These dendrites are destined to eventually blow up most Tesla cars and many electronic devices using lithium ion!
169. The CIA's software designed to take over any Tesla on Earth and kill the driver, passengers and bystanders has been released in the wild and every hacker on Earth can now easily get a copy of it and kill you in your Tesla!
170. Ex-employees have leaked faked financial records, evidence of massive click-farm fake social media manipulation and evidence of unreported deaths and accidents. They say that most Tesla's have one kind of defect or another.
171. If you read about the dirty deeds and cocaine dealings with the In-Q-Tel airplanes called "Cocaine 1" & "Cocaine 2", & the corruption behind the company called In-Q-Tel & Musk's software programmer who ran "The Silk Road" drug & murder service then you must be concerned that many In-Q-Tel people work for Musk. Why does Musk need dirty druggies & spies on his payroll unless he is running covert drug and business spying activities?
172. Ex-employees, Gawker writers and gay lawyers from Covington & Burling have leaked stories that Elon Musk, Reid Hoffman, Larry Page are "butt buddies".
173. Musk is anti-American and Anti-Worker Rights and has been caught flying in H1-B cheap offshore labor and exploiting immigrants for his deadly profits. Musk hates unions and worker rights efforts.
174. Elon Musk gets the Cobalt chemical to make his lithium ion batteries from slave trade and blood-money corruption in the Congo!
175. The lithium ion batteries that Musk uses also blow up when they naturally encounter Low Energy Nuclear (LENR) effects in the ambient environment. Millions of chemicals don't blow up from LENR'd but lithium ion does!
176. If you are a Democrat then know that Elon Musk cost you the Hillary Clinton campaign because of his payola schemes. If you are a Republican, know that Elon Musk is the epitome of the worst form of DNC crony corruption you ever saw!
177. Musk bribed California politicians to give him hundreds of millions of dollars of taxpayer dollars & resources he never earned or worked for. He only got those crony payola perks handed to him because he operated as an illicit front for corrupt campaign financing for Dianne Feinstein, Jerry Brown, Harry Reid, Barack Obama and Hillary Clinton.
178. Multiple parties have filed "Demands For The Arrest of Elon Musk" with the FBI, DOJ, AG, FTC, SEC and other law enforcement agencies. It is not likely that Musk, or his companies will survive a full investigation.
179. Tesla and Solyndra sit on the same land in Fremont, CA. Solyndra was raided by the FBI for corruption. Tesla SHOULD be raided by the FBI for corruption. Both companies had kick-back crony payola schemes with Senator Dianne Feinstein. She owned the land, lease, HR, construction company and supplier interests and stock for both companies in one of the most massive conflict-of-interest crony financing schemes in U.S. history. Elon Musk and the Feinsteins are corruption partners.
180. People who see you in a Tesla think of you as a "Tone Deaf Douchebag", "Tesla Tool!", "Arrogant Prick", "Ostentatious Obama Oaf", "Sheep", "Mindless Yuppie Scum", "Misogynistic Silicon Valley Clone", "Self-promoting Elitist Douche", "Fake News Reading Main Stream Boob", "Naive Idiot" or other bad things.
181. Elon Musk is one of the main financiers behind Barack Obama & Hillary Clinton, both of whom have been charged with corruption. Musk endlessly tweets lies & "...No I didn't do those bad things" BS but nobody else supports him.
182. Tesla financial records are "cooked" in a fraudulent manner to make the stock market valuation of Tesla a falsely manipulated factor. Musk uses "pre-orders", by his own investors, to fake sales and wrote emails to customers asking them to put small deposits down so he could book them as fully paid sales in one of a large number of stock and loan valuation frauds. Musk and his investors practice stock market skims, pump-and-dumps and Flash Boy manipulations.
183. Lithium ion batteries are blowing up, starting fires &, generally, destroying people's homes, cars, electronics & physical health. Boeing was ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously. A group of silicon valley venture capitalists forced/leveraged the government to buy & pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about the dangers from day one, but put greed ahead of safety. There are thousands & thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's & the Senators they bribed own stock in lithium mining companies too.
184. Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer: "Thermal runaway is of major concern since a single incident can lead to significant property damage &, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, & sufficient heat to lead to the combustion & destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke & fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked". See <http://whoiselonmusk.com> for more...

185. Tesla's own staff, & every fire department, have now admitted that once a lithium ion fire gets started in a Tesla, that it is impossible to extinguish burning lithium ion material. This is Tesla's own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can "go thermal", start a chain reaction and blow up all of the rest of the 6800+ deadly batteries! Tesla drivers have been burned alive in thermal globs of flaming lithium ion, plastics & metal. Bystanders have heard their horrific screams of unutterable pain & terror as they were burned alive! Tesla fires can't be extinguished & the bodies are burned into "unrecognizable lumps of charred flesh", according to fireman.
186. Lithium ion batteries "go thermal" in peoples pockets, in your notebook, especially in a Tesla & Fisker car. There are tens of thousands of articles documenting this & there is a cover-up by the VC's that fund these things to keep this fact out-of-sight. Making Lithium ion batteries poisons the workers who make them. It is a dangerous product that is covered-up by the Obama Administration. Panasonic knows that these batteries are deadly.
187. Tesla only exists to exploit Elon Musk's bribes. The lithium ion batteries blow up when they get: wet, hot, bumped, over-charged, struck by energy fields, exposed to air or squashed. Lithium ion batteries poison the Earth & that they poison & kill the workers that make them. Lithium ion batteries come from war profiteering in Afghan & Bolivian corruption
188. Panasonic is Elon Musk's partner. Panasonic is one of the most corrupt companies in the world. Panasonic has been charged, on multiple continents with: Product dumping, bribery, collusion, price fixing, anti-trust law violations, racketeering, worker abuse, toxic poisoning of workers, & other crimes. It is no wonder that Elon Musk & Panasonic are partners. Tata Motors executive Karl Slym was killed for exposing this fact.
189. Your tax dollars were stolen in order to make Tesla Motors, as part of a political financing kick-back scam. In other words, part of your paycheck was taken away from you in order to buy hookers, rent-boys & private jets for Musk & company.
190. Tesla's are forged in criminal corruption, so anybody who drives a Tesla must be either ignorant, a weasel or one of the corrupt. The whole world now knows all of the facts in this list so you can never plead ignorance to these crimes.
191. Tesla's have a huge amount of highly documented defects. The defects are so extensive that Tesla made buyers sign confidentiality agreements to try to hide how messed up their cars are.
192. Tesla's have killed more people than the main-stream news has reported. The full Tesla death-list is covered up.
193. Musk lied about why he wanted to make electric cars, when, in fact, he actually poisons the environment because Tesla investors wanted to exploit toxic minerals & materials which can't be recycled in a clean manner
194. No other electric car has been so mundane, & yet had so many problems with it, since the electric car was first sold in the 1800's. There is nothing "novel" or "amazing" about the Tesla aside from dime store parlor tricks for PR hype.
195. More drunks have crashed Tesla's, than any other per capita car in the world, per volume of cars made
196. Elon Musk's co-founders, investors, partners, wives, investors, suppliers & employees have sued him for being a fraud &, essentially, called him an "asshole" in court records.
197. Elon Musk lied on this Department of Energy funding application and the Obama Administration refuses to allow any federal employees or witnesses to testify to these facts in public due to the devastating potential results of these facts.
198. More owners of Tesla's have been found to cheat on their taxes, & be involved in abuse-based divorces, than almost any other car brand owner. Tesla owners are bad people who rationalize their poor life choices. Owning a Tesla is a red-flag for a tax audit!
199. Elon Musk will lie, cheat & steal in order to self-aggrandize & glorify his egotistical mania. Musk has been documented engaging in over 100 lies which were later proven to be false. He has spent tens of millions of dollars to buy fake news about himself on Twitter, Facebook & Google because he is such a mentally disturbed ego-maniac.
200. None of Elon Musk's companies would exist if not for taxpayer funded handouts given to him by corrupt politicians in exchange for illegal campaign finance deals with him & his investors.
201. Google, & Tesla, who are financial & political partners, have both been caught spying on consumers & manipulating Internet data in order to cover-up their complicity in huge political corruption & kick-back deals
202. Musk took U.S. taxpayer dollars from the government & then hired cheap off-shore labor & fired U.S. Union workers & domestic workers. He lied to & screwed the NUMMI workers that were working at the Fremont plant.
203. Musk has put over 18 surveillance devices in the Tesla. Anybody can hack those devices & monitor you. WORSE YET, foreign agents have hacked the Tesla & taken over the controls & driven Tesla's into bystanders & over cliffs.
204. When Erick Strickland was head of the NHTSA he was confronted about DOT safety cover-ups of the Tesla to protect Obama. He quit 48 hours later. The DOT safety cover-ups to protect the Obama campaign finance payola scheme continue to this day. Obama's Gibbs, Emanuel, Plouffe, Axelrod and Carney quit within a week of being threatened with exposure.
205. Elon Musk paid some of the largest bribes in the history of China, facilitated by Dianne Feinstein and her Chinese spy connections, in order to get his China factory opened.
206. Tesla's have had a large number of recalls but Elon Musk refuses to call them "recalls". Tesla's have had multiple recalls for SEVERE safety dangers. DOT has been told this, in writing, for years, but won't take action in order to protect Obama.
207. Elon Musk is a bullshit artist who has no original ideas & wears black-turtle neck shirts (like Elizabeth Homes) to try to create a "cult" around himself & convince the world that he is a "Jesus-like" figure when, in fact, he is a clinical sociopath.
208. Tesla is a severe public safety hazard that has been systematically covered up by corrupt politicians.
209. Large numbers of Ex-CIA staff and In-Q-Tel spy staff work for Musk. Why does he need spies to build cars?
210. Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields. Kleiner Perkins and Draper Fisher hyped the "...trillions of \$ of lithium in Afghanistan."
211. Tesla Motors batteries blow up on their own because their chemistry causes them to be naturally defective.
212. Tesla Motors batteries blow up when they get wet because their chemistry is activated by water to make them explode.
213. Tesla Motors batteries fires cannot be put out by any common fire-fighting resources.
214. Tesla Motors batteries set themselves on fire.
215. Per Federal MSDS disclosure documents, Tesla Motors batteries emit cancer-causing vapors when they burn.
216. Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, & environments where such incidents occur.
217. Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper.
218. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive.
219. Tesla has multiple sexual harassment and unsafe work-place lawsuits against the company.
220. Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn

221. Tesla is a stock pumping scam to profiteering on stock market peak manipulation at the expense of taxpayers.
222. Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus within the mother
223. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage.
224. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage.
225. Per published lawsuits & news reports, the factories that make Tesla Motors batteries have been charged with the deaths, & potentially fatal illness, of over 1000 workers & the poisoning of nearby towns.
226. Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards & Tesla's. The chemistry in a lithium ion battery changes to become more unstable over time.
227. Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible.
228. Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants.
229. Elon Musk's Space X vehicles & Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR.
230. Leaked Sandia National Labs & FAA research videos dramatically demonstrate the unstoppable, horrific, "re-percussive accelerating domino-effect" explosive fire effect of the Tesla Motors batteries.
231. Tesla's own "Superchargers" & home 3-prong chargers have set Tesla's, homes & businesses on fire
232. Consumer rights groups contacted Erick Strickland, the head of the NHTSA, & charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests & lobbyist bribes, from Tesla, which got the investigation shut down.
233. NEPA regulations for the Tesla NUMMI factory in California & the Nevada Tesla "Gigafactory" have been violated relative to environmental safety standards.
234. Tesla Motors vehicles are not "Factory Built" "like Ford" builds cars, as Tesla professes. They are hand built in small volumes & subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing.
235. Tesla's "showrooms" are often "pop-up" retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage.
236. Tesla Motors vehicles have been hacked & taken over. Their doors, steering, listening devices & navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved off the road, over cliffs & into other vehicles, killing bystanders & Tesla drivers.
237. Three Tesla top engineers & two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day.
238. Multiple employees, founders, investors, marital partners, suppliers & others have sued Tesla Motors, &/or it's senior executives for fraud. Musk had nothing to do with creating Tesla. He ran a hostile take-over of Tesla from the founders.
239. In addition to suing him, many of his former staff & partners have described Musk as an "Arrogant Prick".
240. Main-Stream Media (MSM) have agreed not to provide news coverage of the deadly defects of the Tesla because the MSM are owned by the same politicians who own Tesla Motors. It is now legal to sue The New York Times for hiding these deadly defects, though, particularly if your family member was injured or killed because they covered-up the danger for political reasons.
241. If you think the above bullet-points are bad there are over a 1000 more. Find the book "Is Elon Musk A Fraud" online or visit <https://stopelonfromfailingagain.com/> or thousands of other sites that expose the truth about Musk & Tesla!
242. BANKRUPT MUSK – NO CASH FOR CRONY CORRUPTION. Print this out & freely re-post it on blogs & social media. Post this on bulletin boards. Put this on the windshield of every Tesla you find. Print this out & hand these out in front of every Tesla dealership: Nobody can stop you from handing these out, it is your U.S. Constitutional First Amendment Right! Pass the word! We are prepared to back up every single fact on here at any public meeting with the FBI, Congress, FTC, GAO, SEC or before a Federal Special Prosecutor.
243. The crash of a Tesla Model X through the home of South Korean singer and actor Ji Chang Son. The crash ended with the nose of the vehicle in Ji Chang Son's living room after the Tesla malfunctioned. Hundreds of such Tesla crashes have occurred, resulting in the deaths and injuries of Tesla owners, passengers, bystanders, oncoming drivers and others.
244. Following accusations by a Korean celebrity that a Tesla car spontaneously drove through a wall, the carmaker has replied that the crash was "entirely due to the man's horrible driving" in an ongoing effort, by Tesla, to steer the blame away from Tesla faulty engineering Actor and singer Son Ji-chang (identified as Ji Chang Son in court documents) claimed he was parking his Tesla Model X SUV when the vehicle suddenly [lurched forward into his living room](#).
245. In a lawsuit filed last week in California, Son claimed that the crash was due to "sudden unintended acceleration" and sought class-action status with other Model X owners. In a nod to the car's ability to sense and avoid crashes, the lawsuit also hinted that the Model X should not be allowed take actions that the car "knows will result in the collision with a fixed object."
246. In June, another California-based Model X owner, Puzant Ozbag, similarly claimed that his Model X spontaneously accelerated through a parking lot and into a wall. A special prosecutor is needed to investigate Tesla due to the huge number of cover-ups, by Tesla and the Obama Administration, to protect campaign financier Elon Musk. Jeff Sessions needs to hire a [lawyer](#) from outside the [government](#) appointed by Sessions as [attorney general](#) or, in the United States, by [Congress](#) to investigate a government official for misconduct while in office. A reasoning for such an appointment is that the governmental branch or agency may have political connections to those it might be asked to investigate. Inherently, this creates a [conflict of interest](#) and a solution is to have someone from outside the department lead the investigation. The term "special prosecutor" may have a variety of meanings from one country to the next, from one government branch to the next within the same country, and within different agencies within each government branch. Critics of the use of special prosecutors argue that these investigators act as a "fourth branch" to the government because they are not subject to limitations in spending, nor do they have deadlines to meet.
247. Attorneys carrying out special prosecutor functions in either federal or state courts of the United States are typically appointed [ad hoc](#) with representation limited to one case or a delineated series of cases that implicate compelling governmental interests, such as: Fraud (SEC, Complex, Cybercrime, Mortgages), Public Corruption, Money Laundering & Asset Forfeiture, Civil Rights, Racketeering Across State lines, Environmental Protection, National Security, Tax & Bankruptcy, Organized Crime, or International cases where the US is a party)[1] Special prosecutors in courts of the [United States](#) may either be appointed formally by one of the three branches of government in a criminal proceeding, or when dictated by federal law or regulation, or informally in civil proceedings, and also by one of the three branches of government, or by a non-governmental entity to prosecute alleged unlawful conduct by government agents. When appointed by the [judicial branch](#) to investigate and, if justified, seek indictments in a particular judicial branch case, the attorney is called special prosecutor.[2] When appointed/hired particularly by a governmental branch or agency to investigate alleged misconduct within that branch or agency, the attorney is called [independent counsel](#).[3] When appointed/hired by the state or political subdivision to assist in a particular [judicial branch](#) case when the public interest so requires, the attorney is called [special counsel](#).[3] When appointed/hired by an organization, corporation, person or other non-governmental entity to investigate and, if justified, seek indictments against one or more government officials for acts committed under color of law, the attorney may be called [special counsel](#) or special prosecut. The term is sometimes used as a synonym for [independent counsel](#), but under the former law authorizing the independent counsel, the appointment was made by a special panel of the [United States Court of Appeals](#) for the [District of Columbia Circuit](#). The [Ethics in Government Act](#) expired in 1999, and was effectively replaced by [Department of Justice](#) regulation 28 CFR Part 600, under which Special Counsel [Patrick Fitzgerald](#) was appointed to look into the [Plame affair](#). The Tesla Motors and Elon Musk Case requires a Special Prosecutor.

251. Elon Musk's Incredible Smoke And Mirrors Dance. Elon Musk's untraceable money laundering and political bribery scam has now been exposed. It is called an "Invisible Bridge". It

is the way that covert funds move through a secret conduit of close associates and family members. Elon Musk is at the head of the conduit and his mother, brother and associates Tim Draper, Steve Jurvetson, and George Soros round out the other tentacles. With operational links through Wells Fargo Bank, Silicon Valley Bank and Goldman Sachs, the scheme is perfected corruption. The "bridge" uses a combination of fake tax evasion charities and business assets, passes through Senator's pockets and is never visible to the FBI, the FEC and the SEC unless they have very good agents assigned to the matter.

252. NTSB, DOJ, SEC and FEC have been blocked from action by DNC lobbyists.
253. The overt and arrogant Musk misdeeds have now become "obvious and RICO-violating..."
254. He is protected by Senators Reid, Harris, Pelosi and Feinstein. They are beneficiaries of the scam. Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.
255. He is protected by the Clinton and Obama organizations along with most of the DNC. He finances these politicians via this scheme.
256. The U.S. Dept of Energy (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for Fusion-GPS attacks on Silicon Valley business competitors.
257. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.
258. Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader.
259. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries"
260. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.
261. Musk has been professionally diagnosed as a 'psychotic narcissist.
262. Musk uses shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.
263. A huge number of Tesla drivers, per capita, have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.
264. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.
265. VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.
266. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.
267. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.
268. Main Stream DNC-biased News organizations who refuse to cover the story reveal themselves as shills for Musk
269. The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone.
270. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.
271. The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.
272. Musk holds the Silicon Valley record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.
273. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
274. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them.
275. <https://stopelonfromfailingagain.com> reveals even more Musk lies.
276. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!
277. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation.
278. Musk's "Mars" scheme is just a PR distraction to keep the news from looking too close at SPACEX domestic spying satellites.
279. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.
280. Musk can't fix a car or build a rocket and has almost no mechanical skills.
281. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections.
282. NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business.
283. Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.
284. Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.
285. The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX
286. Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.
287. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
288. All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

289. Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both companies.
290. Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
291. The 'lithium' in Musk's horrifically miss-engineered lithium ion batteries cause wars in the Congo over mining corruption.
292. Afghanistan and Bolivian mobsters benefit from the corrupt mining deals involved with mining lithium and cobalt for Elon Musk's batteries.
293. Elon Musk opened a factory in China to try to avoid American worker safety laws because all of the labor cheats and safety violations he had engaged in, in America, were catching up to him. He neglected to provide adequate worker safety to quarantine for the coronavirus, though.
294. Elon Musk's Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu and they engaged in extreme conflict-of-interest to help Musk.
295. Elon Musk's Lithium ion batteries excrete chemicals that mutate fetuses when they burn.
296. Elon Musk's Lithium ion batteries destroy your brain, lungs and nervous system when they burn.
297. Elon Musk's Lithium ion batteries kill the factory workers who make them.
298. Elon Musk's Lithium ion batteries cause Panasonic to be one of the most corrupt companies in the world.
299. Elon Musk's Lithium ion batteries poison the Earth when disposed of.
300. Elon Musk's Lithium ion batteries can't be extinguished by firemen because water makes them explode even more and then explode again hours later.
301. Elon Musk's Lithium ion batteries have chemical dendrites and deposition massing issues (revealed by X-Ray analysis) which makes them more and more likely to explode as they age.
302. Elon Musk's Lithium ion batteries poison firemen when they burn.
303. Elon Musk's Lithium ion batteries are based on criminally corrupt mining schemes like URANIUM ONE.
304. Elon Musk's Lithium ion batteries have over 61 toxic chemicals in them.
305. Elon Musk's Lithium ion batteries come from an industry that spends billions on internet shills and trolls that they hire to nay say all other forms of energy
306. Elon Musk's Lithium ion batteries are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
307. Apple products with lithium ion batteries have been exploding and setting people on fire.
308. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.
309. Tesla owner's had had more DUfs, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.
310. Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.
311. Political activist George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.
312. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging.
313. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
314. There have been thousands of defect reports filed on Tesla cars.
315. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.
316. If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions".
317. Water makes Tesla batteries explode.
318. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.
319. Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading owner-ships.
320. Tesla Motors has caused far more deaths and injuries than the world generally knows about.
321. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.
322. In Florida two kids died in a Tesla, burned alive, screaming in agony.
323. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
324. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
325. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.
326. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public.
327. Elon Musk's Lithium ion battery partners spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.
328. Lithium ion EVs are more prone to battery fires.
329. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
330. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.

331. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Another whistle-blower has suggested they were killed in a "Boston Brakes" hit-job.
332. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
333. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.
334. Musk uses Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
335. Musk buddies: Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.
336. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.
337. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.
338. Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.
339. THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!
340. THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!
341. THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!
342. The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year without stock markets scams being used to keep it alive.
343. Tesla again fell far short of its own production targets for the mass-market Model 3 sedan
344. Another person died in a crash involving its assisted-driving feature.
345. Musk entered into a public dispute with federal safety regulators.
346. Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September but Silicon Valley Vc's will pump it up to save face.
347. No one has raised or spent money the way Elon Musk has; Nor has any other chief executive officer of a public company made a bankruptcy joke on Twitter at a time when so much seemed to be unraveling.
348. Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to data compiled by Bloomberg. Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2. Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>
349. In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.
350. One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.
351. Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.
352. Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.
353. Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the slower-than-expected pace of production means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."
354. There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.
355. Elon Musk cooked the books by emailing interested sales prospects and asked them to put a deposit down before each quarter ended so he could book their tiny deposits as fully transacted \$60K+ "sales" before each quarter closed.
356. Elon Musk and SpaceX are being sued by multiple employees for "lying about safety standards, safety records" and deadly safety defects.
357. The Elon Musk Tesla Money Laundering Board Of Directors is as full of fraud and corruption as Musk. Birds of a feather stick together and the Jurvetson, Draper, Musk, et al; clan of corruption runs deep. The Board of Directors can't operate their scam without the whole pack of thieves and liars in place. An outsider will break their swamp of tax evasion, Dark Money political bribes, off-shore cash, self-dealing, book-cooking, real estate fraud, expense padding and other nefarious deeds.
358. Dianne Feinstein's family member: Herb Newman of Sausalito, California's HR firm: Newman Search (415 332-8425) has a company as of 1972 with the sole purpose of setting up investment bank deals with the People's Republic of China. Feinstein arranged for Newman to provide the staffing for Tesla and Solyndra. Dianne Feinstein has been under investigation for spy activities with China and her senior aide was arrested as a Chinese top spy. In 1973 Mr. Newman arrived in Canton at the invitation of the Chinese Council for the Promotion of International Trade. (CCPIT). He and his company MVTIC were one of fifty businesses to be invited to the Canton Trade Fair held in Kwangchow China. In 1978 Mr. Newman founded China Investments and in partnership with California Trade Delegations both companies as members of the San Francisco Chamber of Commerce began taking US Corporations to China. Mr. Newman along with one of his associates at the time Mr. Darryl Schoon helped organize Senator Dianne Feinstein's first trip to China in conjunction with the San Francisco Chamber of Commerce. Herb Newman, Mart Bailey and Feinstein's Husband; Dick Blum are on intelligence agency watch-lists, and under electronic surveillance, for potentially corrupt deals with China, Tesla and Solyndra.
359. Dianne Feinstein's husband owns CBRE which owns the real estate contracts for both Tesla and Solyndra.
360. Dianne Feinstein's family owns interests in the construction companies hired by both Tesla and Solyndra.
361. Dianne Feinstein had her staff warn other California businesses away from using the NUMMI car factory in order to protect the real estate deal for both Tesla and CBRE, which is owned by her husband.
362. Tesla began real estate deals in multiple states and then cancelled them at the last minute, which got them sued for fraud and charged with "lying" to different communities. They started, and then pulled out of these different building (San Jose, Southern California, New Mexico, Etc.) deals, because CBRE and Feinstein were trying to leverage real estate profit exploitation using taxpayer funding.
363. Panasonic and Tesla have known for decades that the Panasonic 18650 batteries used in the Tesla suffer from multiple chemistry degradation defects which will almost always make them eventually explode or "go thermal". The defects include: 1.) LENR activation, 2.) Dendrite lengthening, 3.) Particle congealing, 4.) Chemistry evolution and other defects. The Tesla projects is, essentially, a failed product product dumping effort of a failed and dangerous battery product.

364. Elon Musk has demanded that his employees sign "loyalty pledges", "vows" and engage in Omerta's in order to keep the corruption details of Tesla from being exposed to the public.
365. Tesla insider Antonio Gracias is the mob boss insider at Tesla who arranges media hit-jobs on those who displease Musk.
366. The NHTSB has issued requests to Tesla for safety tests and data that Tesla never complied with. Instead, Tesla paid bribes, which were referred to as "fees" to avoid having to complete those tests. An independent group of outside investigators issued a damning safety report to the NHTSB demanding that Tesla be compelled to produce the safety tests in 2010 but Obama appointed NHTSB executives buried the report and protected Tesla in order to keep the connection between Obama's funding and Tesla protected. NHTSB boss: Strickland, an Obama insider, was confronted with this in Washington, DC and resigned from his job 48 hours later. NHTSB has still not acted on the severe Tesla safety defects that have been reported since 2009.
367. An SEC investigation of Musk uncovered horrific evidence of Musk corruption but the SEC could not report or act on it because Obama congressional bosses and lobbyists got the SEC investigation "limited" to only examine a single Twitter "Tweet" from Musk.
368. Elon Musk is protected by top DOJ, SEC, CFTC, FEC and other Obama left-over staff as well as 45 U.S. Senators and top Federal Reserve members and Goldman Sachs, who live in terror that exposure of the entire Elon Musk financial food-chain will topple the entire DNC Dark Money payola scam. This is the reason that Tesla can get away with so much obvious and overt corruption and still continue operations. Tesla Motors book-cooking, financial frauds and political payola conduits, if fully revealed, would change the course of political influence in America.
369. Elon Musk has been sued by a man that Musk called a "Pedo", yet Musk's own father has been accused of child sex abuse, racism and, indeed, got his own daughter pregnant!
370. Elon Musk's mother has been accused of being a "self-indulgent trophy wife" who Musk was trained by to be an arrogant elitist. Her hatred of black people was imbued on Musk who has been sued by black people at his company for "running a racist culture".
371. Elon Musk divorced the same woman twice because she knew his dirty little secret and threatened to out him if he did not keep the deal going. She was hired to "act" as his wife.
372. Musical artist Iggy Azalea was at a Musk Party, with other friends, who captured Elon Musk on video on drugs and in weird sex acts. Musk had Iggy's camera stolen at the party to hide the evidence but he did not get the other cameras and did not realize that some of those cameras placed their images and videos directly on the Cloud, where hackers acquired them.
373. With cover-up help from Eric Holder, Steven Chu, Obama, Valarie Jarret, DNC FBI agents, Perkins Coie, Covington and Burling, Wilson Sonsini, etc; sociopath Musk actually believes he is "untouchable" and that he can get away with anything. His downfall will be the same downfall of every narcissist sociopath oligarch throughout all of recorded history.
374. Elon Musk is a drug addict. A simple urine and blood test proves it. Musk's downfall and the downfall of John DeLorean are seeming to align.
375. Dianne Feinstein and Nancy Pelosi are violating the law protecting Tesla by withholding investigations and prosecutions? Why are they allowing American citizens to continue to die from the 1.) "sudden acceleration electronics defect"; 2.) "The failed Auto-pilot electronics defect"3.) "The deteriorating and deadly lithium ion batteries" and 4.) numerous other defects widely documented in the news media and filed lawsuits?
376. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.
377. The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors.
378. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.
379. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".
380. The Silicon Valley Paypal Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.
381. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
382. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them. <https://stopelonfromfailingagain.com> reveals even more Musk lies.
383. THIS corruption is what all of the big political scandals are about today!
384. THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!
385. THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!
386. THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!
387. THIS can all be proven in jury trial and in live televised Congressional hearings!
388. This is all being covered up because top State and Federal officials are in on it, own the stock in it and are so deeply involved in it that they could go to Federal prison when this all comes out.
389. The anxieties that lurk beneath the tremendous ambition of Tesla Inc. moved into the forefront in recent weeks. The company again [fell far short](#) of its own production targets for the mass-market Model 3 sedan, another person [died in a crash](#) involving its assisted-driving feature and Musk entered into [a public dispute](#) with federal safety regulators. Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.
390. There's a good reason to worry: No one has raised or spent money the way Elon Musk has. Nor has any other chief executive officer of a public company made a [bankruptcy joke](#) on Twitter at a time when so much seemed to be unraveling.

