Hello Admin,

A new user visited your website.

Here are the details :

Topic: How do I edit the profile once it was created?

Message Body:: This site is not very user-friendly. It took me awhile to figure out where to create a profile and now that I did it. I can't figure out how to see it or edit it. Can you explain? Or maybe put some more intuitive button somewhere so that it was easier to access and update? The "profile" under the box at the top banner of the site should allow you to also see your ad that you create. And the way that things are set up for searching is not very helpful. I like being able to choose my own age range, not having to pick from only 4-6 year ranges listed. I also like to be able to search for more things.

Email: info@epicarts.net

Name:: Leah

Thanks,