392. In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.A
393. lot of Musk's money has been extracted from suckers, who think he is God's gift, as Bloomberg reports:One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.
394. Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

398. The consumer psychology that sees hundreds of thousands of people essentially extending an interest-free loan to a public company is unusual, to say the least. I think the phrase "more money than sense" rather sums it up
399. Apple and Google also named in US lawsuit over Congolese child cobalt mining deaths for Elon Musk's Tesla Cars. Dell, Microsoft and Tesla also among tech firms named in case brought by families of children killed or injured while mining in DRC. [I saw the unbearable grief inflicted on families by cobalt mining. I pray for chan Elon Musk's cobalt extraction in DRC](#) has been linked to child labour.
400. A landmark legal case has been launched against the world's largest tech companies by Congolese families who say their children were killed or maimed while mining for cobalt used to power smartphones, laptops and electric cars, the Guardian can reveal.
401. Apple, Google, Dell, Microsoft and Tesla have been named as defendants [in a lawsuit filed](#) in Washington DC by human rights firm [International Rights Advocates](#) on behalf of 14 parents and children from the Democratic Republic of the Congo (DRC). The lawsuit accuses the companies of aiding and abetting in the death and serious injury of children who they claim were working in cobalt mines in their supply chain.
402. The lawsuit argues that Apple, Google, Dell, Microsoft and Tesla all aided and abetted the mining companies that profited from the labour of children who were forced to work in dangerous conditions – conditions that ultimately [led to death](#) and serious injury. The families argue in the claim that their children were working illegally at mines owned by UK mining company Glencore. The court papers allege that cobalt from the Glencore-owned mines is sold to Umicore, a Brussels-based metal and mining trader, which then sells battery-grade cobalt to Apple, [Google](#), Tesla, Microsoft and Dell.
403. Other plaintiffs in the court documents say they worked at mines owned by Zhejiang Huayou Cobalt, a major Chinese cobalt firm, which the lawsuit claims supplies [Apple](#), Dell, and Microsoft and is likely to supply the other defendants.
404. Another child, referred to as John Doe 1, says that he started working in the mines when he was nine. The lawsuit claims that earlier this year, he was working as a human mule for Kamoto Copper Company, carrying bags of cobalt rocks for \$0.75 a day, when he fell into a tunnel. After he was dragged out of the tunnel by fellow workers, he says he was left alone on the ground at the mining site until his parents heard about the accident and arrived to help him. He is now paralysed from the chest down and will never walk again.
405. Other families included in the claim say that their children were killed in tunnel collapses or suffered serious injuries such as smashed limbs and broken spines while crawling through tunnels or carrying heavy loads. The families say that none were paid any compensation for the deaths and injuries.
406. One of the central allegations in the lawsuit is that Apple, Google, Dell, Microsoft and [Tesla](#) were aware and had "specific knowledge" that the cobalt they use in their products is linked to child labour performed in hazardous conditions, and were complicit in the forced labour of the children
407. Is is charged that the Musk empire is an organized crime program that exists between Silicon Valley tech oligarchs, investment banks, U.S. Senators, government agency staff and White House staff who engage in these crimes.
408. That public officials knowingly participate in these crimes by failing to report their associates who engage in these illicit actions and by hiring suppliers who operate these illicit activities.
409. That the Musk empire suspects manipulate government funds for their personal profiteering at the expense of domestic citizen taxpayers like us.
410. That the Musk empire suspects operate a vast stock market manipulation program, as a core function of their operations, and those illicit deeds function at the expense of the public to render unjust gain to public officials.
411. That the Musk empire suspects contract a known group of lobbyists, corrupt law firms, unethical CPA's, corrupt investment banks and specialized corruption services providers to attack, defame, physically harm, character assassinate, black-list and/or kill those they dislike and they harmed many persons with those acts.
412. That the Musk empire suspects operate an Epstein-like sex-trafficking network of prostitutes and sexual extortion activities and locations for the engagement of said activities and for the bribery of cohorts via sex workers and that Musk was a personal associate of Jeffrey Epstein.
413. That the Musk empire suspects engage in electronic attacks and manipulations including hacking, election manipulation, media censorship and internet search results manipulation in order to mask their schemes.
414. That the Musk empire suspects engage in Lois Lerner-like, SPYGATE-like, VA whistleblower-like reprisal and retribution attacks using government agencies like SSA, DOJ, FBI, LSC, HUD, HHS, DOE, Etc
415. It is demanded that Elon Musk be arrested on RICO Racketeering, Anti-Trust, Tax Evasion, Bribery, and related charges!
416. Elon Musk had sex with a young non-age-appropriate rock and roll girl and got her pregnant.
417. Elon Musk dated anal sex advocate Gwyneth Paltrow who later told her friends that he was full of shit.
418. Elon Musk divorced one actress, then had to remarry her because she had the goods on him.
419. Video exists of Elon Musk at various sex parties.
420. Elon Musk dated Johnny Depp's girlfriend Amber Heard who thought that Musk was even more controlling than Johnny Depp.
421. The NUMMI car factory that Musk took over was first called, by Musk, in the media "non-functional". Even the two major car makers that were using it had abandoned it. Feinstein make Musk take it because here husband's company: CBRE Realty, managed the property around it.
422. Musk never made good on his promises to NUMMI workers or the Unions representing the NUMMI factory.
423. After getting an insane amount of exclusive free cash from the taxpayers, Musk flew workers in from overseas.
424. Multiple women have charged Musk for sexual abuse and factory misogyny.
425. Musk couldn't make it in college and bailed out.
426. Far more SpaceX rockets have exploded and fully failed than the public is aware of.
427. Musk said he would already have sent his buddies around the moon but many potential passengers have bailed out after they saw the due diligence on SpaceX lack of experience.
428. Musk, Draper, Page, Westly, Schmidt, Brin and other famous tech asshole billionaires have formally agreed to run a "cartel" to control news, information and industries.
429. Inside the Tesla that Elon Musk had SpaceX put in orbit is a "confession folder" that would destroy Musk if anyone went up and got it.
430. Elon Musk believes he could kill someone and not get in trouble because he has so many California Senator's, Tier one law firms and former White House staff protecting him.
431. Elon Musk is the Citizen Kane of the modern world. He thinks he is the Al Capone of Technology. He uses things that appear to be all "crunchy granola" on the surface to steal taxpayer subsidies with the help of corrupt politicians.
432. Aside from Musk's own personal dirty operations and orders, the largest facilitator of his crimes is the large group of men inside Goldman Sachs and JP Morgan dedicated to supporting his crimes and corruptions.
433. Through covert conduits, Elon Musk pays blogger James Ayre to shill his schemes online.

434. Musk's entire media plan is self-promotional aggrandizing and fake virtue-signaling to keep the news off his case.
435. The SEC made him quit but he just changed one letterhead graphic and nothing else. Musk still runs Tesla and the rest of the empire just like he always did.
436. Musk covertly funds abortion projects because he gets so many girls pregnant and refuses to use a condom.
437. Deutsche Bank is the other biggest player in the Musk Empire money laundering, political payola and corruption crimes.
438. Musk stole most of his designs from others, as proven by the U.S. Patent office and previous publications.
439. When Elon Musk's Hyper-loop crashes, it will turn all of the passengers into a bloody applesauce like nightmare.
440. Musk's 5G SpaceX Starlink Satellites could destroy the environment, will add to the cancer-causing radiation of the Earth and are to be used to spy on consumer's uses of the internet.
441. In lawsuits, Musk always pleads that he "has no money".
442. X-Ray analysis by over 40 major laboratories prove that Elon Musk's lithium ion batteries have severe and constantly degrading defects inherent in their construction. Musk has known about these dangers for decades but chose to work with Panasonic to cover it up.
443. Elon Musk lost a LEMON CAR lawsuit proving that his cars are poorly designed and manufactured.
444. Elon Musk's union negotiating tactics are: "delay, deny, defer and claim to be conducting a fake study..."
445. Elon Musk's take-over of Tesla from Martin Eberhardt, the actual founder, was based on an Obama Administration scheme to exploit Lithium mines in Afghanistan and Cobalt mines in the Congo, which Obama financiers had bought the rights to. Frank Guistra and Goldman Sachs helped come up with this scheme.
446. A famous article about SpaceX quotes a top Musk staff staffer saying Musk is a "liar".
447. A top SpaceX engineer has sued SpaceX for lying about rocket safety and says that Musk does not care about science, he cares about publicity.
448. Most of the "famous" people Musk hired, quit after seeing what a sham his operations are.
449. Jared Birchell, of Burlingame, is terrified that Musk will have him killed because he knows "where the bodies are buried", but he has to act demure and "stay-off-the-press-radar" for now to keep Musk from paying too much attention to him.
450. Every property that Musk owned has been bugged by government, news or competitor specialists.
451. Musk takes a number of drugs for mental issues yet he runs companies with products that can easily kill their users. Many think that he should be under closer federal supervision.
452. The U.S. Department of Energy PR Department has been ordered by Obama officials (who, shockingly, are still there even during the Trump Administration) to always hype up Musk because, WHEN Musk fully fails, it will prove that the Department of Energy funded him because Obama ordered them to and not based on any merits. Most every Applicant for DOE funds beat Musk on every merit EXCEPT CRONYISM!
453. Trump-hating Elon Musk wanted to nay say Trump by subjecting Tesla workers to COVID death by refusing to close plant
454. Musk uses his own workers to play deadly politics with their lives in COVID closure he refused
455. Musk totally lied about his capacity, ability and knowledge to make COVID ventilators in order to scam political funding
456. Musk sent snoring devices instead of ventilators and lied about those products in order to Virtue Signal for his own hype
457. Musk has had babies with many women in an Epstein-like master plan to seed the world with his DNA so that mini-Musk's will live on forever. Each ex-baby momma has been paid massive sums to keep quiet about his misdeeds.
458. Musk uses his many mansions to hide money and operate tax manipulation efforts.
459. The "Mainstream Media" is controlled by Democrat bosses who refuse to allow any negative news to be printed about Musk because Musk conduits funds to the DNC.
460. One of Musk's 'baby ovens' known as "Grimes" has been revealed to have been used as a "sex toy for Musk" by Grimes friends.
461. The U.S. Department of Energy has a federal policy of promoting Musk's hype because they are liable for criminal prosecution because Secretary of Energy Steven Chu and his staff helped organize Musk's embezzlement of taxpayer funded monies and insider-traded on that profiteering.
462. Failing Elon Musk tries to make Alameda County pay for his failed NUMMI factory by using COVID as an excuse!

Why do you ignore, or cover-up, the fact that Musk is an organizer of the Malignant Narcissism And Cartel of the Silicon Valley Billionaire Frat Boy Club?

At almost every juncture, Elon Musk has made egotistical decisions that lead to more failures. His behavior is that of a person who has no care or concern for the health, safety and welfare of the American people. Nothing could epitomize that more perfectly than his grotesque suggestions that we should shoot nuclear bombs off on Mars or that nobody will care that his Starlink Satellites are designed to spy on the public. This would seem comical, and entirely unbelievable, if it had not actually happened.

In 2006 the many scientists told Elon Musk and his advisers of the high likelihood that a pandemic of lithium ion battery explosions would strike the nation and advised the incoming administration to take appropriate steps to reduce its impact. Obama officials hid the dangers because they owned stock in lithium and cobalt mines for those batteries, particularly in Afghanistan.

In November of 2007, the experts warned Obama that the country was likely to be afflicted with a devastating pandemic of lithium ion originating from Asian and Russian oligarchs.

In January 2009, the Obama administration was told by its own experts, Bernard Tse and his team who knew Tesla bosses, Sandia and others that the lithium ion batteries in Tesla cars had degrading chemistry which become a global pandemic of auto danger. Again, Obama chose inaction.

Obama and Musk have deprived Democratic-led regions of the country from receiving needed safety reviews of Tesla cars.

Over the year's since 2006, Americans working with the DOE, NHTSA, SEC and other groups accelerated warnings to Obama officials. These engineers and other science professionals were intentionally ignored in order to protect politicians stock market profits.

In these, [and any other examples](#), Musk and his inner circle of White House and Senate insiders ignored or purged experts and other truth-tellers, and lied about, misrepresented, deflected or denied the dire threat to the American people posed by the lithium ion battery scam.

Considered in total, Musk and his regime have shown themselves to be incompetent, callous, malevolent and deeply cruel in their response to the Tesla safety issue crisis (as well as to a plethora of other issues).

But to merely document the Musk regime's deadly failures in response to the dangers of his companies is to ignore the most important question: What are Musk's and his advisers' underlying motivations?

This forensic question must be answered if we are ever to have a full accounting of the Musk Corruption, and see justice done for the voters, the dead tesla victims and those who will die in the future as well as the damage done to the broader American community.

The coordinated 'main-stream' media's preferred storyline that suggests Musk is simply incompetent doesn't add up because Musk has made the wrong decision every single time in terms of how crises like this are supposed to be dealt with. (i.e. Be consistent, transparent, factual, and credible.) It's increasingly not believable for the left-wing press to suggest that Musk has been distracted or inept during this crisis, in part because of the level of his uselessness has become so staggering.

Maybe Musk is vengeful. Maybe he wants to wreck the economy to create investment opportunities? He's under the thumb of a foreign entity? He wants to cause panic and cancel the November elections? He's a fatalist? Who knows. And honestly, the specific "why" isn't what matters now. What matters is asking the difficult questions and pondering what the Musk oligarchy is truly about, no matter what lurks in the shadows...

Now the press needs to shift some of its focus and ask the truly alarming questions about Musk and his motives. Because we still don't know why he essentially ordered his companies to embark on such sinister ventures involving slicing up brains; over-priced deadly cars for rich douche-bags; digging holes for billionaire hide-outs, launching domestic spy satellites and manipulating elections along with his boyfriend: Larry Page, etc...

Psychologist and psychotherapists have an answer: Elon Musk is a "malignant narcissist". Musk's mental pathologies inexorably compel him to hurt and defraud large numbers of people — including his own supporters.

Experts have looked at Musk's borderline personality disorders. They explain that sadism and violence are central to Musk's malignant narcissism and his decision-making about his self-promotion. They warn that Musk is abuser locked into a deeply dysfunctional relationship with the American people and that, like other sadists, Musk enjoys causing harm and suffering to any that do not recognize his "tech Jesus" self-proclaimed superiority.

Ultimately, all psychologists generally concludes that Musk is engaging in "[democidal behavior](#)" in partnership with Obama and Pelosi and cautions that the many dead and injured (so far) from the Tesla fires and crashes are not simply collateral damage from the Musk madness, but rather the logical outcome of Musk's apparent mental pathologies and the poor decisions that flow from them.

Musk is both denying responsibility by saying things such as, "I take no responsibility. We've done everything right." But at the same time, Musk is also sabotaging the efforts to stop the corruption in his empire. This is a very important aspect of Musk's behavior. Musk is not just deflecting blame onto others, he is actively interfering with the politicians' ability to do their job by controlled Senators with bribes. Musk is not just incompetent. He is actively engaging in sabotage against competitors and reporters who speak the truth about him.

You might wonder: How does someone with his type of mind reconcile claims like "I have total power" with "I take no responsibility"? He has said both things within a few days of each other. Well; That is a function of how the psychology of a malignant narcissist is structured. When Musk says things such as, "I have total power," that's the grandiosity. "I'm in total control" is a function of Musk's paranoia, where everything bad is projected outward. Therefore, anything negative or bad is someone else's fault. Bad things are 'other people' in Musk's mind. The grandiosity and "greatness" are all him. Musk's mind runs on a formula which bends and twists facts, ideas and memories to suit his malignant narcissism. This is why Musk contradicts himself so easily. He lies and makes things up. His fantasies all serve his malignant narcissism and the world he has created in his own mind about his greatness.

Another component of Musk's malignant narcissism is sadism. That part of Musk's mind is more hidden. People such as Musk are malignant-narcissist sadists because they, at some deep level, are driven to cause harm to other people. Musk's life is proof of this. His pedo father and trophy wife narcissist mother demonstrate his roots. He enjoys ripping people off and humiliating people. He does this manically and gleefully. He has lied thousands of times. He threatens people online and elsewhere. Most psychologists believe that Elon Musk is also a sexual sadist, who on some basic level enjoys and is aroused by watching people be afraid of him. In his mind, Musk is creating chaos and instability so that he can feel powerful.

Professor of psychiatry and psychoanalyst Otto Kernberg called that phenomenon "omnipotent destructiveness." The bullying, the violence, the destruction, frightening people, humiliating people, getting revenge and the like — such behavior is what Elon Musk has done his whole life. It is who Elon Musk really is. Unfortunately, too many people are still in denial of that fact.

Musk has to create and control a field of negative corrupting energy around himself. For example, he pressures the scientific experts to bend the truth to his dreamworld during his press conferences. The scientists are basically Musk's hostages. The American people are hostages as well to Elon Musk's lies. We are being abused by him. We know that Musk is lying. We know that he's doing nothing to help us. We feel helpless to do anything to stop him. It is causing collective mental despair. It is not that all Americans are suckers or dupes, it is that Musk is a master at such cruel and manipulative behavior.

Elon Musk is a master at getting negative attention, and the more people he can shock and upset, the better.

Malignant narcissists like Elon Musk view other human beings as kindling wood to be burned for their own personal enrichment, media enlargement and hype expansion.

Follow the facts to the obvious and true conclusion. If all the facts show that Elon Musk (and his little boy buddies Larry Page, Eric Schmidt, John Doerr, Reid Hoffman, Steve Westly, etc.) is a malignant narcissist with these powerful sadistic tendencies, this omnipotent destructiveness, where he's getting pleasure and a sense of power from dominating people and degrading people and destroying people and plundering people and laying waste to people, both psychologically and physically, then to deny such obvious facts is willful ignorance.

When Musk is finally exposed, like Elizabeth Holmes and Theranos or ENRON, it will be glorious.

Rather than making a prediction as to Musk's specific actions when the emperor has no clothes, it is more helpful to describe the type of actions he will take. Rather than trying to say, "This is the move he'll make." Like in a relationship, Elon Musk is the abuser. He is the husband or father who is abusing his partner or children or other relatives. The American people are like a woman who is leaving her abuser. She tells her abuser, "That's it! I am done with you!" She has her keys in hand and is opening the door of the house or apartment to finally leave. What happens? The democidal maniac Elon Musk will attack us, badly. Make no mistake. Elon Musk is going to find a way to attack and cause great harm to the American people if he believes that he will be fully exposed. He will use his spy satellites, his media controls, his remote controlled cars, his stock market manipulation tools, his Goldman Sachs economic destruction team and more. Musk will continue his crimes and shills like you will cover for him, unless the FBI finally arrests him.. and hopefully, you too.

Elon Musk's Hyperloop predicted to turn human beings into "bloody applesauce". Musk's latest taxpayer hand-out scam!

Put a crowd of human beings in a can and connect that can to the ground in a line that never varies. Shoot that can down the line at speeds so high that any error, even the tiniest one, could turn the people inside, instantly, into what one investigator calls "bloody human applesauce".

An earthquake, ISIS, a way-ward pick-up truck, a flood, a tornado, a cow on the tracks, a computer error, a driver mis-calculation, a confused self-diving car, a hacker attack, a solar flare, a fallen tree and hundreds of other possibilities could kill every passenger, at once, in the most horrible manner possible. It is a disaster nightmare guaranteed to happen. The ambulance drivers will be picking up the victims with a sponge.

For those who wish to do harm to others, now increasing in the new world, the Hyperloop gives them a perfectly timed opportunity to create a small anomaly which will cause an epic amount of death. The Hyperloop could not be a worse-timed, more ill-conceived operation.

Musk insists: "Oh we will have the latest technology. Nothing will happen." But that is what the other CEO's of the companies that had terrible disasters said. The many filed lawsuits against Musk, for fraud; demonstrate that he has a loose relationship with the truth and a close relationship with "Hype".

Regular trains have been suffering horrible human disasters, now featured in full color on YouTube, in increasing numbers. What kind of naiveté is making the Hyperloop people believe that they are immune to reality?

It is the open-eyed naiveté of Greed!

You see, Elon Musk has long been associated with railroad baron: Richard Blum. Richard "Dick" Blum of the railroad property of the FBI-raided Solyndra and next door property Tesla; Richard Blum of the high speed rail project so corrupt that a law had to be made to try to slow him down; Richard Blum who has a wife named Dianne Feinstein, who keeps routing state and federal tax dollar kick-backs to all of Elon Musk's companies. Many think that the "Hyperloop" is an attempt to bypass the curtailment of the Feinstein/Blum's other railroad project. "THAT" Richard Blum is also under investigation for profiteering, Chinese contractors, Post Office real estate scams, University regent rigging, and more.

Musk uses hype to baffle Senators into giving him billions of taxpayer dollars for all of his companies so that he can turn around and fund their campaigns with the very same money. It is called a "kick-back" scheme.

Musk's billions and his Tesla, Solar City and Space X could not possibly still be alive without tens of billions of dollars of tax credits, free real estate, fee waivers and cash that state and federal agency heads just handed him in exchange for some "perks". The Hyperloop is the same story. Hyperloop can't exist without government kick-backs. Nobody in the consumer market asked for a "Hyperloop". As usual, all of the media stories and blogs expressing excitement about the Hyperloop have been traced back to Elon Musk, and his Troll Farms. It is nearly a joke that Musk's latest hype-scam actually has the word "Hype" in it! It is, as if, he is taunting the authorities. He believes that corrupt Senators protect him from prosecution. That bet may be running out.

Musk, and his Google investment partners, have been handed, as a kick-back, most of NASA, free NASA jet fuel for their private jets, free NASA airfields, Free NASA buildings, Free financing for their car, solar and spy satellite factories, Free H1-B overseas labor, and more..on the backs of the public.

While the inevitable disaster of "human sausage" is horrific, the disaster of allowing Elon Musk to engage in another corrupt hype-scam, on the pain of the taxpayer, is the biggest, most horrific, disaster of all.

The Bottom Line: You and Musk are equally dishonorable crooks. You are helping Musk use our tax money to conduct crimes and you are protecting him with your PR hype lies.

We urge you to send this letter to Elon Musk and each of the "executive" front people at his companies. We urge Musk and his front operators to respond in writing to each of the charges in this letter, in writing, as well as in a Jury Trial and a public Congressional hearing.

Were You Attacked By A Sociopath Oligarch? Then Cause Them A One Billion Dollar Valuation Loss, Or Bankruptcy, In Return

By Anderson Key

I have had Elon Musk, Larry Page, Eric Schmidt and Mark Zuckerberg (who are all frat boy bros and political co-conspirators) put hit-jobs on my friends and I. This is what we did to them in return.

What is tech corruption?

Corruption is the abuse of office for personal gain, and it takes many forms. It's the politician taking a bribe before awarding a building contract to the briber. It's the city council member paying for his family vacation with public funds. It's the official demanding bribes from citizens in exchange for access to clean water. It is a California Senator getting payola from Google, Tesla and Facebook with stock market accounts from those companies.

Corruption affects everyone, especially minority and vulnerable populations. As the biggest obstacle to economic and social development it harms societies in these ways:

- It undermines democracy and human rights by weakening governments.
- It diverts funds from public services such as health care, education, and sanitation.
- It discourages foreign investment, leading to fewer jobs.

Those numbers aren't the only reason to get mad. Corrupt officials divert funds from public services like health care and education to projects that will line their pockets. Corruption also harms societies by undermining human rights. It can cost people their freedom and sometimes their lives.

So how can you fight corruption? By making sure the laws in your country are enforced, says [former U.N. youth observer Jackson Dougan](#).

Many countries have anti-corruption laws, but, as Dougan explains, they may not have the resources to monitor and enforce those laws. That's where you can help.

You can make a difference... We did!

Powerful people are often the ones taking bribes or making shady deals, and that discourages honest citizens with few resources. But thanks to new technologies, you don't need a lot of money or power to fight corruption. For example, a couple started an [anti-corruption website in India](#), where people can report instances when they have been asked for bribes.

Transparency International offers these ideas in its anti-corruption kit:

- Organize a committee to count and keep track of public supplies, such as school textbooks.
- Coordinate a sporting event that the community can participate in to raise awareness of corruption.
- Create a petition and take it to the decision-makers.

Thanks to new technologies, you don't need a lot of money or power to bring corruption to light. You can use social media and online platforms, such as [IPaid a Bribe](#), to crowdsource reports of corruption in real-time, even anonymously.

Web and smartphone applications such as [Open the Books](#) in the U.S. can help you keep tabs on government spending, including how much officials are being paid. These kinds of data can be used to hold corrupt officials accountable and push through reforms.

Transparency International offers other [simple ideas for making a difference](#) in your community.

December 9 is [International Anti-Corruption Day](#). Say "no" to corruption and learn more about what you can do to uphold [transparency](#).

Part of this text is adapted from [Stopping corruption might seem impossible. But there are simple ways to fight it.](#) and [Delete corruption from the palm of your hand](#) from ShareAmerica.

This is about powerful and greedy people abusing the public system in order to [manipulate TRILLIONS of government treasury and stock market dollars](#) into their own pockets. They lie, cheat, bribe, steal, attack, and even kill, in order to grab this money (provided from the pockets of the taxpayers). They create fake "political issues" in order to steer massive amounts of government money to "solutions" that they just happen to own the companies of. ("[Follow the Money](#)") They collude on cover-ups, cover-stories, pump-and-dumps, fake "Stimulus Funds" redirection and other illicit deeds. Famous politicians are a very big part of this crime. They are easy to spot via the tens of millions of dollars, in their personal bank accounts, which only appeared after they took office. They broke and separated America by promoting their fake causes, which divide the public, in order to benefit off of their exclusive stock market scams. In fact, if the, completely computer manipulated, stock market did not exist, political corruption in America would be reduced by 95%.

In one example; The Silicon Valley Tech Cartel; an anti-trust violating organized-crime operation based on quid-pro-quo, ran a slush-fund in the U.S. government. [They manipulated the Dept of Energy](#) bosses so they would only fund political favorites and sabotage the competitors of those favorites in an epic violation of anti-trust and anti-racketeering laws. We will examine the investigation, exposure and take-down of each of the crooks involved in that scheme.

You have heard the term: "You can't fight City Hall", right? We did and we won! We fought the entire United States Government and we won! We fought a rogue division of the CIA and we won! We fought the President of the United States and we won! We fought the most powerful and insane billionaires in the world and we won! We got over 120 famous politicians and agency heads FIRED simply by preparing and filing an FBI-grade dossier on each one with all of the relevant jurisdictional agencies!

You can fight corruption and win!

YOU can use the public "Corruption Kill Box" tactic to wipe out crooked politicians, tech oligarchs and their financiers.

A Corruption Kill Box Procedure combines:

- 1.) Federal police investigations created by formal filed criminal referrals and FBI Form 302 overview drafts,
- 2.) Public class-action lawsuits,
- 3.) Massive news media disclosure blasts,
- 4.) Formal regulatory agency complaint filings,
- 5.) Individual lawsuits against political and agency executives,
- 6.) Documentary film production and distribution,
- 7.) The promotion and organization of Congressional hearings,
- 8.) Crowd-sourced social media public forensics,
- 9.) Open-source AI financial crimes tracking software.

The Kill Box (KB) procedure is an extinction-level event with a 100% success rate against corrupt entities. KB's only work on the corrupt, so non corrupt parties are safe from it's effects. ANY member of the public can engage in these totally legal anti-corruption actions. Just do it!

"Winning" does not mean you actually have to kill the bad guys dead. You can shame corrupt politicians, CEO's and insiders so bad that they will wish they were dead.

A number of famous tech CEO's recently had to resign. They did not leave to "spend more time with their family". They were EXPOSED by citizen and journalist forensic actions. Many of them left before the entire 'Kill Box' maneuver was completed. Even partial execution of the Kill Box can often lead to spectacular results.

The most effective interdiction process for political corruption is called "Citizen Forensics". It is the process of the crowd-sourced deep investigation of public officials, and their shills, followed by the global public exposure and shaming of their illicit deeds. Federal law enforcement groups will even help you do this because you, and they, both have a common goal: to take down crooks.

Over the last decade, these procedures have been proven to work. This manual guides you through procedures that work totally, magnificently and effectively against evil people and scumbags!

Process Overview

Taking Down Corrupt California Politicians, Dirty Government Agency Executives And Their Tech Oligarch Bosses

At a high-level this is what you will do:

KEY TACTICS:

- We identified potential targets
- We developed an investigative theory
- We chose the best investigative techniques
- We examined issues unique to these proactive corruption investigations
- We mitigated special considerations in public corruption investigations

IDENTIFYING POTENTIAL TARGETS:

- We asked law enforcement and government sources, including inspectors general, and contract compliance, Congress members and oversight personnel who they suspect
- We asked citizens; business competitors or political rivals; disgruntled current or former employees; paid informants and cooperating defendants; individuals involved in the illegal activity who are seeking to limit or eliminate their criminal exposure by blowing the whistle on corrupt conduct
- We read print, television, and internet media outlets for tips
- We examined if each specific target may be identified via credible tips. Does source have a motive to lie? Is there corroboration?
- We looked at transactions that were identified or appear suspect without specific targets and used those to identify the entities and individuals involved and make a preliminary assessment of the roles played by these individuals, such as decision makers, knowledgeable actors, unwitting participants, and knowledgeable but uninvolved potential witnesses.

We always follow the money - We determine who profited from the transaction and how - Political corruption cases are always about the money! Use modern AI around-the-clock tracking software on the target and their family members to spot money laundering.

Each corrupt politician and operative made a profit from their corrupt actions and those benefits can always be traced with modern forensic accounting and tracking AI. The recent leaks from CPA, VC, law firm and lobbyist records make it even easier. The hack-and-disclose foreign actor campaigns (ie: Supernova, Spectre, Solarwinds, etc.) have even added to those disclosures.

WE DEVELOPED AN INVESTIGATIVE THEORY:

- Theory gives direction to the investigation, but we stay flexible as new facts are leaked or exposed
- We make an initial assessment of whether the alleged corrupt conduct appears to be criminal, or whether it is civil or administrative in nature
- We then identify the elements needed to prove the crimes
- We then try to anticipate possible factual and legal issues and defenses and build our case to rebut or avoid them
- We then identify corrupt officials in jurisdictional law enforcement and regulatory agencies who may be stopping investigations in order to protect a Senator or tech oligarch that pays them or promises them a career advance

THE MAIN TYPES OF OUR INVESTIGATIONS AGAINST THESE GUYS:

- Historical cases - based on document analysis and witness interviews

- Proactive/undercover cases - running gamut from one day and one deal to elaborate and long-running multi-transaction and multi-target operations

CHOOSING THE BEST INVESTIGATIVE TECHNIQUES:

- We determined which investigative tools to use depending on a variety of factors, including the nature of the alleged violations, the type of investigation our members are conducting, and the resources we had available
- We used the normal progression from simple to complex, with information from initial steps leading to more advanced steps, such as search warrants and federally assisted wiretaps
- We mix and match our methods as appropriate
- Due to the hybrid public/private/citizen investigative team, an "insurance policy" encrypted file set is pre-distributed to journalists, lawyers and Congressional insiders to protect citizen team members

NOTES ON SOME OF THE INVESTIGATIVE TECHNIQUES WE USED:

- Public Source Information
- Internet and media sources
- Court filings, including criminal histories, divorces and other lawsuits, bankruptcy filings, and administrative proceedings before agencies such as the SEC, FTC, and insurance and banking regulators
- Leaks and hacks
- Choicepoint, Autotrack, property records
- Financial disclosure forms; Campaign contribution records; Lobbyist registrations and disclosures
- Information from Parallel Proceedings
- Corruption cases are often set in backdrop of contract disputes and fraud cases. There may be ongoing civil litigation or administrative proceedings generating valuable information, and you should obtain relevant depositions, pleadings, transcripts and court orders.
- Despite common interests, do not work in tandem or actively use the civil litigant to further your investigation, such as by giving them questions to ask at depositions or having them seek documents for you.
- Mail Covers
- Very useful in identifying target's banks, investment firms, et al
- Trash Pulls - "Dumpster Diving"
- Can be very useful if target has recently become aware that they are under suspicion - panic can cause carelessness in disposing of valuable records
- Grand Jury Subpoenas - Documents
- Used to gather foundational materials. Consider whether the entity being served can be relied on to not disclose the subpoena, or whether the records sought are worth the risk
- Issue as early as possible - document production can be slow, particularly with voluminous requests, older records, and/or smaller producing institutions

Subpoenas - Documents to Obtain:

- Bank, brokerage, and other investment account records
- Credit reports & credit card records
- Loan and mortgage records
- Telephone records
- Corporate records
- Do quick initial review to determine subpoena compliance. Do not assume full compliance since many institutions see subpoena compliance as a nuisance and distraction from their "real" business.
- Documents must reviewed and cataloged for use during the investigation and for discovery and trial evidence purposes.
- Document review is time and labor intensive, but is usually the heart of any meaningful historical corruption case.
- Witness Interviews
- Essential investigative steps which require serious thought, planning, and preparation. When possible, conduct interviews after you have obtained and reviewed the documents related to the witness.
- General rule - your way up the chain of involvement and culpability
- Remember to consider interviewing the current and former confidants

Subpoenas - Testimony:

- General rule - do not use the grand jury as your interviewing forum. Usually far better to get voluntary interviews first.
- Two main situations to use grand jury testimony as an investigative tool
- Witnesses who may have useful information but will not agree to a voluntary interview
- Possible defense witnesses - find out what they will say and lock them into that story.

Immunity

- A double-edged sword. Gets you needed testimony but can cast doubt since people tend to dislike and distrust immunized witnesses.
- Weigh the costs and benefits carefully. Jurors will understand immunizing lower-level witnesses to build a case against the main targets.
- Attempt to secure testimony through cooperation plea agreements. Jurors are more likely to believe a witness who has accepted responsibility for their actions by pleading guilty than one who has received a "free pass."

Evidence - Laboratory Analysis:

- Handwriting and fingerprint analysis can be very useful in cases with key documents and knowledge, intent, and/or participation questions. Fingerprints can often be found on documents even after an extended period of time.
- Before requesting handwriting analysis, speak to your examiner to find out if the questioned documents can be analyzed with any degree of certainty. If there is little chance of success, you may not want to do the analysis, particularly if fact witnesses can identify the handwriting or signature.
- Make the analysis request as early as possible
- Tax Return Disclosure Requests - 26 USC Section 6103
- Very useful since targets often understate income on tax returns and overstate it on loan applications, corporate filings, and financial statements.
- Disclosure requests take a significant showing and a court order, and normally come after the investigation has substantiated some level of wrongdoing.
- After tax information is obtained under a disclosure order, there are important restrictions on their use and handling.
- E-Mail Account Information from Internet Service Providers ("ISP")
- Two main types of information you will want: identification of the account holder; and, the stored content of the e-mails maintained on the system.
- Can be very valuable since people use e-mail freely and do not realize or care that hitting erase or delete does not remove the content from the system.
- Court orders and search warrants are needed to get this information.

Since ISPs frequently delete content from their systems, use preservation letters asking ISPs to save the content while you obtain the necessary court orders and search warrants for disclosure.

Warrants

- One of the most powerful investigative tools in corruption cases. Obtains evidence on a surprise basis, before it can be redacted, destroyed, or withheld even when production is required by a grand jury subpoena.
- Provides an opportunity to identify and interview those present at search site.
- Serve contemporaneous grand jury subpoena for the same documents

Search Warrants On Senators And Tech Oligarchs:

- Timing is Key Issue

- Need to be far enough along in investigation to develop probable cause and to know what you are actually looking for.

Elon Musk moved from California To Texas to try to get away from our investigations but our biggest team of researchers happens to be in Texas, so he is screwed. Larry Page is trying to hide out in New Zealand with Peter Theil but investigation laws make it even easier to spy on people and their private jet tail numbers in New Zealand.

- The search exposes the investigation, so it generally should not be done until you have exhausted any covert opportunities.
- But, if you wait too long and your target becomes suspicious or aware of the investigation, valuable evidence may be destroyed or moved.
- First and foremost, must commit to promptly and thoroughly review everything seized. This can be an extremely time and labor intensive. If you are not ready, willing, and able to do this review, don't do the search.
- Second, be aware of the public impact of a search on a high-profile target or location. It may bring attention to your investigation, increase public scrutiny on you and the target, and raise expectations that charges are imminent.
- Third, need to plan to best execute the warrant while limiting disruption of important functions when searching a government office. public building

Computers and Computerized Data:

- Any business or office search warrant is going to include computers and computerized data, and you must be able to seize and use this information.
- Have computer specialists involved in planning and executing the search so that computers and system data can be copied on the scene. It is not desirable or feasible to take away the computers and deal with it later.
- Before searching, try to determine if review the seized data will require specialized assistance and equipment, and how you will make this information available for discovery and later trial use

Physical Surveillance:

- Surveillance is valuable to corroborate information which has been received, to link targets, and identify people associated with the known targets
- Trackers ("Bumper Beepers")
- A slap-on tracker put on in a public place does not require a court order. An order is required to hard-wire a longer-lasting tracker onto a vehicle.
- Beware that under federal law, you are now required to disclose a tracker warrant to the person whose vehicle was tracked at the conclusion of its use. Delays of this notification are at the discretion of the court.
- Pen Register and Trap and Trace Orders
- Allows real-time capture of the incoming and outgoing phone numbers for a particular phone number, and can also order phone company to provide subscriber information for each captured number.
- Requires a court order which can be based on a showing that the information sought is likely to be relevant to the criminal investigation.
- Consensual Recordings
- Audio or video recordings where one party to the call or meeting (normally an undercover agent or cooperating witness) has agreed to record the conversation. These are authorized without any court order so long as the consenting party is on the line or in the room.
- Consensual recordings are the "bread and butter" of proactive investigations.
- Title III Wiretaps and Recording Devices
- Extremely effective tools to investigate ongoing criminal activity, since they allow recording of phone calls and conversations without the presence or participation of an undercover agent

or cooperating witness.

- Requires court order based on probable cause and satisfaction of other requirements, including exhaustion of other investigative options. The internal review process for a federal Title III is very demanding.

- Title IIIs are labor intensive, requiring real-time monitoring and minimization, and regular progress reports to the authorizing judge

Undercover Operations – put a plant inside the Senator’s office or the Google , Netflix, Tesla, Youtube or Facebook executives personal office or home office staff:

- Development and Planning Stage Is Key

- First step is determining what you are trying to achieve (i.e. proving a completed crime, infiltrating ongoing criminal activity, developing new cases on suspected corrupt officials, identifying criminals).

- Second step is creating and implementing a scenario designed to effectively and efficiently achieve those goals. Scenario must be realistic in light of targets, resources, and objectives

- Undercover Operations - Avoiding the Usual Defenses

- Any undercover scenario needs to squarely present the criminal opportunity to the targets. Do not give the target a lack of knowledge or intent defense.

- Plan to avoid entrapment claims. Don't push too hard, offer too much money, or make it too easy, and offer opportunities for the target to back out.

- Undercover Operations - Time, Labor, and Resource Intensive

- Must be patient - will take time to develop trust and opportunities

- Money will have to be spent for payoffs and to set up an undercover business, create appearances, wine and dine targets, etc

- Manpower will be needed - UCAs, case agents, surveillance, et al

- Undercover Operations - Undercover Agents are Crucial

- Should make every effort to introduce a UCA into the scenario.

- UCA is essentially unimpeachable in contrast to either a cooperating defendant who is attempting to avoid charges or get a sentence reduction, or a paid informant, both of whom may have motives to lie

- Undercover Operations - Lights, Camera, Action!

- With or without UCA, to the extent possible, you should have consensual or Title III recordings of every meeting and call.

- Tapes are unimpeachable and jurors expect them.

- Predication

- A reasonable basis to suspect the target is or has engaged in criminal activity. Much lower than probable cause standard.

- Criminal investigations should not be fishing expeditions or integrity testing operations, and predication helps prevent overreaching

- Predication helps overcome entrapment defense, claims of selective or vindictive prosecution, and Hyde Amendment (attorney's fees) claims

- Handling the Cooperating Witness ("CW")

- Give specific directions to the CW and make sure that the CW is told that no "freelancing" is permitted. Enforce this from the beginning, and do not let the CW seize control, even if he or she appears to be producing results.

- Corroborate the CW as much as possible, even on small points, and make sure all contacts between the CW and the targets are recorded. Jurors tend to disbelief the uncorroborated, unrecorded word of a paid witness.

- Plan for impact of CW's plea agreement, immunity, or payments on the jury.

Flipping a Corrupt Senator, administrative aide or tech Insider:

- The tactical "Silver Bullet"

- Leaving a flipped insider in place can be an extremely effective tool in an ongoing public corruption case because of the knowledge and access they can bring to the investigation.

- Can be used to strengthen or build cases against existing targets and to identify, predicate, investigate, and prosecute other targets.

- In setting with institutional or high-level corruption, a flipped target in place may be the key to gaining entry to a "closed-shop" of corruption.

- Flipping a Corrupt Insider - Inherent Risks

- Beware of: being double-crossed by a flipped insider who warns other targets and/or helps them generate exculpatory recordings; inadvertent leaks; the insider committing other crimes or wrongdoing while "on our side."

- Must also make sure that you keep the insider safe.

- The Flip Attempt

- Determine the right target to pitch. Normally neither the top nor the bottom target. Assess which target may be most effective as a continuing cooperator

- Use the element of surprise and make strongest presentation possible.

- If target wants to cooperate, start by getting a confession.

- If target wants to consult an attorney, they need to do it on the spot.

SPECIAL CONSIDERATIONS IN THESE PUBLIC CORRUPTION INVESTIGATIONS:

- Impact of charges is enormous on elected officials or high-level appointees. Mere existence of an investigation can destroy a career or a life.

- Proceed carefully - you do not want to be used by someone looking to settle a political score or strike back at a business rival.

- Conduct the investigation and prosecution "by the book." Expect the defense to attack not only the charges, but also the conduct of the investigation.

- Be prepared for heightened public and press scrutiny. Remember that in any big corruption case, the "world is watching."

If you are going to go to the trouble to interdict a political, corporate or agency "bad guy" you should pick the ones whose termination and/or shame will have the greatest benefit for all. For example; let's look at a corrupt political "crime family" known as the "Paypal Mafia". They are also known as "The Deep State", "The Silicon Valley Cartel" and other quaint names.

They have based their lives and culture around the Godfather movies and openly refer to themselves as a "cartel". They have gotten away with it, so far, because they have more money than most law enforcement agencies have. They have thousands of law firms, lobbyists and dirty tricks operatives who spend all day denying, deferring and delaying the justice that is coming for them.

The indisputable facts about them are the assertions that the Silicon Valley oligarchs:

1. Control business and politics like a crime Cartel
2. Are a white male fraternity who attack outsiders in organized manners
3. Come from dynastic families that systematically ran them through Stanford, Harvard and Yale men's clubs
4. Were socially trained and programmed to operate in a closed, tribal, exclusionary manner
5. Operated the "Angelgate" collusion scandal
6. Operated the "Silicon Valley High Tech Employee Collusion" for which they were sued in a famous class-action case
7. Controlled the Obama Administration and the Obama White House and traded most key staff with that Administration
8. Have been sued, indicted and charged in divorce proceedings with an unusually massive amount of sex trafficking matters
9. Use the same 10 law-firms who have been charged with public policy manipulation
10. Control internet news, media and information
11. "Own" certain U.S. Senators by virtue of direct bribe payments and securities/stock payola payments
12. Use a variety of tools like GUST, Private Google Docs sites, covert Facebook pages and similar, to secret conspire and plan collusion and organized monopolistic practices
13. Have their venture capitalists spy on entrepreneurs and copy their technology to be deployed by Google, or Facebook under a new name
14. Are a Mafia-like criminal organization
15. Have "command and control and exclusive beneficiary positions in ongoing, coordinated, criminal and anti-trust activities involving government and stock market funds..."

As a case-in-point relative to how hard it is to arrest these kinds of mobsters: the sex crime victims of Cartel member Jeffrey Epstein reported him to the DOJ a decade ago, yet nothing was done.

Our peers reported this Cartel to federal agencies in 2008, STILL, nothing has been done!

These people run Ponzi schemes with State and Federal funds in "stimulus" after "stimulus"!

They use free government money (your money), stock valuation pump-and-dump and black-lists to make certain that no competitor can ever operate against them in any market. The public has had enough of them. In addition to filing many formal federal requests for FBI, SEC and FTC investigation, you as a member of the public, can do much more

YOU can fight back and destroy these kinds of dirty oligarchs!

The tech Cartel is evil because they steal any technology they desire; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; Their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI & SEC investigations; They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times; They have bought up all of the Tier-One tech law firms and order them to never help those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws.

When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road VC operation should be raided by the FBI!

Indeed, the best thing that could come from the COVID pandemic is that they all are forced into bankruptcy!

When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, then it is impossible for that Senator to ever do anything but be corrupt!

The crooks at Google, Facebook, Tesla, LinkedIn, Netflix, etc., broke felony laws and the basic principles of Democracy.

They bribed your Senators, White House Staff, insider agency staff and operated a Silicon Valley Oligarch sociopath political Cartel.

As Mother Jones top editor says: "In 18 years of living here, I find zero evidence that the "City Family" is benefiting anybody but its members, developers, old-school socialites, and tech billionaires..."

— Clara Jeffery (@ClaraJeffery) [February 14, 2020](#)

— Clara Jeffery (@ClaraJeffery) [February 14, 2020](#)

Your public officials set-up, operated and maintained an organized crime scheme for personal profit at the expense of every taxpayer. They went after Five Trillion treasury dollars of your tax money for their personal interests via rigged stock market scams, rigged government contracts, exclusionary policy manipulations and other schemes that harmed American taxpayers.

This makes Eric Schmidt, Elon Musk, Larry Page, Mark Zuckerberg, David Plouffe, and that gang, ideal targets.

You Owe It To Yourself To Take Them Down!

In addition to the thanks of a grateful nation, you get some mighty fine feelings of satisfaction knowing that the David And Goliath story really can come true.

You can wipe out the bad guys out, all by yourself, in 100% legal ways.

You can wipe them out even faster with crowd-sourced forensics and anti-corruption ai software! join the rest of the public in an epic anti-corruption effort!

You will learn to write FBI-quality criminal activities reports and file those reports, by certified mail, with every law enforcement and regulatory agency in every country in the world, including the FBI, OSC, GAO, EU, Interpol, FSB, UN, etc. CC the social media sites with your reports.

You will use basic private investigator websites to track and back-ground every person, organization and company involved in the corruption and trace their RICO law violations. You can

provide that data to The U.S. Congress and every agency, with a copy to every social media posting.

You will use open-source, free, collaborative NSA-class global databases that can track all of the locations, hookers, fake fronts, family trusts, bank accounts, stock market accounts, bribes and other goodies, of any corrupt public official, in minutes! You get that free anti-corruption software from GitHub, CodePen, Torrents, Onion Project, The Guardian, ICJ and all over the web.

YOU will run your own private investigator/citizen sleuth crowd-sourced investigations into the following:

- Every stock market account they or their family owns
- Every Uber or Lyft ride they ever took for any meeting or transport of sex workers
- Every flight manifest they appeared on
- Every bank account they have ever held
- Every lawsuit, divorce record and police record they have ever appeared in
- Every trust fund they or their family holds
- Every shell corporation they, or their family holds
- Every person named in the Epstein Pedo book: <https://www.scribd.com/document/416207833/Jeffrey-Epsteins-Little-Black-Book-Redacted> cross referenced across all of the other databases and then supplied to the FBI and Child Protection Agencies
- Every item in the Swiss Leaks that cross connects to their holdings
- Every item in the Panama Papers Leaks that cross connects to their holdings
- Every item in the WikiLeaks that cross connects to their holdings
- Every item in the Snowden Leaks that cross connects to their holdings
- Every sex trafficking incident that connects to each of them alone, and in groups
- Every financial transaction between any of the parties on the master list and the character assassination and hit job firms of: Google, Univision, Gawker Media, Unimoda, Jalopnik, Gizmodo, Black Cube, Fusion GPS, Media Matters, Think Progress, IN-Q-Tel, K2 Intelligence, WikiStrat, Podesta Group, YouTube, Alphabet, David Drummond, Larry Page, Facebook, Correct The Record, Stratfor, ShareBlue, Sid Blumenthal, David Brock, Eric Schmidt, Sunshine Sachs, Covington and Burling, Buzzfeed, Perkins Coie and Wilson Sonsini or their derivatives with common owners.
- Every item in the Quest Leaks that cross connects to their holdings
- Every tactical deployment, by a campaign financier, of the tactics listed in this manual: <https://www.cia.gov/library/readingroom/docs/CIA-RDP89-01258R000100010002-4.pdf>
- Every sex service that their credit card payments every connect too
- Every real estate transaction that any name or company they, or their family, were involved in, tracks to

..... and hundreds of thousands of other information points about them that prove that they benefit from crimes that they engage in for others who engage in crimes using the America public policy system.

It all goes into shared 100% legal public collaborative databases that work like XKEYSCORE, or MS Access, or Oracle Databases.

The proof of collusion, organized criminal actions and raw covert corruption is indisputable. The actors are all the same people. The beneficiaries are all the same people. The communications between the parties all coordinate the same actions.

Demand their arrests, indictments, exposures and bankruptcies in public ads, letters to the editor, blog posts, bumper stickers, lawsuits, flyers, newsletters, email and every other outreach manner.

Say "Fuck You" to the Silicon Valley Oligarch 'Illuminati' scumbags and the crooked Senators and Governor's they bribed.

Show these oligarch crooks what billions of taxpaying voters with collaborative FBI-class forensics investigation software can do to their corrupt tech Cartel!

You can show up at the front door of their home, office, hotel room or vacation cabin and legally arrest them with a citizen's arrest execution. More on that later.

First Steps

You will write up and/or organize a dossier on each crook.

YOU will hunt down each corrupt politician, oligarch and their operatives

First, send them a note, anonymously, to tell them that you, and the rest of the public, are coming for them.

Include a copy of this manual so that they know what is headed their way. Let them know that none of their New Zealand bolt holes, Cayman and Virgin Island hide-aways, private islands or Ukrainian dachas will protect them and that the public is EVERYWHERE that they are.

If they have nothing to hide, as they say, then they should not care. They should only be afraid of the truth if the truth is as disgusting as everyone says. If they are not buying hookers and rent-boys, laundering money, bribing politicians, manipulating elections, supporting sex cults, abusing interns, violating ant-trust laws and doing the other bad things they are charged with, it should not matter to them.

Next...

... get a manila file folder and label it "Target One". Make an encrypted folder on your computer and also label that folder "Target One". These folders are where you will organize all of the data you collect on your target.

You will undertake the investigative tasks, using your personal computer and your free time, completing the following missions (or getting others to):

1.
 1. Dig through their trash and buy their trash bags from the garbage man after they pick them up or pay the local homeless guy to do it for you
 2. Locate a beneficiary for a probate proceeding with the name of their family on it
 3. Research current and / or historical property holdings of every family member of the crooks
 4. Identify mortgage information for each family member of the crooks
 5. Identify secured lenders each family member of the crook has used

6. Identify related-party property transactions for money laundering
7. Determine current market value of real property that the crook or family members owns
8. Locate bankruptcy filings for any of their family members or companies
9. Retrieve and analyze bankruptcy records for any of their family members or companies
10. Uncover improper relationships with prostitutes, rent boys, sex cults, BDSM groups, One Taste, Nexium, Inner Circle and other sex abuse operations
11. Locate federal civil lawsuits against them on Pacer.gov
12. Locate federal criminal records against them on Pacer.gov and the 120+ private investigator websites
13. Retrieve and analyze federal civil and criminal records on each of their names
14. Retrieve mug shots from arrest records
15. Provide independent analysis from other investigators
16. Locate state and local criminal arrest records
17. Retrieve and analyze review criminal records
18. Acquire pictures of them entering or leaving restaurants, hotels, offices and other locations and identify who they are with
19. Locate home phone numbers
20. Locate cell phone numbers
21. Identify the owner of related home or cell phone numbers
22. Determine owners of corporations they were involved with
23. Retrieve and analyze corporate records
24. Locate current or former executives
25. Interview current or former executives
26. Find and retrieve judgment and lien filings
27. Research familial history
28. Connect the dots via AI software analysis tools
29. Locate witnesses for a civil or criminal lawsuit
30. Interview witnesses for a civil or criminal lawsuit
31. Find all of their assets hidden under family trusts and facade corporations
32. Find current or historical boat registrations
33. Find current or historical aircraft registrations
34. Search for hidden assets
35. Conduct business intelligence
36. Conduct discreet intelligence gathering
37. Determine connections between parties
38. Locate bank account information
39. Locate current or former employees of a company
40. Interview current or former employees of a company
41. Locate significant inheritances
42. Show you routes of all of the tail numbers of their aircraft
43. Identify a will for an estate they or a family member might own
44. Locate probate records
45. Identify foreign assets
46. Locate regulatory records
47. Identify regulatory actions
48. Identify professional licenses
49. Determine prior disciplinary records for professional licenses
50. Analyze state and federal political contributions
51. Analyze state lobbyist records
52. Analyze federal lobbyist records
53. Identify potential whistle-blowers from their ex employees and contractors
54. Vet expert witnesses
55. Interview industry sources

56. Gather competitive intelligence
57. Identify related party business transactions
58. Retrieve and analyze non-profit financial filings
59. Knock on doors for surveys about them
60. Obtain and analyze Department of Labor Form 5500 Filings
61. Submit FOIA / FOIL requests to government agencies
62. Obtain driving record history (in applicable states)
63. Find current vehicle registrations
64. Find historical vehicle registrations
65. They use Google, Facebook and LinkedIn to spy on you. Get the information that Google, Facebook and LinkedIn sells to Axciom, Equifax and hundreds of other spy databases and run searches on THEM!
66. Determine current market value of motor vehicles
67. Assist with jury selection
68. Background checks on prospective jurors
69. Analyze documents for potential fraud
70. Identify Risks
71. Identifying corporate relationships
72. Find all of their ex lovers and aides on LinkedIn
73. Identify Uniform Commercial Code filings
74. Foreign corporation research
75. Help you manage sensitive situations
76. Overseas litigation research
77. Identify stock ownership
78. Find facts
79. Locate online resume
80. Identify online networking profiles
81. Locate historical video or news footage
82. Conduct historical newspaper research
83. Conduct mobile or stationary surveillance
84. Perform clandestine operations
85. Find undisclosed ties
86. Identify and retrieve U.S. Tax Court cases
87. Locate a missing person
88. Identify and confirm education history
89. Identify and confirm previous employment history
90. Scour the Internet
91. Research presence on social networks or message boards
92. We will tell you what those bastards are up to!
93. Send the IRS information about how Google, Netflix, Alphabet are cheating on their taxes and hiding money in Ireland and the Cayman Islands. Get the IRS to sue the oligarchs in tax court.
94. Enhance the publishing of research articles proving that Silicon Valley tech companies destroy the minds of children with tech addiction and brain manipulation and get parents to sue those companies for harming their children
95. Expose every secret cash conduit that the oligarchs use to bribe politicians
96. Demand new laws in Congress to stop politicians from owning any stock because that is the #1 source of bribes
97. Use lip-reading software to see what they are saying or have an actual deaf-person do it
98. Photograph them with any hotties they are seen with and then face-track the hotties to see if they are hookers or ill-repute escorts
99. Use one of the many free on-line news publishing softwares and make a global online newspaper that constantly exposes their crimes
100. Write every federal agency and demand investigation and prosecution of the perps
101. Assemble the massive number of news reports about their sex scandals and distribute those reports as books, articles, documentaries and news aggregations to prove what a bunch of sick perverts these people are
102. Publish the speaker list from Techonomy, Davos, TED, Burning Man, etc. to show that it is always the same little group of arrogant assholes that self-promote their hype at each of these elitist events
103. Leave notices on the windshield of any of their Tesla's reminding them what douche-bags they are

104. Organize petitions and letter-writing campaigns to have the overtly corrupt ones removed from their jobs
105. Go to their share-holder meetings and hand-out flyers about their corruption
106. Hire Charles Spies (<https://www.dickinson-wright.com/our-people/charles-spies?tab=0>) to sue them
107. Hire Harmeet K. Dhillon (<http://www.dhillonlaw.com>) to sue them
108. Hire COA (<http://www.causeofaction.org>) to sue them
109. Hire law firms from China or Russia to sue them for a very low price
110. Hire Steven S. Biss (<http://www.linkedin.com/in/steven-s-biss-6517037>) to sue them
111. Blog about the corruption of the political targets every day with the day's news each day
112. Read their divorce filings in court records and see who else might help expose their corruption
113. Read their locations over the last 12 months - <https://www.protocol.com/government-buying-location-data>
114. Talk to every neighbor that has filed a complaint about them
115. Hire Pierce Bainbridge Beck Price & Hecht LLP to sue them, especially tech media companies
116. Re-read all of the latest "How To Be A Private Investigator" books and brochures
117. Ask Paul Kangas in San Francisco how he investigates the corrupt
118. Go back to <http://www.pacer.gov> and read each of the lawsuits against them to get more clues about them

Will The World's Hackers Will Shut Down The Stock Market Forever?

- Stocks are entirely computerized
- Goldman Sachs and Kleiner Perkins staff claim that they can control any stocks that they want to, so can hackers do that too?
- What happens if all the hackers in the world target the stock market at once

By

[Mark Kolakowski](#)

Investors in the stock market, whether through individual shares or funds, face the threat of major losses and disruption from hackers, according to a number of Wall Street investors and regulators studying the issue, the Wall Street Journal reports. The possibility looks all the more real given already successful cyber attacks in recent years against high profile financial institutions including, among others: credit reporting agency Equifax Inc. ([EFX](#)); banking giant JPMorgan Chase & Co. ([JPM](#)); and the [U.S. Securities and Exchange Commission \(SEC\)](#). The threat is being taken so seriously at the highest levels of government that the Defense Advanced Research Projects Agency (DARPA), which oversees development of advanced technologies for use by the U.S. military, has been charged with identifying vulnerabilities in the financial system. (For more, see also: [Was I Hacked? Find Out If the Equifax Breach Affects You.](#))

Nightmare Scenarios

DARPA has been conducting brainstorming sessions with key players in the financial system to identify potential risks and to develop effective counter-measures against them. Particularly important in these discussions, the Journal notes, have been market participants engaged in [high-frequency trading \(HFT\)](#) or high-speed trading, the managers of [quant funds](#), and other persons with deep knowledge of the automated systems that drive so much of trading today, often with reaction times measured in fractions of a second.

Several scenarios for widespread financial chaos that hackers could attempt to generate are cited by the Journal. Shutting down a huge payroll processor would leave tens of millions of households, many of which also are investors, without sufficient funds to pay for unsettled trades. ADP ([ADP](#)) would be a prime target since it generates salary checks and direct deposits for about 16% of U.S. workers.

Hackers could try to inject false price quotes into data feeds. Publishing "fake news" through social media may set off a panic, especially if it purports to come from a reliable news organization. Indeed, in 2013 hackers got into the Associated Press Twitter account, and sent out a false report about explosions in the White House that injured President Obama, sending stocks tumbling, [according to U.S. News & World Report](#).

Seizing control of automated trading algorithms could be used to disrupt the markets. Another tactic might be generating an avalanche of phony sell orders to trigger a market crash. (For more, see also: [Most Costly Computer Hacks of All Time.](#))

Hack, Pump and Dump

In 2010, the SEC uncovered what it called a "hack, pump and dump scheme" run by a Russian trading firm, [per Wired.com](#). It involved buying thinly traded stocks in the trading firm's own accounts, pumping up their prices by placing buy orders at inflated prices through hacked accounts belonging to investors at Scottrade, then selling the shares in the Russian firm's own account. A short-selling variant also was used, with the Russian firm shorting stocks in its own account, then driving their prices down with sell orders placed through the hacked Scottrade accounts. An Indian man was convicted for running a similar scheme in 2008, Wired.com added. Scottrade has since been acquired by TD Ameritrade, a division of The Toronto-Dominion Bank ([TD](#)).

Global Threats

During the past several years, hackers have interfered with trading in various locales. In July, online brokers in Malaysia were shut down in a [distributed denial of service \(DDOS\)](#) attack similar to cyber blackmail previously waged against utilities and hospitals in more than 100 countries, [the Nikkei Asian Review reported](#). In 2011, hackers disrupted trading on the Hong

Kong Stock Exchange, [per Reuters](#). In 2010, Russian hackers got into Nasdaq's networks, [according to Ars Technica](#), and were able "to roam unmolested for months and plant destructive malware designed to cause disruptions."

Stock Doxing

A shady trading practice is secretly to acquire damaging information on a company, short the company's shares, then release that information in an attempt to drive the share price down. Based on hacker lingo in which to "dox" is an attempt to damage the reputation of a person or organization online, so-called stock doxing has become a growing market manipulation technique, [according to a report in Wired UK](#).

The Department Of Energy's Crony Pipe Dream

Every year since 2000 our research group has checked in with consumer car owners and auto industry suppliers. The bottom line has always been that no consumer electric car market will EVER happen until every consumer can charge their car at their home garage or home apartment parking spot. NOBODY, in any significant numbers, is going to drive many miles to a charging station, wait in line to get to the charger and then wait more than 4 minutes for their car to charge. The current time to charge most electric cars is 40 minutes with all of the fussing around accounted for.

We proposed a hot-swap battery system that any consumer can use, without driving to some special location. A consumer can hot-swap a wheeled battery in less than two minutes.

Senators and government officials don't like that because they bought stock market investments in the ways that don't work. Those White House and Department of Energy officials get bribes and stock market payola from Proterra, Ener1, Tesla and the old school suppliers, so they will not allow non-lithium-ion batteries and they will not allow fuel cell and ultra-capacitors to exist. Those politicians will not allow the only solutions that work to get to market. Here is what we told the Department of Energy and the White House, in writing for the last decade. With revelations like these:

[***MORAL HAZARD? Fed President Active Trader of Stocks...***](#)

[***Boston Official Who Warned on Real Estate Was Active REIT Trader...***](#)

[***Agency buying bonds of companies that don't seem to need central bank's help...***](#)

...it is clear the government officials, especially Department of Energy bosses, don't care about their salaries, they are entirely motivated by their stock market holdings, which compete with the public.

Yes, Department of Energy staff get paid by special interests via stock market insider trading and so those energy executives sabotage any company that competes with their lithium ion battery mining, assembly or marketing payola.

The United States has about 100,000 public chargers, far fewer than Europe and China. It needs 10 times as many, auto experts say, to complete the switch from combustion engine vehicles.

Over the past year, the electric vehicle charging industry has been swept up in a Wall Street gold rush because of growing optimism about electric cars and trucks.

In President Biden's vision of a green future, half of all new cars sold in 2030 will be electric. But something really basic is standing in the way of that plan: enough outlets to plug in all those cars and trucks.

The country has tens of thousands of public charging stations — the electric car equivalent of gas pumps — with about 110,000 chargers. But energy and auto experts say that number needs to be at least five to 10 times as big to achieve the president's goal. Building that many will cost tens of billions of dollars, far more than the \$7.5 billion that lawmakers have set aside in the infrastructure bill.

Private investors are pouring hundreds of millions of dollars into building chargers, but the business suffers from a chicken-and-egg problem: Sales of electric cars are not growing fast enough to make charging profitable. It could be years before most charging companies break even, let alone mint big profits like Exxon Mobil and Chevron.

Fast chargers — ones that can fill up an electric car battery in 20 to 40 minutes — cost tens of thousands of dollars but are typically used less than humdrum gas pumps. Yet the auto and energy industries need to build them to reassure people that they won't be stranded in an electric car with no plug in sight.

"E.V. charging infrastructure is the single biggest barrier to E.V. adoption," said Asad Hussain, a senior analyst at PitchBook, a research firm. "You talk to anyone who's on the fence about buying an E.V. and the No. 1 concern that comes to mind is range anxiety."

The European Union, which is further along in electrifying cars, had nearly 200,000 public charging points last year. China, where electric cars are even more common than in Europe, had more than 800,000 in 2020.

European and Chinese officials have offered better incentives and imposed tougher regulations in part because they want to win a global race to build the cars and trucks of the future. U.S. policies, including the infrastructure bill, have been more modest because most Republicans and some Democrats oppose the regulation and spending needed to quickly ditch fossil fuels.

Soon, even \$7.5 billion won't be enough to lay the groundwork for the electric age, Nick Nigro, founder of Atlas Public Policy, a consulting and research firm based in Washington, said about the proposed federal spending on charging stations.

"Is it sufficient? No," he said. "But it gets things going."

Most drivers today plug in their electric cars at home, and only occasionally use public charging stations. But those stations will be crucial, especially to those who live in apartments and people who drive long distances.

For years, start-ups, automakers and other companies have been slowly building chargers, mainly in California and other coastal states where most electric cars are sold. These businesses use different strategies to make money, and auto experts say it is not clear which will succeed. The company with the most stations, ChargePoint, sells chargers to individuals, workplaces, stores, condo and apartment buildings, and businesses with fleets of electric vehicles. It collects subscription fees for software that manages the chargers. Tesla offers charging mainly to get people to buy its cars. And others make money by selling electricity to drivers.

Once the poor cousin to the hip business of making sleek electric cars, the charging industry has been swept up in its own gold rush. Venture capital firms poured nearly \$1 billion into charging companies last year, more than the five previous years combined, according to PitchBook. So far in 2021, venture capital investments are up to more than \$550 million.

On Wall Street, publicly traded special purpose acquisition companies, or SPACs, have struck deals to buy eight charging companies out of 26 deals involving electric vehicle and related businesses, according to Dealogic, a research firm. The deals typically include an infusion of hundreds of millions of dollars from big investors like BlackRock.

"It's early, and folks are trying to wrap their heads around what does the potential look like," said Gabe Daoud Jr., a managing director and analyst at Cowen, an investment bank.

These businesses could benefit from the infrastructure bill, but it is not clear how the Biden administration would distribute money for charging stations.

Another unanswered question is who will be the Exxon Mobil of the electric car age. It might well be automakers.

Tesla, which makes about two-thirds of the electric cars sold in the United States, has built thousands of chargers, which it made free for early customers. The company could open its network to vehicles made by other automakers by the end of the year, its chief executive, Elon Musk, said in July.

Volkswagen also owns a charging network, Electrify America, which is already available to all makes of cars. In Europe, Volkswagen, BMW, Ford Motor, Daimler and other automakers jointly own a charging company called Ionity. Drivers pay fees to charge in both cases, but some automakers offer free charging for a few years to entice car buyers.

Energy giants like BP and Royal Dutch Shell have gotten into the business, too, by buying charging companies in Europe and the United States.

And 14 electric utilities from Maine to Texas have formed the Electric Highway Coalition to build stations at intervals of 100 miles or less. Utilities elsewhere are also building chargers, as

are cities like Los Angeles and New York.

They are all competing in a tiny market: Less than 4 percent of new car sales and less than 1 percent of vehicles on U.S. roads are electric.

Charging companies claim they can succeed even if it takes years for electric vehicles to take over. Some businesses like ChargePoint have been around for more than a decade, while others raising money don't have much of a track record.

The chief executive of ChargePoint, Pasquale Romano, says his company avoids some costs by using contract manufacturers to build equipment and selling stations to employers who own electric vehicle fleets, retailers and others, who also buy software and maintenance subscriptions.

"Everyone thinks this can go fast, and it can't," Mr. Romano said. "You have to get in and start pedaling to help shape what it looks like."

Volta, a smaller charging company, places chargers near the entrances of retailers like Whole Foods Market and Walgreens. The chargers show ads, generating revenue, and the stations pay for themselves within a few years, said the company's president and a co-founder, Chris Wendel. "It's a sponsored service brought to you by brands that care about what you're doing."

But some companies have stumbled. In December, TPG Pace Beneficial Finance, a SPAC backed partly by TPG, the private equity firm, announced that it would buy EVBox, an Amsterdam-based maker of charging equipment, valuing the company at \$1.4 billion.

In January, Jim Cramer, the host of CNBC's "Mad Money," said EVBox was his favorite charging company because it is an established player in Europe. Shares of TPG Pace Beneficial climbed to \$31 in February, from around \$10.

But this month, the companies delayed the merger's closing because EVBox has not yet released its audited financial statements for 2020. TPG Pace said in a regulatory filing that there was "significant uncertainty" about the deal's completion, and its shares have fallen back to about \$10.

A spokeswoman for EVBox declined to comment.

Mr. Cramer no longer stands by the EVBox pick. "I suppose we put too much faith in the financials as presented to investors at the time," he said in an email.

Since the start of 2020, 16 proposed SPAC mergers have been canceled or withdrawn. And investors and regulators have raised questions about the optimistic claims made by executives and promoters of SPACs.

Yet investors continue to pour money into charging. One charging company, EVgo, completed a SPAC deal and started trading in July. Trading in Volta started last month. Several other deals have been announced in recent months, including for Tritium, which makes fast chargers; Wallbox, which sells charging equipment, software and related services; and Allego, which operates a large charging network in Europe.

Some investors think that charging cars might not be the best approach. Lithium ion batteries cause wars, corruption, genocide, mass rapes, child labor, unexpected fires, environmental damage, cancers, liver damage, worker deaths and other awful things.

Last month, Ample, which aims to build stations where drained E.V. batteries are replaced with charged ones, raised \$160 million. Raed Masri, founder of Transform VC, an investor in Ample, said battery swapping would be better for people without a place to plug in their cars because it is much faster.

"They need a quick energy delivery system, and only swapping provides that," Mr. Masri said.

Other investors are making lots of bets. Energy Impact Partners, a private equity firm based in New York, has invested in several charging networks, a repair app for charging stations and an app that optimizes charging.

Cassie Bowe, a principal at the firm, said that with electric vehicle sales growing fast, it was urgent to build a network to support them. "There's no more time," she said. "We need this infrastructure fast."

The reality is that the current plan can never work. There is not enough money, consumer interest, logistical embrace or other support for public chargers to ever be more than a feel good fancy. The consumer desire for speed-of-delivery increases over 10% per year. Nobody is going to put up with the wait, especially after sitting in rush-hour congestion every morning and night.

Electric cars will never happen in any volume unless every home and apartment has a charger, the rates for the chargers are less than gasoline and the batteries or energy cassettes can be instantly hot-swapped. Department of Energy officials avoid this option, though, because it competes with their stock market holdings. Corruption in America will never end until Congress makes it illegal for a public servant, or their family, to own stocks!

The Justice Alliance Supports The Fair Competition Council Anti-Corruption Efforts

- Anti-trust and anti-cartel actions are already underway with DOJ, FTC, SEC and public/private efforts

SAN FRANCISCO - A team of citizens known as [Justice Alliance](#) announced support today for President Biden's important action to reduce the harmful trend of corporate consolidation, increase American competition, and deliver concrete benefits to America's regular folks. Today's historic Executive Order established a whole-of-government effort to promote competition in the domestic economy. With 72 initiatives to be operated by more than a dozen federal agencies, it will promptly tackle some of the most pressing competition problems across the nation.

The White House will be rolling out a new website for this effort, called the White House Competition Council.

J.A. is also working with Inspector General offices and Congress (http://lifebooks.net/GOVERNMENT_CLAIM_1.55_Draft.pdf) to address the "Big Tech" cartel manipulation of government funding, US Patent Office process and crony funding deals between politicians and oligarchs.

The biggest causes of anti-competitiveness in America are 1.) Cronyism, 2.) Nepotism and 3.) Big Tech Cartel black-listing, censorship, favoritism and political special interest bribes.

Politicians are paid bribes via the stock market. America must make stock ownership by politicians, and their families, completely illegal. For example, California politicians own Google, Facebook and Tesla so they refuse to stop the illicit actions of those companies.

The United States Department of Energy has demonstrated some of the worst aspects of anti-competition cronyism and efforts like this may help fix agencies like DOE that are infected with corruption.

The Justice Alliance supports today's fair competition announcement by The White House. The Justice Alliance has been working with Congress, DOJ, FBI, FTC, SEC and Inspector General offices for many years to help bring competition-equality efforts like this to fruition.

Justice Alliance is a wiki-based crowd sourced community support group.

They are not funded by any political or corporate entity. They are simply members of the public who communicate with FBI, SEC, DOJ, FTC, IG and Congress to help support the enforcement of anti-trust laws and regulations. Said David, a JA staff volunteer, "*Justice Alliance is bi-partisan. The FBI and DOJ know us well, we have consulted to them on exact and specific case numbers we can quote. We are not an organization; we are citizens in America. Our mission is to help lawenforcement, regulators and community groups stop corruption*" He also said: "*We take no money, offer no paid membership and are known to the Inspector General's office and every major government agency.*"

Justice Alliance helps get the FTC, SEC, DOJ and others to sue "bad guys" and put censoring, monopolistic, anti-public interest entities out of business. They claim to have a 100% success rate. Teachers, grocers, ex-FBI and CIA officers and reporters are on their WIKI at <http://www.majestic111.com> which is a WIKI like WIKIPEDIA.

A newly formed White House council to [promote competition across the US economy](#) and lower costs for American families is holding its first meeting on Friday in the Roosevelt Room at

the White House.

The White House will be rolling out a new website for this council, called [the White House Competition Council](#), on Friday, a White House official told CNN. The group, which consists of eight Cabinet members and the chairs of seven independent agencies, was formed following an executive order [President Joe Biden signed in July](#) to promote competition within the economy.

In the meeting, National Economic Council Director Brian Deese "will drive home that promoting competition is a cornerstone of POTUS' Build Back Better agenda, and emphasize that it plays a key role in delivering on the (administration's) strategy to drive down prices for consumers," the official said.

Health and Human Services Secretary Xavier Becerra, Attorney General Merrick Garland, Transportation Secretary Pete Buttigieg and Agriculture Secretary Tom Vilsack "will present deep dives on the work they've been doing in this vein," according to the official.

"This meeting will underscore that the (executive order) was just the floor and that the President expects agencies to keep building out their competition agendas in addition to executing on the EO," the official said.

The official said agencies will be called on in this meeting to come up with new and creative ways to promote competition. As chair of the Competition Council, Deese will task each agency to come back to the council's next meeting with at least one new initiative, the official said.

In July, Biden signed a sweeping executive order to promote competition in the US economy, parts of which target a key business strategy used by Silicon Valley companies. The wide-ranging order aims to lower prescription drug prices, ban or limit non-compete agreements that the White House says impede economic mobility and cracks down on Big Tech and internet service providers, among several other provisions.

The White House also highlighted actions the administration has already taken since the signing of the executive order. The official pointed to the Surface Transportation Board working to protect competition in rail and the Federal Maritime Commission looking into surcharges that ocean carriers are charging American shippers, which the White House says drives up costs throughout the supply chain.

The Federal Communications Commission is also looking actions that shut down tenant's access to broadband options, the official said, and the Department of Agriculture is working to combat consolidation in meatpacking.

"The heart of American capitalism is a simple idea: Open and fair competition. That means that if your companies want to win your business, they have to go out and they have to up their game," Biden said when he signed the executive order earlier this summer.

"Let me be very clear: Capitalism without competition isn't capitalism. It's exploitation," Biden said.

Almost every person in America agrees that 1.) Cronyism, 2.) Nepotism and 3.) Big Tech Cartel black-listing, censorship, favoritism and political special interest bribes; have no place in The White House nor in any part of the United States Government!

THE KEY POINTS OF THE MAIN CASE:

INVESTIGATION NOTES ON THIS EVIDENCE -- ([Click HERE, on this title, to open the Evidence Gallery](#))

INVESTIGATION NOTES ON THIS EVIDENCE (ALL OF THE TEXT, HEREIN, IS FROM NEWS AND CRIME REPORTS)

--- Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and agencies like the United States Department of Energy and the U.S. Patent Office, as a stock market manipulation platform. Politicians turned the government into a cheap garage sale of cronyism!

--- This case affects who runs the United States Government and who profits from government decisions, a matter of many trillions of dollars.

--- THE EVIDENCE ITEMS ARE AT THE BOTTOM OF THIS PAGE.

--- The following folders provide evidence of the corruption in categories. The illicit acts described therein all involve the same perpetrators. The evidence items specific to this folder category are at the bottom of this page: A.) AFGHANISTAN RARE EARTH CORRUPTION; B.) CASE DIAGRAMS; C.) DEPT OF ENERGY CRONY SLUSH FUNDS; D.) FACEBOOK META CORRUPTION; E.) GOOGLE ALPHABET CORRUPTION; F.) MASS MEDIA MANIPULATION; G.) NETFLIX NEGLIGENCE; H.) PATENT THEFT; I.) REPAIRING SILICON VALLEY; J.) SICKO TECH FRATBOYS; K.) SONY PICTURES CORRUPTION; L.) STANFORD UNIVERSITY INVESTIGATIONS; M.) THE CORRUPT SENATORS; N.) THE ELON MUSK REPORTS; O.) THE HOUSING CRISIS; P.) THE LITHIUM BATTERY LIE; Q.) THE MEDIA ASSASSINS; R.) THE POLITICAL BRIBES; S.) THE SAN FRANCISCO CORRUPTION; T.) USING SOCIAL MEDIA SITES TO SPY ON CITIZENS; V.) THE SILICON VALLEY DEATHWATCH --- The United States Department Of Energy, Since November 2008, has been almost entirely used as a scam crony payola slush-fund to pay off political campaign financiers of White House insiders. In addition, the Dept of Energy is used as a gate-keeper to sabotage and stall the competitors to those political campaign financiers of White House insiders. It is political racketeering operating in plain sight! The cover-ups by the IG, AJ and DOJ are ENDLESS!

--- At a high level: Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and government agencies as a stock market manipulation platform. Politicians turned the government into a cheap garage sale of cronyism! This kind of crime illicitly and illegally manipulates the power over who runs the United States Government and who profits from government decisions which are a matter of many trillions of dollars. The act and veracity of this crime enterprise will be proven to the Jury.

--- Based on that assertion it will then be proven that:

--- 1.) Plaintiff exposed and reported the crime to proper authorities through proper channels.

--- 2.) Some of those authorities used government resources to operate reprisal attacks against Plaintiff, using government resources to operate the attacks, as revenge for reporting the crimes.

--- 3.) The state-sponsored attacks were supported by the political campaign financiers of the government authorities in order to protect their payola conduits and stock market manipulations.

--- 4.) Over 40 harms, each to be detailed and examined in Court, were documented against Plaintiff by the actions of corrupt government authorities.

--- 5.) In a vast number of previous lawsuits, including one won by Plaintiff and his peers, it was proven that government offices infected with corruption regularly attack and harm citizens

in reprisal.

--- 6.) The government, having been caught in these illicit actions, must now pay Plaintiff for his losses, damages, harms, back-pay fees and other compensation.

--- Plaintiff founded and owned a United States government-financed electric vehicle manufacturing company. His technology and metrics surpassed every: A.) price metric, B.) safety metric, C.) driving range metric, D.) national security metric, E.) debt Ratio metric, F.) non-bribery assertion metric, G.) 100% domestic worker hiring proof and EVERY other issue, which burdened Tesla and Fisker. Plaintiff worked as an employee and contractor for the USA. Tesla And Fisker were financed by the family and investors of Presidents Obama and Biden, as proven by Congressional investigators and email leaks. Government officials ordered attacks on Plaintiff, de-funding and reprisal because Plaintiff reported corruption at the White House, Department of Energy, and other government offices, and because Plaintiff's technology could obsolete the technologies that government officials were illicitly receiving bribes from via insider trading. The attacks and harms against Plaintiff used government resources paid for by taxpayers.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

--- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends. -

--- If you are a taxpayer: You suffered damages!

--- If you are an American business: You suffered damages!

--- If you are Democracy: You were broken!

--- If you were a tech mobster: You made out like a bandit!

--- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! -

-- Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes! The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

--- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.--- IF YOU SEE CORRUPTION, REPORT CORRUPTION: Post a public web page with all of the details and evidence of the political corruption. Then invite all of the press, public, Inspector General's, FBI, SEC, FTC and law enforcement to that web page. This will prevent cover-ups and stone-walling and protect you from getting ignored! Never assume that the agencies that are supposed to help you, will help you!

AFGHANISTAN RARE EARTH MINING CORRUPTION -- ([Click HERE, on this title, to open the Evidence Gallery](#))

AFGHANISTAN RARE EARTH MINING CORRUPTION: Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age. --- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promoted Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. --- WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NICAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. --- A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their cronies, spend over \$1B a year to still and troll hype about lithium ion batteries and cover-up the dangers. --- Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. --- Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. --- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. --- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. --- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. --- Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. --- Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. --- Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. --- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! --- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. --- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. --- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins". --- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! --- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects. --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and

industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

THE CORRUPTION CASE DIAGRAMS: Graphic visual diagrammatic outlines of the crimes and corruption. While it may be hard for some to read all of the papers associated with these political corruption crimes, these graphic presentations make it easy. Please share with your friends and peers. --- California and DC politicians are being paid bribes with Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Rare-Earth mining rights; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Gallery art; Private jet rides and the use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Recreational drugs; Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington and Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists. DEMAND COMPLETE LAWS TO MAKE ANY BENEFITS TO POLITICIANS TOTALLY ILLEGAL!----- The Khaki Pants Mobsters Of Palo Alto: --- The "Silicon Valley Mafia" is comprised of The Sand Hill Road venture-capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) facade (Greylock Capital; Kleiner Perkins Caufield and Byers, Draper, Khosla Ventures, etc.) and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) that they control. --- They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control and who own stock in their operations. They hire dirty law firms like MoFo, Wilson Sonsini, Covington, Perkins, etc. and dirty lobbyists like McBee, Podesta, Blumenthal, etc. to do their dirty deeds. --- They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America Foundation, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders. --- They collude with black-lists, valuation payola, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, Jeffrey Epstein-like executive prostitute sex-trafficking clubs, trophy wife trades, the bribery of politicians and worse. They are felons who bribe politicians to halt investigations and interdiction efforts. --- They have quid-pro-quo stock market bribe deals with Senators Reid, Feinstein, Harris, Boxer, Spier, etc. In the CleanTech Crash: Every single Dept of Energy executive, and related Senator, owns stock market assets in Tesla, Fisker, Solyndra, Ener1, etc. so they blockaded and sabotaged every applicant who competed with their holdings in a RICO-violating, felony organized crime, using taxpayer funds, in order to profit at the expense of taxpayers. --- They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis practitioners, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves" and other anti-social revelations. The divorce court and lawsuit federal court records on them prove that they are sex-abusing sociopaths. --- They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did. --- Some of the top crooks and bribe-payers include: Google's Larry Page, his boyfriend Elon Musk; Google's Eric Schmidt, Andy Rubin, David Drummond, Kent Walker, Jared Cohen and Sergy Brin; Political manipulators David Plouffe, Steve Westly, Steve Spinner and Vinod Khosla; Sociopath billionaires Reid Hoffman, Richard Blum, Jeff Epstein, Tim Draper, Steve Jurvetson, etc. --- They order their staff and associates to: bribe politicians; operate sex trafficking for them; manipulate stock market valuations; launder money; run off-shore tax evasion schemes; black-list employees and competitors; hide, down-rank, DNS dead-hole, shadow-ban, censor and server obfuscate enemies on the entire web; rig the U.S. Patent Office; help them cheat on their wives; and engage in massive volumes of insider, illicit, RICO and anti-trust violating crimes while bribing public officials to avoid prosecution. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

DEPT OF ENERGY CRONY SLUSH FUNDS -- ([Click HERE, on this title, to open the Evidence Gallery](#))

DEPT OF ENERGY CRONY SLUSH FUNDS: Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and the United States Department of Energy as a stock market manipulation platform. --- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends. EVERY APPLICANT WHO HAS BETTER METRICS THAN WHITE HOUSE INSIDERS FISHER AND TESLA GETS REJECTED. DOE DOES THIS TO PROTECT OBAMA AND BIDEN CAMPAIGN FINANCERS WHO PAID BRIBES IN ORDER TO GET THIS GREEN PAYOLA. IN A PUBLIC, SIDE-BY-SIDE, COMPARISON THE DOE "WINNERS" WOULD LOSE AND THEY CRONYISM WOULD BE EXPOSED! --- If you are a taxpayer: You suffered damages! --- If you are an American business: You suffered damages! --- If you are Democracy: You were broken! --- If you were a tech mobster: You made out like a bandit! --- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes! --- The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony meafessance of the public funds. --- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam. --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook -- Meta -- Google -- Alphabet -- Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS -- Black Cube -- Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. --- The United States Department of Energy runs a political crony payola slush fund. They don't "support green cars"; they support "greenbacks for crony insiders who financed political campaigns". The U.S. Department of Energy violates anti-trust law by funding only the friends of The President and cutting out their competitors. The "Secretary Of Energy" is a paid actor who owns the companies that the government finances. --- Competitors to White House financiers are specifically and illegally excluded from participation in funding, benefits, jobs and income by major political figures, including U.S. Senators and White House executives, and their Silicon Valley oligarch financiers. These corrupt politicians attack others who refuse to cooperate with their crimes including: 1.) sex trafficking, 2.) tax evasion, 3.) off-shore money laundering, 4.) political bribery quid-pro-quo, 5.) revolving door payola scams, 6.) foreign nation-sponsored domestic manipulations, 7.) stock market rigging, 8.) internet censorship, 9.) search engine manipulation and other crimes. --- They attacked citizens who report their crimes to federal police. They also attack citizens who make products that obsoleted their products at Facebook, Google, Tesla, Netflix, etc. These corrupt politicians attack citizens using taxpayer-funded state resources. That is a felony violation of the law. The ongoing cover-up of these crimes and attacks is also a felony violation of the law. The victims are owed damages compensation, witness fees and back-pay. --- Top Lawyers from Perkins Coie and Covington & Burling admitted that they "CONTROL" who gets DOE funding, agency appointees and federal cash *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

THE FACEBOOK META CORRUPTION -- ([Click HERE, on this title, to open the Evidence Gallery](#))

THE FACEBOOK META CORRUPTION: Regarding Facebook AKA META, the issues, that the public and the news media have complained about include: producing child suicides and classroom shootings, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! FACEBOOK PROFITS OFF THE CLICKS FROM SCHOOL SHOOTINGS --- MOST OF THE BIDEN AND OBAMA STAFF OWN PARTS OF FACEBOOK!!! --- An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking. --- This entity is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them. --- Facebook-Meta engaged in the bribery of public officials. --- Facebook-Meta is a front for actions and planning in the Obama and Biden White House. --- Facebook-Meta is part of a criminal Big Tech Cartel. --- Facebook-Meta is an illicit monopoly that violates anti-trust laws. --- Facebook-Meta operates a digital news and information "protection racket". --- Facebook-Meta attacks competitors who cannot defend themselves. --- Facebook-Meta uses public officials to blockade competitors. --- Facebook-Meta manipulates the stock market illegally and unethically. --- Facebook-Meta operates like a private, unregulated, government. --- Facebook-Meta abuses CIA, NSA and DIA resources for unjust gains. --- Facebook-Meta uses Stazi-like mind and ideology manipulation tricks on it's site to try to get you to agree with Mark Zuckerbergs ideologies. --- Facebook-Meta investors and investment bankers conspire in a Mafia-like manner. --- Facebook-Meta steals patents and technology from others and refuses to pay for it. --- Facebook-Meta's Sandberg pretends to be the goddess of women's rights yet she is screwing the CEO of Activision, the biggest female sexual abusing company in America. --- Facebook-Meta's stock is owned by almost all of the California politicians and their families and that is why Facebook-Meta is never regulated and always protected by them for their political and profiteering manipulations. --- Facebook-Meta is Pro Israel and anti-Arab and anti-Muslim. --- Facebook-Meta's runs tens of millions of dollars of defamation attacks against competitors. --- Facebook-Meta hides all media and news coverage for competitors of Larry Page and Elon Musk. --- Facebook-Meta lies to the public about what they really do with the public's data. --- Facebook-Meta receives millions of dollars of payments from government spy agencies each month. --- Facebook-Meta promotes illegal immigration in order to get cheap labor and control votes. --- Facebook-Meta runs VC funding back-lists against start-ups that are competitive. --- Facebook-Meta bribes thousands of politicians in order to steer policy to their advantage. --- Facebook-Meta is a criminal RICO-violating monopoly. --- Facebook-Meta rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks. --- Facebook-Meta pays bribes to politicians in Facebook-Meta stock. --- Facebook-Meta manipulates who gets to see what web-sites, globally, for competitor black-lists. --- Facebook-Meta has a "no poaching" Silicon Valley jobs blacklist. --- Facebook-Meta

bosses sexually abuse women and young boys. --- Facebook-Meta bosses run sex trafficking operations in the Epstein and NXVIUM cults. --- Facebook-Meta bosses control the NVCA financing cartel over start-ups. --- Facebook-Meta scheme to take over the VR and AR markets is based on spying on the public with VR sensors and cameras. --- Facebook-Meta controls national elections for anti-competitive purposes. --- Facebook-Meta's law firms are corrupt conduits for payola and political conduit-relays. --- David Plouffe and the Zuckerberg's were recording in meetings planning a take-over of the United States Government. --- Facebook-Meta bribes some politicians with revolving door jobs. --- Facebook-Meta is primarily responsible for destroying the Bay Area Housing opportunities. --- Facebook-Meta runs DDoS attacks on competitors by massively crawling their sites. --- Facebook-Meta has paid covert bribes, PAC funds, real estate and search rigging payola to every California Senator. --- Facebook-Meta has paid bribes, through its lobby fronts, to halt FBI, SEC, FEC and FTC investigations of Facebook-Meta crimes. --- Facebook-Meta gets millions of dollars of taxpayer cash for spying on Americans inside the USA. --- Nancy Pelosi and Dianne Feinstein have promised to "protect" Facebook-Meta because their families profit off Facebook-Meta stocks. --- Facebook-Meta VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Facebook-Meta and harm Facebook-Meta competitors. --- Facebook-Meta bribed its lawyer into position on the board of the U.S. Patent office in order to have him protect Facebook-Meta. --- Facebook-Meta rarely likes, or hires, black employees per federal and news media investigations. --- Facebook-Meta hired most of the Washington, DC K Street lobby firms and told them to "do what ever they could" to control public policy for Zuckerberg. The film: "Miss Sloane" depicts only 2% of the illicit lobbying tactics Facebook-Meta employs daily. --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. --- Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions. --- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use. MASS MEDIA MANIPULATION BY SILICON VALLEY -- ([Click HERE, on this title, to open the Evidence Gallery](#))

MASS MEDIA MANIPULATION BY SILICON VALLEY: News outlets in our country exhibit the widespread "criminality" and "defamation tactics" of a mostly corrupt news media landscape. The Gawker/Gizmodo/Jalopnik tabloid empire is nothing more than an organized info-crime operation backed up by offshore money-laundering through Russia and the Ukraine. --- Despite widespread recognition of their deceptive conduct, fools still read these trash publications. --- There are massive conflicts of interest related to many news media outlets' conglomerate-ownership as well and industry figures' financial and familial links to companies, interests, and people they ostensibly report on. --- 'Fake news' isn't the proper term. It's the

'propaganda arm of the Silicon Valley Socialist oligarchs' In most cases. ---- There are only about 7 men who control all of the news and media in America. That's right! If you trace the media ownership in America, it all comes down to control by a few crazy old white boys ---- It's no different than the Chinese Communist Party [and] the propaganda they put out. It's no different than what the Soviet Union did with the old Pravda media, and, quite frankly, it's no different than how Putin controls the media today, where 95 percent of his media in Russia is propaganda for the Putin regime. It's the same thing here with The Washington Post, NY Times, CNN, Hearst publications and all of the media owned by Hollywood and Silicon Valley. ---- Partisan news media should be treated as such. News media outlets such as the CNN, the New York Times, and the Washington Post regularly describe themselves as "politically objective and non-partisan." In reality they are a propaganda machine for sick Silicon Valley oligarchs. ---- The information institutions are corrupt. For example, Elon Musk is one of the most corrupt men in the world yet the socialist propaganda news media won't cover any of his crimes and corruptions in their publications because he pays political bribes to keep his dark side hidden in their media. ---- The public should not hurt legitimate news media outlets by engaging with and speaking to corrupt propaganda operations. One should only speak with genuine news media and not reward unethical companies with their time. ---- The following diagrams show what various independent researchers have discovered: The Manipulation Techniques Of Silicon Valley Media Outlets ---- A common tool Google, Facebook and Twitter use to exert control over their victims. ---- We all use manipulation at some point in our lives, whether it be telling a little white lie to get out of a situation, or using flattery to get what we want. For some people, however, using manipulation is a way of life, and their first weapon in an arsenal of techniques to overpower their victims. ---- Who is at risk from the Silicon Valley media predators? Predators use a range of manipulation techniques in order to control their victims, but they often target certain types of personalities. This is because they want to be able to easily manipulate a person, and particular vulnerabilities in a person lend themselves to manipulation. You are more likely to become a victim of a media predator if you have low self-esteem, are naive, easy to please, lack an assertive nature and have no confidence in yourself. ---- Here are 20 of the most common news pundit manipulation techniques: ---- 1. Lying - Predators are constantly lying about practically everything in their life. They do this to wrong-foot their victim and confuse them. Lying is one of the manipulation techniques psychopaths typically use because they have no qualms about it. ---- 2. Not telling the whole story - This is different to lying as a predator will often keep a key part of the story to themselves in order to put their victim at a disadvantage. ---- 3. Frequent mood swings - Never knowing what mood your partner is going to be in when you get home, whether they'll be happy or angry is a very useful tool to the predator. It keeps their victim off balance and makes them more malleable. ---- 4. Love-bombing and devaluation - Narcissists typically use love bombing as a manipulation tactic, they will go on a charm offensive and get you hooked into thinking this is the best relationship ever, then they'll drop you like a ton of bricks without explanation. ---- 5. Finger Pointing Punishment - This can include anything from constant nagging, shouting, the silent treatment, physical violence and mental abuse. ---- 6. Facts Denial - Often the simplest way a predator will manipulate a person is by denying the thing they are accused of ever happening. ---- 7. Spinning the truth - How many times have politicians twisted the facts to suit themselves? This spinning of the truth is often used to disguise bad behaviour by predators such as sociopaths. ---- 8. Minimising The Urgency - Where a predator will try and play down their actions as not important or damaging and shift the blame onto the victim for overreacting. ---- 9. Plays the victim - The manipulator will themselves take on the role of victim in order to gain sympathy and compassion from those around them. We as humans are naturally drawn to helping people when they are suffering. ---- 10. Targets the victim - When a manipulator accuses the victim of wrongdoing, they are making the victim defend themselves whilst the predator is able to mask their own manipulation techniques. The focus is on the victim, not the accuser. ---- 11. Positive political reinforcement - This includes buying expensive presents, praising them, giving money, constantly apologizing for their behaviour, excessive charm and paying lots of attention. ---- 12. Moves the goal posts - You might think you know where you stand with a person, but if they are constantly moving the goal posts in order to confuse you, then it's likely you're dealing with a predator. ---- 13. Diversion - Diverting the conversation away from the perpetrator's act and moving the conversation onto a different topic is a typical way predators manipulate their victims. ---- 14. Sarcasm - A predator will often be sarcastic about their victim in front of others. They do this to lower the self-esteem of the victim and to show others how powerful they are. ---- 15. Guilt tripping - Someone who manipulates will often guilt trip their victim by saying that they don't care about them, or that they are selfish or their life is easy. It all helps to keep that person confused and anxious. ---- 16. Flattery - Using charm, praise or flattery the victim is one way of gaining that person's trust. The victim is naturally happy to receive such compliments but in doing so lowers their guard. ---- 17. Playing the innocent card - A true manipulator will feign utmost shock and confusion at being accused of any wrongdoing. Their surprise is so convincing that the victim may question their own judgement. ---- 18. Over the top aggression - Manipulators often use rage and aggression to shock their victim into submission. The anger is also a tool to shut down any further conversation on the topic as the victim is scared but focused now on controlling the anger, not the original topic. ---- 19. Isolation - It is far easier to keep a person under control if they are isolated from family members and friends who could shed some light and truth on the situation. ---- 20. Feigns political love and empathy - News Predators such as psychopaths and sociopaths do not know how to love someone other than themselves, and cannot feel empathy, but they can pretend to in order to inveigle others into their lives.---- If you watch out for the above manipulation techniques, you can keep yourself out of a media predator's clutches. ---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---- So, while the categories covered in this investigation may seem diverse. NETFLIX NEGLIGENCE AND POLITICAL MANIPULATIONS - ([Click HERE, on this title, to open the Evidence Gallery](#))

NETFLIX NEGLIGENCE AND POLITICAL MANIPULATIONS: Per Susan Deen:" Let's face it, Netflix sucks. Netflix spies on you and sends your psychological profile, location and interests off to spies, political parties, marketing services, Google, The Silicon Valley mafia, the IRS, the DEA... pretty much anybody can see what you are doing on Netflix.NETFLIX is not a movie service. NETFLIX IS AN ULTRA-WOKE, ANTIFA PROPAGANDA OPERATION THAT SEEKS TO PROMOTE EXTREMIST POLITICAL AND SEXUAL SOCIAL CONCEPTS! If you like to get pandered to and treated like one of the data cattle on the privacy harvesting ranch then Netflix is your Pimp! Netflix pretty much works for Obama and his political gang and pushes woke mass media manipulation and gay sex social programming at you as a result. If you are a guy, Netflix really, really, really wants you to cut your penis off and call yourself a girl!" ---- Whats worse is that with so many studios refusing to license content to Netflix now, streaming services such as Disney plus, Peacock and many more are on the rise. Netflix sucks. Somehow, Netflix subscribers are left feeling like there's nothing to watch on a platform that force feeds an over abundance of content from Indian and Mexican movies to it's viewers. ---- Every Netflix subscriber claims there's nothing above "B-list" movies being served to them on a thirteen dollar per month silver platter (and sixteen for 4k) Not to mention how unfavorable the label "Netflix originals" have become when slapped on a movie or show. "Netflix originals" is building a negative rep on par with Nickelback and Adam Sandler's series of Happy Madison productions movies. ---- Everyone knows that Netflix is bad now and getting worse every day. Netflix makes young adults feel the same way the price of extra guac at Chipotle does... and that is the: "I don't agree with this, but please take my money", feeling. They know they've got your money because it's too hard to say no each month because Millennials are so stupid and sheep-like. ---- Did we mention the increase of the monthly price? Netflix sucks. Netflix only hires Burning Man type extreme hair-dyed hipsters who have an ANTIFA-type attitude, especially if they are from Asia and will work like dogs for McDonald's type pay and conditions. People who use Amazon Prime and then go back to Netflix can really see how much Netflix sucks. They would rather set their genitals on fire than stay with Netflix. ---- Netflix will make you love crippled, fat, black transgendered lesbians. You will get so many of them you won't be able to stand it. ---- A while back Netflix destroyed its own rating system. What we mean by that is... they literally deleted it. Now, at the start of each movie we're forced to either check rotten tomatoes or risk the next 25 minutes to figure out if a show or movie is worthy of our time and attention. Netflix removed their rating system in order to hide the fact that everyone thinks their movies are absolute shit! ---- Netflix stole most of it's streaming media technology from small inventors that it never paid. If any inventor tries to sue Netflix, Netflix just sends millions of dollars of lawyers after them so that the inventors can never get paid. It is best just to put Netflix out of business. ---- Netflix spent zillions of dollars making new content but the content they made turned to be the worst shit ever created. When Obama and his buddies make media to try to program you into being "woke", it ends being heartless propaganda. Seriously, Netflix spent more money making shittier content than anyone in history. It's as if Netflix was just funneling money back to Biden and Obama. Speaking of funneling money, the FBI's Peter D. Cair has been busting Netflix executives who steal big money through the Netflix stock market system. ---- If you use Netflix you enter a "Netflix pit" you fell into and can't get out of... ---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---- So, while the categories covered in this investigation may seem diverse. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley.— Netflix handed that sex-obsessed fetishist Ryan Murphy (pictured) \$300 million to create flop after flop after flop. Oh, and where's all the America-is-racist shit? I'll tell you where all that garbage is: it's buried in that pile of shit Netflix calls a "content menu," and as far as eyeballs, it's all losing to 20-year-old movies everyone's already seen, like Happy Gilmore. Netflix's whole plan was to release a new movie every week, which it did. But those movies were all shit — all preachy, insulting, anti-human nature exercises in wocketardery.—So now that The People have spoken and the bottom has begun to fall out of Netflix's stock price — from \$679 in November to \$192 today — and now that Netflix is losing subscribers and expecting to lose two million more this quarter — the Netflixards need to rethink some things...It makes perfect sense for Netflix to want to attract talent. What makes no sense is standing back and allowing them to produce their insane vanity projects that have no appeal to any normal human being. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

PATENT THEFT BY BIG TECH OLIGARCHS: LARRY PAGE AND GOOGLE BASE THEIR BUSINESS MODEL ON STEALING YOUR TECHNOLOGY. Larry Page's Obsessions Became Google's Business Model. Larry's Boyfriend Elon Musk Conspires With Larry Page. Page Has Been Caught Skulking Around Tech Parties To Steal Ideas — SEE HOW YOUTUBE, NETFLIX, FACEBOOK, GOOGLE, AMAZON AND THE SAND HILL ROAD VC'S STEAL YOUR STUFF UNDER THE GUISE OF "TAKING A LOOK UNDER THE HOOD" — Draper Fisher, Kleiner, Andressen, Sony Ventures, et al., need to go to prison for running a mob-like, RICO-violating, intellectual property theft mill. — The contact start-ups, ask them to come in and pitch, reject them, then send their business plans to Google, Netflix, Sony and Facebook (WHO THEY FINANCE) and tell them: "...HERE COPY THIS, JUST CHANGE THE NAMES OF THINGS." The Sand Hill Road VC's are mobsters and scumbag thieves! Tom Perkins, James Bronkema and many other of their members ratted them out in recorded statements! — "...We discovered that the patent lawyers that were supposed to be helping us... That we paid to provide our income; were covertly our competitors and were working as shills, for our enemies. Our patent lawyers were: either, financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, parrying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; our business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political digital search manipulation services to. Criminal U.S. Senators coordinated and profited in these schemes. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. — U.S. SENATORS do not get to own Google, Facebook and YouTube, and their suppliers, while exclusively financing Elon Musk, Larry Page, Eric Schmidt and Mark Zuckerberg with government money (your money) and tax waivers, while sabotaging their competitors and cutting them off from the same government benefits. U.S. Senators and the highest officials in the land are also financed by Elon Musk, Larry Page, Eric Schmidt and Mark Zuckerberg for their political campaigns. The United States Government is supposed to arrest Elon Musk, Larry Page, Eric Schmidt and Mark Zuckerberg for corruption, not help them, and Goldman Sachs, do more crimes! — New and dramatic game-changing evidence has emerged in the last two weeks from a huge volume of document leaks and other Court hearings. Plaintiff presents this case, not only as a claim for damages, but also as an anti-corruption effort public-service. Harms and damages have been accelerated against Plaintiff, as recently as this week, due to the proximity to elections. Plaintiff was told by a senior member of The National Venture Capital Association: "... We (The NVCA) are not going to let you get any more patents that compete with our operations. We (The NVCA) control the Patent Office and we decide who runs the Patent Office. Facebook is our baby and we will destroy you if you threaten the baby...". Recent evidence has proven, beyond any doubt, that the Facebook, Google Cartel does, indeed, run the USPTO! — The charges are filed against Defendant, THE UNITED STATES PATENT OFFICE, a representative entity which has a 1.) command-and-control, 2.) financing, 3.) legal authority and 4.) management influence over the actions and claims of harm described herein and has been proven, in thousands of past court cases, to use reprisal attacks against A.) whistle-blowers and B.) the competitors to political campaign financiers of high-level government officials. Plaintiff has no knowledge of, or ability to, accurately quote or include any citation to a statute, rule, or order or 'little lawyer numbers in parentheses' unless a lawyer is supplied to Plaintiff. Plaintiff maintains that the ongoing blockading of Plaintiff's representation by a qualified lawyer is a violation of his Constitutional rights to a fair hearing which is caused by Defendants who seek to engage in further cover-ups. — When the United States Patent Office, in a federal hearing, said that Plaintiff invented the core technology operating Facebook and Google and then refused to give him his patent paperwork, it seemed like the game might be rigged. After receiving tips from USINVENTOR.ORG, Wall Street Journal, TECH CRUNCH and Congress; Plaintiff hired ex FBI and CIA agents to check it out... BOY, was it ever rigged. Facebook's own staff and investors work INSIDE the U.S. Patent Office in order to protect Facebook from having to pay for technology they stole. Then they showed Plaintiff that most of the Obama and Biden Administration COVERTLY OWN FACEBOOK. Talk about 'rigging elections' and 'rigging industries'... Facebook executives even sit on USPTO boards!!! — What U.S. judge or regulator is complaining? For example, (as one example of MANY THOUSANDS) who would complain about Sands Capital's failure to file the S.E.C. Form SC 13G notices of acquisition of Facebook, Baidu and Athenahealth stock? — Not S.E.C Chairman Mary L. Schapiro—she held a boatload of "dark pool" Fidelity, Vanguard, AllianceBern, TIAA-CREF and T. Rowe Price funds. — Not Commerce Secretary #1 Rebecca M. Blank—she held TIAA-CREF, Vanguard and Fidelity funds. — Not Commerce Secretary #2 Penny S. Pritzker—she holds up to \$23.4 million Morgan Stanley, JPMorgan and Goldman Sachs Facebook dark pools. — Not Attorney General Eric H. Holder —he held T. Rowe Price and Fidelity funds. In fact, Holder held Fidelity Contrafund, the largest single Facebook mutual fund stock holder, valued at \$413 million. — Who in the judiciary would complain? — Not Leader v. Facebook Chief Justice John G. Roberts, Jr.—he held Microsoft, T. Rowe Price, Fidelity, Janus, Vanguard and Blackrockfunds, including Fidelity Contrafund. — Not Leader v. Facebook Federal Circuit Judges Alan D. Lourie, KimberlyA. Moore and Evan J. Wallach—they held Fidelity, Vanguard and T. Rowe Price funds, including Fidelity Contrafund. Not Leader v. Facebook District Court Judge Leonard P. Stark—he held Vanguard and Fidelity funds. — Not Leader v. Facebook Patent Office Director David J. Kappos—he held over a million dollars of Vanguard funds. — Investigators uncovered a felony, organized crime-level of QUID PRO QUO media manipulation, RICO violations and anti-trust law violations between government officials and Facebook blockading Plaintiffs patent and business rights. Over 500 high level government officials own Facebook and harm it's competitors to protect their insider trading stocks. Ask FINCEN to show you the complete family account records on EACH of the perps! — Plaintiff noticed that nobody every prosecutes these people. It is like they are protected by a crony quid pro quo protection racket running all the way up to the Oval Office! — Can you explain that USPTO? REPAIRING SILICON VALLEY'S CORRUPTION — ([Click HERE, on this title, to open the Evidence Gallery](#))

REPAIRING SILICON VALLEY'S CORRUPTION: The companies and corrupt politicians of Silicon Valley must be erased in order to, first, repair Silicon Valley. — The Silicon Valley tech Cartel (AKA: "Paypal Mafia", "Deep State") is evil because these racist, ageist, sex-trafficking, money-laundering, elitist, politician bribing, tax evaders: steal any technology they desire; FACEBOOK AND GOOGLE MAKE \$100M IN PROFITS OFF OF EACH CLASSROOM SHOOTING!!! — They manufactured the CLEANTECH CRASH as shown in the 60 MINUTES episode of the same name; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are 'rape culture' take-what-they-want misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI and SEC investigations; They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times. — They have bought up all of the Tier-One tech law firms and order them to black-list, and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws. Silicon Valley has become the largest assemblage of douche-bags and yuppie frat boy criminals in human history. Theranos is not the exception, it is the standard. Tesla, Google, Theranos, Wework, Facebook are lies backed by famous political insiders to protect their insider trading and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors. When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI! The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy! When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, via corruption, then it is impossible for that Senator to ever do anything but be corrupt! We have reported this in writing to winklerm@sec.gov, sanfrancisco@sec.gov and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is? — Take a look at how many TRILLIONS of dollars pass through the stock markets annually and then look at the reported, AND UNREPORTED, securities holdings of famous U.S. Senators and government agency staff. That is what Seth Rich and the people in the "In Memory Of" section, below, were disclosing. These are massive crimes! The perpetrators operate a massive and abusive national sex cult. — The perverts in the Sandhill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and Ed Buck sex scandals are well known. — These men's sex cult actions have been widely covered in the news individually in the Joe Lonsdale rape case, The Kleiner Perkins Ellen Pao sex abuse lawsuit, The Eric Schmidt sex penthouse stories, The Jeffrey Epstein case, The Google Forrest Hayes hooker murder case, The Andy Rubin sex slave case, The Sergy Brin 3-way sex romp scandal, The British Hydrant investigation, The Elon Musk Steve Juvetson billionaire sex parties scandals, The NXIVM sexual slave cases, The Michael Gougen anal sex slave trial, The Tom Perkins Hooker Parties and thousands of other cases and federal divorce court filings. — This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. The Elon Musk sex perversions are the tip of the iceberg. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for

these Cartel members. Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. Google's Eric Schmidt is under massive investigation. You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: Eric Schneiderman and Eliot Spitzer, are involved in these sex rings. These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses! --- All Silicon Valley tech cartel media companies work together to censor all news and information in order to hide coverage of their dirty deeds and to out politicians in office that will give the Cartel political payola, kick-backs and insider stock pumps. --- The Smedley Butler "Business Plot" from the past is not unlike the coup that Google and clan tried. See details in Emily Chang's book: BROTOPIA; Roan Farrow's book: CATCH AND KILL; Edward Snowden's Book: PERMANENT RECORD; Peter Schwetzer's book: THROW THEM ALL OUT; Dave Eggers book: THE CIRCLE; Franklin Foer's book: WORLD WITHOUT MIND; Corey Pein's book: JOURNEY INTO THE SAVAGE HEART OF SILICON VALLEY; Dan Lyon's book: DISRUPTED; Antonio Martinez book: CHAOS MONKEYS. The Angelgate, Epstein, No-Poaching DOJ Class Action, and hundreds of other cases, prove that they meet, conspire, collude and blacklist in felony violation of anti-trust and RICO Racketeering laws. --- 90% of these guys came from the same date-rape fraternity houses involved in the recent college rape cases. --- There are hundreds of millions of people in America. THE SICKO TECH FRAT-BOYS AND THEIR BIG TECH SEX CULTS: Brotopia is the elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies. --- When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner. --- They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. --- Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption. --- They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime'. --- The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking. --- The Silicon Valley Tech Cartel is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them. --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. --- Why don't you see much about this corruption in the "news"? A handful of companies in Silicon Valley, all controlled by the same investors, control almost all of the news and information in the world. They only hire and publish writers that agree with their fake news ideology. That ideology is whatever lie they can sell to the emotions of those shill writers to get them to "believe". In reality the only ideology the owners of those companies actually have is to pump their personal stock market holdings. They control elections in order to manipulate people into office that will do things that benefit the stocks of those media owners. They will lie to beat the band because their hookers, rent boys, private jets, drugs, private islands and other sins are expensive as hell and they are addicted to those deviancy's. They are all invested with Elon Musk's, Larry Page's and Mark Zuckerberg's companies so they never allow any negative news about those tech mobsters in the world news that they control. This is the worst kind of illegal media monopoly but these owners control the agency heads who are supposed to indict them. So everybody in America is screwed until some non-fake law enforcement comes along. --- A horrific phenomenon of cultural depravity and white-collar crime is going unchecked in Silicon Valley because Silicon Valley controls the media and the politicians that are usually supposed to check these kinds of things. Millions of pages of news reports, documentaries, interviews and legal transcripts prove the following to be true: --- Elitist Cult. Silicon Valley elitists believe they are better than everyone else. Silicon Valley's Kleiner Perkins founder: VC Tom Perkins, said that poor people must be "Nazi's" for not accepting the "superior intellect" of VC's. Silicon Valley's Kleiner Perkins VC Vinod Khosla, took over California's favorite public beach, bribed the White House for "green cash" and got sued for arrogance by a horde of public interest lawsuits. Silicon Valley's Kleiner Perkins founder Ray Lane was indicted for tax evasion. Silicon Valley's Kleiner Perkins boss John Doerr was sued for sexual office abuse and running a "frat house". Most of the VC's and tech CEO's in Silicon Valley are charged with ethics breaches. --- Prostitutes. Silicon Valley males hire more hookers and "rent-boys" and fly more sex workers into the Bay Area than any other city in America. Google's and Tesla Investments executives were killed in sex and drug romps with hookers. Google's Eric Schmidt ran a huge "sex penthouse" and promotes infidelity and "anti-marriage". Google's search engine rigging boss died at the hands of one of his hookers. The Silicon Valley VC's had the Rosewood Hotel built at the end of Sandhill Road as a place to take interns and hookers to for sex. Underage sex efforts operated by these VC's and Tech CEO's have created the "Pizzagate" phenomenon. --- Rapists and Sexual Coercion of Employees. Young interns are "sent up the hill" by Stanford to the VC's Sandhill Road offices to become sexual playthings for the VC's at the Rosewood Hotel. Ellen Pao sued Kleiner Perkins over the sexual "rape culture" that they promoted. Thousands of women have written books and articles about the sexual intimidation they are subjected to by Silicon Valley VC's and their tech CEO's. VC's Joe Lonsdale, Michael Goguen and hundreds of others have been charged with rape and sex trafficking. Stanford University gets "endowments" and "gifts" for hushing rape culture and intern-fluff up. --- Assholes. Fraternity House Take-What-You-Want culture is re-percussively promoted in the bars, clubs, meetings, conferences and emails of the VC's and CEO's. The TV Show: Silicon Valley, underscores the point of the dangers of infectious asshole-ism in Silicon Valley. --- Clones. They assemble those around them that have the same stereotypical facial structure. In a room full of ordinary people and Tech VC's, the VC's faces stand out as Hollywood-type character-cartoon duplicates of each other. --- Sexual deviance and extremism. Google's founders have all had extreme sex scandals involving cheating, 3-way sex, divorces over abuse, forced anal sex and other outrages. Their teachers at Stanford have had to quite over their sex scandals. Their willingness and infatuation with sexual extremes defines them as moral degenerates who care little about laws and ethics. --- Insider Dysfunctional Parents. The majority of the VC's and Tech CEO's come from rich dynastic families who are cultism-like devoted to "the family bloodline" and run by male oligarchs who believe in a rape culture/oligarch ethos. This belief system is passed on to their children. The oligarch parents threaten to cut endowments to Stanford University if Stanford punishes their son's Frat Houses for date rapes. --- Tone Deaf. Silicon Valley Tech people exist in a conceptual ideology reinforcement bubble by never interacting with, or reading information or news from, anyone outside of their group. VC Tim Draper spent vast amounts of money trying to make Silicon Valley it's own country in order to systemize the Silicon Valley tunnel-vision bubble. They want to secede from America because they are offended by normal people who they consider to be low-class and unworthy. --- Murders. Rajeev Motwani taught the Google founders how to build Google and was found, mysteriously, floating, dead, in his Silicon Valley swimming pool. Silicon Valley's Gary D. Conley reported John Doerr and Elon Musk for corruption and was found with a bullet in his head behind Beale Air Force base. Three top Tesla engineers reported corruption at Tesla Motors and then suddenly died in a plane crash next to Tesla's factory in San Carlos. There are over 100 mysterious deaths associated with people who had conflicts with Google, Kleiner Perkins and other Silicon Valley oligarchs. --- Arrogant. Self-Centered Narcissists. Elon Musk has spent over a billion dollars buying exclusive Google, Twitter, MSM and Facebook hype about himself. Every Tech CEO has a multi-million dollar PR agent assigned to make them look like "Gods of Industry". They regularly hold "Babes and Ball's" parties and sex parties in Woodside that require women to beg for their money. They were trained to be "assholes" and "abusive dominants" via the Stanford Rape/Frat Culture. --- Misogynists. All White-Male-Controlled with frat house pasts. Women are used As Sex Objects and Window Dressing. The largest number of anti-women news stories, jock/bro blog reports and charges for abuse come from Silicon Valley. VC Steve Westly's CEO friend is notorious for kicking his girlfriend hundreds of times because she "sassed" him. Almost of their Divorce filings include abuse charges against the man. --- Manipulation of Employees. Silicon Valley cartel companies practice Scientology-like indoctrination and "cultural programming" of employees. These highly impressionable naive young employees are kept in "controlled environments", sent to "mindfulness programming workshops" and told what kind of political opinions they should have. Tight-knit groups of females experience synchronized menstrual periods (<http://www.nature.com/nature/journal/v229/n5282/abs/229244a0.html>) over time, cohesive Google and Facebook employee groups engaged in decision-making discount dissenting viewpoints in the interests of consensus, and that couples who stay together long enough begin to look alike. A new study has captured another group phenomenon in Silicon Valley and chronicled in humans' natural habitat: "group brain synchrony". This is a CIA-like brainwashing technique exploited to get all Google/Facebook/Twitter employees to rapidly adopt the same political views. --- Racists. Silicon Valley companies have the lowest rates of hiring, or promoting blacks, in America even though they have a high population of blacks at the edge of their community. --- Male insecurity issues. They use TED-Talks, SXSW and Synchronicity Events as self-promoting hype in which to act like an apostle of a tech

religion. They buy Tesla cars as a badge of arrogance and mock any male who does not own what they own or who who did not go to Stanford or Yale. These pretentious and ostentatious boys are more inclined to brag about penis-size than family. ---- Blacklisting. In the AngelGate Investigation and Silicon Valley No Poaching Class Action Lawsuit, Silicon Valley was exposed as an insider club that black-lists those who look different or are not part of the boys club. ---- Politically corrupt. Silicon Valley has bribed more politicians than any other domestic region in history. They promote more immigration in order to get cheap labor for their tech companies. They steal their technology and bribe politicians to eliminate patent protections for small inventors that they steal from. Political Corruption and Bribery Is The Norm for these boys. Silicon Valley created a CIA knock-off called "In-Q-Tel" in order to use CIA technology to manipulate elections at Google, Facebook and Twitter. The 60 Minutes Episode called: "The Cleantech Crash" is about their multi-billion dollar scam using the Dept. of Energy as a slush-fund. They refuse to allow their MSM to report on their corruption and crony kickbacks, ie: Tesla Motors Funding, Off-shore tax evasion, Hooker networks, etc. ---- Collusion. In the AngelGate Investigation, the Silicon Valley No Poaching Class Action Lawsuit, and hundreds of other cases, Silicon Valley was exposed as an insider club that colludes to rig valuations, stock markets and employee poaching. They operate in herds within their peer group. They are not inclined to independent thinking. Kleiner Perkins has been caught placing moles and saboteurs inside competitors start-ups. They operate in herds within their peer group. They are not inclined to independent thinking. ---- Stock Market Criminals. Stock Market Pump-and-Dump, Flash Boy Algorithm Manipulation, Insider Trading, Market Rigging, The Securities and Exchange law violations and FTC monopoly law violations are vast in number. ---- Burning Man Sex-and-Drugs Devotees. Silicon Valley frat boys have a huge participation in the date-rape goings-on at Burning Man and buy extensive pheromone and skin contact delivery animal-tranquilizer drugs to use on young Burning Man girls. ---- Minimal Regard For Consequences. Although their PR agents promote them as "green" and "socially positive", it is all hype to get tax waivers and government hand-outs. Mark Zuckerberg's take-over of San Francisco General Hospital's brand was entirely a scam to get him a \$1 billion dollar tax evasion deployment. The Silicon Frat Boys act on impulse and try to buy off the collateral damage later. ---- Closeted homosexuals. Using the tremendous funds they have at hand from their exclusive monopolies in public media, they push their trans-gender agendas through their bought-and-paid for politicians. This has resulted in a generation of sexually confused children who believe that they should cut their penises off. The top bosses at Facebook, Google, Twitter, Tesla and other companies are lying to the public about their sexuality and using hired wives, known as "beards". If they lie about something so basic, one has to wonder what else they lie about. ---- Thieves. They steal most of their technology from small inventors who can't defend themselves. They get inventions from Indian engineers and then ship them back to India before the employees can get any stock or IP rights. The tech CEO's send their VC friends to competing start-ups to spy on competing technologies and steal it. The VC's say they are just doing "due diligence" but they are actually sucking the competing start-up dry of IP and staff and making a clone of it under another name. ---- There are so many other awful things about the people of Silicon Valley. You get the picture. Silicon Valley is swamp and a cesspool. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

SONY PICTURES POLITICAL CORRUPTION -- ([Click HERE, on this title, to open the Evidence Gallery](#))

SONY PICTURES POLITICAL CORRUPTION: Sony's Dirty Hollywood And Game Shananigans. ---- The hacks and leaks at Sony Pictures Entertainment have exposed the dark side of Hollywood. The new information reveals an insider vision of a company racked with sexism, office politics, high-school-level personality quibbles and a severe mine-is-bigger-than-yours territoriality culture. ---- A number of lawsuits against Sony, from Lady GaGa to Sony's own employees, have revealed even more. ---- An aspect of the revelations involves where Sony gets it's ideas from. A number of revelations reveal that Sony seems to have established a process of "borrowing" technology and story ideas while "forgetting" to properly attribute or pay the sources. ---- Some of the 'dirt' exposed included: - Sony finances Democrat Presidents in exchange for media "favored nations" status over competitors. - Sony and Google coordinate political manipulation campaigns together. - Sony executives trade female entry-level staff like cattle at a 'ranch'. - Sony executives hire an insane amount of hookers, rent-boys and under-age sex providers. - Sony executives bribe their kids into colleges. - The good-old-white-jewish-boy club is alive and well at Sony. - ZERO DARK THIRTY was a political PR hype movie commissioned by the Obama Campaign using government resources - Sony steals patents from anybody it wants - Sony stole it's VR technology - Sony stole its web video technology, especially SONY VUE - Sex deviancy is the rule at Sony - Sony is a bunch of high-school whine babies who think their shit doesn't stink - Ira Rubenstein, Sony's Marketing Head, put his name on Sony's patents, as the "inventor", even though his own emails admit that "he does not even know how to work a computer" ---- Sony's web video patents, that were sold to ATandT/Direct TV, admit that Sony copied their patent ideas from TSBN in San Francisco ---- Sony spends millions and millions of dollars on political bribes ----The kids at Sony seem to have been very naughty children. They let their IT system go to pot, and got hacked, and outed, as "racist", "misogynist", "campaign rigging", "high school tantrum throwing" kinds of people, per their own emails. Hollywood Reporter, The Verge, Wikileaks, and a variety of tabloids and pundits, have delighted in dissecting the fraternity house, inside antics, of Sony Pictures. ---- Sony says that the hackers "DELETED" Sony's files. THEY DID NOT. The Russians, Koreans, NSA, DOJ and a number of reports have ALL of Sony's files and emails! ---- Their boss got fired. They got ridiculed for turning "Zero Dark Thirty" into a, slightly fabricated, political vote-churn tool. Other execs got kicked to the curb. All of their financial, contracting, political cash layout, and tax dynamics were placed under investigation, and even more sketchy bits are shaking loose... ---- Sony announced that it sold just 2 million PlayStation 5 units last quarter (Q4), bringing its overall total to 19.3 million. That's down considerably from the same quarter last year when it sold 3.3 million units. The company did manage to boost game sales, though, with 70.5 million PS4/PS5 titles sold compared to 61.4 million a year ago, including 14.5 million first party games compared to 7.9 million in Q3. ---- Overall, its Game and Network Services (GSN) division earned 665 billion yen (\$5.1 billion) this quarter, up slightly over last year. Sales for the full 2021 year were flat, up just 2 percent over 2020, and profits also changed little. ---- Those numbers mean that the PS5 is falling even further behind the PS4 in sales, having now sold 3.1 million fewer units than the PS4 at the same point in time. Sony warned that this was coming, blaming the lack of sales not on customer demand but its inability to build enough units due to the ongoing chip shortage. ----There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. ----Twitter, Splunk, Google, Facebook, Sony Interactive, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions. ---- Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboy snowflake type gamer thinking. ----Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

THE STANFORD UNIVERSITY CORRUPTION INVESTIGATIONS -- ([Click HERE, on this title, to open the Evidence Gallery](#))

THE STANFORD UNIVERSITY CORRUPTION INVESTIGATIONS: Stanford University builds corporate criminals, sex traffickers, sociopaths and elitist narcissists. It trains naive children to grow up to become adult stains on society! ---- In California, elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies. ---- The problems at Stanford University include: ---- Rape cover-ups by frats from rich families ---- Epic racism ---- Inter-Staff sex scandals that make the whole campus look like A Caligula party ---- Dynastic families control the whole campus ---- Arab, Iranian and Chinese oligarchs pay bribes to get their kids in ---- The CIA is always recruiting everyone and the most notorious spy project: STARGATE, happened at Stanford ---- The Russian, Iranian and Chinese spy agencies have placed a huge number of spies on the campus as 'pretend students' and pretend teachers ---- Elitism is rampant ---- The Silicon Valley venture capitalists, up the hill on Sand Hill Road, get all their interns from Stanford and they date rape the hot ones with Ruffies, Scopalamine, and other amnesia drugs. The interns wake up with sore butts and can't remember why. ---- To afford the fees, the girl students work as hookers at the Rosewood Hotel. ---- The entire school is funded by bribery. ----Arrogance is the attitude of choice at Stanford. ---- 99% of the guys that went to Stanford execute 99% of the corporate corruption crimes in the world. ---- Girls at Stanford, that can't afford tuition, become Match.com hookers. Everyone in the bay area knows that if a Match.com profile has the words: "STUDENT" and "GENEROUS" anywhere in the text, that the girls are offering sex-for-tuition. Send your hot daughter to Stanford and turn them into hookers. Match.com even has sex agents, on campus, that get a commission for getting girls to join Match.com. ---- Rape is OK at Stanford as long as your daddy is rich or owns part of the Middle East. The Stanford deans and regents say: "Boys Will Be Boys". ---- Stanford provides buses that transport the sorority girls to the frat houses to get date raped and then back to the sorority houses drunk out of their minds or doped up on Ruffies and Scopalamine. ---- There have been a number of strange murders and suicides at Stanford. ---- Stanford students are prescribed the highest number of mental health medications of any campus in America. ---- All of the land on the Stanford Campus could solve all of Silicon Valley's housing crisis. The State of California should take all the land away from criminally corrupt Stanford University and build housing for average income on it. Stanford University doesn't "deserve" anything any more. ---- Chinese girls are sent to Stanford, by Chinese 'Wife Mills' to bag an Anglo husband and then divorce him 1 year after he hits paydirt. They are instructed to have 2 kids so the alimony upside is high. They pay a % of the money back to China. ---- Trophy wives were invented at Stanford ---- The Guardsman, The Key Club and over 50 "Final Clubs" brain-wash students into elitism and tribal exclusion of all but your fellow 'club members' from your ethnic group. ---- Most of the oligarch families paying bribes to Stanford are engaged in the most brutal human rights violations in history. They murder people and have them cut up with a hacksaw. They run prison camps. Only an idiot would think that modern day Stanford has any remaining 'prestige' or 'credibility'. This isn't the 1800's any more. Shut this crap campus down! ---- When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner. ---- They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. ---- Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. THE CORRUPT SENATORS OWNED BY BIG TECH -- ([Click HERE, on this title, to open the Evidence Gallery](#))

THE CORRUPT SENATORS OWNED BY BIG TECH: The Bribes are out of control! --- Can you say INSIDER TRADING STOCK MARKET PAYOLA BRIBES? --- The corruption is easy to prove with a simple spread-sheet but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet. --- If you saw the spread-sheet that shows all of the covert family bank accounts, fake trust funds, shell companies and stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you can easily see how they only get a salary of \$190K per year but put hundreds of millions of dollars in their accounts that all traces back to special interest groups that tell them what laws to make and what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day. --- WITH A COURT ORDER – WE CAN PRESENT DETAILED DOCUMENTS ACCOUNTING FOR EVERY CENT IN EVERY ACCOUNT THAT IS CONNECTED TO NANCY PELOSI, DIANNE FEINSTEIN, EVERY MEMBER OF THEIR FAMILY AND THE KICK-BACKS AND INSIDER TRADING THAT PRODUCED THOSE FUNDS! --- These Senators have "rules" that delay investigations against themselves, though. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate! The 2008 and 2021 "Stimulus Funds" were just scams cooked up by politicians for them to skim stock market pump-and-dump profits off of and grab personal payola. --- In all these corruption cases, these corrupt people took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading (notice that most of these crooks marry an investment banker to run their dirty schemes) and 3.) getting government contracts, loans and grants for their friends that they get kick-backs from. They then had their dirty law firms and CPA's shove the money into their standardized covert financial structure to hide it. --- They use family members to run the operation. Their dirty family members and lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc. --- The 2008 and 2021 "stimulus funds" are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing (FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians and their billionaires. --- The cover-ups are off-the-charts! --- these mobsters (Google, Tesla, Facebook, LinkedIn, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (... via cash, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice and blockade our, and your, rights! There can be no question about the fact that Google, Facebook, Netflix, Tesla and the Silicon Valley Cartel control the Obama and Biden White House. --- For example: Elon Musk ordered the politicians who are his bitches to sabotage his competitors. He gave those political insiders: cash, stock in his cartel, revolving-door jobs, campaign funding, sex workers, off-shore money laundering, and other quid pro quo. Eric Schmidt, Larry Page, Mark Zuckerberg, and the rest of the tech mob, all worked together on these crimes. --- The hacks and leaks of their documents prove it. Government agency bosses are covering up these crimes to protect their jobs and their corrupt stock market holdings. Musk and Goldman Sachs have gotten over FIFTEEN BILLION DOLLARS of free taxpayer cash and monopolized exclusives to pay for Musk's drugs, sex parties and mansions. This is one of the largest violations of anti-trust laws in history. The politicians and agencies that are supposed to stop him are getting money from him. Musk exists entirely from quid pro quo bribes! Musk's banks, including Deutsche Bank, have had to pay more than \$100 million to settle charges related to violating anti-bribery laws and engaging in money laundering. While the Musk-controlled media bloviate on the god-like image of Musk, he and his buddies are just crooks and mobsters. --- It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk and his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists and bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) and Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave Musk over \$15B of free taxpayer money, 7.) get campaign financing from Musk, 8.) order government agencies to freeze funding for Musk's competitors, 9.) and engage in a vast number of other corruption and anti-trust crimes. --- U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington and Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, and their families, from owning ANY stock market stocks or securities! --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al. coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. ---So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. THE ELON MUSK REPORTS -- ([Click HERE, on this title, to open the Evidence Gallery](#))

THE ELON MUSK REPORTS: What a twisted, raging, sick pervert, narcissist, vengeful, anticompetitive, monopolistic, Goldman Sachs sucking mobster hit-man hiring mobster! --- The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed. --- Elon Musk, Larry Page, Steve Jurvetson and Jared Birchell hire Ex-CIA losers right after they are fired by the CIA, or directly from IN-Q-TEL or from Fusion GPS, Media Matters and other CYBER ASSASSIN KILL SERVICES. They send their hit men after competitors, reporters, ex-employees and whistle-blowers because they chose to CHEAT RATHER THAN COMPETE! --- Elon Musk's "Twitter Purchase" is just a scam to sell his Tesla stock without the SEC or his old investors noticing: THEY NOTICED! --- Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources! --- We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo... they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects. --- Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another. --- Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess. --- Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to. --- Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. --- We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try. --- Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up. --- The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds. --- Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors. --- Musk is the POSTER BOY OF WHITE ANTI-BLACK PRIVILEGE --- He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, starlets and sex

parties. — He pays women for sex and pays other women not to disclose that he tried to sexually extort them. He paid Amber Heard at least \$500K for sex, paid his stewardess \$250K to report his sex abuse of her, and has a provider service via a layer of insiders. — His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions. — Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips. — There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. — So, while the categories covered in this investigation may seem diverse. THE HOUSING CRISIS WAS CREATED BY LOBBYISTS – [\(Click HERE, on this title, to open the Evidence Gallery\)](#)

THE HOUSING CRISIS WAS CREATED BY LOBBYISTS: SILICON VALLEY'S TRILLION DOLLAR CULTURE OF BRIBERY; CENSORSHIP; SEX TRAFFICKING; ELECTION MANIPULATION; PAYOLA TO CITY, STATE, COUNTY AND FEDERAL OFFICIALS; LUDICROUS EXCESS AND REVOLVING DOOR PAY-OFFS TO GOVERNMENT INSIDERS HAS DESTROYED HOUSING OPPORTUNITIES FOR THE POOR AND MIDDLE CLASS BY NEGATING HUMAN RIGHTS OVER OLIGARCH LUXURIES! — In California, The government refuses to fund the CALHOME fund, the only fund that helps normal people get a home. California politi-bosses give all the money to their big developer friends — The Silicon Valley solution to "The Housing Crisis" is all talk, window dressing, dog-and-pony, un-responded to white papers and absolutely no meaningful action. — California has the worst housing crisis in HISTORY! — California politicians make lots of WINDOW DRESSING, PR statements about helping individuals but then they only give the government money to developers who financed the politicians campaigns! — ONLY BIG DEVELOPMENT COMPANIES THAT PAYOFF GOVERNORS EVER GET ANY FEDERAL FUNDS - CITIZENS GET NOTHING!!!! — Nobody can get government support to build a home because in California it would compete with the developers who financed the politicians campaigns! — Billions of dollars were sent to California, by the feds, to help individual citizens. The money came from the citizens own pockets via taxes. 99% of that money was given to developers who financed the politicians campaigns and none of it went to citizens to build homes. — Investigators traced the federal funds back to the family bank accounts and stock market accounts of the politicians that control California! — Fair Housing Advocates have identified over 200,000 people that already have lifetime mortgage payment funds IN THEIR HANDS but The State Of California blockades these people from building homes... EVEN THOUGH CALIFORNIA SAYS "THE HOUSING CRISIS IS BECAUSE WE HAVE NOT GOT ENOUGH HOMES!!!" HUD says this is illegal but HUD has yet to sue California to stop the blockades. — All of the land on the Stanford Campus could solve all of Silicon Valley's housing crisis. The State of California should take all the land away from criminally corrupt Stanford University and build housing for average income on it. Corrupt Stanford University (now almost entirely based on bribes by rich oligarchs who engage in human rights abuses) doesn't "deserve" anything any more. — The State politicians will do anything to stop those 200,000 people, with mortgage cash in hand, from building their homes because developers who financed the politicians campaigns will shit their pants if their political quid pro quo payola conduits are cut off. — Part of the housing crisis is because California politicians invited half of South America to move in in hopes of rigging the voter rolls. Most of the people that showed up are actually construction labor people, but California won't let them build homes because they are not in a union and because they compete with developers who financed the politicians campaigns. The irony is mind-boggling! — In California the laws, and 'rules' have been staged to make it impossible for a single family to build a home. Why are the laws and rules staged that way?: To protect developers who financed the politicians campaigns! — REAL ESTATE DEVELOPERS, OLIGARCHS AND REAL ESTATE BANKS PAY BRIBES TO COUNTY OFFICIALS TO KEEP AFFORDABLE HOUSING FROM GETTING BUILT BECAUSE IT COMPETES WITH THEIR SCHEMES! — BIG BANKS, BIG BUILDING DEVELOPERS AND TECH BILLIONAIRES ARE BRIBING COUNTY OFFICIALS TO STOP THEM FROM DOING ANYTHING! — S.F. Chronicle: Broken Homes, By Joaquin Palomino and Trisha Thadani / San Francisco spends millions of dollars to shelter its most vulnerable residents in dilapidated hotels. With little oversight or support, the results are disastrous. — San Jose Spotlight: Santa Clara County faces silver tsunami of homelessness, By Tran Nguyen / Brenda Nichols was among 145 homeless seniors who died in Santa Clara County between December 2020 and November 2021—a record high number as the region witnessed 250 homeless deaths over the same period. — Is this more smoke-and-mirrors WINDOW DRESSING: Rural Partners Network to Empower Rural Communities to Access Federal Resources, / The Rural Partners Network (RPN) is a new whole-of-government effort led by the USDA to transform the way federal agencies partner with rural places to create economic opportunity. — GlobeSt.: The Share of Millennials Owning Homes Is Dwindling, By Paul Bergeron // This generation's homeownership rate doesn't match up with Gen X or Baby Boomers. Big Tech companies should be limited from paying any worker over \$50,000.00 per year. — Earth Day: 52 Years of Individual Environmental Action Hasn't Fixed It And Proven That Nothing You Do Will Help, By Melanie Curry // Earth Day was born at a time when teach-ins and radical protests were forcing changes in the status quo...But over time – 52 years being a lot of that – corporate sponsorship and greenwashing shifted the focus of Earth Day to individual responsibility and to volunteerism. — BATHROOMS IN CALIFORNIA COST AS MUCH AS A TWO BEDROOM HOUSE COSTS IN THE REST OF AMERICA! — There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. — So, while the categories covered in this investigation may seem diverse. THE LITHIUM BATTERY POLITICAL PROFITEERING LIES – [\(Click HERE, on this title, to open the Evidence Gallery\)](#)

THE LITHIUM BATTERY POLITICAL PROFITEERING LIES: Elon Musk and the Senators he owns: Pelosi, Harris and Feinstein, will lie, until their dying day about these batteries that they all own stock in! — Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. — Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age – LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. — The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. — A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. — There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their cronies, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. — Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. — DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. — Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. — Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. — The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist'. A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. — In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. — Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. — The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash,

death and defect rate is THE WORST of any car maker in history! — Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies. — That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. — The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins". — It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! — That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects. — There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. — So, while the categories covered in this investigation may seem diverse. POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS – [\(Click HERE, on this title, to open the Evidence Gallery\)](#)

THE MEDIA ASSASSINS: POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS – How A Modern Character Assassination and Political "Kill Order" Is Executed by the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. — Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers. — How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history? — In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways. — It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent. — The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: In-Q-Tel – (DNC); Gawker Media – (DNC); Jalopnik – (DNC); Gizmodo Media – (DNC); K2 Intelligence – (DNC); WikiStrat – (DNC); Podesta Group – (DNC); Fusion GPS – (DNC/GOP); Google – (DNC); YouTube – (DNC); Alphabet – (DNC); Facebook – (DNC); Twitter – (DNC); Think Progress – (DNC); Media Matters – (DNC); Black Cube – (DNC); Mossad – (DNC); Correct The Record – (DNC); Sand Line – (DNC/GOP); Blackwater – (DNC/GOP); Undercover Global Ltd (DNC/GOP) Stratfor – (DNC/GOP); ShareBlue – (DNC); Wikileaks (DNC/GOP); Cambridge Analytica – (DNC/GOP); Sid Blumenthal- (DNC); David Brock – (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling – (DNC); Buzzfeed – (DNC) Perkins Coie – (DNC); Wilson Sonsini – (DNC) and hundreds of others... These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others. — These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business. — These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! — These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions. — In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth. — This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated. — The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press. — Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University." — Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation. — Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. — Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls "SPYGATE". — It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.") — In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC. — This is what they are hiding. — However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmasking therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified? — These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: — Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies. — By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam. — Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. — If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash. — Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". — Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups. — Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again. — FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups. — State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim. — Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. — Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required. — Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. — On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. — This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for its ongoing prosecution of Google's political manipulation of public perceptions. — Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. — Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech

assassination tools that make murders look like heart attacks and brain failures. --- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.--- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility. - Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. --- It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". --- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. --- Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds. --- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject. - Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.--- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. --- This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. --- Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you. - McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment. - Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt, and quite illegal. - There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. --- The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". --- A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. --- The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and hit-job attacks on third parties. --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. THE BIG TECH POLITICAL BRIBES -- ([Click HERE, on this title, to open the Evidence Gallery](#))

THE BIG TECH POLITICAL BRIBES: The corruption is easy to prove with a simple spread-sheet but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet. --- INSIDER TRADING with layered stock market payola is the top bribe method for politicians, these days! --- If you saw the spread-sheet that shows all of the covert family bank accounts, fake trust funds, shell companies and stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you can easily see how they only get a salary of \$190K per year but put hundreds of millions of dollars in their accounts that all traces back to special interest groups that tell them what laws to make and what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day. --- These Senators have "rules" that delay investigations against themselves, though. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate! The 2008 and 2021 "Stimulus Funds" were just scams cooked up by politicians for them to skim stock market pump-and-dump profits off of and grab personal payola.--- In all these corruption cases, these corrupt people took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading (notice that most of these crooks marry an investment banker to run their dirty schemes) and 3.) getting government contracts, loans and grants for their friends that they get kick-backs from. They then had their dirty law firms and CPA's shove the money into their standardized covert financial structure to hide it. --- They use family members to run the operation. Their dirty family members and lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc. --- The 2008 and 2021 "stimulus funds" are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing (FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians and their billionaires. the cover-ups are off-the-charts! these mobsters (Google, Tesla, Facebook, LinkedIn, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (...via cash, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice and blockade our, and your, rights! --- There can be no question about the fact that Google, Facebook, Netflix, Tesla and the Silicon Valley Cartel control the Obama and Biden White House. For example: Elon Musk ordered the politicians who are his bitches to sabotage his competitors. He gave those political insiders: cash, stock in his cartel, revolving-door jobs, campaign funding, sex workers, off-shore money laundering, and other quid pro quo. Eric Schmidt, Larry Page, Mark Zuckerberg, and the rest of the tech mob, all worked together on these crimes. The hacks and leaks of their documents prove it. Government agency bosses are covering up these crimes to protect their jobs and their corrupt stock market holdings. --- Musk and Goldman Sachs have gotten over FIFTEEN BILLION DOLLARS of free taxpayer cash and monopolized exclusives to pay for Musk's drugs, sex parties and mansions. This is one of the largest violations of anti-trust laws in history. The politicians and agencies that are supposed to stop him are getting money from him. Musk exists entirely from quid pro quo bribes! Musk's banks, including Deutsche Bank, have had to pay more than \$100 million to settle charges related to violating anti-bribery laws and engaging in money laundering. While the Musk-controlled media blivate on the god-like image of Musk, he and his buddies are just crooks and mobsters. It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. --- Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk and his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists and bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) and Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave Musk over \$15B of free taxpayer money, 7.) get campaign financing from Musk, 8.) order government agencies to freeze funding for Musk's competitors, 9.) and engage in a vast number of other corruption and anti-trust crimes. --- U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington and Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, and their families, from owning ANY stock market stocks or securities! --- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. --- So, while the categories covered in this investigation may seem diverse. THE SAN FRANCISCO CRONY CORRUPTION – ([Click HERE, on this title, to open the Evidence Gallery](#))

THE SAN FRANCISCO CRONY CORRUPTION: Straight from the Palladino spy files — San Francisco is ruled by corruption, cronyism, bribes and favors. SF has become increasingly inhospitable to the average person. The median rent for a one-bedroom is \$2,695. A family of four is considered "low-income" if they make less than \$97,000. The Target and Walgreen's stores have had to operate in "crisis" mode because the crime is so bad in San Francisco that you get robbed in the aisles while shopping at major retail stores in San Francisco. The STD rates are off-the-scale. It is almost certain that your car will be broken into or keyed. This place is tough to exist in long-term. It got like this because San Francisco's corruption culture is so out of control. — If you think San Francisco's ills are all due to the technology mobsters, you are mostly correct! — San Franciscans now have an obsession with escaping from San Francisco. This comes from a healthy heaping of realistic bitterness — bitterness that you won't be able to stay here, bitterness that you can't buy a house and set down roots and bitterness that others, unplagued by inertia, can recognize these facts and leave. — As San Franciscans, we'll always be looking over our shoulders at Austin and Portland and Denver, wondering what life's like in a more hospitable city where City Hall is not entirely controlled by Twitter, Facebook, Google and Netflix corporate bribes. — The villains in "The End of the Golden Gate" book are familiar ones. Tech, capitalism, Mayor Ed Lee's tax laws. Every writer seems to agree on one front: San Francisco has changed, and in many ways, for the worse. — "The San Francisco I knew and loved has been face-lifted, sleekeed, chromed, polished, colonized, homogenized, and marginalized as a cultural innovative force," writes Peter Coyote in "San Francisco, For Sale by New Owners." "The transformation was accomplished in a smooth, seamless manner by money and addiction to power." — "San Francisco," he writes earlier in the essay, "is too expensive, too monoculturally wealthy. Tech wealth and privilege have transformed it into a cushy enclave for the heartless." — Gary Kamiya's standout essay acknowledges the downsides of this city: "The exorbitant cost of housing, the influx of tech workers, traffic, crime, dirty streets, and an ever-worsening homeless crisis." — The Bay Area's Google, Facebook and Netflix, Tesla executives and VC's happen to be the organizing, financing and beneficiary partners in a massive market manipulation scheme. — They formed their "Silicon Valley Cartel" to collude, conspire and organize against the government, the public and industry in a manner which the tech oligarchs describe in their own emails as being based on "...the Italian Mafia!". — Indeed, The Silicon Valley Tech oligarchs have formed a collusion-based, law-violating, tax-evading, government-manipulating crime empire protected by famous Bay Area politicians, whom they bribe! No cops seem to be able to stop them. — The Bay Area Solyndra/Silicon Valley Cartel case was one of the largest corruption matters in America with roots that ran all the way to the Oval Office. The FBI raid on Solyndra was only the tip of the iceberg. The matter illuminated an organized crime scheme, in violation of RICO, anti-trust and other laws, between major public officials, Silicon Valley tech oligarchs and their operatives. — The tech oligarchs beg for you to view them as "Green Advocates" but they lie! They engage in genocide, child labor slavery and rape farms via corrupt overseas rare earth mining schemes owned by California Senators, Department of Energy Executives, White House staff and the Silicon Valley tech Cartel. They are actually only really interested in anything green that has a dollar sign on it. — The Silicon Valley Cartel loves to run everything. In their federal "no poaching" lawsuits: Case #s 11-cv-2509 and 5:2011cv02509 and 1:10-cv-01629 and 1:10-cv-02220; these cases, along with the "Angelgate" scandal, prove that the Silicon Valley Cartel colludes to harm the public, rig the government and monopolize industries. — State-sponsored "hit-jobs" were ordered, operated and financed by San Francisco government officials in order to engage in revenge, reprisal and vendetta, against any who speak out about their crimes. *** CLICK THROUGH THE IMAGES, VIDEOS AND DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

USING SOCIAL MEDIA SITES TO SPY ON CITIZENS – ([Click HERE, on this title, to open the Evidence Gallery](#))

USING SOCIAL MEDIA SITES TO SPY ON CITIZENS: Match.com, OK Cupid and corporate dating sites exist to harvest your data for political campaigns — They spy on you to manipulate your politics, ideology and intentions and to report you to bill collectors, tax collectors, investigators and political parties. — When you hear "BIG DATA", "AI", "DATING MINING" ...RUN: They are all processes that rape the public and manipulate elections — 89% of Silicon Valley's money comes from data mining you. — Google, Netflix, YouTube, Facebook, etc. exist to mass manipulate populations and run stock market scams for their sociopath owners. From INSIDE Google, our team saw Google manipulate the entire internet to hype up Larry Page's "boyfriend": Elon Musk and Tesla, which Google execs owned a portion of, while sabotaging Tesla's competitors. — Google illicitly and illegally timed these manipulations with stock market pump-and-dump efforts to exploit insider trading. That is a felony violation of RICO, Antitrust and other laws. Every single thing that Google does is contrived to harm a competitor, a politician, an employee whistle-blower or some other business adversary. — Silicon Valley has, AND LEAKS, everybody's abortion records — There are no "bugs", "operator errors", "server anomalies" or other media "accidents" at Google. Everything Google does is contrived, at a psychological warfare kind of level, to change a social perception. Google must show its software to FBI, SEC, FTC and our search engine optimization experts to prove that they did not engage in these crimes. The fact is: We can prove they did the crimes and FBI experts can help us prove it! Google is known as the "Nazi's of the Internet". — In a case unfolding in Britain over whether Google wrongly demoted price comparison rival Found from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws. — The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking. — Google is a criminal operation. It's executives have been publicly exposed as participants in horrific sex scandals, money laundering, political bribery and racism. It is time for the bought and paid shill politicians to stop protecting them! — Google spies on competitors and steals their technology — Google runs tens of millions of dollars of defamation attacks against competitors — Google hides all media and news coverage for competitors of Larry Page's boyfriend: Elon Musk — Google lies to the public about what they really do with the public's data — Google promotes illegal immigration in order to get cheap labor and control votes — Google runs VC funding back-lists against start-ups that are competitive — Google bribes thousands of politicians — Google is a criminal RICO-violating monopoly — Google rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks — Google pays bribes to politicians in Google and YouTube stock — Google manipulates who gets to see what web-sites, globally, for competitor black-lists — Google has a "no poaching" Silicon Valley jobs blacklist — Google bosses sexually abuse women and young boys — Google bosses run sex trafficking operations in the Epstein and NXIVM cults — Google bosses control the NVCA financing cartel over start-ups — Google has placed the majority of the corporate staff in at least one White House — Google controls national elections for anti-competitive purposes — The company "Polypop", in the HOUSE OF CARDS tv show, does all the crimes that Google actually does in reality — Google's law firms, like Wilson Sonsini, are corrupt conduits for payola and political conduit-relays — Google bribes some politicians with revolving door jobs — Google is primarily responsible for destroying the Bay Area Housing opportunities — Google runs DDos attacks on competitors by massively crawling their sites — Google boss Andy Rubin runs a sex slave farm according to his own family — Google boss Eric Schmidt was a philandering sex-penthouse owner according to vast news articles — Google executives hire so many hookers that one of them, Mr. Hayes, was killed by his hooker — Google executives sexually abuse so many women that the women staff of Google walked out one day — In the 2009 White House, you could not swing a cat without hitting a Google insider — Google has paid covert bribes, PAC funds, real estate and search rigging payola to every CA Senator — Google has paid bribes, through its lobby fronts, to halt FBI, SEC, FEC and FTC investigations of Google crimes — Google was funded by the CIA, via In-Q-Tel, a so called "501 c3 charity" which was caught with tons of cocaine — Google gets millions of dollars of taxpayer cash for spying on Americans inside the USA — Google's map service was a spy system paid for by taxpayers money that Google now profits off of — Nancy Pelosi and Dianne Feinstein have promised to "protect" Google because their families profit off Google stocks — Payment receipts prove that Google and Gawker/Gizmodo exchanged cash and staff for Character Assassination attacks — Google VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Google and harm Google competitors — Google bribed it's lawyer into position as head of the U.S. Patent office in order to have her protect Google — To rig insider stock trades, Google hides negative Tesla stories and pumps positive Tesla stories on "push days" — Google and Elon Musk co-own, co-invest and co-market stocks covertly while running anti-trust schemes — Google rarely hires, or hires, black employees per federal and news media investigations — Google hired most of the Washington, DC K Street lobby firms and told them to "do what ever they could" — The film: "Miss Sloane" depicts only 2% of the illicit lobbying tactics Google employs daily — Demands for an FTC and FBI raid of Google, for criminal activity, securities law and election felonies have been filed — Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds — Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution. — At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Google executives came from most of the fraternity houses involved in the college rape scandals. — Google sells covert character assassination services to politicians and fellow oligarchs. Youtube/Google/Alphabet/Deep State are all the same entity. They conspire to hide news about their corruption and they control most of the internet. — There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook — Meta — Google — Alphabet — Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS — Black Cube — Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office. — So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time. — Twitter, Splunk, Google, Facebook, Netflix, YouTube and the Silicon Valley internet Cartel serve you custom manipulated content by automatically creating a covert digital dossier on you reflecting the content consumption preferences they have spied on about you. They continually evolve their dossier on you in order to steer you towards their ideology and their Democrat political party. At these companies, "data mining", "machine learning" and "AI" means computerized propaganda processing for certain political entities. They began hiring off-shore people (because they would work so cheap) but most of those people turned out to be Muslim. This created conflicts with the entire southern part of the United States (which is anti-Muslim) because those workers steered content to pro-Muslim positions. — Their spy dossier on you uses abstract content-specific features of the consumed content, such as categories, topic models, and entities, which they automatically extract using natural language processing by comparing every word you use to a giant computer library of what those words might mean about your psychology. So it's like you are getting "mind-raped" without any penis use. Their assessment of what your words might mean is based on what rich, white male, \$200K/year, DNC-promoting programmers think they might mean. Their computers scale and expand their tools with algorithmic software created by those politically and socially biased frat white boys that wrote the code. It is all biased as hell. They never hire blacks or women in system creation roles so everything these companies do only supports rich white soyboynowflake type gamer thinking. — Because their Silicon Valley VC's told them to spy on billions of people, even for these web giants, it is impractical to store the entire dynamic history of a user's interaction features. They, thus, out of greed, use algorithms that selectively decay information in order to generalize users and populations. To them, you are just a generalized data point, like cattle on a ranch, to be harvested and fed upon by Silicon Valley. *** CLICK THROUGH THE IMAGES, VIDEOS AND DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

SILICON VALLEY DEATH-WATCH -- ([Click HERE, on this title, to open the Evidence Gallery](#))

SILICON VALLEY DEATH-WATCH: The social horror that 'Silicon Valley' became is just a bubble of social abuse waiting to burst. Let's count down the days until it finally implodes. --- All Of Silicon Valley needs to be "KILLED OFF" without breaking a single law. They can never be fixed. It's easy to do with one simple, 100% legal, weapon: THE TRUTH! --- Said one Bay Area developer: "These crooks don't get to buy private jets, sex islands, multiple mansions, throw celebrity parties and buy hookers with MY money! If they are making big bucks off my technology, I get my percentage of what they spied on, copied and thieved or they get exposed for what they are. I will bring the FBI, DOJ, CIA, FTC, SEC, FEC, FINCEN, 60 Minutes and Congress, along with my team, to help take them down..." --- PAYBACK IS A BITCH FOR BIG TECH COMPANIES THAT USED THEIR BUSINESS FRONTS TO OPERATE: BRIBES TO CONGRESS, TAX-EVASION, SEX-TRAFFICKING, PATENT THEFT, ELECTION MANIPULATION, SHADOW-BANS, EMPLOYEE SEXSTORTION, OFF-SHORE MONEY LAUNDERING, STOCK MARKET MANIPULATION, BLACKLISTS, MONOPOLIES AND, WORST OF ALL, HIRED FUSION GPS, BLACK CUBE, IN-Q-TEL AND MEDIA MATTERS TO RUN ILLEGAL HIT-JOBS ON THEIR COMPETITORS! ISN'T IT INTERESTING THAT EVERY SINGLE ATTACKER HAS LOST BILLIONS OF DOLLARS IN STOCK VALUATION? --- KARMA? PAY-BACK? HMMMMMM...???: BREAKING NEWS LINK: HA- HA -HA! THE EXACT SAME COMPANIES THAT STOLE SCOTT'S STUFF AND THEN VIOLATED HIS ANTI-TRUST PROTECTIONS ARE GETTING NAILED! KARMA - KARMA- KARMA! TECH VALUES CHOPPED AS PALO ALTO'S CORRUPT MEDIA EMPERORS FOUND TO HAVE NO CLOTHES --- BREAKING NEWS LINK: How The Sick Pervert Billionaires Boys' Club Came To Dominate The Public Square And Rig Elections --- STOCKS DEADLY UGLY AS SILICON VALLEY CARTEL TURNS OUT TO BE ALL HYPE AND NOTHING OF REAL VALUE --- THE SILICON VALLEY MAFIA COORDINATE THEIR CRIMES VIA SAND HILL ROAD INSIDERS AND THAT VIOLATES RICO AND MONOPOLY LAWS! --- Silicon Valley has had the largest number of Congressional hearings against it, the largest number of consumer complaints in American history BUT the least number of regulations imposed on it. Why? You can look no further than the covert ownership of Silicon Valley by elected officials. Our politicians get paid bribes, by Silicon Valley, to keep the political corruption alive-and-well while they operate, with impunity, as the biggest threats to society ever manifested. --- Politicians protect Silicon Valley and allow them to keep doing crimes! --- WHAT CRIMES ARE WE UPSET ABOUT SILICON VALLEY DOING?: Silicon Valley is producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other crimes! Why? Because crime pays...for corrupt U.S. Senators! --- "EVERY SINGLE ENTITY THAT ATTACKED US HAS LOST A MINIMUM OF A BILLION DOLLARS OF STOCK MARKET VALUATION OR GONE BANKRUPT..." --- YOU CAN KILL ANY CORRUPT ENTITY WITH: "THE TRUTH"! --- In the Age of Transparency, also known as The Great Disruption. Many document leaks have taken place, and more are expected, with particularly shocking data. The public has now become way more savvy about information tools. This nexus of factors has created a new reality. --- As billionaires and super-corporations become more prolific, their hubris, tone-deafness, and egotistic excesses seem to increase. --- In this new age of equal access to all information, every member of the public now has access to the same investigation resources that the FBI and CIA have. Over 2000 online service providers will track down any crime, at any corporation or in any billionaire's portfolio. You can, now, easily, hunt down the hookers, criminal expense accounts, tax evasion shelters, abuse of funds, insider trading, political bribes, mistresses, and other corporate mis-deeds of each and every executive at a company. ---The lesson to the wise: If you are a cocky billionaire, or corporation, one week; you can now be an out-of-business corporation, or billionaire, the next week. Be honest, legal and moral and you won't get the axe. --- BY THE WAY: ATTACKS AND CENSORSHIP BY GOOGLE-ALPHABET-YOUTUBE: We have placed more software sensors on more server networks globally than anyone else has ever announced. When Google-Alphabet-YouTube Shadow Bans, DNS re-routes, Hides, Demonetizes, Search Manipulates, Server Table Edits, Censors, Election Rigs, SEO limits, etc; our links, we record it, document it technically and report it to every regulatory and publishing group in the world. We also compile the data into evidence for lawsuits against Google and each Google executive. Our insiders work at the deepest levels of their operation. It isn't nice to mess with Mother Nature or Freedom Of Speech. It's worse to run tax evasion, sex trafficking, dark money funds, real estate fraud and other crimes from inside Google! --- Our autonomous monitoring applications are on a vast number of co-location servers, shared hosting ISP's, stand-alone servers and sites around the world and have been operating for over ten years. We log: 1.) Google's search results compared to other search engines, 2.) Google's DNS and spoofing activities, 3.) Google's results on 100 key search terms including search terms of assets, candidates and business associates connected to Google (ie: "Obama", "Elon Musk", "Election Results", etc.), 4.) Where Google sends data from users clicking on Google supplied links, 5.) Where fabricated "mole" data that was injected as user data ultimately ended up later, 6.) Google's election manipulation attempts, and other metrics. The results prove that Google abuses the market, the public, privacy rights, politics and human rights. --- So Google, every time you do it, you are just digging your own grave and giving us all the proof we need to wipe you out, process anti-trust filings and expose your monopolist, sex trafficking, sociopath owners! --- ***** --- The National Venture Capital Association (NVCA) is a white male, mostly jewish, sexist, racist, elitist, dynastic mobster-like mafia venture capitalist Cartel formed by an inner-circle set of fraternity buddies that invest per a coordinated global ideology scheme. They make sure that their competitors never get any money. James Breyer, Gilman Louie and Eric Schmidt love this tech Mafia. --- Is collusion, market-rigging, technology blockading, good-ole-white-boy privilege clubbing, frat-house bro-biz secret alliance meeting, woman and black discriminating going on in Silicon Valley and Wall Street? You bet it is! If you web-search the "Angel-Gate Collusion Scandal", you will read about how a reporter saw, and documented, a Silicon Valley secret meeting where investors were colluding on who would get funding, who wouldn't and at what rates. The, now famous "Silicon Valley Anti-Poaching Scandal" has overtly proven that these people are classic "Cartel". --- It turns out, if you didn't go to Stanford, or you are not part of the Indian-Elite sub-mafia, you are not getting funded. --- With it's deep CIA connections, Goldman Sachs' alliances and enough cash to bribe Congress twenty times over, groups like the National Venture Capital Association (NVCA) raise concerns, across the board, about their potentially destructive play in the fall of innovation and the domestic economy in America. --- This notoriously elitist, yuppie, privileged frat house crowd does not like anything that they can't control. They have, in many cases, agreed among themselves, which energy technology will be "allowed" to hit the market; which electric cars will, or won't, get funded; which video delivery systems get to become dominant on the web; which social networks get all of the media (a large part of said media being owned and controlled by these men); and which other technologies live or die. These are the people involved in the vast number of sex scandals, murders-by-hooker, "sex yacht and sex penthouse" lurid news, rape lawsuits and other twisted perversions on the 6PM news. They are not nice people. One of them: Raj Gupta sits in Prison. Another: White Car Czar Steven Rattner was indicted for Securities Law Rigging. Ray Lane was indicted for massive tax evasion. They are all under investigation for shipping billions of tax dollars to Ireland and other tax hide-away's. Eric Schmidt practically lives at the White House and is under investigation by hundreds of entities. --- The largest private investigation firm of the Elite's was exposed in WIKI-Leaks calling Peter Thiel: "Fu*cking Nuts". Tim Draper wanted Silicon Valley to be so elite that he tried to make it into it's own state. Joe Lonsdale is under lawsuit for rape. Mr. Hayes and Mr. Kumar were killed by Hookers. John Doerr and Vinohd Khosla are called out in national news stories for sex abuse, California Beach take-overs from the public and hundreds of billions of dollars in "Green Energy" kick-backs from their friend Steven Chu. The list of cringe-worthy news stories about these folks goes on and on. --- If you are an outsider, or competitor, they can, and do, sabotage your company in no time flat with moles, hack attacks, DDOS attacks, media character assassination attacks, "Merchants of Doubt" (See the movie) aspersions, civic awards blockades, contract terms exclusions, hire-aways, anti-poaching cartel secret deals and a host of weapons that they use daily. --- Do the Justice Department, The Securities and Exchange Commission, or other federal forces do anything about this? Not much. These men pay the bribes that keep Washington floating. They have paid hundreds of billions of dollars, in "tribute", to the current Administration. It isn't wise to bite the hand that feeds you. --- This kinds of things do affect the average person by creating more discrimination that they have to endure, a worse economy, a less favorable impression of their country, deeper misogyny, less equality, more privilege. If it bothers you, and you have ever paid taxes, call the FBI, SEC, GAO and Congressional phone numbers that you see online and ask them what they are doing about it. --- Most of the women that work wit the NVCA quit due to sexual abuse --- The NVCA and the CIA's IN-Q-TEL are business partners in election rigging, anti-trust law violations and tech RICO law violations. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

TESLA MOTORS LIES AND SAFETY DEFECTS -- ([Click HERE, on this title, to open the Evidence Gallery](#))

TESLA MOTORS LIES AND SAFETY DEFECTS: --- See: <http://www.gotmusked.com> --- See: <https://dawnproject.com/full-self-driving-cars-software-at-its-most-dangerous/> --- See: <https://tesladeaths.com> --- Elon Musk has lied hundreds of times about Tesla Motors --- See: <https://carbuzz.com/news/nearly-50000-tesla-models-have-serious-defects> --- THESE CARS BLOW-UP AND RELEASE POISON SMOKE THAT WILL POISON YOU, YOUR FAMILY AND YOUR FETUS!!!!!! --- THE VAMPIRE POWER DEFECT: Your Tesla will suck more power than it needs in order to try to charge itself. A huge bunch of Tesla charging cords set themselves on fire. IF YOU WANT YOUR HOME OR OFFICE TO BURN DOWN, THEN PARK YOUR TESLA INSIDE IT. --- TESLA HAD TO POWER DOWN all of their cars because they blow up when charging. THIS MEANS THAT THE CAR THAT WAS ADVERTISED IS NOT THE CAR THAT YOU BOUGHT! BECAUSE OF TESLA'S BAD ENGINEERING, ALL OF THEIR CARS HAD TO HAVE ADDED SAFETY SHIELDS AND POWER REDUCTION AFTER-MARKET PROGRAMMING TO DETUNE THEM. --- TESLA'S GO OUT OF CONTROL ALL OF THE TIME AND CRASH --- HORRIBLE DEFECTS: Not everything is unicorns and rainbows when it comes to an electric vehicle, and Tesla (undoubtedly) has a few kinks to work out. However, some of these flaws have seemingly been ignored or swept away from the public eye. There are some things that are never openly admitted or speculated about Tesla vehicles, yet we harshly criticize run-of-the-mill autos with ease. Out of fairness—and for potential buyers, necessity—we should take a look at a few of the complaints that current owners have raised about these beloved EVs. --- AWFUL BUILD QUALITY: If you have ever experienced difficulties with a Tesla, firsthand, then you probably know better than anyone how pricey repairs can become if they're not covered by a warranty or insurance. This explains why insurance premiums are so high for these vehicles. However, the truth of the matter is that even if you're not paying to replace those parts, they are much poorer quality than we're all led to believe. If Tesla's parts were, in fact, of great quality, then we wouldn't have freak issues such as bolts rusting off after a mere few years of ownership, or falcon doors constantly misaligning themselves. Not everything on a Tesla is inherently low-quality, but Tesla is certainly cutting corners. The durability shows in the longevity of the parts and by how early rattling, squeaking, and other common problems seem to surface. --- HORRIBLE SPEEDOMETER PLACEMENT: The golden rule we're all taught in driving school is to keep your eyes on the road. This is, obviously, why police have been cracking down on drivers who use handheld electronic devices while driving. You would expect that a carmaker would probably build a car with safety in mind and take things like this into consideration during the design process. But technology comes first for Tesla. Their (controversial) touchscreen is also the home for the speedometer, which on the edge of the driver's peripheral vision, which means that they have to look away from the road in order to see what speed they're going. It's not necessarily the biggest problem, at least in hindsight, but it can become a dangerous feature for the unsuspecting. Still, the feature is shared with the Mini Cooper, including the electric Mini Cooper SE. --- INSANELY EXPENSIVE TO REPAIR: Part of the appeal of buying something expensive is the expectation that it will save you money in the future. But Tesla has earned a spot in the hall of fame for overpriced vehicles, and that doesn't just apply to the sticker price but also takes into account all the maintenance costs that plague owners. Even though the Tesla's don't need oil changes, spark plug replacements, or oil filters, Tesla recommends drivers invest in their maintenance plans that include a thorough inspection of the vehicle every 12,000 miles. The prices vary based on the year and model of the car, as well as which specific plan the driver chooses, but standalone inspections range anywhere from \$475 to \$750 per visit (not including repairs). A four-year maintenance plan is around \$2,500. Needless to say, you'll need to have a good chunk of change set aside for these evaluations. Issues extend to tires and poor suspension, and yes, we will certainly mention the battery. --- EXTENSIVE STEERING FAILURES: It's true that Teslas tend to carry a bit of technological baggage with their state-of-the-art devices. Most of it is just annoying more than it is dangerous, but rest assured, Tesla has also managed to squeeze in a few mechanical problems as well. They've been much less common than the cosmetic flaws but can have life-threatening outcomes. A few new Tesla owners have experienced problems with the steering wheel locking up while turning. Not only will you see your life flash before your eyes, but you may be dismayed to find out that several weeks of repairs are typically involved since it's not an issue that Tesla has completely resolved. This is before we even bring to light the new "yolk" steering wheel in the Model S Plaid. --- YOU CAN NEVER GET YOUR CAR BACK FROM THE SERVICE CENTERS: Speaking of

car troubles, Tesla dealerships are so sparse that many owners are forced to plan out their trip to the service center much more thoroughly than the average driver would. Unfortunately, the plight of their new Tesla's can sometimes be uncharted territory for mechanics—this is a relatively new technology, after all—so it may take several days, and sometimes even weeks, before owners get to see their cars again. What's worse is that many of these technical difficulties aren't fully resolved during the first visit. Like we've said before, there isn't much knowledge on electric vehicles and technicians may not be as familiar with the problems that plague these vehicles, primarily because a Tesla operates more like a computer than it does an old gas guzzler. — **TESLA CARS SPY ON YOU:** Teslas are incredibly connected... to the point that they're able to (potentially) predict when you plan to drive them and what routes. Elon hasn't been known for respecting privacy and his first company, PayPal, has even been in lawsuits for it. All respect to his technological advancement, but consider what a man creating a chip for your brain is trying to do with your car! Face recognition, video sharing with or without consent, and Tesla monitoring your driving history and patterns are all open for discussion and unless you dig really deep or have a law degree, you might not be safe. If you're a criminal or just worry about being watched, this is one of the last bit of tech pieces you would want. Some have even raised red flags over issues of hacking Teslas for a new world of issues. — **THE EMERGENCY RELEASE WILL SCREW YOU:** It may seem like a nitpick (and it is) but the terrible placement of the emergency handle is also a potential threat to the car and therefore, it's a necessary point to bring up. Since Tesla's vehicles don't have your average door handle and everything in the car is electric, the manufacturer was witty enough to install an emergency handle on the interior to prevent passengers from getting trapped inside. There's just one little flaw with this idea: the placement. Since new passengers aren't used to the high-tech vehicle, they tend to go for the emergency handle instead of using the standard electric button that opens the door. This is an honest mistake since the emergency handle is near where a door handle normally would be, but if it's pulled too often it can and will crack the window. And that's the last thing any Tesla owner wants to deal with. — **DEADLY BLIND SPOTS:** Another feature that is seen in many modern-day vehicles (electric or not) is blind-spot detection. This is a nice touch to have and is practically expected on a high-end vehicle these days. The only thing that separates Tesla from other manufacturers that are employing blind-spot detection is the placement of the detector. Similar to the difficulty that people have seeing the speedometer, the blind-spot detection doesn't alert drivers of a threat on the side-view mirrors like most vehicles do. Instead, a notice pops up on the touchscreen. A lot of people have something against the touchscreen and, while we don't find it to be all bad, there are instances such as this one when it's understandable why it can become a nuisance. If every feature is integrated into the touchscreen, it seems like the entire car revolves around a mounted iPad. — **BAD COSMETIC DETAILS:** Have you ever bought something nice only to find it experience defects shortly after? If you've put a good amount of cash into it, it's not only inconvenient but also extremely frustrating. Proud Tesla owners have been extremely let down to find that their overpriced electric vehicle has scratches all over their car and bulges in the windshield. These unfortunate Teslas were born with cosmetic defects from the factory. Clearly, the newbie manufacturer hasn't been able to get the assembly process down yet. Waiting out the initial wave of manufacturer defects would be wiser than jumping on a waiting list for the latest and greatest model. — **ZERO FUTURE PROTECTION:** Except Tesla and Rivian, there have been no major car manufacturers to emerge in almost 100 years. Naturally, this doesn't include off-shoot luxury brands or foreign brands that were bought out. Tesla respectably came from the ground-up in the 21st century on its own. That being said, it doesn't have a long carefully-recorded history of reliability, work ethic, or quality control, and it shows hard. Besides body gaps that range from dog doors to atomic fusion, the real longevity of a Tesla is almost entirely unknown. The used market for a Tesla is not great to begin with, but with the emergence of high battery replacement costs, how the old Teslas hold up is a big fat question mark. New rules and restrictions like to speed or features can be turned off without your consent remotely at the whim of the bureaucrats. — **VERY UNSAFE WHEEL DESIGN:** There are some things that you never know about a car until you personally own it. And, to be fair, owners tend to critique their own cars harshly. A common nitpick with the Tesla Model 3 is the obnoxious fact that it comes with all-terrain (otherwise known as, 'all season') tires. Many Model 3 owners dislike this because they want more performance-oriented tires. Not to say that it's not a smooth ride—it has received incredible reception for that alone—but if it was included with performance tires, the experience could be enhanced tremendously. The shared belief among many owners (specifically, those who don't need winter tires) is that all-terrain tires should be something that a buyer can purchase on their own if they happen to need them. — **BATTERY REPLACEMENT IS A NIGHTMARE:** Along with the sketchy aspect of having an electric vehicle, there's also a major setback on the cost to repair it as well. While a charge may not be so pricey, the cost to replace any of the parts on a Tesla can really become a burden. For instance, if you had to buy a new battery for a Model 3, the base would cost around \$9,500 (on the low end) and the extended-range battery would come close to \$16k. Sadly, that's as much as a used car (maybe even a few). There's a domino effect with these overpriced repairs as well, as the price to insure a Tesla tends to be more than the average vehicle. The high rate of accidents in Teslas is partly to blame, but their expensive repairs are no help. — **THERE ARE NO DEALERSHIPS AROUND TO HELP YOU:** Tesla has just recently begun opening service centers in areas with a large amount of foot traffic, but the idea of dealerships is a concept of the past for Tesla. Following a completely different business model from the traditional car manufacturers, Tesla sells its cars directly to its customers through their own small, intimate stores. This allows Tesla to educate the customers on what exactly they're getting into with an electric vehicle and to choose precisely how they'd like their car to look. Of course, it takes months for customers' vehicles to be delivered, but this still allows them to get exactly what they want. It also means that Tesla makes money off of their cars, while traditional dealerships make money from their service departments. The drawback for a Tesla owner is that these are located, largely, in metropolitan areas and so are the service centers. Unlike traditional dealerships that are in every town, Tesla selects store and service center locations based on foot traffic. — **TESLA STILL COSTS MORE THAN A GAS CAR AND IS WORSE FOR THE ENVIRONMENT:** Even though Tesla has managed to bring down the customer's cost of a vehicle by cutting out dealerships altogether, they're still pretty pricey. Many of Tesla's major competitors have a bit of an edge by offering vehicles that aren't 100% electric, which is an appealing point for many buyers, but they're also less expensive. The base Chevy Volt, for instance, is cheaper than Tesla's base Model 3. Less people are as willing to go for the Model S purely because they have no desire to have an electric vehicle that revolves around performance. For many, the price just isn't worth it, not when the battery will need to be replaced in a matter of a few years (depending on use). This goes hand-in-hand with the cost of Tesla's parts because consumers don't want to spend a lot of money on a car that will also be pricey to fix down the road. — **TESLA'S AUTOPILOT CAN KILL YOU:** Tesla's autopilot has been known to get people in trouble, napping, reading, and working on the freeway. The fact is, there's still no legal protection for someone to sit down and be driven away. Thought Tesla gets close with tools like "tow mode," allowing for an empty car to follow another Tesla with some limitations. Legally you still need to keep your hands on the wheels and be alert, despite the statistically safer autopilot driving and advancements in technology. While a truly autonomous car would open up a new world; safe transport for the elderly, fewer fatalities, easier commutes, and the like, we may be a few major traffic law changes away from that world, and Tesla can't change that yet. — **COLD WEATHER KILLS YOUR TESLA:** There are so many common glitches that go on with a Tesla that drivers have become paranoid of serious troubles, especially anything involving that precious battery. If you haven't tested one out in cold weather, don't be alarmed at that slow acceleration, it's normal. Yep. If you buy a \$35,000 (and up!) vehicle, you can expect that the cold air will affect the battery just like it would any other vehicle. But cold prevents the battery from regenerating as quickly as it typically would, which limits the driver's ability to move faster. It sounds simple in retrospect, but it can be a frightening few minutes for a Tesla owner to discover their car is having trouble moving quickly. — **ACCELERATION SURGE DEFECTS WILL KILL YOU:** Contrary to what Elon Musk has claimed on social media, Tesla has been accused of having a fatality rate that's more than triple what you see in luxury vehicles. Musk claims that Tesla's are the safest vehicles on the road, which is either an ill-researched claim or a blatant lie on his part. Since his stats are based on vehicle miles (rather than vehicle years) it leads you to an inaccurate conclusion, and we don't actually know how many miles these vehicles have traveled, and this also leaves out passengers. After thorough research, many of the Tesla accidents weren't even properly coded, meaning that Musk's claim leaves out several accidents within the US and other countries (such as China) that have higher accident rates. Really, this could all be because of accident-prone drunk Tesla owners who are, mostly, drunk douche bags. — **CONSTANT RATTLING NOISES:** The little things in life shouldn't bother you, but when it's an incessant rattling noise in your brand-new luxury car, those little things can be difficult to ignore. There's a common problem with Teslas experiencing rattling in several areas of the cars. Owners have taken their cars to service centers numerous times for this issue but a very rare few have seen the annoyance resolved. In fact, a few have even documented their experience online, while some have even received their car from the service center only to discover that the rattle has not gone away plus there is a new one! It shouldn't be blown out of proportion, but the fact of the matter is that consumers have put a lot of their money into these cars and they expect a decent level of quality so if problems occur then some resolutions would be nice. — **TESLA SOLAR STUFF IS NEVER IN STOCK:** Lesser known than Tesla's famed electric vehicles is the Solar Roof and Powerwall. As the names imply, these are solar panels that store energy that is even cleaner for the car to run off of. Just two years into this accessory, though, sales have dropped over 70% from their peak. The Powerwall 2 is said to lose 70% of its efficiency after 10 years and solar tiles are close to \$42 per square foot, which is part of why most consumers steer clear. Investors aren't extremely pleased with the outcome of SolarCity's products (which Musk has endorsed with open arms), but the signs were written on the walls, as it were. If solar panels were cheap enough for everyone to afford, wouldn't we all have them on our houses? Since they don't even have a guaranteed longevity, consumers generally feel that the Powerwall and Solar Roof are simply not worth it. In the home solar markets, even if consumers beg for the still "available" Powerwall or new shingle-replacing solar roof, it's almost guaranteed they won't be able to find or get any of them anywhere! — **TESLA CUSTOMER SUPPORT JUST SUCKS:** The underworld of the customer service department is dreaded by customers of just about any major corporation. No customer wants to call in and get passed around from rep to rep and robot to robot. You'd think that Tesla would have come up with a more efficient way to handle their 'valued' customers' problems and have a decent customer service team. That's wishful thinking, though. If you need any help, particularly with SolarCity's products, then you can forget ever getting through to anyone the first time. Attempting to get ahold of the 'right' representative is a game of cat-and-mouse, and you'll have a pretty challenging time catching them in a spare moment (when they can actually speak, at all). — **TESLA IS ALWAYS ON THE VERGE OF BANKRUPTCY:** While it's no secret that Tesla has struggled with sales, it raises a few questions about what that means for the future of the corporation. We don't really know how close Tesla truly came to going under, seeing as how Elon Musk has repeatedly glossed over Tesla's issues instead of being frank about things (e.g., the SolarCity investments, accident rates, etc). So, Musk's exasperated croaks of how Tesla nearly went bankrupt almost sound like the boy who cried wolf, at least from an outside perspective. If Musk is being honest about the company's financial struggles, then the future looks bleak. Scraping by when the economy is relatively stable is not a good sign for a new car company, and what happens when those battery costs skyrocket? No one is going to be willing to pay more than \$40k for a base Model 3. — **TESLA CARS HAVE AWFUL BODY PANEL GAPS:** You don't have to give a Tesla, specifically the Model 3, a thorough inspection to notice that there's an insane amount of space between the body in some parts and less in others. It's not an overly invasive issue, but when you're paying around \$35,000 for a car, there are a few minimum expectations that should be met. One of those is definitely a clean look. Each of the Tesla models has perfectly executed an aerodynamic style, with concealed handles and sleek lines, which makes the gap that much more noticeable to anyone who happens to glance in the direction of a Model 3. Since Tesla factory workers have been killing each other in Tesla's parking lot in Fremont, you can't expect too much from them. — **DEADLY TESLA DOOR HANDLES:** One of the most notable characteristics of every Tesla is their futuristic door handles that pop out with ease. The higher-end models have nice, metal handles with chrome finishes. However, if you happen to compare, say, a Model S to a Model 3, you'll immediately notice the lack of strength behind the latter's handles. Not only are the door handles on the Model 3 thinner, but they seem to be made with inferior materials to the higher-tier models. There have even been a few people who have had the door handles freeze to the car, leaving them unable to get inside. We have to note that there hasn't been a plague of door handle issues, so this isn't an official defect, but it's more of a cosmetic problem that could become a mechanical one in the future. — **TESLA CARS ADD AWFUL INCONVENIENCE TO YOUR LIFE:** The naïve car buyer is often led to believe that electric cars are all ponies and rainbows. However, many manufacturers acknowledge that we have yet to get everything down to a science. Plus, there's a learning curve for those new to EVs, which is why most semi-electric cars are still able to be powered with gasoline. The serious drawback with a Tesla is the lack of a safety net should the battery run dead. Jumper cables are entirely out of the question, which is why owners of EV's get anxiety on road trips and long-distance commutes. The remaining range can be inaccurate, potentially leaving a driver stranded if they don't judge their car's abilities correctly. — **TESLA'S ALL LOOK ALIKE AND ARE NOW RUN-OF-THE-MILL:** Although this isn't much of a shock at all, little fail to recognize the total lack of variety that's offered in the Tesla fleet. Of course, the higher-end models have prettier finishes and tend to look nice no matter what, but each and every Tesla is almost identical. This is obviously the case with everyday run-of-the-mill vehicles as well, but that's sort of the point, isn't it? If you're spending a good chunk of change to claim that over-hyped Tesla as your own, wouldn't it be nice if you at least had a decent amount of options to truly make it feel like your own? For what you're paying, it seems like there should already be a plethora of options. — **ABOVE ALL ELSE:** Tesla's battery system is the worst designed, most deadly, awful power system in history! IT WILL KILL YOU AND BURN YOUR FAMILY ALIVE, LIKE IT HAS DONE TO MANY TESLA VICTIMS —Also see the additional Tesla issues, above, involving 'rare earth mines', 'lithium battery dangers', 'Elon Musk's constant use of "hit-men" and character assassins' to destroy competitors and reporters, the vast racism and women abuse and the dead workers poisoned in his battery factories around the globe. *** CLICK THROUGH THE IMAGES, VIDEOS and DOCUMENTS, BY CLICKING ON THE TITLE IN BLUE ***

The Supply-Pocolypse Perfect Storm

As the global economy gradually recovers from the impact of COVID-19 pandemic, worldwide supply crunch is intensifying, spreading not only from one country to another, but also from one industry to another.

"Vaccines don't last more than 5 months", says Israel, the most vaccine-tested nation in the world. If you think you can just 'wait till the vaccines start working and Covid will end' you are wrong.

Not to be a 'Harry Selden', but this supply-pocolypse will last for over a decade because politicians are incapable of having the vision to tackle the unexpected.

A year ago, when the pandemic continued to spread, economies around the world were severely hit and there was panic buying among consumers. Today, it is companies that are trying to go on a stockpiling, buying more raw materials than they need to keep up with rapidly recovering demand. The panic buying is fuelling more shortages of raw materials, including copper, iron ore, steel, corn, coffee, wheat, soybeans, wood, semiconductors, plastics, cardboard, etc. As a result, inventories of seemingly every raw material around the world are running low. "You name it, and we have a shortage on it," Tom Linebarger, chairman and chief executive of engine and generator manufacturer Cummins Inc., said earlier, and he noted that his clients are "trying to get everything they can because they see high demand".

Supply shortages have driven prices up significantly, with the impact of rising prices for some key raw materials being significant. The prices of various industrial raw materials such as crude oil, plastics, and chemicals are rising. Some of the impacts of higher raw material prices have already begun to be reflected in consumer goods. Reynolds Consumer Products Inc., the maker of the namesake aluminium foil and Hefty trash bags, is planning another round of price hike, and this will be the third for the increase this year alone. Food prices are also climbing. The price of palm oil, the world's most consumed edible oil, has risen more than 135% over the past year to record levels; soybeans have topped USD 16 a bushel for the first time since 2012; corn futures prices have touched an eight-year high, and wheat futures prices have risen to the highest level since 2013.

Changes in factory orders due to the impact of the pandemic have also tightened supply in some markets and pushed up prices for raw materials. Some knitting enterprises in Dongguan, Guangdong, said that affected by the pandemic, about 40% of the orders have come back to China from countries such as India and Southeast Asian countries, while the factory utilisation rate has increased by about 30% to 40%, and now it has reached 100%. In Jiangyin, Jiangsu, a bedsheet enterprise adjusted its production capacity to accommodate a USD 20 million order from Southeast Asia. Increased demand from the textile industry has led to tight supplies of raw materials. In Wujiang, Jiangsu, where polyester filament yarn is the most in demand, the shortage of raw materials this year has been unexpected, especially in the current off-season, when there is not much stock. In Suzhou, also in Jiangsu, the export of polyester filament yarn increased by nearly 60% from January to April, while the price increased by 40% to 60%. Compared with the same period last year, the price of filament yarn increased by RMB 2000-3000/ton.

Remarkably, this hoarding frenzy is pushing global supply chains to the brink of collapse. Inventory shortages, transportation bottlenecks, and price increases are nearing critical levels, raising concerns that strong global growth could fuel inflation. The supply disruptions in the past are simply incomparable compared to the severe inventory crunch of 2021. Industry insiders predict that both large and small enterprises will be affected by this supply shortage. Why are current supply shortages so acute?

Researchers at ANBOUND believe that instead of having one single factor, there are multiple reasons for the emergence of complex systemic problems.

First of all, there is the recovery in demand as the pandemic is brought under control. This year, as vaccination rollout efforts have brought the pandemic significantly under control in the United States and some European countries, the economy has begun to show significant momentum for recovery. This trend prompted a near-simultaneous recovery in most markets around the world. The collective recovery of global markets has led to a near-simultaneous increase in demand, exacerbating the mismatch between supply and demand. In the case of commodity futures, the capital was collectively bullish on commodities under such expectations, significantly driving up the prices of commodities (mostly upstream commodities) and spreading to midstream and downstream commodities. It should be noted in particular that the surge in demand for certain specific commodities under the pandemic has also exacerbated the supply-demand mismatch in some industrial chains. For example, the increase in the need of remote, online working and studying has increased the demand for all kinds of electronic products, leading to a surge in global demand for semiconductor chips, which affects several chip-requiring industries.

Another reason is that the pandemic has disrupted the global supply chain system, causing distortions in supply and demand in certain industries, which are transmitted along the supply chain, causing a wider supply crunch. As ANBOUND previously pointed out, the spread of the pandemic has dealt multiple blows to global supply chains. During the pandemic, China, as the "world's factory", was affected by the pandemic and its production side was disrupted. Then, the demand side of developed countries was suppressed by the impact of the pandemic. This is followed by the fact that the malfunctioning of the global supply chain system has exacerbated global supply distortions. To cite an example, the severe shortage of containers due to disruption of the supply chain has exacerbated the global supply distortions.

In addition, enterprises began to collectively increase their inventories, leading to the increase of inventories in the industrial chain and supply chain, amplifying the demand for all kinds of raw materials, intermediate products, and supporting products. In the past, in order to save costs and improve efficiency, many enterprises advocated zero-inventory production and tried to reduce the inventory in the production link, thereby reducing the capital occupation. However, the smooth operation of zero inventory production depends on the efficient global supply chain system. Once a problem occurs in the global supply chain system, it can lead to chaos in the whole supply chain system. The 2011 earthquake in Tōhoku, Japan has caused the shutdown of some key auto parts plants, which once led to the global auto supply chain being affected. Likewise, the global spread of the COVID-19 pandemic since last year has damaged, distorted, and even disrupted global supply chains.

Finally, geopolitical factors have also contributed to the tight supply of global commodities, resulting in the artificial disruption of part of the industrial chain and supply chain. For example, the U.S.-driven crackdown on chip supply to Chinese enterprises and related sanctions have seriously disrupted the global semiconductor industry chain. How long will the supply crunch last?

Overall, the global supply crunch is due to a variety of reasons, including increased demand from the post-pandemic economic recovery, distortions in global supply chains caused by the pandemic, collective stockpiling by enterprises around the world, and geopolitical disruptions. However, this does not represent a significant expansion of aggregate global demand, but rather a distortion of the existing system as it is disrupted and broken. Judging from the current situation, this tight supply situation will last for a long time, leading to the price rise of raw materials and components. Therefore, both enterprises and governments need to be prepared for this scenario in the medium- and long-term.

--- THESE CARS BLOW-UP AND RELEASE POISON SMOKE THAT WILL POISON YOU, YOUR FAMILY AND YOUR FETUS!!!!!!

--- THE VAMPIRE POWER DEFECT: Your Tesla will suck more power than it needs in order to try to charge itself. A huge bunch of Tesla charging cords set themselves on fire. IF YOU WANT YOUR HOME OR OFFICE TO BURN DOWN, THEN PARK YOUR TESLA INSIDE IT.

----- TESLA HAD TO POWER DOWN all of their cars because they blow up when charging. THIS MEANS THAT THE CAR THAT WAS ADVERTISED IS NOT THE CAR THAT YOU BOUGHT! BECAUSE OF TESLA'S BAD ENGINEERING, ALL OF THEIR CARS HAD TO HAVE ADDED SAFETY SHIELDS AND POWER REDUCTION AFTER-MARKET PROGRAMMING TO DETUNE THEM.

----- TESLA'S GO OUT OF CONTROL ALL OF THE TIME AND CRASH

----- HORRIBLE DEFECTS: Not everything is unicorns and rainbows when it comes to an electric vehicle, and Tesla (undoubtedly) has a few kinks to work out. However, some of these flaws have seemingly been ignored or swept away from the public eye. There are some things that are never openly admitted or speculated about Tesla vehicles, yet we harshly criticize run-of-the-mill autos with ease. Out of fairness—and for potential buyers, necessity—we should take a look at a few of the complaints that current owners have raised about these beloved EVs. -

--- AWFUL BUILD QUALITY: If you have ever experienced difficulties with a Tesla, firsthand, then you probably know better than anyone how pricey repairs can become if they're not covered by a warranty or insurance. This explains why insurance premiums are so high for these vehicles. However, the truth of the matter is that even if you're not paying to replace those parts, they are much poorer quality than we're all led to believe. If Tesla's parts were, in fact, of great quality, then we wouldn't have freak issues such as bolts rusting off after a mere few years of ownership, or falcon doors constantly misaligning themselves. Not everything on a Tesla is inherently low-quality, but Tesla is certainly cutting corners. The durability shows in the longevity of the parts and by how early rattling, squeaking, and other common problems seem to surface.

--- HORRIBLE SPEEDOMETER PLACEMENT: The golden rule we're all taught in driving school is to keep your eyes on the road. This is, obviously, why police have been cracking down on drivers who use handheld electronic devices while driving. You would expect that a carmaker would probably build a car with safety in mind and take things like this into consideration during the design process. But technology comes first for Tesla. Their (controversial) touchscreen is also the home for the speedometer, which on the edge of the driver's peripheral vision, which means that they have to look away from the road in order to see what speed they're going. It's not necessarily the biggest problem, at least in hindsight, but it can become a dangerous feature for the unsuspecting. Still, the feature is shared with the Mini Cooper, including the electric Mini Cooper SE.

--- INSANELY EXPENSIVE TO REPAIR: Part of the appeal of buying something expensive is the expectation that it will save you money in the future. But Tesla has earned a spot in the hall of fame for overpriced vehicles, and that doesn't just apply to the sticker price but also takes into account all the maintenance costs that plague owners. Even though the Tesla's don't need oil changes, spark plug replacements, or oil filters, Tesla recommends drivers invest in their maintenance plans that include a thorough inspection of the vehicle every 12,000 miles. The prices vary based on the year and model of the car, as well as which specific plan the driver chooses, but standalone inspections range anywhere from \$475 to \$750 per visit (not including repairs). A four-year maintenance plan is around \$2,500. Needless to say, you'll need to have a good chunk of change set aside for these evaluations. Issues extend to tires and poor suspension, and yes, we will certainly mention the battery. -

--- EXTENSIVE STEERING FAILURES: It's true that Teslas tend to carry a bit of technological baggage with their state-of-the-art devices. Most of it is just annoying more than it is dangerous, but rest assured, Tesla has also managed to squeeze in a few mechanical problems as well. They've been much less common than the cosmetic flaws but can have life-threatening outcomes. A few new Tesla owners have experienced problems with the steering wheel locking up while turning. Not only will you see your life flash before your eyes, but you may be dismayed to find out that several weeks of repairs are typically involved since it's not an issue that Tesla has completely resolved. This is before we even bring to light the new "yolk" steering wheel in the Model S Plaid.

--- YOU CAN NEVER GET YOUR CAR BACK FROM THE SERVICE CENTERS: Speaking of car troubles, Tesla dealerships are so sparse that many owners are forced to plan out their trip to the service center much more thoroughly than the average driver would. Unfortunately, the plight with their new Tesla's can sometimes be uncharted territory for mechanics—this is a relatively new technology, after all—so it may take several days, and sometimes even weeks, before owners get to see their cars again. What's worse is that many of these technical difficulties aren't fully resolved during the first visit. Like we've said before, there isn't much knowledge on electric vehicles and technicians may not be as familiar with the problems that plague these vehicles, primarily because a Tesla operates more like a computer than it does an old gas guzzler. -

--- TESLA CARS SPY ON YOU: Teslas are incredibly connected... to the point that they're able to (potentially) predict when you plan to drive them and what routes. Elon hasn't been known for respecting privacy and his first company, PayPal, has even been in lawsuits for it. All respect to his technological advancement, but consider what a man creating a chip for your brain is trying to do with your car! Face recognition, video sharing with or without consent, and Tesla monitoring your driving history and patterns are all open for discussion and unless you dig really deep or have a law degree, you might not be safe. If you're a criminal or just worry about being watched, this is one of the last bit of tech pieces you would want. Some have even raised red flags over issues of hacking Teslas for a new world of issues. -

--- THE EMERGENCY RELEASE WILL SCREW YOU: It may seem like a nitpick (and it is) but the terrible placement of the emergency handle is also a potential threat to the car and therefore, it's a necessary point to bring up. Since Tesla's vehicles don't have your average door handle and everything in the car is electric, the manufacturer was witty enough to install an emergency handle on the interior to prevent passengers from getting trapped inside. There's just one little flaw with this idea: the placement. Since new passengers aren't used to the high-tech vehicle, they tend to go for the emergency handle instead of using the standard electric button that opens the door. This is an honest mistake since the emergency handle is near where a door handle normally would be, but if it's pulled too often it can and will crack the window. And that's the last thing any Tesla owner wants to deal with.

--- DEADLY BLIND SPOTS: Another feature that is seen in many modern-day vehicles (electric or not) is blind-spot detection. This is a nice touch to have and is practically expected on a high-end vehicle these days. The only thing that separates Tesla from other manufacturers that are employing blind-spot detection is the placement of the detector. Similar to the difficulty that people have seeing the speedometer, the blind-spot detection doesn't alert drivers of a threat on the side-view mirrors like most vehicles do. Instead, a notice pops up on the touchscreen. A lot of people have something against the touchscreen and, while we don't find it to be all bad, there are instances such as this one when it's understandable why it can become a nuisance. If every feature is integrated into the touchscreen, it seems like the entire car revolves around a mounted iPad. -

--- BAD COSMETIC DETAILS: Have you ever bought something nice only to have it experience defects shortly after? If you've put a good amount of cash into it, it's not only inconvenient but also extremely frustrating. Proud Tesla owners have been extremely let down to find that their overpriced electric vehicle has scratches all over their car and bulges in the windshield. These unfortunate Teslas were born with cosmetic defects from the factory. Clearly, the newbie manufacturer hasn't been able to get the assembly process down yet. Waiting out the initial wave of manufacturer defects would be wiser than jumping on a waiting list for the latest and greatest model.

--- ZERO FUTURE PROTECTION: Except Tesla and Rivian, there have been no major car manufacturers to emerge in almost 100 years. Naturally, this doesn't include off-shoot luxury brands or foreign brands that were bought out. Tesla respectably came from the ground-up in the 21st century on its own. That being said, it doesn't have a long carefully-recorded history of reliability, work ethic, or quality control, and it shows hard. Besides body gaps that range from dog doors to atomic fusion, the real longevity of a Tesla is almost entirely unknown. The used market for a Tesla is not great to begin with, but with the emergence of high battery replacement costs, how the old Teslas hold up is a big fat question mark. New rules and restrictions like to speed or features can be turned off without your consent remotely at the whim of a the bureaucrats.

--- VERY UNSAFE WHEEL DESIGN: There are some things that you never know about a car until you personally own it. And, to be fair, owners tend to critique their own cars harshly. A common nitpick with the Tesla Model 3 is the obnoxious fact that it comes with all-terrain (otherwise known as, 'all season') tires. Many Model 3 owners dislike this because they want more performance-oriented tires. Not to say that it's not a smooth ride—it has received incredible reception for that alone—but if it was included with performance tires, the experience could be enhanced tremendously. The shared belief among many owners (specifically, those who don't need winter tires) is that all-terrain tires should be something that a buyer can purchase on their own if they happen to need them.

--- BATTERY REPLACEMENT IS A NIGHTMARE: Along with the sketchy aspect of having an electric vehicle, there's also a major setback on the cost to repair it as well. While a charge may not be so pricey, the cost to replace any of the parts on a Tesla can really become a burden. For instance, if you had to buy a new battery for a Model 3, the base would cost around \$9,500 (on the low end) and the extended-range battery would come close to \$16k. Sadly, that's as much as a used car (maybe even a few). There's a domino effect with these overpriced repairs as well, as the price to insure a Tesla tends to be more than the average vehicle. The high rate of accidents in Teslas is partly to blame, but their expensive repairs are no help. -

--- THERE ARE NO DEALERSHIPS AROUND TO HELP YOU: Tesla has just recently begun opening service centers in areas with a large amount of foot traffic, but the idea of dealerships is a concept of the past for Tesla. Following a completely different business model from the traditional car manufacturers, Tesla sells its cars directly to its customers through their own small, intimate stores. This allows Tesla to educate the customers on what exactly they're getting into with an electric vehicle and to choose precisely how they'd like their car to look. Of course, it takes months for customers' vehicles to be delivered, but this still allows them to get exactly what they want. It also means that Tesla makes money off of their cars, while traditional dealerships make money from their service departments. The drawback for a Tesla owner is that these are located, largely, in metropolitan areas and so are the service centers. Unlike traditional dealerships that are in every town, Tesla selects store and service center locations based on foot traffic.

--- TESLA STILL COSTS MORE THAN A GAS CAR AND IS WORSE FOR THE ENVIRONMENT: Even though Tesla has managed to bring down the customer's cost of a vehicle by cutting out dealerships altogether, they're still pretty pricey. Many of Tesla's major competitors have a bit of an edge by offering vehicles that aren't 100% electric, which is an appealing point for many buyers, but they're also less expensive. The base Chevy Volt, for instance, is cheaper than Tesla's base Model 3. Less people are as willing to go for the Model S purely because they have no desire to have an electric vehicle that revolves around performance. For many, the price just isn't worth it, not when the battery will need to be replaced in a matter of a few years (depending on use). This goes hand-in-hand with the cost of Tesla's parts because consumers don't want to spend a lot of money on a car that will also be pricey to fix down the road.

--- TESLA'S AUTOPILOT CAN KILL YOU: Tesla's autopilot has been known to get people in trouble, napping, reading, and working on the freeway. The fact is, there's still no legal protection for someone to sit down and be driven away. Thought Tesla gets close with tools like "tow mode," allowing for an empty car to follow another Tesla with some limitations. Legally you still need to keep your hands on the wheels and be alert, despite the statistically safer autopilot driving and advancements in technology. While a truly autonomous car would

open up a new world; safe transport for the elderly, fewer fatalities, easier commutes, and the like, we may be a few major traffic law changes away from that world, and Tesla can't change that yet. -

--- COLD WEATHER KILLS YOUR TESLA: There are so many common glitches that go on with a Tesla that drivers have become paranoid of serious troubles, especially anything involving that precious battery. If you haven't tested one out in cold weather, don't be alarmed at that slow acceleration, it's normal. Yep. If you buy a \$35,000 (and up!) vehicle, you can expect that the cold air will affect the battery just like it would any other vehicle. But cold prevents the battery from regenerating as quickly as it typically would, which limits the driver's ability to move faster. It sounds simple in retrospect, but it can be a frightening few minutes for a Tesla owner to discover their car is having trouble moving quickly.

--- ACCELERATION SURGE DEFECTS WILL KILL YOU: Contrary to what Elon Musk has claimed on social media, Tesla has been accused of having a fatality rate that's more than triple what you see in luxury vehicles. Musk claims that Tesla's are the safest vehicles on the road, which is either an ill-researched claim or a blatant lie on his part. Since his stats are based on vehicle miles (rather than vehicle years) it leads you to an inaccurate conclusion, and we don't actually know how many miles these vehicles have traveled, and this also leaves out passengers. After thorough research, many of the Tesla accidents weren't even properly coded, meaning that Musk's claim leaves out several accidents within the US and other countries (such as China) that have higher accident rates. Really, this could all be because of accident-prone drunk Tesla owners who are, mostly, drunk douche bags.

--- CONSTANT RATTLING NOISES: The little things in life shouldn't bother you, but when it's an incessant rattling noise in your brand-new luxury car, those little things can be difficult to ignore. There's a common problem with Teslas experiencing rattling in several areas of the cars. Owners have taken their cars to service centers numerous times for this issue but a very rare few have seen the annoyance resolved. In fact, a few have even documented their experience online, while some have even received their car from the service center only to discover that the rattle has not gone away plus there is a new one! It shouldn't be blown out of proportion, but the fact of the matter is that consumers have put a lot of their money into these cars and they expect a decent level of quality so if problems occur then some resolutions would be nice.

--- TESLA SOLAR STUFF IS NEVER IN STOCK: Lesser known than Tesla's famed electric vehicles is the Solar Roof and Powerwall. As the names imply, these are solar panels that store energy that is even cleaner for the car to run off of. Just two years into this accessory, though, sales have dropped over 70% from their peak. The Powerwall 2 is said to lose 70% of its efficiency after 10 years and solar tiles are close to \$42 per square foot, which is part of why most consumers steer clear. Investors aren't extremely pleased with the outcome of SolarCity's products (which Musk has endorsed with open arms), but the signs were written on the walls, as it were. If solar panels were cheap enough for everyone to afford, wouldn't we all have them on our houses? Since they don't even have a guaranteed longevity, consumers generally feel that the Powerwall and Solar Roof are simply not worth it. In the home solar markets, even if consumers beg for the still "available" Powerall or new shingle-replacing solar roof, it's almost guaranteed they won't be able to find or get any of them anywhere!

--- TESLA CUSTOMER SUPPORT JUST SUCKS: The underworld of the customer service department is dreaded by customers of just about any major corporation. No customer wants to call in and get passed around from rep to rep and robot to robot. You'd think that Tesla would have come up with a more efficient way to handle their "valued" customers' problems and have a decent customer service team. That's wishful thinking, though. If you need any help, particularly with SolarCity's products, then you can forget ever getting through to anyone the first time. Attempting to get ahold of the "right" representative is a game of cat-and-mouse, and you'll have a pretty challenging time catching them in a spare moment (when they can actually speak, at all).

--- TESLA IS ALWAYS ON THE VERGE OF BANKRUPTCY: While it's no secret that Tesla has struggled with sales, it raises a few questions about what that means for the future of the corporation. We don't really know how close Tesla truly came to going under, seeing as how Elon Musk has repeatedly glossed over Tesla's issues instead of being frank about things (e.g., the SolarCity investments, accident rates, etc). So, Musk's exasperated croaks of how Tesla nearly went bankrupt almost sound like the boy who cried wolf, at least from an outside perspective. If Musk is being honest about the company's financial struggles, then the future looks bleak. Scraping by when the economy is relatively stable is not a good sign for a new car company, and what happens when those battery costs skyrocket? No one is going to be willing to pay more than \$40k for a base Model 3.

--- TESLA CARS HAVE AWFUL BODY PANEL GAPS: You don't have to give a Tesla, specifically the Model 3, a thorough inspection to notice that there's an insane amount of space between the body in some parts and less in others. It's not an overly invasive issue, but when you're paying around \$35,000 for a car, there are a few minimum expectations that should be met. One of those is definitely a clean look. Each of the Tesla models has perfectly executed an aerodynamic style, with concealed handles and sleek lines, which makes the gap that much more noticeable to anyone who happens to glance in the direction of a Model 3. Since Tesla factory workers have been killing each other in Tesla's parking lot in Fremont, you can't expect too much from them.

--- DEADLY TESLA DOOR HANDLES: One of the most notable characteristics of every Tesla is their futuristic door handles that pop out with ease. The higher-end models have nice, metal handles with chrome finishes. However, if you happen to compare, say, a Model S to a Model 3, you'll immediately notice the lack of strength behind the latter's handles. Not only are the door handles on the Model 3 thinner, but they seem to be made with inferior materials to the higher-tier models. There have even been a few people who have had the door handles freeze to the car, leaving them unable to get inside. We have to note that there hasn't been a plague of door handle issues, so this isn't an official defect, but it's more of a cosmetic problem that could become a mechanical one in the future.

--- TESLA CARS ADD AWFUL INCONVENIENCE TO YOUR LIFE: The naïve car buyer is often led to believe that electric cars are all ponies and rainbows. However, many manufacturers acknowledge that we have yet to get everything down to a science. Plus, there's a learning curve for those new to EVs, which is why most semi-electric cars are still able to be powered with gasoline. The serious drawback with a Tesla is the lack of a safety net should the battery run dead. Jumper cables are entirely out of the question, which is why owners of EV's get anxiety on road trips and long-distance commutes. The remaining range can be inaccurate, potentially leaving a driver stranded if they don't judge their car's abilities correctly.

--- TESLA'S ALL LOOK ALIKE AND ARE NOW RUN-OF-THE-MILL: Although this isn't much of a shock at all, little fail to recognize the total lack of variety that's offered in the Tesla fleet. Of course, the higher-end models have prettier finishes and tend to look nice no matter what, but each and every Tesla is almost identical. This is obviously the case with everyday run-of-the-mill vehicles as well, but that's sort of the point, isn't it? If you're spending a good chunk of change to claim that over-hyped Tesla as your own, wouldn't it be nice if you at least had a decent amount of options to truly make it feel like your own? For what you're paying, it seems like there should already be a plethora of options.

--- ABOVE ALL ELSE: Tesla's battery system is the worst designed, most deadly, awful power system in history! IT WILL KILL YOU AND BURN YOUR FAMILY ALIVE, LIKE IT HAS DONE TO MANY TESLA VICTIMS

---Also see the additional Tesla issues, above, involving 'rare earth mines', 'lithium battery dangers', 'Elon Musk's constant use of "hit-men" and character assassins' to destroy competitors and reporters, the vast racism and women abuse and the dead workers poisoned in his battery factories around the globe.

AFGHANISTAN RARE EARTH CORRUPTION CREATED BY MUSK AND HIS SILICON VALLEY TECH CARTEL:

Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age.

--- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them.

--- WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.

--- A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their cronies, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.

--- Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.

--- Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

--- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole,

a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader.

--- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

--- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

--- Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills.

--- Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

--- Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla.

--- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

--- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies.

--- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals.

--- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins".

--- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose!

--- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

DEPT OF ENERGY CRONY SLUSH FUNDS SCAM CREATED BY MUSK AND HIS CRONY CARTEL:

Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and the United States Department of Energy as a stock market manipulation platform. --- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends.

--- If you are a taxpayer: You suffered damages!

--- If you are an American business: You suffered damages!

--- If you are Democracy: You were broken! --- If you were a tech mobster: You made out like a bandit!

--- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes!

--- The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds. -

--- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

--- The United States Department of Energy runs a political crony payola slush fund. They don't "support green cars"; they support "greenbacks for crony insiders who financed political campaigns". The U.S. Department of Energy violates anti-trust law by funding only the friends of The President and cutting out their competitors. The "Secretary Of Energy" is a paid actor who owns the companies that the government finances.

--- Competitors to White House financiers are specifically and illegally excluded from participation in funding, benefits, jobs and income by major political figures, including U.S. Senators and White House executives, and their Silicon Valley oligarch financiers. These corrupt politicians attack others who refuse to cooperate with their crimes including: 1.) sex trafficking, 2.) tax evasion, 3.) off-shore money laundering, 4.) political bribery quid-pro-quo, 5.) revolving door payola scams, 6.) foreign nation-sponsored domestic manipulations, 7.) stock market rigging, 8.) internet censorship, 9.) search engine manipulation and other crimes.

--- They attacked citizens who report their crimes to federal police. They also attack citizens who make products that obsoleted their products at Facebook, Google, Tesla, Netflix, etc. These corrupt politicians attack citizens using taxpayer-funded state resources. That is a felony violation of the law. The ongoing cover-up of these crimes and attacks is also a felony violation of the law. The victims are owed damages compensation, witness fees and back-pay

THE ELON MUSK PERSONAL PSYCHOLOGY REPORTS:

What a twisted, raging, sick pervert, narcissist, vengeful, anticompetitive, monopolistic, Goldman Sachs sucking mobster hit-man hiring mobster!

--- The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed.

--- Elon Musk, Larry Page, Steve Jurvetson and Jared Birchell hire Ex-CIA losers right after they are fired by the CIA, or directly from IN-Q-TEL or from Fusion GPS, Media Matters and other CYBER ASSASSIN KILL SERVICES. They send their hit men after competitors, reporters, ex-employees and whistle-blowers because they chose to CHEAT RATHER THAN COMPETE!

--- Elon Musk's "Twitter Purchase" is just a scam to sell his Tesla stock without the SEC or his old investors noticing: THEY NOTICED!

--- Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources!

--- We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects.

--- Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another.

--- Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess.

--- Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by, one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to.

--- Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. -

--- We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try.

--- Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up.

--- The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds.

--- Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors.

- His mother 'dated' all the white rich guys in South Africa while his father got his own daughter pregnant, killed some black guys and ran mining companies that treated blacks like slaves. Musk is the WHITE PRIVILEGE poster boy. His whole family are crooks, sex abusers and elitist bitches!

--- Musk is the POSTER BOY OF WHITE ANTI-BLACK PRIVILEGE

--- He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, starlets and sex parties.

--- He pays women for sex and pays other women not to disclose that he tried to sexually extort them. He paid Amber Heard at least \$500K for sex, paid his stewardess \$250K to report his sex abuse of her, and has a provider service via a layer of insiders.

--- His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions.

--- Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

ELON MUSK'S LITHIUM BATTERY LIES:

Elon Musk and the Senators he owns: Pelosi, Harris and Feinstein, will lie, until their dying day about these batteries that they all own stock in!

--- Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

--- Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

--- The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NICAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

--- A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

--- There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala

Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.

--- Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

--- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader.

--- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

--- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

--- The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

IN FACT...

...there are thousands of other HARD FACT reasons why Musk and Tesla don't deserve to be in business. If you are a media shill you won't want those news items disclosed. If you are a Silicon Valley Big Tech douche bag, you don't want those reasons disclosed. If you are an honest realist, you will demand the the government SHUT MUSK DOWN!

This web page is "wired", using comparative AI analysis software, to act as evidence proving that Google, Facebook and other tech companies manipulate server access and search results to help themselves and harm their competitors in violation of anti-trust laws and human rights standards. 48 hours after we confronted the White House press officers: Robert Gibbs and Jay Carney with our FBI-produced evidence, they were gone from their positions. The same for Secretary of Energy Steven Chu. The same for NHTSA boss David Strickland. Then AG Holder. Then Sara Winslow, the DOJ Chief of the Civil Division. It has happened over 100 times. Every corrupt government executive that reviews our evidence gets fired or forced to resign because our evidence is rock solid and people from FBI, GAO, CIA and Congress put that evidence together. Dirty politicians might have their insiders inside all of the government agencies but we have ours that: 1.) protect us, 2.) spy on the bad guys 24/7, 3.) outnumber the corrupt ones by 20:1 and always get their targets! Good always finally triumphs over evil!

House Speaker Nancy Pelosi's husband Paul bought up to \$5 million in stock of a computer chip company ahead of a vote on a bill next week that would hand billions in subsidies to boost chip manufacturing, a financial disclosure shows.

Paul Pelosi purchased 20,000 shares of Nvidia, one of the world's largest semiconductor companies, on June 17, [according](#) to the speaker's disclosure report released Thursday. Now, senators will convene as early as Tuesday to vote on a bipartisan competition bill, which allocates \$52 billion to boost domestic semiconductor manufacturing and gives tax credits for production, Reuters [reported](#) Thursday.

"It certainly raises the specter that Paul Pelosi could have access to some insider legislative information," Craig Holman, a government affairs lobbyist for the left-wing think tank Public Citizen, told the Daily Caller News Foundation. "This is the reason why there is a stock trading app that exclusively monitors Paul's trading activity and then its followers do likewise."

Nvidia is a multinational corporation that designs and manufactures graphics processors and other technology, and is heavily reliant on semiconductors. The House [passed](#) a bill in February that included \$52 billion in domestic subsidies for the semiconductor industry, and chip companies, including Nvidia, [demanded](#) Congress in June move forward on finalizing semiconductor subsidies for domestic manufacturing.

"The conference is stuck. And so it seems to me there are a couple of ways out of this, potentially," [said](#) Senate Minority Leader Mitch McConnell Tuesday, noting that the bill would have a better likelihood of passing without the \$52 billion funding for semiconductor manufacturing. The [#AmericaCOMPETES](#) Act will supercharge our investment in CHIPS, advance manufacturing at home, strengthen our supply chain, transform our research capacity and advance our competitiveness and leadership abroad, plus many other key provisions.

— Nancy Pelosi (@SpeakerPelosi) [January 25, 2022](#)

Republican South Carolina Rep. Ralph Norman told the DCFN the "optics" of Pelosi's stock disclosure "are horrible."

"Obviously Speaker Pelosi would be aware of the timing of this legislation over in the Senate," said Norman. "On the heels of that vote, for anyone in her orbit to purchase seven-figures worth of stock of an U.S.-based chip manufacturer just reeks of impropriety."

Paul Pelosi, who was [charged](#) with two alcohol misdemeanors in June after getting in a driving collision that led to his arrest, also disclosed that he sold up to \$250,000 worth of Apple stock and up to \$5 million worth of Visa stock. The speaker's husband is an [avid](#) stock trader and [purchased](#) more than \$6 million [worth](#) of Nvidia call options in 2021, filings show.
